This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Note: The rebranding for the latest version of this documentation set is in development as part of post MICROS acquisition activities. References to former MICROS product names may exist throughout this existing documentation set.

1 Introduction

This document contains all the modifications made to Stores2 from the 1.36.0 version.

2 Useful Information

N.B.:

The fixes include all previous fixes starting from the Service Pack (i.e. the fix 1.37.3 will include all the fixes released starting from Service Pack 1.37.0).

WARNING: A license control function has been added as of version 1.37.1. Contact technical assistance before installing the version.

2.1 External Modules

IMPORTANT: the following external modules must also be released with Service Pack 1.37.0 if this has not already been done:

- S2_UC00.exe
- S2_UC02.exe
- S2_UC06.exe
- S2_UC15.exe replaces S2_UC13.exe
- S2_UC14.exe
- S2_UC16.exe (if you want to perform the archiving function on access databases)
- S2_UC18.exe (solves a problem related to the calendar, and it is necessary to install it at customers who use Epson cash registers)
- S2_UC23.exe (installs the COMCT232.OCX module used for statistics and requiring administrative rights to be acquired)
- S2_UC27.exe (if exporting stock and calendars for Send Sale management)

so check which ones are already present in the installation and release the remaining ones.

The setup of this version already contains all these components (excluding S2_UC16.exe, S2_UC18.exe, S2_UC23.exe and S2_UC27.exe).

2.2 Host data interchange tracks

Make sure that the host data interchange tracks are always updated to the version in question (see document DOC.06.0145).

2.3 Changes to Stores2 database

If you need to make changes to the Stores2 database (add indexes, views, etc.) you need to follow the rules described in the document "MCR.09.0208.0.ADE-(en) - Customer changes to database.doc". Ask the Fortech technical department for the document.

3 List of modifications

3.1 Service Pack 1.37.0 release on 01/11/2014

This update brings the database level to the following values:

VersioneDatabase: 2740

VersioneFisicaDatabase: 3917

VersioneLogicaDatabase: 3525

3.1.1 Addition of new functionalities

- Sales (Olt 14725): Addition of online management for customer return guided search (see doc DOC.13.0404.1.AO-(en) - Stores2 - 1.37.0 - Sales – Changes to goods return management);
- Sales (Olt 15305): Addition of automatic rounding management for cash payment type (see doc DOC.14.0311.0.AO-(en) - Stores2 - 1.37.0 - Sales – Cash rounding management for foreign currency.doc);
- Deposits (Olt 15481): Addition of shortage and surplus management for cash payment type of deposits (see doc DOC.14.0312.0.AO-(en) - Stores2 - 1.37.0 - Deposits – Cash shortage management.doc);
- Inventories (Olt 15485): Increase of the maximum number of zones to 1000 and addition of the possibility of retrieving warehouse documents from the last inventory zones (see doc DOC.14.0310.0.AO-(en) - Stores2 - 1.37.0 - Inventories-Warehouses – Copy inventory zones in warehouse documents.doc);
- Employee hours (Olt 15298): Addition of incomplete stamping display during Stores2 opening phase (see doc DOC.14.0309.0.AO-(en) - Stores2 - 1.37.0 - Stamping – Incomplete stamping alert.doc);
- General (Olt15893): Upgrade of Stores2 to SQL 2012;
- Promotions (Olt 13707, 15464, 15624): Modification of promotion master data management to improve product importing and fidelity and addition of a cleaning procedure for expired promotions (see doc DOC.09.0412.18.AO-(en) - Stores2 - 1.37.0 - Sales – Promotion management.doc);
- Polish taxes (Olt 15194): Addition of the possibility of creating associations between good load and unloads to adapt to Polish taxation (see doc DOC.14.0313.0.AO-(en) - Stores2 - 1.37.0 - Connections – Cost consolidation for Polish taxation.doc);
- Warehouses (Olt 15351): Modifications to value assignment management of goods returns based on the load (see doc DOC.13.0351.1.AO-(en) - Stores2 - 1.37.0 - Warehouses – Goods return document value assignment based on the load.doc);

- Fidelity (Olt 15625): Addition of the possibility of unlinking the Nazione Loyalty from the geographic node country. A "" parameter to assign with the selected geographic node parameter has been added to the Sales section in fidelity options in general parameters. If this field has a value assigned it will be used in place of the country code to assign a value to the "loyaltynation" field in the call to Webservice;
