3 Licenses

Code Project Open License (CPOL) 1.2

Preamble

This License governs Your use of the Work. This License is intended to allow developers to use the Source Code and Executable Files provided as part of the Work in any application in any form.

The main points subject to the terms of the License are:

(i) Source Code and Executable Files can be used in commercial applications;

(ii) Source Code and Executable Files can be redistributed; and

(iii) Source Code can be modified to create derivative works.

(iv) No claim of suitability, guarantee, or any warranty whatsoever is provided. The software is provided "as-is".

(V)The Article(s) accompanying the Work may not be distributed or republished without the Author's consent

This License is entered between You, the individual or other entity reading or otherwise making use of the Work licensed pursuant to this License and the individual or other entity which offers the Work under the terms of this License. ("Author").

License

THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CODE PROJECT OPEN LICENSE ("LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE OR COPYRIGHT LAW IS PROHIBITED.

BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HEREIN, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. THE AUTHOR GRANTS YOU THE RIGHTS CONTAINED HEREIN IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS. IF YOU DO NOT AGREE TO ACCEPT AND BE BOUND BY THE TERMS OF THIS LICENSE, YOU CANNOT MAKE ANY USE OF THE WORK.

1. Definitions.

a. "Articles" means, collectively, all articles written by Author which describes how the Source Code and Executable Files for the Work may be used by a user.

b. "Author" means the individual or entity that offers the Work under the terms of this License.

c. "Derivative Work" means a work based upon the Work or upon the Work and other pre-existing works.

d. "Executable Files" refer to the executables, binary files, configuration and any required data files included in the Work.

e. "Publisher" means the provider of the website, magazine, CD-ROM, DVD or other medium from or by which the Work is obtained by You.

f. "Source Code" refers to the collection of source code and configuration files used to create the Executable Files.

g. "Standard Version" refers to such a Work if it has not been modified, or has been modified in accordance with the consent of the Author, such consent being in the full discretion of the Author.

h. "Work" refers to the collection of files distributed by the Publisher, including the Source Code, Executable Files, binaries, data files, documentation, whitepapers and the Articles.

i. "You" is you, an individual or entity wishing to use the Work and exercise your rights under this License.

2. Fair Use/Fair Use Rights. Nothing in this License is intended to reduce, limit, or restrict any rights arising from fair use, fair dealing, first sale or other limitations on the exclusive rights of the copyright owner under copyright law or other applicable laws.

3. License Grant. Subject to the terms and conditions of this License, the Author hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below:

a. You may use the standard version of the Source Code or Executable Files in Your own applications.

b. You may apply bug fixes, portability fixes and other modifications obtained from the Public Domain or from the Author. A Work modified in such a way shall still be considered the standard version and will be subject to this License.

c. You may otherwise modify Your copy of this Work (excluding the Articles) in any way to create a Derivative Work, provided that You insert a prominent notice in each changed file stating how, when and where You changed that file.

d. You may distribute the standard version of the Executable Files and Source Code or Derivative Work in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution.

e. The Articles discussing the Work published in any form by the author may not be distributed or republished without the Author's consent. The author retains copyright to any such Articles. You may use the Executable Files and Source Code pursuant to this License but you may not repost or republish or otherwise distribute or make available the Articles, without the prior written consent of the Author.

Any subroutines or modules supplied by You and linked into the Source Code or Executable Files of this Work shall not be considered part of this Work and will not be subject to the terms of this License.

4. Patent License. Subject to the terms and conditions of this License, each Author hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, import, and otherwise transfer the Work.

5. Restrictions. The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:

a. You agree not to remove any of the original copyright, patent, trademark, and attribution notices and associated disclaimers that may appear in the Source Code or Executable Files.

b. You agree not to advertise or in any way imply that this Work is a product of Your own.

c. The name of the Author may not be used to endorse or promote products derived from the Work without the prior written consent of the Author.

d. You agree not to sell, lease, or rent any part of the Work. This does not restrict you from including the Work or any part of the Work inside a larger software distribution that itself is being sold. The Work by itself, though, cannot be sold, leased or rented.

e. You may distribute the Executable Files and Source Code only under the terms of this License, and You must include a copy of, or the Uniform Resource Identifier for, this License with every copy of the Executable Files or Source Code You distribute and ensure that anyone receiving such Executable Files and Source Code agrees that the terms of this License apply to such Executable Files and/or Source Code. You may not offer or impose any terms on the Work that alter or restrict the terms of this License or the recipients' exercise of the rights granted hereunder. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties. You may not distribute the Executable Files or Source Code with any technological measures that control access or use of the Work in a manner inconsistent with the terms of this License.

f. You agree not to use the Work for illegal, immoral or improper purposes, or on pages containing illegal, immoral or improper material. The Work is subject to applicable export laws. You agree to comply with all such laws and regulations that may apply to the Work after Your receipt of the Work.

6. Representations, Warranties and Disclaimer.

THIS WORK IS PROVIDED "AS IS", "WHERE IS" AND "AS AVAILABLE", WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS OR GUARANTEES. YOU, THE USER, ASSUME ALL RISK IN ITS USE, INCLUDING COPYRIGHT INFRINGEMENT, PATENT INFRINGEMENT, SUITABILITY, ETC. AUTHOR EXPRESSLY DISCLAIMS ALL EXPRESS, IMPLIED OR STATUTORY WARRANTIES OR CONDITIONS, INCLUDING WITHOUT LIMITATION, WARRANTIES OR CONDITIONS OF MERCHANTABILITY, MERCHANTABLE QUALITY OR FITNESS FOR A PARTICULAR PURPOSE, OR ANY WARRANTY OF TITLE OR NON-INFRINGEMENT, OR THAT THE WORK (OR ANY PORTION THEREOF) IS CORRECT, USEFUL, BUG-FREE OR FREE OF VIRUSES. YOU MUST PASS THIS DISCLAIMER ON WHENEVER YOU DISTRIBUTE THE WORK OR DERIVATIVE WORKS.

7. Indemnity. You agree to defend, indemnify and hold harmless the Author and the Publisher from and against any claims, suits, losses, damages, liabilities, costs, and expenses (including reasonable legal or attorneys' fees) resulting from or relating to any use of the Work by You.

8. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, IN NO EVENT WILL THE AUTHOR OR THE PUBLISHER BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK OR OTHERWISE, EVEN IF THE AUTHOR OR THE PUBLISHER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

9. Termination.

a. This License and the rights granted hereunder will terminate automatically upon any breach by You of any term of this License. Individuals or entities who have received Derivative Works from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 6, 7, 8, 9, 10 and 11 will survive any termination of this License.

b. If You bring a copyright, trademark, patent or any other infringement claim against any contributor over infringements You claim are made by the Work, your License from such contributor to the Work ends automatically.

c. Subject to the above terms and conditions, this License is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, the Author reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

10. Publisher. The parties hereby confirm that the Publisher shall not, under any circumstances, be responsible for and shall not have any liability in respect of the subject matter of this License. The Publisher makes no warranty whatsoever in connection with the Work and shall not be liable to You or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. The Publisher reserves the right to cease making the Work available to You at any time without notice.

11. Miscellaneous

a. This License shall be governed by the laws of the location of the head office of the Author or if the Author is an individual, the laws of location of the principal place of residence of the Author.

b. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this License, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

c. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.

d. This License constitutes the entire agreement between the parties with respect to the Work licensed herein. There are no understandings, agreements or representations with respect to the Work not specified herein. The Author shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Author and You.

Common Public License 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS COMMON PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and

b) in the case of each subsequent Contributor:

i) changes to the Program, and

ii) additions to the Program;

where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and

b) its license agreement:

i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and

b) a copy of this Agreement must be included with each copy of the Program. Contributors

may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against a Contributor with respect to a patent applicable to software (including a cross-claim or counterclaim in a lawsuit), then any patent licenses granted by that Contributor to such Recipient under this Agreement shall terminate as of the date such litigation is filed. In addition, if Recipient institutes patent litigation against any

entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. IBM is the initial Agreement Steward. IBM may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

2.   License Restrictions. You acknowledge and represent that the Licensee Application shall not be used, under any circumstances, with fingerprint recognition hardware and software other than a DigitalPersona product. Except as otherwise permitted herein, You: (i) may not, or cause or permit a third party to reproduce, distribute, redistribute, sublicense, loan, rent or lease, all or any portion of the Software Product, including but not limited to, the bundling of the Software Product or portions thereof with any fingerprint recognition product not authorized by DigitalPersona; (ii) except as otherwise provided herein, shall not reverse engineer, decompile, disassemble, or attempt to access or discover the underlying source code

of the Software Product or portions thereof; (iii) may not utilize the Software Product to create or develop (or cause or permit third parties to create or develop), any products which compete with DigitalPersona products; (iv) may not link the Software Product to any third party code that is licensed under any version of the GNU General Public License, the Affero General Public License or the GNU Lesser General Public License in such a manner as to require the Software Product to be distributed under any version of the GNU General Public License, Affero General Public License or the GNU Lesser General Public License, or develop any Licensee Application that is required to be distributed under the terms of any version of the GNU General Public License or Affero General Public License; (v) are prohibited by U.S. export regulations from using any DigitalPersona products to develop cryptographic or encryption capabilities or using any DigitalPersona products to develop items controlled for encryption capability or controlled for national security reasons. You shall promptly notify DigitalPersona if any of the foregoing restrictions have been breached and You shall defend, indemnify and hold harmless DigitalPersona from and against any and all costs, expenses, damages and claims arising out of such violation.

3.   Ownership of the Software Product. The Software Product (including any updates, upgrades, modifications and revisions) is protected by intellectual property and copyright laws and treaties worldwide, and may contain trade secrets of DigitalPersona or its suppliers, who have and maintain exclusive right, title and interest in and to the Software Product and the Sample Derivatives, and reserve and retain all rights not expressly granted to You under this EULA. You agree not to remove or obscure any copyright, trademark or patent notices that appear on any of the Software Product as delivered to you. Subject to DigitalPersona's underlying rights in and to the Software Product and portions thereof, You shall own all Intellectual Property Rights (as defined below) in and to the Licensee Application.

4.   Covenant to Facilitate Development. You acknowledge and agree not to enforce or assert any intellectual property rights (including, without limitation, all rights now held or hereafter created or acquired, whether arising under the laws of the United States or any other country, for any patents, copyrights or trade secrets (collectively, the "Intellectual Property Rights")), in any Licensee Application or derivatives thereof in a manner which in any way limits the development, use and distribution by DigitalPersona or its licensees of the Software Product.

5.   Support. DigitalPersona may offer support services related to the Software Product ("Support Services"). Receipt of Support Services is contingent upon Your agreement to then-current DigitalPersona support terms and conditions available at www.digitalpersona.com/support. Any supplemental Software Product code provided to You as a part of Support Services shall be deemed part of the Software Product and subject to the terms of this EULA. With respect to any technical information You provide while using Support Services, DigitalPersona may use such information for its business purposes, including without limitation, general product support and development. DigitalPersona will not use such technical information in a form or manner that personally identifies You.

6.   Limited Warranty; Disclaimer of Warranties. If DigitalPersona provided the Software Product to You on tangible media, DigitalPersona represents that such media in the form

originally received by You and under normal use, will be free from defects in material and workmanship, for a period of ninety (90) days from the ship date of original Software Product You acquired as shown on Your receipt or similar proof of payment (the "Warranty Period"). EXCEPT FOR THE LIMITED WARRANTIES ABOVE, DIGITALPERSONA AND ITS DISTRIBUTORS OR RESELLERS MAKE NO OTHER EXPRESS OR IMPLIED WARRANTIES, AND TO THE MAXIMUM EXTENT PERMITTED BY LAW, SPECIFICALLY DISCLAIM ALL WARRANTIES OF EVERY TYPE, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF QUALITY, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SYSTEM INTEGRATION, SUPPORT SERVICES, AND NON-INFRINGEMENT OF THIRD PARTY RIGHTS WITH REGARDS TO THE SOFTWARE PRODUCT. IF SUCH DISCLAIMER OF ANY IMPLIED WARRANTY IS NOT PERMITTED BY LAW, THE DURATION OF SAID IMPLIED WARRANTIES IS LIMITED TO NINETY (90) DAYS FROM THE DATE OF PURCHASE.

If an upgrade or update to the Software Product is delivered with a new warranty period, then the terms of such new warranty period will apply only to the upgraded Software Product, and not the original Software Product. Any replacement Software Product will be warranted for the remainder of the original Software Warranty Period or thirty (30) days, whichever is longer.

DigitalPersona's sole obligation and Your exclusive remedy under the limited warranties above shall be, at DigitalPersona's option, either a refund of the price paid (if any), or replacement of the Software Product that does not meet the DigitalPersona limited warranties, and that is returned to DigitalPersona with a copy of Your receipt or other such acceptable proof of purchase.

7.   Hazardous Use. The Software Product, DigitalPersona fingerprint reader or module, or DigitalPersona Workstation Software are not designed, made, or intended for use in an application, or in development of Licensee Application, where failure, malfunction or inaccuracy of any of such products may cause death or serious bodily injury, including, without limitation, use in medical equipment, nuclear facilities, aircraft operation, air traffic control, or life support. Any such use is prohibited. Customer agrees that neither DigitalPersona nor its suppliers, distributors or resellers will be liable, in whole or in part, for any claims, losses, costs or damages arising out of or in connection with the use and performance of the Software Product in such applications.

8.   Indemnification. You shall defend, indemnify and hold harmless DigitalPersona against any claims, actions, losses, damages, costs and expenses (including attorney fees) arising out of and/or action brought against DigitalPersona as a result of: (i) a claim based upon an actual or alleged infringement of an intellectual property right of a third party arising from or related to the Licensee Application; (ii) any modification and/or enhancement to the Sample Code made by or for You; (iii) any distribution of all or a portion of the Software Product in breach of the limited license granted to You hereunder; and (iv) Your breach of the restrictions set forth in Section 2 and Section 7; provided that DigitalPersona reasonably cooperates with You (at Your expense) in the defense or settlement of such action or claim. You shall have control of the defense and all settlement negotiations, provided that You may

not enter into a settlement providing for any restriction on DigitalPersona or the DigitalPersona technology without DigitalPersona's prior written consent, and provided further that DigitalPersona shall have the right to be represented by its own attorney at DigitalPersona's expense.

9.   LIMITATION OF LIABILITY; EXCLUSION OF DAMAGES. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL DIGITALPERSONA AND ITS EMPLOYEES, CONTRACTORS, SUPPLIERS, LICENSORS, DISTRIBUTORS OR RESELLERS BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE OR CONSEQUENTIAL DAMAGES WHATSOEVER, WHETHER IN TORT, PRODUCT LIABILITY AND/OR NEGLIGENCE (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, GOODWILL, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, LOSS OF DATA, PRIVACY OR CONFIDENTIALITY, BREACH OF SECURITY SYSTEMS OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF OR RELATING IN ANY WAY TO, THE USE OF, OR INABILITY TO USE THE SOFTWARE PRODUCT, EVEN IF DIGITALPERSONA AND ITS EMPLOYEES, CONTRACTORS, SUPPLIERS, LICENSORS, DISTRIBUTORS OR RESELLERS HAVE BEEN ADVISED OF THE POSSIBLILITY OF SUCH DAMAGES OR LOSSES. EXCEPT FOR THE LIMITED WARRANTIES SET FORTH ABOVE, THE SOFTWARE PRODUCT IS SUPPLIED "AS IS", AND THE ENTIRE RISK OF ACCURACY AND SATISFACTORY PERFORMANCE IS WITH YOU. DIGITALPERSONA AND ITS DISTRIBUTORS OR RESELLERS DO NOT GUARANTEE THAT THE SOFTWARE PRODUCT WILL MEET YOUR REQUIREMENTS OR ALL REQUIREMENTS OF THE SOFTWARE OR HARDWARE WITH WHICH THEY INTERACT. IN ANY CASE, DIGITALPERSONA'S ENTIRE LIABILITY UNDER ANY PROVISION OF THIS EULA SHALL BE LIMITED TO THE AMOUNT ACTUALLY PAID BY YOU FOR THIS SOFTWARE PRODUCT OR US$100.00, WHICHEVER IS GREATER.

10.   Termination of License. You may terminate this EULA at any time, upon written notice thereof to DigitalPersona. THIS EULA WILL TERMINATE AUTOMATICALLY IF YOU BREACH ANY LICENSE RESTRICTIONS, EXPORT RESTRICTIONS, OR MATERIAL PROVISION OF THIS EULA. Upon termination, all rights to use the Software Product will cease and You shall (i) promptly destroy the original and all copies of the Software Product in Your possession or under its control, and certify in writing to DigitalPersona of such destruction, and (ii) cease distribution of the Sample Derivatives and/or Runtime Environment as incorporated in the Licensee Application.

11.   GENERAL TERMS

11.1   No Third Party Beneficiaries. No provision of this EULA is intended, nor will it be interpreted, to provide or create any third party beneficiary rights or any other rights of any kind in third parties. All provisions hereof will be personal solely between You and DigitalPersona.

11.2   Governing Law and Exclusive Forum. This EULA shall be governed by and construed and enforced in accordance with the laws of the State of California, United States of America, excluding its choice of law provisions. With the exception of DigitalPersona's right to enforce

its intellectual property rights under this EULA, all disputes arising out of this EULA shall be subject to the exclusive jurisdiction and venue of the Superior Court of the State of California San Mateo County and the Federal District Court of the Northern District of California, United States of America, and the parties consent to the personal and exclusive jurisdiction and venue of such courts. The United Nations Convention on Contracts for the International Sales of Goods is specifically disclaimed.

11.3   Export Restrictions; Anti-Bribery. You acknowledge and agree that the Software Product and the Licensee Application are subject to United States export restrictions, and that You will strictly comply with all applicable United States and international laws relating to the importing and/or exporting of licensed software, and You will not, directly or indirectly, export or re-export the Software Product, the Licensee Application and related technical data in violation of the Export Administration Regulations of the U.S. Department of Commerce and other applicable laws, including, but not limited to, the prohibition to export: (a) to embargoed destinations or to any person or entity listed as a denied party or other restriction by the U.S. Department of Commerce; or (b) to any persons or entity supporting or engaged in prohibited proliferation activities (e.g. weapons of mass destruction, nuclear, chemical or biological weapons, missiles, sanctioned for transfer of lethal military equipment, etc.). Current regulations, embargoed destinations, and other prohibition lists are available on the United States Department of Commerce Bureau of Industry and Security website at http://www.bis.doc.gov. For more information on export restrictions for DigitalPersona products, please contact DigitalPersona Legal Department at legaldepartment@crossmatch.com.

You hereby represent and warrant that You shall not:

(a) act in any fashion or take any action or permit or authorize any action which will render DigitalPersona liable for a violation of the U.S. Foreign Corrupt Practices Act, which prohibits the offering, giving or promising to offer or give, directly or indirectly, money or anything of value to any official of a government, political party or instrumentality thereof in order to assist it or DigitalPersona in obtaining or retaining business;

(b) act in any fashion or take any action or permit or authorize any action which will render DigitalPersona liable for a violation of the "U.K. Bribery Act of 2010," which prohibits: (i) the offering, giving or promising to offer or give, directly or indirectly, money or anything of value or other advantage to another person with the intent to induce a person to perform improperly a relevant function or activity; or reward a person for the improper performance of a relevant function or activity; (ii) requesting, agreeing to accept or accepting money or anything of value or other advantage in return for the improper performance of a relevant function or activity; or (iii) the influencing of a foreign public official by the offering, giving or promising to offer or give, directly or indirectly, money or anything of value or other advantage to a foreign public official or to another person at a foreign public official's request, assent or acquiescence in order to obtain or retain business or an advantage in the conduct of business. The "U.K. Bribery Act of 2010" applies both to bribery in the private and public sector, directly or indirectly (i.e. through a third party), improper facilitation payments, and to relevant functions or activities performed outside the U.K.; or

(c) violate or cause DigitalPersona to violate such Acts in connection with the sale or distribution of products and/or services; and if You are a non-governmental entity, You will

notify DigitalPersona in writing if any of its owners, partners, principals, and officers are or become during the term of this Agreement officials, officers or representatives of any government or political party or candidate for political office outside the United States and are responsible for a decision regarding obtaining or retaining business for products by such government.

11.4   Government Rights. You acknowledge and agree that the Software Product and all related materials thereto licensed under this EULA are "Commercial Computer Software" and "Commercial Computer Software Documentation" as defined in FAR 12.212 for civilian agencies and DFARS 227.7202 for military agencies and their successors, and in the event You are permitted under this EULA to provide the Software Product, or a portion thereof, to the U.S. Government, such Software Product shall be provided under the terms of this EULA, or terms at least as restrictive as the terms of this EULA. If You are permitted under this EULA to provide the Software Product, or a portion thereof, to a non-U.S. government entity, You shall take all necessary steps to ensure that DigitalPersona's intellectual property and proprietary rights in and to the Software Product receive the maximum protection available from such non-U.S. government for commercial computer software and documentation.

11.5   Severability. If any provision of this EULA is declared unenforceable, illegal or invalid by a competent tribunal under applicable law, then such provision shall be deemed automatically adjusted to conform to the requirements for validity and enforceability, and so adjusted, shall be deemed a provision of this EULA as though originally included herein. In the event that the abovementioned provision is of such a nature that it cannot be so adjusted, such provision shall be deleted from the EULA, and the remaining provisions of the EULA shall remain in full force and effect. WITHOUT LIMITING THE FOREGOING, IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT EACH AND EVERY PROVISION OF THIS EULA WHICH PROVIDES FOR A LIMITATION OF LIABILITY, DISCLAIMER OF WARRANTY OR EXCLUSION OF DAMAGES IS INTENDED BY THE PARTIES TO BE SEVERABLE AND INDEPENDENT OF ANY OTHER SUCH PROVISION. FURTHER, IN THE EVENT THAT ANY REMEDY HEREUNDER IS DETERMINED TO HAVE FAILED OF ITS ESSENTIAL PURPOSE, ALL LIMITATIONS OF LIABILITY AND EXCLUSIONS OF DAMAGES SHALL REMAIN IN EFFECT.

11.6   No Agency. Nothing contained herein shall be construed as creating any agency, partnership, franchise or other form of joint enterprise between the parties.

11.7   No Waiver. The failure of either party to require performance by the other party of any provision hereof shall not affect the full right to require such performance at any time thereafter; nor shall the waiver by either party of a breach of any provision hereof be taken or held to be a waiver of the provision itself.

11.8   Notices. All notices or demands hereunder shall be sent to the attention of the other party's Legal Department and will be deemed delivered upon acknowledgment of receipt by the other party.

11.9   Language. This EULA is prepared and entered into in the English language only, which language shall be controlling in all respects. Any translations of this EULA into any other language are for reference only and shall have no legal or other effect.

11.10   Entire Agreement. This EULA contains and constitutes the sole, complete and entire agreement and understanding between You and DigitalPersona concerning the matters contained herein and may not be altered, modified or changed in any manner except with DigitalPersona's prior written consent. No statements, promises or representations have been made by one party to the other, and the parties are not relying on any representations other than those expressly set forth herein.

This DIGITALPERSONA END USER LICENSE AGREEMENT (the "EULA") is a legal agreement between You either as an individual or as an authorized

representative of a business entity (hereafter referred to as "You" and/or "Your") and DigitalPersona, Inc. ("Licensor"). Licensor is

willing to license to You the DigitalPersona software product accompanying this EULA, which may include, without limitation, fingerprint

recognition software, fingerprint reader driver software, runtime binaries (including but not limited to plug-ins) that are compiled for

distribution, library files, header files, supplemental software, associated media, printed materials and electronic documentation

("Software Product"), except as otherwise set forth in a written agreement signed by a duly authorized officer of Licensor.

Software Product may also include any updates and upgrades, associated firmware, add-on components, media, manuals, user guides,

stencils, templates, shapes, symbols, web services and/or supplements that Licensor may provide to You or make available to You, or that

You obtain from the use of features or functionality of the Software Product, after the date You obtain Your initial copy of the Software

Product (whether by delivery of a CD, permitted downloading from the Internet or a dedicated web site, or otherwise), to the extent that

such items are not accompanied by a separate license agreement or terms of use.

1.LICENSE GRANT – SECURE EIKON SDK and SECURE TOUCHCHIP MODULE SDK

1.1 Subject to the terms and conditions of this EULA and Your payment of all applicable fees for the Software Product, Licensor and its

suppliers hereby grant to You, and You hereby accept a nonexclusive license to install and use Software Product at Your premises.

Provided that Your intranet or other storage device is secured in such manner as to prohibit access of the Software Product by

unauthorized users, You may copy the Software Product to the hard disk of a computer system, or use the Software Product on Your network.

1.2 You may use the Software Product to design, evaluate, develop, and test a software application product (the "Developer Application"),

for use with the corresponding Licensor fingerprint reader or module on a Workstation (defined below), or such other hardware/software

package approved by Licensor for use with the Software Product. A Developer Application specifically excludes any type of software

development tool designed, developed, licensed and/or distributed by You without prior written consent by Licensor. For purposes of this

EULA, a Workstation means a computer, terminal or other digital electronic device that provides fingerprint authentication functionality.

1.3 You represent that each and every biometric fingerprint reader required by the Developer Application for fingerprint recognition

enabled by the Software Product will be a Licensor product acquired from Licensor or its authorized distributors.

2.ADDITIONAL LICENSE RIGHTS - REDISTRIBUTABLE CODE. In addition to the rights granted in Section 1, certain portions of the Software

Product are redistributable by You as part of Your copyrighted Developer Application. These additional license rights are conditioned

upon Your compliance with the distribution requirements and license restrictions described in Section 3.

2.1 Sample Code. You may (i) use and modify the source code located in the Software Product's "Samples" folder and "SimpleCommLib" folder

(together, the "Sample Code") and create derivatives thereof (the "Sample Derivatives") for the sole purposes of designing, developing,

testing and distributing Developer Application, and (ii) reproduce and distribute the Sample Derivatives in object code form only, and

only as incorporated into the Developer Application. For applicable redistribution requirements for Sample Derivatives, see Section 3.1

below.

2.2 Redistributable Code. Licensor grants You a nonexclusive right to reproduce and distribute the object code of any portion of the

Software Product listed in the following folders ("Redistributable Code") within the applicable Software Product:

For Secure EIKON SDK: BSAPI\bin BSAPI\clients BSAPI\driver BSAPI\bclib\Bin

For Secure TouchChip Module SDK: bin\ driver\ BCLib\bin

For applicable redistribution requirements for Redistributable Code, see Section 3.1, below.

3.LICENSE RESTRICTIONS

3.1 DISTRIBUTION REQUIREMENTS AND RESTRICTIONS. If You choose to exercise Your rights under Section 2, any redistribution by You requires

compliance with the following terms.

 a. If You are authorized and choose to redistribute Sample Derivatives and/or Redistributable Code (together "Redistributable Object

Codes"), as described in Section 2, You agree: (i) to distribute the Redistributable Object Codes only in object code form and in

conjunction with and as a part of the Developer Application that adds significant and primary functionality to the Redistributable Object

Codes; and (ii) to reproduce and include the copyright notice that appears in the Sample Code and Redistributable Code as provided by

Licensor, and that You distribute the Developer Application incorporating the Redistributable Object Codes pursuant to terms no less

restrictive than those set forth in this Agreement.

 b. You also agree not to permit further distribution of the Redistributable Object Codes by Your end users except You may permit further

redistribution of the Redistributable Object Codes by Your distributors to Your end-user customers if Your distributors only distribute

the Redistributable Object Codes in conjunction with, and as part of, the Developer Application and You and Your distributors comply with

all other terms of this EULA.

3.2. RESERVATION OF RIGHTS; GENERAL RESTRICTIONS. All rights not expressly granted by Licensor in this EULA are reserved.

Except as otherwise expressly provided under this EULA, You shall not, and shall not allow any third party to:

disassemble or otherwise reduce the Software Product to human-readable form to gain access to trade secrets or confidential information

in the Software Product;

 d. use the Software Product for timesharing, hosting or service bureau purposes;

 e. remove, obscure, or alter Licensor's (or its third party licensors') copyright notices, trademarks, or other proprietary rights

notices affixed to or contained within the Software Product (and any copies

thereof, including the back-up copy) or use such notices, trademarks or service marks for any other purpose;

 f. use the Software Product to develop and distribute any Licensor product in violation of the Use Restrictions set forth in Appendix

A, Field of Use;

 g. provide or resell any portion of the Software Product or Licensor products to Licensor's competitors without prior written consent of

Licensor;

 h. use the Software Product to enable or interface with any fingerprint recognition hardware other than a Licensor product;

limited to, the bundling of the Software Product or portions thereof with any fingerprint recognition product not authorized by Licensor;

j. utilize the Software Product to create or develop (or cause or permit third parties to create or develop), any products which compete

with Licensor products; or

k. link the Software Product to any third party code that is licensed under any version of the GNU General Public License, the Affero

General Public License or the GNU Lesser General Public License in such a manner as to require the Software Product to be distributed

under any version of the GNU General Public License, Affero General Public License or the GNU Lesser General Public License, or develop

any Developer Application that is required to be distributed under the terms of any version of the GNU General Public License or Affero

General Public License.

You are prohibited by U.S. export regulations from using any Licensor products to develop cryptographic or encryption capabilities or

using any Licensor products to develop items controlled for encryption capability or controlled for national security reasons. You shall

promptly notify Licensor if any of the foregoing restrictions have been breached and You shall defend, indemnify and hold harmless

Licensor from and against any and all costs, expenses, damages and claims arising out of such violation.

3.3 THIRD PARTY SOFTWARE. You acknowledge that the use of Software Product may require the use of certain third party software listed in

the accompanying documentation. Unless otherwise specifically agreed by Licensor in writing signed by an officer of Licensor, You shall

be solely responsible with respect to obtaining the necessary licenses and consents and bearing the costs to license all such third party

software.

4.OWNERSHIP OF THE SOFTWARE PRODUCT. The Software Product is licensed to You and not sold. The Software Product is protected by

intellectual property and copyright laws and treaties worldwide, and may contain trade secrets of Licensor or its suppliers, who have and

maintain exclusive right, title and interest in and to the Software Product and the Sample Derivatives, and reserve and retain all rights

not expressly granted to You under this EULA. Subject to Licensor's underlying rights in and to the Software Product and portions

thereof, You shall own all Intellectual Property Rights (as defined below) in and to the Developer Application.

5.COVENANT TO FACILITATE DEVELOPMENT. You acknowledge and agree not to enforce or assert any intellectual property rights (including,

without limitation, all rights now held or hereafter created or acquired, whether arising under the laws of the United States or any

other country, for any patents, copyrights or trade secrets (collectively, the "Intellectual Property Rights")), in any Developer

Application or derivatives thereof in a manner which in any way limits the development, use and distribution by Licensor or its

licensees of the Software Product.

6.PROPRIETARY NOTICES; TRADEMARKS. You agree to maintain and reproduce all copyright and other proprietary notices on all copies, in any

form, of the Software Product in the same form and manner that such copyright and other proprietary notices are included on the Software

Product, including on any back-up copy of the Software Product. This EULA does not grant You any rights in connection with any trademarks

or service marks of Licensor.

7.SUPPORT SERVICES. Licensor may offer You with support services related to the Software Product ("Support Services") subject to Your

payment of applicable fees, if any. Use and provision of Support Services, if any, is governed by a separate written agreement, Licensor

policies and terms described in other Licensor-provided materials. Any supplemental software code provided to You as part of the Support

Services is considered part of the Software Product and subject to the terms and conditions of this EULA.

8.CONFIDENTIALITY

8.1 Confidential Information Definition. The term "Confidential Information" shall mean all nonpublic information, whether in intangible

or tangible form that Licensor designates as being confidential or which, under the circumstances surrounding disclosure, You know or

have reason to know should be treated as confidential, including without limitation, the terms and conditions of this Agreement. For

purposes of this Agreement, Confidential Information includes, but is not limited to, the source code of the Software Product and any

related documentation, guides, schematics, specifications or any other technical information relating to the Licensor products.

8.2 Obligation of Confidentiality. All Licensor products offered for sale, evaluation or provided as samples to You contain important

and valuable intellectual property/confidential information of Licensor. You agree not to disclose to any third party any Confidential

Information received from Licensor with respect to the Software Product. You shall protect the Confidential Information as the You would

protect Your own Confidential Information, but in no event with less than reasonable care.

9.LIMITED WARRANTY; DISCLAIMER OF WARRANTIES. If Licensor provided the Software Product to You on tangible media, Licensor represents

that such media in the form originally received by You and under normal use, will be free from defects in material and workmanship, for a

period of ninety (90) days from the ship date of original Software Product You acquired as shown on Your receipt or similar proof of

payment (the "Warranty Period"). EXCEPT FOR THE LIMITED WARRANTIES ABOVE, Licensor AND ITS DISTRIBUTORS OR RESELLERS MAKE NO OTHER

EXPRESS OR IMPLIED WARRANTIES, AND TO THE MAXIMUM EXTENT PERMITTED BY LAW, SPECIFICALLY DISCLAIM ALL WARRANTIES OF EVERY TYPE, INCLUDING,

WITHOUT LIMITATION, WARRANTIES OF QUALITY, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SYSTEM INTEGRATION, SUPPORT SERVICES,

AND NON-INFRINGEMENT OF THIRD PARTY RIGHTS WITH REGARDS TO THE SOFTWARE PRODUCT. IF SUCH DISCLAIMER OF ANY IMPLIED WARRANTY IS NOT

PERMITTED BY LAW, THE DURATION OF SAID IMPLIED WARRANTIES IS LIMITED TO NINETY (90) DAYS FROM THE DATE OF PURCHASE. Licensor DOES NOT

WARRANT THAT THE SOFTWARE PRODUCT IS ERROR FREE OR THAT YOU WILL BE ABLE TO OPERATE THE SOFTWARE WITHOUT PROBLEMS OR INTERRUPTIONS.

If an upgrade or update to the Software Product is delivered with a new warranty period, then the terms of such new warranty period will

apply only to the upgraded Software Product, and not the original Software Product. Any replacement Software Product will be warranted

for the remainder of the original Software Warranty Period or thirty (30) days, whichever is longer.

Licensor's sole obligation and Your exclusive remedy under the limited warranties above shall be, at Licensor's option, either a refund

of the price paid (if any), or replacement of the Software Product that does not meet the Licensor limited warranties, and that is

returned to Licensor with a copy of Your receipt or other such acceptable proof of purchase.

10.HAZARDOUS USE. The Software Product, Licensor fingerprint reader or module, or any Licensor product are not designed, made, or

intended for use in an application, or in development of Developer Application, where failure, malfunction or inaccuracy of any of such

products may cause death or serious bodily injury, including, without limitation, use in medical equipment, integrated weapon systems,

nuclear facilities, aircraft operation, air traffic control, or life support. Any such use is prohibited. Customer agrees that neither

Licensor nor its suppliers, distributors or resellers will be liable, in whole or in part, for any claims, losses, costs or damages

arising out of or in connection with the use and performance of the Software Product in such applications.

11..INDEMNIFICATION. You shall defend, indemnify and hold harmless Licensor against any claims, actions, losses, damages, costs and

expenses (including attorney fees) arising out of and/or action brought against Licensor as a result of: (i) a claim based upon an actual

or alleged infringement of an intellectual property right of a third party arising from or related to the Developer Application; (ii) any

modification and/or enhancement to the Sample Code made by or for You; (iii) any distribution of all or a portion of the Software Product

in breach of the limited license granted to You hereunder; (iv) the use or distribution of the Developer Application; and (v) Your breach

of the restrictions set forth in Section 3, Section 4 and Section 10; provided that Licensor reasonably cooperates with You (at Your

expense) in the defense or settlement of such action or claim.   You shall have control of the defense and all settlement negotiations,

provided that You may not enter into a settlement providing for any restriction on Licensor or the Licensor technology without Licensor's

prior written consent, and provided further that Licensor shall have the right to be represented by its own attorney at Licensor's

expense.

12..LIMITATION OF LIABILITY; EXCLUSION OF DAMAGES. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL LICENSOR AND ITS

EMPLOYEES, CONTRACTORS, SUPPLIERS, ITS LICENSORS, DISTRIBUTORS OR RESELLERS BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY SPECIAL,

INCIDENTAL, INDIRECT, PUNITIVE OR CONSEQUENTIAL DAMAGES WHATSOEVER, WHETHER IN TORT, PRODUCT LIABILITY AND/OR NEGLIGENCE (INCLUDING,

WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, GOODWILL, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, LOSS OF DATA,

PRIVACY OR CONFIDENTIALITY, BREACH OF SECURITY SYSTEMS OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF OR RELATING IN ANY WAY TO, THE USE OF,

OR INABILITY TO USE THE SOFTWARE PRODUCT, EVEN IF LICENSOR AND ITS EMPLOYEES, CONTRACTORS, SUPPLIERS, LICENSORS, DISTRIBUTORS OR

RESELLERS HAVE BEEN ADVISED OF THE POSSIBLILITY OF SUCH DAMAGES OR LOSSES. EXCEPT FOR THE LIMITED WARRANTIES SET FORTH ABOVE, THE

SOFTWARE PRODUCT IS SUPPLIED "AS IS", AND THE ENTIRE RISK OF ACCURACY AND SATISFACTORY PERFORMANCE IS WITH YOU. LICENSOR AND ITS

DISTRIBUTORS OR RESELLERS DO NOT GUARANTEE THAT THE SOFTWARE PRODUCT WILL MEET YOUR REQUIREMENTS OR ALL REQUIREMENTS OF THE SOFTWARE OR

HARDWARE WITH WHICH THEY INTERACT. IN ANY CASE, LICENSOR'S ENTIRE LIABILITY UNDER ANY PROVISION OF THIS EULA SHALL BE LIMITED TO THE

AMOUNT ACTUALLY PAID BY YOU FOR THIS SOFTWARE PRODUCT OR US$100.00, WHICHEVER IS GREATER.

13..TERM AND TERMINATION OF LICENSE. The term of this EULA shall commence upon the date You accept the terms and conditions of this EULA,

and shall continue in full force and effect thereafter until terminated as set forth herein. Either party may terminate this EULA at any

time, upon written notice thereof to the other party. THIS EULA WILL TERMINATE AUTOMATICALLY IF YOU BREACH ANY LICENSE RESTRICTIONS,

EXPORT RESTRICTIONS, OR MATERIAL PROVISION OF THIS EULA. Upon termination, all rights to use the Software Product will cease and You

shall (i) promptly destroy the original and all copies of the Software Product in Your possession or under its control, and certify in

writing to Licensor of such destruction, and (ii) cease distribution of the Redistributable Object Code. Sections 3.2, 4, 5, 6, 8, 9,

10, 11, 12, 13, 14 and Appendix A shall survive the termination of this EULA.

14.GENERAL TERMS

14.1 NO THIRD PARTY BENEFICIARIES. No provision of this EULA is intended, nor will it be interpreted, to provide or create any third

party beneficiary rights or any other rights of any kind in third parties. All provisions hereof will be personal solely between You and

Licensor.

14.2 GOVERNING LAW. This EULA shall be governed by and construed and enforced in accordance with the laws of the State of California,

United States of America, excluding its choice of law provisions. With the exception of Licensor's right to enforce its intellectual

property rights under this EULA, all disputes arising out of this EULA shall be subject to the exclusive jurisdiction and venue of the

Superior Court of the State of California San Mateo County and the Federal District Court of the Northern District of California, United

States of America, and the parties consent to the personal and exclusive jurisdiction and venue of such courts. The United Nations

Convention on Contracts for the International Sales of Goods is specifically disclaimed.

14.3 COMPLIANCE WITH LAWS; EXPORT RESTRICTIONS; ANTI-BRIBERY. You will comply with all applicable laws, rules, regulations, orders, and

other requirements of governmental agencies in Your use of the Software Product and in the development and distribution of the Developer

Application that use or access any Software Products. Without limiting the foregoing, You acknowledge and agree that the Software Product

and the Developer Application are subject to United States export restrictions, and that You will strictly comply with all applicable

United States and international laws relating to the importing and/or exporting of licensed software, and You will not, directly or

indirectly, export or re-export the Software Product, the Developer Application and related technical data in violation of the Export

Administration Regulations of the U.S. Department of Commerce and other applicable laws, including, but not limited to, the prohibition

to export: (a) to embargoed destinations or to any person or entity listed as a denied party or other restriction by the U.S. Department

of Commerce; or (b) to any persons or entity supporting or engaged in prohibited proliferation activities (e.g. weapons of mass

destruction, nuclear, chemical or biological weapons, missiles, sanctioned for transfer of lethal military equipment, etc.). Current

regulations, embargoed destinations, and other prohibition lists are available on the United States Department of Commerce Bureau of

Industry and Security website at http://www.bis.doc.gov. For more information on export restrictions for Licensor products, please

contact Licensor Legal Department at DPLegal@Licensor.com.
You hereby represent and warrant that You shall not: (a) act in any fashion or take any action or permit or authorize any action which

will render Licensor liable for a violation of the U.S. Foreign Corrupt Practices Act, which prohibits the offering, giving or promising

to offer or give, directly or indirectly, money or anything of value to any official of a government, political party or instrumentality

thereof in order to assist it or Licensor in obtaining or retaining business; (b) act in any fashion or take any action or permit or

authorize any action which will render Licensor liable for a violation of the "U.K. Bribery Act of 2010," which prohibits: (i) the

offering, giving or promising to offer or give, directly or indirectly, money or anything of value or other advantage to another person

with the intent to induce a person to perform improperly a relevant function or activity; or reward a person for the improper performance

of a relevant function or activity; (ii) requesting, agreeing to accept or accepting money or anything of value or other advantage in

return for the improper performance of a relevant function or activity; or (iii) the influencing of a foreign public official by the

offering, giving or promising to offer or give, directly or indirectly, money or anything of value or other advantage to a foreign public

official or to another person at a foreign public official's request, assent or acquiescence in order to obtain or retain business or an

advantage in the conduct of business. The "U.K. Bribery Act of 2010" applies both to bribery in the private and public sector, directly

or indirectly (i.e. through a third party), improper facilitation payments, and to relevant functions or activities performed outside the

U.K.; or (c) violate or cause Licensor to violate such Acts in connection with the sale or distribution of products and/or services; and

if You are a non-governmental entity, You will notify Licensor in writing if any of its owners, partners, principals, and officers are or

become during the term of this Agreement officials, officers or representatives of any government or political party or candidate for

political office outside the United States and are responsible for a decision regarding obtaining or retaining business for products by

such government.

14.4 GOVERNMENT RIGHTS. You acknowledge and agree that the Software Product and all related materials thereto licensed under this EULA

are "Commercial Computer Software" and "Commercial Computer Software Documentation" as defined in FAR 12.212 for civilian agencies and

DFARS 227.7202 for military agencies and their successors, and in the event You are permitted under this EULA to provide the Software

Product, or a portion thereof, to the U.S. Government, such Software Product shall be provided under the terms of this EULA, or terms at

least as restrictive as the terms of this EULA. If You are permitted under this EULA to provide the Software Product, or a portion

thereof, to a non-U.S. government entity, You shall take all necessary steps to ensure that Licensor's intellectual property and

proprietary rights in and to the Software Product receive the maximum protection available from such non-U.S. government for commercial

computer software and documentation.

14.5 SEVERABILITY. If any provision of this EULA is declared unenforceable, illegal or invalid by a competent tribunal under applicable

law, then such provision shall be deemed automatically adjusted to conform to the requirements for validity and enforceability, and so

adjusted, shall be deemed a provision of this EULA as though originally included herein. In the event that the abovementioned provision

is of such a nature that it cannot be so adjusted, such provision shall be deleted from the EULA, and the remaining provisions of the

EULA shall remain in full force and effect. WITHOUT LIMITING THE FOREGOING, IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT EACH AND EVERY

PROVISION OF THIS EULA WHICH PROVIDES FOR A LIMITATION OF LIABILITY, DISCLAIMER OF WARRANTY OR EXCLUSION OF DAMAGES IS INTENDED BY THE

PARTIES TO BE SEVERABLE AND INDEPENDENT OF ANY OTHER SUCH PROVISION. FURTHER, IN THE EVENT THAT ANY REMEDY HEREUNDER IS DETERMINED TO

HAVE FAILED OF ITS ESSENTIAL PURPOSE, ALL LIMITATIONS OF LIABILITY AND EXCLUSIONS OF DAMAGES SHALL REMAIN IN EFFECT.

14.6 NO AGENCY. Nothing contained herein shall be construed as creating any agency, partnership, franchise or other form of joint

enterprise between the parties.

14.7 NO WAIVER. The failure of either party to require performance by the other party of any provision hereof shall not affect the full

right to require such performance at any time thereafter; nor shall the waiver by either party of a breach of any provision hereof be

taken or held to be a waiver of the provision itself.

14.8 NOTICES. All notices or reports permitted or required under this Agreement to Licensor shall be in writing and shall be by personal

delivery, facsimile transmission, by certified or registered mail, return receipt requested, or by internationally recognized courier

(e.g. FedEx), and shall be deemed given upon personal delivery, five (5) calendar days after deposit in the mail (or ten (10) calendar

days for non-USA locations), or upon acknowledgment of receipt of electronic transmission. Notices shall be sent to Licensor, Inc. 720

Bay Rd, Redwood City, CA 94063 USA Attn: Legal Dept.

14.9 LANGUAGE. This EULA is prepared and entered into in the English language only, which language shall be controlling in all respects.

Any translations of this EULA into any other language are for reference only and shall have no legal or other effect.

14.10 INJUNCTIVE RELIEF. You agree that a breach of this EULA adversely affecting Licensor's proprietary rights in the Software Product

may cause irreparable injury to Licensor for which monetary damages would not be an adequate remedy and Licensor shall be entitled to

equitable relief in addition to any remedies it may have hereunder or at law.

14.11 ENTIRE AGREEMENT. This EULA contains and constitutes the sole, complete and entire agreement and understanding between You and

Licensor concerning the matters contained herein and may not be altered, modified or changed in any manner except with Licensor's prior

written consent. No statements, promises or representations have been made by one party to the other, and the parties are not relying on

any representations other than those expressly set forth herein.

APPENDIX A - FIELD OF USE RESTRICTIONS

"Use Restrictions" are those permitted uses and restrictions set forth in this Appendix A for any Licensor silicon family of products

("Products"), including but not limited to Secure EIKON SDK and Secure Module SDK.

Use Restrictions (A)You must adhere to the Use Restrictions set forth in this Appendix A. (B) You must require any of Your distributors,

resellers, developers or sales representatives to comply with the Use Restrictions set forth in Appendix A. (C) Any material or

repetitive breach of the Use Restrictions contained in Appendix A by You or Your direct or indirect distributors, resellers or sales

representatives shall constitute a material breach.

Use Restrictions will NOT apply for the following: (A) the sale of Products to any customers (consumer, government or commercial) that

will be used in or with any devices or components that do not fall within the definition of Consumer Electronics Fields (defined below);

or (B) the sale of Products that fall within the definition of Consumer Electronics Fields but meets at least one of the Exceptions

(defined below).

RESTRICTIONS: YOU MAY NOT: Develop or sell, or enable any of Your direct or indirect distributors, resellers or sales representatives to

sell, any Products for use in or with any devices or components within the Consumer Electronics Field, where Consumer Electronics Field

GNU Affero General Publish License

Version 3, 19 November 2007

Copyright © 2007 Free Software Foundation, Inc. <http://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The GNU Affero General Public License is a free, copyleft license for software and other kinds of works, specifically designed to ensure cooperation with the community in the case of network server software.

The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, our General Public Licenses are intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

Developers that use our General Public Licenses protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License which gives you legal permission to copy, distribute and/or modify the software.

A secondary benefit of defending all users' freedom is that improvements made in alternate versions of the program, if they receive widespread use, become available for other developers to incorporate. Many developers of free software are heartened and encouraged by the resulting cooperation. However, in the case of software used on network servers, this result may fail to come about. The GNU General Public License permits making a modified version and letting the public access it on a server without ever releasing its source code to the public.

The GNU Affero General Public License is designed specifically to ensure that, in such cases, the modified source code becomes available to the community. It requires the operator of a network server to provide the source code of the modified version running there to the users of that server. Therefore, public use of a modified version, on a publicly accessible server, gives the public access to the source code of the modified version.

An older license, called the Affero General Public License and published by Affero, was designed to accomplish similar goals. This is a different license, not a version of the Affero GPL, but Affero has released a new version of the Affero GPL which permits relicensing under this license.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS

1. Definitions.

"This License" refers to version 3 of the GNU Affero General Public License.

"Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks.

"The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations.

To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work.

A "covered work" means either the unmodified Program or a work based on the Program.

To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

2. Source Code.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.

A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

3. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making

or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

4. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

5. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

6. Conveying Modified Source Versions.

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

a) The work must carry prominent notices stating that you modified it, and giving a relevant date.

b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".

c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.

d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an "aggregate" if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

7. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.

b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.

c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.

d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.

e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

"Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

8. Additional Terms.

"Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or

b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or

c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or

d) Limiting the use for publicity purposes of names of licensors or authors of the material; or

e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or

f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered "further restrictions" within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.

9. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

10.   Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

11. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

12. Patents.

A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version".

A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.

If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.

A patent license is "discriminatory" if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with

copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.

13. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

14. Remote Network Interaction; Use with the GNU General Public License.

Notwithstanding any other provision of this License, if you modify the Program, your modified version must prominently offer all users interacting with it remotely through a computer network (if your version supports such interaction) an opportunity to receive the Corresponding Source of your version by providing access to the Corresponding Source from a network server at no charge, through some standard or customary means of facilitating copying of software. This Corresponding Source shall include the Corresponding Source for any work covered by version 3 of the GNU General Public License that is incorporated pursuant to the following paragraph.

Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the work with which it is combined will remain governed by version 3 of the GNU General Public License.

15. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU Affero General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU Affero General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not

specify a version number of the GNU Affero General Public License, you may choose any version ever published by the Free Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU Affero General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

16. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

17. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

18. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively state the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

    <one line to give the program's name and a brief idea of what it does.>
    Copyright (C) <year> <name of author>

    This program is free software: you can redistribute it and/or modify
    it under the terms of the GNU Affero General Public License as
    published by the Free Software Foundation, either version 3 of the
    License, or (at your option) any later version.

    This program is distributed in the hope that it will be useful,
    but WITHOUT ANY WARRANTY; without even the implied warranty of
    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
    GNU Affero General Public License for more details.

    You should have received a copy of the GNU Affero General Public License
    along with this program. If not, see <http://www.gnu.org/licenses/>.
Also add information on how to contact you by electronic and paper mail.

If your software can interact with users remotely through a computer network, you should also make sure that it provides a way for users to get its source. For example, if your program is a web application, its interface could display a "Source" link that leads users to an archive of the code. There are many ways you could offer source, and different solutions will be better for different programs; see section 13 for the specific requirements.

You should also get your employer (if you work as a programmer) or school, if any, to sign a "copyright disclaimer" for the program, if necessary. For more information on this, and how to apply and follow the GNU AGPL, see <http://www.gnu.org/licenses/>.

1.2. "Contributor Version" means the combination of the Original Code, prior Modifications used by a Contributor, and the Modifications made by that particular Contributor.

1.3. "Covered Code" means the Original Code or Modifications or the combination of the Original Code and Modifications, in each case including portions thereof.

1.4. "Electronic Distribution Mechanism" means a mechanism generally accepted in the software development community for the electronic transfer of data.

1.5. "Executable" means Covered Code in any form other than Source Code.

1.6. "Initial Developer" means the individual or entity identified as the Initial Developer in the Source Code notice required by Exhibit A.

1.7. "Larger Work" means a work which combines Covered Code or portions thereof with code not governed by the terms of this License.

1.8.1. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.

1.9. "Modifications" means any addition to or deletion from the substance or structure of either the Original Code or any previous Modifications. When Covered Code is released as a series of files, a Modification is:

A. Any addition to or deletion from the contents of a file containing Original Code or previous Modifications.

B. Any new file that contains any part of the Original Code or previous Modifications.

1.10. "Original Code" means Source Code of computer software code which is described in the Source Code notice required by Exhibit A as Original Code, and which, at the time of its release under this License is not already Covered Code governed by this License.

1.10.1. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.11. "Source Code" means the preferred form of the Covered Code for making modifications to it, including all modules it contains, plus any associated interface definition files, scripts used to control compilation and installation of an Executable, or source code differential comparisons against either the Original Code or another well known, available Covered Code of the Contributor's choice. The Source Code can be in a compressed or archival form, provided the appropriate decompression or de-archiving software is widely available for no charge.

1.12. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 6.1.

For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. Source Code License.

2.1. The Initial Developer Grant.

The Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property claims:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer to use, reproduce, modify, display, perform, sublicense and distribute the Original Code (or portions thereof) with or without Modifications, and/or as part of a Larger Work; and

(b) under Patents Claims infringed by the making, using or selling of Original Code, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Code (or portions thereof).

(c) the licenses granted in this Section 2.1(a) and (b) are effective on the date Initial Developer first distributes Original Code under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted:

1) for code that You delete from the Original Code;

2) separate from the Original Code; or

3) for infringements caused by:

i) the modification of the Original Code or

ii) the combination of the Original Code with other software or devices.

2.2. Contributor Grant. Subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor, to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof) either on an unmodified basis, with other Modifications, as Covered Code and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of:

1) Modifications made by that Contributor (or portions thereof); and

2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) the licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first makes Commercial Use of the Covered Code.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted:

1) for any code that Contributor has deleted from the Contributor Version;

2) separate from the Contributor Version;

3) for infringements caused by: i) third party modifications of Contributor Version or ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or 4) under Patent Claims infringed by Covered Code in the absence of Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Application of License.

The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the additional rights described in Section 3.5.

3.2. Availability of Source Code.

Any Modification which You create or to which You contribute must be made available in Source Code form under the terms of this License either on the same media as an Executable version or via an accepted Electronic Distribution Mechanism to anyone to whom you made an Executable version available; and if made available via Electronic Distribution Mechanism, must remain available for at least twelve (12) months after the date it initially became available, or at least six (6) months after a subsequent version of that particular Modification has been made available to such recipients. You are responsible for ensuring that the Source Code version remains available even if the Electronic Distribution Mechanism is maintained by a third party.

3.3. Description of Modifications.

You must cause all Covered Code to which You contribute to contain a file documenting the changes You made to create that Covered Code and the date of any change. You must include a prominent statement that the Modification is derived, directly or indirectly, from Original Code provided by the Initial Developer and including the name of the Initial Developer in (a) the Source Code, and (b) in any notice in an Executable version or related documentation in which You describe the origin or ownership of the Covered Code.

3.4. Intellectual Property Matters

(a) Third Party Claims.

If Contributor has knowledge that a license under a third party's intellectual property rights is required to exercise the rights granted by such Contributor under Sections 2.1 or 2.2, Contributor must include a text file with the Source Code distribution titled "LEGAL" which describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact. If Contributor obtains such knowledge after the Modification is made

available as described in Section 3.2, Contributor shall promptly modify the LEGAL file in all copies Contributor makes available thereafter and shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to inform those who received the Covered Code that new knowledge has been obtained.

(b) Contributor APIs.

If Contributor's Modifications include an application programming interface and Contributor has knowledge of patent licenses which are reasonably necessary to implement that API, Contributor must also include this information in the LEGAL file.

(c) Representations.

Contributor represents that, except as disclosed pursuant to Section 3.4(a) above, Contributor believes that Contributor's Modifications are Contributor's original creation(s) and/or Contributor has sufficient rights to grant the rights conveyed by this License.

3.5. Required Notices.

You must duplicate the notice in Exhibit A in each file of the Source Code. If it is not possible to put such notice in a particular Source Code file due to its structure, then You must include such notice in a location (such as a relevant directory) where a user would be likely to look for such a notice. If You created one or more Modification(s) You may add your name as a Contributor to the notice described in Exhibit A. You must also duplicate this License in any documentation for the Source Code where You describe recipients' rights or ownership rights relating to Covered Code. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Code. However, You may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear than any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.6. Distribution of Executable Versions.

You may distribute Covered Code in Executable form only if the requirements of Section 3.1-3.5 have been met for that Covered Code, and if You include a notice stating that the Source Code version of the Covered Code is available under the terms of this License, including a description of how and where You have fulfilled the obligations of Section 3.2. The notice must be conspicuously included in any notice in an Executable version, related documentation or collateral in which You describe recipients' rights relating to the Covered Code. You may distribute the Executable version of Covered Code or ownership rights under a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable version does not attempt to limit or alter the recipient's rights in the Source Code version from the rights set forth in this License. If You distribute the Executable version under a different license You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or any Contributor. You hereby agree to indemnify the

Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

3.7. Larger Works.

You may create a Larger Work by combining Covered Code with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You must make sure the requirements of this License are fulfilled for the Covered Code.

4. Inability to Comply Due to Statute or Regulation.

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Code due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and

(b) describe the limitations and the code they affect. Such description must be included in the LEGAL file described in Section 3.4 and must be included with all distributions of the Source Code. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Application of this License.

This License applies to code to which the Initial Developer has attached the notice in Exhibit A and to related Covered Code.

6. Versions of the License.

6.1. New Versions.

Netscape Communications Corporation ("Netscape") may publish revised and/or new versions of the License from time to time. Each version will be given a distinguishing version number.

6.2. Effect of New Versions.

Once Covered Code has been published under a particular version of the License, You may always continue to use it under the terms of that version. You may also choose to use such Covered Code under the terms of any subsequent version of the License published by Netscape. No one other than Netscape has the right to modify the terms applicable to Covered Code created under this License.

6.3. Derivative Works.

If You create or use a modified version of this License (which you may only do in order to apply it to code which is not already Covered Code governed by this License), You must (a) rename Your license so that the phrases "Mozilla", "MOZILLAPL", "MOZPL", "Netscape", "MPL", "NPL" or any confusingly similar phrase do not appear in your license (except to note that your license differs from this License) and (b) otherwise make it clear that Your version of the license contains terms which differ from the Mozilla Public License and Netscape Public License. (Filling in the name of the Initial Developer, Original Code or Contributor in the

notice described in Exhibit A shall not of themselves be deemed to be modifications of this License.)

7. DISCLAIMER OF WARRANTY.

COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY COVERED CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

8. TERMINATION.

8.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. All sublicenses to the Covered Code which are properly granted shall survive any termination of this License. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

8.2. If You initiate litigation by asserting a patent infringement claim (excluding declatory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You file such action is referred to as "Participant") alleging that:

(a) such Participant's Contributor Version directly or indirectly infringes any patent, then any and all rights granted by such Participant to You under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively, unless if within 60 days after receipt of notice You either: (i)agree in writing to pay Participant a mutually agreeable reasonable royalty for Your past and future use of Modifications made by such Participant, or (ii) withdraw Your litigation claim with respect to the Contributor Version against such Participant. If within 60 days of notice, a reasonable royalty and payment arrangement are not mutually agreed upon in writing by the parties or the litigation claim is not withdrawn, the rights granted by Participant to You under Sections 2.1 and/or 2.2 automatically terminate at the expiration of the 60 day notice period specified above.

(b) any software, hardware, or device, other than such Participant's Contributor Version, directly or indirectly infringes any patent, then any rights granted to You by such Participant under Sections 2.1(b) and 2.2(b) are revoked effective as of the date You first made, used, sold, distributed, or had made, Modifications made by that Participant.

8.3. If You assert a patent infringement claim against Participant alleging that such Participant's Contributor Version directly or indirectly infringes any patent where such claim is resolved (such as by license or settlement) prior to the initiation of patent infringement litigation, then the reasonable value of the licenses granted by such Participant under Sections 2.1 or 2.2 shall be taken into account in determining the amount or value of any payment or license.

8.4. In the event of termination under Sections 8.1 or 8.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or any distributor hereunder prior to termination shall survive termination.

9. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

10. U.S. GOVERNMENT END USERS.

The Covered Code is a "commercial item," as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Code with only those rights set forth herein.

11. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by California law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions.

With respect to disputes in which at least one party is a citizen of, or an entity chartered or registered to do business in the United States of America, any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California, with venue lying in Santa Clara County, California, with the losing party responsible for costs, including without limitation, court costs and reasonable attorneys' fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License.

12. RESPONSIBILITY FOR CLAIMS.

As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

13. MULTIPLE-LICENSED CODE.

Initial Developer may designate portions of the Covered Code as "Multiple-Licensed". "Multiple-Licensed" means that the Initial Developer permits you to utilize portions of the Covered Code under Your choice of the NPL or the alternative licenses, if any, specified by the Initial Developer in the file described in Exhibit A.

This library is derived from Henry Spencer sources. I translated the C sources into Object Pascal, implemented object wrapper and some new features. Many features suggested or partially implemented by TRegExpr's users (see Gratitude below).

Windows XP Theme Manager is freeware. You may freely use it in any software, including commercial software, provided you accept the following conditions:

1) The software may not be included into component collections and similar compilations which are sold. If you want to distribute this software for money then contact me first and ask for my permission.

2) My copyright notices in the source code may not be removed or modified.

3) If you modify and/or distribute the code to any third party then you must not veil the original author. It must always be clearly identifiable that I, Mike Lischke, am the original author.

Although it is not required it would be a nice move to recognize my work by adding a citation to the application's about box or a similar place.

The original code is ThemeMgr.pas, released 01. January 2002.

The initial developer of the original code is:

Mike Lischke (public@soft-gems.net, www.soft-gems.net).

This unit contains the implementation of TThemeManager which is designed to fix certain VCL components to enable XP theme support in Delphi and BCB applications (version 6 and lower).

TThemeManager uses global theming (all windows in the application use the same theme). Hence you don't need more than one instance in an application (except for DLLs). Having more than one instance in the same module (application, DLL) will disable subclassing of controls by all other but the first instance.

Note: If you are using a Theme Manager in a DLL then make sure the handle of the application object in the DLL (which is usually not allocated) is set to that of the main application, e.g. by passing it via an exported function.

 - Bug fix: Test for Windows XP was wrong.
