1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.
Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser and theme.

- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

1.4 Related Information Sources

For more information on Oracle Banking Digital Experience Release 16.1.0.0.0, refer to the following documents:

- Oracle Banking Digital Experience Licensing Guide
- Oracle Banking Digital Experience Installation Manuals

2. Loans

Banks lend money to their customers through loan accounts. Hence, loan accounts are valuable assets to the bank. It becomes important for the banks to enrich end user's loan servicing experience to increase customer satisfaction and retention.

In order to achieve this, banks are constantly putting efforts to enhance their online channel banking experience for their customers by introducing and revamping loans servicing features on digital platform.

Application provides a platform for banks to enable their customers to service Loans module through self-service channels.

The customers can manage their banking requirements efficiently and effectively through self-service channel. It allows customers to view their accounts, outstanding balances, make repayments, view loan schedules etc.

3. Loans Dashboard

Loans dashboard provides a summary of the Loan accounts held by the customer. Loans dashboard displays summary of total borrowings done by the customer in all accounts along with the current outstanding amount. It allows customers to understand their current position with respect to loan accounts. Summary of individual Loan accounts will be displayed on the user's dashboard.

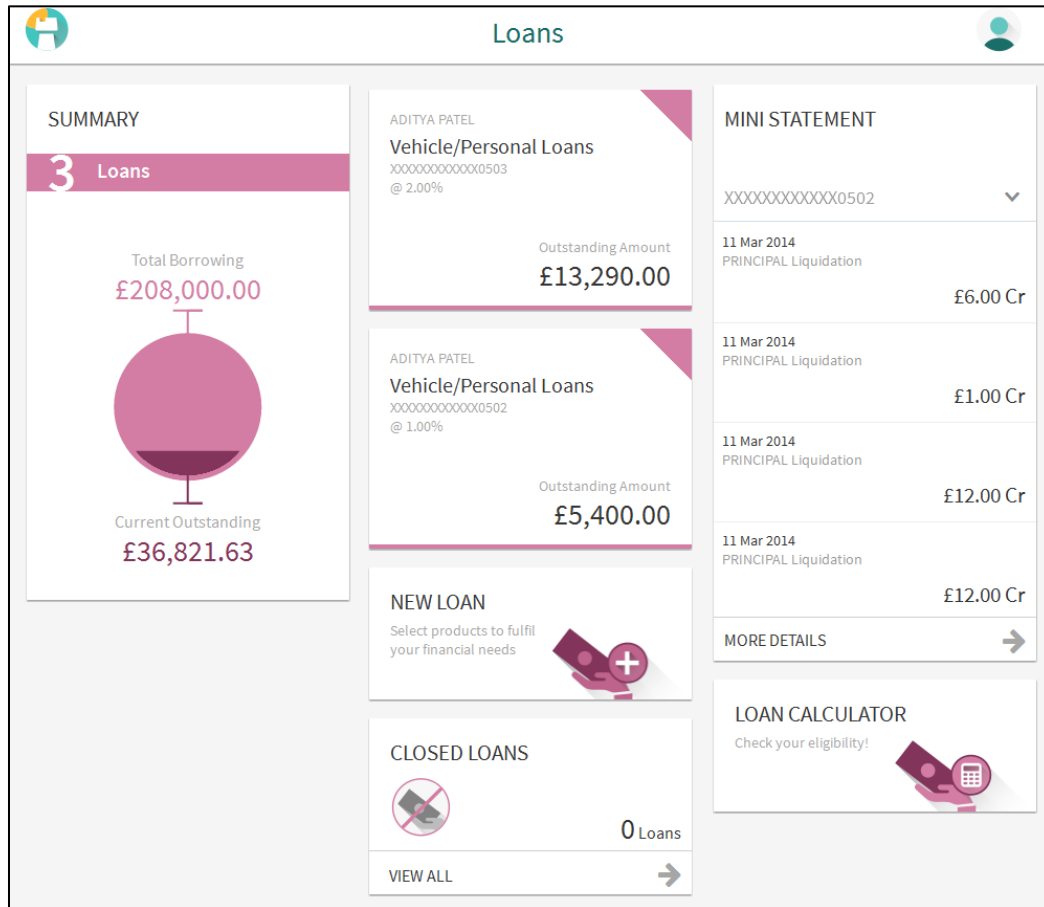

User can view account details such as customer name, product name, account number, rate of interest, outstanding amount and joint account indicated on the dashboard for individual accounts. The system will fetch the details for all loan accounts linked to the logged in customer id and display to the customer.

When the customer logs in or is navigated to dashboard from any of the screens, system will retrieve the account statement details and displays it in a mini statement widget. Mini statement of only one account will be displayed at a time. Latest transactions made the account will be displayed in ascending order. Customer can select the account number of available accounts. Every time account number is changed, the system will retrieve account details. The customer can navigate to account statement screen to view complete details of the transaction or download account statement.

At times a customer needs to refer their previous loan accounts which are in closed status. A summary of such closed accounts is displayed on the dashboard. It allows user to navigate to the view closed account details screen.

Customers can initiate requests for opening a new loan account through the dashboard. On initiating the request customer will be navigated to the product showcase screen of origination module where various products and offers hosted by the bank will be available for selection.

Dashboard

Dashboard Overview

Summary

This section displays the analysis of all loan accounts held by the customer. It provides the Total Borrowings and Current Outstanding for the all credit cards mapped to the customer. It includes details like:

- Total Borrowings: Summation of total amount borrowed in all accounts
- Current Outstanding: Summation of current outstanding in all accounts

Loan Account Card

This section displays all the related information about the loan account. It includes details like:

- Customer Name : Name of primary account holder in the loan account
- Product /Offer Name: Name of offer /product under which the loan account is opened
- Loan Account Number: Loan account number in masked format
- Interest Rate : Interest rate applicable to the loan account
- Outstanding Amount: Outstanding loan amount in the account currency

Click on account card to view the respective loan account details.

New Loan

Click this section to apply for new loan.

This invokes the loan origination flow.

Closed Loans

This section displays the count of all the closed loans. Click View All to view all closed loan accounts.

Mini Statement

This section displays the last few transactions on loan accounts linked to the customer.

The each transaction in mini statement includes:

- Loan Account number
- Date of Transaction
- Description of transaction
- Amount along with debit or credit indication

Click More Details to view all transactions in the account along with details.

4. Loan Details

Customers need to know their loan account details and account preferences under which the account is opened. The Loan account details screen provides these information to the customer.

Customer can view account's basic information such as personal information, holding patterns, disbursement details, outstanding amount, and repayment details and arrears.

Note: The loan features like Repay, Schedule, and Disbursement Details are not available for closed loan accounts.

- To make a repayment in the loan account, click Repay.

Note: To navigate to Dashboard screen, click  .

FAQs

Can I make joint application for loans?

Yes, many institutions consider the joint incomes of the applicants for deciding eligibility of the loan amount.

5. Repayment

Usually the loan repayment is done by setting up of standing instructions if such account is within the bank or by maintaining mandate instruction if such account is of another bank. Once these instructions are maintained by the bank for the loan account, the repayment amount is periodically drawn from the source account to settle the repayment.

Customers on time need to make partial or full repayment of the outstanding loan amount by making adhoc payment. This feature allows the customer to make adhoc repayments through self service channel. Customers can make repayment only through the source account linked to customer.

Customers can make partial repayment or make full settlement of the loan account. In partial settlement customer can make payment of any amount that is less than the outstanding loan amount. In this case, if there are any arrears in the loan account, then arrears will be settled first, then remaining balance of the transferred amount will be settled against the principal balance of the loan.

In case of full settlement, the final settlement amount is calculated by applying penalties or charges as applicable by the host system and displayed to the customer. Customer need to transfer final settlement amount in order to make full repayment.

Repayment done by the customer either partial or full will be immediately reflected in the loan account.

4. The success message appears, along with the reference number.
Click **Done** to complete the transaction.

FAQs

Can I make a partial prepayment towards my loan?

Yes. you can prepay the loan partly or fully, at any stage, subject to pre-payment charges applicable as per your loan type.

6. Disbursement Details

Disbursement of the loan amount depends on the type of loan product availed by the customer. Few of the loan products such as personal loan and auto loan have single disbursement policies. Certain loan products such as housing loan, education loan have multiple disbursement policies.

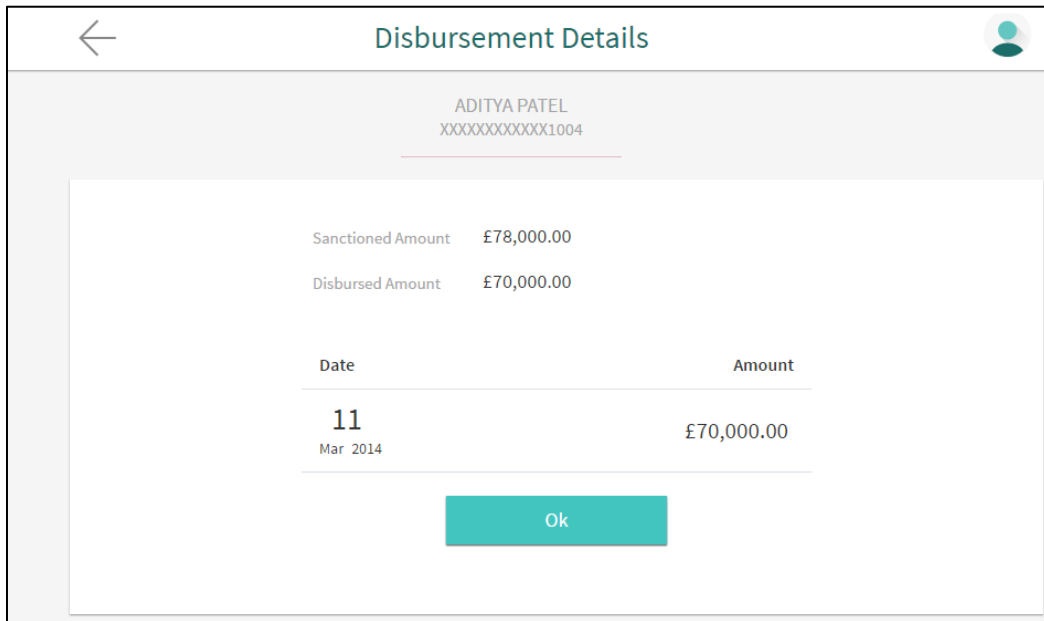

In case of multiple disbursements of loan product, customer needs to know the disbursement details of the loan account. This feature allows the customer to view the disbursement details such as disbursed amount, disbursal date and sanctioned amount. It helps the customer to analyze the current position of the loan account as to how much is disbursed and how much yet to be disbursed.

How to reach here:

Loan Dashboard > Loan Account Card > Loan Details > Disbursement Details

To view disbursement details of loan account:

Disbursement Details

FAQs

When can you request for foreclosure/ prepayment?

You can request for foreclosure/ prepayment after a lock-in period from the date of disbursement.

10. Loan Calculator and Loan Eligibility Calculator

Using this option, you can view an indicative estimate of the following by specifying the total loan amount, interest rate and period of loan. You can also compute the total amount that you are eligible for a loan.

How to reach here:

Loan Dashboard > Loan Calculator Card

Field Description

Field Name	Description
Tab	The options are: <ul style="list-style-type: none"> • Loan Calculator • Eligibility Calculator

1. Select the appropriate Tab.

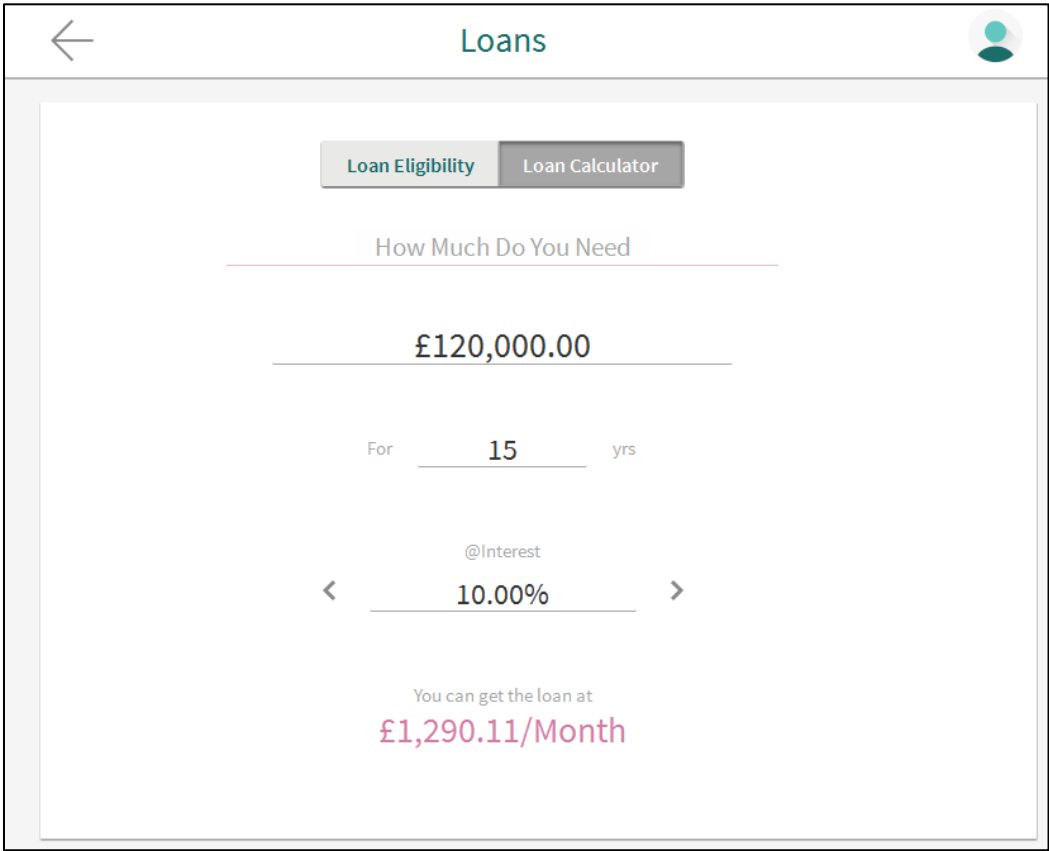

10.2 Loan Calculator

Loan repayment calculator is a simple calculator which calculates the repayment value of the loan for specific tenure and rate of interest. It helps customers determine the loan borrowing based on the repayment capacity of the loan. This calculator does not define the eligibility of the customer for borrowing the loan. It only provides the repayment value of a loan for specific tenure.

Using this option, you can view an indicative estimate of the following:

- Interest payable
- Total amount paid
- Monthly installment for the loan required

Loan Calculator

Field Description

Field Name	Description
How much do you need	Loan amount that you want to apply from the bank.
For (period)	Tenure of loan in terms of years.
Interest rate	Interest rate that bank will charge on the applied loan.
You can get a loan at	Calculated monthly installment for the loan required against the Loan amount, Interest rate and the loan tenure.

1. In the How much do you need field, enter the loan amount.
2. In the For (period) field, enter the loan tenure in years.
3. In the Interest Rate field, enter the interest rate.
4. Calculates and displays the monthly installment for the loan required.

10.3 Eligibility Calculator

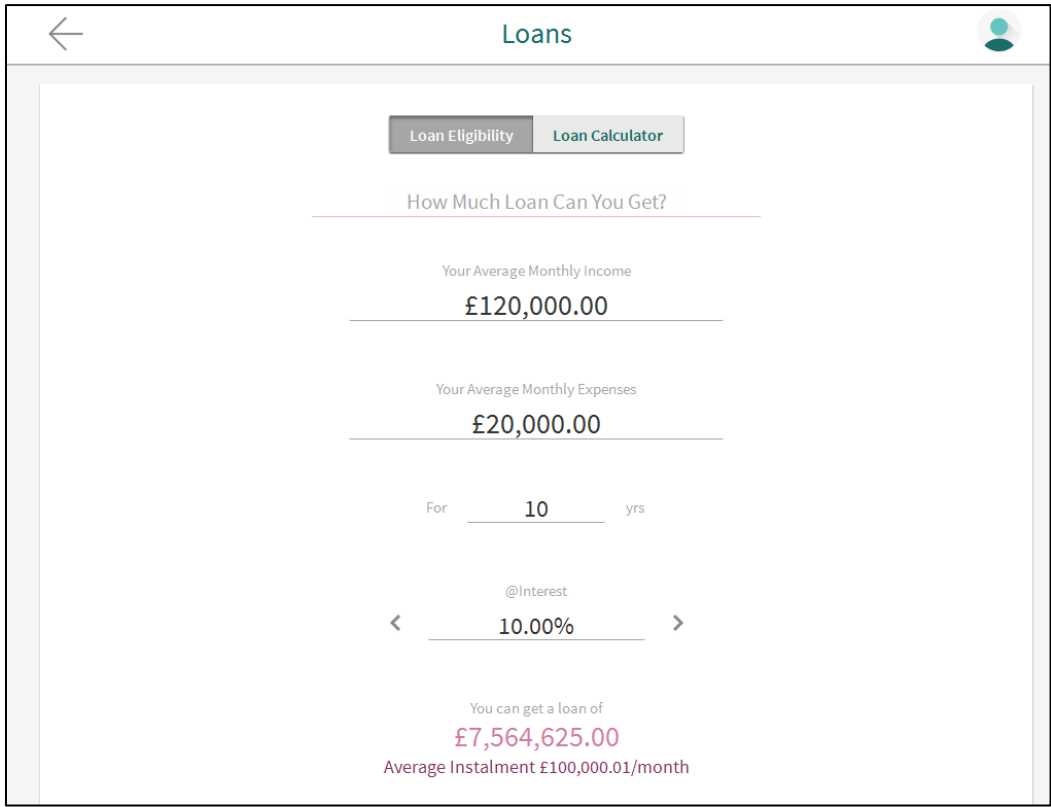

It requires a lot of market research before taking a decision to apply for a loan. Loan eligibility calculator plays an important role to help customer understand their current position with respect to their financial position. Loan eligibility calculator enables customer to understand their loan eligibility, considering their average monthly income and expenditure. It computes the loan amount and repayment amount based on income, expense, interest rate and tenure of the loan.

Loan calculation is done by application and displayed to the customer.

The eligibility is calculated on the basis of:

- Average Monthly Income
- Tenure for the loan being inquired
- Average Monthly Expenses
- Estimated rate of interest
