## 1 Introduction

This function is used to create node employees, clerks and cashiers in sequence, maintaining certain fields between one screen and another.

## 2 Wizard for creating employees, clerks and cashiers

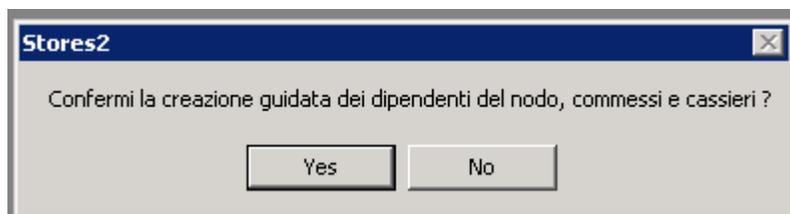

### 2.1 Configuration

The new "Personal wizard" needs to be added for the desired operator class.

### 2.2 Operation

By starting the new tool a data summary screen will open used to create the node employees, clerks and cashiers in sequence.
