This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

Oracle Hospitality Symphony Venue Management (SimVen) is a perpetual inventory management solution focused on the needs of stadium, arena, theme park, concert hall, and convention center managers. SimVen provides comprehensive reports that identify ways to reduce labor costs, theft, and spoilage, improve operational efficiencies, and enable the efficient management of nonprofit groups and commissions.

Purpose

These Release Notes provide a brief overview of additions, enhancements, and corrections implemented in this software release. Their intent is informative, not instructional. Review Symphony Venue Management's product documentation, including technical and application advisories for previous versions, for detailed information on installation, upgrade, configuration, and general use.

Audience

This document is intended for all users of Oracle Hospitality SimVen.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL: <https://support.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received and any associated log files
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at <http://docs.oracle.com/en/industries/hospitality/>

Revision History

Date	Description of Change
December 2016	<ul style="list-style-type: none">• Initial publication
March 2017	<ul style="list-style-type: none">• Added the supported POS applications to supported systems.

1 Features and Updates

This section describes the new features and enhancements included in this release.

Oracle Hospitality Symphony

Added Support for Oracle Hospitality Symphony Version 2.9

With this release, SimVen now supports Symphony version 2.9.

The *Oracle Hospitality Symphony Venue Management User Guide* contains more information on configuring the main system file for Symphony.

Simphony Venue Management

Added Support to Purge Legacy Data

You can now delete legacy data from SimVen using the SimVen Purge Utility located in the [Drive letter]:\SimVen\SimVen\Conc\Programs folder. This utility allows you to delete event related data, purchase order related data, and receiving related data for the date range you select. The SimVen Purge Utility is only accessible by SimVen administrators.

The *Oracle Hospitality Symphony Venue Management User Guide* contains more information about purging data.

2 System Requirements, Supported Systems, and Compatibility

This section describes the supported enterprise server operating systems, databases, and devices by SimVen.

Supported POS Applications

- Oracle Hospitality Symphony First Edition version 1.7
- Oracle Hospitality Symphony version 2.9

Supported Operating Systems

- Microsoft Windows Server 2012
- Microsoft Windows Server 2008 R2

Supported Database

- Microsoft SQL Server 2005
- Microsoft SQL Server 2008 R2
- Microsoft SQL Server 2012 R2

Supported Microsoft Windows CE Devices

The following devices are supported only when running Oracle Hospitality Symphony First Edition:

- Oracle MICROS Workstation 4LX
- Oracle MICROS Workstation 5
- Oracle MICROS Workstation 5A
- Oracle MICROS Tablet R-Series
- Oracle MICROS Keyboard Workstation 270 (KW270)

Supported Win32 Devices

- Oracle MICROS Workstation 5A
- Oracle MICROS PC Workstation 2015
- Oracle MICROS Tablet E-Series 8-inch and 11- inch models
- Oracle MICROS Workstation 6 Family
 - Oracle MICROS Workstation 610
 - Oracle MICROS Workstation 620
 - Oracle MICROS Workstation 650

3 Resolved Issues

Table 2 shows a list of issues that have been fixed since the last release.

Table 1 - Resolved Issues

Module	CRID	TPID	Description
SimVen	36825	115511	The Transfer by Item by Date Report now generates successfully when you click Preview .
SimVen	36801	111682	When transferring items from the warehouse to a location, selecting an item and pressing the Enter key on the keyboard now adds the item to the transfer list.
SimVen	36671	104469	The Inventory Transmittal Slip now shows the correct Stand Count when you transfer 3 pounds or more of an item to be converted to grams.
SimVen	36474	98113	The transfer slip/pick sheet now prints all the selected locations when you make a transfer from the warehouse to each location.
SimVen	35992	84528	Stand sheets now successfully commit when you install SimVen on a server separate from the Symphony application with the Tangent Winservice running on the SimVen server.
SimVen	NA	63664	Menu items posted to a newly created revenue center in Symphony now successfully posts to the location in SimVen that is linked to the revenue center.
SimVen	NA	63032	If you enter the wrong Primary Vendor ID when creating an inventory item, an error message now appears stating Primary Vendor ID selected is not valid . Additionally, if you leave the Primary Vendor ID field blank when saving an inventory item, NONE is displayed on the Primary Vendor ID field.
