

# Oracle® Retail Merchandise Financial Planning Enterprise Edition Cloud Service and Oracle® Retail Assortment & Item Planning Enterprise Edition Cloud Service

Release Notes

Release 17.1

F10893-01

October 2018

---

---

---

**Note:** With release 17.1.003, Oracle Retail offers a common assortment and item planning process. Details can be found in the documentation for Oracle Retail Assortment and Item Planning Enterprise Edition Cloud Service.

---

---

This document highlights the major changes for Oracle Retail Merchandise Financial Planning Enterprise Edition Cloud Service and Oracle Retail Assortment & Item Planning Enterprise Edition Cloud Service 17.1.

## Overview

### Merchandise Financial Planning

Oracle Retail MFP Enterprise Edition Cloud Service empowers retailers to deliver the user experience their associates expect and their customers demand. Through it, retailers are better able to anticipate demand, simplify their operations, and introduce meaningful innovation.

MFP Enterprise Edition Cloud Service exposes the Oracle Retail Predictive Application Server (RPAS) capabilities needed to deliver on the scope of the solution. Here is a list of the capabilities that MFP Enterprise Edition Cloud Service provides.

- All core RPAS configuration capabilities, as defined in the RPAS Configuration Guide
- Embedded forecasting procedure as used in the GA MFP configuration

Where standard RPAS capabilities for on-premise solutions offers unrestricted abilities to author or reference custom shell scripts, custom code, libraries, or .jar files these are *not* supported in Cloud Service (including Configurable SaaS) solutions to ensure security and performance of all solutions.

---

---

**Note:** Because MFP Enterprise Edition Cloud Service uses the Oracle Retail Predictive Application Server (RPAS) Cloud Edition platform, Oracle Retail recommends that you review the *Oracle Retail Predictive Application Server Cloud Edition Release Notes* for fixed and known issues that may affect the MFP Enterprise Edition Cloud Service.

---

---

## Assortment & Item Planning

Oracle Retail A&IP Enterprise Edition Cloud Service empowers retailers to deliver the user experience their associates expect and their customers demand. Through it, retailers are better able to anticipate demand, simplify their operations, and introduce meaningful innovation.

A&IP Enterprise Edition Cloud Service exposes the RPAS capabilities needed to deliver on the scope of the solution. Here is a list of the capabilities that A&IP Enterprise Edition Cloud Service provides.

- All core RPAS configuration capabilities, as defined in the RPAS Configuration Guide
- Embedded forecasting procedure
- Store clustering
- Assortment wedge builder
- Visual planning using images
- Additional A&IP-tuned procedures, as used in the GA A&IP configuration

Where standard RPAS capabilities for on-premise solutions offers unrestricted abilities to author or reference custom shell scripts, custom compiled code, libraries, or .jar files, these are not supported in Cloud Service (including Configurable SaaS) solutions to ensure the security and performance of all solutions.

---

---

**Note:** Because A&IP Enterprise Edition Cloud Service uses the Oracle Retail Predictive Application Server (RPAS) Cloud Edition platform, Oracle Retail recommends that you review the *Oracle Retail Predictive Application Server Cloud Edition Release Notes* for fixed and known issues that may affect the A&IP Enterprise Edition Cloud Service.

## Oracle Retail Cloud Services and Business Agility

Oracle Retail Merchandise Financial Planning Enterprise Edition Cloud Service and Oracle Retail Assortment & Item Planning Enterprise Edition Cloud Service are hosted in the Oracle Cloud with the security features inherent to Oracle technology and a robust data center classification, providing significant uptime. The Oracle Cloud team is responsible for installing, monitoring, patching, and upgrading retail software. Included in the service is continuous technical support, access to software feature enhancements, hardware upgrades and disaster recovery.

The Cloud Service model helps to free customer IT resources from the need to perform these tasks, giving retailers greater business agility to respond to changing technologies and to perform more value-added tasks focused on business process and innovation.

Oracle Retail Cloud Service is acquired exclusively through a subscription service (SaaS) model. This shifts funding from a capital investment in software to an operational expense. Subscription-based pricing for retail applications offers flexibility and cost effectiveness.

## Client System Requirements

The following technology is supported:

- Operating system:
  - Microsoft Windows 7 Professional and Windows 10 with Microsoft Office 2013

---

---

**Note:** Oracle Retail assumes that the retailer has ensured its Operating System has been patched with all applicable Windows updates.

---

---

- Web browsers supported on Microsoft Windows 7 and 10:
  - Mozilla Firefox 52+ ESR
  - Google Chrome 52+

## Supplemental Training

The following training is available.

### Oracle Retail Learning Subscriptions at Oracle University

The Oracle Retail Learning Subscription is a digital training solution for anyone on your team seeking training on Oracle Retail Products. With the learning subscription you get the key elements of an effective learning program and the conveniences of a digital format, making this training unmatched in the industry.

You get modern learning at its best, such as:

- 12 months of 24/7 access to a comprehensive set of high quality videos delivered by Oracle experts.

- Detailed coverage and step-by-step demonstrations.
- Periodic updates for new features and product enhancements.
- Flexibility to search, access, and learn about specific topics of interest.

The learning subscription enables current users to continually refresh and upgrade their product skills. It also enables new employees with a self-paced learning guide to help them quickly become proficient on Oracle Retail Products.

For training opportunities, see the following web site:

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

#### **Value-Added Reseller (VAR) Language**

##### **Oracle Retail VAR Applications**

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
