Preface

1.1. Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2. Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3. Access to OFSS Support

<https://support.us.oracle.com>

1.4. Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual

Chapters are dedicated to individual transactions and its details, covered in the User Manual

1.5. Related Information Sources

For more information on Oracle FLEXCUBE Core Banking Release 5.2.0.0.0, refer to the following documents:

- Oracle FLEXCUBE Core Banking Licensing Guide

8057 - Safe Box Allotment

Using this option you can allot a safe deposit box.

When a new safe deposit box is being allotted, the transaction processing application performs a check, using the given Customer IC and the category type, on the centralized customer information database.

A maximum of three customers can be related to a safe deposit box at the time of account opening.

The account opening includes the following steps:

- Check for customer existence: Check existence of all the customers linked to the account.
- Open Account: Allot a new safe deposit box using the **Safe Box Allotment Screen** option.
- Specify Account Operating Instructions.
- Customer Account Linking: A maximum of three customers can be linked to the account using this option. If there are more than three customers to be linked to the account, the same needs to be linked using the **Customer Account Relationship Maintenance** (Fast Path: C1142) option.

Definition Prerequisites

- BAM17 - Branch Type Maintenance
- CHM01 - CASA Product Master Maintenance
- BAM97 - Currency Codes Cross Reference
- BAM30 - Tax Codes Maintenance
- CIM08 - Customer Type Maintenance
- 8053 - Customer Addition
- C1142 - Customer Account Relationship Maintenance
- SMM02 - User Profile Maintenance
- IVM01 - Stock Codes
- SBM01 - Safe Deposit Box product and inventory cross reference
- IVM03 - Inventory Branch Cross Reference
- IVM04 - Stock Branch Cross Reference
- IV001 - Stock Transactions

Modes Available

Not Applicable

To allot a safe box deposit

1. Type the fast path **8057** and click **Go** or navigate through the menus to **Transaction Processing > Customer Transactions > Safe Box Allotment**.
2. The system displays the **Safe Box Allotment** screen.

Safe Box Allotment

Field Description

Field Name	Description
Branch Name	<p>[Display]</p> <p>This field displays the branch name in which the account is opened.</p> <p>The account opening procedure can be either centralized or decentralized. In a centralized setup, one centralized processing center will open accounts for all branches of a region. The user has to select the name of the centralized processing branch in case of centralized setup for account opening. In Decentralized setup, the transaction processing branch name is displayed.</p>
Product Name	<p>[Mandatory, Drop-Down]</p> <p>Select the product name under which the account is to be opened from the drop-down list.</p> <p>The drop-down list has a list of authorized SDB account products available for the selected branch. SDB account products are defined using the CASA Product Master Maintenance (Fast Path: CHM01) option.</p>

Field Name	Description
Product Ccy	<p>[Display]</p> <p>This field displays the currency assigned to the product at the time of product definition.</p> <p>This is the default currency for the product and cannot be modified.</p>
A/C No	<p>[Display]</p> <p>This field displays the account number at the time of account opening, if the account number generation is set as Automatic.</p> <p>The structure of the account number can be defined according to the requirements of the bank.</p>
A/C Title	<p>[Display]</p> <p>This field displays the account title.</p> <p>The account title is defaulted to the short name of the primary customer.</p> <p>This field is displayed on successful account creation.</p>
Serial No	<p>[Display]</p> <p>This field displays the serial number, if the automatic account generation is enabled for the bank.</p> <p>Type the appropriate serial number if automatic account generation is disabled for the bank.</p>
Doing Business As(DBA)	<p>[Optional, Alphanumeric, 100]</p> <p>Type the description which indicates the operating relationship of the customer at the account level.</p>
Customer Information	
Customer IC	<p>[Mandatory, Pick List]</p> <p>Type the identification code of the customer.</p> <p>A customer IC along with customer type is a unique method of customer identification across the bank (covering all branches). Based on the IC and Customer Type, the system can identify the customer as an existing customer even when the customer opens a new account in another branch. A social security number, passport number, birth certificate or corporate registration can be used as a customer IC.</p>

Field Name	Description
Category	<p>[Mandatory, Drop-Down]</p> <p>Select the category of the customer from the drop-down list.</p> <p>For example, Tax Paying Individual, Church, Foreign Corporate, etc. A user can select multiple customer types to segregate the customers using the Customer Types Maintenance (Fast Path: CIM08) option. Further processing such as tax applicable, SC charges, etc., are levied based on the customer type.</p>
IC Type	<p>[Display]</p> <p>The IC type of the customer, based on the category to which the customer belongs.</p> <p>It is maintained in the Customer Types Maintenance (Fast Path: CIM08) option.</p>
Short Name	<p>[Display]</p> <p>This field displays the short name of the customer displayed from the Customer Addition (Fast Path: 8053) option.</p> <p>The customer short name can be changed through the IC No – Short Name Change (Fast Path: 7101) option.</p>
Birth / Reg Date	<p>[Display]</p> <p>This field displays the birth or registration date of the customer after validation.</p> <p>If the customer already exists, then the Birth/Reg Date is displayed. Else the Customer Addition (Fast Path: 8053) option is displayed where more details about the customer can be entered.</p>
Relations	<p>[Mandatory, Drop-Down]</p> <p>Select the appropriate relation from the drop-down list.</p> <p>The customer is linked to the account by way of a relations tag.</p> <p>This list contains different relations. For example, Sole Owner, Joint And First, Joint and Other and other relations.</p> <p>For successful account opening transaction, a customer with primary relationship viz. Sole Owner, Joint And First, or Joint Or First must be linked.</p> <p>If primary relationship linked is Joint And First or Joint or First, customer with secondary relationship viz. Joint and other or Joint or other must be linked to the account.</p> <p>A maximum of three customers can be linked to an account in the account-opening screen. Customer Account Relationship Maintenance (Fast Path: C1142) option can be used to attach additional customers to the accounts.</p>

Field Name	Description
Customer ID	<p>[Display]</p> <p>This field displays the customer ID.</p> <p>A customer ID is an identification number, generated by the system after customer addition is completed successfully. This running number, unique to a customer across the system, is generated after the system has identified the customer IC and Customer Category combination to be non-existent in the system. This ID is used for searching and tracking the customer in the system.</p>
Officer ID	<p>[Mandatory, Drop-Down]</p> <p>Select the officer ID from the drop-down list.</p> <p>Each account can be assigned to a separate officer. The officer who is assigned to an account will act as the relationship officer for the account.</p> <p>The officer ID are created using the User Profile Maintenance (Fast Path: SMM02) option.</p>
Date of Allotment(dd/mm/yyyy)	<p>[Optional, dd/mm/yyyy]</p> <p>Type the process date of allotment of the safe deposit box to the customer.</p>
Rental Period (in months)	<p>[Mandatory, Numeric, Two]</p> <p>Type the period for which the SDB is allocated to the customer.</p>
Date of Expiry(dd/mm/yyyy)	<p>[Display]</p> <p>This field displays the date on which the validity of the safe deposit box ends.</p> <p>The expiry date depends on the rental period and is displayed accordingly.</p>
Number of Rentals to be waived	<p>[Mandatory, Numeric, Three]</p> <p>Type the number of rentals to be waived.</p> <p>The waiver would include the rental portion only and not the allotment fees. The number of rentals once entered cannot be modified later. However if required, the period can be extended by using the SC Package Changes at Account (Fast Path: SCM03) option to waive for a further period.</p>
Deposit Amount	<p>[Mandatory, Numeric, 10]</p> <p>Type the amount of deposit paid by the customer to avail of the SDB facility.</p> <p>The deposit amount will be returned to the customer on SDB closure.</p>
Deposit Remarks	<p>[Mandatory, Alphanumeric, 30]</p> <p>Type the remarks related to the SDB deposit made.</p>

3. Select the product name from the drop down list.
4. Select the customer IC and the relation.
5. Click the **Val. Customer** button.
6. For an existing customer, the system displays the message "Existing Customer...Proceed with data entry".
7. Click the **Ok** button to open another account for the existing customer.
8. Select the officer ID from the drop-down list and enter the rental period in years and the number of rentals to be waived.
9. Enter the deposit amount and remarks.

SB003 - Safe Box Usage And Payment Inquiry

Using this option you can inquire about the details of the safe deposit box usage, service charge and its payment.

The system provides information on safe box details like date of allotment, date of expiry, safe box status, etc. The payment enquiry mode provides details on date of payment, amount, payment mode, etc. The service charge enquiry mode provides details on date of charge, amount assessed, amount due and charge type. The usage log detail provides information on date, time, operation performed, etc.

Definition Prerequisites

- 8057- Safe Box Allotment
- 8053 - Customer Addition

Modes Available

Not Applicable

To view the details of the safe deposit box usage

1. Type the fast path **SB003** and click **Go** or navigate through the menus to **Transaction Processing > Account Transactions > SDB Account Transactions > Inquiries > Safe Box Usage And Payment Inquiry**.
2. The system displays the **Safe Box Usage And Payment Inquiry** screen.

Safe Box Usage And Payment Inquiry

Field Description

Field Name	Description
Safe Box ID	[Optional, Numeric, 16] Type the identification number of the safe box as defined in the inventory.
Safe Box Type	[Display] This field displays stock code of the safe deposit boxes.
Allotment Number	[Mandatory, Pick List] Select the allotment number for which the rent is to be paid from the pick list.
Branch	[Display] This field displays the name of the branch where the safe deposit box is opened.
Product Code	[Display] This field displays the product code under which the safe deposit box is opened.

Field Name	Description
Primary Customer	[Display] This field displays the name of the primary customer to whom the safe deposit box is allotted.
Date of Allotment	[Display] This field displays the date on which the safe deposit box is allotted.
Date of Expiry	[Display] This field displays the expiry date of the safe deposit box allotment.

Click the **Close** button.

1701 - Rent Payment Inquiry

Using this option you can pay rent for a safe deposit box.

The modes of rent payment are:

- Cash
- Cheque
- Account Transfer
- GL

Depending on the option selected in the **Payment Mode** drop-down list, the system displays the relevant transaction screen and requisite particulars have to be entered. You can also perform a backdated rent payment but the mode supported for this back dated credit will be through GL only.

Definition Prerequisites

- BAM97 - Currency Codes Cross Reference
- BAM32 - Transaction Rate Cross Reference
- 8051 - CASA Account Opening
- 8057- Safe Box Allotment Screen
- GLM02 - Chart of Accounts
- STM59 - Settlement Bank Parameters
- STM54 - Routing Branch Maintenance

Modes Available

Not Applicable

To view rent payment

1. Type the fast path **1701** and click **Go** or navigate through the menus to **Transaction Processing > Account Transactions > SDB Account Transactions > Transfer > Rent Payment Inquiry**.
2. The system displays the **Rent Payment Inquiry** screen.

Rent Payment Inquiry

Field Description

Field Name	Description
Value Date	<p>[Mandatory, dd/mm/yyyy]</p> <p>Type the date on which the entry is to be passed to the allotment number.</p> <p>The system will default the date to current date, but the user can input any back date in the field. No future date is allowed.</p>
Allotment No	<p>[Mandatory, Numeric, 16]</p> <p>Type the allotment number for which the rent is to be paid.</p> <p>The name of the SDB Account holder is populated adjacent to the allotment number.</p>
Account Currency	<p>[Display]</p> <p>This field displays the currency that is assigned to the product under which the account is opened.</p> <p>All the entries posted in the account are in the account currency.</p>

Field Name	Description
Safe Box ID	[Display] This field displays the identification number of the safe box as defined in inventory.
Safe Box Type	[Display] This field displays the safe box type. This denotes the stock code of the safe deposit boxes.
Payment Mode	[Mandatory, Drop-Down] Select the appropriate mode of payment for rent from the drop-down list. The options are: <ul style="list-style-type: none"> • Cash • Cheque • Account Transfer • GL
Number of Advance Rents	[Mandatory, Drop-Down] Select the number of rents in advance which the customer will be paying from the drop-down list. By default, the system displays the value as 0. However, the user can enter values up to 9.
Penalty	[Mandatory, Drop-Down] Select the appropriate type of penalty from the drop-down list. The options are: <ul style="list-style-type: none"> • No Penalty • Fixed Penalty • Percentage Penalty <p>On selecting one of the options, the system will calculate the penalty. The basis for calculation will be defined at the Product Inventory cross reference. By default, the system will default the choice to no penalty.</p>
Outstandings	
Rent Due	[Display] This field displays the total rental amount due for the particular allotment number.
Advance Paid	[Display] This field displays the rental amount paid by the customer as advance, if any.

Field Name	Description
Other Arrears	<p>[Display]</p> <p>This field displays all the other charges that are payable.</p> <p>The amount displayed in this field would be a total of all charges other than rent and penalty. However, the bifurcation can be seen in the enquiry mode of charges history of the usage screen.</p>
Penalty Arrears	<p>[Display]</p> <p>This field displays the calculated penalty arrears that have been charged to the account.</p> <p>This field will be showing the total of the penalty amount which is due till date. Since the penalty is always on cash basis, there would be no accrued penalty arrears. The method of calculation of penalty is mentioned under SC head.</p>
Allocation Fee	<p>[Display]</p> <p>This field displays the allocation fee, if any, that is payable by the customer.</p> <p>Once the allocation fee has been paid, then the value displayed in this field will be zero.</p>
UnBilled Penalty Interest	This field is for future use.
Upto Payment	This field is for future use.
Total Due	<p>[Display]</p> <p>This field displays the total amount due from the customer.</p>

3. Enter the allotment number and press the **<Tab>** key.
4. Select the payment mode, number of advance rents and the penalty from the drop-down list.

Rent - Instrument Details

The screenshot shows a window titled "Rent Payment Inquiry" with a yellow border. Inside, there is a section titled "Instrument Details" containing the following fields:

- Clearing Type : REGULAR CLEARING (dropdown)
- Cheque No : 12345 (text)
- Cheque Literal : Drawing Voucher Deposit (dropdown)
- Cheque Date : 31/12/2007 (text)
- Routing No : 2402401 (text)
- Bank : 240 CITIBANK (text)
- Drawer Acct No : 000000005455 (text)
- Branch : 2401 CITI 1 (text)
- Value Date : 15/01/2008 (text)
- Sector : 201 Java (text)
- Late Clearing : (checkbox)
- Chg Commission : Yes (dropdown)
- Instrument Sub Type : 03 - DEMAND DRAFT (dropdown)

At the bottom right of the window, there are "Ok" and "Cancel" buttons.

Field Description

Field Name	Description
Clearing Type	<p>[Mandatory, Drop-Down]</p> <p>Select the clearing type from the drop-down list.</p> <p>The bank can set up multiple clearing types, where cheques that are required to be cleared at different times of the day are deposited so that they can be treated differently. All processes for a cheque from outward clearing, running of value date, and marking late clearing, etc., takes place on the basis of the clearing type.</p>

Field Name	Description
Cheque No	<p>[Mandatory, Numeric, 12]</p> <p>Type the cheque number which is present on the MICR line of the instrument.</p> <p>When the cheque is deposited into any payees account, the cheque number is used to ensure that the duplicate entries are not made in the system (that the same cheque is not deposited multiple times in the system.). On deposit of every cheque, cheque number, routing number and drawer account number (all the three are present on the MICR line) are used to check for the presence of duplicate instrument. If duplicate instruments are found, cheque deposit will be rejected unless the earlier cheques are all marked as Returned.</p>
Cheque Literal	<p>[Mandatory, Drop-Down]</p> <p>Select the cheque literal from the drop-down list.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Drawing Voucher Deposit • Guaranteed Cheque Deposit • House Cheque Deposit • Local Cheque Deposit • MO/PO Deposit • Outstation Cheque Deposit <p>This field is not used in any processing.</p>
Cheque Date	<p>[Mandatory, Numeric, dd/mm/yyyy]</p> <p>Type the cheque date, which is present on the instrument.</p> <p>This date has to be less than or equal to current posting date. This date is used in checking validity of the instrument. Instruments become stale if the cheque date is prior to the current posting date by the stale period (defined in the Settlement Bank Parameters (Fast Path: STM59) option).</p>

Field Name	Description
Routing No	<p>[Mandatory, Numeric, Nine]</p> <p>Type the routing number against which the cheque has been drawn.</p> <p>The routing number is a combination of the bank code, the branch code, and the sector code from where the instrument was drawn.</p> <p>The combination can be obtained from the Routing Branch Maintenance (Fast Path: STM54) option.</p> <p><i>Routing Number = Sector Code / Bank Code + Branch Code</i></p> <p>For a deposited cheque, this routing number is used by the system to determine the float days and thus the value date of the instrument.</p> <p>For an inward clearing cheque, this routing number should belong to the bank. The order, in which the codes in the routing number are to be entered, is determined by the set up using the Settlement Bank Parameters (Fast Path: STM59) option.</p>
Bank	<p>[Display]</p> <p>This field displays the bank name to which the cheque belongs, corresponding to the bank code extracted from the routing number.</p>
Branch	<p>[Display]</p> <p>This field displays the branch name from where the cheque is drawn, corresponding to the branch code and bank code extracted from the routing number.</p>
Sector	<p>[Display]</p> <p>This field displays the clearing sector name to which the cheque branch belongs, corresponding to the sector code extracted from the routing number. Sector Codes are defined using Sector Master option.</p>
Drawer Acct No	<p>[Mandatory, Numeric, 16]</p> <p>Type the drawer account number.</p> <p>The drawer account number is the account number of the person who has issued the cheque. The drawer account, generally printed on the cheque leaf is the account from where the funds will come into the nominee account. If the cheque is drawn on a different bank, the drawer account number will not be validated by the system. If the cheque is drawn on your own bank, the system will validate the drawer account number for its correctness.</p>

Field Name	Description
Value Date	<p>[Display]</p> <p>This field displays the value date of the cheque.</p> <p>When a cheque is deposited on an account, the system uses the routing number to check the float days from the Endpoint Float Maintenance (Fast Path: BAM28) option and the working days from the Calendar for End Point (Fast Path: BAM27) option to generate the value date of the cheque.</p> <p>The value date is the date on which the cheque is expected to be cleared. On the value date, the system updates the customer's available balance and credits the account with the cheque amount and reduces the un-cleared funds on the account.</p> <p>For more information on maintaining value date, refer to the Clearing Definitions chapter in the <i>Definitions Users Guide</i>.</p>
Late Clearing	<p>[Display]</p> <p>This field displays the values Y or N for late clearing.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Y - If the late clearing is marked • N - If the late clearing is not marked <p>This field displays Y when a customer deposits a cheque after the clearing cut-off time is over, for current posting date for the selected clearing type.</p> <p>The instruments that are deposited in late clearing will be considered as Late for clearing. Such instruments will be treated as deposit for the next working date for all value date calculation.</p>
Chg. Commission	<p>[Display]</p> <p>This field is currently not used in any processing.</p>
Reg CC Float Package	<p>[Optional, Drop-Down]</p> <p>Select the float package defined under regulation CC from the drop-down list.</p>

16. The system displays the transaction sequence number. Click the **Ok** button.

SB004 - Account Closing Balance Information

Account closure is a two-step process.

Using this option you can retrieve the account closing details and close an account, and then perform the **Closeout Withdrawal** from the branch.

The status of the account changes to account closed today, after this transaction is processed. The next step of actual payout from the branch has to accompany this transaction, so that the account is marked as closed.

You have to close or delete all the account facilities like overdraft limit, SI, sweep in and others before marking the account for closure. The accounts with debit balance or uncleared funds cannot be closed.

Definition Prerequisites

- 8057- Safe Box Allotment

Modes Available

Not Applicable

To view account closing balance information

1. Type the fast path **SB004** and click **Go** or navigate through the menus to **Transaction Processing > Account Transactions > SDB Account Transactions > Other Transactions > Account Closing Balance Information**.
2. The system displays the **Account Closing Balance Information** screen.

Account Closing Balance Information

Field Description

Field Name	Description
Allotment Number	[Optional, Numeric, 16] Type the allotment number for which the safe deposit box is allotted.
Customer Name	[Display] This field displays the name of the primary customer to whom the safe deposit box is allotted.
Safe Box Type	[Display] This field displays the type of the safe deposit boxes.
SafeBox Id	[Display] This field displays the identification number of the safe box as defined in inventory.

Field Name	Description
Reason For Closure	<p>[Mandatory, Drop-Down]</p> <p>Select the reason for closure of the safe deposit box from the drop-down list.</p> <p>The reason codes are displayed from Reason Code Maintenance (Fast Path: BAM40) option. Some of the reasons for which the account is closed are Bank Decision, Special Reason, Court Decision, etc.</p>
Refund Amount	<p>[Display]</p> <p>This field displays the amount of refund to be made, if any.</p>
Update Inventory	<p>[Optional, Check Box]</p> <p>Select the Update Inventory check box to update the inventory at the time of closure to enable re-allotment of safe box.</p>

3. Type the allotment number and press the <Tab> key.
4. The system displays the account closing balance information.

Account Closing Balance Information

The screenshot shows a software window titled "Account Closing Balance Information*". The window contains the following fields and controls:

- Allotment Number :** Text input field containing "00000057471".
- Customer Name :** Text input field containing "GEORGEPAULBURETTO".
- SafeBox Type :** Dropdown menu showing "SDB-M-Safe Deposit Box: Medium".
- SafeBox Id :** Text input field containing "2027".
- Reason For Closure :** Dropdown menu showing "NORMAL".
- Refund Amount :** Text input field containing "IDR" and a numeric input field containing "1,050.00".
- Update Inventory :** A checked checkbox.

At the bottom of the window, there is a navigation bar with the following options: Card, Change Pin, Cheque, Cost Rate, Denomination, Instrument, Inventory, Pin Validation, Service Charge, Signature, Traveller Cheque, UIDF, OK, Close, and Clear.

5. Click the **Ok** button.
6. The system displays the message "Authorization Required. Click Ok to continue". Click the **OK** button.
7. The system displays the **Authorization Reason** screen.
8. Enter the appropriate information and click the **Ok** button.
9. The system displays the message "The account has been closed successfully". Click the **Ok** button.

1720 - SDB Close Out Balance Inquiry

Using this option, you can refund the advance rent paid for the safe deposit box at the time of its closure. The closure of an account should first be reflected in the Host database, after which the close out withdrawal activity is allowed. On successful completion, the safe box balance is set to zero.

Depending on the option selected in the **Refund Mode** drop-down list the system displays the relevant transaction screen and the user has to enter the required particulars.

Field Description

Field Name	Description
Allotment No	<p>[Display]</p> <p>This field displays the allotment number defaulted from the Close Out Balance Inquiry option.</p> <p>This is the account number which is closed and for which the close out withdrawal is done by means of a Banker's cheque. The safe deposit box holder name is displayed in the adjacent field to the allotment number.</p>
Account Ccy	<p>[Display]</p> <p>This field displays the currency of the account that is being closed.</p> <p>The currency is based on the product under which the account was opened and this currency cannot be changed later. Whenever any transaction is posted to the account, it is converted into the account currency based on the exchange rate set up for the transaction. The currency code is a number and the currency name is usually displayed in its short form. It is set up and downloaded.</p>
Bank Code	<p>[Mandatory, Drop-Down]</p> <p>Select the bank on whom the Banker's cheque is drawn from the drop-down list.</p> <p>The list of banks on whom Banker's cheques can be issued are maintained in the Issuer Maintenance (Fast Path: BAM09) option and downloaded to the branch. Normally, banks issue Banker's cheques of their own bank.</p>
Txn Ccy	<p>[Mandatory, Pick List]</p> <p>Select the transaction currency from the pick list.</p> <p>This field, by default, displays the account currency as the transaction currency.</p> <p>While posting the transaction entries to the account, the transaction currency is converted into the account currency and for posting the GL entries it is converted into the local currency of the bank.</p>
Acct Ccy Rate	<p>[Display]</p> <p>This field displays the rate at which the account currency is converted to the local currency of the bank.</p> <p>The teller's right to change the account currency rate within a range is configurable at the bank level. If such rights are not assigned to the teller, this field becomes non-editable.</p> <p>If the account currency and the local currency are same, the field takes the default value as 1, which cannot be modified.</p>

Field Name	Description
Tcy Rate	<p>[Display]</p> <p>This field displays the rate at which the transaction currency is converted to the local currency of the bank. The exchange rate values are defined and downloaded.</p> <p>The teller's right to change the transaction currency rate is configurable at the bank level. If such rights are not assigned to the teller, this field becomes non-editable.</p> <p>If the transaction currency and the local currency are the same, the field takes a default value as 1, which cannot be modified.</p>
Acct Amt	<p>[Display]</p> <p>This field displays the balance amount in the account at the time of closure. This amount will be in the account currency.</p>
Charges (Lcy)	<p>[Display]</p> <p>This field displays the charges levied by your bank on whom the Banker's cheque is drawn.</p> <p>The charges will be denominated in the local currency of your bank.</p> <p>The service charge codes are added and maintained in the Rewards and Service Charge Code Maintenance (Fast Path: BAM14) option.</p> <p>The service charges can be attached at the product level, transaction mnemonic level or at the issuer maintenance level.</p> <p>The service charges are levied in the local currency of the bank. The system displays the total of all the service charges if more than one SC code is attached to the transaction.</p>
Cheque Amount	<p>[Display]</p> <p>This field displays the amount of Banker's cheque that will be issued to the nominee.</p> <p>This amount is in the currency of the transaction and includes the charges as well as the Banker's cheque amount.</p>
Cheque Date	<p>[Mandatory, dd/mm/yyyy]</p> <p>Type the cheque date.</p> <p>This field, by default displays the posting date as cheque date, on which the Banker's cheque is issued.</p>

Field Name	Description
Serial No	<p>[Display]</p> <p>This field displays the serial number.</p> <p>For a remittance instrument such as a banker's cheque or a DD, at the time of issue, the system generates a serial number comprising the branch code and a running serial number.</p> <p>The serial number for each instrument type is maintained separately and on reversal of an instrument issue, the instrument serial number will not be reused for the next instrument issue.</p> <p>When an instrument comes for clearing, it may be referred by the MICR number, which needs to be maintained for each instrument, if it is expected to come through an inward clearing batch. If an instrument is liquidated by the teller, the instrument serial number is sufficient, as this is the number by which FLEXCUBE Retail tracks the instrument uniquely.</p>
Micr No	<p>[Mandatory, Alphanumeric, 12]</p> <p>Type the MICR number.</p> <p>For every remittance instrument, it is necessary to maintain the MICR number that will be printed on the instrument, if the instrument is expected to come for clearing through inward clearing.</p> <p>A cross-reference is maintained with the system generated serial number, so that the instrument can be tracked by the system, whether it is liquidated or enquired upon by the MICR number or the serial number.</p>
Routing No	<p>[Mandatory, Numeric, Nine]</p> <p>Type the routing number against which the cheque has been drawn.</p> <p>The routing number is a combination of the bank code and the branch code.</p> <p>The combination can be obtained from the Routing Branch Maintenance (Fast Path: STM54) option.</p> <p><i>Routing Number = Sector Code / Bank Code + Branch Code</i></p> <p>For a deposited cheque, this routing number is used by the system to determine the float days and thus the value date of the instrument.</p> <p>For an inward clearing cheque, this routing number should belong to the bank. The order, in which the codes in the routing number are to be entered, is determined by the set up using the Settlement Bank Parameters (Fast Path: STM59) option.</p>
Beneficiary Name	<p>[Mandatory, Alphanumeric, 40]</p> <p>Type the name of the beneficiary for the banker's cheque.</p>

Field Name	Description
Passport / IC No	[Mandatory, Alphanumeric, 14] Type the passport or IC number. This is an identification collected from the beneficiary of the banker's cheque at the time of liquidation.
Beneficiary Addr	[Mandatory, Alphanumeric, 40] Type the contact address of the beneficiary. This is normally needed for record purposes and provided as additional information.
User Reference No	[Optional, Alphanumeric, 30] Type the user reference number assigned to the customer.
Narrative	[Mandatory, Alphanumeric, 120] Type the narration. This field displays the default narration, based on the transaction. The user can change the narration, if required.
