Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the MicroStrategy Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(ii) the Wavelink component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.

(iii) the software component known as Access Via™ licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(iv) the software component known as Adobe Flex™ licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR
Applications. For purposes of this section, “alteration” refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompile or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle’s licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.

Send Us Your Comments

Oracle Retail Import Management Cloud Service Actual Landed Cost User Guide, Release 16.0.030

Oracle welcomes customers’ comments and suggestions on the quality and usefulness of this document.

Your feedback is important, and helps us to best meet your needs as a user of our products. For example:

- Are the implementation steps correct and complete?
- Did you understand the context of the procedures?
- Did you find any errors in the information?
- Does the structure of the information help you with your tasks?
- Do you need different information or graphics? If so, where, and in what format?
- Are the examples correct? Do you need more examples?

If you find any errors or have any other suggestions for improvement, then please tell us your name, the name of the company who has licensed our products, the title and part number of the documentation and the chapter, section, and page number (if available).

Note: Before sending us your comments, you might like to check that you have the latest version of the document and if any concerns are already addressed. To do this, access the Online Documentation available on the Oracle Technology Network Web site. It contains the most current Documentation Library plus all documents revised or released recently.

Send your comments to us using the electronic mail address: retail-doc_us@oracle.com

Please give your name, address, electronic mail address, and telephone number (optional).

If you need assistance with Oracle software, then please contact your support representative or Oracle Support Services.

If you require training or instruction in using Oracle software, then please contact your Oracle local office and inquire about our Oracle University offerings. A list of Oracle offices is available on our Web site at http://www.oracle.com.
Preface

This document describes the Oracle Retail Import Management Cloud Service user interface. It provides step-by-step instructions to complete most tasks that can be performed through the user interface.

Audience

This document is for users and administrators of Oracle Retail Import Management Cloud Service. This includes merchandisers, buyers, business analysts, and administrative personnel.

Documentation Accessibility

For information about Oracle’s commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

Related Documents

For more information, see the following documents in the Oracle Other Product One Release 16.0.030 documentation set:

- Oracle Retail Import Management Cloud Service Release Notes
- Oracle Retail Import Management Cloud Service Customs Entry User Guide
- Oracle Retail Import Management Cloud Service Do the Basics User Guide
- Oracle Retail Import Management Cloud Service Foundation Data User Guide
- Oracle Retail Import Management Cloud Service Letters of Credit User Guide
- Oracle Retail Import Management Cloud Service Obligation User Guide
- Oracle Retail Import Management Cloud Service Transportation User Guide
Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL:

https://support.oracle.com

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Review Patch Documentation

When you install the application for the first time, you install either a base release (for example, 13.1) or a later patch release (for example, 13.1.2). If you are installing the base release and additional patch releases, read the documentation for all releases that have occurred since the base release before you begin installation. Documentation for patch releases can contain critical information related to the base release, as well as information about code changes since the base release.

Improved Process for Oracle Retail Documentation Corrections

To more quickly address critical corrections to Oracle Retail documentation content, Oracle Retail documentation may be republished whenever a critical correction is needed. For critical corrections, the republication of an Oracle Retail document may at times not be attached to a numbered software release; instead, the Oracle Retail document will simply be replaced on the Oracle Technology Network Web site, or, in the case of Data Models, to the applicable My Oracle Support Documentation container where they reside.

This process will prevent delays in making critical corrections available to customers. For the customer, it means that before you begin installation, you must verify that you have the most recent version of the Oracle Retail documentation set. Oracle Retail documentation is available on the Oracle Technology Network at the following URL:

http://www.oracle.com/technetwork/documentation/oracle-retail-100266.html

An updated version of the applicable Oracle Retail document is indicated by Oracle part number, as well as print date (month and year). An updated version uses the same part number, with a higher-numbered suffix. For example, part number E123456-02 is an updated version of a document with part number E123456-01.

If a more recent version of a document is available, that version supersedes all previous versions.

Oracle Retail Documentation on the Oracle Technology Network

Oracle Retail product documentation is available on the following web site:

http://www.oracle.com/technetwork/documentation/oracle-retail-100266.html
(Data Model documents are not available through Oracle Technology Network. You can obtain these documents through My Oracle Support.)

## Conventions

The following text conventions are used in this document:

<table>
<thead>
<tr>
<th>Convention</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>boldface</strong></td>
<td>Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.</td>
</tr>
<tr>
<td><em>italic</em></td>
<td>Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.</td>
</tr>
<tr>
<td><strong>monospace</strong></td>
<td>Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.</td>
</tr>
</tbody>
</table>
The actual landed cost module provides a view of the expenses and assessments that are accumulated as goods move from origin country, through customs, to their final destination. Estimated and actual landed costs are summarized for analysis.

The amounts can be viewed at the entry, shipment, purchase order level or at the purchase order/item level. After analysis, you can finalize the actual landed costs. As a result the stock ledger and open to buy are updated. You also have the option to update weighted average costs.
Review Actual Landed Cost

The Review ALC option opens the ALC Search window. In the ALC Search window you can search for an order or item to view the ALC values for a single item on a purchase order.

You can access the ALC Search window from the Task menu, select Import Management > Review ALC. The ALC Search window appears.

The ALC Search window contains the following sections.

- **Search**

  For more information about how to search for orders or items to view ALC values, see the Search for Orders/Items section.

- **Results**

*Figure 2–1  ALC Search Window*
Search for Orders/Items

To search for orders/items:

1. From the Task menu, select Import Management > Review ALC. The ALC Search window appears.

2. You can search for orders/items by using basic or advanced search criteria, depending on the requirement. The basic mode is the default search mode.
   - Click Advanced to access the search section in advanced mode.
   - Click Basic to return to the basic mode.

Search for Orders/Items Through the Basic Search Criteria

To search for orders/items using basic search criteria:

1. Enter, select or search for one or all of the following basic search criteria.

2. Click Search. The orders/items that match the search criteria are displayed in the Results section.

3. Click Reset to clear the search section and results.

4. Click Done to close the window.

Search for Orders/Items Through Advanced Search Criteria

To search for orders/items using advanced search criteria:

1. To search by using advanced search criteria, enter or select one or all of the advanced search criteria.

---

<tr>
<td></td>
<td>Processed</td>
</tr>
<tr>
<td>Vessel</td>
<td>Enter, select or search for the vessel number.</td>
</tr>
<tr>
<td>Voyage/Flight</td>
<td>Enter, select or search for the voyage/flight number.</td>
</tr>
<tr>
<td>Estimated Depart. Date</td>
<td>Enter or use the Calendar icon to select the estimated departure date of the transport.</td>
</tr>
</tbody>
</table>
2. To narrow down the search, use the list next to the search fields. For example, determine if the entered value should equal or not equal the search result.

3. Click Search. The orders/items that match the search criteria are displayed in the Results section.

4. Click Reset to clear the search section and results.

5. Click Add Fields to add more fields for the advanced search. To remove the field from the search, click the x right next to the field.

6. Click Done to close the window.

Results

The Results section lists the retrieved orders/items. The Results table shows the following columns by default.

- Order Number
- Item and Item Description
- Obligation
- Entry Number
- Vessel
- Voyage/Flight
- Estimated Departure Date
- Quantity

Compare Estimates to Actuals

ALC Window

In the ALC window you can view the actual landed cost details of an item on a purchase order. The costs are limited to the expenses and assessments that are non-merchandise charges. The comparison between the estimated landed cost and the actual landed cost are listed in the primary currency of the company.

The cost can be viewed for each of the following unique combinations.

- Purchase order, item, pack item, and transportation shipment (vessel/voyage/estimated departure date)
- Purchase order, item, pack item, and obligation
- Purchase order, item, pack item, and customs entry

The ALC window contains the following sections.

- ALC Header
- Estimates with no Actuals
- Values Included in ALC by Direct Nomination
- Transportation Shipments
- Transportation Related Obligations/Entries
Non-Transportation Related Obligations

Figure 2–2  ALC Window

Transportation Shipments
The Transportation Shipments table displays the following columns by default:

- Vessel
- Voyage/ Flight
- Estimated Departure Date
- Quantity
- Unit and Total ELC
- Unit and Total ALC
- % Variance

Transportation Shipments - Actions Menu, Icons and Button Use the Actions Menu, icons and button apply actions to the table. You can perform the actions listed below, as well as actions in “Action Menu and Icons” in the Oracle Retail Import Management Cloud Service Do the Basics User Guide.

</tr>
</tbody>
</table>

View ALC Details of an Item
To view the ALC Details of an item on an order follow the steps below.
1. From the Tasks menu, select **Import Management > Review ALS**. The ALC Search window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click **Search**. The orders that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the Order No. column, click on the order number link, or mark a record and select **Actions > View** or use the View icon. The ALC window appears.
6. View the actual landed cost details of an item on an order.
7. Click **Done** to exit the ALC window.

**ALC Header**

The ALC Header displays the following information:
- Order No.
- Pack
  Pack is only displayed, if the item on the purchase order is a buyer pack with an order type of pack.
- Item
- Standard UOM
- Next and Previous button
  The Next and Previous buttons are only displayed, if a pack item exists.

Furthermore, the ALC header displays the unit cost, unit retail, markup, quantities such as ordered, shipped and received, the unit and total ELC, the currency, the unit and total ALC as well as the variance in percent.

**Estimates with no Actuals**

The Estimates with no Actuals section displays estimates that are available, but where the retailer has not yet been billed for the actuals, either via obligations or customs entries. When a PO is approved, a record is written to ALC for each estimated cost component. The total of each estimated cost component is shown in this section.

The following fields are displayed:
- **Unit**
  Displays the per unit value of all estimated expenses and assessments without an actual.
- **Total**
  Displays the total value of all estimated expenses and assessments without an actual.

---

**Note:** If there are no estimated components for which actuals have not been entered, this section is not displayed.
Use Component List button to open the ALC Component window. The component list shows each component without an actual. For more information about the ALC Component window, see the ALC Components section.

Values Included in ALC by Direct Nomination

This section displays the actual values directly nominated on the PO for inclusion in the ALC, for which the retailer does not expect to pay either via obligations or customs entries.

The following fields are displayed:

- **Unit**
  
  Displays the unit value. If this value is zero the section is not displayed.

- **Total**
  
  Displays the total value.

Use the Component List button to open the ALC Component window. The component list shows each component with an actual, where it is a direct nomination.

Transportation Shipments

In the Transportation Shipments window you can manage associations of shipments with a PO or a transportation record.

The Transportation Shipments window contains the following sections.

- **Transportation Shipments Header**
- **Transportation Shipments Table**

Transportation Shipments Header

The Transportation Shipments header contains the following transportation information.

- **Vessel ID**
- **Voyage/Flight number**
- **Estimated Departure Date**
- **Container**
- **Bill of Lading/Airway Bill**
- **Commercial Invoice**
- **Order Number**
- **Item**

Transportation Shipments Table

The Transportation Shipments table contains information such as shipment, advanced shipping notice (ASN), and shipped as well as received date, the to location and the location name.

Add a Shipment

To add a shipment to a transportation follow the steps listed below.
1. From the Tasks menu, select Import Management > Transportation > Manage Transportation. The Transportation Search window appears.

2. Enter or select search criteria as desired to make the search more restrictive.

3. Click Search. The transportations that match the search criteria are displayed in the Results section.

4. Select a record in the Results section.

5. In the Transportation column, click on the transportation link, or mark a record and select Actions > Edit or use the Edit icon. The Transportation window appears.

6. In the More Actions menu select Shipments. The Transportation Shipments window appears.

7. In the table, select Actions > Add or use the Add icon. The Add Shipment window appears.

Figure 2–3  Add Shipments Window

![Add Shipments Window](image)

a. The Add Shipments table displays shipments that are not associated with the PO/transportation record.

b. In the table select all the shipments you want to associate with the current transportation.

c. Then choose one of the following options.

   * Click OK to add the shipments and close the Add Shipments window. The system returns to the Transportation Shipments window. The new shipments are added to the Transportation Shipments table.

   * Click Cancel to reject all entries and close the Add Shipments window. The system returns to the Transportation Shipments window.

8. After you have added all necessary shipments, choose one of the following options.

   ■ Click Save to save your changes.

   ■ Click Save and Close to save your changes and close the Transportation Shipments window.

   ■ Click Cancel to reject all changes and close the Transportation Shipments window.
Delete a Shipment

To delete a shipment from a transportation follow the steps listed below.

1. From the Tasks menu, select Import Management > Transportation > Manage Transportation. The Transportation Search window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click Search. The transportations that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the transportation column, click on the transportation link, or mark a record and select Actions > Edit or use the Edit icon. The Transportation window appears.
6. In the More Actions menu select Shipments. The Transportation Shipments window appears.
7. In the Transportation Shipments table, select a shipment.
8. Click Actions > Delete or use the Delete icon to delete the selected shipment.
9. You are prompted if you want to delete the selected shipment from the Transportation Shipments table. Confirm with Yes.
10. The shipment is removed from the Transportation Shipments table.

11. After you have deleted all necessary records, choose one of the following options.
   - Click Save to save your changes.
   - Click Save and Close to save your changes and close the Transportation Shipments window.
   - Click Cancel to reject all changes and close the Transportation Shipments window.

Shipment Detail

The Shipment Detail window displays shipment information.

*Figure 2–4 Shipment Detail Window*

The Shipment Detail window contains the following sections.
Transportation Related Obligations/Entries

- **Shipment Detail Header**
  
  The Shipment Details header displays shipping information such as vessel, voyage/flight as well as the estimated departure date.

- **Shipment Detail Table**

**Shipment Detail Table**

The Shipment Detail Table displays the following columns by default.

- BOL/AWB
- Container
- Landing Port and Landing Port Description
- Discharge Port and Discharge Port Description
- Shipment Method

**View Shipment Details**

To view shipment details follow the steps listed below.

1. From the Tasks menu, select **Import Management > Review ALC**. The ALC Search window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click **Search**. The orders that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the Order No. column, click on the order number link, or mark a record and select **Actions > View** or use the View icon. The ALC window appears.
6. In the Transportation Shipment section, select **Actions > Shipment Detail** or go to the vessel column and click on the vessel number link. The Shipment Detail window appears.
7. View the shipment details of an item on an order.
8. Click **OK** to exit the Shipment Detail window.

**Transportation Related Obligations/Entries**

The Transportation Related Obligations/Entries table contains the following columns:

- Obligation
- Entry Number
- Shipment
- Vendor Name
- Invoice
- Quantity
- Unit ELC and Total ELC
- Unit ALC and Total ALC
- %Variance
Non-Transportation Related Obligations

- Status

An Error icon will be shown for each row at the row header if there are errors. If you click on the Error icon, the Interface Errors window appears.

For more information about the Interface Errors window, see the Review Allocation Errors section.

Transportation Related Obligations/Entries - Actions Menu, Icons and Button

Use the Actions Menu, icons and button to apply actions to the table. You can perform the actions listed below.

Table 2–3 Transportation Related Obligations/Entries - Actions Menu/Icons/Button and Description

<table>
<thead>
<tr>
<th>Actions Menu/Icons/Button</th>
<th>Description</th>
</tr>

<tr>
<td>Export to Excel and Export to Excel icon</td>
<td>You can copy the records in the table to a Microsoft Excel spreadsheet by selecting Actions &gt; Export to Excel or by using the Export to Excel icon.</td>
</tr>
</tbody>
</table>

Non-Transportation Related Obligations

The Non-Transportation Related Obligations table displays the following columns by default:

- Obligation
- Shipment
- Vendor Name
- Invoice and Invoice Date
- Quantity
- Unit ELC and Total ELC
- Unit ALC and Total ALC
- % Variance
- Status

An Error icon will be shown for each row at the row header if there are errors. If you click on the Error icon, the Interface Errors window appears.

For more information about the Interface Errors window, see the Review Allocation Errors section.
Non-Transportation Related Obligations - Actions Menu, Icons and Button

Use the Actions Menu, icons and button apply actions to the table. You can perform the actions listed below, as well as actions in “Action Menu and Icons” in the Oracle Retail Import Management Cloud Service Do the Basics User Guide.

<table>
<thead>
<tr>
<th>Actions Menu/Icons/Button</th>

</tbody>
</table>

ALC Components

In ALC Component window you can view the cost components of an item on a purchase order. The cost components are limited to the expenses and assessments that are non-merchandise charges. The comparison between the estimated and the actual landed cost components are listed in the primary currency of the company.

The cost components can be viewed for each of the following unique combinations.

- Purchase order, item, pack item, and transportation shipment (vessel/voyage/estimated departure date)
- Purchase order, item, pack item, and obligation
- Purchase order, item, pack item, and customs entry

The ALC Components window contains the following sections.

- ALC Components Header
- Components Table
- Locations Table
ALC Components Header

The ALC Components Header varies depending on from which table you select the Component List function. The pack information is only displayed when the item on the order is a buyer pack with the order type Pack.

Components Table

The Components table contains the following columns by default.

- Component and Description
- Last Calculated
- Quantity (UOM)
- Estimated and Actual Unit Value
- Estimated and Actual Total Value
- % Variance

The first record in the table is selected by default and the respective cost component by location is displayed in the Locations table.

Locations Table

This table lists the cost by locations, based on the cost component selected in the Components table. The Location table displays the following columns by default.

- Location Type, Location and Location Name
- Last Calculated
- Quantity (UOM)
■ Estimated and Actual Unit Value
■ Estimated and Actual Total Value
■ % Variance

View ALC Components

To view ALC components follow the steps listed below.

1. From the Tasks menu, select **Import Management > Review ALC**. The ALC Search window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click **Search**. The orders that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the Order No. column, click on the order number link, or mark a record and select **Actions > View** or use the View icon. The ALC window appears.
6. In the ALC window choose one of the following options.
   ■ In the Transportation Shipments section, select **Actions > Component List**. The ALC Components window appears.
   ■ In the Transportation Related Obligations/Entries section, select **Actions > Component List**. The ALC Components window appears.
   ■ In the Non-Transportation Related Obligations section, select **Actions > Component List**. The ALC Components window appears.

   **Note:** Depending on from which section you entered the Component List, the information in the header of the ALC Components window varies.

7. In the Components table the first record is selected by default and the respective cost component by location is displayed in the Locations table below.
8. Click **Done** to close the ALC Components window.

Review Allocation Errors

The Interface Error window allows you to view the details of any errors that occurred during the allocating of obligations and customs entries to actual landed cost.

The table displays the program name, date, unit of work and the error.
Finalize Actual Landed Cost

The Finalize ALC option opens the ALC Finalization window. In the ALC Finalization window you can search for an order or order/shipments to review the variance between the estimated landed cost and actual landed cost and determine whether or not to finalize the ALC resulting in the update of the stock ledger and weighted average cost of all item/locations on the associated order/shipment.

You can access the ALC Finalization window from the Task menu, select Import Management > Finalize ALC. The ALC Finalization window appears.

The ALC Finalization window contains the following sections.

- **Search**
  For more information about how to search for orders or order/shipments, see the Search for Orders or Order/Shipments section.

- **Results**

  *Figure 3–1  ALC Finalization Window*
Search for Orders or Order/Shipments

To search for orders or order/shipments:

1. From the Task menu, select **Import Management > Finalize ALC**. The ALC Finalization window appears.

2. Enter, select or search for one or all of the following search criteria.

<table>
