Overview

Oracle Retail Financial Integration Release 13.2.6 represented the initial release of the direct integration solution between Oracle Retail Merchandising Suite and enterprise financial systems. For more information on this integration, see the Oracle Retail Financial Integration for Oracle Retail Merchandise Operations Management and Oracle E-Business Suite Financials Release Notes.

Oracle Retail Financial Integration Release 14.0.1 targets integration between Oracle Retail Merchandising System and PeopleSoft Financials (including PeopleSoft General Ledger and PeopleSoft Payables).

The Oracle Retail Financial Integration is supported by Oracle for customers who have purchased the Oracle Retail Integration Bus product. As with most packaged integration, the base package provides the most common integration content to satisfy end-to-end scenarios, but customers often make some integration and mapping changes to meet their specific needs. This release includes technical and design documentation to assist customer-specific deployments.

Product Support

For product support and logged defects, the product identifier for Oracle Retail Financial Integration is 10722.

Functionality is shared among RMS/ReIM/ReSA, RIB, RFI as well as EBS and PeopleSoft Financials. For issues you can log defects against RFI. Each logged defect will be analyzed to determine the source of the reported issue. There may be fixes required for any of the participating products that can mean they will be patched separately. In such cases, these dependencies will be noted in release documentation.
