## 2. *Ijarah* Corporate Islamic Financing

Oracle FLEXCUBE facilitates Corporate Islamic Financing through a process flow. The process of *Ijarah* refers to a lease contract where the bank purchases property or capital equipment and leases it to a customer. The bank may rent the property/equipment and receive the rent or invest it in the business and get a share of the profit.

This chapter contains the following topics:

- [Section 2.1, "Process Flow Diagram"](#)
- [Section 2.2, "Process Matrix"](#)
- [Section 2.3, "Stages in Corporate Islamic Financing Process Flow"](#)
- [Section 2.4, "Corporate Islamic Financing Application Details"](#)
- [Section 2.5, "Manual Liquidation"](#)

## 2.1 Process Flow Diagram

The process flow diagram given below illustrates the activities carried out during various stages of Corporate Islamic Financing.

## Acquiring a Stage

To acquire a stage, you need to go to the 'Task' menu and select 'Assigned' under 'Standard' option.

You can acquire a task by performing the following tasks:

1. Search for the application from the Quick search / Standard search options (or) look for the application in the assigned Queue.
2. Select the task and click on Acquire button.

All tasks that have been successfully completed are listed in the right side of the screen. Select the check box against your 'Workflow Ref No' and click 'Acquire' button at the top of the screen to acquire the next stage of the task.

The system displays the message as 'Acquire Successful' on successful acquisition of the task.

Click 'Ok' to proceed to the next stage. To select the acquired task for the next stage, select 'Acquired' under 'Standard' option in the 'Task' menu. All the tasks that have been successfully acquired are displayed in the right side of the screen. Search for your workflow reference number and click the 'Workflow Ref No' to open the required screen.

## 2.3 Stages in Corporate Islamic Financing Process Flow

Ijarah process flow uses Oracle BPEL and BPMN framework with multiple human tasks for workflow stages. The capture and enrichment of information in multiple steps can be dynamically assigned to different user roles, so that multiple users can take part in the transaction. Oracle Business rules are used for dynamic creation of multiple approval stages.

Following are the stages involved in Ijarah Corporate Islamic Financing:

## Step 1. Financing Transaction Initiation

In the application entry stage, you can initiate the Ijarah contract and capture the requested details. The system populates the applicants details maintained. You can capture the purchase details of the asset in the Purchase Details tab. The system defaults the Asset type from the product. Click 'Multiple Asset' button to enter the details about the asset. You can pull Lead data and simulate application details. You can attach interactions to the application and upload the documents maintained for this stage.

The screenshot shows a web application window titled "LBL\_MUDARABAH\_TEMPLATE". The form is for creating a new application, as indicated by the "New" button in the top left. The form fields include:

- Workflow Reference # (text input)
- Priority (dropdown menu, currently set to "Low")
- Application Number \* (text input)
- Applicant Branch \* (text input)
- Application Date \* (text input)
- Application Category \* (text input)
- Application Type (dropdown menu, currently set to "Mudarabah", with a "Default" button next to it)
- Asset Type (dropdown menu, currently set to "Home")
- Interaction Id (text input) with a "View" button
- Stage (text input)
- Sub-Stage (text input)
- Status (dropdown menu, currently set to "Initiated")
- Priority (radio buttons for High, Medium, and Low, with Low selected)
- Channel (text input)

At the bottom of the form, there are tabs for "Documents", "Dedupe", "Financing Assets", "Covenants", and "Multiple Asset". Below the tabs, there are fields for "Previous Remarks" and "Remarks", an "Audit" button, an "Outcome" dropdown menu, and an "Exit" button.

## Step 2. Application Follow-up

At this stage, you can upload the documents collected from the applicant and follow up if necessary documents are not submitted by the applicant. The Document Support team verifies and uploads the documents which are provided by the customer. The system does not allow modification of any other data in this stage. The collected documents are scanned and uploaded along with application.

## Step 3. Application Enrichment

At this stage, the application is enriched with the details like Director Details, Financial Details, Linkages, and so on. The user can modify the customer details, if required. In this stage, the user can enter the asset details, Down Payment details and multiple asset details. The system validates duplication of applications and applicants for CIF, CASA, Collaterals, Facilities, Cheque Book validation during SAVE operation.

## Step 4. Underwriting Pre-Qualification

In this stage, the Credit Admin retrieves the documents and reviews it. Financial statements are put in a standard template and basic analysis is done including bank policy Islamic financing norms compliance checks. Details such as Terms and Conditions, Deviations, Summary, Comments, Documents can be captured in this stage. You can view the details of the property such as, 'Property Handover', 'Property Handover Date' and 'End Of Construction Date' for 'Forward Ijarah contract'.

Ijarah specific details like lease type, lease payment mode, residual value details can also be provided in 'Ijarah' tab

## **Step 5. Underwriting Pre-Qualification Approval**

At this stage, underwriter reviews the basic analysis done by the credit along with the application and supporting documents. Underwriter will decide whether to proceed with the deal or not based on the given information. The system allows modification of initial credit analysis done.

The underwriter evaluates the financial documents and project details provided by the customer and prepares the initial credit write up in this stage that includes standard set of terms and conditions. This credit write up is submitted to the credit admin for review and support. The system does not allow modification of customer data and other data provided in the previous stages.

## **Step 6. Risk Evaluation**

At this stage, the user can evaluate the risk associated with the applicant and the application. The user can capture the risk based on credit scores and credit ratios. The user can perform horizontal and vertical analysis. The system does not allow modification of customer data and other data provided in the previous stages.

## **Step 7. Legal Verification**

At this stage, any legal constraints associated with the applicant and the finance application are evaluated. The system does not allow modification of customer data and other data provided in the previous stages.

## **Step 8. Credit Analysis**

In this stage, the Underwriter evaluates the financial documents and project details provided by the customer. The underwriter prepares the initial credit write up in this stage that includes standard set of terms and conditions. This credit write up is submitted to the credit admin for review and support. The system does not allow modification of customer data and other data provided in the previous stages.

## **Step 9. Collateral Evaluation**

At this stage, the collaterals submitted for the finance application are evaluated. After evaluation the details are passed on to the underwriter. In case, if the collateral is new, then Collateral Creation process flow is initiated. The system does not allow modification of customer data and requested details in this stage.

## **Step 10. Underwriting Proposal Preparation**

At this stage, the credit admin evaluates the application based on the inputs from the previous stages. The credit admin will review the initial credit write up and decides to support or reject the application. The credit admin will also have the option to send the application to underwriter for revision. The underwriter arrives at the interest rate, tenor and the charges, based on the evaluation of the application with details and analysis performed so far. The Underwriter prepares the final credit recommendation summary that will include all aspects of the deal like borrower details, finance details, underwriting details, pricing, justification for recommendation and final term sheet.

## **Step 11.Underwriting Proposal Review**

At this stage, the Credit Admin reviews the credit recommendation summary. If there is any error, then the credit admin routes the application back to underwriter for rectification. The system does not allow any modification of details in this stage by the credit admin.

## **Step 12.Application Modification**

At this stage, the user modifies the application details as per the underwriter review comments. The user interacts the customer, in case of additional documents which are required for further processing as mentioned by the reviewer. In case of any additional approval, the modified application is sent back to underwriter for pre-qualification approval. .

## **Step 13.Sanction Approval**

At this stage, the Credit Admin approves or rejects the application based on the credit recommendation summary. The Credit Admin can add comments justifying the sanction. The system does not allow modification of data provided in earlier stages. The system generates the sanction letter for approval or regret letter for rejection as the case may be and send it to the account manager.

## **Step 14.Sanction Letter Review**

At this stage, the account manager reviews the sanction letter or regret letter and sends it to the borrower.

## **Step 15.Customer Sign-off**

At this stage, the customer signs off the sanction letter acknowledging the terms mentioned therein. The document support team receives the signed copy of the sanction letter and uploads the same on to the system. If the borrower rejects the sanction, the application is terminated in this stage. The system does not allow modification of data provided in earlier stages.

## **Step 16.Documentation and TC Verification**

At this stage, the finance documentation team prepares the finance documents for execution by the borrower. Once the documents are ready, it is sent to the borrower for sign off. The details entered in earlier stages cannot be modified.

## **Step 17.Documentation Follow Up**

At this stage, a follow up is done on the mandatory documents, which are yet to be collected from the customer or the borrower. Once the documents are received, it is sent to the borrower for sign off. The details entered in earlier stages cannot be modified.

## **Step 18.Down Payment**

At this stage, the user can do Down payment for the contract. This is an optional stage. The task will come to this stage only when Down payment amount is given. Down payment can be done before or after finance account creation. The user can give the details about the payment amount and settlement account and proceed.

If the user has not given the payment details and preceded, then down payment will not happen for the account and will move to the next stage, but system will throw an override.

If the down payment is done before account creation, then once the account is created system will automatically link the down payment reference number to the finance account on creation.

If the down payment amount is not null and if down payment is not done, then account will be created in 'Uninitiated' status. Once the user does down payment for the entire down payment amount, the account status will be changed to 'Initiated'.

## **Step 19.Manual Retry**

For any exception during the hand off/ unavailability of CI service, the instance is moved to Manual retry stage where the user is allowed to manually re-initiate the core hand off after core validation.

## **Step 20.Final Documentation**

This stage is visited only if the 'Final Documentation Required' flag is checked in the 'Documents & TC Verification' stage. At this stage, documentation team will prepare the finance documents for execution.

## **Step 21.Sale Confirmation**

At this stage, after checking with customer, the bank user confirms the sale of the property. Post confirmation, the task is moved to user acceptance.

## **Step 22.User Acceptance**

At this stage, withdrawal from the lease contract due to some reasons after finance account creation is possible.

## **Step 23.Manual Liquidation**

At this stage, if the disbursement has happened and user has rejected the offer, then there will be a provision to liquidate the contract. For liquidation, full disbursed amount should be selected.
