

Oracle® Retail Sales Audit

Release Notes

Release 15.0

E69270-01

December 2015

This document highlights the major changes for Release 15.0 of the Oracle Retail Sales Audit.

Overview

Oracle Retail Sales Audit (ReSA) provides the tools to evaluate point-of-sale data to ensure the accuracy and completeness of information exported to downstream systems used in optimization processes, financial reporting, and analysis.

Hardware and Software Requirements

See the *Oracle Retail Sales Audit Installation Guide* for information about the following:

- Hardware and software requirements
- Oracle Retail application software compatibility

Functional Enhancements

The functional enhancements below are included in this release.

ReSA Mobile

Oracle Retail understands that not all retail business happens in the office. To better support retailers on the go, a ReSA mobile application accelerator was released in version 14.1 to support the creation of mobile applications. APIs were also included to support the validation and execution of the functions enabled by the mobile application accelerator. This mobile application was made generally available in version 14.1.1 and includes a mobile dashboard oriented to a Sales Audit Manager with the ability to search and drill into specific transactions. From the mobile application, managers can flag and notify others of key action items.

Other Enhancements

- Row headers were added to all tables in ReSA, which are used by screen readers to provide context to visually impaired users without requiring the full detail of a table row to be read as the user navigates through the screen.
- Reports access in ReSA was moved from a separate screen to links in the task list that can be made available to users based on security roles and privileges defined for ReSA users.

Technical Enhancements

The technical enhancements described below are included in this release.

Database Server Support

Oracle Retail Sales Audit Release 15.0 is supported for use with the following database server:

- Oracle Database Enterprise Edition 12cR1 (12.1.0.2)

Oracle Fusion Middleware

Oracle Retail Sales Audit Release 15.0 is supported for use with the following version of Oracle Fusion Middleware:

- Oracle Fusion Middleware 12c (12.1.3)

Browser Support

Oracle Retail Sales Audit Release 15.0 is supported for use with the following browser:

- Microsoft Internet Explorer 11

Security Technologies

Oracle Retail Sales Audit Release 15.0 is supported for use with the following security technologies:

- Oracle Access Manager (OAM) 11.1.2.3
- Oracle Identity Management 11g Release 1 (11.1.1.9)

Oracle Retail Application Administration Console (RAAC)

RAAC is an application that is being introduced in 15.0 for all ADF-based applications, like ReSA, which allows application administrators to manage duties and roles for their users and to manage task list links that those roles are associated to in ReSA. Access to this application will be given to the application administrator role by default in ReSA and will be accessible from the task list.

Integration Enhancement

The integration enhancement described below is included in this release.

Xstore Integration

Packaged integration with Oracle Retail Xstore Point of Service was added as part of ReSA 15.0 to provide store-level transaction information. The most notable change within ReSA is the addition of the transaction type 'OTHER' used to handle various non-sale or return transactions supported within Xstore that are not directly relevant to ReSA.

Known Issues

The known issues described below are included in this release.

Known Issue/Defect	Defect Number
For stores configured to report taxes at the TTAX level, the class level VAT details of one of the items a transaction is incorrectly used to decide whether to include TTAX lines for transaction balancing or not.	22016757

Related Documentation

For more information, see the following document in the Oracle Retail Sales Audit Release 15.0 documentation set:

- *Oracle Retail Sales Audit User Guide*
- *Oracle Retail Sales Audit Release Notes*
- *Oracle Retail Sales Audit Operations Guide*
- *Oracle Retail POS Suite/Merchandising Operations Management Implementation Guide*
- *Oracle Retail Xstore Suite Merchandising Implementation Guide*
- Oracle Retail Merchandising System documentation
- Oracle Retail Trade Management documentation

Supplemental Documentation on My Oracle Support

The following documents are available through My Oracle Support. Access My Oracle Support at the following URL:

<https://support.oracle.com>

Enterprise Integration Guide (located in the Oracle Retail Integration Suite library on the Oracle Technology Network)

The Enterprise Integration Guide is an HTML document that summarizes Oracle Retail integration. This version of the Integration Guide is concerned with the two integration styles that implement messaging patterns: Asynchronous JMS Pub/Sub Fire-and-Forget and Web Service Request Response. The Enterprise Integration Guide addresses the Oracle Retail Integration Bus (RIB), a fully distributed integration infrastructure that uses Message Oriented Middleware (MOM) to integrate applications, and the Oracle Retail Service Backbone (RSB), a productization of a set of Web Services, ESBs and Security tools that standardize the deployment and run time of Web Service flows within Oracle Retail Suite of applications.

Oracle Retail Merchandising Operations Management 15.0 Upgrade Guide (ID 2081552.1)

This guide describes the approach that each Oracle Retail Merchandising Operations Management application takes for the upgrading process, as well as its upgrade assumptions and considerations. Actual procedures for the upgrade may be included in the application's Installation Guide.

Oracle Retail Merchandising Mock Installation Test Cases, Release 15.0 (2081558.1)

The tests in this document have been created to assist in verifying (smoke testing) that the installation of the following products was successful: RMS, ReSA, RTM, Oracle

Retail Allocation, ReIM, ARI, and RPM. These tests are not intended to verify all functionality in the suite of products previously listed.

Supplemental Training on My Oracle Support

The following document is available on the My Oracle Support Web site. Access My Oracle Support at the following URL:

<https://support.oracle.com>

Transfer of Information (TOI) Material (ID 732026.1)

Online training is available to Oracle supported customers at product release. These online courses provide release-specific product knowledge that enables your functional and technical teams to plan, implement and/or upgrade and support Oracle Retail applications effectively and efficiently.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Licensing Note: This media pack includes a Restricted Use license for Oracle Retail Predictive Application Server (RPAS) - Enterprise Engine to support Oracle® Retail Analytic Parameter Calculator for Regular Price Optimization only.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
