Preface

Oracle Hospitality Cruise Dining Room Management consists of Oracle Hospitality Cruise Fine Dining System, Oracle Hospitality Cruise Meal Count System, and Oracle Hospitality Cruise Shipside Base for SilverWhere. Used all together or as individual modules, they provide an integrated solution with Oracle Hospitality Cruise Shipboard Property Management System, enabling detailed consumer analysis and the refinement of restaurant menus, quantities, and procedures. You can transfer data to the shore side Oracle Hospitality Fleet Management system for consolidation into the guest's profile.

Purpose

These Release Notes provide a brief overview of additions, enhancements, and corrections implemented in this software release. Their intent is informative, not instructional. Review Fine Dining System's product documentation, including technical and application advisories for previous versions, for detailed information on installation, upgrade, configuration, and general use.

Audience

This document is intended for project managers, application specialist and users of Oracle Hospitality Cruise Fine Dining System.

Customer Support
