# Preface

# 1.1. Intended Audience

This document is intended for the following audience:

- Customers
- Partners

# 1.2. Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <a href="http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc">http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc</a>.

# 1.3. Access to OFSS Support

https://support.us.oracle.com

# 1.4. Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual

Chapters are dedicated to individual transactions and its details, covered in the User Manual

# 1.5. Related Information Sources

For more information on Oracle FLEXCUBE Core Banking Release 5.2.0.0.0, refer to the following documents:

Oracle FLEXCUBE Core Banking Licensing Guide

Query

# Query

# CLN50 - Search\*

Using this option the collector can search the cases on different criteria's. The various search criteria's are customer short name, customer IC and customer ID. The system displays the account number and the name. Using the **Follow-Up Query** (Fast Path: CLN55) option, the collectors can follow up the accounts which are displayed at different priority level.

#### **Definition Prerequisites**

- 8053 Customer Opening
- Accounts to be opened for the customers.

#### Modes Available

Not Applicable

#### To search the customer

- 1. Type the fast path CLN50 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Query > Search.
- 2. The system displays the **Search** screen.

#### Search

Search		
Search Criteria :  Search String : Cust ID : Customer Accounts	Name :	
		Clear Close

Field Name	Description					
Search Criteria	[Mandatory, Drop-Down]					
	Select the search criteria from the drop-down list.					
	It is the selection criteria for the account to be searched.					
	The options are:					
	Customer Short Name					
	Customer Ic					
	Customer Id					
Search String	[Mandatory, Alphanumeric, 30]					
	Type the value according to the search criteria selected in the corresponding field.					
Cust ID	[Display]					
	This field displays the customer ID.					
	It is ID of the selected customer.					
Name	[Display]					
	This field displays the name of the selected customer.					
Customer Accounts						
Account #	[Display]					
	This field displays the account number of the customer.					
Name	[Display]					
	This field displays the name of the customer to whom the account belongs.					
3. Select the search	criteria from the drop down list.					

- 4. Enter the search string and press the **<Tab>** key.
- 5. The system displays the records based on the search criteria.

#### Search

Search		
Search Criteria : Customer Id v Search String : 603733 Cust ID : 603733 Customer Accounts	Name : RAMA K P	
	Account # Name 09995410007733 RAMA K P	
	09995410007937 RAMA K P	
		Clear Close

- 6. Select the appropriate record.
- 7. Click the **Close** button.

# CLN55 - Follow-Up Query\*

Using this option collector can decide on the priority to follow up the cases in this mode. It displays all the cases assigned to a collector. All the accounts of the login collectors are displayed in red, green and yellow color.

Red color indicates accounts to be followed up for the day and not yet followed up. Green colour indicates accounts to be followed up for the day and followed up. Yellow color indicates accounts of future dates.

#### **Definition Prerequisites**

· Collector should have open cases assigned

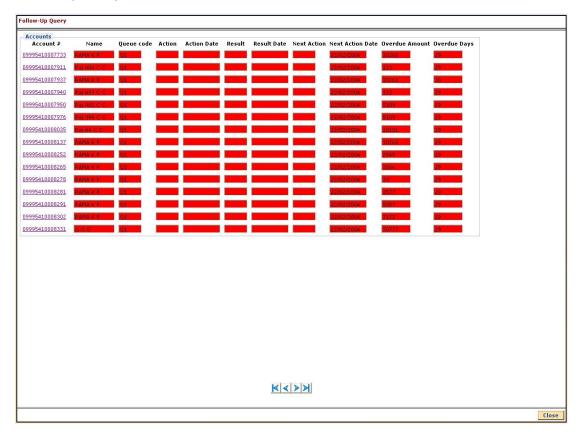

#### **Modes Available**

Not Applicable

#### To follow up query

- 1. Type the fast path CLN55 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Query > Follow Up Query (List Mode).
- 2. The system displays the Follow-Up Query screen.

#### **Follow-Up Query**

ORACLE

Column Name	Description
Accounts	
Account #	[Display] This column displays the account number of the customer.
Name	[Display] This column displays the name of the customer to whom the account belongs.
Queue code	[Display] This column displays the code of the queue to which the account belongs.
Action	[Display] This column displays the type of the action taken to execute an activity.
Action Date	[Display] This column displays the date on which the action is taken.
Result	[Display] This column displays the output of the action.
Result Date	[Display] This column displays the date of the output action.
Next Action	[Display] This column displays the next action taken on the basis of the results from the first action.
Next Action Date	[Display] This column displays the date for the next action.
Overdue Amount	[Display] This column displays the amount which is due for payment and is not paid till date.

Field Name	Description
Product Details	
Product code	[Display] This field displays the product code.
Product Name	[Display] This field displays the product name.
CodCcy	[Display] This field displays the currency code. It is displayed on the basis of the loan product.
Term	[Display] This field displays the total number of months in which the loan amount is repaid.

Field Name	Description
Financial Details	
Loan Amount	[Display] This field displays the actual amount disbursed for loan.
Total Interest	[Display] This field displays the total interest on the loan amount.
Penalty	[Display] This field displays the overdue charges on the loan levied as a penalty.
Fee	[Display] This field displays the processing fees for the loan.
Total Principal	[Display] This field displays the total principal as part of the loan amount.
Principal Paid	[Display] This field displays the total amount of the principal paid.
Penalty Paid	[Display] This field displays the amount of penalty charges paid.
Fee Paid	[Display] This field displays the amount of total fee paid.
Amount Paid Today	[Display] This field displays the amount paid today but not applied to the account.
Interest Paid	[Display] This field displays the total interest paid.
Overdue Amount	[Display] This field displays the amount which is due for payment and is not paid till date.
Overdue Days	[Display] This field displays the number of days after the installment is due.
Min. Amount Due	[Display] This field displays the minimum amount which is due for payment.
Cycle String	[Display] This section displays the cycle string. This is the number of times an account falls in the cycle (0-30, 31-60, etc.).

Field Name	Description
Delinquency string(for last 12 months)	[Display] This section displays the delinquency string. Delinquency string for the last 12 months will display whether any installment was overdue that month (value will be 0 – if not overdue, 1- overdue).
Customer Notes	
Notes	[Display] This field displays the notes. It is the remark for the customer.
User	[Display] This field displays the name of the user.
Last Action/Result (	Last 3 Action/Result)
Action	[Display] This field displays the action taken for the recovery of the loan. For e.g. reminder to a customer.
Action Date	[Display] This field displays the day on which the action is taken.
Result	[Display] This field displays the output of the action.
Result Date	[Display] This field displays the result date.
Next Action	[Display] This field displays the next action. Next action is taken on the basis of the results from the first action. For e.g. The result for the first action is, customer promised to pay, so the next action will be sending the reminder to the customer for the payment.
Next Action Date	[Display] This field displays the date for the next action.
Collector	[Display] This field displays the name of the collector.
Notes	[Display] This field displays the brief description or the remarks by the collector.
Auth Status	[Display] This field displays the status of authorisation if the next action needs authorisation.

# **Demo Details**

Demo details tab displays the demographic details of the customer. Demographic details include Customer's Address details and Customer ID etc.

Column Name	Description
Stage No.	[Display]
	This column displays the stage number.
	If the loan amount is big, then the loan is disbursed in various stages. Each stage of disbursement has unique stage number.
Installment No.	[Display]
	This column displays the installment number.
	The repayment of loan is divided into number of installment. Each installment has an installment number.

Column Name	Description
Installment Date	[Display] This column displays the date on which the installment for loan is paid.
Principal Amount	[Display] This column displays the total amount of the loan. Interest is not included in the principal amount.
Interest Amount	[Display] This column displays the additional charge on the principal amount.
Installment Outstanding	[Display] This column displays the installment due for payment.
Charges Outstanding	[Display] This column displays the outstanding charges. These charges are due for payment.
Outstanding Principal	[Display] This column displays the principal amount due for payment.
Days	[Display] This column displays the number of days overdue for an installment.

# **Payment Details**

Payment details tab displays the information about the payments made by the customer towards his account.

Column Name	Description
Installment Date	[Display]
	This column displays the due date of the installment.
Principal	[Display]
	This column displays the principal.
	Principal is the total loan amount excluding interest.
Principal Paid	[Display]
	This column displays the total amount of the principal that is already paid.
Interest	[Display]
	This column displays the interest.
	Interest is the surplus amount which is charged on the principal amount.

Column Name	Description
Interest Paid	[Display] This column displays the actual amount paid as an interest.
Penalty And Other Charges	[Display] This column displays the penalty and other charges. The penalty and other charges are the extra charges excluding principal and interest. For e.g. processing fees, registration charges, etc.
Penalty And Other Charges Paid	[Display] This column displays the amount of penalty and other charges paid if the due amount is not paid on time.
Fee	[Display] This column displays the total fee for processing the loan.
Fee Paid	[Display] This column displays the total amount of fee that is already paid.

# **Activity Hist**

Activity history tab displays the list of activities that has been done on an account as part of the follow-up activities.

### **Field Description**

Field Name

Description

**Delinquency Details** 

Field Name	Description
Non Starter	[Display] This field displays the non starter status of the account. The check box is selected if the account is a non starter account. Non starter accounts are the accounts, wherein customers do not pay the first due installment.
Peak OD Days	[Display] This field displays the maximum number of overdue days of an account.
Peak OD Amount	[Display] This field displays the maximum amount overdue for an account.
No. Of Times Delinquent	[Display] This field displays the number of times the account is delinquent.
No. Of Times Self Cured	[Display] This field displays the number of times the account is delinquent and is cured on its own.
No. Of OD A/C (Self)	[Display] This field displays the number of times the account is overdue where the borrower is an account holder.
Total OD Amount (Self)	[Display] This field displays the total overdue amount. It is the total amount due by the loan account holder.
No. Of OD A/C (Group)	[Display] This field displays the number of overdue account. It displays the number of accounts, where the customer is a group customer.
Total OD Amount (Group)	[Display] This field displays the total overdue amount. It displays the total amount due as a group customer.
Written Off	[Display] This field displays the written off status of the account. The check box is selected if the account is marked as write off.
Last Resolution	

Last resolution displays the details of the resolved account.

Date

[Display] This field displays the date of the resolution i.e. when the account was last resolved and moved out of collection.

Field Name	Description
Collector Group	[Display] This field displays the collector group.
Collector	[Display] This field displays the name of the collector who was working on it.
Action Taken	[Display] This field displays the details of the action taken, when the account was resolved.
Action Summary	
Total Attempts	[Display] This field displays the number of attempts made to resolve the case.
Success Attempts	[Display] This field displays the success attempts for the action. For e.g. If the customer promises to pay the amount and the PTP is not breached.
No. Of PTPs	[Display] This field displays the number of times the PTP is received as result.
No. Of PTPs Kept	[Display] This field displays the number of times the PTP is fulfilled.
No. Of PTPs Broken	[Display] This field displays the number of times the PTP is broken.
Consecutive Broken	[Display] This field displays the number of times the PTP is consecutively breached.
Next Bucket Movem	ent
Flow Date	[Display] This field displays the flow date.
Flow Days	[Display] This field displays the flow days.

## Auth/Esc Hist

Authorization/escalation tab display the history of authoriszations and escalation that is performed on an account.

Field Name	Description
Account No	[Display] This field displays the account number for the follow-up.
Action Code	[Display] This field displays the action applicable to the collector group for the case.
Action Date	[Display] This field displays the process date.
Result Code	[Display] This field displays the result applicable to the selected action.
Result Date	[Display] This field displays the process date.
Amount	[Display] This field displays the PTP amount that is paid in the followup.
Next Action Code	[Display] This field displays the future action applicable to the selected action/result.
Next Action Date	[Display] This field displays the future date for the action.
Reason Code	[Display] This field displays the code assigned to each reason. It gives the reason for delinquency.
Person Contacted	[Display] This field displays the name of the person contacted in the follow- up.
Notes By Collector	[Mandatory, Alphanumeric, 4000] Type the notes by collector. It is the brief description of the follow-up by the collector.

- 9. Enter the relevant information and click the **Ok** button.
- 10. The system displays the Followup By Collector screen.

# CLN30 - Group Follow-Up\*

Using this option field collector can follow up on one or more cases. All the accounts are displayed; the collector can select the number of accounts and can take the appropriate action. On selecting the option **Select All**, the collector can follow-up all the accounts assigned.

#### **Definition Prerequisites**

• Collector should have open cases assigned

#### Modes Available

Not Applicable

#### To perform group follow up

- 1. Type the fast path CLN30 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Follow Up > Group Follow Up.
- 2. The system displays the Group Follow-Up screen.

#### **Group Follow-Up**

#### **Field Name** Description Select All [Optional, Check Box] Select the Select All check box to select all the accounts in the list of collector accounts for follow-up. **Column Name** Description Account No. [Display] This column displays the account number of the customer. Name [Display] This column displays the name of the customer. **Queue Code** [Display] This column displays the name and code of the queue to which the account belongs. State [Display] This column displays the state in which the account is currently lying. **Total Overdue** [Display] Amount This column displays the total overdue amount for each account. Last Action Code [Display] This column displays the code of the last action performed on the account. Last Action Date [Display] This column displays the date on which the last action was performed on the account. Last Result Code [Display] This column displays the last result code. Last Result Date [Display] This column displays the last result date. **Next Action Code** [Display] This column displays the future action code to be performed on the account. **Next Action Date** [Display] This column displays the future date for the action.

Column Name	Description
Note Collector	[Display] This column displays the note for the collector.
Select	[Optional, Check Box] Select the <b>Select</b> check box to pick a particular account in the list of collector accounts for follow-up.
3. Select the accou	Int number(s) by clicking the <b>Select</b> check box.

4. Enter the relevant information and click the **Follow-Up** button.

5. The system displays the Follow-Up Sub screen.

Authorization

Authorization

# CLN28 - Authorize By Supervisor\*

Certain cases need the authorisation by supervisor for the next action chosen by the collector, example: VIP cases.

Using this option a supervisor can authorise the next action taken by the collector during the follow-up. All the accounts of the customers are displayed in the **Multiple Account** tab. The system displays details on delinquency, collaterals, installments, payments, insurance etc.

#### **Definition Prerequisites**

• Supervisor should have cases assigned to him for authorisation

#### Modes Available

Not Applicable

#### To authorize by supervisor

- 1. Login as a supervisor.
- 2. Type the fast path CLN28 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Authorization > By Supervisor.
- 3. The system displays the Authorize By Supervisor screen.

#### Authorize By Supervisor

Field Name	Description
Filter	[Mandatory, Pick List] Select the appropriate filter/name from the pick list. This is disabled for supervisor authorisation.
Phone (R)	[Display] This field displays the residence phone number of the borrower.
Phone (O)	[Display] This field displays the office phone number of the borrower.
Mobile No	[Display] This field displays the mobile phone number (if available) of the borrower.
No. of A/Cs Pending for Authorization	[Display] This field displays the number of accounts which are pending for authorisation.
Account No	[Display] This field displays the account number selected by system or by collector for follow-up. The customer name is displayed in the corresponding field.
Status	[Display] This field displays the status of the account number.
Customer Id	[Display] This field displays the customer ID of the borrower. The customer ID is auto-generated by the system.
Address	[Display] This field displays the address of the borrower.
State	[Display] This field displays the state.
Zip	[Display] This field displays the zip code.
Collector	[Display] This field displays the name and code of collector to whom the case is allocated.

Field Name	Description
Supervisor	[Display] This field displays the name and code of the supervisor attached to the collector group.
Workflow	[Display] This field displays the name and code of the current work flow of the account number.
State	[Display] This field displays the state in which the account is lying currently.
Queue	[Display] This field displays the name and code of the queue to which the account belongs.
Excp Collector	[Display] This field displays the exception collector of the queue to which the case belongs.
Special Code	[Display] This field displays the special code attached to the case, if any.

- 4. Select the filter criteria.
- 5. Click on the **Go** button.
- 6. The system displays the first record to be authorized by the supervisor.

### Multiple A/c s

Multiple accounts tab gets enabled only when the customer has multiple accounts. This tab displays the information about the multiple accounts of the same customer.

Column Name	Description
Select	[Optional, Check Box] Select the check box to follow up the account.
Account No.	[Display] This column displays the account number of the customer.
Loan Amount	[Display] This column displays the loan amount disbursed for each account.
Overdue Days	[Display] This column displays the overdue days for each account.
Installment Amount	[Display] This column displays the installment amount for each account.

Column Name	Description
Total Overdue Amount	[Display] This column displays the total overdue amount for each account.
Branch	[Display] This column displays the branch of the account.
Product	[Display] This column displays the type of the product.
Account Balance	[Display] This column displays the balance on the account.
Cycle String	[Display] This column displays the number of times an account falls in the cycle (0-30, 31-60, etc.).
Delinquency String (For Last 12 Months)	[Display] This column displays the delinquency string. Delinquency string for the last 12 months will display whether any installment was overdue that month (value will be 0 – if not overdue, 1- overdue).
Plan ID	[Display] This column displays the plan ID.

### **Account Details**

Account details tab displays the account details of the delinquent customer.

Information available in this section is displayed from the host system and is non editable in collections. This information is used by collectors while they take follow - up actions.

Field Name	Description
Product Details	
Product code	[Display] This field displays the product code.
Product Name	[Display] This field displays the product name.
CodCcy	[Display] This field displays the currency code. It is displayed on the basis of the loan product.

Field Name	Description
Term	[Display] This field displays the total number of days in which the loan amount is repaid.
Financial Details	
Loan Amount	[Display] This field displays the actual amount disbursed for loan.
Total Interest	[Display] This field displays the total interest on the loan amount.
Penalty	[Display] This field displays the overdue charges on the loan levied as a penalty.
Fee	[Display] This field displays the processing fees for the loan.
Total Principal	[Display] This field displays the total principal as part of the loan amount.
Principal Paid	[Display] This field displays the total amount of the principal paid.
Penalty Paid	[Display] This field displays the amount of penalty charges paid.
Fee Paid	[Display] This field displays the amount of total fee paid.
Amount Paid Today	[Display] This field displays the amount paid today but not applied to the account.
Interest Paid	[Display] This field displays the total interest paid.
Overdue Amount	[Display] This field displays the amount which is due for payment and is not paid till date.
Overdue Days	[Display] This field displays the number of days the installment is due.
Min. Amount Due	[Display] This field displays the minimum amount which is due for payment.

Field Name	Description
Cycle String	[Display] This section displays the number of times an account falls in the cycle (0-30, 31-60, etc.).
Delinquency string (for last 12 months)	[Display] This section displays the delinquency string. Delinquency string for the last 12 months will display whether any installment was overdue that month (value will be 0 – if not overdue, 1- overdue).
Customer Notes	
Notes	[Display] This field displays the notes. It is the remark for the customer.
User	[Display] This field displays the user name.
Column Name	Description
Last Action/Result (L	.ast 3 Action/Result)
Action	[Display] This column displays the action taken for the recovery of the loan. For e.g. reminder to a customer.
Action Date	[Display] This column displays the day on which the action is taken.
Result	[Display] This column displays the output of the action.
Result Date	[Display] This column displays the result date.
Next Action	[Display] This column displays the next action taken on the basis of the results from the first action. For e.g. The result for the first action is, customer promised to pay, so the next action will be sending the reminder to the customer for the payment.
Next Action Date	[Display] This column displays the date for the next action.

Column Name	Description
Collector	[Display] This column displays the name of the collector.
Notes	[Display] This column displays the brief description or the remarks by the collector.
Auth Status	[Display] This column displays the status of authorisation if the next action needs authorisation.

Field Name	Description
Borrower Type	[Mandatory, Pick List] Select the borrower type from the pick list. It displays the type of borrower based on the relationship of the customer with the loan account. For e.g. SOW.
Customer ID	[Display] This field displays the customer identification number.
Name	[Display] This field displays the name of the customer.
Marital Status	[Display] This field displays the marital status of the customer.
Mailing Address	
Address Line1	[Display] This field displays the first line of the mailing address of the customer.
Address Line2	[Display] This field displays the second line of the mailing address of the customer.
Address Line3	[Display] This field displays the third line of the mailing address of the customer.
City	[Display] This field displays the city name.
State	[Display] This field displays the state name.
Zip	[Display] This field displays the zip code.
Permanent Address	
Address Line1	[Display] This field displays the first line of the permanent address of the customer.
Address Line2	[Display] This field displays the second line of the permanent address of the customer.

Field Name	Description
Address Line3	[Display] This field displays the third line of the permanent address of the customer.
City	[Display] This field displays the city name.
State	[Display] This field displays the state name.
Zip	[Display] This field displays the zip code.
Phone Details	
Phone (R)	[Display] This field displays the residence phone number of the borrower.
Phone (O)	[Display] This field displays the office phone number of the borrower.
Mobile No	[Display] This field displays the mobile phone number of the borrower.
Email ID	[Display] This field displays the e-mail ID of the borrower.

## **Collateral Details**

Asset detail is the detail description of the assets of the customer. These details are available in collection only if the asset details are captured at the time of Loan Application Processing in FCR.

[Display]
This field displays the collateral ID.
[Display] This field displays the collateral code.
[Display] This field displays the collateral currency
[Display] This field displays the home branch.
[Display] This field displays the document code.
[Display] This field displays the non standard collateral.
[Display] This field displays the primary description.
[Display] This field displays the secondary description.
[Display] This field displays the chasis number. Chasis is a framework of an automobile.
[Display] This field displays the engine number.
[Display] This field displays the registration number.

Field Name	Description
Model Name	[Display] This field displays the model name.
Mfg Year Month (YYYYMM)	[Display] This field displays the manufacturing year and month of the automobile.
Description 1	[Display] This field displays the primary description.
Description 2	[Display] This field displays the secondary description.
Financial Securities	
Financial Security Code	[Display] This field displays the financial security code.
Financial Security Currency	[Display] This field displays the financial security currency.
Number of Units	[Display] This field displays the number of units.
Total Value of Securities	[Display] This field displays the total value of the security.
Series Number 1	[Display] This field displays the primary series number.
Series Number 2	[Display] This field displays the secondary series number.
Property Coll.	
Location	[Display] This field displays the location of the property.
Cost Price	[Display] This field displays the actual cost of the property.
Area Unit	[Display] This field displays the measurement parameter for the property. For e.g. hectares, square feet, etc.
Total Area	[Display] This field displays the actual area of the property.

Field Name	Description
Type of Property	[Display] This field displays the type of property. For e.g. apartments, bungalow, penthouse, land/plot, etc.
Date of Lease Expiry	[Display] This field displays the date of lease expiry.
Forced Sale Value	[Display] This field displays the forced sale value.
Quit Rent Value	[Display] This field displays the quit rent value.
Description 1	[Display] This field displays the primary description.
Description 2	[Display] This field displays the secondary description.
Coll. Header	
Type of Charge	[Display] This field displays the type of charge.
Name of Lender	[Display] This field displays the name of lender.
Asset Class	[Display] This field displays the asset class.
Make	[Display] This field displays the make.
Model	[Display] This field displays the model.
Coll Valuation Data	
Original Value	[Display] This field displays the original value of the collateral.
Date of Valuation	[Display] This field displays the valuation date of the original value of the collateral.
Last Value	[Display] This field displays the last value.

_	Field Name	Description
	Date of Valuation	[Display] This field displays the valuation date of the last value of the collateral.
	Market Value	[Display] This field displays the market value.
	Valuation Source	[Display] This field displays the valuation source.
	Valuation Edition	[Display] This field displays the valuation edition.
	Valuation Supplement	[Display] This field displays the valuation supplement
	Account Insurance	
	Insurance Plan Code	[Display] This field displays the insurance plan code.
	Insurance Policy Number	[Display] This field displays the insurance policy number.
	Assured Value	[Display] This field displays the assured value.
	Amount Block Recovery	[Display] This field displays the recovery amount block.
	Maturity Date	[Display] This field displays the maturity date.
	Next Premium Due Date	[Display] This field displays the next premium due date.
	Insurance Premium Billing	[Display] This field displays the insurance premium billing.
	Manual	[Display] This field displays the manual.
	Premium Billing Account	[Display] This field displays the premium billing account.
	Percentage	[Display] This field displays the percentage.

Field Name	Description
Insurance Premium Amount	[Display] This field displays the insurance premium amount.
Coll. Deeds	
Status of Deeds	[Display] This field displays the status of deeds.
Name of Custodian	[Display] This field displays the name of custodian.
Date Deeds Sent	[Display] This field displays the date on which the deeds were sent.
Expected Return Date	[Display] This field displays the expected return date.
Deed Details	[Display] This field displays the deed details.
Registering Authority	[Display] This field displays the registering authority.
Guarantee	
Guarantor	[Display] This field displays the name of the guarantor of the collateral ID.
From Date	[Display] This field displays the date from which the guarantee is applicable for the collateral.
To Date	[Display] This field displays the date till which the guarantee is applicable for the collateral.
Status	[Display] This field displays the status of the guarantor.
Comments	[Display] This field displays the comments, if any.

## **Inst Details**

Installment tab displays the details of the installment like installment schedule, Principal amount, interest amount etc.

Column Name	Description
Stage No.	[Display]
	This column displays the stage number.
	If the loan amount is big, then the loan is disbursed in various stages. Each stage of disbursement has unique stage number.
Installment No.	[Display]
	This column displays the installment number.
	The repayment of loan is divided into number of installments. Each installment has an installment number.
Installment Date	[Display] This column displays the date on which the installments for the loan is paid.

Column Name	Description
Principal Amount	[Display]
	This column displays the principal amount.
	Principal amount is the total amount of the loan. Interest is not included in the principal amount.
Interest Amount	[Display]
	This column displays the additional amount charged on the principal amount.
Installment	[Display]
Outstanding	This column displays the installment due for payment.
Charges	[Display]
Outstanding	This column displays the charges due for payment.
Outstanding	[Display]
Principal	This column displays the principal amount due for payment.
Days	[Display]
	This column displays the number of days overdue for an installment.

## **Payment Details**

Payment details tab displays the information about the payments made by the customer towards his account.

Column Name	Description
Installment Date	[Display]
	This column displays the due date of the installment.
Principal	[Display]
	This column displays the principal, which is the total loan amount excluding interest.
Principal Paid	[Display]
	This column displays the total amount of the principal that is already paid.
Interest	[Display]
	This column displays the interest.
	Interest is the surplus amount which is charged on the principal amount.

Column Name	Description
Interest Paid	[Display] This column displays the amount paid as an interest.
Penalty And Other Charges	[Display] This column displays the penalty and other charges. The penalty and other charges are the extra charges excluding principal and interest. For e.g. processing fees, registration charges, etc.
Penalty And Other Charges Paid	[Display] This column displays the amount of penalty and other charges paid if the due amount is not paid on time.
Fee	[Display] This column displays the total fee for processing the loan.
Fee Paid	[Display] This column displays the total amount of fee that is already paid.

# **Activity Hist**

Activity history tab displays the list of activities that has been done on an account as part of the follow-up activities.

Column Name	Description
Activity Date	[Display] This column displays the execution date of the activity.
Activity	[Display] This column displays the activity. The activity can be system driven or user driven.
Activity Details	[Display] This column displays the activity details, like whether it is the case of reallocation or reassign.
Collector	[Display] This column displays the name of the collector who has executed the activity.
Action	[Display] This column displays the type of the action taken to execute an activity.
Result	[Display] This column displays the final result of the action taken on the activity.
Next Action	[Display] This column displays the next action to be performed. It depends on the result of the action taken at the initial stage.

# Coll Log

Collection log tab allows Collector to display history of Action/Result taken place till date.

Column Name	Description
Collector	[Display] This column displays the name of the collector.
Collector Group	[Display] This column displays the name of the collector group, to which the collector belongs.
Workflow Code	[Display] This column displays the workflow code attached to the account.
State Code	[Display] This column displays the state code. It the status of the account in the workflow. There are various stages in recovery of the outstanding money due from the customer. For e.g. Promise to Pay, Customer breaks PTP or call customer on mobile.

Column Name	Description
Action	[Display] This column displays the action taken on the account in the workflow state.
Action Date	[Display] This column displays the day on which the action was taken.
Result	[Display] This column displays the result of the action.
Result Date	[Display] This column displays the date of the result.
Overridden Next Action	[Display] This column displays the automated action which was overridden by another action.
Next Action	[Display] This column displays the next action. It depends on the result of the action taken earlier.
Next Action Date	[Display] This column displays the date of the next action.
Notes By Collector	[Display] This column displays the notes by collector. Notes by collector are comments added by collector during follow-up.

## **PTP History**

This tab displays the history of the promises received by the collector for an account during the follow-up.

## **Field Description**

Field Name

Description

**Delinquency Details** 

Field Name	Description
Non Starter	[Display] This field displays whether the account is a non starter account. Non starter accounts are the accounts, wherein customers do not pay the first due installment.
Peak OD Days	[Display] This field displays the maximum number of overdue days of an account.
Peak OD Amount	[Display] This field displays the maximum amount overdue for an account.
No. Of Times Delinquent	[Display] This field displays the number of times the account is delinquent.
No. Of Times Self Cured	[Display] This field displays the number of times the account is delinquent and is cured on its own.
No. Of OD A/C (Self)	[Display] This field displays the number of times the account is overdue where the borrower is an account holder.
Total OD Amount (Self)	[Display] This field displays the total amount due by the loan account holder.
No. Of OD A/C (Group)	[Display] This field displays the number of accounts, where the customer is a group customer.
Total OD Amount (Group)	[Display] This field displays the total amount due as a group customer.
Written Off	[Display] This field displays whether the account is marked as write off. The written off check box is selected if the account is marked as write off.
Last Resolution	
Last resolution display	ys the details of the resolved account.
Date	[Display] This field displays the date of the resolution i.e. when the account was last resolved and moved out of collection.
Collector Group	[Display] This field displays the collector group.

Field Name	Description
Collector	[Display] This field displays the name of the collector who was working on it.
Action Taken	[Display] This field displays the details of the action taken, when the account was resolved.
Action Summary	
Total Attempts	[Display]
	This field displays the number of attempts made to resolve the case.
Success Attempts	[Display]
	This field displays the successful result for the action.
	For e.g. If the customer promises to pay the amount, and the PTP is not breached.
No. Of PTPs	[Display] This field displays the number of times the PTP is received as result.
No. Of PTPs Kept	[Display] This field displays the number of times the PTP is successful.
No. Of PTPs Broken	[Display] This field displays the number of times the PTP is unsuccessful.
Consecutive Broken	[Display] This field displays the number of times the PTP is consecutively breached.
Next Bucket Movem	ent
Flow Date	[Display] This field displays the flow date of the next bucket movement.
Flow Days	[Display] This field displays the number of flow days of the next bucket movement.

## Auth/Esc Hist

Authorization/escalation tab display the history of authorisations and escalation that is performed on an account.

Repossession

## **CLN62 - Initiate Repossession\***

Assets have to be repossessed from customers in case of bad loans. Repossession involves ordering the repossession, repossessing the asset, storing it in a warehouse, valuate the asset and finally dispose the asset.

Using this option you can initiate the re-possession of the assets of the account of a customer.

#### **Definition Prerequisites**

• Accounts assigned to the collectors.

#### **Modes Available**

Not Applicable

#### To initiate repossession

- 1. Type the fast path **CLN62** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Repossession > Initiate Repossession**.
- 2. The system displays the Initiate Repossession screen.

#### **Initiate Repossession**

## **CLN63 - Collateral Auctioning\***

Once the assets are repossessed they need to be disposed by auctioning.

Using this option you can maintain the records of the auctioning of the assets of a customer. It also contains the details of the various sales quotes made for the asset. The organization can initiate the sale of the asset based on the quotes entered in the system. This provides a better management and control for asset sale.

#### **Definition Prerequisites**

• CLN62 - Initiate Repossession

#### Modes Available

Not Applicable

#### To view the collateral auctioning records

- 1. Type the fast path CLN63 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Repossession > Collateral Auctioning.
- 2. The system displays the Collateral Auctioning screen.

#### **Collateral Auctioning**

## **CLN64 - Collateral Disposition\***

Using this option you can maintain the sale details of the auctioned assets of a customer and the details of the new buyer to whom the asset will be sold. This is useful to complete the audit trail for the resale process.

Once the assets are repossessed they will be disposed by auctioning using the **Collateral Auctioning** (Fat Path: CLN63) option. After this the auctioned details need to be maintained in the system.

#### **Definition Prerequisites**

• CLN63 - Collateral Auctioning

#### **Modes Available**

Not Applicable

#### To select the buyer for the asset

- 1. Type the fast path **CLN64** and click **Go** or navigate through the menus to **Transaction Processing > Collection Transactions > Repossession > Collateral Disposition**.
- 2. The system displays the **Collateral Disposition** screen.

	The options are:
	Customer short name: The short name of the customer.
	<ul> <li>Customer IC: The identification criteria (IC) arrived at by the bank during customer addition.</li> </ul>
	• Customer ID: The unique identification given by the bank.
Search String	[Mandatory, Alphanumeric, 20]
	Type the search string, to search for a customer, corresponding to the search criteria selected in the <b>Search Criteria</b> field.
	If the search criterion is specified as customer's short name or IC then any of the letter(s) of the short name or IC can be entered. The system displays the pick list of all those customers having those letters in their respective criteria.
	Choose the appropriate customer from the existing customer list.
	For example, The customer's short name is George Abraham. One can search the above customer by entering Geo in the <b>Search String</b> field.
Cust ID	[Display]
	This field displays the ID of the customer.
	A customer ID is an identification number, generated by the system after customer addition is completed successfully. This running number, unique to a customer across the system, is generated after the system has identified the customer IC and the customer category combination to be non-existent in the system. This ID is used for searching and tracking the customer in the system.
Note	[Mandatory, Alphanumeric, 240]
	Type the special note for the customer.
Column Name	Description
Notes History	
Sr. No.	[Display]
	This column displays the serial number for the note.

Column Name	Description
Notes	[Display]
	This column displays the special note added for the customer.
By Collector-Name	[Display]
	This column displays the name of the user who added the note for the customer.
Entered On	[Display]
	This column displays the date on which the note was created for the customer.

- 4. Enter the search string and press the **<Tab>** key.
- 5. Select the customer for whom the note is to be added.
- 6. The system displays the notes history for the selected customer.
- 7. Enter the new note to be added.

Reallocation

## CLN32 - Collectorwise Re-allocation\*

Using this option you can reallocate the open cases to different collectors. The exception cases cannot be reallocated. The collectors can follow-up these cases using the **Group Follow Up** (Fast Path: CLN30) option.

#### **Definition Prerequisites**

• Collectors should be defined

#### Modes Available

Not Applicable

#### To reallocate cases collectorwise

- 1. Type the fast path CLN32 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Reallocation > Collectorwise Re-allocation.
- 2. The system displays the Collectorwise Re-allocation screen.

#### **Collectorwise Re-allocation**

- 6. Click the **Ok** button.
- 7. The system displays the message "Record Modified Successfully.. Click Ok to continue". Click the **Ok** button.

## CLN33 - Reallocation (Queue wise)\*

Using this option you can manually change the collector assigned to a particular open case during reallocation in a particular queue.

#### **Definition Prerequisites**

- Queues should be defined
- Collectors should be defined

#### **Modes Available**

Not Applicable

#### To reallocate cases queuewise

- 1. Type the fast path CLN33 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Reallocation > Reallocation (Queue wise).
- 2. The system displays the **Reallocation (Queue wise)** screen.

#### **Reallocation (Queue wise)**

- 6. Click the **Ok** button.
- 7. The system displays the message "Record Modified Successfully. Click Ok to continue". Click the **Ok** button.

## CLN34 - Reallocation (Individual)\*

Using this option you can manually change the collector assigned to a particular open case during reallocation.

For the given account number, you have to select the new collector and collector group.

#### **Definition Prerequisites**

• Collectors should be defined

#### Modes Available

Not Applicable

#### To reallocate cases individually

- 1. Type the fast path CLN34 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Reallocation > Reallocation (Individual).
- 2. The system displays the **Reallocation (Individual)** screen.

#### **Reallocation (Individual)**

# CLN35 - Temporary Re-Allocation\*

A collector is a person who will follow up with the case.

Using this option, you can manually change the collector assigned to a particular open case during reallocation. The case will remain reallocated to the new collector till the Till Date. However, a temporary reallocated case cannot be reallocated again until Till date.

# **Definition Prerequisites**

- Collector should be defined
- Cases should be allotted to the collectors

#### Modes Available

Not Applicable

#### To temporary re-allocate a collector

- 1. Type the fast path CLN35 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Reallocation > Temporary Re-Allocation.
- 2. The system displays the **Temporary Re-Allocation** screen.

Field Name	Description
From Collector	[Mandatory, Pick List] Select the ID of the collector who has open cases that can be reallocated from the pick list.
	The collector name is populated in the corresponding field.
From Collector	[Mandatory, Pick List]
Group	Select the group ID of the collector whose cases will be reallocated from the pick list.
	The collector group name is populated in the corresponding field.
To Collector	[Mandatory, Pick List]
	Select the ID of the new collector to whom the cases will be reallocated from the pick list.
	The collector name is populated in the corresponding field.
To Collector Group	[Display]
	This field displays the group of the collector to whom the cases will be reallocated.
	The group name is displayed in the corresponding field.
Till Date	[Mandatory, dd/mm/yyyy]
	Type the date till which the reallocation will be valid.
Column Name	Description
Parameter	
(	[Display] This column displays the opening bracket for forming a condition.
Parameter	[Mandatory, Pick List]
	Select the reallocation parameter from the pick list.
	Based on the selected parameter, the criterion of reallocation is defined and attached to queue code.
Description	[Display]
	This column displays the description of the parameter selected in the adjacent field.

Column Name	Description
Operator	[Mandatory, Pick List]
	Select the arithmetic operators used in the condition from the pick list.
	The options are:
	• *
	• +
	• -
	• /
Condition	[Optional, Pick List]
	Select the condition from the pick list.
	Condition is a criterion for a queue. User has to enter the condition by selecting the parameter.
Value Flag	[Mandatory, Pick List]
	Select the value flag from the pick list.
	The value flag specifies whether the value evaluated with the operator/ condition selected will be a fixed or variable.
	The options are:
	F: Fixed Value
	V: Parameter to be evaluated
Value	[Mandatory, Alphanumeric, 40]
	Type the value.
	The value is defined based on the condition.
Parameter	[Conditional, Pick List]
	Select the queue parameter from the pick list.
	The criteria of a queue is defined and attached to the queue code on the basis of the selected parameter.
Description	[Display]
	This column displays the description of the parameter selected in the adjacent field.
Logical Operator	[Conditional, Pick List]
	Select the operator used to join the two conditions/predicates specified with AND/OR from the pick list.
)	[Display]
	This column displays the closing bracket for forming a condition.
Formula Expression	[Display]
-	This column displays the condition which is created

- 3. Select the collector and collector group whose cases are to be re-allocated from the pick list.
- 4. Select the collector and collector group to whom the cases will be reallocated from the pick list.
- 5. Enter the other relevant information.

# **Exception Case Marking**

# CLN29 - Exception Case Marking\*

Using this option the collector can mark a case as an exceptional case if he wants that case to be handled by an exception collector.

This is the code which collector can attach to the account based on the type of the customer e.g. special code can be VIP. The cases which are ready for follow-up can be marked/unmarked for exception or the code which collector can attach to the account based on the type of the customer. The cases which are ready for follow-up can be marked/ unmarked for exception or added as a special code by the collector.

# **Definition Prerequisites**

- Collector should be defined
- Special codes should be defined

# Modes Available

Not Applicable

# To mark the exception case

- Type the fast path CLN29 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Exception Case Marking > Exception Case Marking.
- 2. The system displays the Exception Case Marking screen.

Requeue

# Requeue

# CLN37 - Re-queue\*

Using this option the cases lying in a particular queue can be re-queued again during EOD activity. You can select one or more queues to re-queue. At EOD all the cases in the selected queues will be re-queued i.e. will undergo queue creation again.

# **Definition Prerequisites**

• Queries should be defined

# **Modes Available**

Not Applicable

#### To re-queue a case

- 1. Type the fast path CLN37 and click Go or navigate through the menus to Transaction Processing > Collection Transactions > Requeue > Re-queue.
- 2. The system displays the **Re-queue** screen.

### **Re-queue**
