

Severity Level	Info	Bulletin Number	CGBU_031621
Issue Date	8/13/2018	Expires	DSR 8.2 Customer Documentation Set
Title	IDIH .pcap export limit is 1 MB instead of 20-25 MB		
Product	DSR	Releases	7.3 through 8.1
Priority	FYI	Related Bugs	27226536
Impacts Compatibility	NO	Impacted Product Line(s):	N/A
Author	J. Carlino	Part No. Affected	E69819-01, E76937-01, E87973-01, and E89019-01
Markets	ALL		
Approved By/Date		K. Cook 8/13/2018	

Problem Description

Note for payload limit has changed in the IDIH User Guide to:

Note: Payloads sent from DSR to IDIH contain Diameter/RADIUS layer only (no IP or TCP/SCTP layers). Therefore, IDIH makes a best effort to simulate those layers when constructing the PCAP file for export. Trace export exports up to **1 MB** of payload data. The rest of the payloads are ignored. The user can refine the query to accommodate all the payloads the user wants to export and re-export it again. When TLS or DTLS is used as the transport, the export displays TCP for TLS and SCTP for DTLS as the Transport value.

Impact

None

Needed Actions

No action needed.

Customers should store this bulletin with their associated DSR documentation location for reference.
