1.3 **Steps to implement access restrictions to user**

1. Login to OBIEE analytics URL with admin user credentials

2. Once logged in click on Administration link

3. Click on Manage Privileges
4. Click on ‘BI Consumer Role’ link for ‘Catalog Preview UI’ access as shown here

5. Next click on ‘+’ symbol
6. Select users from the dropdown shown and click on Search

7. Select ‘weblogic’ user and click on the arrow to move to Selected Members
8. Now set the Permission to Denied and click Ok
9. Again Press Ok

10. Once done you will see that user is denied to the particular access as shown here
11. Similarly set user rights for ‘weblogic’ user for all the below marked access restrictions

12. To give access follow the same steps as above but select Granted in the Step: 8.
