Note: The rebranding for the latest version of this documentation set is in development as part of post MICROS acquisition activities. References to former MICROS product names may exist throughout this existing documentation set.

1 Introduction

This document contains all the modifications made to Stores2 from the 1.30.0 version.

2 Useful Information

N.B.:

The fixes include all previous fixes starting from the Service Pack (i.e. the fix 1.30.3 will include all the fixes released starting from Service Pack 1.30.0).

2.1 External Modules

IMPORTANT: the following external modules must also be released with sp 1.30.0:

- S2_UC00.exe
- S2_UC02.exe
- S2_UC06.exe
- S2_UC15.exe replaces S2_UC13.exe
- S2_UC14.exe
- S2_UC16.exe (if you want to perform the archiving function on access databases)
- S2_UC18.exe (solves a problem related to the calendar, and it is necessary to install it at customers who use Epson cash registers)
- S2_UC23.exe (installs the COMCT232.OCX module used for statistics and requiring administrative rights to be acquired)

so check which ones are already present in the installation and release the remaining ones.

The setup of this version already contains all these components (excluding S2_UC16.exe and S2_UC18.exe and COMCT232.OCX).

2.2 Host data interchange tracks

Make sure that the host data interchange tracks are always updated to the version in question (see document DOC.06.0145).

2.3 Changes to Stores2 database

If you need to make changes to the Stores2 database (add indexes, views, etc.) you need to follow the rules described in the document "MCR.09.0208.0.ADE-(en) - Customer changes to database.doc". Ask the Fortech technical department for the document.

3 List of modifications

3.1 Service Pack 1.30.0 release on 07/02/2012

This update brings the database level to the following values:

VersioneDatabase: 2740

VersioneFisicaDatabase: 3115

VersioneLogicaDatabase: 3011

3.1.1 Addition of new functionalities

- **Connections (olt 11523): The transfer of data extraction from other stores has only been changed for the head office. The new transfer is much faster but has a downside in that if there are errors it will not continue with the subsequent operations but will indicate the error in the log and terminate the connection. With this management sending stock from the head office is no longer included, it is necessary to enable on-line stock management;**
- Master data (olt 11879): This modification makes it possible to display node employees based on sorting of the "DipendentiNodo" table in the cashier and clerk master data forms (see doc DOC.12.0115.0.AO-(en) - Stores2 - 1.30.0 - Cashiers-Clerks - Displaying employees in cashier and clerk master data based on sorting.doc);
- Sales (prb 124776): Introduction of new driver for Epson FP81/90 and RCH Globe;
- Sales (olt 11425): Modification to on-line return management (see doc DOC.12.0117.0.AO-(en) - Stores2 - 1.30.0 - Sales - Changes to on-line customer return management.doc);
- Sales (olt 11903): Addition of courtesy phrase management on the receipt for fidelities by parameter (see doc DOC.12.0109.0.AO-(it) - Stores2 - 1.30.0 - Sales - Printing fidelity information by parameter on the receipt.doc);
- Sales (olt 10592): Addition of control management on cash payments (see doc DOC.11.0524.0.MB-(en) - Stores2 - 1.29.4-1.30.0 - Script setting for 2012 Tax Act (introduction of limit on amount of cash payment).doc);
- Sales (olt 11876): Addition of discount detail date activation management (see doc DOC.12.0111.0.AO-(en) - Stores2 - 1.30.0 - Sales - Discount detail printing exclusion date range management.doc);
- Connections (olt 11937): Addition of log table cleaning management (see doc DOC.12.0110.0.AO-(en) - Stores2 - 1.30.0 - Connections - PasswordLog and EventiSistema table cleaning.doc);
- Export to third parties (olt 11635): Modification of product and price master data extraction logic. Now along with the modified data, all the master data and prices contained in orders, movements, inventories and stock will be extracted (see doc DOC.07.0313.3.AO-(en) - Stores2 - 1.30.0 - Other - Export for third parties.doc);
- Label printing (olt 11801): Addition of reference price 2 management for outlet price lists (see doc DOC.12.0112.0.AO-(en) - Stores2 - 1.30.0 - Price lists - Reference price 2 management in quick price lists and label printing.doc);

- Deposits (olt 11803): Modification to electronic journal retrieval management on Epson FP81-90 (see doc DOC.12.0104.1.AO-(en) - Stores2 - 1.30.0 – Cash register closing – Electronic journal retrieval with Epson FP81-90.doc);
- Traffic counter (olt 11581): Addition of an interface for CheckPoint traffic counter from files (see doc DOC.12.0118.0.AO-(en) - Stores2 - 1.30.0 – Traffic counter - Checkpoint interface from files.doc);
- Traffic counter (olt 11750): Addition of Sensomatic Clarity 2 traffic counter interface (see doc DOC.12.0114.0.AO-(en) - Stores2 - 1.30.0 – Traffic counter - Sensomatic Clarity 2 interface.doc);

3.1.2 Improvements

- Connections (prb 125120): Modification to the message shown in connections during the acquisition phase of a document with date prior to that of the last inventory;
- Sales (prb 109165 and 12362): Improvement to receipt closing operations;

3.1.3 Corrections

- Master data (prb 124012): Correction of 'Codice risorsa' field management in department master data;
- Sales (prb 124961): Correction of zip code assignment in sales closing phase;
- Sales (prb 124613): Correction of pos payment management, with the “Disable further payments” flag enabled the program must prevent you from using more than one pos payment; with the “Allow multiple payments” flag enabled the program must allow you to select more than one type of pos payment, including of the same type; with no flag enabled the program must let you select more than one type of pos payment as long as they are not of the same type;
- Sales (prb 123385): Correction of birthday management at the same time as year change;
- Supplier orders (prb 119727): Correction of warning message management during the closing phase of a non-editable order (cancel key);

3.2 Fix 1.30.1 release on 22/02/2012

This update brings the database level to the following values:

VersioneDatabase: 2740

VersioneFisicaDatabase: 3120

VersioneLogicaDatabase: 3013

3.2.1 Addition of new functionalities

- Sales (olt 11281): Addition of Tax-Free Global blue driver interface (see doc MCR.11281.11.0422.0.LC-MR - (en) – TaxFree issue integration.doc);
- Sales (olt 11439): Addition of saving of the value taken from the promotion on price gross of line discounts (see doc DOC.12.0123.0.AO-(en) - Stores2 - 1.30.1 - Sales – Memorization of the price for sales with promotions.doc);

- Parcel management (prb 125961): Addition of a filter on cancelled movements in parcel management;

3.2.2 Improvements

- Connections (prb 126271): Modification to the new data extraction from head office transfer. If there is an error on a node, the program continues with the next node;

3.2.3 Corrections

- Traffic counter (prb 125841): Correction of the date conversion during the data acquisition phase from Storecount traffic counter;
- Emergency (prb 125834): Addition of a copy of the 'VariabiliLocali' table in the emergency database;
- Sales (prb 125737): Correction of clerk assignment on lines if the clerk node is different from the use node;
- Sales (prb 125513): Correction of plafond expiration date printing when the card is renewed;

3.3 Fix 1.30.2 release on 19/03/2012

This update brings the database level to the following values:

VersioneDatabase: 2740

VersioneFisicaDatabase: 3121

VersioneLogicaDatabase: 3017

3.3.1 Addition of new functionalities

- Vendite (olt 11427): Modification to on-line voucher management (see doc DOC.10.0429.1.AO-(en) - Stores2 - 1.30.2 - Sales – On-line voucher management.doc);
- Sales (olt 12027 and 12065): Addition of voucher expiration printing on non-fiscal printers and NCR RealPrint EJ printer (see doc DOC.11.0421.1.DB-AO-(en) - Stores2 - 1.30.2 - Sales – Printing voucher expiration and customer name.doc);
- Sales (olt 12040): Addition of interface for Axon TP07F fiscal printers (see doc DOC.12040.12.0166.0.MB - (en) - AXON TP07F cash register configuration (Italy).doc);

3.3.2 Corrections

- Connections (prb 105981): Correction of damaged CE update acquisition management. They are rejected and the error is reported in the log;
- Statistics (prb 109484): Correction of statistics importing from different DB versions;
- Sales-Customers (prb 126709): Correction of the selected customer display after the duplicate customer check function;

- Inventories (prb 126883): Addition of data saving control message by clicking ESC on the keyboard in count documents;
- Warehouses (prb 126954): Correction of on-line management on non-master workstations;
- Sales (prb 127352): Correction of customer saving on receipts reopened in properties;
- Promotions (prb 127367): Correction of saving of 'Exclude discounted products from the promotion' and 'Same product' flags in loyalty type promotions;
- Products (prb 127402): Correction of the last user's setting on ProdottiTaglie during the data acquisition from host phase and use of the retransmission tool;
- Sales (prb 128004): Correction of the breakdown of heading discounts on lines with different VAT rates;

3.4 Fix 1.30.3 release on 23/04/2012

This update brings the database level to the following values:

VersioneDatabase: 2740

VersioneFisicaDatabase: 3139

VersioneLogicaDatabase: 3024

3.4.1 Addition of new functionalities

- Traffic counter (olt 12104): Addition of device identifier management on microlog traffic counter (see doc DOC.11.0165.3.DB-AO-(en) - Stores2 - 1.30.3 - New traffic counter interface.doc);
- Host (olt 11471): Addition of field exported to host with the 'MovimentiDatiAggiuntivi' table (see doc DOC.12.0194.0.AO-(en) - Stores2 - 1.30.3 - Host - Exporting additional data to host.doc);
- Sales (olt 12109): Addition of the possibility of managing discount ranges in percentage promotions (see doc DOC.09.0412.10.AO-(en) - Stores2 - 1.30.3 - Sales - Promotion management.doc);
- General (olt 12057): Addition of voucher and advance payment migration management in the node copy (see doc DOC.12.0125.0.AO-(en) - Stores2 - 1.30.3 - General - MovimentiBuoniMerce migration in node copy phase.doc);

3.4.2 Corrections

- Master data (prb 130785): Addition of a message at the end of geographic node reconstruction to ask the user if he or she wants to set the data as transmitted;
- Host (prb 127644): Correction of the 'ProdottiVarianti' acquisition from host containing special characters;
- Host (prb 127770): Addition of transaction management in data extraction from host phase;

- Customers (prb 128685): Correction of 'BuoniMercedeElencoWork' support table generation during the customer opening from customer list phase;
- Connections (prb 128082): Correction of stock updating in movement acquisition from other stores for the same products contained in both suspended and confirmed loads;
- Connections (prb 128618): Correction of the 'DataOraTrasmissione' setting during the data extraction from head office phase;
- Connections (prb 129311): Correction of 'PriceChangeDetails ' table cleaning in connections
- Warehouses (prb 128728): Correction of label format selection during the parcel barcode printing phase to show only the parcel format;
- Statistics (prb 129092): Correction of the EndDay parameter management in filters by hour;
- Statistics (prb 128399): Addition of the possibility to manage the @NodoNonSede parameter as default for filters by node. By using this constant, if the statistic is used by the store, the node is selected, but if it is used by the head office no value is assigned to the default value.

3.5 Fix 1.30.4 release on 07/05/2012

This update brings the database level to the following values:

VersioneDatabase: 2740

VersioneFisicaDatabase: 3141

VersioneLogicaDatabase: 3024

3.5.1 Addition of new functionalities

- Sales (olt 12489): Addition of customer plafond information in receipt printing on NCR and Italy fiscal EPSON;

3.5.2 Corrections

- Master data (prb 129967): Correct redistribution of the space in the 'Data sorting' section in geographic nodes;
- Fidelity (prb 125514): Correction of the plafond calculation with returns in the presence of the 'Do not calculate the line discount on returns' flag;
- Supplier orders (prb 129492): Correction of cell coloring in supplier orders during use of the A-Z and Z-A ordering tool;
- Inventories (prb 129862): Correction to the management of proposed inventories. In the inventory propose and rejection state the user can no longer perform operations on count documents. The operator

who has the possibility of editing the transmitted documents may reopen a rejected inventory but cannot edit the proposed inventory or its count documents if transmitted;

- Sales (prb 129959): Correction of no paper management on epon fiscal cash registers;
- Sales (prb 130812): Correction of discount percentage printing management on the receipt of promotions in addition to other line percentage discounts. In this case the program will show the total and not the percentage;
- Statistics (prb 130818): Correction of data recalculation management for statistics which work on cancelled inventories;
- Connections (prb 130987): Modification in order not to export the adjustment to an incoming transfer in type 'C' packets if automatic transfer generation is enabled;
- Connections (prb 126504): Addition of the possibility to save the bardocecollo list broken down by product in Log_Exchange during the movement extraction and acquisition phase. For this function it is necessary to create a file with the name 'S2_Periferia_BarcodeCollo.debug' in the dll installation root;
- Connections (prb 130576): Correction of 'FidelityCondizioni' table data extraction;
