TECHNICAL DOCUMENTATION

Stores2 - 1.37.0 - Stamping - Incomplete stamping alert

Report developed by:
MICROS-Retail srl with sole shareholder

Alessio Ossola

Version 1.00 of 24/10/2014

Table of contents

1 Incomplete stamping alert.....	3
1.1 Configuration.....	3
1.2 Operation.....	3

Note: The rebranding for the latest version of this documentation set is in development as part of post MICROS acquisition activities. References to former MICROS product names may exist throughout this existing documentation set.

1 Incomplete stamping alert

This change is used to show any incomplete stampings (stampings which only have an entrance or an exit) when Stores2 is started.

1.1 Configuration

The control on incomplete stamping needs to be enabled at general parameter level in the Other menu and the time level needs to be indicated for running the control (Past n° of days).

It will not be possible to enable it without indicating the number of days for running the control.

1.2 Operation

If the configurations shown in the previous paragraph are present, each time Stores2 is started it will check for the existence of incomplete stampings for the past "n" days and, if it detects any, it will display a warning for the user and a summary of the abnormal stampings.

Rilevazione timbrature anomale					
Sono state rilevate le seguenti timbrature anomale :					
Nodo	Codice	Dipendente	Data	Entrata	Uscita
282	004H	NICOLA JANE BACK	20/10/2014		9.38.00

282	001H	MASSIMILIANO LAMANTIA	24/10/2014		10.09.00

OK

The abnormal stampings will be ordered by date, employee code, entrance time and exit time; the data will not be logged.

Any incomplete stampings for the current day will also be shown (Only exit or two entrances without an exit yet).

The user can fix the stampings from the specific menu to manage employee hours.
