TECHNICAL DOCUMENTATION

Stores2 - 1.33.0 - Management of voucher expiration date by node

Report developed by:

MICROS-Retail srl with sole shareholder

Alessio Ossola

Version 1.00 of 19/06/2013

Table of contents

1 Introduction	3
2 Management of voucher expiration date by node	3
2.1 Configuration.....	3
2.1.1 <i>Departments</i>	3
2.1.2 <i>Geographic nodes</i>	4
2.2 Operation.....	5

Note: The rebranding for the latest version of this documentation set is in development as part of post MICROS acquisition activities. References to former MICROS product names may exist throughout this existing documentation set.

1 Introduction

As of the version 1.30.2 it is possible to define the voucher type, number of days before expiration and a resource code to use on departments. The change made to 1.33 makes it possible to customize the number of days before voucher expiration at geographic node level.

2 Management of voucher expiration date by node

2.1 Configuration

2.1.1 Departments

It will always be possible to manage a value for the "Giorni scadenza buoni" and "Codice risorsa" fields on departments. If the management is also configured on geographic nodes, only the indicated resource code will be used, the days will be taken from the node.

Annulla

2.2 Operation

If the "Expiration" flag is enabled on nodes, the voucher will use the date calculated based on the number indicated in the "Giorni" field as the expiration date. If the flag is enabled but the number of days = 0, this means that the voucher will never expire.
