Introduction

This Licensing Information document is a part of the product or program documentation under the terms of your Oracle license agreement and is intended to help you understand the separately licensed third party technology terms associated with the Oracle software program(s) covered by this document (the “Program(s)”). If you have a question about your license rights and obligations, please contact your Oracle sales representative, review the information provided in Oracle’s Software Investment Guide (<http://www.oracle.com/us/corporate/pricing/software-investment-guide/index.html>), and/or contact the applicable Oracle License Management Services representative listed on <http://www.oracle.com/us/corporate/license-management-services/index.html>.

Licensed Products, Restricted Use Licenses, and Prerequisite Products

Certain Oracle licensed products require valid licenses for other Oracle products; licenses for these other Oracle products are included with your core license. Included licenses give you the rights to functionality limited to what is needed for your core licensed product; these are referred to as Restricted Use Licenses. In addition, some products require that you install other Oracle products; these are referred to as Prerequisite Products. The following topics identify what technologies are included within each core product license and also any other products you need to install in order to fully use the core product. Please see you Oracle Sales Representative for details.

Note: As part of any Cloud Service, Oracle may, at its discretion, compile statistical and other information related to your use of the Service and share such information and subsequent analysis with you.

- ▶ Primavera Submittal Exchange Enterprise Project Cloud Service
- ▶ Primavera Submittal Exchange Single Project Cloud Service

Third Party Notices and/or Licenses

Required notices for open source and commercial software products or components distributed with the product are identified below, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or readme files of the individual third party open source software.
