➤ **JD Edwards Roadmap: Your JD Edwards Journey**

Every JD Edwards customer is at a different trailhead on their JDE journey. Join Bob Monahan and Gary Grieshaber to explore the paths you can take to achieve the benefits of EnterpriseOne 9.2.

Bob Monahan, Vice President Product Management, EnterpriseOne

Gary Grieshaber, Vice President Product Strategy, EnterpriseOne

Monday, April 8, 3:15 p.m. – 4:15 p.m. | Lila Cockrell Theatre (CC Floor)

[Add to Your Schedule](#)

➤ **4 First Steps Toward the Digital Transformation of Projects and Services**

We talk a lot about digitally transforming our businesses by automating time consuming activities and streamlining business processes. These discussions are often centered on the latest technology and may require significant projects and investment. As a result, many projects never get off the ground and no progress is made. This session focuses on achievable progress. What are some steps we can take to get started, to make progress, to move in the right direction without requiring a big project and investment?

Keith Sholes, Senior Director, Product Management, Oracle

Ward Quarles, Senior Director JD Edwards Product Strategy, Enterprise One

Monday, April 8, 4:30 p.m. – 5:30 p.m. | GH Bowie (Floor 2)

[Add to Your Schedule](#)

➤ **5 Things you can do to Improve your Distribution and Logistics Processes without Customization**

Looking for ways to improve the user experience without customizations? Of course you are. This session will guide you through the top 5 ways you can enhance and improve the user experience for your distribution and logistics professionals. We will cover practical, low cost examples that you can implement to help your organization be successful.

Ervin Rhodes, Principal Product Manager, Oracle

Monday, April 8, 4:30 p.m. – 5:30 p.m. | Presidio A (GH Floor 3)

[Add to Your Schedule](#)

➤ **Top 6 Things you can do to Improve your JD Edwards Financials Processes without Customization**

Are your finance users demanding a more intuitive, easier, simpler, and efficient user experience? Looking for ways to do that without customizing? This session will walk through the top 6 ways you can enhance and improve your financial user's experience. We will cover practical low cost examples that you can be successful with.

Karen Brown, Senior Principal Product Manager, Oracle

Monday, April 8, 4:30 p.m. – 5:30 p.m. | Lonestar Salon C (GH Floor 3)

[Add to Your Schedule](#)

➤ **JD Edwards Tools: The Roadmap to Future Innovation and Success**

Change is the new normal, and Oracle continues to deliver transformational capabilities with each JD Edwards EnterpriseOne Tools release. Are you not sure what is new with Orchestrator Studio, Extensibility Framework, 64-bit computing, Automation for Cloud, and Platform certifications? Would you like more insight into future releases? Come to this session to learn how JD Edwards continuous innovation can accelerate your transformation to a digital business.

Jeff Erickson, Senior Director, Product Management, Oracle

Monday, April 8, 4:30 p.m. – 5:30 p.m. | Lonestar Salon B (GH Floor 2)

➤ **Maximize the Value you get from your JD Edwards Investment with Oracle Support**

In this session learn how you can take advantage of the enhancements currently planned and in development for Oracle's JD Edwards roadmap. Oracle Premier Support allows you to fully leverage the continuous delivery model, which provides new innovations to customers on an ongoing basis. Following up on the Continuous Innovation announcement for JD Edwards EnterpriseOne 9.2, Oracle reaffirms its commitment to on-premises customers by extending Oracle Premier Support. Discover Oracle's commitment to continuous innovation while providing a commitment for Oracle Premier Support through 2030 and an ongoing 10-year rolling window.

Manuel Neyra, Senior Director Product Management, EnterpriseOne

Tuesday, April 9, 10:30 a.m. – 11:30 a.m. | Lonestar Salon C (GH Floor 2)

[Add to Your Schedule](#)

➤ **Bring it On! Thrill Users and IT with UX One**

JD Edwards is continuously innovating and you want to get to a continuous adoption model so you can adopt and derive value from new capabilities that support your company's strategic initiatives. To get there, a key step is to eliminate customizations. At the same time, you want to keep your users happy by ensuring their experience with JD Edwards makes them as productive as possible.

JD Edwards UX One addresses all of these needs by providing a user experience platform. The platform includes User Defined Object types that allow non-IT users to make the experience their own without customizations. It also includes delivered role-based content that can be leveraged to kickstart the adoption of the new user experience. In this session you will find out what is available to you to make continuous adoption and a modernized user experience a reality and how to build a case to fund the adoption of UX One.

Angela Enyeart, Senior Director, Product Management, EnterpriseOne

Tuesday, April 9, 10:30 a.m. – 11:30 a.m. | Lonestar Salon B (GH Floor 2)

[Add to Your Schedule](#)

➤ **Setting Up for Success in the Digital Business Economy**

Today we find ourselves in a dynamic environment where rapid technology innovations are driving new business models, and conversely, business innovations are driving the need for technology to support them. The digital business economy demands:

- Real-time, accurate data
- Informed, empowered, and untethered users
- Simplified business processes and integrations
- Agile, low-code solutions

JD Edwards EnterpriseOne is up to the task. Come to this session to survey the latest innovations in your trusted ERP platform and how to employ them to thrive in the digital economy.

AJ Schifano, Senior Principal Product Manager, EnterpriseOne

Kaushik Ray, Senior Director of Professional Services, PCB Apps

Tuesday, April 9, 10:30 a.m. – 11:30 a.m. | Lonestar Salon A (GH Floor 2)

[Add to Your Schedule](#)

➤ **Cut Weeks out of your Upgrade to 9.2**

Are you planning your JD Edwards 9.2 upgrade and would like to streamline the upgrade process? This session will detail the latest upgrade improvements that can remove weeks from your upgrade. Understand how JD Edwards has automated getting code current during your upgrade which removes manual steps of applying ESUs, special instructions and Tools Releases.

Clayton Seeley, Senior Principal Software Engineer, EnterpriseOne

Tuesday, April 9, 10:30 a.m. – 11:30 a.m. | Mission A (GH Floor 2)

[Add to Your Schedule](#)

➤ **Meet Up JD Edwards Orchestrator**

Bring your JD Edwards Orchestrator questions to the experts from JD Edwards development. Need more information? Want to ask about your Orchestrator business goals. Meet Up with JDE to get your answers.

AJ Schifano, Senior Principal Product Manager, EnterpriseOne

Darryl Shakespeare, Senior Director, Product Development, EnterpriseOne

Paul Houtkooper, Senior Director, JDE Development

Tuesday, April 9, 11:30 a.m. – 12:30 a.m. | San Jacinto Foyer (GH Floor 2)

[Add to Your Schedule](#)

➤ **Building a Continuous Innovation Culture in your Organization**

Everyone (from analysts to software vendors to customers) is talking about Continuous Innovation and most agree on why it should be the new normal for your ERP system. Before the IT team jumps heads on and starts deploying new tools & processes, let's make sure that rest of your organization has been bought into this new paradigm shift. Based on the experiences and feedback of CIOs and business leaders, this session will show you how to build an effective continuous innovation strategy, prepare your organization for the paradigm shift and make it part of your organizational culture.

Jeff Erickson, Senior Director, Product Management, Oracle

Tuesday, April 9, 12:45 p.m. – 1:45 p.m. | Bowie B (GH Floor 2)

[Add to Your Schedule](#)

➤ **Complying with the New Lease Accounting Standards**

Is your company the lessee of equipment such as office equipment, vehicles or the tenant of property like office space or do you lease property assets to others? If yes, then you won't want to miss this session. Learn about the new Global FASB/IASB Lease Accounting Standard and the significant impact on how you recognize revenue for your leases as a lessor and how you account for assets you lease as a lessee. This session will discuss recently released JD Edwards solutions that will enable your compliance to the new standard. Get an overview of the lease accounting standard, recognizing revenue from your leases, managing leases as a lessee, creating/reviewing amortization schedules, creating balance sheet entries for leased assets, and getting lease data into EnterpriseOne.

Karen Brown, Senior Principal Product Manager, Oracle
Aparajeeta Deshpande, Director, Product Development, EnterpriseOne

Tuesday, April 9, 12:45 p.m. – 1:45 p.m. | Lonestar Salon B (GH Floor 2)

[Add to Your Schedule](#)

➤ **Orchestrating your Enhancements Requests**

Digital business happens fast, and your technology tools need to deliver solutions just as fast. You request enhancements to the EnterpriseOne product team; we've heard them:

- "My customers want to be notified whenever their order status changes."
- "This process has too many forms to fill out. Make it simpler."
- "I need to repeat this transaction for every row in my spreadsheet."

In previous conferences you've heard Lyle Ekdahl's challenge: "You make it happen."

In this session we will explore how you can use the EnterpriseOne digital platform to fuel your own continuous innovation with agile, low-code solutions.

Darryl Shakespeare, Senior Director, Product Development, EnterpriseOne
Paul Houtkooper, Senior Director, Product Development, EnterpriseOne
AJ Schifano, Senior Principal Product Manager, EnterpriseOne

Tuesday, April 9, 12:45 p.m. – 1:45 p.m. | Lonestart Salon A (GH Floor 2)

[Add to Your Schedule](#)

➤ **Top 5 Things you can do to Improve your JD Edwards HCM User Experience without Customization**

Are your users demanding a better JD Edwards HCM user experience? Looking for ways to do that without customizing? JD Edwards and The Port of Portland will walk through the top 5 ways you can enhance and improve your HCM professionals and your employees' user experiences. We will cover practical low cost examples that you can be successful with.

Mike Jepkes, Director, Product Development, EnterpriseOne
Keith Sholes, Senior Director, Product Management, Oracle

Tuesday, April 9, 12:45 p.m. – 1:45 p.m. | Lonestar Salon C (GH Floor 2)

[Add to Your Schedule](#)

➤ **Affordable Care Act (ACA) Setup and Reporting in JD Edwards EnterpriseOne**

JD Edwards offers a great option for tracking and reporting ACA (Affordable Care Act). The setup of Health Insurance Plans is likely already in your system. With a few minor adjustments and some setup for ACA reporting, you can create 1095Cs for your employees and then provide 1094C XML documents to the IRS. This course will cover the setup of Medical Plans/Deductions, employee coverage and dependent coverage. It will then cover the setup of ACA reporting. This will include 1095C and 1094C setup, how to generate your forms, and troubleshooting steps. This will allow you to accomplish ACA reporting instead of outsourcing or hand written 1095C forms.

Mackenzie Foster, Principal Technical Support, Oracle

Tuesday, April 9, 2:00 p.m. – 3:00 p.m. | Bowie A (GH Floor 2)

[Add to Your Schedule](#)

➤ **Extending JD Edwards with Content and Experience Cloud and CPQ Cloud**

Hear how JD Edwards customer Glesby Marks is using Design Thinking and Customer Journey Mapping as the secret ingredients behind successful business transformation. See a live demo of Content and Experience Cloud and CPQ Cloud with JD Edwards leveraging both PaaS and SaaS on Oracle Cloud. This solution was the 2018 Oracle Cloud Excellence award winner.

Kaushik Ray, Senior Director of Professional Services, PCB Apps

Tuesday, April 9, 2:00 p.m. – 3:00 p.m. | 221C (CC Floor 2)

[Add to Your Schedule](#)

➤ **A Cloud Strategy with JD Edwards and Oracle Cloud Infrastructure**

Are you looking at move to the cloud? Would you like to get out of the business of managing your datacenter but still want the choice and control of JD Edwards? Learn how the Oracle Cloud Infrastructure (OCI) can enable you to continue to leverage your current JD Edwards investments while having a Cloud strategy. We'll show you how to cut time and money out of your project and look at some of our recent customer successes.

Neil Pugh, Senior Director, Product Development, EnterpriseOne

Tuesday, April 9, 2:00 p.m. – 3:00 p.m. | Bowie B (GH Floor 2)

Learn how Oracle can provide you different paths to Cloud and hear from JD Edwards customers how they built a holistic, scalable platform for their ERP that tightly integrates connectivity, security, automation, and analytics for true digital business transformation. At the same time, continuing to run some of your applications on-premises.

Saikiran Valluri, Product Business Group – Cloud Market Development

Wednesday, April 10, 9:15 a.m. – 10:15 a.m. | 221B (CC Floor 2)

[Add to Your Schedule](#)

➤ **JD Edwards EnterpriseOne Orchestrator: Yes, It's Still Good for Internet of Things**

You might have noticed that we removed the phrase "Internet of Things" from the name of the Orchestrator. Our intention was to broaden the perception about the many use cases and design patterns that the Orchestrator can serve in the digital economy. But let's not forget about those Internet of Things (IoT) use cases. The Orchestrator is still as great as it ever was in IoT scenarios, and even more so as we pursue the value proposition of intelligent ERP: less work for humans and more work for machines. In this session we'll discuss how you can use Orchestrator to supercharge your JD Edwards EnterpriseOne system with real-time, accurate data from the Internet of Things.

AJ Schifano, Senior Principal Product Manager, EnterpriseOne

Wednesday, April 10, 12:45 p.m. – 1:45 p.m. | Bowie A (GH Floor 2)

[Add to Your Schedule](#)

➤ **Getting to Vanilla – The Value of Implementing JD Edwards Without Customizations & How to Get There**

It's a lofty goal - implementing ERP software out of the box without customizations. Customizing software is challenging - it's expensive, difficult to maintain, provides a significant barrier to staying code current, and should be considered only as your last resort. But there's a logical approach to use when you think you need to customize JD Edwards to meet your business needs. Hear about other options to consider before you decide to customize and learn how JD Edwards can help you reach your goal of getting to vanilla.

Before you log that SR requesting a new filter field, additional attributes on a form, or simplifying the steps to complete a transaction or task, consider adopting JD Edwards UX One. UX One includes User Defined Object Types such as Form Personalization, Form Extension, Notifications, and Orchestrator to enable to fulfill these requests your way, when you need it, without customizations.

Aparajeeta Deshpande, Director, Product Development, EnterpriseOne

Paul Houtkooper, Senior Director, Product Development, EnterpriseOne
