This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/ or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/ or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/ or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

1 Patch Information **1-1**
Patch Releases 1-1
Features and Updates 1-1

Preface

This document provides information regarding the patch releases for Release 8.10.0. Patches can include:

- Defect and performance fixes
- Features and updates
- Technology upgrades

For more information on Suite8, refer to the product documentation on the Oracle Help Center and My Oracle Support.

Audience

This document is intended for customers who install Release 8.10.0.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL:
https:/ / support.oracle.com

When contacting Customer Support, please provide the following:

- Product version and program/ module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received and any associated log files
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at
http://docs.oracle.com/en/industries/hospitality/

Revision History

Date	Description of Change
June 2016 July 2016 October 2016 January 2017 March 2017	• Initial publication • Update for Patch Release 8.10.0.10 • Update for Patch Release 8.10.0.20 • Update for Patch Release 8.10.0.30 • Update for Patch Release 8.10.0.31

1 Patch Information

Patch Releases

Patch	Release Date
8.10.0.31	March 2017
8.10.0.30	January 2017
8.10.0.20	October 2016
8.10.0.10	July 2016
8.10.0.1	June 2016

For a complete list of fixed issues and new features, access https:/ / support.oracle.com.

Features and Updates

The following table lists the features and updates for the patch releases for Release 8.10.0:

Patch	Features and Updates
8.10.0.31	• This patch contains bug fixes and is only required if using the Fiscal Printer Interface for Austria.
8.10.0.30	• Bug Fixes • When using the Billing Periods with Apartment Rental Billing option, you can set up the **Government evaluation**, under the Reservation Setup menu, as a percentage per room or room type. • You can enable the user log for Articles, Rate Package Prices, and Rate Codes using the options in the User Log > Configuration menu. In Germany, run the `GET_GDPDU_EXPORTS_V6.sql` file to use the view to configure the export. • For Austria, a Fiscal Printer Interface is now available. Each time an invoice prints the Fiscal Printer Interface activates communication with the fiscal control unit and a view collects the required information passed to the fiscal device. To configure the Austria Fiscal Printer Interface run the `V8_FISCAL_FOLIO_INFO.sql` to use the view to configure the Fiscal Printer Interface. The *Oracle Hospitality Suite8 Fiscal Printer Interface Guide for Austria* contains more information.
8.10.0.20	• Bug Fixes • In Reservations, you can now define if a Day Type calculation includes the tentative reservations. • In Cashiering, you can now use the Bank Identification Numbers (BIN) range including 222100-272099. • In the Fidelio XML Interface, you can now use the MailName field in the profiles to query, insert, and update a profile. • In the OTA XML Interface, you can configure a new option. Use XML Interface Encoding, to enable UTF-8 encoding in the XML messages.

8.10.0.10 OTA XML Interface

- TT 25592.OTA XML Creating a Profile: Merge information has been added to `OTA_ProfileCreateRQ`. In case of profile merge, the node TPA_EXTENSIONS has been added, showing the ID and status code of the inactive profile.

```
<TPA_Extensions>
 <InActiveProfile ID="1840" StatusCode="3"/>
</TPA_Extensions>.
```

- TT 25625 OTA XML Creating a Profile: Internal record IDs have been added for linked addresses, communications and notes by using attribute `ParentCompanyRef. (adr + comm)` and `CreatorID` for notes.

  The *Oracle Hospitality Suite8 OTA XML Interface Specification Guide* contains more information.

8.10.0.10 XML Interface

- TT 25575 XML Interface ->Profile Query Response: The attributes `profileID` and `profileGlobalID` have been changed to `ProfileID` and `ProfileGlobalID`.

8.10.0.10 Online Interfaces

- TT 25633 Online Interface: In case of an update from a version lower than 8.9.5.x to a higher version, the update could fail due to a unique constraint on the `ZCNV_SHORTDESC` column. Now the Online Interface InstallShield removes this constraint automatically if it is detected during the installation procedure.
- TT 25665 Online Interface - Smarthotel Channel Manager Mapper: The element crsVersion="2.0" is now added by default to the `V8OnlineIFCHotels.xml` configuration file by the InstallShield, when the mapper for Smarthotel is installed.

8.10.0.10 Software Interfaces

- TT 25598 Software Interfaces: Triggers have been added for profile modification in case of Attributes CRUD: create, update, delete and Notes CRUD: create, update, delete. The field `xcms_notes` was added to detailed trigger fields in setup.
- TT 25642 Software Interfaces: Translation for linked Comp. / Ind. has been added and the category `Influence` within translation table is setup. You can now use this to translate the linked company - individual relationships. The long description is translated, returned, and backwards compatible. In addition, the translation support for the Ind. / Ind. link including the customer linking roles in translation table have been fixed.

8.10.0.10 Views

TT 10 The following views have been added:

- V8_REP_HS_ARR_DEP_COMB_SM_XCMA
- V8_REP_HS_ARR_ALLADL_XCMA_CAD
- V8_REP_HS_ARR_ALLRMS_XCMA_CAD
- V8_REP_HS_DEP_ALLADL_XCMA_CAD
- V8_REP_HS_DEP_ALLRMS_XCMA_CAD
- V8_REP_YPOS_FC_XCMA_STAT3_CAD
- V8_REP_YPOS_FC_XCMA_ST345_CAD
- V8_REP_YBLD_PICKUP_XCMA
- V8_REP_YBLD_NOT_PICKUP_XCMA
- V8_REP_YBLD_PICKUP_XCMA_CAD
- V8_REP_YBLD_NO_PICKUP_XCMA_CAD
- V8_REP_REV_HISTFOR_HUGE_XCMA
- V8_REP_REV_HF_HUGE_XCMA_CAD

TT 10 The field 'Day Use Rooms' has been added to the following views:

- V8_REP_HS_ARR_ALLCHILD_XCMA, V8_REP_HS_ARR_ALLCHI_XCMA_CAD, V8_REP_YDET_OCC_WB_XCMA,V8_REP_YDET_OCC_WB_XCMA_CAD, V8_REP_YDET_ADULT_WB_XCMA, V8_REP_YDET_ADULT_WB_XCMA_CAD, V8_REP_YBLD_OCC_XCMA_CAD

TT 10 The field XCMM_ID has been added to the following views:

- V8_REP_YPOS_FC_XCMA, V8_REP_YPOS_FC_XCMA_STATYPE1, V8_REP_YPOS_FC_XCMA_STATYPE2,V8_REP_YPOS_FC_XCMA_STATYPE345, V8_REP_YPOS_FC_XCMA_CAD, V8_REP_YPOS_FC_XCMA_STAT1_CAD, V8_REP_YPOS_FC_XCMA_STAT2_CAD

8.10.0.10 Reports

TT 9 The following reports have been changed:

- FCR_PMS_4342_FORECAST_OCCUPANCY_ADV_YCAD: Cosmetic changes, added total for Hotel Segment
- FCR_PMS_4342_FORECAST_OCCUPANCY_WITH_REVENUE: Cosmetic changes - increased columns
- FCR_PMS_4364_YEARVIEW_BEDS_PERC: moved TTR_Page etc. to the top
- FCR_PMS_4364_YEARVIEW_BEDS_PERC_CAD: moved TTR_page etc. to the top, decreased total column to fit on one page instead of the total row at the bottom of page.
- FCR_PMS_4380_MEALPLAN_WEEKLY_OVERVIEW: moved TTR_page etc. to the top, cosmetic changes
- FCR_PMS_4507_JOURNAL_BY_CITYTAX: Cosmetic changes, moved TTR_page etc. to the top
- FCR_PMS_4512_JOURNAL_BY_INVOICENO_TAX: moved TTR_page etc. to the top, added new page header to split heading when either tax details are true or false
- FCR_PMS_4524_AR_AGING_REPORT_30_BY_TYPE: moved ttr_page etc. to the top, created extra section for values if ?Accounts = 0 (groupFooter1a); added second TTR_ARAccount in page header which is suppressed if ?Accounts = 1, minor cosmetic changes
- FCR_PMS_3000_TABLERES_SINGLE_PRINT - cosmetic changes
- FCR_PMS_4124_GIH_DATE_WITH_INVENTORY - new layout

TT 9 The following reports have been added:

- FCR_PMS_3400_TABLERES_STATUS

8.10.0.1 Suite8 Online Interface

- TT 21889 Suite8 Online IFC mapper to Seekda now officially supports the upload of rate code details. The functionality is available since version 8.9.3.0, however the minimum recommended version is 8.9.6.20 due to other issues fixed for the Seekda mapper.

8.10.0.1 Generic

- TT 25252 Suite8 now supports Microsoft Windows 10 using Suite8 Version 8.10.0.1 and IFC 8 10.0.0.0. Except for the WebConnect Installer until further notice.

8.10.0.1 IFC Functionality

- TT 23792 Key Interface: Introduces a new global setting **Default number of keys to number of persons** implemented under Setup->Configuration->Global Settings->Interfaces->2 Interface (IFC8). If activated, the number of keys sets defaults to the number of people in the reservation. The global setting cannot be activated when the parameter **Always Default to 1 Key** is active and vice versa.

8.10.0.1 Miscellaneous

- TT 10 The following view has been changed: V8_MALING_CUSTOMERS.
- TT 25612 Setup->Miscellaneous->Updates->Translation: Due to the no longer existing FTP file transfer, the option **Download and Import Multiple Languages** was removed, and the option **Import Translation Manually** is renamed to **Translation Update.** As a result, the **Translation Update** option under Setup-> Configuration-> Miscellaneous was removed.

8.10.0.1 Reports

TT 9 The following reports and HTML's have been added:

- FCR_PMS_4130_GIH_VIP_WITH_PICTURE.S8R, FCR_PMS_4130_GIH_VIP_WITH_PICTURE.qry and FCR_PMS_4130_GIH_VIP_WITH_PICTURE.htm: VIP Guests with profile picture

TT 9 The following reports and HTML's have been changed:

- `resbillinginfo.qry`
- FCR_PMS_4702_STAT_MANAGER_REPORT_BUDGET: corrected formula fields for budget % fields. Division by 0 error in case SMBD_ROOMSINHOTEL_D/ _M/ _Y was 0. Added new parameter ?ShowDec for changed budget fields SMBD_ADULTS_D/ _M/ _Y; SMBD_CHILDS_D/ _M_Y and SMBD_ROOMS_D/ _M/ _Y. Added formula fields for each field related to Adults/ Kids/ Rooms to either show decimals or not. Moved TTR_PAGE/ TTR_Printed On to the top Profile Shortcut bar: a new option to call the Calendar Events
- FCR_PMS_4705b_STAT_MANAGER_D_V_BUDGET: corrected formula fields for budget % fields. Division by 0 error in case SMBD_ROOMSINHOTEL_D/ _M/ _Y was 0. Added new parameter ?ShowDec for changed budget fields SMBD_ADULTS_D/ _M/ _Y; SMBD_CHILDS_D/ _M_Y and SMBD_ROOMS_D/ _M/ _Y. Added formula fields for each field related to Adults/ Kids/ Rooms to either show decimals or not. Moved TTR_PAGE/ TTR_Printed On to the top
- FCR_PMS_4706_STAT_MANAGER_REPORT_BUD_LASTYEAR: corrected formula fields for budget % fields. Division by 0 error in case FCR_PMS_4706_STAT_MANAGER_REPORT_BUD_LASTYEAR: corrected formula fields for budget % fields. Division by 0 error in case SMBD_ROOMSINHOTEL_D/ _M/ _Y was 0. Added new parameter ?ShowDec for changed budget fields SMBD_ADULTS_D/ _M/ _Y; SMBD_CHILDS_D/ _M_Y and SMBD_ROOMS_D/ _M/ _Y. Added formula fields for each field related to Adults/ Kids/ Rooms to either show decimals or not. Moved TTR_PAGE/ TTR_Printed On to the top
