This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

## **TECHNICAL DOCUMENTATION**

*Stores2 - 1.35.0 - Tax Free - Manual receipt number assignment*

Report developed by:

**MICROS-Retail srl with sole shareholder**

**Alessio Ossola**

Version 1.00 of 13/03/2014

## Table of contents

<b>1 Introduction .....</b>	<b>3</b>
<b>2 Manual receipt number assignment .....</b>	<b>3</b>
<b>2.1 Configuration.....</b>	<b>3</b>
<b>2.2 Operation.....</b>	<b>4</b>

**Note:** The rebranding for the latest version of this documentation set is in development as part of post MICROS acquisition activities. References to former MICROS product names may exist throughout this existing documentation set.

## 1 Introduction

This function is used to manually set the reference receipt number to print on the tax free.

## 2 Manual receipt number assignment

### 2.1 Configuration

A new "Allow manual Tax free number setting" flag has been added to Geographic nodes, Sales/TaxFree Options. It can only be enabled if the Number on the receipt is set to "1 Receipt number".

**Opzioni tax free**

Codice TaxFree: 03 Global Refund DLL

Stampa esclusiva tax free:

Obbligo clienti codificati in stampa Tax Free:

Abilita controllo di sequenza numerazione:

**Consenti impostazione manuale numero scontrino:**

**Numero su TaxFree: 1 Numero scontrino**

Prefisso numerazione:

Numero copie default:

Non consentire stampa in presenza di:

- Resi:
- Reparti:
- Servizi:

Buttons: OK, Annulla

## 2.2 Operation

During the tax free data definition phase, if the new flag on geographic nodes has been enabled, the user will have the possibility of manually indicating the receipt number to put on the tax free printout.

Example:

The screenshot shows a dialog box titled "Stampa Tax Free". It contains a section "Parametri Tax free" with the following fields and controls:

- Azienda: 99 Senza stampa
- Nome: [Empty text box]
- Indirizzo: [Empty text box]
- Stato: [Dropdown menu with icons]
- Passaporto: [Empty text box]
- Carta di credito: [Dropdown menu with icons]
- Data fine validità: [Empty text box]
- Numero: 1
- Numero Scontrino: 3
- Numero copie: 3

There are two checkboxes for "Numerazione automatica": one is checked (next to "Numero") and one is unchecked (next to "Numero Scontrino"). A red box highlights the "Numero Scontrino" field and its checkbox. On the right side, there are two buttons: "Conferma" and "ESC - Chiudi".

The receipt number calculated by the program will be given by default and the relative "Automatic numbering flag" will be enabled. By removing that flag, the text will be enabled for editing the receipt number.

The receipt number entered by the user will be the one actually printed on the tax free form.

The reference receipt number will still be the one on which the printout was performed.

For some managements (global blue online management) this change will not have any effect because it is necessary to show sequential numbering.
