This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Preface ............................................................................................................................... 16
  Audience ......................................................................................................................... 16
  Customer Support ........................................................................................................ 16
  Revision History ........................................................................................................... 16
Prerequisite, Supported Systems, and Compatibility ....................................................... 17
  Prerequisite .................................................................................................................. 17
  Supported Systems ........................................................................................................ 17
  Compatibility ................................................................................................................ 17
A. Front Desk Function ..................................................................................................... 18
  1. Reports .................................................................................................................... 19
     1.1. Printing a Report ................................................................................................. 19
     1.2. Reports Batch Printing ..................................................................................... 20
  2. Passenger Disembark Assistant Setup ...................................................................... 21
     2.1. Adding a Debarkation Group .......................................................................... 21
     2.2. Removing a Debarkation Group ...................................................................... 21
  3. Child Locator ............................................................................................................ 23
     3.1. Checking In a Child ......................................................................................... 23
     3.2. Checking Out a Child ...................................................................................... 24
     3.3. Changing Pick Up Person ................................................................................ 25
  4. Advance Board Card Printing ................................................................................... 26
  5. BoardCard Wizard .................................................................................................... 28
  6. Check In/Out Status .................................................................................................. 29
  7. Cruise Comment ........................................................................................................ 30
  8. Cabin Availability ...................................................................................................... 31
     8.1. Searching for Available Cabin ......................................................................... 31
     8.2. Viewing Availability Using Deck Plan ............................................................ 32
  9. Cabin Overview ......................................................................................................... 33
     9.1. Navigating through Cabin Overview ............................................................... 33
     9.2. Batch Update of Cabin Clean Status ............................................................... 33
 10. Cabin Status .............................................................................................................. 35
 11. Postings Overview .................................................................................................... 36
 12. Amenities Overview .................................................................................................. 37
     12.1. Viewing Amenities Request ......................................................................... 37
     12.2. Adding/Editing/Delivering Amenities ............................................................ 37
 13. Itinerary Overview .................................................................................................... 38
 14. Flights Overview ....................................................................................................... 39
14.1. Viewing of Flight Details ......................................................... 39
14.2. Adding/Removing Flight Information ...................................... 39

15. Comments Overview ................................................................. 40
16. Revenue Overview ................................................................. 41

17. Add Work Order ........................................................................ 42
17.1. Adding Single Work Order ..................................................... 42
17.2. Adding Work Orders by Batch ............................................... 43

B. Cashier Function ........................................................................ 44

1. Guest Handling ........................................................................... 45
   1.1. Search Panel ........................................................................ 45
   1.2. Guest Info Tab ..................................................................... 47
       1.2.1. Creating New Reservation ........................................... 52
       1.2.2. Editing a Reservation .................................................. 52
       1.2.3. Canceling Reservation ................................................ 52
       1.2.4. Posting Status ............................................................. 53
       1.2.5. Create a Party ............................................................... 54
       1.2.6. Show a Party ............................................................... 54
       1.2.7. Add to Group ............................................................... 55
       1.2.8. Remove from Group ..................................................... 56
       1.2.9. Primary Guest ............................................................. 57
       1.2.10. Show Log ................................................................ 57
       1.2.11. Guardian Assignment ................................................. 58
       1.2.12. Mark No Show ........................................................... 60
       1.2.13. Service Charge .......................................................... 60
       1.2.14. Add to Disembark Group .......................................... 61
       1.2.15. Remove from Debark Group ....................................... 62

   1.3. Disc, Route, Pkg Tab ............................................................... 62
       1.3.1. Routing .................................................................... 62
       1.3.2. Fidelio Discount ........................................................... 69
       1.3.3. Micros Discount .......................................................... 70
       1.3.4. Micros Advance Discount ........................................... 72
       1.3.5. Disallow Department ................................................... 72
       1.3.6. Package Plan ............................................................... 73

   1.4. Invoice Tab ........................................................................... 79
       1.4.1. Add Posting ................................................................. 80
       1.4.2. Void Posting ................................................................ 81
       1.4.3. Pay Invoice ................................................................. 82
       1.4.4. Print Invoice ............................................................... 90
       1.4.5. Move & Route ............................................................. 95
       1.4.6. Criteria Discount ......................................................... 96
       1.4.7. Item Discount ............................................................. 98
       1.4.8. Hide No Print ............................................................. 98
       1.4.9. No Print ................................................................... 99
       1.4.10. Set Credit Limit ......................................................... 99
1.4.11. Close Posting ................................................................. 100
1.4.12. Set Spending Limit ......................................................... 101
1.4.13. Show Pre-Cruise Invoice ................................................. 102
1.5. More Guest Info Tab .......................................................... 105
  1.5.1. Take Picture ............................................................... 106
  1.5.2. Cruise Reservation Related Info ...................................... 107
  1.5.3. Document Return ........................................................ 107
1.6. Service Info Tab ............................................................... 108
  1.6.1. Setting Up an Amenity / Special Request ............................ 108
  1.6.2. To Mark Items as Delivered ........................................... 110
1.7. Activity Viewer Tab ........................................................... 111
  1.7.1. Navigating through Activity Viewer ................................. 112
1.8. Revenue Analyzer Tab ........................................................ 112
1.9. History Tab ....................................................................... 113
  1.9.1. Creating Future Reservation ........................................... 114
  1.9.2. Editing Future Reservation ............................................. 115
  1.9.3. Removing Future Reservation .......................................... 115
1.10. Comments Tab ................................................................. 115
  1.10.1. Adding a Comment/Sub-comment .................................... 115
  1.10.2. Attaching Image File .................................................... 116
  1.10.3. Resolving a Comment .................................................. 116
1.11. Other Info Tab ................................................................. 116
  1.11.1. Flight Assignment ........................................................ 117
  1.11.2. Maintenance ............................................................... 118
  1.11.3. Guest Categories ........................................................ 118
  1.11.4. Guest Categories / Other Information .............................. 118
1.12. Travel Documents Tab ....................................................... 118
  1.12.1. Adding/Editing a Travel Document ................................. 120
1.13. Custom Info Tab ............................................................... 120
1.14. Guest History Tab ............................................................. 121
  1.14.1. Transactions Tab ......................................................... 122
  1.14.2. Items Details .............................................................. 123
  1.14.3. Shore Excursion .......................................................... 123
  1.14.4. Amenity ................................................................. 123
  1.14.5. Special Request ........................................................ 123
  1.14.6. Comments ............................................................... 124
  1.14.7. Raw XML .............................................................. 124
1.15. Loyalty/TrackIt Tab .......................................................... 124
  1.15.1. Loyalty Assignment ................................................... 125
  1.15.2. Confiscated Item ....................................................... 126
1.16. Renew Reservation Function .............................................. 126
1.17. Express Reservation Function ............................................ 127
1.18. Get Credit Cards Function ................................................ 128
  1.18.1. Updating Credit Card Details ........................................ 128
  1.18.2. Capturing Signature .................................................... 130
4. Visitors ................................................................................................................. 160
  4.1. Adding New Visitor......................................................................................... 160
  4.2. Editing Visitor Information .......................................................................... 161
  4.3. Enabling/Disabling a Visitor ....................................................................... 161
  4.4. Changing Status to Onboard/Ashore ............................................................ 162
  4.5. Scanning Travel Document ........................................................................ 162
  4.6. Adding Future Visit ..................................................................................... 162
5. Gift Card ............................................................................................................. 164
6. Quick Billing ......................................................................................................... 165
  6.1. Guest Quick Billing ....................................................................................... 167
    6.1.1. Quick Bill Printing .................................................................................. 167
    6.1.2. Quick Bill Balance ............................................................................... 167
    6.1.3. Quick Bill eMail ................................................................................... 168
    6.1.4. Quick Bill Balance with Commission .................................................... 169
  6.2. Residents Quick Billing .............................................................................. 170
  6.3. System Accounts Quick Billing ................................................................... 170
  6.4. Group Quick Billing ................................................................................... 171
7. Quick Postings ...................................................................................................... 172
  7.1. Quick Posting ............................................................................................. 172
    7.1.1. Quick Posting to Single Account ......................................................... 172
    7.1.2. Quick Posting to Multiple Account ...................................................... 173
    7.1.3. Selecting Account Using Criteria Option ............................................. 174
  7.2. Quick Posting Status .................................................................................. 175
  7.3. Quick Discount ........................................................................................... 176
    7.3.1. Quick Discount to Multiple Guest by Percentage/Value ....................... 177
  7.4. Quick Check-Out ......................................................................................... 177
  7.5. Quick Service Charge Posting ................................................................... 178
    7.5.1. Posting a Service Charge by Batch ...................................................... 179
    7.5.2. Disabling Service Charge Posting ....................................................... 180
  7.6. Quick Messages ......................................................................................... 180
8. Flight Assignment ................................................................................................. 182
  8.1. Assigning Flight Details .............................................................................. 182
9. Ashore Deny List ................................................................................................. 183
  9.1. Denying Passenger from Going Ashore ....................................................... 183
  9.2. Removing Passenger from Going Ashore List ............................................. 184
10. Batch Assign Disembark Group ....................................................................... 185
   10.1. Assigning Passengers to Disembarkation Group ...................................... 185
   10.2. Unassigning Passengers to Disembarkation Group ............................... 185
11. Print Disembark Letter ...................................................................................... 186
12. Unposted Package Posting ............................................................................... 187
   12.1. Viewing All Unposted Package Postings ............................................... 187
13. Cashier Sessions ................................................................................................. 188
   13.1. Opening a Cashier Session ..................................................................... 188
13.2. Closing a Cashier Session ................................................................. 188
13.3. Resolving Imbalance Cashier Session ............................................. 189
13.4. Transferring Money From/To Ship ................................................... 189

Preface

Management module is the core module within Shipboard Property Management System that maintains all passengers/crew’s profile, reservations, billings and other requests during the voyage.

The following section describes the setup, usage of Management module.

**Audience**

This document is intended for application specialist and users of Oracle Hospitality Cruise Shipboard Property Management System.

**Customer Support**

To contact Oracle Customer Support, access My Oracle Support at the following URL: [https://support.oracle.com/](https://support.oracle.com/)

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

**Revision History**

Prerequisite, Supported Systems, and Compatibility

This section describes the minimum requirement for Management module.

**Prerequisite**
- Management.exe

**Supported Systems**
- Windows 32-bit System, Windows 64-bit System

**Compatibility**
- SPMS version 7.30.870 or later. For customer operating on version below 7.30.870, database upgrade to the recommended or latest version is required.
A. Front Desk Function

The Front Desk Menu comprises of functions that provides user a high level monitoring and overview of the operations such as Cabin Overview, Postings Overview and check in/check out status.
1. Reports

The Shipboard Property Management System comes pre-installed with a set of operational reports, and additional user customize reports may be added through the Administration module, System Setup, Reports Setup.

![Report Printing](image)

Figure 1-1: Reports List

1.1. Printing a Report

1. From the Front Desk File Menu, select Reports from the drop-down list.
2. In the Reports List section, click the (+) to expand the container, then select the report to print.
3. Navigate to the Print tab on the right and select the available Selection/Criteria.
4. Select a Printer, Print Range and Copies to print from its respective section, and then click Print.
5. To view a report before printing, repeat the above steps and then navigate to Preview tab.
6. To export the report, repeat the above steps, and then click Export.
1.2. Reports Batch Printing

The Reports Batch Printing prints a set of departmental reports by batch, and these reports are predefined in Administration module, System Setup, Reports Batch Printing Setup.

To print the report by batch,
1. Select Reports Batch Printing from the Front Desk drop down menu.
2. In the Batch Reports Printing window, select the batch number to print.
3. In the Printer selection section, select the Printer and then click Run.
2. Passenger Disembark Assistant Setup

The Passenger Disembark Assistant Setup is a tool use to organize and assist with debarkation in groups, and the setup is based on debarkation date.

2.1. Adding a Debarkation Group

1. In the Passenger Disembark Assistant Setup form, click Add New.
2. Enter the Name, Tag, Max. Passenger and select from the drop-down list the Disembarkation Time, Meeting Time, Meeting and Luggage Location, and then assign a Colour for this group.
3. Click Save to save the debarkation group, the click Exit to close the form.

2.2. Removing a Debarkation Group

1. In the Passenger Disembark Assistant Setup form, select the group to delete, and then click Delete.
2. At the delete confirmation prompt, select Yes.
Note: If the group has passengers assigned, deletion is not possible until all passenger is un-assigned.
3. Child Locator

The Child Locator function enables users in monitoring the location a child is checked in to, based on their reservation status - Expected, Check-In or Check-Out, and the guardian assigned to take care of the child.

![Image of Child Locator interface]

**Figure 3-1: Child Locator**

3.1. Checking In a Child

1. From the **Front Desk** menu, select the **Child Locator** from the drop-down list.
2. Navigate to the **Check In** tab from the Children Locator window.
3. In the Selection section, select the **Event Location, Cabin/Name** and/or **Show All Expected**, then click **Refresh**.
4. Navigate to the Beeper section, select a beeper number from the drop-down list and click **Assign Beeper** if beeper is use.
5. Navigate to Current Check-In Location, select the **Event Location** from the drop-down list, and then click **Check-In**.
6. In the List of Passengers Pick Up window, select the passenger name that will pick up the child, and the click OK to return to the Child Locator window. By default, Passengers in the same cabin is checked.

7. Information of the child is now shown in Check-In tab.

3.2. Checking Out a Child

1. In the Child Locator window, navigate to the Check-In tab
2. From the Selection section, select one of the option, then click Refresh.
3. Select the child name from the grid, and then click Check-Out.
4. At the Passenger to Pick Up Child window, verify the name and then click OK to confirm.
5. The child information will now transfer to Check-Out tab.
3.3. Changing Pick Up Person

![List of passengers pick up the child](image)

**Figure 3-3: List of Passenger Picking Up the Child**

1. In the Child Locator window, navigate to the **Check-In** tab.
2. From the name grid, right click on the child name and select **Change Pick Up Person**.
3. In the **Show** section, select the one of the option, then select the passenger name from the grid and click **OK**.

**Note:** By default, the names shown are the Passengers in the same cabin.

For more detail on Child Locator setup and usage, refer to *Child Locator - User’s Manual*.
4. **Advance Board Card Printing**

The Advance Board Card Printing is a function that prints board cards by batch, based on the template criteria configured in Administration module.

![Advance Board Card Printing Screen](image)

**Figure 4-1: Advance Board Card Printing screen**

1. In the Management module, and select Advanced Board Card Printing from the Front Desk drop-down menu.
2. Select the BCard Template from the drop-down list to populate the predefined fields.

   **Note:** Selected field(s) can be changed manually using the drop-down list.

3. Click **Print** to print the board cards.
4. Select Yes to confirm the total records to print when prompt.
5. In the Batch Board Card Printing window, status of the board card will be shown.

![Figure 4-2: Total Record to print](image)

![Figure 4-3: Batch Board Card Printing](image)
5. BoardCard Wizard

The Board Card Wizard enables user to print board cards quickly and efficiently, by guest, crew, group, visitors or gift cards, through a selection of available filters.

1. From the **Front Desk** menu, select **BoardCard Wizard** from the drop-down list.
2. In the BCard Printing Wizard prompt, read and follow the instructions, then click **Next**.
3. In the following window, select the type of board card to print and click **Next**.
4. Select whether to encode with existing card number or newly generated a card number, then click **Next**.
5. Select whether to print cards for guest already on-board or future reservations. For future reservations, select the **Embarkation Date** from the drop-down list and click Next.
6. Check the Filter Age and enter the age From/To field, if any.
7. Select one or more options using the drop-down list, such as Nationality, Product, Pre-Product and Award Level, if any.
8. Enter the Names, Room numbers or Manifest from/to, if any, and then click **Next**.
9. The number of cards matching the selection is shown. Check if the cards should be sorted by Product when printing.
10. Check the preferred sort out to print, either by room number, name, room number descending or person name descending.
11. Click **Finish** to proceed printing the cards.
12. The number of cards printed successfully or failed are shown in the Batch Board Card Printing window.

![Batch Board Card Printing](image)

13. Click **Close** to exit and return to main menu.
6. Check In/Out Status

The Check In Status provides user a real time overview of the expected check in for the day. It displays the number of reservations for the day, number of checked in and remaining check in at the selected time.

![Check-In Status](image1)

**Figure 6-1: Check In Status**

Similarly, the Check-Out Status shows the total of reservations checking out, number of reservation already when ashore and remaining.

![Check-Out Status](image2)

**Figure 6-2: Check Out Status**
7. Cruise Comment

The Cruise Comment field is made available to the Ship Operator for comments to be added pertaining to the cruise, and it can cater up to 4000 characters.

1. From the Front Desk menu, select Cruise Comment from the drop-down list.
2. Select the Cruise from the drop-down list.
3. Enter the comment in the blank field and then click OK to save.
8. Cabin Availability

Cabin Availability provides user an overview of the available cabin by date, deck, category and/or features, and a view by deck plan. It also displays the current cabin cleaning status and the number of available berths.

![Cabin Availability](image)

**Figure 8-1: Cabin Availability**

### 8.1. Searching for Available Cabin

1. From the Front Desk menu, select Cabin Availability from the drop-down list.
2. In the Selection Criteria, select the Date From/To, Deck and Category from the drop-down list.
3. Select the Cabin Features using the check box, if any.
4. Click Refresh to refresh the view.

![Deck Plan Viewer](image)

**Figure 8-2: Deck Plan Viewer**
8.2. Viewing Availability Using Deck Plan

1. From the Cabin Availability window, click Show Deck Plan.
2. In the Selection Criteria, enter the Date From/To, then click Refresh.
3. In the diagram, status of the cabin is reflected according to the color chart, and information of the selected cabin is displayed in Selected Cabin section.
9. Cabin Overview

Cabin Overview provides a quick view of all cabin status by date, category, cabin clean status and occupant’s name. It also has the capability in updating the cabin clean status by batch, and this function is accessible from Front Desk menu.

Figure 9-1: Cabin Overview screen

9.1. Navigating through Cabin Overview

- From left to right of the Overview screen, the cabin number and category are shown, with its cabin cleaning status.
- If the cabin is occupied or block for expected guest, the passenger name is shown on the grid from the embarkation to disembarkation date.
- To search for specific category, cabin cleaning state, use the filter fields located at the bottom of the screen.
- To show the Available Cabins on the right section of the screen, select the guest name then click Show Free Cabin.

9.2. Batch Update of Cabin Clean Status

This function allows user to update the cabin status by batch, using the available filters.
1. At the bottom right of the Cabin Overview screen, click **Batch Update Cabin Clean Status**.

2. In the Batch Update Cabin Clean Status window, choose the **category** or **deck**, followed by **cleaning status**, and then click **Search**.

3. Cabins matching the criteria will be shown. Select the cabin by checking the box beside the cabin number or use the **Select All** to update all cabins.

4. Select the **Clean Status** from the drop-down list, then click **Update**.

---

**Figure 9-2: Batch Update of Cabin Clean Status**
10. Cabin Status

The Cabin Status function sets the cabin into unavailable mode over a period of time, be it for servicing or maintenance purposes.

Figure 10-1: Cabin Status Change

1. From the Front Desk menu, select **Cabin Status** from the drop-down list.
2. In the Search Criteria, select the **Deck** and/or **Category**, then click **Search**.
3. Cabins matching the search criteria will be shown on the left of the screen. Select the cabin, then navigate to Cabin Status on the right of the screen.
4. Select the **Status** from the drop-down list, insert the **Block From/Until** date and the **Unavailability Reason**.
5. Click **OK** to proceed and this updates the status shown in the grid.

**Note:** Blocked cabins are highlighted in light orange in the Cabin Overview screen.
11. Postings Overview

This function displays a detailed postings by department code of the selected cruise and date. Information shown includes Date, Total Discounts, Vat Tax, Payer, Buyer, User, Transaction ID, Check No and Posting Type (Manual or Automated).

Figure 11-1: Posting Overview screen

1. From the Front Desk menu, select Postings Overview from the drop-down list.
2. Select the Cruise Date from the left panel of the screen.
3. Double click the date to expand the container.
4. Select the Department code to view.
5. Postings of the selected department code are shown on the right panel of the Overview window.
6. Double clicking on the transaction will open the posting details screen, where bill image may be viewed.
Amenities Overview allows user to view all the amenities requests in a single screen, be it pending delivery or delivered. It also has the capability in adding new amenities or editing existing ones.

12.1. Viewing Amenities Request

1. From the Front Desk menu, select **Amenities Overview** from the drop-down list.
2. In the **Selection Criteria**, choose from the available filters for information to be displayed, and then click **Refresh**.
3. Information matching the selection criteria will be displayed at the top section of the screen.

12.2. Adding/Editing/Delivering Amenities

Refer to **Cashier Function, Guest Handling, Service Info Tab.**
13. Itinerary Overview

This function displays the Itinerary or daily activities available in each cruise by Location, Packages or Counselors. These information’s are entered in System Cruise Setup, Itinerary Setup.

Figure 13-1: Itinerary Overview

1. From the Front Desk menu, select Itinerary Overview from the drop-down list.
2. Expand the Locations or Packages container, then double click on the Cruise Date to display available activities.
3. Expand the Activities to view the details, shown on the right panel.
14. Flights Overview

This function allows user to plan and view the arrival or departure by flights, and organize ground transfers where necessary.

![Flight Overview screen](image)

**14.1. Viewing of Flight Details**

1. From the Front Desk menu, select **Flights Overview** from the drop-down list.
2. On the left of the Flights Overview screen, select the flight date to expand the date container.
3. To view the Flight Information, select the **Flight Number** below the date.

**14.2. Adding/Removing Flight Information**

1. In the Flight Overview window, select the date from the left panel.
2. Right click and select **Add Flight**.
3. Enter the **Flight Information** on the right section of the screen.
4. Click **OK** to save.
5. To remove the Flight information, select and right click the **Flight Number**, and then select **Remove Flight**.
15. Comments Overview

Comments Overview allows user to view and edit all comments entered in Guest Handling module, as well as adding new comments.

![Comments Overview screen](image)

**Figure 15-1: Comments Overview screen**

1. From the Front Desk menu, select Comments Overview from the drop-down list.
2. In the Selection Criteria, choose from the available filters for information to be displayed, and then click **Refresh**.
3. Information matching the selection will be shown in Comment section located in the middle of the screen.
4. To view the comment, select the comment from the Comment section.

Refer to *Cashier Function, Guest Handling, Comments Tab* for more information on how to add and remove comments.
The Revenue Overview provides user a comprehensive view of daily revenue per cruise.

Figure 16-1: Revenue Overview screen

1. From the Front Desk menu, select Revenue Overview from the drop-down list.
2. Select the Cruise to view the revenue by day.
3. Click ‘+/-’ to expand or collapse the information.
4. Select the from drop-down menu, to further drill down the information by User, Payer, Buyer or Transaction ID.
5. Check the box beside the code and click the check mark to refresh the information.
17. Add Work Order

This function records all maintenance work required on board the Ship, be it in a cabin or public locations. Work Orders may be added singly or by batch using the Criteria Add function.

![Add New Work Order form]

**Figure 17-1: Add New Work Order form**

### 17.1. Adding Single Work Order

1. From the Front Desk menu, select **Add Work Orders**.
2. In the Add New Work Order form, the **Work Order Request No.** field, enter the external document number, if any.
3. Select from the drop down list the **Work Order Type**, **Task Code** and enter the **Task Description** and **Comment**.
4. Select the **Priority** and **Location/Cabin Usable Status** from the drop down list and attach a picture file, if any.

**Note:** User may override the predefined **Priority** and **Location Usable Status** when adding or editing a work order.

5. In the Reported By section, select the **Cabin number** and enter the **Name of Person Reporting AVO**.
6. Select the Location Type, either **Cabin**, **Public** or **Others (Select Category)**, then navigate to Location section and select the exact locations from the grid.
7. Click **Add** to add the location to Location (Selected) section.
8. To de-select the location from Locations (Selected), mark the item to remove and then click **Remove(-) or Remove All**.
9. Click **OK** to save the work order.
17.2. Adding Work Orders by Batch

1. Repeat step 1 to 6 of the above.
2. Click Criteria Add, located between Locations (De-Select) and Locations (Selected) to launch the Cabin Selection window.
3. In the Cabin Selection window, navigate to Search Criteria section, select the criteria from the drop down list and check the required filter, and then click Refresh to update the information in the grid.

![Cabin Selection Criteria](image)

4. Click OK to add the selection to Locations (Selected).
5. To de-select the location from Locations (Selected), mark the item to remove and then click Remove( ) or Remove All.
6. Click OK to complete the work order.

**Note:** Work orders entered through this function is viewable in Maintenance Module, Work Order Overview.
B. Cashier Function

The Cashier Menu is the most commonly used function in a Ship Operation, a function where the passenger profile, reservations, billing and stay histories are recorded and stored.
1. Guest Handling

This section describes the various functions in accessing guest data such as guest information, travel documents, invoice, guest history, group account, and etc. It also allows users to create, amend, cancel a reservation, post a charge, and check out a guest/account. These functions are accessed via Management, Cashier drop-down menu.

Figure 1-1 – Guest Handling

1.1. Search Panel

The Search Panel function enables you to look up a reservation by status - Check In, Check Out, Expected, Canceled, and No Show via the Guest Handling screen.
Figure 1-2 - Search Panel

1.2.1. Creating New Reservation

1. Click **New Reservation** located in Guest Handling screen to open a New Guest Information form.
2. Enter all relevant information, particularly the mandatory fields.

**Note:** Your operation may define other fields as mandatory if deemed necessary. Please refer to your company standard operating procedure.

3. Click **OK** to save the form.
4. Saved information is updated and shown under **Guest Info tab** and categorized the guest as **Expected Arrival**.

1.2.2. Editing a Reservation

1. Search the reservation in **Search Panel**, then click **Edit Information** under Guest Info tab to open the existing Reservation Form.
2. Edit all relevant information, then click **OK** to save the changes.

1.2.3. Canceling Reservation

1. Search the reservation in **Search Panel**, then click **Cancel Reservation** under Guest Info tab.
2. Select **Yes** to cancel the reservation when prompt, and this places the booking under Cancelled tab.
1.2.4. Posting Status

The Posting Status is a function that assist user in managing cash paying guest or guest that may have exceeded their credit limit. This function enable/disable the postings from flowing through to the account.

To Disable Posting

1. Retrieve the reservation from Search Panel, then click Posting Status in Guest Info tab.
2. Enter the reason to disable the posting when prompt, either by selecting a predefined reason from the drop-down menu or manually insert them.
3. If Allow manual postings is checked, this will only disable postings via the interfaces and manual posting within Guest Handling screen is still permissible.
4. Press OK will set the posting status for the account to either No or Manual.

To Enable Posting

1. Retrieve the reservation from Search Panel, then click Posting Status in Guest Info tab.
2. System will prompt for a response to enable the account to accept postings.
3. Selecting Yes will reset the Posting status to allowed, whereas No will remain as unchanged.

1.2.5. Create a Party

This function manages and identify small number of persons traveling together that may not necessarily be in the same cabin. In addition to identification purposes, person responsible for payment of accounts or main contact liaison can be made as "primary" passenger.

To Create a Party

1. Search for the reservations in Search Panel, then use the CTRL key to select the names that make up a party.

2. Click Create Party located on bottom right of Guest Info tab.

3. System updates the guest in the same party with Shore-Res.ID.

1.2.6. Show a Party

This function displays all travel companions within a party when searched.

To Show a Party

1. In the Search Panel, click Show Party.

2. The affiliated passengers of the searched party will appear in the list.
1.2.7. Add to Group

A guest can be an individual traveler or part of the group. If the guest has a reservation and were to become part of a group, user is able to link the reservation to the group account and displays all travel companion within a party when search.

To Add to Group

1. Search the guest name in the Search Panel.
2. Mark the reservation(s), then click Add to Group in the Guest Info tab.
3. System will prompt for a response whether to assign selected guest(s) to the group. Click Yes to proceed.

4. In the Group Selection window, select the group from the list.

5. If Assign as group leader is checked, this will make the guest as leader. It is possible to have more than one leader in a group.
6. Once added, the group name is shown under Member of Group in Guest Info tab. If the guest is a Group Leader, the word (Leader) appears after the group name.
7. Affiliated group guest is listed when search by group name in the Search Panel.

1.2.8. Remove from Group

Remove from Group function removes guest from an existing group and transform
the reservation into an individual reservation.

To Remove a guest from group

1. Search the guest name using the Search Panel.
2. Mark the reservation(s), then click Remove from Group in the Guest Info tab.
3. System will prompt for a response to remove selected guest(s) from the group.
   Click Yes to proceed.
4. This removes the group name is the Guest Info, Member of Group.

1.2.9. Primary Guest

In earlier mentioned topic Create a Party, one is able to designate a guest within a party as a primary guest, or the person in the party who will be in charge and responsible for accounts. Below are the steps to assign a Primary guest.

To assign a Primary Guest

1. Identify the party by clicking Show Party button.
2. Highlight the name of the person to be designated as Primary.
3. Click Primary Guest to assign the selected person and the word Primary will appear in ‘Cabin Information’.

Note: This process supersedes earlier assigned Primary guest, if any.

1.2.10. Show Log

A chronological record of activities such as passenger movements, financial transactions, system events are logged by system to enable the reconstruction and examination of the sequence of events and/or changes made and such information’s are viewable in the Show Log function.

To Show Log

1. Retrieve the reservation from the Search Panel, then click Show Log in Guest Info tab.
2. System returns a list of events on screen, sorted by date/time order.
3. Press Print to send a copy of the log to printer.
4. Press Export to export the log into a supported file format.

1.2.11. Guardian Assignment

Depending on the Ship's policy and age set forth as a Minor, a guardian may be required to accompany a Minor for certain activities or in the absence of the parents. This function is available to accounts where the passenger age is below the Minimum Adult Age sets in Parameter table and process can be automated by enabling parameter, General, Guardian Auto Assignment.

To assign a Guardian
1. Navigate to the Guest Handling screen and search for the Minor's name/cabin.
2. Click the Guardian Assignment.
3. The Guardian Assignment window will pop up, enabling the users to choose from the following options.
   - Passengers in the same cabin.
   - Passengers with same booking number.
   - Search Name/Cabin number.
4. Selecting one of the above option illuminates the Add as Guardian button.
5. Choose the name from the guest list, then click Add as Guardian to save the name to Guardian List.
6. The assigned guardian name will appear in the Guest Info, Name/Address section.

To remove a Guardian Assignment
1. Retrieve the Minor’s account and click Guardian Assignment.
2. Select the name of the guardian under the Guardian List, then click Remove as Guardian.

Figure 1-22 - Guardian Assignment window

Figure 1-23 - Guardian List
1.2.12. Mark No Show

The Mark No Show function enables the user to change the guest status from Expected to No Show prior to End of Day process and is only permissible to users that are assign with such access rights.

To Mark No Show

1. Search for the guest name using the Search Panel, Expected tab.
2. Click Mark No Show located at the bottom right of the Guest Handling screen.
3. Click Yes in the Mark Guest to No Show prompt will change the reservation status from Expected to No Show.

![Mark guest to No Show prompt](image)

4. The booking will now appear under the No Show tab.

1.2.13. Service Charge

The Ship may have set up a fixed Service Charge value to be posted automatically into the guest account and typically, posting is perform using Quick Service Charge Posting function instead of the regular Quick Posting functionality. The value of the Service Charge is managed by Parameter: Service Charge, Default Charge Amount and Minimum Passenger Age. The Service Charge function in Guest Handling enables user to post the service charge manually or disable the automatic posting.

Posting a Service Charge

1. In Guest Info tab of the selected account, click Service Charge located at the bottom of the screen to open the Change Service Charge Posting Amount window, then click OK to post.

![Change Service Charge Posting Amount](image)

2. The service charge posted is shown in Guest Info tab.
Altering Service Charge Value
1. From the Change Service Charge Posting Amount window, uncheck the Use System Default Value, then alter the value in the field.
3. Click OK to save and post.
4. In the Management prompt, select Yes to override the System default value.

Disabling Service Charge Posting
1. From the Change Service Charge Posting Amount window, select Disable Service Charge Posting, then click OK to save.
2. In the Guest Info tab, the Service Charge Amount are then changed to No Service Charge Posting.

1.2.14. Add to Disembark Group

Add to Disembark Group function allow user in organizing disembarking passengers to disembark in a group at a designated assembly location, departure time and luggage collection location.

1. In Guest Info tab of the guest account, click Add to Disembark Group.
2. In the selection window, select the available group from the grid and then click Select.

![Select Disembark Group](image)

Figure 1-25 - Debarkation Group Assignment

3. At the Add guest to debarkation group prompt, click Yes.

4. The assigned debarkation group is shown in the Guest Info tab, Cabin Information section.

![Assigned Debarkation Group](image)

Figure 1-26 - Assigned Debarkation Group

### 1.2.15. Remove from Debark Group

When a passenger is assigned to a debarkation group wrongly, or they would like to depart with their friends, user is required to firstly remove the assignment and then reassign to the desire group.

To remove a passenger from the debark group, click Remove from Disembark Group in Guest Info tab.

### 1.3. Disc, Route, Pkg Tab

Discount, Route, Package function facilitates charges to be routed within the same invoice or to other guest prior to guest check in, setting up of allowable discounts in Fidelio and Micros and a view of Package Plan entitlement.

#### 1.3.1. Routing

The Routing function is designed to automate transfer of charges within the guest account or to multiple accounts, hence consolidating a number of charges into one
invoice/account. The use of this function is to facilitate the invoicing process at group reservations level or party/family traveling together. Depending on the requirements, the routing can be setup in one of this option - 'Pay for' or 'Paid by'.

![Table 1-4 - Routing tab definition](image)

<table>
<thead>
<tr>
<th>Section</th>

</tr>
</tbody>
</table>

**Note:** Prior to moving/routing the charges, be sure to first check the current routing arrangements to avoid duplication of routing which will result to charges not being re-directed as planned.

**Pay for another party**

Below are the steps to setup account/charge routing when guest A pays for guest B.

1. Search the guest account and navigate to **Disc, Route, Pkg, Routing** tab.
2. Click **New Routing** to open the routing dialog box.
3. Select the **Invoice number** where charges will be routed to.
4. For charges within the same account, leave the cabin number and guest name as it is.
5. In the event where guest is paying for another account, change the cabin number and select the respective guest.

![New Routing - 'Will Pay For'](image)

**Figure 1-28 - New Routing – ‘Will Pay For’**

**Note:** The screen shows ‘Will Pay For’.

6. Select the **Financial Department** group or codes to be routed and insert the routing reason.
7. Select the options where applicable:

<table>

</tr>
</tbody>
</table>

8. Click **OK** to save.
9. Once saved, the selected assignments is added to 'Pays for' in the Routing tab.
**Paid by another party**

Below are the steps to setup routing when guest B account/charges is paid by guest A.

1. Search the guest account and navigate to Disc, Route, Pkg, Routing tab.
2. Click New Routing on the right panel under 'For' section to open the routing dialog box.
3. Select the Invoice number where charges will be routed to.
4. Enter the cabin number and select the respective guest name from the drop-down list.
5. Select the Financial Department group or codes to be routed and insert the routing reason.

6. Select the options where applicable:

<table>
<thead>
<tr>

<tr>
<td>Actual Payments</td>
<td>Actual payments will be routed.</td>
</tr>
<tr>
<td>Package Postings</td>
<td>Only route package postings.</td>
</tr>
</tbody>
</table>

Table 1-6 - Field definition of Routing screen

7. Click OK to save.

8. Once saved, the selected assignments is added to 'Pays for' in the Routing tab.

---

**Advanced Routing**

Below are the steps to setup routing for multiple guests, for example; group guest or parties travelling together.

1. Search for the guest account and navigate to Disc,Route,Pkg, Routing tab.

2. Click New Routing to open the routing dialog box.

3. In the dialog box, click Advanced located below the Invoice drop-down list to open the Multiple Accounts Selection window.

---

Figure 1-31 – Routing Paid By window

Figure 1-32 - New Routing - Advanced
4. Guests listed in the **Non Selected Accounts** section is based on default set in **Status** and **Account Type** criteria and this criteria can be changed according to the user requirement.

5. To select all guests, click **Add All** or individually select the guest, then click **Add** to move the selection to the **Selected Accounts** pane.

6. Click **OK** to confirm the multiple accounts selection and this opens the New Routing window with the selected guest account listed on the right table.
7. On the left pane of the window, select the Financial Department, Reason and when routing will occur, then click OK to initiate the multiple account routing instructions.

8. During the assignment process, the status of the guest account will change to OK, followed by Done and the New Routing window will close automatically once the process completes.

To delete existing routing
Below are the steps remove routing set up in a guest account.

1. Search the guest account and navigate to Disc, Route, Pkg, Routing tab.

2. Select either the sub-financial department code to delete the individual assignment, or the Main Financial Department to delete all, then click Delete Routing.

3. System prompts for response confirmation to delete the assignment.

4. Press Yes to confirm or No to return to Routing screen.
1.3.2. Fidelio Discount

The Fidelio Discount function enables the users in assigning eligible discount either by percentage or value to a guest account.

To assign a Discount

1. Look up the guest account and navigate to Disc, Route, Pkg, Fidelio Discount tab.
2. Click New Discount to open the discount dialog box.

![Figure 1-36 - Fidelio Discounts window](image)

3. Insert the Percentage and the number of counts in Apply Count field if the discount is to be accorded an X number of times. For example, enter 1 to specify a onetime discount for every selected department code, or leave as blank for unlimited discount for every selected department.
4. Select the Posting Department entitled to discount, either by selecting department group or individually, i.e.: All Food/Beverage or Room Service Food only.
5. Alternatively, user may use the Discount Template by checking the check box and choose a template from the drop-down menu if they are pre-configured. See Administration module for setup procedures.
6. Check whether the discount is applicable to Actual or Future Postings, then click OK to save.

**WARNING:** Once a discount is applied to an actual posting, it cannot be reversed. If the discount has a count indicator, system will post the discount until it reaches the count indicated and No discount will be accorded to any postings thereafter.

7. System will save the assigned discounts in Fidelio Discount tab. Similarly, these are added when Future Postings is checked in Criteria Discount.
1. Financial Department codes entitled to Percentage discount
2. Financial Department codes entitled to Value discount
3. Financial Department codes and description
4. Discount value (percentage or value)
5. No of count assigned to each financial code. 0 = unlimited

8. If an Actual Posting is checked, system will post an adjustment (reverse) against the original posting and set the adjusted posting to No Print automatically, then repost the correct value with the discount indicated.

**To delete a Discount**

1. Look for the guest account, then go to Disc, Route, Pkg, Fidelio Discount tab.
2. Select the Financial code to delete, then click Delete Discount.
3. If Delete Discount is clicked without first selecting any Financial code, this will delete All assignment from the respective window.

**1.3.3. Micros Discount**

The Micros Discount tab displays discounts accorded to guest by Micros Discount Itemizer level. These discounts are shown when guest has discount level assigned in Guest Info, Edit Information, Discount Template field.
To assign POS Discount Level
1. Search for the guest account in Search Panel.
2. In Guest Info tab, click Edit Information to open the Edit Guest Information screen.
3. In the Name section, select the discount template from the drop-down menu.
4. Click OK to save.
5. The assigned POS Discount template is shown in Passport/Custom Information section.
6. To view eligible POS Discounts by Itemizer level, go to Disc, Route, Pkg, Micros Discount tab.

See also Administration, POS Discount on how to configure the Discount Itemizer.

1.3.4. Micros Advance Discount

The Micros Advance Discounts works similar to Micros Discount, except that discounts are applied to Micros Major Group, Family Group and Menu Item level instead of Itemizer Level.

See Administration, POS Discount on how to configure the Advance Micros Discount.

1.3.5. Disallow Department

The Disallow Department function manages charges not permissible from being posted to the guest account, for example; Casino Bar or all tobacco, etc.

To set Disallow Department

1. Retrieve the guest account, then navigate to Disc, Route, Pkg, Disallow Posting tab.
2. Select the **Financial Department** codes to disallow, either by **Group** or **individual department code** from the list, then click **Save**.

![Disallow Department tab](image1)

**Figure 1-43 - Disallow Department tab**

3. When a posting matches the disallowed department, system prompts that posting is **not permissible**.

![Disallow department posting failure prompt](image2)

**Figure 1-44 - Disallow department posting failure prompt**

4. Click **Yes** will exit without posting and **No** will return to the Add posting window.

### 1.3.6. Package Plan

The Package Plan function enables the end-users in customizing a cruise package that suits its guest requirements, by combining different food and beverage outlets, excursions or activities using the flexi package plan option.

**Assigning/Purchasing a Package Plan**

Assigning the right package to the guest account will enable transactions to be posted accurately throughout the cruise, and packages can be assigned within the passenger account.

1. In the Guest Handling screen, search and select the guest record using guest name or cabin number.
2. In the selected guest record, navigate to Disc, Route, Pkg tab, and then **Package Plan** tab.

3. At the bottom of the screen, select one of these options:
   - **Assign package Plan**: To assign an available package that does not have a pre-set Purchase price.
   - **Purchase Package Plan**: To purchase a package setup with the purchase price.

![Figure 1-45 - Package Plan options](image)

4. To assign/purchase, select the available Package from the drop-down list, and then enter the **Reason**.
5. Click OK to save.
6. Information’s pertaining to the package are displayed in the Package Plan tab and status is Active.

Note: Only check ‘Move all existing posting to package posting’ when you wish to move the existing postings to package plan. For example: A guest purchased the package part way through the cruise, and past postings that meet the package elements are to be considered as package plan.
Refunding a Package Plan
The unused package plan is refundable to the guest at the end of the cruise, and below are the steps to refund a Value based package, Quantity based and Mix package.

1. In the Guest Handling screen, search and select the guest record using the guest name or cabin number.
2. In the selected guest record, navigate to Disc, Route, Pkg tab, and then Package Plan tab.
3. At the bottom of the screen, select Refund Package Plan.
4. Once the package plan is refunded, system will disable the package and displays the remaining value/quantity for references only.

5. In the event where the postings are more than the package price, system will prompt that the refund is not allowed.

Routing a Package Plan posting
Routing of a package plan postings are dependable on two parameters; **Do not allow post package to both buyer and payer** and **Package Plan Before Routing**.

In the event where both payer and buyer has a package, all postings will go to the payer. Once the payer package is fully utilized, subsequent postings are posted into the payer account as normal posting.

Auto Balancing a Package Plan
An Auto Package Plan balancing may be set using parameter, **Enable Package Auto Balance as 1**, and System will auto balance the package invoice/account after each transaction and reducing the total package value or quantity at the same time.

If the above parameter is set to 0, manual balancing of the package invoice/account is required using the **Pay Invoice** function.

To manually balance a Package Invoice,
1. Log in to **Management** module, and in the menu bar, select **Cashier**.
2. Select **Guests** from the drop-down menu to open the Guest Handling screen.
3. In the Guest Handling screen, search and select the guest record using the guest name or cabin number.
4. Navigate to the **Invoice** tab, and then click the amount under the **Package Invoice**.

![Figure 1-50 - Settling a Package Plan](image)

5. Choose the **Payment method** and verify the amount to settle when prompt, and the click **Pay or Pay & Print** to pay and print the invoice at the same time.

![Figure 1-51 - Paying an invoice](image)

**Note:** This process reduces the Package Invoice balance accordingly.
1.4. **Invoice Tab**

This Posting Handling function not only provides up to 4 invoices per guest, it also enables the users in posting a manual charge to an account, route postings and handle various payment processes.

1.4.1. Add Posting

Add Posting allow users to post or manually adjust a charge.

To Add Posting

1. Retrieve the guest account from the Search Panel, then click Add Posting in the Guest Handling window.
2. On the Add Postings form, select the Financial Department from the drop-down list or use the Search option to search for a department code.

![Figure 1-53 - Add Posting Financial Department selection](image)

3. Insert the Value, Check Number and select the Invoice number to post, then click Add. This transfers the posting to the Postings List at the bottom right of the screen, enabling you to post more than one charge.

![Figure 1-54 - Adding a charge](image)

4. Item count increases automatically when the posting is more than one.
5. Click **Post** to finalize the posting(s).
6. Posting will appear in **Invoice** tab, amongst earlier posted charges.

### 1.4.2. Void Posting

The Void Posting function is used to adjust the earlier posted transactions.

**To Void a Posting**

1. Search for the guest account in **Guest Handling** screen and navigate to **Invoice** tab.
2. On the **Invoice** tab, select the transaction to void, then press the **Void** button.

3. System prompts for confirmation on the charge to void. Press **Yes** to confirm.

4. Insert the void reason or select from the drop-down menu, then press **OK**.
5. Voided postings are reflected in egg-shell color with a matching debit and credit amount.

Payment by Cash, Change Due

The Change Due function calculate the amount of change due to a guest when payment method is either cash or foreign currency. Option is available to default the "change due enabled" to be permanently checked. If this is not set as default, user must check this option to activate automatic change due calculation when applying payment.

To Pay an Invoice by Cash

1. Retrieve the guest account from the Search Panel, then click Pay Invoice located at the bottom of Guest Handling screen.
2. System defaults the payment department according to payment method defined during check in. Select Payment Department from the drop-down menu, either Cash or Foreign Currency.
3. Select an invoice to apply the payment and system will calculate the total amount due by guest.
4. Enter the amount to settle.
- If “Change due enabled” is checked and amount entered is more than Current Balance, System automatically calculate the change due amount and set the invoice to Zero balance. See Figure 1-61 - Invoice Payment with Change Due.
- If the payment applied does not have “Change due enabled” checked, System will post the amount as negative value in Due Balance, resembling a deposit posting. See Figure 1-62 - Invoice Payment without Change Due.
- If the payment is of an exact amount, System will post the value as payment receipted and there will be no Due Balance or Change Due amount. See Figure 1-63 - Invoice Payment with exact amount.

**Figure 1-61 - Invoice Payment with Change Due**

**Figure 1-62 - Invoice Payment without Change Due**
5. Press either Pay, Pay & Print or Pay & Print Cash Receipt to complete the transaction.

**Note:** If Pay is selected, be sure to print a copy of the invoice for guest reference.

**To Pay an Invoice with Foreign Currency**

1. Retrieve the guest account from the Search Panel, then click Pay Invoice located at the bottom of Guest Handling screen.

2. System defaults the payment department according to payment method defined during check in. Select Foreign Currency Payment department from the drop-down list.

3. The exchange rate of the selected payment method is displayed beside the amount field.

4. Enter the foreign currency amount and system will convert the value as shown in Received Amount.
5. Select an invoice to apply this payment and system will calculate the total amount due by guest.

   **Note:** If the exchanged amount in foreign currency is more than the invoice amount, system automatically calculate the change due amount in Ship currency when the ‘Change Due Enable’ is set as default.

6. Press either Pay, Pay & Print or Pay & Print Cash Receipt to complete the transaction.

**To Pay an Invoice by City Ledger**

City Ledger settlement is only permissible when there is a pre-arranged payment mode, for example; account is settle by a company or an agent within agreed payment terms. The invoice is typically transferred to an Account Receivable, being the holding account and will age until payment is received.

1. Retrieve the guest account from the **Search Panel**, then click **Pay Invoice** located at the bottom of **Guest Handling** screen.
2. System defaults the payment department according to payment method defined during check in. Select the **Payment department** from the drop-down list.
3. Select an invoice to settle and system will calculated the total amount due by guest.
4. Insert the amount to settle.
Figure 1-66 - Invoice payment by City Ledger

**Note:** If the exact amount is paid, system sets the value as payment receipted and Due Balance is 0.00.

5. Press **Pay** or **Pay & Print** to complete the transaction.

**Note:** If **Pay** is selected, be sure to print a copy of the invoice for guest reference.

**Disable Posting Automatically**
Deselect ‘**Disable Posting Automatically**’ from the check box to set the **Posting Allowed** to **No** in Guest Info tab when the invoice balances is 0.00.
Figure 1-67 - Disable Posting Automatically

Figure 1-68 - No Posting Allowed in Guest Info tab

System prompts below message when user tried to post a charge to this invoice and posting will be rejected.

Figure 1-69 – Disable Posting prompt

To Reset the posting status to Allowed
1. Click the Posting Status in Guest Info tab.
2. At the Enable Posting prompt, select Yes to confirm.
Figure 1-70 - Reset Posting status

3. This resets the posting allowed to Yes.

Figure 1-71 - Enable Posting prompt

Payment by Credit Card

1. Retrieve the guest account from the Search Panel, then click Pay Invoice located at the bottom of Guest Handling screen.

2. An Invoice Payment form will open, displaying the payment department defined during check in.

3. Select the Payment department from the drop-down list if it defers from earlier payment method.

Figure 1-72 - Credit Card Payment selection

4. Amount is automatically filled based on current outstanding of the selected invoice, for example: Invoice 1 balance = $30, Invoice 2 balance = $20. When all invoice is checked, the total becomes $50. Adjust the amount and select the invoice to pay if they defer.
5. The % commission shown is in accordance to the commission rate set up in Financial Department codes and is checked by default. The commission chargeable is shown in Commission field and if commission is not applicable, simply uncheck the selection.

6. Press Pay or Pay & Print to complete the transaction.

**Note:** If Pay is selected, be sure to print a copy of the invoice for guest reference.

### 1.4.4. Print Invoice

The Print Invoice function enables user in printing invoices in different layout made available by the Ship. It has a preview function which allow the user to view an invoice/statement prior to printing a hard copy invoice.

### Printing an Invoice

1. Retrieve the reservation from the Search Panel, then click Print Invoice under Guest Info tab to open the Passengers Invoices screen.
2. Select from the Report List the invoice report to print.
3. In the Print tab, select the printer, print range and copies to print.
4. Press Print to send the print job to printer.
Preview Invoice
This function enables user to preview the invoice prior to sending the job to a printer.

1. Retrieve the reservation from the **Search Panel**, then click **Print Invoice** under **Guest Info** tab to open the **Passengers Invoices** screen.
2. Select from the **Report List** the invoice report to print.
3. Navigate to the **Preview tab** to view the invoice.
4. Press the **Printer icon** if you wish to send the print job to printer.
Emailing an Invoice

In a paperless environment, copy of the invoice may be sent to the guest’s email account, only when on-board email is listed in the guest account. A special setup is required before an invoice can be pushed out by email. Such entry requires setup by your System Administrator.

To Email an Invoice

1. Retrieve the reservation from the Search Panel, then click Print Invoice under Guest Info tab to open the Passengers Invoices screen.
2. Select from the Report List the invoice report to print.
3. In the Print tab, press Send Email and you will receive below prompt once the email is successfully sent.

Figure 1-75 - Preview Invoice before printing

Figure 1-76 - Invoice successfully emailed
Exporting an Invoice

System allow export of invoices into other file format. The supported file format are: Acrobat Format, Crystal Report, MS Word, MS Excel and many more.

1. Retrieve the reservation from the **Search Panel**, then click **Print Invoice** under **Guest Info** tab to open the **Passengers Invoices** screen.
2. Select from the **Report List** the invoice report to print.
3. In the **Print tab**, press **Export**.
4. Select the file format and destination type from the drop-down list when prompt.

![Figure 1-77 - File Export Format selection](image)

5. Select the page range to print.
6. Enter the file name to save as when system prompt for file saving location.

![Figure 1-78 - File Export file destination](image)
Custom Excel Export

This function exports the invoice into a predefined Excel format.

1. Retrieve the reservation from the Search Panel, then click Print Invoice under Guest Info tab to open the Passengers Invoices screen.
2. Select from the Report List the invoice report to print.
3. In the Print tab, press Custom Excel Export.
4. Enter the file name to save as when system prompt for file saving location.
1.4.5. Move & Route

The Move and Route function enables bills to be organized at the time of credit sign up, during the cruise or at the end of the cruise when guest would like to separate certain charges from the main invoice. Charges are easily moved with the drag and drop movement and various method is available to suit the operational needs.

To Move a charge from one invoice to another
1. Select the guest account and navigate to the Invoice tab.
2. Mark the transaction to be move.
3. Press, and hold down the left button on the mouse.
4. Drag the transaction to the location by moving the mouse pointer.
5. Drop the object by releasing the left mouse button.
6. The original invoice amount will decrease and the newly created invoice amount increases.

To Setup a Charge Route
The following function allow guest to separate certain charges in another invoice throughout the cruise or route to another account. It would be more feasible to set up a routing instructions to move both current and future postings to a new invoice.

1. Select the guest account and navigate to the Invoice tab.
2. Click **Move & Route** to open a Move posting menu.

![Move Posting Menu](image)

**Figure 1-82 - Move Posting tab**

<table>
<thead>
<tr>

<td>Department Group or Financial Department code to route.</td>
</tr>
<tr>
<td>Why</td>
<td>Reason why charges were routed.</td>
</tr>
<tr>
<td>When</td>
<td>Type of postings to route.</td>
</tr>
</tbody>
</table>

3. By default the main invoice displayed is **All Invoices**. Select the invoice where the charges will be routed to.

4. If charges is routed to another guest/payer, enter the *cabin number* and select the guest name.

5. Select either the department group or financial department code to route.

6. Insert the reason why charges are routed.

7. Choose the type of posting to route, actual/future postings or actual payments.

**Note:** If **Future Postings** is checked, System will automatically place the department code in **Disc, Route, Pkg tab**, **Routing window**. See also **Disc, Route, Pkg**

1.4.6. **Criteria Discount**

The following function work the same as Percentage Discount in Disc, Route, Pkg tab and has an additional check box for **Actual Postings**. The function will create a record in discount portion in **Disc, Route, Pkg tab** when Future Posting is checked.
To accord a Criteria Discount

1. Select the account and navigate to Invoice tab.
2. Click Criteria Discounts to open a dialog box.
3. Enter the Percentage value and the number of counts in Apply Count field if the discount is to accorded an X number of times. For example, enter 1 to specify a one-time discount for every selected department code or leave as blank for unlimited discounts is given for every selected department.

![Figure 1-83 - Criteria Discounts window](image)

4. Select the Financial Department entitled to discount.
5. Check whether the discount is applicable to Actual or Future Postings, then click OK to save.

**WARNING**: Once a discount is posted to an actual posting, it can not be reverse. If the discount has a count indicator, system will post the discount until it reaches the indicated count and no further discount will be accorded thereafter.

6. System will post an adjustment (reverse) against the original posting and set the adjusted posting to No Print automatically, then repost the correct value with discount indicated.

![Figure 1-84 - Example of Criteria Discount](image)

See also Disc, Route, Pkg
1.4.7. Item Discount

The Item Discounts is a function that deduct a specific percentage of selected postings on the guest invoice.

**Note:** This is a Percentage discount and not available in value discount.

**To accord an Item Discount**

1. On the Invoice tab, mark the posting entitled to the discount, then Item Discounts button.
2. Insert the percentage value in the discount field, then click OK to proceed.

![Figure 1-85 - Item Discount](image)

3. System will post an adjustment (reverse) against the original posting and set the adjusted posting to No Print automatically, then repost the correct value with discount value indicated.

![Figure 1-86 – Example of Item discount transactions](image)

1.4.8. Hide No Print

This function works with transactions that are marked with No Prints, for example: voided transactions. The process changes the information displayed, giving the users an organized invoice view.

**To Hide NoPrints transactions**

1. Click Hide NoPrints to switch the button from Hide NoPrints to Show NoPrints.
2. Transactions marked with NoPrints (pale yellow) are then hidden from the invoice screen until user click the Show NoPrints.

**To Show NoPrints transactions**

1. Click Show NoPrints to switch the button from Show NoPrints to Hide NoPrints.
2. Transactions marked with NoPrints (pale yellow) are shown on the invoice screen.

![Figure 1-87 - Example of NoPrints transactions](image)
1.4.9. No Print

This function enables the user in hiding the voided posting or previous settlements from being printed onto the invoices. Is it only possible to set no prints for transaction entry equals to 0.00.

To Hide NoPrint transactions
1. Retrieve the account and navigate to the Invoice tab.
2. Select the desire transactions and click NoPrint.

![Postings Selection Error](image)

Figure 1-88 - No Print posting not equal to 0

Note: If the transaction balance does not equal to 0.00, system will prompt an error.

3. Transactions marked as No Print are highlighted in pale yellow.

![Example of NoPrints transactions](image)

Figure 1-89 - Example of NoPrints transactions

To reset NoPrint transactions to original state
1. Select the NoPrint transactions, then click NoPrint.
2. Transactions are revert to normal posting and no longer shown in pale yellow.

1.4.10. Set Credit Limit

The floor limit is pre-set within the Financial Credit Sub-Department code and this can be adjusted for specific guest at the jurisdiction of the Chief Purser.

To set a Credit Limit
1. In the Invoice tab, click Set Credit Limit button.
2. Insert the credit value in the dialogue box, then click OK to override the pre-set credit limit defined in Credit Sub-Department code.
3. If the account exceeds the floor limit or the individual limit, a Credit Limit Exceeded warning prompt will appear in both Fidelio and Micros system during posting and charges will not be added.
Consult your Chief Purser or Front Desk Manager or refer to the Ship’s Operating procedure for next course of action.

1.4.11. Close Posting

The Close Posting function generates an interim invoice and closes the balanced account without checking out the account. This function *does not work* when the account still has a balance.

**WARNING:** Once the account is closed, this *Can Not Be Undone.*

To close an account with Close Posting

1. Retrieve the account and navigate to Invoice tab.
2. Ensure all invoices are 0.00 balance. If account is unbalance, system will prompt *Balance not zero* message.
3. Click Close Postings button.
4. Select Yes when system prompt for a response. If No is selected, it will return to Invoice tab without closing the postings.

5. Check Hide Posting located at the bottom of the invoice tab will hide all closed postings.

1.4.12. Set Spending Limit

Set Spending Limit function limits the buyer spending value and is only enabled when an account is routed to another account, for example: Mr X paying for Mr Y and would like to limit the spending of Mr Y to $500. The Set Spending Limit is enabled in Mr. Y account and not Mr. X.

**WARNING:** Once the account is closed, this *Can Not Be Undone.*

**To set a Spending Limit**

1. Retrieve the guest account and navigate to the Invoice tab.
2. The Set Spending Limit is enabled when routing is present in the account.
3. Click Set Spending Limit to open a dialogue window.
### Table 1-10 - Options available in Set Buyer Spending Limit

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

4. Insert the spending limit in one of the available option, then click **OK to save**.
5. System updates the guest credit limit in Invoice tab with new information.

![Credit limit displayed in Guest Invoice tab](image)

#### Figure 1-94 - Credit limit displayed in Guest Invoice tab

### 1.4.13. Show Pre-Cruise Invoice

Pre-Cruise Invoice enables the user to prepare an advance invoice for the guest. Postings and payments posted in Pre-Cruise Invoice function are *not* actual revenue until they are posted to a checked in account.

#### To Create a Pre-Cruise Invoice

1. Retrieve an *Expected* guest reservation from the **Search Panel**.
2. In the **Guest Handling** screen, click **Add Posting (Pre-Cruise)** to open the Pre-Cruise Posting screen.

![Pre-Cruise Posting screen](image)

#### Figure 1-95 - Pre-Cruise Posting screen

3. Select the **Financial Department** to post, then click **Add**.
4. Insert remarks pertaining to this posting, if any.
5. In **Future Posting Date** field, select the date to post to.
6. Click **Post** to complete the pre-cruise invoice with earlier added postings in **Pre-Invoice** screen.
To Convert a Pre-Cruise Invoice into Actual Posting

1. Upon the guest check-in, System will prompt user to convert the pre-cruise postings into regular postings.

2. Select Yes to convert the postings.

3. A Show Pre-Cruise Invoice is now added to the bottom right of the screen.

4. Click the Show Pre-Cruise Invoice to toggle between guest invoice and pre-cruise invoice screen if there are future postings. When toggling, the button will change to Show Invoice or vice versa.

5. Once all the pre-cruise postings are posted, the Show Pre-Cruise is automatically disabled.

To Undo Non-Converted Pre-Cruise Posting

When checking in the guest and user accidentally click No at the prompt to convert pre-cruise postings to regular postings, these postings are stored in Quick Pre-Posting Conversion function, allowing user to repost all the pre-posting.

1. In the Cashier drop-down menu, select Quick Pre-Posting Conversion from the drop-down list.
2. A list of failed to convert posting is displayed in **Selected People** grid.
3. In the **Search Criteria** drop-down list, select the **Cruise** and then click **Process**.
4. Click **Yes** on **Quick Prepostings Conversion** prompt to post all the pre-cruise postings, and then click **OK** on number of pre-postings to post when prompt.
5. In the **Statistic** section, number of selected, process, remaining and converted posting(s) are shown.

## 1.5.1. Take Picture

The Take Picture option captures the current guest picture and shared them across other modules, enabling other users to easily recognize the guest they are dealing with. The supported picture file format are `.jpg` or `.bmp`.

### Taking Guest Picture

1. Retrieve the account and navigate to the **More Info** tab.
2. The live image of the guest is displayed in the Live Picture window.
3. Click **Take Picture** to capture the image.
1.5.2. Cruise Reservation Related Info

The Cruise Reservation Related Info section displays the cruise price paid in Reservation system, and these data are imported from DGS ResOnline. The fields are non editable except the Cruise Fare Balance, and it is dependent on User Access Rights #4461.

To Edit Cruise Fare
1. In the More Info tab, click the Edit Cruise Fare.
2. Edit the Cruise Fare Balance and then click OK to save.

1.5.3. Document Return

The Document Return section stores the date, time and user who returned the travel documents to the guest via the Document Return module.

To Cancel a Document Return
1. In the More Info tab, click Delete to reset the document status.
2. This changes the button display to ‘Return’ and status of the document as ‘Documents are not returned’.

1.6. **Service Info Tab**

The **Service Info** function in **Guest Handling** screen stores the type of service, amenities package or special requests rendered by the ship, without having to rely on large manifest for information. The packages and requests arranged through the cruise company prior to actual sail date are also included in the reservation information during the periodic import. Although these information’s are mainly updated through reservations import file, manually update are possible when needed. Besides listing these requests under individual guest records, a summary of such informations are populated in **Amenities Overview** function, allowing the responsible parties on board such as Manager, Chief Steward, Hostess/Group Coordinator an access, and ensuring requests are fulfilled.

![Figure 1-101 - Guest Handling-Service Info tab](image)

The screen is divided into two sections:

1. Section contains details of pre-planned company packages or any amenities to be accorded during the cruise.
2. Section contains all the Special Requests for passenger with special needs.

1.6.1. **Setting Up an Amenity / Special Request**

1. Retrieve the account and navigate to **Service Info** tab.
2. Click the **New** under the Amenity/Special Request section to open a dialog box, and then fill in all the required information.
Table 1-12 - Field definition of Amenity / Special Request Form

</tbody>
</table>

By default, the time grid is set to an hourly grid and this can be easily changed by right clicking on the time grid, and then select the desired time frame to display.

![Time Grid Options](image)

System will indicate the activity time in the grid according to the color defined for each type of activity per below:
1.7.1. Navigating through Activity Viewer

1. On the date field, select either the date to display using the down arrow key, or use the arrow left/right to navigate to previous or next day view.
2. Use the scrollbar to navigate to previous or future time period.
3. Clicking on the activity bar in the grid view will further display information such as passenger name of the selected cabin, activity type, activity date and time of a selected event outlet or table reservation in Activity Information section.
4. An itinerary can be printed from the same screen. See FC Administration, Report Setup.

Note: A report configuration under report group Itinerary is required prior to printing an itinerary. See FC Administration, Report Setup section for report configuration steps.

Printing an Itinerary

1. In the Date/Time filter at the bottom of the screen, enter the activity date range to print.

2. Select the type of event from the drop-down list.
3. Click Print to generate the Itinerary.

![Sample Excursion Itinerary](image)

Figure 1-107 - Sample Excursion Itinerary

1.8. Revenue Analyzer Tab

The Revenue Analyzer provides users a revenue analysis of selected guest by date, department and transaction number order. It comprises of two tabs - Department Details and Item Details. By default, information displayed on screen are imploded and only the transaction date, net total and gross total are shown. To view a detailed
information, place a check mark in **Expand All** or manually click the ‘+/-’ key to show/hide the column or click the **arrow down** on the drop-down list to further expand the information of respective column.

</tr>
</tbody>
</table>

### 1.9. **History Tab**

The History tab stores future and past reservation records, as well as the cabin change log. Other than the **Future Reservations** section where user is able to insert, edit and remove a reservation, all other information on this screen are non-editable.
1.9.1. Creating Future Reservation

1. Click New to open the Future Reservations form.
2. Enter the Cabin number and select the Expected Embarkation/Disembarkation Date.
3. Click OK to save and System will insert the record in the Future Reservation section.
1.9.2. Editing Future Reservation
   1. In the Future Reservation section, select the future reservation.
   2. Click Edit to open the Future Reservations form.
   3. Alter the information and then click OK to save the changes.

1.9.3. Removing Future Reservation
   1. In the Future Reservation section, select the future reservation.
   2. Click Remove to remove the record.

1.10. Comments Tab
The Comments tab is designed to handle multiple follow ups on feedback/complaints received pertaining to a cabin, services rendered, facilities and etc. Besides entering a comments, scanning and attaching an image file is also possible.

![Figure 1-110 - Comments Tab](image)

1.10.1 Adding a Comment/Sub-comment
   1. Click the Add Comment at the bottom left of the screen
   2. In the Comment tab, select the relevant fields using the drop-down list.
   3. Enter the Reported By, Comment description, Additional Cost and check the urgency and sensitivity, if any.
   4. Click Save to save the record, and this add a Red Cross indicator on the Comment tab.
   5. If a Comment is selected and Add Comment is clicked, this creates a sub-comment, with the Comment Category and Comment Description being defaulted to the main comment and they are not editable.
1.10.2 Attaching Image File
1. In the selected comment, navigate to the Document Image tab.
2. Click Scan Document or Upload File if uploading an image from a storage location.
3. Click Save to save the image to the database.

1.10.3 Resolving a Comment
1. Select the main comment from the left pane of the screen, then navigate to Resolution tab.
2. Enter the Resolved by (Person) and Resolution Description, and then check the Resolved check box at the bottom of the screen.
3. Click Save to save the resolution, and this places a check mark next to the comment(s).

Note: Checking the Resolved check box will sets all sub-comments as resolved.

Figure 1-111 - Comment Resolution tab

1.11. Other Info Tab
Other Info tab stores the passenger flight assignment, cabin maintenance tasks and other general information. Other functions included in this tab are board card printing, enabling/disabling phone and printing passport label.
1.11.1. Flight Assignment
Arrival/departure flight information and transfers arrangements are updated in the Flight Assignment section.

Adding arrival/departure flight details,
1. Click Add in the Other Info tab, Flight Assignment section.
2. Select the Flight direction, date, Flight Carrier from the drop-down list, and then enter the Seat No, Flight Class and Passenger's Name.
3. Click OK to save the record.

The Edit assignment will only allow you to edit the Transfer price, no of bags, bag label or Seat number.
1.11.2. **Maintenance**

The Maintenance section displays all maintenance task related to selected cabin, regardless of its completion status and these task are entered in FC Maintenance module.

1.11.3. **Guest Categories**

The Guest Categories section displays the selected information from Edit Information, Guest Categories check box. These information’s are configured in Administration, System Codes, Guest Categories codes.

1.11.4. **Guest Categories / Other Information**

The Guest Categories and Other Information section displays the selected information from Edit Information, Guest Categories check box and various fields in Name/Reservation section.

1.12. **Travel Documents Tab**

Details of the guest passport, identification or any travel documents captured through passport/ID scanning device are stored in this tab and will be purged at the end of the cruise or according to the policy defined by the Ship.

1.12.1. Adding/Editing a Travel Document

![Travel Document Add/Edit screen](image)

**Figure 1-116 - Travel Document Add/Edit screen**

1. In the Travel Documents tab, click **Add New** to open the Document Add/Edit form.
2. Fill in all relevant information using the drop-down list or manually enter them.
3. Click **Upload File** to upload the picture or scanned document.
4. Click **OK** to save the travel document.
5. To edit, click the **Edit**, update the relevant information, and then click **OK** to save.

1.13. Custom Info Tab

The Custom Info tab is a user definable field that allow user to customize the field according to their operational requirements. The field names are defined in FC Administration, Administration, User Definable Field Setup.
The Guest History tab records the historical reservation data, amount spent, amenity and special requests from various ships the guest has been on-board, and these data are transferred from Shoreside FMS database via the Reservation Online interface. The Guest History screen is comprises of two main tab - Booking and Raw XML.

The Booking tab is further sectionalized into 5 different views and they are: Transactions, Item Details, Shore Excursion, Amenity, Special Request and Comments.
1.14.1. Transactions Tab

The first tab within the Booking tab is Transactions. In this tab, past transactions from previous cruises sorted by Department class, Department code, Department Group, Post date and Sum of amount are shown.

Pressing the +/- key or the arrow down key will explode or implode the details under each section, enabling information in each respective columns to be further drilled down.
1.14.2. Items Details

The Item Details tab lists all the POS Postings in details.

![Guest History Details tab](image1.png)

1.14.3. Shore Excursion

The Shore Excursion tab displays past excursions participated by the guest.

![Guest History Shore Excursion tab](image2.png)

1.14.4. Amenity

The Amenity tab displays past chargeable amenities requests from previous cruises.

![Guest History Amenity tab](image3.png)

1.14.5. Special Request

Special Request tab displays the request history during each stay whilst on-board.

![Guest History Special Request tab](image4.png)
1.14.6. Comments

The Comment tab displays past comments inserted on previous cruise.

![Figure 1-124 - Guest History Comments tab](image)

1.14.7. Raw XML

The Raw XML tab shows the actual passenger history in XML format that were sent from Reservation Online to the ship database.

![Figure 1-125 - Guest History Raw XML tab](image)

1.15. Loyalty/TrackIt Tab

Loyalty/TrackIt tab provides user a quick overview on the loyalty program the passenger is attach to, and items that were confiscated or returned during embarkation/disembarkation, and the confiscated items are managed in TrackIt module.
1.15.1. **Loyalty Assignment**

Passenger may sign up a loyalty program through the course of the voyage and information such as loyalty card number, points balance, personal details are stored in this tab.

![Loyalty Program form](image)

*Figure 1-126 - Loyalty Program form*
Adding/Editing a Loyalty Program
1. In the Loyalty/TrackIt tab, click Add to open the Edit Loyalty program form.
2. Fill in all relevant information’s using the drop-down list or manually enter them.
3. To edit existing information, select the line item and then click Edit and then update the information.
4. Click Save to save the information.

1.15.2. Confiscated Item
Movement and storage location of the confiscated items are displayed in the following section and records are updated:
- When a confiscated item is returned or checked-out temporarily to the passenger, system removes the record from Confiscated Item section.
- When a confiscated item is checked-in by the passenger, then the system inserts a record in the Confiscated Item section.

Figure 1-127 - Confiscated item storage location shown in Guest Handling

1.16. Renew Reservation Function
Instead of making a new reservation for passengers that has checked-out, a reservation can be renewed using the guest historical data.

1. Navigate to the Check Out tab in Search Panel.
2. By default, the date is set to System Date. Change the date to the passenger checked-out date.
3. Enter the passenger’s Last Name or use the alphabets tab to search for the last name by alphabet. Selecting ALL tab will list all passengers departed on the date specified.
4. Click the Re-New Reservation located at the bottom of the Guest Handling screen.
5. At the New Guest Reservation prompt, select Yes to renew the reservation.
6. Click **Edit Information** to change the expected arrival date, if required.

### 1.17. Express Reservation Function

The Express Reservation function within Guest Handling enables users in creating a quick reservation using a simplified Reservation Form. Refer **New Reservation Function** for further information of the field descriptions.

![Express Reservation form](image)

**Figure 1-128 - Express Reservation form**

#### Creating an Express Reservation

1. Click the **New Reservation** locate at the bottom of the Guest Handling screen to open the Express reservation form.
2. Enter all relevant information's into the form and update the embarkation / debarkation date.

**Note:** The Embarkation Date on the form is set to current System Date by default.
3. Click OK to save the reservation.

1.18. Get Credit Cards Function
Get Credit Cards enables users in updating the passenger credit card details by swiping the card through the magnetic card reader.

1.18.1. Updating Credit Card Details
1. In the Search Panel, search for the passenger record, then click the Get Credit Card locate at the bottom of the Guest Handling screen to open the blank Credit Card Entry form.

![Credit Card Entry Form](image1)

Figure 1-129 - Credit Card Entry form

2. At the blank Credit Card Entry form, swipe the credit card through the magnetic card reader, and System will auto populate the credit card details on screen.

![Credit Card Entry Form](image2)

Figure 1-130 - Setting Credit Card Spending Limit

3. Select the Set Spending Limit to enter the credit limit of the card.

Manual Update of Credit Card Details
1. At the blank Credit Card Entry form, click Manual.
2. Manually enter the card information – credit card number, expiry date and card holder’s name, then click OK to save.
3. Click Yes at the CC-Check prompt to update the credit card details onto the guest account.

4. Stored credit card details are viewable in Credit Card tab.
1.18.2. Capturing Signature

If a Signature Capture device is installed, a sample of the guest signature will be stored in the Credit Card tab.

Storing Sample Signature

1. Repeat steps 1 – 3 of the above.
2. Sign on the column provided in the Signature Device, press Confirm and then Capture Signature to save the signature against the passenger credit card record.

3. Stored credit card details and signature are viewable from Credit Card tab.
1.18.3. Registering Multiple Credit Card

Multiple card type may be stored for ease of settlement and is particularly useful when guests decide to settle part of their invoices at the end of the voyage.

1. Repeat steps 1 – 3 of Updating Credit Card Details.
2. System will prompt for confirmation that there are more than one card being registered. Select Yes at the CC-Check prompt.

Activating Credit Card for a Particular Invoice

1. At the Credit Card tab, select the card to activate, and then click Activate Card.

2. Select the invoice at the Activate Credit Card prompt and click Activate to activate the card.
3. The chosen invoice is shown under Invoice column and the card is set as Active.
1.19. Check In Function

Passengers joining the cruise are required checked-in to the System prior to boarding, and these reservations are categorized under Expected tab.

1. Retrieve the reservation from the Search Panel, Expected tab and then click Check In located at the bottom of the screen.
2. At the Check In prompt, select Yes to check in the reservation and print keycard at the same time.

1.20. Check Out Function

At the end of the voyage, all guest account must be checked-out from the System. This is to ensure all accounts are in balance before performing a System Cruise Change.

1. Retrieve the reservation from the Search Panel, Check In tab and then click Check Out located at the bottom of the screen.
2. At the Check Out prompt, select Yes to check out the reservation.

![Check Out prompt]

Figure 1-138 - Check Out prompt

3. If the account is unbalance, System will prompt for invoice to be settled before proceeding. Click OK to return to the guest account.

![Unbalanced Invoice]

Refer Pay Invoice section for steps to settle an account.

1.21. Print Boardcard Function

The Print Board Card function enables user to print a copy of guest board card if they are not printed earlier, and these cards is printable from the Guest Handling screen.

1. Retrieve the reservation from the Search Panel and then click the Print Board Card located at the bottom of the screen.
2. At the Print Board Cards prompt, select Yes and System will save the board card number under Guest Info tab.

![Print Board Cards]

Figure 1-139 - Print Board card prompt
3. In the **Print Board Card Reason** prompt, select the reason from the drop-down list, and then press **OK**.

4. Status of the printed card is reflected in the Batch Board Card Printing screen. If the card status is **Failed**, click **Reprint All failed print job** to reprint.

**Note:** The process increases the Board Card number shown in Guest Info tab, and last digit of the board card denotes the number of times the board card were re-printed. The first printed card always end with 0.

**Figure 1-140 - Boardcard number in Guest Info tab.**

**Figure 1-141 - Batch Board Card Printing**

**Note:** Check the Interface or Printer connectivity if the board card failed to print.
1.21.1. Printing New Board Card

During a cabin move or when guest extend their stay, a recode of board card is required and such card is printable from Guest Handling, Other Info tab.

1. Retrieve the passenger reservation from Search Panel and then navigate to Other Info tab.
2. Click the New Board Card and select Yes at the Recreate Cards prompt.

![Recreate Cards](image)

3. At the Print Board Card Reason prompt, select the reason from the drop-down list, then press OK to confirm.

1.21.2. Resetting a Board Card

For lost cards, a change of lock combination for the cabin is necessary, and this process will re-assign a new board card number to all occupants of the same cabin.

1. Retrieve the passenger reservation from Search Panel and then navigate to Other Info tab.
2. Click the Reset Board Card and select Yes at the Recreate Cards prompt.

![Recreate Cards](image)

3. At the Print Board Card Reason prompt, select the reason from the drop-down list, then click OK to confirm.
4. At the Batch Board Card Printing prompt, click Close if the card is printed successfully. Otherwise, repeat the above process.

Note: This process will invalidate all previously issued cards.
1.22. Change Cabin Function

During the course of stay, the cabin may become unavailable due to defect, guest may decide to move to a bigger cabin or prefer to have cabin closer to their family/friends. Such occasion requires a cabin change, and depending on the policy and procedures set forth by the Ship, a cabin change may be chargeable.

A cabin change can be perform from different avenues, either using the Cabin Change function, Edit Information or Edit Express Reservation function. Further setup is required if a fee is applicable for cabin upgrade and these are setup in Administration, Financial Setup, Stateroom Upgrade Prices module.

1.22.1. Changing a Cabin with Cabin Change function

When a cabin change is chargeable, it is best to perform the task using Cabin Change option in Guest Handling function. Setup such as Financial Department, General Change Reason and Database Parameter must be in place in order for the charge to be posted. Refer FC Administration, Stateroom Upgrade Setup for more details.

1.  Look up the guest account in Search Panel, then click the Change Cabin at the bottom of the Guest Handling screen.
2.  System will prompt a pre-configured Cabin Upgrade Price Calculation table.

3.  Click the ‘?’ beside New Cabin field to search for a new cabin.
4.  In the Cabin Availability screen, select date from/to, Deck, Category from the drop-down list in the Search Criteria section, and then click Refresh to update the availability grid.

![Figure 1-143 - Cabin Change function](image-url)
5. Select the desire cabin by highlighting the cabin number, and then click **OK** to confirm.

Figure 1-145 - Cabin Change price calculation
6. In the **Reasons for Change** prompt, enter the reason of the change in the free text field.

7. Click **Yes** at the Cabin Change prompt to confirm and this will then post a charge to the guest account.

---

**Note:** System automatically calculates the upgrade price based on the selected category, and in this instance, the guest is moving from Cat.01 to Cat.03 and chargeable price is at $100, a total comprises of Cat.02+Cat.03.

---

6. In the **Reasons for Change** prompt, enter the reason of the change in the free text field.

7. Click **Yes** at the Cabin Change prompt to confirm and this will then post a charge to the guest account.

![Figure 1-146 – Cabin Upgrade charge posted to guest account](image)

1.22.2. **Changing an Assigned Cabin**

When the assigned cabin for the guest becomes unavailable at the point of check-in, user is required to re-assign another cabin for the guest. In such instances, the cabin change are done by editing the reservation.

1. Look up the guest account in **Search Panel**, then click the **Edit Information** in Guest Info tab.

2. Under Edit Guest Information form, Travel Information section, click the ‘?’ beside the Cabin field.

3. In the Cabin Availability screen, select **date from/to, Deck, Category** from the drop-down list in the **Search Criteria** section, and then click **Refresh** to update the availability grid.

4. Select the desire cabin by highlighting the cabin number, and then click **OK** to confirm.

5. In the **Reasons for Change** prompt, select the reason of the change from the drop-down list, then click **OK** to save the changes.

6. Click **OK** on the Edit Information form to save the cabin reassignment.
1.22.3. Assigning a Cabin in Edit Express Information
At the point of creating a reservation using Express Reservation, a cabin number may be assigned to the guest and the process is identical to changing a cabin with Edit Information.

1.23. Messages Function
There may be occasions that guests are to be notified pertaining to their reservations, tour arrangements or inquiries by means of leaving a message in their cabin. These messages are not only presented in hard copy, it can also prompt on screen at the Gangway, Internal Gate or Immigration Gate when scanning the guest board card.

</tbody>
</table>

1.23.1. Creating / Editing a Message

1. Look up the guest account in **Search Panel**, then click **Message** located at the bottom of Guest Handling screen.

2. On the Message form, click **New Message** to create a new message or **Edit Message** to edit an existing message.

3. Enter the **Sender's name** and **message content** in the respective area.
4. Select the Delivery and Acknowledgement Mode from the drop-down list, then click OK to save.
5. New Messages entered will set the message light to On automatically and this setting is controlled by Parameter, General, Message Light On.
6. To edit a message, click Edit Message, then edit the content and click OK to save the changes.
7. System will place a check mark in the Message tab as an indicator for undelivered messages.

**1.23.2. Delivering/Undo Delivery of a Message**

1. Look up the guest account in Search Panel, then click Message located at the bottom of Guest Handling tab.
2. On the Message form, select the message to deliver, then click Delivered to confirm delivery and System will insert the delivered by, date/time.
3. To reset the message delivery to undelivered, click Delivered and select Yes at the message prompt.

1.23.3. Deleting a Message

1. Search the guest account in Search Panel, then click Message located at the bottom of Guest Handling tab.
2. On the Message form, select the message to delete, then click Delete Message.
3. At the Delete Message prompt, select Yes to confirm deletion of the Message or No to return to earlier screen.

Note: Once a message is deleted, it can not be undone.

1.23.4. Printing a Message

1. On the Message form, select the message and then click Print.
2. The indicator in Printed column will then switch to Yes, and the date the message were printed in shown in the Message Grid.

1.2.3.5. Turning Message Light On/Off

Message light is automatically turned on as an indicator to the guest that there are messages for them. If the message function is used as internal messaging, it is best not to set the message light on when creating a message and this is managed in Parameter, General, Message Light On.

1. On the Message form, select the message and then click the Light On/Off.
2. If the message light is:
   - **On**: The light bulb is illuminated and clicking Light Off will turn off the light.
   - **Off**: The light bulb is dimmed and clicking Light On will illuminate the light.
3. Clicking **Light On/Off** triggers the indicator for all messages in the Message grid.

### 1.24. Express Edit Information Function

Express Edit Information function enables users to edit the basic Reservation information’s as display in Express Reservation function.

1. In the **Search Panel**, search for the guest account, then click the **Express Edit Information** located at the bottom of the Guest Handling screen.
2. Update the relevant information on the **Express Reservation** form and then click **OK** to save the changes. Refer **New Reservation Function** for further information of the field descriptions.
2. System Accounts

System Accounts is a repository account mainly used for postings that do not impact any of the passenger’s account, for example Cash postings from an outlet, Ad-hoc purchases, Crew signing privilege or as an adjustment account. These accounts do not have a check-in/out date, and can be easily set to ‘Inactive’ when not in use.

Figure 2-1 - System Account

In the System Account Main screen, accounts are filtered by All, Active Accounts or Inactive Accounts, sortable by Account/Name or Voyage.

Figure 2-2 - System Account filters

2.1. Creating a System Account

1. Launch the Management module, and then select Cashier, then System Accounts from the drop-down menu.
2. In the System Account screen, select Insert New.
3. Enter the information for the account and then click OK to save. The account will appear as ‘Active’ in account list.
Table 2-1 - Field definition of System Account Entry form

</tr>
<tr>
<td>GL Account</td>
<td>Link the transactions to designated GL account. Require Parameter: General, Enable System Account GL Setting.</td>
</tr>
</tbody>
</table>

2.2. Changing Information of System Account

Information of the System Account may be changed by selecting the account from the Account list, then click Change at the bottom of the screen, and then click OK to save.
2.3. Deleting a System Account
To delete the account, select the account and then click Delete located at the bottom of the screen.

Note: An account can only be deleted when there are no postings linked to the account.

2.4. Posting a Charge to System Account
Posting a charge to System Account is similar to Add Posting in Guest Handling. Refer to Invoice Tab section on how to Add, Void, Move and Route posting, Pay and Print an invoice, and other posting related function.

2.5. Enabling Posting to Next Cruise
Postings to System Account may be posted into future cruise by checking the ‘Post to Next Cruise on embarkation date’ in the System Account Entry form.

1. Retrieve the guest account from the Search Panel, then click Add Posting in the Guest Handling window.
2. On the Add Postings form, select the Financial Department from the drop-down list or use the Search option to search for a department code.

3. Insert the Value, Check Number and select the Invoice number to post, then click Add. This transfers the posting to the Postings List at the bottom right of the screen, enabling you to post more than one charge.
4. Item count increases automatically when the posting is more than one.

5. Click **Post** to finalize the posting.

6. At the Make Posting warning prompt, select **OK** to proceed posting the next cruise.

---

**Note:** Posting will *not* appear in Invoice tab until System Cruise Change is performed.
2.6. Applying Payment to Next Cruise Posting

When applying a payment to future cruise, the account must have ‘Post to Next Cruise on embarkation date’ checked, otherwise payment will be posted to Current Cruise.

1. In System Account Invoice tab, select Pay Invoice.
2. In Invoice Payment screen, the ‘Enable System Account to post to future cruise on Embarkation date after full payment’ is checked.

![Invoice Payment Screen]

Figure 2-8 - Payment to Next Cruise

3. Click the Pay or Pay & Print to post the payment.
4. Under the Make Payment warning prompt, select OK to post payment into the next cruise.

![Make Payment Warning]

Figure 2-9 - Payment to future cruise prompt

Note: If the ‘Post to Next Cruise on embarkation date’ is not checked in the System Account Entry form, System will post the payment into current cruise by default, and this may cause an imbalance.
2.7. **Discount & Routing Tab**  
The Discount & Routing tab in System Account function is similar to Discount handling in Guest Handling. See *Disc, Route, Pkg Tab* for more information.

2.8. **Registering a Credit Card**  
The Credit Card registration process in System Account is the same as in Guest Handling, Get Card Function. See *Get Credit Cards Function* for more information.

2.9. **Setting an Inactive Account**  
An account can be easily enabled/disabled by un-checking the ‘Posting Allowed’ in the System Account Entry form. An **Inactive Account** carries a **Red Cross** symbol in the ‘Posting Allowed’ column in the System Account number grid.
3. Groups

Passengers travelling in a group may be defined by assigning a group ID and group leader. Apart from travelling together, these groups usually have a preset itinerary, other special arrangements and a group billing account. These arrangements are setup/ access via Management, Cashier, Groups drop-down menu.

3.1. Group Info Tab

Information’s pertaining to the group are entered through the Group Info tab.

3.1.1. Creating New Group Account

A group account containing a group ID, billing address, travel information and payment type is created prior to adding its group members.
1. Navigate to **Group Info** tab in the Group Handling screen.
2. Under the Group Info tab, click **New Reservation**.
3. In the Account Identifier section, enter the Group name, Group ID, group type and then select the **Group Leader**.
4. Enter all relevant information in **Address**, **Billing Address** and **Travel Agency**.
5. In the **Travel Information** section, select the Embarkation/Disembarkation Date and Port from the drop-down list, then click OK to save.

### 3.1.2. Editing a Group Account

1. From the **Search Panel**, select the **Group Account** and then click the **Edit Reservation**.
2. Click OK to save the changes.

### 3.1.3. Cancelling a Group Account

1. From the **Search Panel**, select the **Group Account** and then click the **Cancel Reservation**.
2. At the Cancel Reservation prompt, click **OK** to confirm.

![Cancel Reservation](image)

**Note:** Once a group account is cancelled, information will not be displayed nor searchable.

### 3.2. Discounts & Routing Tab

Special billing arrangements for the group such as Routing, Discounts and Disallow Department are set up in the Discount & Routing tab.

#### 3.2.1. Setting Up Group Routing

A routing may be set for the entire group members, or individually select from the group members list.

![Figure 3-3 Discounts & Routing](image)

1. Navigate to the **Routing** tab with Discounts & Routing, and click **New Routing**.
2. In the Routing window, select the **Invoice** to route and check ‘**All Group Members**’ to route all members, or click **Advanced** to select an individual.
3. Select the department code to route and when to route the postings by checking the box beside the code.
4. Click OK to save the routing.

3.2.2. Setting Up Discounts
Discount set up in group account is identical to according a guest discount. See Disc, Route, Pkg Tab, Fidelio Discount and Micros Discount for more details.

3.2.3. Setting Up Disallow Department
Disallow Department set up in group account is identical to guest disallowed department. See Disc, Route, Pkg Tab, Disallow Department for more details.

3.3. Group Invoice Tab
Unlike the Guest Invoice, the Group Invoice tab has two tabs – Invoice and Closed Posting, and all Closed Postings are displayed in a tab.
Functions within Invoice tab works exactly the same as **Guest Invoice**. See **Invoice Tab** for more details.

![Group Invoice tab](image)

**Figure 3-5 - Group Invoice tab**

3.4. **Itinerary Planner Tab**

The Itinerary Planner tab displays the Excursion, Dining arrangements or any activities available to the Group. These activities are configured in **Administration Module, Itinerary Setup**.
Figure 3-6 - Itinerary Planner Tab

Viewing an Available Itinerary
1. Navigate to the Itinerary Planner tab.
2. In the Filter section, select from the Assignment and Event Type drop-down list the information to display.
3. Information are shown by date and hourly grid.

3.5. Group Credit Card

Registering a Credit Card in Group Account is the same as Guest Handling, Get Card Function. See Get Credit Cards Function for more information.

3.6. Group Members Tab

The members tab lists all the passengers that are linked to the Group ID, and member’s details are editable from this screen.
Figure 3-7 - Group Members tab

Table 3-1 - Field definition of Group Member tab

<table>

</tr>
</tbody>
</table>

1. Select the member name from the grid and then click Edit Information.
2. Edit all the relevant information in the Edit Information screen, and then click OK to save and return to the group members’ grid.

3.6.1. Adding Reservation To Group Account

Reservations may be added to/remove from Group Account using ‘Add to Group’ and ‘Remove from Group’ function. Refer Add to Group and Remove from Group for more details.

3.6.2. Assigning a Group Member as Group Leader

Member of the group may be assigned as a Group Leader, and System permits more than one Group Leader.

To assign the passenger as group leader, check the box under ‘Group Leader’ column in Group Member tab, or click Edit Information and select Group Leader in Other Parameter section.
3.7. **Custom Info, More Group Info, Revenue Analyzer Tab**

Refer to Custom Info Tab, More Guest Info Tab and Revenue Analyzer Tab for handling of these tabs.

3.8. **Checking In Group Account**

A group account must be checked-in in order to route group members' charges to the group account.

1. From the Expected tab of the Search Panel, search for the group account.
2. Select the account and click **Check In** located at the bottom of the screen.
3. Select **Yes** at the Check-In Group prompt, and then click **OK** at the confirmation prompt.

3.9. **Checking Out Group Account**

A group account can only be check out when the invoice is balanced.

1. Retrieve the group account from the Search Panel, Check Out tab and then click **Check Out** located at the bottom of the screen.
2. At the Check Out prompt, select **Yes** to check out the account.
3. If the account is unbalance, System will prompt for invoice to be settled before proceeding. Click **OK** to return to the guest account.
Refer *Pay Invoice* section for steps to settle an account.
4. Visitors

The Visitor function allows the Security Officer and Gangway staff to enter visitors information, produce visitor passes and track whether the visitor is onboard or shore side. This function is accessible in Management module, Cashier, Visitor drop-down menu.

![Visitor Setup screen](image)

**Figure 4-1 - Visitor Setup screen**

### 4.1. Adding New Visitor

1. Launch the function from Cashier, Visitor drop-down menu.
2. At the bottom of Visitor Setup screen, click **New** to open the New Visitor Details form.
3. Enter the Visitor’s name, passport ID and select the Nationality, Valid-From-To date, birthdate and Visitor Category from the drop-down list.

4. Click OK to save the information.

4.2. Editing Visitor Information

1. Select the Visitor using the selection filters on the top right of the Visitor Setup screen.
2. At the bottom of the screen, click Edit to open the Visitor Details form.
3. Edit the relevant information and then click OK to save.

4.3. Enabling/Disabling a Visitor

As Visitor account does not have a cabin assigned or required to be check in/check out, the account is managed by setting the status as Active/Inactive in Enable / Disable function.

1. Select the visitor name from the Visitor Account grid and click either Enable or Disable.
2. At the Disable Visitor prompt, click Yes to proceed.
3. In the Visitor name grid, Inactive column, status of the visitor changes to Yes/No, depending on the selected option.
4.4. **Changing Status to Onboard/Ashore**
When a Visitor goes onboard/ashore, Security Officer is required to set the visitor status as Onboard/Ashore to ensure all visitors movement is registered and accounted for.

1. Search the visitor name from the Visitor Setup screen.
2. Double click on the visitor name and select *Yes* at Change Status prompt.

4.5. **Scanning Travel Document**
Visitors going on-board is not only required to be registered, their travel document will also be scanned and stored in the System. See *Travel Documents Tab* for steps to scan travel documents.

4.6. **Adding Future Visit**
Future visits may added to visitors who will be revisiting the Ship in the near future.

1. Search the visitor name from the Visitor Setup screen, and then navigate to *Future Visits* tab.
2. Click *New* at the bottom of the screen, and then enter the future embarkation/debarkation date in the Future Reservations window.
3. Click **OK** to save the reservations.
4. The saved dates will appear in the Future Visits tab grid.
5. Gift Card

The Gift Card function allows the Cruise Operator to extend a pre-paid credit to its passengers in the form of Gift Card. The Gift Cards may be offered to passengers as consumer incentives, through promotional programs, or integrated into a reward point program to increase sales volumes. Refer to Gift Card Handling for detail configuration and usage.
6. Quick Billing

The Quick Billing function is designed to expedite check out process during disembarkation, and enable invoices to be printed in batches using the available criteria. This function is accessible from File Menu, Cashier, Guest Quick Billing.

6.1. Guest Quick Billing

6.1.1. Quick Bill Printing

The Selection Criteria tab in Guest Quick Billing function will determine the type of invoices to print/pay based on the criteria chosen for all disembarking passengers, e.g.: passenger paying by credit card or only guest with X outstanding amount.

1. From the Cashier file menu, select Guest Quick Billing function.
2. In the Guest Quick Balance window, select an invoice type, Embarkation Date, Disembarkation Date, Payment Type, Folio Balance (if applicable), Deck and Section.
3. In the Printer section, select an invoice printer, enter the number of copies to print and select print orientation, and then click Print.
4. At the Quick Printing prompt, select Yes to continue.

6.1.2. Quick Bill Balance

Other than printing invoices by batch, balancing of the passenger account is possible if there is a credit card on file.

1. Repeat step 1 to 3 of the above.
2. In the Disable accounts field, select the appropriate Posting status from the drop-down list.
3. Navigate to the Selected tab to verify the results, and adjust the selection until desire result is achieved.
4. To exclude a passenger from the search result, right click on the name and then click Remove.

Note: When a passenger is removed from the grid, the statistic count will update accordingly.
5. At the Confirmation prompt, click **Yes** to confirm and then click **Balance** at the bottom of the screen.

6. Select **Yes** at the Quick Balance prompt, then click **OK** at the Quick Balance Info prompt.

7. In the Quick Balance Info warning prompt, read the warning, then click **OK** to proceed.

8. The total value charged and number of account processed are shown in the Statistic section once the accounts is successfully balanced.

9. Next, click the **Close Postings** at the bottom right of the screen to disallow postings on these accounts.

### 6.1.3. Quick Bill eMail

Passenger or crew that has on-board email account may opt to receive copy of their invoices via Email, and this function is Parameter controlled. Please consult your IT Department for setup if this is not pre-configured.

1. Repeat step 1 to 4 of Quick Bill Balance.
2. Navigate to the **Selected tab** and then click **Send eMail**, located at the bottom right of the screen.

**Note:** If no printer is assigned, the **Send eMail** will be disabled.

3. Without balancing the invoice, click **Send eMail**.
4. At the Quick Printing prompt, click **Yes** to proceed. An ‘e-Mail sent’ will be added to the **Auth** column when invoice is successfully sent.

![Figure 6-5 - Invoice successfully emailed indicator](image)

### 6.1.4. Quick Bill Balance with Commission

The Quick Bill Balance with Commission enables credit card commission to be charged at the point of balancing the passenger account. By default, the **Charge Commission** is checked in the **Criteria Selection tab** and System will calculate the commission value based on the pre-defined commission linked to the Financial Department – Credit.

1. Repeat step 1 to 4 of the Quick Bill Balance.

**Note:** To exclude a commission charge for certain payment type, filter using the Payment type and un-check the Charge Commission check box.

2. Navigate to the **Selected tab** to verify the results, and adjust the selection until desire result is achieved. The chargeable commission is shown in the commission column.
3. To exclude a passenger from the search result, right click on the name and then click **Remove**.
4. Click **Balance** at the bottom of the screen to proceed.
5. On the follow on prompt, click **OK** and note each prompt messages before proceeding to the next.
6. In the Statistic section, the total value charged and number of account processed will be updated.
7. Next, click **Close Postings** to disallow further postings for these accounts.
6.2 Residents Quick Billing

The Residents Quick Billing function is the exact same function as Guest Quick Billing, with the exception that it only filters the Residents accounts instead of passengers. These accounts must have a check mark in the "Residents" field in Edit Information, Other Parameter Resident.

6.3 System Accounts Quick Billing

System Accounts Quick Billing is a process that only balances the System Accounts and has lesser criteria to choose from than Guest Quick Billing.

![System Account Quick Billing Diagram]

Figure 6-6 - System Account Quick Billing

1. From the Cashier file menu, select System Account Quick Billing from the drop-down list.
2. In the Invoices section, select the Invoice format, then navigate to Criteria tab and select the Balancing End Date, Payment Type, Folio Balance, if any.

   **Note:** If Enable System Account to post to future cruise on embarkation date after full payment is checked, all postings posted after the invoice is fully paid will be recorded in the next cruise.
3. In the Printer selection, select an invoice printer, enter the number of copies to print and select print orientation, and then click **Print**.

4. Repeat step 3 – 9 of Quick Bill Balance.

### 6.4 Group Quick Billing

The Group Quick Billing function similarly to Guest Quick Billing, and it only filter the Group Account, excluding all its group members.

![Figure 6-7 - Group Quick Billing screen](image)

Repeat steps 1 to 9 of Quick Bill Balance.
7. Quick Postings

Quick Postings function allows user to perform posting by batch to single account or multiple accounts.

7.1. Quick Posting

This section describes the steps to perform a quick posting to Guest, Crew, Group and System Accounts. This function is extremely useful when user is required to post a large quantity of guest check at a time, for example Laundry or Telephone.

7.1.1. Quick Posting to Single Account

![Quick Posting Screen]

Figure 7-1 - Quick Posting screen

1. From the Cashier File Menu, select **Quick Posting** from the drop-down list.
2. Select the **Account** using the drop-down list, then navigate to **Department** and select the department code and then enter the value to post.
3. In the Additional Information section, insert the **check number**, **Server#1**, if any, and then choose the invoice number to post to. System default Invoice is 1.
4. Click **Add** to add the account to the Posting List grid. Repeat the above step until all checks are added to the Posting List.
5. Note and tally current count and Current Totals with physical guest checks.
6. Click **Post** to confirm posting.
7.1.2. **Quick Posting to Multiple Account**

Quick Posting to Multiple Account allows user to post transaction to many Guests, Crews, Group and System Account.

1. From the **Cashier Menu**, select **Quick Posting** from the drop-down list.
2. Under the Account field, click **Advanced**.

![Multiple Accounts Selection](image)

**Figure 7-2 - Quick Posting Multiple Account Selection**

3. In the **Multiple Accounts Selection** window, select the **Status** and **Account Type** from the drop-down list.
4. Select the account name from the **Non Selected Accounts** pane, and then click **Add** to add the account singly or **Add All** to add all account listed or use the **Criteria Add**.  
   *See next section to select accounts using Criteria Add.*
5. Account selected are shown in the **Selected Account**.
6. Click **OK** to return to Quick Posting window.
7. Navigate to the Department field and select the department code and then enter the value to post.
8. In the Additional Information section, insert the Check number, Server#1, if any, and then choose the invoice number to post to. System default Invoice is 1.
9. Click Add to add the account to the Posting List grid.

### 7.1.3. Selecting Account Using Criteria Option

The criteria options is made available to further filter the accounts based on the criteria entered, for example by embarkation/disembarkation date, cabin category, VIP status, nationality and etc.

1. At the Multiple Accounts Selection Window, click Criteria Add.
2. Select the options from the drop-down list in the General tab, then navigate to Guest tab.
3. In the Guest tab, select from the available options using the drop-down menu and continue to select from the remaining tabs if required, and then click OK to return to the Multiple Account Selection window.

Note: Tabs in Accounts Criteria Selection may vary depending on the Guest Type chosen in the Multiple Account Selection window.

7.2. Quick Posting Status

Quick Posting Status allows user to Enable/Disable the account posting status by batch.
1. From the Cashier File menu, select Quick Posting Status from the drop-down menu.
2. In the **Enable/Disable Posting by Selection** window, select the account from the drop-down list or click **Advanced** to multiple accounts.
3. Insert a reason in the **Reason** field.
4. Check ‘**Allow manual postings**’ if manual posting is allowed in Disabled accounts.
5. Select one of the option - Enable or Disable the account.

### 7.3. Quick Discount

Quick Discount allows user to set up discounts for multiple passenger’s accounts using the available selection criteria – by percentage or value. See **Invoice Tab, Item Discount** for discount assignment to individual passengers.
7.3.1. Quick Discount to Multiple Guest by Percentage/Value

1. From the Cashier File Menu, select Quick Discount from the drop-down list.
2. Repeat step 2 to 5 of Quick Posting to Multiple Account, then click OK to return to Discounts window.

![Discounts window](image)

Figure 7-7 - Quick Discount to Multiple Account

3. In the Discounts window How much section, enter the percentage value, number of applicable discounts and reason. To apply a Value discount, uncheck the check mark next to Percentage.
4. In the What section, select the department group or code the discount is applicable to, then click OK to confirm.

7.4. Quick Check-Out

Quick Check-Out allows user to check-out passenger’s by Deck and selected Check Out Date.
1. From the Cashier File Menu, select Quick Check Out from the drop-down list.
2. Select the Deck and Check Out date from the drop down list and then click Refresh.
3. In the Selected Guest section, cabin number and name of passengers due to check out will appear, and the total selected account is shown in the Statistic section.
4. Click Process and select Yes at the confirmation prompt to proceed.
5. System will update the number of record processed and its status in Statistic section.
6. Click Close to return to the Main Screen.

7.5. Quick Service Charge Posting

The Quick Service Charge Posting is a function that post service charges in bulk or individually based on the criteria set in Quick Edit tab.
7.5.1. Posting a Service Charge by Batch

1. From the Cashier File Menu, select Quick Service Charge Posting from the drop-down list and navigate to Quick Edit tab.
2. In the Guest Selection section, click Advanced to open the Multiple Account Selection window.
3. In the Multiple Accounts Selection window, select the Status and Account Type from the drop-down list.
4. Select the account name from the Non Selected Accounts pane, and then click Add to add the account singly or Add All> to add all account listed or use the Criteria Add>.
5. Accounts selected are shown in the Selected Account.
6. Select ‘Post the following amount daily’, and check ‘Use System Default Value’ or manually enter the value in the field beside it, if the value defers.
7. Click Update to update the service charge value and information is shown in Guest Handling, Guest Info, Cabin Information section.
8. Navigate to the Service Charge Posting tab to review the accounts with Service Charge pending.

Figure 7-9 - Quick Service Charge Posting
9. Click **Post** to post the service.

**Note:** By default, the ‘Skip Credit Limit Check’ is checked, allowing System to post the service charge even when the account exceed the credit limit.

10. At the confirmation prompt, click **Yes** to the value of the service charge to post.

### 7.5.2. Disabling Service Charge Posting

1. Repeat above steps 1 to 5.
2. Select ‘**Disable Service Charge Posting**’, then click **Update**.
3. Updated accounts are shown in **Exception tab** and in Guest Handling, Guest Info, Cabin Information section.

### 7.6. Quick Messages

Quick Message function allow user to send messages to a group of passengers or individually, using the Advanced Selection.

1. From the **Cashier File Menu**, select **Quick Messages** from the drop-down list.
2. In the Quick Message window, click **Advanced** to open the Multiple Account Selection window.
3. In the Multiple Accounts Selection window, select the Status, Account Type from the drop-down list.
4. Select the account name from the **Non Selected Accounts** pane, and then click **Add** to add the account singly or **Add All** to add all account listed or use the **Criteria Add**, then click **OK** to return to Quick Message window.
5. At the Quick Message window, enter the **Sender’s name** and **message** content.
6. Select the **Delivery Mode** and **Acknowledge mode** from the drop-down list, then click **OK** to save.
7. System will place a **check mark** in the guest account in Guest Handling, Message tab as an indicator for undelivered messages.

![Quick Message form](image)

*Figure 7-11 – Quick Message form*
8. Flight Assignment

Flight Assignment function is similar to Quick Billing and Quick Posting. This function allow users in assigning arrival or departure flight individually or by a group of passengers.

![Flight Assignment Window]

---

8.1. Assigning Flight Details

1. From the Cashier File Menu, select Flight Assignment from the drop-down list.
2. Enter the account in Account Identifier field or click Advanced to select Multiple Account.
3. Navigate to Flight Information section and select the Direction, Departure Date, Flight Number from the drop-down list.
4. In the Additional Information section, enter the additional information if any.
