Note: The rebranding for the latest version of this documentation set is in development as part of post MICROS acquisition activities. References to former MICROS product names may exist throughout this existing documentation set.

1 Introduction

This document contains all the modifications made to Stores2 from the 1.27.0 version.

2 Useful Information

N.B.:

The fixes include all previous fixes starting from the Service Pack (i.e. the fix 1.27.3 will include all the fixes released starting from Service Pack 1.27.0).

2.1 External Modules

IMPORTANT: the following external modules must also be released with sp 1.27.0:

- S2_UC00.exe
- S2_UC02.exe
- S2_UC06.exe
- S2_UC15.exe replaces S2_UC13.exe
- S2_UC14.exe
- S2_UC16.exe (if you want to perform the archiving function on access databases)
- S2_UC18.exe (solves a problem related to the calendar, and it is necessary to install it at customers who use Epson cash registers)

so check which ones are already present in the installation and release the remaining ones.

The setup of this version already contains all these components (excluding S2_UC16.exe and S2_UC18.exe).

2.2 Host data interchange tracks

Make sure that the host data interchange tracks are always updated to the version in question (see document DOC.06.0145).

2.3 Changes to Stores2 database

If you need to make changes to the Stores2 database (add indexes, views, etc.) you need to follow the rules described in the document "MCR.09.0208.0.ADE-(en) - Customer changes to database.doc". Ask the Fortech technical department for the document.

3 List of modifications

3.1 Service Pack 1.27.0 release on 08/03/2011

This update brings the database level to the following values:

VersioneDatabase: 2740

VersioneFisicaDatabase: 2758

VersioneLogicaDatabase: 2714

3.1.1 Addition of new functionalities

- **Updates (olt 10205): addition of software update gradual release management (see doc DOC.11.0140.0.AO-(en) - Stores2 - 1.27.0 - Updates – Gradual software distribution and dynamic management of update levels.doc);**
- General (olt 10576): addition of background image management (see doc DOC.11.0134.0.AO-(en) - Stores2 - 1.27.0 - General – Background image management.doc);
- Traffic counter (olt 9614): addition of new traffic counter management (see DOC.11.0165.0.DB-(en) - Stores2 - 1.27.0 – New traffic counter interface);
- Sales - Fidelity (olt 10308 and 10549): new implementations for fidelity (combined discount scale and online)(see DOC.11.0145.0.DB-(en) - Stores2 - 1.27.0 - Sales – Implementations on Fidelity);
- Sales - Fidelity and Gift Card (olt 10400): modifications to be able to use a rate higher than zero (see DOC.11.0145.0.DB-(en) - Stores2 - 1.27.0 - Gift Card – Modifications to be able to use a rate higher than zero);
- Sales - Deposits (olt 10381): various implementations for deposits (see DOC.11.0177.0.DB-(en) - Stores2 - 1.27.0 – New developments for deposits);
- Sales - Promotions (olt 9510): it is now possible to limit the use of a promotion to not more than once per customer. A promotion with this feature is only applied to receipts

associated to customers (see DOC.11.0188.0.DB-(en) - Stores2 - 1.27.0 – One shot promotion management);

- Sales (olt 10273): issue of vouchers with value on purchases managed (see doc DOC.09.0412.5.AO-(en) - Stores2 - 1.27.0 - Sales – Promotion management.doc);
- Sales (olt 9616): modification to allow automatic deletion of receipts still suspended during data transmission, and the impossibility to close the cash register in the same case (see DOC.11.0144.0.DB-(it) - Stores2 - 1.27.0 – Automatic deletion of suspended receipts);
- Sales - Warehouses (olt 10276): addition of Duty-Free management (see doc DOC.11.0139.0.AO-(en) - Stores2 - 1.27.0 - Sales-Warehouses – Duty-free management.doc);
- Warehouse (olt 10039): the possibility has been added of limiting the use of some motives to only authorized users, thus to operator class level (see DOC.11.0145.0.DB-(en) - Stores2 - 1.27.0 - Warehouse- Authorization management on motives);
- Warehouses (olt 10522): modifications to wizard transfers and warehouse movements (see doc DOC.11.0137.0.AO-(en) - Stores2 - 1.27.0 - Warehouses – Modifications to wizard transfers.doc and doc DOC.11.0135.0.AO-(en) - Stores2 - 1.27.0 - Warehouses – Product entry block in movements from order.doc);
- Warehouses (olt 10631): modifications to return approval from head office management (see doc DOC.11.0136.0.AO-(en) - Stores2 - 1.27.0 - Warehouses – Modification to return approval from head office management.doc);
- Connections (olt 10333): addition of the possibility to perform the backup of the exporting to host database (see doc DOC.11.0138.0.AO-(en) - Stores2 - 1.27.0 - Connections – Data exporting to host database backup.doc);
- Host (olt 10740): modification of VersamentiTestate table extraction to host with the addition of information related to the ContoCorrente associated to the node;
- Statistics (olt 10499): it is now possible to extract the data related to cancelled and/or suspended receipts using the statistical source “6 – Incassato” (see doc DOC.11.0133.0.DB -(en)- Stores2 - 1.27.0 – Inclusion of records cancelled in FonteIncassato);

- Statistics (olt 9981): addition of the possibility of proposing pre-selected parameters by default (see DOC.11.0166.0.DB-(en) - Stores2 - 1.27.0 - Statistics – Default parameter management);

3.1.2 Improvements

- General (prb 100041): improvement of the display tool management on various screens;
- Online functions (prb 96655): optimization of online functions to manage any errors in the initialization phase for the S2_WebService module;

3.1.3 Corrections

- General (prb 104649): correction of index generation in the 'NodiDistribuzioneSoftware' table. The correct index name must be 'PK_NodiDistribuzioneSoftware';
- General (prb 102126): bypassing of the control on update.lck for clients with win7. A file with the name below needs to be created in the program installation folder (on the server): - 'NO_CHECK_UPD_LOCK_ALL.*'. Even with 0 Byte. This inhibits a check for all network clients including the master workstation;
- "NO_CHECK_UPD_LOCK_{computername}.*". Even with 0 Byte. This inhibits a check for the network client indicated in {computername}. (E.g. NO_CHECK_UPD_LOCK_RM-WXPP.txt);
In this case as many files can be created as are win7 PC in the company network;
- Sales (prb 103409): correct retrieval of the sequential receipt number if a suspended receipt is confirmed registered in the year before the previous one (in the 'daily' numbering management);
- Sales (prb 101820): correction of the price type change in the presence of a discount reason;
- Warehouses (prb 103764): correction of movement management via ftp;
- Statistics (prb 103343): correction of a product importing error from Excel file.
- Statistics (prb 103346): correction of button resizing for product importing from Excel sheet;

3.2 Fix 1.27.1 release on 13/04/2011

This update brings the database level to the following values:

VersioneDatabase: 2740

VersioneFisicaDatabase: 2768

VersioneLogicaDatabase: 2719

3.2.1 Addition of new functionalities

- General (olt 10516): Addition of customer exporting in ExportHeaderCheck (see doc DOC.11.0229.0.AO-(en) - Stores2 - 1.27.1 - General – Customer control in ExportHeader.doc);
- General (prb 106299): Addition of a control at program start-up to align the DbExchange collation with that of the main database of online return management is enabled;
- General (prb 107108): Addition of cleaning of return approval files not yet acquired. When Stores2 is started if the node is enabled for managing online returns and if files are found in the ..\Rx\Host folder they will be moved to the ..\Rx\Host\Trash folder and this movement will be reported in the log;
- Master data (prb 103238): A flag 'Enable in suspended movement management' has been added to the workstation, Portable scanner-Optical pen section, which is only visible by selecting the 'Standard' scanner. This flag enables suspended movement list management even with the standard scanner;
- Fidelity (olt 10228): Resizing of fidelity master data for 1024x768 resolution;
- Warehouses (prb 104597): Addition of the possibility to use the 'Adjust qty <= original' flag also on unload motives. This flag forces documents proposed by the head office with Automatic=0 and Suspended=1 to be confirmed with just decrease of the qty and not the addition;
- Sales (olt 10911): Addition of a second bracket for USA taxation with use of the limit (see doc DOC.11.0224.0.AO-(en) - Stores2 - 1.26.8-1.27.1 - Sales – Addition of a second bracket for USA taxation with use of the limit.doc);
- Sales (olt 10376): Modifications to privilege management (see doc DOC.11.0237.0.AO-(en) - Stores2 - 1.27.1 - Sales – Privilege management revision.doc);

- Sales (prb 105476): Addition of the possibility to print the complete product composition on sapel cash registers and generic printers (see doc DOC.11.0207.0.AO-(en) - Stores2 - 1.26.7-1.27.1 - Sales – Printing the complete product composition on the receipt.doc);
- Sales (prb 106404): Addition of complete product composition on driver S2_CR_GENWIN ;
- Deposits (olt 10756): Addition of automatic rounding management on the value to deposit (see doc DOC.11.0231.0.AO-(en) - Stores2 - 1.27.1 - Deposits – Rounding management in deposits with dynamic cash fund.doc);

3.2.2 Improvements

- General (olt 10455): Improvement of the program to delete the values from the 'Tecnologia' table during the database reconstruction phase;
- General (prb 105776): Improvement of stock reconstruction;
- Departments (prb 105446): Management of 'Non fiscal' and 'Allow fidelity point accumulation' flag for 'Gift card' and 'Voucher on line' type departments;
- Sales (prb 101777): Improvement of controls on fidelity customer selection/change with lines already entered. If the customer selection does not affect the value of the lines it can be done even after having entered lines;
- Sales (prb 107486): Improvement of Epson FP81/90 cash register error management;
- Connections (prb 105470): Improvement of generic table acquisition from host;

3.2.3 Corrections

- General (prb 106195): Correction of signature and hash code calculation for Portuguese taxation;
- General (prb 107074): Correction of filter management on warehouse block function from head office;

- Exporting to third parties (prb 101426): Correction of product code management set to more than 20 characters;
- Users (prb 104310, 105822): Correction of problems related to user password validation;
- Inventories (prb 105320): Correction of inventory approval management. If the inventory is rejected by the store if open in properties the form is still opened and displayed. The inventory needs to be reopened to make modifications;
- Products (prb 105339): Due to an incorrect program control, up to the version 1.25 it was possible to enter generic prices (without Nodo or ClasseNodoPrezzo) directly from the product master data. This possibility has been blocked and another control has been added to block 'incorrect' records during the editing phase;
- Departments (prb 106184): Management of 'Non fiscal' and 'Allow fidelity point accumulation' flag for 'Gift card' and 'Voucher on line' type departments;
- Customers (prb 105461): Correction of the customer list positioning for receipt management after having opened a customer in display;
- Customers (prb 105270): Addition of a control in the date of birth calendar to the customer master data form to indicate that during the saving phase the year may not be present. The control will be an optional flag called 'No year';
- Sales (prb 105246): Correction of automatic cash drawer opening during the sales closing phase with Olivetti Prt100fx cash register;
- Sales (prb 107030): Correction of product code reading management in the barcode field with the product display filter flag enabled;
- Sales (prb 105345): Correction of the S2_CR.dll module to allow correct printing of the customer points during receipt reprinting;
- Warehouses (prb 105897): Correction of loading of products contained in cancelled documents in the proposal phase for return lines from sales. Document restoration is managed;

- Warehouses (prb 106343): Correction of 'Paid' field value assignment in the lines of an order associated to a deleted movement;
- Statistics (prb 106830): Correction of the LIFO and FIFO value assignment query in the presence of the cost aggregation parameter;
- Statistics (prb 106007): Correction of statistics importing;
- Supplier orders (prb 106917): Correction of the summary message display for editable order rule;
- Supplier orders (prb 105340): Block of the copy of a supplier order sent by the head office with an order type that cannot be selected;

3.3 Fix 1.27.2 release on 28/04/2011

This update brings the database level to the following values:

VersioneDatabase: 2740

VersioneFisicaDatabase: 2786

VersioneLogicaDatabase: 2723

3.3.1 Addition of new functionalities

- Sales (olt 10927): Upgrade for Italian taxation to Milleproroghe Decree of April 2011 (see doc DOC.11.0245.0.AO-(en) - Stores2 - 1.26.8-1.27.2 - Sales – Mandatory customer information for receipts with amount greater than 3600 euro.doc);

3.3.2 Improvements

- General (prb 108573): Improvement of online function support table deletion when Stores2 is started during the database structure modification phase;
- Sales (prb 103675): Improvement of the data consistency control between 'MovimentiRighe' and 'MovimentiRigheQta';
- Warehouses (prb 107499): Introduction of a control during the movement closing phase which checks the date/time of any adjustment associated and created by a system external to Stores2 (CE);

3.3.3 Corrections

- Connections (prb 108834): Correction of data packet updating of previous versions in data acquisition phase;
- Inventories (prb 108671): Correction of inventory closing with physical quantity identical to accounting quantity;
- Sales (prb 108581): Correction of annual receipt numbering in the event of the sales of a previously suspended receipt;
- Sales (prb 108508): Correction of variable fidelity initialization during the heading data saving phase;
- Sales (prb 107259): Correction of receipt management with gift cards, sales, returns and with receipt splitting management;
- Sales (prb 106619): Correction of inhibition of 'Gift' payment types;
- Sales (prb 104856): Correction of the block in the promotion voucher reading phase on unauthorized stores;
- Sales (prb 99877): Correction of return management with fidelities by plafond;
- Fidelity (prb 100089): Addition of a flag to the master data form for fidelity with discount scale used to select whether to manage fidelity movements of other nodes. The summary screen of the condition still needs to be defined;
