Oracle Retail Releases 13.0.2 and 13.0.2.1

March 2009

This information applies to the 13.0.2 and 13.0.2.1 releases of the following Oracle Retail products:

- Oracle Retail Merchandising System (RMS)
- Oracle Retail Invoice Matching (ReIM)
- Oracle Retail Integration Bus (RIB)

Background

The initial Oracle Retail 13.0.2 release occurred on January 9, 2009. This release is a patch to RMS 13.0.1, and it includes enhancements and defect fixes.

Oracle Retail 13.0.2 applications were repackaged and released on January 30, 2009, as the Oracle Retail 13.0.2.1 release. The only differences between the Oracle Retail 13.0.2.1 and 13.0.2 applications were in updated documentation and online help. The repackaging was to support the release of the new Oracle Retail integration with PeopleSoft Enterprise Financials. This integration uses Oracle Application Integration Architecture (AIA).

Because of the integration that requires AIA and PeopleSoft software, the Oracle Retail 13.0.2.1 applications are packaged differently from other Oracle Retail releases. The applications are included in a Process Integration Pack (PIP).
