Copyright © 2001, 2017, Oracle and/or its affiliates. All rights reserved.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

Oracle Hospitality Suites Management is a suites management system targeted towards sports and special event venues. It is integrated with Oracle Hospitality Symphony First Edition and Oracle Hospitality Symphony for guaranteed order accuracy, revenue management, faster response times, and easy account billing. Suites Management streamlines the daily management of suite operations and provides a comprehensive view of all your suite requirements.

Purpose

These Release Notes provide a brief overview of additions, enhancements, and corrections implemented in this software release. Their intent is informative, not instructional. Review Suites Management's product documentation, including technical and application advisories for previous versions, for detailed information on installation, upgrade, configuration, and general use.

Audience

This document is intended for all users of Suites Management version 3.7.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL: <https://support.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received and any associated log files
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at <http://docs.oracle.com/en/industries/hospitality/>

Revision History

1 Features and Updates

This section describes the new features and enhancements included in this release.

Suites Management

Support for Suites API

You can now retrieve Suites configuration data and create, update, retrieve, and delete Suites events and standard orders through the Suites Web Services API interface.

The *Oracle Hospitality Suites Management Suites API Guide* on My Oracle Support at <https://support.oracle.com> contains more information.

2 System Requirements, Supported Systems, and Compatibility

Suites Management version 3.7 is compatible with the following platforms:

Supported POS Applications

- Oracle Hospitality Symphony First Edition version 1.7
- Oracle Hospitality Symphony version 2.9

Supported Operating Systems

- Microsoft Windows Server 2008 64-bit (with 32-bit applications enabled)
- Microsoft Windows Server 2008 R2 64-bit (with 32-bit applications enabled)
- Microsoft Windows Server 2012 R2 (with 32-bit applications enabled)

Supported Databases

- Microsoft SQL Server 2008
- Microsoft SQL Server 2008 R2
- Microsoft SQL Server 2012 R2

3 Resolved Issues

The following issues have been fixed since the last release.

Table 1 – Resolved Issues

Module	CRID	TPID	Description
Suites	N/A	138823	When installing the Suites application on a Microsoft Windows Server 2012 R2 operating system, you can now add a new TLS certificate to Internet Information Services (IIS) bindings without error.
Suites	N/A	136300	During Suites installation, the Security Enforcement screen now shows a success or failure message when adding the certificate to the IIS binding.
Suites	N/A	130834	To support Symphony First Edition (FE) properties other than #1, you can now configure the Symphony FE property number in the System Parameters page. Additionally, the Suites Service installer now prompts for the property number during installation to update the LSMClosedCheckClient.exe.config file. This resolves the issue where Suites failed to retrieve data from properties other than property number 1.
