This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

## Value-Added Reseller (VAR) Language

### Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.

(iii) the software component known as **Access Via**<sup>TM</sup> licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(iv) the software component known as **Adobe Flex**<sup>TM</sup> licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.

# Send Us Your Comments

Oracle Retail Furniture Retail System (FRS), VeriFone Payment Integration Guide,  
Release 1101

Oracle welcomes customers' comments and suggestions on the quality and usefulness of this document.

Your feedback is important, and helps us to best meet your needs as a user of our products. For example:

- Are the implementation steps correct and complete?
- Did you understand the context of the procedures?
- Did you find any errors in the information?
- Does the structure of the information help you with your tasks?
- Do you need different information or graphics? If so, where, and in what format?
- Are the examples correct? Do you need more examples?

If you find any errors or have any other suggestions for improvement, then please tell us your name, the name of the company who has licensed our products, the title and part number of the documentation and the chapter, section, and page number (if available).

---

---

**Note:** Before sending us your comments, you might like to check that you have the latest version of the document and if any concerns are already addressed. To do this, access the Online Documentation available on the Oracle Technology Network Web site. It contains the most current Documentation Library plus all documents revised or released recently.

---

---

Send your comments to us using the electronic mail address: [retail-doc\\_us@oracle.com](mailto:retail-doc_us@oracle.com)

Please give your name, address, electronic mail address, and telephone number (optional).

If you need assistance with Oracle software, then please contact your support representative or Oracle Support Services.

If you require training or instruction in using Oracle software, then please contact your Oracle local office and inquire about our Oracle University offerings. A list of Oracle offices is available on our Web site at [www.oracle.com](http://www.oracle.com).

---

---

# Preface

This guide describes the Furniture Retail System (FRS) user interface. It provides step-by-step instructions to complete most tasks that can be performed through the user interface.

## Audience

This user guide is for users and administrators of Oracle Retail Furniture Retail System (FRS). This includes merchandisers, buyers, business analysts, and administrative personnel.

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## Related Documents

For more information, see the in the Oracle Retail Furniture Retail System (FRS) Release 1101 documentation set.

## Customer Support

- To contact Oracle Customer Support, access My Oracle Support at the following URL:
- <https://support.oracle.com>
- When contacting Customer Support, please provide the following:
- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

## Improved Process for Oracle Retail Documentation Corrections

To more quickly address critical corrections to Oracle Retail documentation content, Oracle Retail documentation may be republished whenever a critical correction is needed. For critical corrections, the republication of an Oracle Retail document may at times **not** be attached to a numbered software release; instead, the Oracle Retail document will simply be replaced on the Oracle Technology Network Web site, or, in the

---

case of Data Models, to the applicable My Oracle Support Documentation container where they reside.

This process will prevent delays in making critical corrections available to customers. For the customer, it means that before you begin installation, you must verify that you have the most recent version of the Oracle Retail documentation set. Oracle Retail documentation is available on the Oracle Technology Network at the following URL:

<http://www.oracle.com/technetwork/documentation/oracle-retail-100266.html>

An updated version of the applicable Oracle Retail document is indicated by Oracle part number, as well as print date (month and year). An updated version uses the same part number, with a higher-numbered suffix. For example, part number E123456-02 is an updated version of a document with part number E123456-01.

If a more recent version of a document is available, that version supersedes all previous versions.

## Oracle Retail Documentation on the Oracle Technology Network

Oracle Retail product documentation is available on the following web site:

<http://www.oracle.com/technetwork/documentation/oracle-retail-100266.html>

(Data Model documents are not available through Oracle Technology Network. You can obtain them through My Oracle Support.)

## Conventions

**Navigate:** This is a navigate statement. It tells you how to get to the start of the procedure and ends with a screen shot of the starting point and the statement “the Window Name window opens.”

This is a code sample

It is used to display examples of code

---

---

# VeriFone Payment Integration Guide

## Overview

FRS offers the ability process payments via the VeriFone application. This document details how to configure and operate with VeriFone payment devices.

---

**Note:** This functionality is based around the Mx925 device. Please consult your Oracle | Micros and VeriFone representatives should you wish to use an alternative device.

---

Example VeriFone device (Mx925)

---

**Note:** Using VeriFone devices requires fixed IP addressing for payment devices on the network

---

## Configuration

### Application Parameters

Payments via VeriFone are controlled via the `USE_VERIFONE` and `VERIFONE_TCP_PORT` application parameters.

System Settings		All Companies	verifo	Find	Reset	Update	Close
		All-Companies Setting					
	USE_VERIFONE	<input checked="" type="checkbox"/>					
	VERIFONE_TCP_PORT	5015					

### Application parameters

---

**Note:** Configuration of the `USE_VERIFONE` parameter is not user amendable and must be configured by Oracle .

---

The following applies only when VeriFone payment processing has been switched on.

### Tender Groups

When defining a payment group the routine requires the specification of whether the payment group is to be processed as a non-VeriFone, credit, debit or gift transaction.

Tender Groups				New	Close
	Cash		<input type="checkbox"/>		
	Cheques		<input type="checkbox"/>		
	CreditCard		<input type="checkbox"/>	<input checked="" type="radio"/> Not VeriFone	<input type="radio"/> Credit
	Debit Card		<input type="checkbox"/>	<input type="radio"/> Debit	<input type="radio"/> Gift

### Set up tender groups

## Tender Type Bank Accounts

Having configured the tender groups and tender types active payments at location level require configuration.

When defining the payment types available at each location the system also allows the tender to be flagged as a payment processed via the VeriFone device via a tick box.

Tender Type Bank Codes				Main Showroom	Close
	Tender Type	Nominal Code	VeriFone Payment		
	12mths	Not in use at this location	<input type="checkbox"/>		
	2yr IFC	1200	<input type="checkbox"/>		
	4yr IFC	1200	<input type="checkbox"/>		
	6mths	4002	<input type="checkbox"/>		
	Administration	1200	<input type="checkbox"/>		
	American Express	1200	<input checked="" type="checkbox"/>		
	Bounced Cheque	Not in use at this location	<input type="checkbox"/>		

Set up tender type bank codes

## Device Registration

### Workstation

Prior to registering the device it is necessary to obtain the IP address of the VeriFone device which needs entering against the PC which will send data to the VeriFone device.

Work Stations											New	Close
Select Location: Main Street Carpet											IP Address Of This Work Station: =1	
	IP Address	EPOS ID	Description	Active	Default	Till Data Path	Customer Display Device	Is POS?	VeriFone Device?	VeriFone IP Address	Display Line Item?	
	192.168.50.165	Till 1	General Till - TL 1	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>		No Device Attached	<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>	

Set up workstations

The **VeriFone device** tick box must be ticked

Once the trading PC knows it can send data to a VeriFone device the next step is to link the PC to the device via the register function.

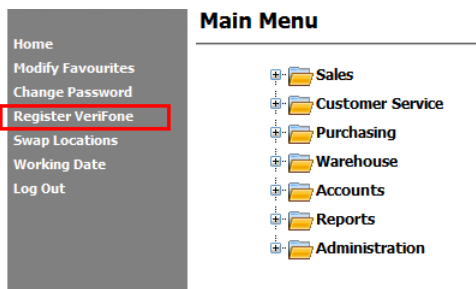

Each payment device needs registering prior to use. I.e. each PC must know which device it should communicate with.

In this document the PC has IP 192.168.50.155 and is to send payment instructions to the VeriFone device with IP 192.168.50.161

Work Stations											New	Close
Select Location: Main Street Carpet											IP Address Of This Work Station: 192.168.50.155	
	IP Address	EPOS ID	Description	Active	Default	Till Data Path	Customer Display Device	Is POS?	VeriFone Device?	VeriFone IP Address	Display Line Item?	
	192.168.50.165	Till 1	General Till - TL 1	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>		No Device Attached	<input type="checkbox"/>	<input checked="" type="checkbox"/>	192.168.50.161	<input type="checkbox"/>	

IP amendment

This is achieved via the **register VeriFone** option shown in the side menu.

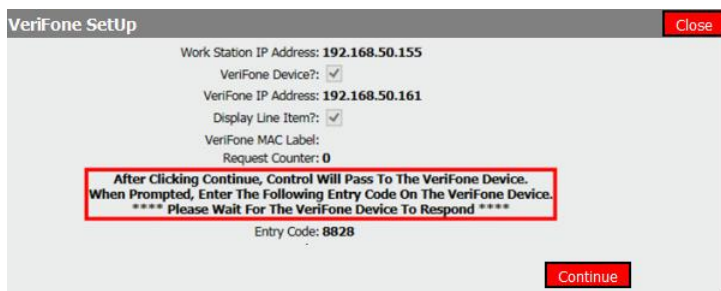

### VeriFone enabled menu

Selecting register VeriFone from the side menu generates a screen similar to that shown below -

### Registration part 1

To register a new association, choose the **register** button. This generates a screen similar to that shown below.

### Registration part 2

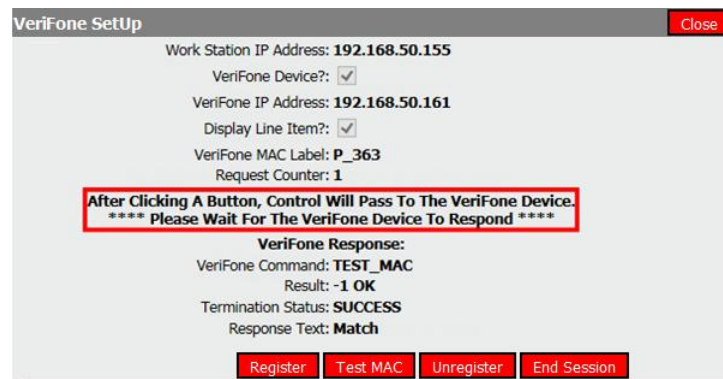

The system will provide a 4 digit registration code. To register the device click the **continue** button, the FRS screen will pause whilst the code is entered on the Mx925 device.

Successful registration will result in a page similar to that shown below -

### Registration part 3

The next step is to test the device by selecting the **Test MAC** button. Successful test will produce a screen similar to that shown below -

### Mac entry

If moving the device to another location or network ensure the **unregister** button is selected prior to disconnecting the device from the network.

The **end session** button is there as a safety net should the Mx925 lock and should be used only when necessary.

## Location Control

Having successfully registered the device the location should be configured.

The screenshot shows the 'Add/Edit Location' configuration interface. Key fields include:
 

- Location ID: 2
- Location Description: Highgate
- Company: Company 1
- Address 1: 10 Highgate
- Address 2: Little Bowing Ind est
- Postcode: NH2 4FD
- Telephone: 01235 554554
- Manager: Not Selected
- Can Order:
- I/O Stock Category: Not Selected
- I/O Stock Available To Sell:
- I/O Stock For Display:
- Can Receive:
- Can Deliver:
- Can Sell:
- Active:
- Upboard Mode:  On (Receptionist)
- VeriFone Offline Mode:  (highlighted with a red box)
- Distribution Point: Not Selected
- Go-live Date: 01/01/1990
- Auto-Add SKU: Select Range
- Auto-Delivery SKU: Select Range

### Set up locations

**Note:** If the VeriFone Offline Mode is provided for voice approval at this time this field should be un-ticked.

## Payments

Having registered the payment device FRS will expect financial transactions flagged as 'VeriFone' to be processed via the payment device.

The same process logic applies to order payments and unallocated / free standing customer payments.

Clicking accept payment produces the standard payment process screen

The screenshot shows the 'Sales Order Payment' screen with the following details:
 

- Customer: Member Number 1627
- Address: Rev N Hall, 121 Church Close, Anlaby, HULL, HU10 7DF
- Payment Branch: Main Showroom
- Till Number: Till 1
- Payment Date: 20/02/2015
- Sales Order Number: 2055
- Order Total: £16.77
- Payments To Date: £2.00
- Current Order Balance: £14.77
- Minimum Deposit: £3.36

 Below the details is a table for recording payments:
 

Tender Type	Reference	Payment Amount
Select		
Select		
Select		
Select		
Select		
Select		
Select		
Select		
Select		
Select		

 At the bottom right, there is a 'Total Payments:' label and a 'Finance' button. At the bottom left, there is a 'Deallocate' button. At the bottom right, there are 'Accept' and 'Cancel' buttons.

### Accept payments

Any tender types identified as being a 'VeriFone' transaction will cause the system to pause whilst payment is confirmed. A message similar to that shown below will be presented.

**Payment waiting for VeriFone**

**Note:** This process is repeated for each VeriFone payment entered in the accept payment screen.

Having pressed the **continue** button, FRS operation will pause until the payment processing is completed on the registered payment device when processing a payment against a sales order only.

On the Mx925 the screen will show the order line contents prior to requesting payment as shown below -

**Order detail**

The screen will then change and will wait for the card to be swiped.

**Card swipe**

The machine will then require the customer to sign the screen.

### Signature capture

Once completed, control will revert back to FRS, which will show a message similar to the examples below

### Payment confirmation

### Dual tender confirmation

To cancel the transaction the operator may select the **Cancel EDF** button (this sends a void instruction back to the Mx925 for processing)

Selecting the **payments confirmed** button completes the payment and brings the data into FRS.

Secondary payments can be processed via the accept payment button however if there has been a previous payment against the order using the same tender method the system will allow a follow on payment. (customer not present type transaction.)

### Secondary payment against same card

Processing a follow on payment is an automatic process on the Mx925 and requires no operation intervention to confirm the payment via the Mx925.

---

**Note:** The device will reject repeat payments for the same order, payment device, value on the same date / time frame (this feature does not exist for on-account payments)

---

---

---

FRS retains an record of the customers signature. This is not available for viewing within the application

---

---

## Refunds

When offering a refund previously paid via the Mx925 the system will require the operator to specify which payment the refund relates to.

Sales Order Refund							
Sales Order Number: 1272							
Customer: Mel Schmucker							
Tender Type	Account Number	Follow On	Cltroutd	Amount	Card Holder	Authorization	Date Paid
CC/Amex	373953****1004		446	72.8100	AMEX TEST	OK5645	2/16/2015
CC/Mastercard	373953****1004		445	15.7500	AMEX TEST	OK4895	2/16/2015
CC/Amex		441	444	900.0100		OK4065	2/16/2015
CC/Mastercard	373953****1004		442	20.0400	AMEX TEST	OK2625	2/16/2015
CC/Amex	373953****1004		441	10.0300	AMEX TEST	OK2515	2/16/2015
CC/Mastercard	373953****1004		436	20.0000	AMEX TEST	OK6977	2/16/2015
CC/Amex	373953****1004		435	10.0000	AMEX TEST	OK6717	2/16/2015

1

Other Refund

### Refund list

Selecting **other refund** should be used when refunding via an alternative payment method. Selecting an account number generate a refund page as shown below –

Sales Order Refund	
Customer: Customer Account: 2019 Mel Schmucker Apartment Apt. 2202 14500 Fruitvale Ave San Lawrence Terrace CALIFORNIA 93451 Home: -	Refund Store: Apple Valley stores (DH) Refund Date: 2/16/2015 Refund Type: CC Refund Reference: a Refund Amount: 20.04 VeriFone Refund: CC/Mastercard Account Number: 373953****1004 Card Holder: AMEX TEST
Sales Order Number: 1272 Order Total: \$64.86 Payments To Date: \$1,018.64 Minimum Deposit: \$19.46 Current Over Allocation: \$953.78 Current Unallocated Funds: \$0.00 Total Funds Available For Refund: \$953.78	Accept Cancel

### Refund details

Accepting the refund processes the refund via the Mx925 without the need for operator intervention and generates a confirmation screen, in FRS, as similar to that shown below.

Sales Order Refund	
Confirm or Cancel VeriFone Refund	
Payments Confirmed	Cancel EDF

### Confirmation

All payments are recorded against the customer / order and are fully audited.  
All payments will require 'cash reconciliation'.
