Bug

- BEV-3387 Install dialog email address not used for local.properties**
- The email address set for 1st level support entered in the installation dialoge does not change the default value in local.properties.
To reproduce: start full install and check the local properties after email address is added.
- BEV-3972 Locked out after session timeout**
- If navigation request from background task (for example report creation) happens after user logged out, then these actions are stored, and if user logs in again then it will be navigated automatically to that panel/task. If multiple options are available to navigate, then a dialog appears and user can select the task to continue with.
- BEV-4072 Booking remarks per booking are displayed twice on Resource Detail Report**
- Booking remarks per booking are displayed twice on Resource Detail Report.
- BEV-4075 Prepaid Package is settled twice**
- Due to a bug, Prepaid Package was settled twice.
The auto-scheduled Task BillBookings is now improved and more robust agains repeated settling of a booking.
In order to activate the Task, use the Bellavita Administration.
- BEV-4078 When printing the invoice A4 no document position, guest or further invoice data appears on the preview.**
- When printing the invoice A4 no document position, guest or further invoice data appears on the preview.
If the Batch update should not be used, use System Parameter {{TempTableUtils.useBatchUpdates}}, set it to {{false}}.
- BEV-4080 The planning employee for availability requests doesn't seem to work anymore.**
- Slots are offered but booking creation throws an exception.
Multiple booking entries appear in the booking context menu. Only one is needed.
Commit is fixed for single spa environment.
- BEV-4090 Multi facility-skill offer now handled correctly**
- It could happen, that the same facilty got assigned twice for offers requiring mutiple facilities.

Improvement

BEV-4086 Dragging of bookings in schedules with sub-optimal performance

In the releases 2.7 - 2.7.0.9 the dragging in schedules can be somewhat sluggish.
This has been fixed in 2.7.0.10.

BEV-4097 Now it is not possible to configure offers without skills to avoid booking mistakes.

Offer cannot be configured without skill
