Release Notes

Release 13.2.8

E51007-02

October 2014

Oracle Retail Financial Integration (ORFI) Release 13.2.8 is a patch release for ORFI 13.2. ORFI 13.2.8 includes defect fixes and enhancements for ORFI 13.2 code.

Oracle Customer Support investigates submitted issues assuming that all released updates have been applied. It is the customer's decision when to apply a new release; however, delays in applying updates can complicate the support process.

Overview

Oracle Retail Financial Integration Release 13.2.6 represented the initial release of the direct integration solution between Oracle Retail Merchandising Suite and enterprise financial systems.

For more information on this integration, see the *Oracle Retail Financial Integration for Oracle Retail Merchandise Operations Management and Oracle E-Business Suite Financials Release Notes* Release 13.2.6.

The Oracle Retail Financial Integration is supported by Oracle for customers who have purchased the Oracle Retail Integration Bus product. As with most packaged integration, the base package provides the most common integration content to satisfy end-to-end scenarios, but customers often make some integration and mapping changes to meet their specific needs. This release includes technical and design documentation to assist customer-specific deployments.

Hardware and Software Requirements

Retail applications relevant to the Retail Financial Integration include:

- Oracle Retail Merchandising System (RMS) Release 13.2.8
- Oracle Retail Invoice Matching (ReIM) Release 13.2.8

- Oracle Retail Sales Audit (ReSA) Release 13.2.8
- Oracle Retail Integration Bus (RIB) Release 13.2.8

Note: ORFI is not compatible with Oracle Retail Application versions prior to 13.2.6.

Before you begin installation, check to be sure that you have the most recent version of the Installation Guide. Oracle Retail Installation Guides are available on the Oracle Technology Network at the following URL:
