U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

# **Table of Contents**

1. Preface
SMS
7011 - Event Log Inquiry
752 - Reset Primary Password 10
753 - Enable/Disable User
755 - Modify Login Status 16
756 - User Prohibited Passwords 18
757 - Inquiry For Logged In Users 21
758 - Inquiry For Password
766 - Secondary Password Expiry Date
767 - Reset Secondary Password
768 - Change Primary Password 32
769 - Change Secondary Password
AT002 - Audit Trail Financial Transactions Inquiry 38
BA777 - Audit Trail Inquiry for Non-Financial Txns*
BAM04 - BA Audit Tasks Maintenance-Inquire51
BAM10 - Restricted Accounts Maintenance54
SM11A - Inquiry On Logged In Users57
SMM02 - User Profile Maintenance
SMM03 - Task Profile Maintenance
SMM09 - User Prohibited Password Maintenance73
SMM12 - User Class Cross Reference Maintenance76
SMM13 - Template Transaction Limits

Preface

# 1. Preface

# 1.1. Intended Audience

This document is intended for the following audience:

- Customers
- Partners

# 1.2. Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <a href="http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc">http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc</a>.

# 1.3. Access to OFSS Support

https://support.us.oracle.com

# 1.4. Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual

Introduction provides brief information on the overall functionality covered in the User Manual

*Chapters* are dedicated to individual transactions and its details, covered in the User Manual

# 1.5. Related Information Sources

For more information on Oracle FLEXCUBE Core Banking Release 5.2.0.0.0, refer to the following documents:

• Oracle FLEXCUBE Core Banking Licensing Guide

# SMS

The FLEXCUBE Retail Security Management System (SMS) provides a security envelope within which, all the FLEXCUBE Retail application modules are executed. SMS maintains and controls access to users in the FLEXCUBE Retail system and ensures that only authorized users are allowed to use the system. Security definitions are broadly categorized into two parts namely host security definition and branch security definition. For the purpose of security and centralized control, it is recommended that all the security related definitions users are created at the HO and branch security definitions are important attributes of the user are modified at HO and downloaded to the branches. All the users of the bank can be broadly classified depending upon their role and seniority. Such classification is represented in FLEXCUBE Retail using templates. All the FLEXCUBE Retail transactions are linked to one or more such templates to define the access to the transactions for the respective class of users. Each user needs to have a user profile defined in the system. This user profile is linked to one of the templates.

# 7011 - Event Log Inquiry

User logged in from different computer under a core banking network is allowed (although concurrent user log-ins is not allowed).

Using this option you can log the IP's under which the user ID was entered in the posting date. The system displays the date, time and action performed. The system displays the date, time and action performed.

### **Definition Prerequisites**

Not Applicable

#### **Modes Available**

Not Applicable

### To perform event log inquiry

- 1. Type the fast path **7011** and click **Go** or navigate through the menus to **Transaction Processing > Internal Transactions > Inquiries > Event Log Inquiry**.
- 2. The system displays the **Event Log Inquiry** screen.

### **Event Log Inquiry**

Event Log Inquiry					🖏 🖬 🖏
1					
User Name: TRITU From: 31/08/2008	To : 31/08/20	00			
Seq No	User ID	Date	Terminal IP	Action	
					Get Cancel

Field Name	Description
User Name	[Display] This field displays the name of the user who is logged in.
From	[Mandatory, dd/mm/yyyy] Type the date from which the event log inquiry is to be made.
То	[Mandatory, dd/mm/yyyy] Type the date till which the event log inquiry is to be made.
Column Name	Description
Seq No	[Display] This column displays the sequence number of the event.
User ID	[Display] This column displays the user id.
Date	[Display] This column displays the date and time of the event.
Terminal IP	[Display] This column displays the terminal IP from where the user had logged in.
Action	[Display]

- 3. Enter the from and to date.
- 4. Click the **Get** button. The system displays the event log details.

5. Click the **Cancel** button.

### 752 - Reset Primary Password

Using this option you can reset the password without entering the old one .This option is used by the system administrator to reset the password if the user has forgotten his password or if the SM does not want the user to log into the system. If the user knows the new password, he will be prompted to change it on login.

### **Definition Prerequisites**

• SMM02 - User Profile Maintenance

#### **Modes Available**

Not Applicable

#### To reset the primary password

- 1. Type the fast path **752** and click **Go** or navigate through the menus to **Transaction Processing > Internal Transactions > Security > Reset primary password**.
- 2. The system displays the Reset Primary Password screen.

#### **Reset Primary Password**

Reset Primary P	assword*										\delta 🛛 🗶

Verify Password :											
Card	Change Pin	Cheque	Cost Rate	Denomination	Instrument	Inventory	Pin Validation	Service Charge	Signature	Travel	ers Cheque
								UDF	ОК	Close	⊂lear

Field Name	Description
Branch Code	[Mandatory, Numeric, Four, Pick List]
	Type the branch code or select it from the pick list.
	The name of the branch is displayed in the adjacent field.
User ID	[Mandatory, Pick List]
	Select the user ID whose password you want to reset from the pick list.
	These user IDs are added and maintained in the <b>User Profile</b> Maintenance (Fast Path: SMM02) option.
Password	[Mandatory, Alphanumeric, 10]
	Type the password, for the selected user ID.
	The password should have a minimum of six characters.
	It should be a combination of an uppercase and lowercase letter and a numeric digit.
	The password cannot have three or more successive characters or digits. For example, abc, xyz etc.
Verify Password	[Mandatory, Alphanumeric, 10]
	Type the new password to verify it.
	It should be the same as entered in the <b>Password</b> field.

- 3. Select the user ID from the drop-down list.
- 4. Enter the required information in the various fields.

5. Click the **Ok** button.

# 753 - Enable/Disable User

Using this option you can enable/ disable a user of any branch through single administrator log in. The user IDs are created in the **User Profile Maintenance** (Fast Path: SMM02) option.

Note: The system cannot disable the already logged in users.

### **Definition Prerequisites**

• SMM02 - User Profile Maintenance

### **Modes Available**

Not Applicable

#### To enable or disable a user

- 1. Type the fast path **753** and click **Go** or navigate through the menus to **Transaction Processing > Internal Transactions > Security > Enable / Disable user**.
- 2. The system displays the **Enable / Disable User** screen.

- 4. If the user is disabled, the system displays the message "User is Disabled. Do You Want to Enable".
- 5. If the user is not logged in, the system displays the "User Not Logged in. Want to Disable?".
- 6. Click the **Ok** button.

# 755 - Modify Login Status

Using this option you are forcibly logged out of the system. This option is used when you have logged into **FLEXCUBE** and the application/system crashes. When you try to login after the system is restored, it does not allow, as the system still maintains the user status as logged in. Also, the system will not permit a login more than once. In such cases this option is used to modify the login status.

### **Definition Prerequisites**

• SMM02 - User Profile Maintenance

### Modes Available

Not Applicable

### To modify login status

- 1. Type the fast path **755** and click **Go** or navigate through the menus to **Transaction Processing > Internal Transactions > Security > Modify Login Status**.
- 2. The system displays the Modify Login Status screen.

### Modify Login Status

UDF	OK Close Clear

- 4. The system displays the message "User already logged in do you want to log out the user". Click the **Ok** button.
- 5. Click the **OK** button.

# 756 - User Prohibited Passwords

Using this option you can define those passwords which should not be used by particular user in the bank. These restrictions on using the password shall apply to only that user in the bank. These are commonly used words specific to the person such as place of residence, spouse name, name of son/daughters, etc.

### **Definition Prerequisites**

• SMM02 - User Profile Maintenance

### **Modes Available**

Not Applicable

### To change the defined prohibited password

- 1. Type the fast path **756** and click **Go** or navigate through the menus to **Transaction Processing > Internal Transactions > Security > User Prohibited Passwords**.
- 2. The system displays the User Prohibited Passwords screen.

### **User Prohibited Passwords**

<b>Field Description</b>
--------------------------

Field Name	Description					
User ID	[Mandatory, Drop-Down]					
	Select the user ID from the drop-down list.					
	These user IDs are added and maintained in the <b>Defining User</b> <b>Profile</b> (Fast Path: SMM02) option.					
Prohibited	[Mandatory, Drop-Down]					
Passwords	Select the prohibited password from the drop-down list.					
	These prohibited passwords are added and maintained centrally in the User <b>Prohibited Password</b> option.					
Add / Delete	[Mandatory, Alphanumeric, Eight]					
Password	Type the password that is to be added or deleted.					
	It should be a combination of an uppercase and lowercase letter and a numeric digit.					
	The password cannot have three or more successive characters or digits. For example, abc, xyz etc.					
1 4350014	It should be a combination of an uppercase and lowercase letter and a numeric digit. The password cannot have three or more successive characters					

- 3. Click the Add button.
- 4. The system displays the message "You are in Add option". Click the **OK** button.
- 5. The system displays the message "Data will be refreshed..Proceed?". Click the **OK** button.
- 6. The system refreshes the User Prohibited Passwords screen.
- 7. Select the user ID from the drop-down list.
- 8. Enter the prohibited password.

### **User Prohibited Passwords**

Column Name	Description
User ID	[Display]
	This column displays the user ID for all those users who are currently logged into the system.
User Name	[Display]
	This column displays the list of users who are currently logged into the system.
Terminal ID	[Display]
	This column displays the identification code of the terminal where each user has logged into the system.
Login Time	[Display]
	This column displays the login date and time when the users have logged into the system.
3 The system dis	plays the users who are currently logged in to the system.

- 3. The system displays the users who are currently logged in to the system.
- 4. Click the **Refresh** button to refresh the screen with the latest details.

# 758 - Inquiry For Password

Using this option you can view the password details of the registered users. The system provides information on dual password facility available for the user IDs, primary password change due date, secondary password change due date, whether the system manger can reset the password, etc.

The inquiry about the passwords of the users will be useful for the supervisor mainly to keep track of the users for whom password reset is to be done, and if password change by Supervisor is allowed for the user.

You can change the primary/secondary passwords by using **Change Primary Password** (Fast Path: 768) and **Change Secondary Password** (Fast Path: 769) options.

### **Definition Prerequisites**

Not Applicable

### **Modes Available**

Not Applicable

### To view password details

- 1. Type the fast path **758** and click **Go** or navigate through the menus to **Transaction Processing > Internal Transactions > Security > Inquiry For Password**.
- 2. The system displays the Inquiry For Password screen.

### **Field Description**

Column Name	Description
User ID	[Display]
	This column displays the list of user IDs of the system.
Dual Pswd?	[Display]
	This column displays whether the user ID has dual password facility or not.
	The system displays:
	• Y - If the user ID has dual password facility.
	• <b>N</b> - If the user ID does not have dual password facility.
Change Pswd?	[Display]
	This column displays whether the user can change his/her password or not.
	The system displays:
	• Y - If the user can change the password.
	• <b>N</b> -if the user cannot change the password.

Column Name	Description
Pswd Reset?	[Display]
	This column displays the status of the user's password.
	The system displays:
	P - if the security manager resets the user's password
	<ul> <li>N - if the user logs in and changes the password</li> </ul>
Pri Password	[Display]
Change Due on	This column displays the date on which the primary password is due for change.
Sec Password Change Due on	[Display] This column displays the date on which the secondary password is due for change.

3. Click the **Close** button.

# 766 - Secondary Password Expiry Date

Using this option you can change the date on which a particular user's secondary password will expire.

While the users can view the password details like primary password change due date, secondary password change due date, etc. in **Inquiry For Password** (Fast Path: 758) option they can change the primary/secondary passwords by using **Change Primary Password** (Fast Path: 768) and **Change Secondary Password** (Fast Path: 769) options.

### **Definition Prerequisites**

• SMM02 - User Profile Maintenance

### **Modes Available**

Not Applicable

### To modify the secondary password expiry date

- 1. Type the fast path **766** and click **Go** or navigate through the menus to **Transaction Processing > Internal Transactions > Security > Secondary Password Expiry Date**.
- 2. The system displays the **Secondary Password Expiry Date** screen.

### Secondary Password Expiry Date

Description					
[Mandatory, Pick List]					
Select the user ID from the pick list.					
These user IDs are added and maintained in the <b>Defining User Profile</b> (Fast Path: SMM02) option.					
[Mandatory, Numeric, dd/mm/yyyy]					
Type the new secondary expiry date for the password, which is greater than the current posting date.					
By default, this field displays the old expiry date.					
This date specifies the validity period of the password.					
[Display]					
This field displays the user who has created the record.					
In the <b>Inquiry</b> mode, this field displays the user who had last maintained the record.					
[Display]					
This field displays the user who has authorized the record.					
[Display] This field displays the date and time when the record was last maintained.					

- 3. Click the **Modify** button.
- 4. The system displays the message "Data will be refreshed..Proceed?". Click the **OK** button.
- 5. The system refreshes the **Secondary Password Expiry Date** screen.
- 6. Select the user id from the drop-down list or select it from the pick list.
- 7. Modify the relevant information in the various fields.

- 8. Click the **Ok** button.
- 9. The system displays the message "The transaction completed successfully... Authorization Pending". Click the **Ok** button.
- 10. The modified secondary password expiry date is reflected once the transaction is authorized.

# 767 - Reset Secondary Password

Using this option you can reset the password without entering the old one. This option is used by the system administrator to forcibly to reset the password if the user has forgotten his password or if the SM does not want the user to log into the system. If the user knows the new password, he will be prompted to change it on login.

### **Definition Prerequisites**

• SMM02 - User Profile Maintenance

### **Modes Available**

Not Applicable

#### To reset the secondary password

- 1. Type the fast path **767** and click **Go** or navigate through the menus to **Transaction Processing > Internal Transactions > Security > Reset Secondary Password**.
- 2. The system displays the Reset Secondary Password screen.

Account No	[Display] This field displays the account number (if any) on whom the maintenance was done.
Column Name	Description
Туре	[Display] This column indicates if this is a Key to identify the particular record in the <b>FLEXCUBE</b> database. Blank value indicates that this is not a <b>Key</b> field.
Field	[Display] This column displays the field name in the database which has changed. For a <b>Key</b> field, the actual value will also be indicated here.
Old Value	[Display]

Column Name	Description
New Value	[Display]
	This column displays the new value for the field being modified.
	This will be blank in case of <b>Delete</b> option.
(Only Record De	executed by clicking <b>Report</b> (Only Record Log Tab), <b>Detailed Report</b> etails Tab for a particular selection) or <b>Exhaustive Report</b> (Complete cord Log records).

10. Click the **Close** button.

**Note**: The report output can then be viewed by navigating to the **Advice/Report Status Inquiry** option (Fast Path: 7778).

# **BAM04 - BA Audit Tasks Maintenance-Inquire**

Using this option you can decide the auditing matrix for a particular task. This option can be used to define whether an audit is allowed on a maintenance option, and the actions (add, modify, delete, etc.) from that window should be recorded in an audit log.

All online transactions with financial impact except for Voucher Entry transaction are recorded in the Electronic Journal (EJ) stored at the respective branch. This maintenance is used for auditing all the other transactions. The audit log is stored in the central host and is common to all the branches.

#### **Definition Prerequisites**

• BAM15 - Transaction Mnemonic Codes

#### Modes Available

Add By Copy, Add, Modify, Delete, Cancel, Amend, Authorize, Inquiry. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

#### To add audit task details

- 1. Type the fast path **BAM04** and click **Go** or navigate through the menus to **Global Definitions > Other > BA Audit Tasks Maintenance-Inquire**.
- 2. The system displays the **BA Audit Tasks Maintenance-Inquire** screen.

#### BA Audit Tasks Maintenance-Inquire

BA Audit Tasks N	1aintenance-Inquire*			🇞 🖬 🖬
Task ID :

Field Name	Description
Task ID	[Mandatory, Pick List]
	Select the task ID from the pick list.
	Task ID lists all the transaction codes maintained in the <b>Transaction Mnemonic Codes</b> (Fast Path: BAM15) option.
	This ID acts like a fast path. The fast path is a mnemonic which allows the user to access the options.
Task Description	[Display]
	This field displays the description of the selected task code.
Maintenance Options	
Auditing Flag	[Mandatory, Check Box]
	Select the Auditing Flag check box, to enable the auditing flag.
	If the check box is selected, the details of the transaction will be recorded and stored for audit purposes.
	The maintenance options will also be enabled if the auditing flag is selected.
Inquire	[Conditional, Check Box]
	Select the Inquire check box, if you want the system to record the inquire actions and store the same for audit purposes.
	If the <b>Inquire</b> check box is selected it enables you to inquire about an authorized record.
	This field is enabled only if the <b>Auditing Flag</b> check box is selected.
Add	[Conditional, Check Box]
	Select the Add check box to enable you to add a new record to the selected task id.
	If the <b>Add</b> check box is selected, the system records the add actions and stores the same for audit purposes.
	This field is enabled only if the <b>Auditing Flag</b> check box is selected.
Modify	[Conditional, Check Box]
	Select the <b>Modify</b> check box to enable you to modify a record in the selected task id.
	If the Modify check box is selected, the system records the modify actions and stores the same for audit purposes.
	This field is enabled only if the <b>Auditing Flag</b> check box is selected.

Field Name	Description
Delete	[Conditional, Check Box]
	Select the Delete check box to enable you to delete a record from the selected task id.
	If the <b>Delete</b> check box is selected, the system records the delete actions and stores the same for audit purposes.
	This field is enabled only if the <b>Auditing Flag</b> check box is selected.

- 3. Click the **Add** button.
- 4. Select the task ID from the pick list.
- 5. Select the auditing flag check box and the appropriate maintenance option check boxes.

#### **BA Audit Tasks Maintenance-Inquire**

- 6. Click the **Ok** button.
- 7. The system displays the message "Record Added...Authorization Pending..Click Ok to Continue". Click the **OK** button.
- 8. The audit task is added once the record is authorized.

# **BAM10 - Restricted Accounts Maintenance**

Using this option you can restrict a particular teller from accessing the details of particular customer or GL accounts.

For example: If the bank decides to restrict the access to income and expenses accounts this option can be used. For a restricted account, the teller is not allowed to post any transaction, inquire, or maintain details.

#### **Definition Prerequisite**

• SMM02 - User Profile Maintenance

#### Modes Available

Add By Copy, Add, Modify, Delete, Cancel, Amend, Authorize, Inquire. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

#### To add a teller restricted account

- 1. Type the fast path **BAM10** and click **Go** or navigate through the menus to **Transaction Processing > Internal Transactions > Others > Restricted Accounts Maintenance**.
- 2. The system displays the **Restricted Accounts Maintenance** screen.

#### **Restricted Accounts Maintenance**

Field Name	Description
User ID	[Mandatory, Pick List]
	Select the user ID from the drop-down list.
	These user IDs are added and maintained in the <b>Defining User</b> <b>Profile</b> (Fast Path: SMM02) option.
	Once added, this field cannot be modified or amended.
Account Type	[Mandatory, Drop-Down]
	Select the account type on which restriction is to be imposed from the drop-down list.
	The options are:
	• Customer A/C - It enables the Account No field in which you enter the customer account number.
	<ul> <li>General Ledger A/C - It enables the Account No field in which you enter the GL account number.</li> </ul>
	Once added, this field cannot be modified or amended.
Account No	[Mandatory, Alphanumeric, 16]
	Type the account number based on the selected account type.
	The system does not validate the status of the account.
Customer Name	[Display]
	This field displays the name of the customer if you select the <b>Customer A/C</b> option from the <b>Account Type</b> drop-down list.
Remarks	[Optional, Alphanumeric, 40]
	Type the reason for the restriction. This is for information purposes only.

- 3. Click the **Add** button.
- 4. Select the user ID from the pick list and the account type from the drop-down list.
- 5. Enter the account number and press the **<Tab>** key.

- 8. The teller restricted account is added once the record is authorized.

# SM11A - Inquiry On Logged In Users

Using this option you can view the status of the currently logged in users for all the branches. The system provides information on user ID, user name, branch code and the terminal ID in which the user has logged in and the login date and time. You can refresh the screen to get the latest status.

#### **Definition Prerequisites**

• SMM02 - User Profile Maintenance

#### **Modes Available**

Not Applicable

#### To inquiry on logged in users

- 1. Type the fast path SM11A and click Go or navigate through the menus to Global Definitions > Security > Inquiry On Logged In Users.
- 2. The system displays the Inquiry On Logged In Users screen.

#### Inquiry On Logged In Users

Description
[Display]
This column displays the user ID.
[Display]
This column displays the name of the user, based on the user ID.
[Display]
This column displays the branch code to which the logged in users belong to.
[Display]
This column displays the identification code of the terminal where each user has logged in to the system.
[Display]
This column displays the date and time on which the user had last logged in.

## **Field Description**

3. Click the **Close** button.

# SMM02 - User Profile Maintenance

Using this option you can add user profiles centrally for a new user to be created in the system. In User Profile Maintenance, various attributes and roles of a user are defined.

Using the **Modify User Details** tab, you can maintain the Resetting of Primary Password, Primary Password Expiry Date change, Modification in Login Status and Enable/Disable User.

#### **Definition Prerequisites**

- SMM18 Access Domain Maintenance
- SMM14 Template Securities Settings

#### **Modes Available**

Add, Modify, Cancel, Amend, Authorize, Inquiry. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

#### To add the user profile details

- 1. Type the fast path **SMM02** and click **Go** or navigate through the menus to **Global Definitions > Security > User Profile Maintenance**.
- 2. The system displays the User Profile Maintenance screen.

Field Name	Description
User Name	[Mandatory, Alphanumeric, 40]
	Type the name of the user.
	It should be unique for all branches.
	This field cannot be modified or amended.
Employee ID	[Mandatory, Alphanumeric, 40]
	Type the employee ID of the bank staff.
Access	[Mandatory, Pick List]
Domain Code	Select the appropriate access domain code from the pick list.
	The access domain codes are maintained in the <b>Access Domain</b> <b>Maintenance</b> (Fast Path: SMM18) option. Based on the access domain and access codes, the user will be able to inquire and maintain accounts that are having one of the access code included in the user's access domain or else the inquiry/maintenance will not be allowed for that user on that CIF/Account.

Field Name	Description				
Language Code	[Mandatory, Drop-Down] Select the code of the language from the drop-down list.				
Cost Center	[Mandatory, Pick List] Select the branch code of the user from the pick list.				
Host Template	[Mandatory, Pick List] Select the code of the host template from the pick list. If the field is blank, the value of the template is taken as zero and the user is attached only to the host template.				
Primary Password	[Mandatory, Alphanumeric, 12] Type the primary password. Password policy of the bank can be set at the template level by <b>Template Security Settings</b> (Fast Path: SMM14). For e.g., It should be a combination of an uppercase and lowercase letter, and a numeric digit. This field cannot be modified or amended. The value can be between eight and 12.				
Password Reset Flag	<ul> <li>[Optional, Drop-Down]</li> <li>Select the password reset flag from the drop-down list.</li> <li>The options are: <ul> <li>Primary</li> <li>Secondary</li> <li>Both</li> <li>None</li> </ul> </li> <li>When the user logs in for the first time, a password change would be required if any option other than <b>None</b> is selected.</li> <li>This field cannot be modified or amended.</li> </ul>				
Password Chg Flg	[Display] This field is selected if the change in password is required during the first login.				
Email Id	[Mandatory, Alphanumeric, 60] Type the e-mail address of the user.				
Previous Password Count	[Mandatory, Numeric, One] Type the number of previous passwords that cannot be used again. This field cannot be modified or amended.				
Profile Start Date	This field cannot be modified or amended. [Mandatory, Pick List, dd/mm/yyyy] Select the date from which the user's profile will be enabled from the pick list. This field cannot be modified or amended.				

Field Name	Description
Profile End Date	[Mandatory, Pick List, dd/mm/yyyy] Select the date after which the user's profile will no longer be valid from the pick list.
Vacation Start Date	[Mandatory, Pick List, dd/mm/yyyy] Select the vacation start date from the pick list. The user cannot access the system during the specified vacation period. This ensures that any illegal attempt to access the system is not allowed. The system validates between the vacation start date and vacation end date (Excluding both the dates). This date should be later than the profile start date. This field cannot be modified or amended.
Vacation End Date	[Mandatory, Pick List, dd/mm/yyyy] Select the vacation end date from the pick list. The user can access the system when he or she returns from the vacation. The system validates between the vacation start date and vacation end date (Excluding both the dates). This date should be before the profile end date. This field cannot be modified or amended.
Current Status	[Mandatory, Drop-Down] Select the current status of the user from the drop-down list. The options are: • Disable • Enable • Lock
Permanently Disabled	[Display] This field displays the status of the user. The check box is selected if the user is permanently disabled.

- 7. The user profile details are modified once the record is authorized.

# SMM03 - Task Profile Maintenance

Using this option you can maintain a task profile which includes the following details like Task ID, Task Description and Category.

All options are broken into tasks that can be individually assigned to the user. You can use a task only if you have access rights to it. A group of tasks in conjunction will display a menu with options that lead to screens. Depending on the tasks assigned, the menus are generated dynamically. Each task has a task profile associated with it.

#### **Definition Prerequisites**

• BAM15 - Transaction Mnemonic Codes

#### **Modes Available**

Add By Copy, Add, Modify, Delete, Cancel, Amend, Authorize, Inquiry. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

#### To add the task profile details

- 1. Type the fast path **SMM03** and click **Go** or navigate through the menus to **Global Definitions > Security > Task Profile Maintenance**.
- 2. The system displays the Task Profile Maintenance screen.

#### Task Profile Maintenance

Task Profile Main	itenance*			🍋 🚺 💌

Field Name	Description				
Task ID	[Mandatory, Alphanumeric, Five]				
	Type the appropriate task code.				
	The task codes are assigned to the tasks or type of transactions that the user can access. Task code is a unique ID assigned to maintenance to provide easy access to the users.				
	Once added, this field cannot be modified.				
Task Category	[Mandatory, Drop-Down]				
	Select the task category from the drop-down list.				
	The options are:				
	<ul> <li>OP (Operator) - The System Operators are the other users of FLEXCUBE Retail application. The responsibility of system operators includes: End of Day Processing, File Transfer, Archival/Retrieval. The System Operators cannot perform any application related activities.</li> </ul>				
	• <b>OT (Other Tellers)</b> - The Other Tellers are the on-line users. They have the maximum interaction with <b>FLEXCUBE Retail</b> application. The responsibility of other tellers includes: Tables Maintenance, Performing Host transactions. This category of users cannot perform any System Administrator / System Operator kind of activities. These users perform all the application related activities				
	<ul> <li>SM (Security Manager) - The security manager has management level access rights. The responsibility of Security Manager includes: User Profile Maintenance, Template Profile Maintenance, Class Profile Maintenance, User Class Linkage, Task Access Control, System Security (involving Audit trail tracking and Exception activities tracking). The Security Manager cannot perform any application related activities.</li> </ul>				
	It indicates that the user with specific access rights can perform the assigned task.				
Module Code	[Mandatory, Drop-Down]				
	Select the code of the module to which the task ID belongs from the drop-down list.				
	The user can maintain a sequence format that will be applicable to all the modules available in the bank.				
Form Name	[Optional, Alphanumeric, 30]				
	Type the DLL name of the related function.				
	This field is currently not in use.				
Task Description	[Mandatory, Alphanumeric, 40]				
·····	Type the description for the task that the user wants to add.				

Field Name	Description			
Program Name	[Optional, Alphanumeric, 64]			
	Type the name of the program, which is linked to the parent task. The name of the program cannot begin with underscore.			
	This field has to be blank if the process code is blank.			
Task Level	[Mandatory, Numeric, Four]			
	Type the level of the task.			
	All templates with a level greater than the specified level can be granted access to this task.			
HelpContext Id	[Optional, Numeric, Nine]			
	Type the help context identification number of the task.			
Task Type	[Optional, Drop-Down]			
	Select the task type from the drop-down list.			
	The options are:			
	Cash Task			
	Non-Cash Task			
3. Click the Add b	utton.			

- 3. Click the **Add** button.
- 4. Enter the task id and select the task category from the drop-down list.
- 5. Select the module code from the drop-down list.
- 6. Enter the form name, task description, program name, and help context id.

- 9. The task profile is added once the record is authorized.

## SMM09 - User Prohibited Password Maintenance

Security Management System can maintain two lists of passwords that each user should not use. One list is common to all users in the branch, and the other is unique to each user.

Using this option you can maintain a list of prohibited passwords for each user individually. These passwords are generally names, words, and numbers that can be easily associated with the user. For example, name of the user's spouse, car number, telephone number, date of birth, etc. When a new user is added to the system, a new list of user prohibited passwords can be added.

#### **Definition Prerequisites**

• User Ids to be available for this maintenance

#### Modes Available

Add, Delete, Cancel, Authorize, Inquiry. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

#### To add user prohibited passwords

- Type the fast path SMM09 and click Go or navigate through the menus to Transaction Processing > Internal Transactions > Others > User Prohibited Password Maintenance.
- 2. The system displays the User Prohibited Password Maintenance screen.

#### **User Prohibited Password Maintenance**

# SMM12 - User Class Cross Reference Maintenance

Classes are created for grouping users for authorization purposes. Any action performed by the maker of a particular class, will have to be authorized by the authorizer of the same class. A user can be linked to more than one class.

Users in the branch are given access to various classes maintained in the **Class Profile Maintenance** (Fast Path: SMM04) option. Using this option allows the system administrator to enable users to belong to various pre-defined classes.

#### **Definition Prerequisite**

- SMM02 User Profile Maintenance
- SMM04 Class Profile Maintenance

#### Modes Available

Add, Delete, Inquire. For more information on the procedures of every mode, refer to **Standard Maintenance Procedures**.

#### To add a user class cross reference

- 1. Type the fast path SMM12 and click Go or navigate through the menus to Global Definitions > Security > User Class Cross Reference Maintenance.
- 2. The system displays the User Class Cross Reference Maintenance screen.

#### **User Class Cross Reference Maintenance**

#### **User Class Cross Reference Maintenance**

- 5. Click the + button.
- 6. The system displays the message "Class code appended to the List". Click the **OK** button.
- 7. The system refreshes the User Class Cross Reference Maintenance screen with the updated fields. Click the Ok button.
- 8. The system displays the "Authorization Required. Do You Want to continue?". Click the **OK** button.
- 9. The system displays the Authorization Reason screen.
- 10. Enter the relevant information and click the Grant button.
- 11. The system displays the message "Record Added". Click the **OK** button.
- 12. The user cross reference is added successfully.

# **SMM13 - Template Transaction Limits**

Using this option limits on financial transactions can be maintained in the system for all users of the system. The limits can be maintained for a group of users under a particular template and currency combination. The online and offline limits for same branch and for inter branch are maintained in this option. You can also populate the limits that are assigned to the transaction group to the individual transaction mnemonics.

#### **Definition Prerequisites**

- BAM25 Currency Definition
- BAM15 Transaction Mnemonic Codes

### Modes Available

Add, Modify, Delete, Cancel, Amend, Authorize, Inquiry. For more information on the procedures of every mode, refer to Standard Maintenance Procedures.

#### To add template limits

- 1. Type the fast path SMM13 and click Go or navigate through the menus to Global Definitions > Security > Template Transaction Limits.
- 2. The system displays the **Template Transaction Limits** screen.

## **Template Transaction Limits**

emplate Transaction Limits					iii 🛛 🖬
