

Oracle® Retail Brand Compliance Management Cloud Service

Release Notes

Release 1.10.0.21

November 2017

Note: The rebranding for the latest version of this documentation set is in development as part of post MICROS acquisition activities. References to former MICROS product names may exist throughout the existing documentation set.

This document highlights the major changes and fixes made for Release 1.10.0.21 of Oracle Retail Brand Compliance Management Cloud Service.

Note: Release number 1.10.0.20 was skipped.

Overview

Oracle Retail Brand Compliance Management Cloud Service is an integrated suite of applications designed to meet all aspects of sourcing, developing, and protecting retailer brands. The suite provides solutions for product development, compliance, quality, and traceability. It is designed specifically for retail, food service, and manufacturing businesses to develop and protect their brands, manage their suppliers, and ensure full end-to-end product lifecycle management.

The suite is composed of the following applications:

- myLibrary - enables the issue, receipt, and acceptance of policies, guidelines, and key working documents.
- myProduct - supports the development of products and production specifications.
- myProject - supports the development of project briefs, plans, and workflow management.
- mySupplier - enables the identification, selection, and approval of suppliers.

Fixed Issues

The following tables list issues fixed in this release:

Table 1 General Fixed Issues

Defect Number	Description
26551105	Global Change batch job messages A fix is made to rectify an issue where a spurious message was being issued by the Product Technologist Responsibility Global Change batch job.
26954668, 27164633	Overdue UIM Activities Error A fix is made to rectify an error during the login of a user who has overdue tasks in their Urgent Items Manager app.

Table 2 myReports Fixed Issues

Defect Number	Description
24754117	Reports not showing up-to-date Recipe data A fix is made to rectify an issue where reports were not showing up-to-date data for QUID Statements and Country of Origin from the specification's Recipe and Raw Materials section. The issue was due to the way parameter values were being cached. The cache is now cleared prior to each reporting data refresh.
25097397	External users included in myLibrary reports A fix is made to rectify an issue where external (supplier) users were included in the readership log of an internal myLibrary report.
26746991	Lead Technologist on an Audit excluded from reports A fix is made to rectify an issue where a Lead Technologist on an audit who is no longer an Auditor (that is, does not appear in the "Show in lists...") was being excluded from the reports data.

Table 3 mySupplier Fixed Issues

Defect Number	Description
26941605	Error when creating a Supplier Contact A fix is made to rectify an error when creating a new supplier contact with mandatory roles, and assigning the user account. The problem occurred where Supplier Contact custom fields were set up, and the custom fields included a rich text type of field.
27148997	Error when linking Sites A fix is made to rectify an error when linking a site to another site within the Linked Sites page of the Site record.

Table 4 myProduct Fixed Issue

Defect Number	Description
27057869	Error when using Advanced Search for Specifications A fix is made to rectify an error when searching for Product Specifications and Produce Specifications using the Advanced Search facility.

Post Release Tasks

There are no specific post release tasks that need to be done as part of this release.

Note: If a reporting release has also been arranged for your maintenance upgrade (see specifically 24754117, 25097397, and 26746991), then you should ensure that all of your current scheduled reports and any future scheduled reports are updated so that they are no longer scheduled to run at the same time as the reporting is doing its full 24 hour refresh.

Please discuss this with your CSM if required.

The Reporting Scheduler refresh task runs at midnight and will take up to an hour to complete. During this time no reports can be run, so start times of scheduled reports may need to be adjusted accordingly.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
