This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

## About This Guide

---

### Topics:

- *How This Guide is Organized.....6*
- *Intended Audience.....6*
- *Documentation Admonishments.....6*
- *Locate Product Documentation on the Oracle Help Center Site.....7*
- *Customer Training.....7*
- *My Oracle Support (MOS).....7*
- *Emergency Response.....8*

This guide describes related publications used in the Policy Management system.

## How This Guide is Organized

The information in this guide is presented in the following order:

- *About This Guide* contains general information about this guide, the organization of this guide, and how to get technical assistance.
- *Policy Management Publications* contains the list of related publications as well as a short description of each book's function.

## Intended Audience

This guide is intended for qualified users of the Oracle Communications Policy Management Configuration Management Platform (CMP).

## Documentation Admonishments

Admonishments are icons and text throughout this manual that alert the reader to assure personal safety, to minimize possible service interruptions, and to warn of the potential for equipment damage.

**Table 1: Admonishments**

Icon	Description
 DANGER	Danger: (This icon and text indicate the possibility of <i>personal injury</i> .)
 WARNING	Warning: (This icon and text indicate the possibility of <i>equipment damage</i> .)
 CAUTION	Caution: (This icon and text indicate the possibility of <i>service interruption</i> .)
 TOPPLE	Topple: (This icon and text indicate the possibility of <i>personal injury and equipment damage</i> .)

## Locate Product Documentation on the Oracle Help Center Site

Oracle Communications customer documentation is available on the web at the Oracle Help Center (OHC) site, <http://docs.oracle.com>. You do not have to register to access these documents. Viewing these files requires Adobe Acrobat Reader, which can be downloaded at <http://www.adobe.com>.

1. Access the Oracle Help Center site at <http://docs.oracle.com>.
2. Click **Industries**.
3. Under the Oracle Communications subheading, click the **Oracle Communications documentation** link.  
The Communications Documentation page appears. Most products covered by these documentation sets will appear under the headings “Network Session Delivery and Control Infrastructure” or “Platforms.”
4. Click on your Product and then the Release Number.  
A list of the entire documentation set for the selected product and release appears.
5. To download a file to your location, right-click the **PDF** link, select **Save target as** (or similar command based on your browser), and save to a local folder.

## Customer Training

Oracle University offers training for service providers and enterprises. Visit our web site to view, and register for, Oracle Communications training:

<http://education.oracle.com/communication>

To obtain contact phone numbers for countries or regions, visit the Oracle University Education web site:

[www.oracle.com/education/contacts](http://www.oracle.com/education/contacts)

## My Oracle Support (MOS)

MOS (<https://support.oracle.com>) is your initial point of contact for all product support and training needs. A representative at Customer Access Support (CAS) can assist you with MOS registration.

Call the CAS main number at 1-800-223-1711 (toll-free in the US), or call the Oracle Support hotline for your local country from the list at <http://www.oracle.com/us/support/contact/index.html>. When calling, make the selections in the sequence shown below on the Support telephone menu:

1. Select **2** for New Service Request
2. Select **3** for Hardware, Networking and Solaris Operating System Support
3. Select one of the following options:
  - For Technical issues such as creating a new Service Request (SR), Select **1**
  - For Non-technical issues such as registration or assistance with MOS, Select **2**

You will be connected to a live agent who can assist you with MOS registration and opening a support ticket.

MOS is available 24 hours a day, 7 days a week, 365 days a year.

## Emergency Response

In the event of a critical service situation, emergency response is offered by the Customer Access Support (CAS) main number at 1-800-223-1711 (toll-free in the US), or by calling the Oracle Support hotline for your local country from the list at <http://www.oracle.com/us/support/contact/index.html>. The emergency response provides immediate coverage, automatic escalation, and other features to ensure that the critical situation is resolved as rapidly as possible.

A critical situation is defined as a problem with the installed equipment that severely affects service, traffic, or maintenance capabilities, and requires immediate corrective action. Critical situations affect service and/or system operation resulting in one or several of these situations:

- A total system failure that results in loss of all transaction processing capability
- Significant reduction in system capacity or traffic handling capability
- Loss of the system's ability to perform automatic system reconfiguration
- Inability to restart a processor or the system
- Corruption of system databases that requires service affecting corrective actions
- Loss of access for maintenance or recovery operations
- Loss of the system ability to provide any required critical or major trouble notification

Any other problem severely affecting service, capacity/traffic, billing, and maintenance capabilities may be defined as critical by prior discussion and agreement with Oracle.

## Related Publications

For information about additional publications that are related to this document, refer to the Oracle Help Center site. See [Locate Product Documentation on the Oracle Help Center Site](#) for more information.

# Chapter 2

## Policy Management Publications

---

### Topics:

- [Related Publications.....10](#)
- [Contents of Policy Management Documentation Set.....10](#)

The publications listed in this document are included in the Oracle Communications Policy Management documentation set.

## Related Publications

The Policy Management product set includes the following publications, which provide information for the configuration and use of Policy Management products in the following environments:

**Note:** The publication set for a specific release may not contain all the publications listed. The publication set for a release is based on the mode, features, and functions available in the release.

### All Modes

- *Release Notes*
- *Policy Wizard Reference*
- *Troubleshooting Reference*
- *SNMP User's Guide*
- *OSSI XML Interface Definitions Reference*
- *Platform Configuration User's Guide*

### Cable only

- *Configuration Management Platform Cable User's Guide*
- *Bandwidth on Demand Cable User's Guide*

### Wireless only

- *Configuration Management Platform Wireless User's Guide*
- *Policy Front End Wireless User's Guide*
- *Analytics Data Stream Reference*
- *Mediation Distribution Function Reference*

### Wireline only

- *Configuration Management Platform Wireline User's Guide*

## Contents of Policy Management Documentation Set

The Policy Management documentation set includes the following publications, which provide information for the configuration and use of related applications.

Some documents, such as *Release Notes*, are available only through the Oracle Help Center.

**Note:** The publication set for a specific release may not contain all the publications listed. The publication set for a release is based on the mode, features, and functions available in the release.

The current releases of all documents are available through the Oracle Help Center.

- *Configuration Management Platform User's Guide* describes how to use the Configuration Management Platform (CMP) product to configure and manage Policy Management devices in a (Cable, Wireless and Wireline) network.
- *Policy Wizard Reference* provides information about policy rules that you can create, deploy, and manage using the Oracle Communications Policy Management Configuration Management Platform (CMP) system in all operating modes. This reference describes the manageable objects you can

include in policy rules, the Policy Wizard you use to create policy rules, and the policy conditions and actions available for your use in writing policy rules.

- *Troubleshooting Reference* provides a brief summary about incidents, notifications, and the ID ranges for alarms and events.
- *SNMP User's Guide* describes Policy Management product support for Simple Network Management Protocol (SNMP).
- *OSSI XML Interface Definitions Reference* describes the Configuration Management Platform (CMP) OSSI XML interface. This interface allows an operator or third party system to programmatically push configuration information to and retrieve operational statistics from the policy server deployment.
- *Platform Configuration User's Guide* describes how to use the Oracle Communications Platform Configuration utility to configure the Policy Management.
- *Policy Front End Wireless User's Guide* describes how to add and configure Multi-Protocol Routing Agents in a wireless network.
- *Mediation Distribution Function Reference* describes how to add and configure a Mediation Distribution Function server in a wireless network. (Not available in all wireless releases).
- *Bandwidth on Demand Cable User's Guide* describes how to add and configure a Bandwidth on Demand server in a cable network.
- *Analytics Data Stream Reference* describes Policy Management product support for the Analytics Data Stream feature.
- *Release Notes* describes generic program loads, resolved bugs, known bugs, upgrade paths, and compatibility for the Policy Management system.
