1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser and theme.

- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Release 16.1.0.0.0, refer to the following documents:

- Oracle Banking Digital Experience Licensing Guide
- Oracle Banking Digital Experience Installation Manuals

2. Payments

Customers have various payments required to be done in day to day life. This requires customer to transfer money from one account to another account of an individual. The transfer of money could be towards payment of fees, payment of daily utility bills, payment towards booking of vacation trips, hotel reservations, salary payment of individuals etc.

Application simplifies the customer requirement to transfer funds from one bank account to another through digital banking. The user can transfer funds to his own or any other account within the same bank or to any account outside the bank through the wide range of payment features available in application.

Application also supports a facility of interfacing with the third party interface for customer payments.

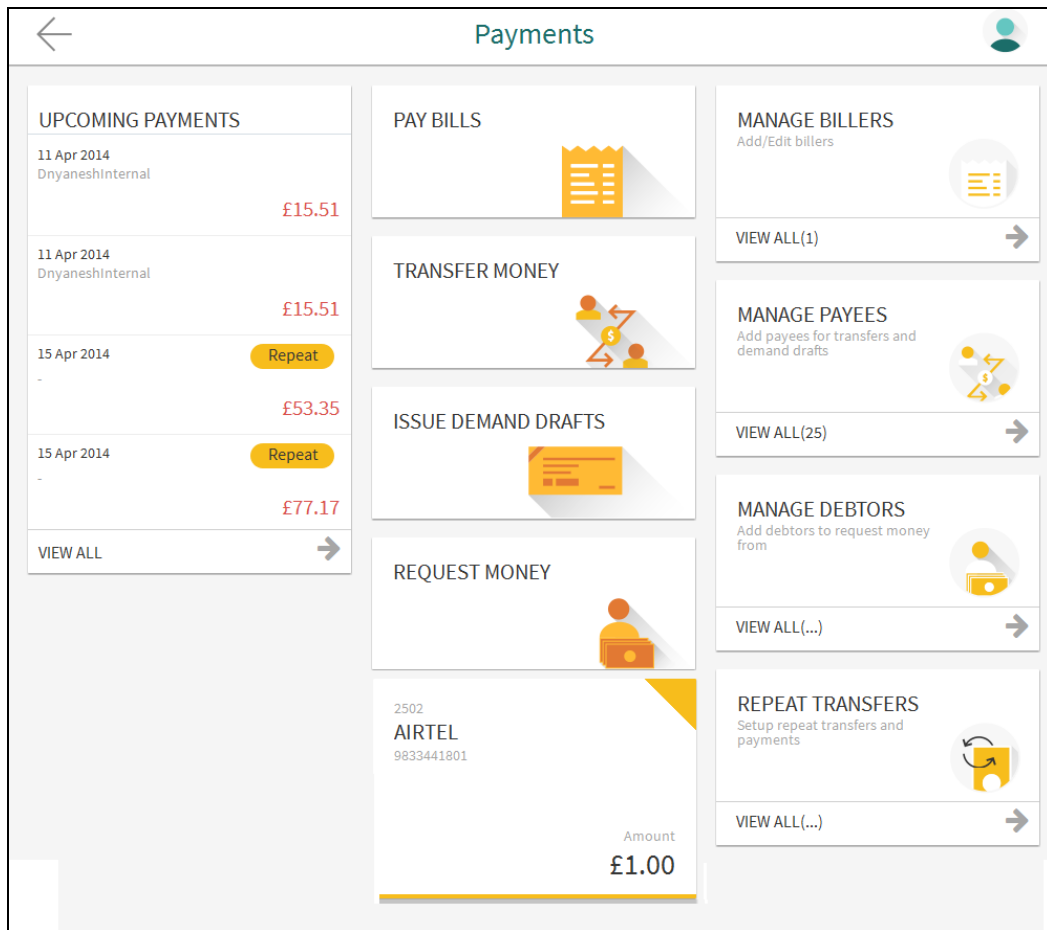

3. Payments Dashboard

Application dashboard displays a cubical presentation of various transactions available under the payments module. Different transactions are placed on the dashboard in the form of cards, which gives easy access to the customer.

It provides immediate access to below transactions:

- View of all the upcoming payments which were initiated by the customer to be executed at a future date
- Transfer Money – through which the customer can initiate a transfer to a payee's account.
- Demand Draft can be issued through 'Issue Demand Draft' card present on the dashboard.
- Customer can initiate a utility bill payment from the dashboard.
- Displays all the favourite transactions of the customers. Customer can effect an immediate payment selecting the favourite transaction as the fields are auto populated.
- Easy access to the customer for payee maintenance for money transfers and bill payments. Card for Debtor maintenance is also available upfront to the customer.
- Request Money feature allows user to initiate a request to pull money from the debtor.
- The entire customer payments which need to be repeatedly done by the customer at a periodic interval can be initiated only once through Repeat Transfers.

Dashboard

Click [View All](#) to view / add standing instructions and stop.

4. Money Transfers

Transfer Money enables the user to initiate payment from his bank account to any other bank account without visiting the bank enjoying from the ease of his home through digital banking. Payments are categorized on the basis transfer to account within the bank, outside the bank and beyond geographical boundaries. When the transfer is to an account within the bank it is an internal transfer. Transfer to an account outside the bank, but within the country is called a Domestic transfer. A transfer to an account outside the country is called an International payment. This categorization takes places when a customer saves the payee bank account details during payee maintenance.

The customer can initiate a money transfer when the payee to whom transfers are required to be made are registered in the system.

Application provides a one solution to the customer through Transfer Money to cater their requirement of different types of payments. The customer has provided a single screen of Transfer money for their internal, domestic or international payments.

Transfer money allows the user to make payments:

- To Existing Payees
- To New Payees
- User's own account

Transfer to new payees is done using the payee's email id or the mobile number.

How to reach here:

Payments Dashboard > Transfer Money card > Transfer Money

7. Payee Maintenance - Demand Draft

Demand Draft is a type of a cheque drawn in favour of the payee and is payable in the city as requested by the customer. The customer requires to issue demand drafts for different purpose. Application allows customers to save the payee details of the draft through payee maintenance. Payees (Beneficiary) for demand drafts are of two types:

- Domestic Demand Draft: Where the draft is payable within the country
- International Demand Draft : Where the draft is payable outside the country

Application also provides an additional option (My address, Branch Near Me) to have the demand draft delivered at the customer's convenience.

How to reach here:

Payments Dashboard > Manage Payees > Add New Payee > Demand Draft > Add Payee

To add new payee:

1. Click **Add New Payee** card. The pop up screen appears to specify the type of payee.

FAQs

What is account payee demand draft?

The demand draft is drawn in favour of creditor (the person whom you have to pay), he is payee.

What is difference between the demand draft and cheque?

Demand drafts are orders of payment by a bank to another bank, whereas cheques are orders of payment from an account holder to the bank.

8. Issue Demand Draft

Application provides an exclusive feature which allows the customer to request the bank for the issuance of a demand draft through internet banking. The payee of the draft needs to be first registered through Payee Maintenance. The user then initiates a request to issue a demand draft by asking the bank to debit the account provided by him. On submitting the request, the details will be sent by application and the bank will then process the request and courier the draft.

How to reach here:

Payments Dashboard > Issue Demand Drafts > Demand Draft
OR

Payments Dashboard > Manage Payees > Payee Card

Issue Demand Draft

OR
Click **Cancel** to cancel the transaction.
 - The **Verification** screen appears if transaction is configured for OTP validation. For more information click [here](#).
 - The success message appears.
Click **Done** to complete the transaction.

9. Bill Payment

Bill payment is a facility provided to the customer to make their utility payments online through digital banking. The customer has different utility payments like Electricity Bill payment, Mobile bill payments, Water bill payments, insurance payments, etc. Application has eased the mode of paying these bills through Bill Payment.

The customer initiates the payment for a specific vendor who is already maintained in the system by the user. The customer provides below details while initiating the payment:

- Selects the payee (vendor)
- Amount
- Account number to debit the funds
- Note – narrative field

On submitting the request a reference number is generated by application indicating successful initiation of the payment. The customer account is debited upfront by application. It then makes a call to UBS and provides all the details of the transaction. UBS processes the transaction and confirms the execution of it to application and provides the reference number.

How to reach here:

Payments Dashboard > Pay Bills Card > Pay Bills

OR

Payments Dashboard > Manage Billers > Biller Details

Pay Bills

The screenshot displays the 'Pay Bills' interface with the following details:

- Pay to:** MSEB
- Amount:** €1,000.00
- Pay From:** XXXXXXXXXXXX0013 (Balance: -€4,995,500,788.49)

FAQs

Can I make any changes to the post-dated instructions?

Yes, you can cancel the post-dated instructions.

What happens if I have set up a transfer for a future date, but on that date I don't have enough funds in my account to cover the transfer?

In this case, the transfer will not be made. This transfer is done only on availability of funds in your account.

15. Upcoming Payments

Upcoming payments are a unique feature of Payment dashboard. It upfront reminds the customer of all its payments which are due for payment in the coming month or the following 30 days. The dashboard displays four immediate upcoming payments. **View All** option is available on the dashboard it to view all the upcoming payments of the customer.

The transaction types which you can view are:

- Standing Instruction
- Future dated transfer

This transaction also allows you to cancel the payment before execution.

Note: In case of canceling a standing instruction, complete standing instruction will be get cancelled.

The Upcoming Payments provides details like Date of Execution of the Payment, Payee Nickname, and Amount of transaction.

FAQs**What are Standing Instructions?**

The Standing Instructions feature facilitates periodic recurring payments.

What are the transaction types for which I can register standing instructions?

You can register for the transaction types like Funds transfer, Third Party transfer, and Inter Bank Transfer to other bank accounts.

16. Favorite Transaction

The customer has many such transactions which could be repeatedly required to be executed by them at a future date, but the execution date need not be fixed. The customer can avoid entering the transaction details repeatedly during execution by using this unique feature of **Favorite Transaction**.

Application enables the customers to make the transactions frequently used by them to be marked as **Favourite** in the confirmation screen of all its transactions. A  icon is provided on the confirmation screen. The customer just needs to select that icon and transaction will be marked as **Favorite Transaction**.

Once a transaction is marked as favourite it will be displayed always on the customer's payment dashboard. The customer just clicks on the favourite transaction while executing and all the transaction details are displayed on screen auto populated. The required change in the details can be done and submit the transaction for processing.

Note:

- 1) This transaction also allow you to remove the payment transaction from favorite list of transaction.
 - 2) You can mark Bill Payment and Money Transfer transactions as **Favorite**.
-

How to reach here:

Payment Dashboard > Favorite Transaction card

To view and initiate the favorite transaction:

Favorite Transaction

1. Click the relevant card to initiate the favorite transaction. The details of transaction appear in respective payment transfer screen.
2. To initiate transaction, click **Pay**.
OR
To remove transaction from favorite list, click  .

Remove Favorites

The screenshot shows the 'Transfer Money' interface. At the top, there is a logo on the left and a user profile icon on the right. The main content area contains several form fields:

- Transfer To:** Three tabs are visible: 'Existing Payee' (selected), 'New Payee', and 'My Accounts'.
- Payee:** A text field containing 'Internal01' with a small circular icon to its right.
- Amount:** A dropdown menu set to 'GBP' and a text field containing '£103.00'. Below this is a link labeled 'View Limits'.
- Transfer When:** Two buttons: 'Now' (selected) and 'Later'.
- Transfer From:** A dropdown menu showing 'XXXXXXXXXXXX0024' with a balance of '£3,497,492.72' below it.
- Purpose:** A text field containing 'Transaction is an intra-company pay.✕'.
- Note (Optional):** A text field with '40 characters left' below it.

 At the bottom, there are three buttons: 'Cancel', a broken heart icon, and a teal 'Transfer' button.

- a. The confirmation message to remove from list appears. Click **Remove**.

Remove Favorites- confirm

The screenshot shows a confirmation dialog box overlaid on the transfer form. The dialog box has a white background and a light gray border. It contains the following text:

Are you sure you want to remove transfer to Internal01 for £103.00 as a Favourite?

 At the bottom of the dialog box, there are two buttons: 'Cancel' and a teal 'Remove' button.

OR

Click **Cancel** to cancel the transaction.

- b. The success message appears. Click **Done** to complete the transaction.

FAQs

Post transaction, if I add it to “Favourites” where will this be reflected and what benefit will I gain from this?

The transaction will be saved in the “Favorites” list. This transaction can then be used the next time you want to initiate a similar payment. Common Screens

17. Common Screens

Field Description

Field Name	Description
Verification Code	The code sent to the customer to their registered email id or mobile number.

2. Click **Submit**. The success message appears.

FAQ

Why is there a need for a One-Time Password (OTP)?

A OTP helps to protect against online fraud. It is a secure way to authenticate whether a customer who is making an online transaction is the rightful owner of the credit / debit card being used.

When do I key in the OTP and how do I receive the OTP?

When you make an online transaction using your credit/debit card. This OTP will be sent to your mobile phone via SMS or email.
