This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Technical Documentation:

Stores2 - 1.39.0 - Vendite - Verifica campi obbligatori cliente in fase di selezione clienti

Indice degli argomenti

1	Introduzione	3
2	Verifica campi obbligatori cliente in fase di selezione clienti	3
2.1	Configurazione	3
2.2	Funzionamento	3

Note: The rebranding for the latest version of this documentation set is in development as part of post MICROS acquisition activities. References to former MICROS product names may exist throughout this existing documentation set.

1 Introduzione

Questa funzione integra la modalità già esistente di controllo campi compilati sulla scheda cliente.

2 Verifica campi obbligatori cliente in fase di selezione clienti

La gestione di controllo campi introdotta nella tabella "ElenchiFiltriCampi" utilizza il campo "Obbligatorio" per vincolare l'utente al riempimento di tutte le informazioni necessarie. Questa gestione però non esegue controlli su clienti già presenti nel database.

L'introduzione del campo "ChkSelezione" permetterà di eseguire anche questo controllo.

2.1 Configurazione

La configurazione va eseguita direttamente tramite query, valorizzando a 1 il campo "ChkSelezione" della tabella "ElenchiFiltriCampi" per quei campi che si vorranno controllare in fase di selezione del cliente.

2.2 Funzionamento

In fase di selezione di un cliente, il programma controllerà che tutti i campi contrassegnati con il campo ChkSelezione siano valorizzati. In caso contrario vincolerà l'utente a sistemare la scheda anagrafica del cliente con le informazioni mancanti.
