# 1. Preface

## 1.1 Introduction

This manual is designed to details the maintenances for the Origination process.

## 1.2 Audience

This manual is intended for the Customer Service Representatives (CSRs) and staff in charge of setting up new products in your bank.

## 1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## 1.4 Acronyms and Abbreviations

The following are some of the acronyms and abbreviations you are likely to find in the manual:

|                   |  |
|-------------------|--|
| EOD               | End of Day   |
| BOD               | Beginning of Day                                     |
| ELCM              | Enterprise Limits and Collateral Management          |
| System/the system | Oracle FLEXCUBE system (unless otherwise specified). |

## 1.5 Organization

This manual is organized as follows:

|                  |  |
|------------------|--|
| <b>Chapter 1</b> | <i>About this Manual</i> gives information on the intended audience. It also lists the various chapters covered in this User Manual        |
| <b>Chapter 2</b> | <i>Maintenances</i> lists the maintenances that need to be performed for the Origination Process.  |
| <b>Chapter 3</b> | <i>Function ID Glossary</i> has alphabetical listing of Function/Screen ID's used in the module with page references for quick navigation. |

## 1.6 Related Documents

- The Procedures User Manual
- The Enterprise Limits and Collateral Management User Manual
- The Products User Manual

## 1.7 Glossary of Icons

This User Manual may refer to all or some of the following icons.

| Icons   | Function    |
|---|-------------|
|  | Exit        |
|  | Add row     |
|  | Delete row  |
|  | Option List |

---

## 3. Maintenances

### 3.1 Introduction

As part of general maintenance required for the successful functioning of Credit Appraisal Management Origination, you should maintain the following in the system:

- [Section 3.2, "Maintaining System Data Elements"](#)
- [Section 3.3, "Defining Template for Calculating Ratios"](#)
- [Section 3.4, "Maintaining Credit Ratios"](#)
- [Section 3.5, "Maintaining Benchmark Ratio"](#)
- [Section 3.6, "Maintaining Document Details"](#)
- [Section 3.7, "Maintaining Application Category Details"](#)
- [Section 3.8, "Creating Conversations"](#)
- [Section 3.9, "Maintaining Origination Dashboard Details"](#)
- [Section 3.10, "Maintaining Credit Bureau Details"](#)
- [Section 3.11, "Maintaining Credit Rating Rules"](#)
- [Section 3.12, "Configuring Queues"](#)
- [Section 3.13, "Maintaining Field Investigation Details"](#)
- [Section 3.14, "Maintaining Override Details"](#)
- [Section 3.15, "Maintaining Balance Sheet Size"](#)
- [Section 3.16, "Maintaining Document Upload"](#)
- [Section 3.17, "Covenant Maintenance"](#)
- [Section 3.18, "Uploading Modified Excel"](#)
- [Section 3.19, "Configuring Landing Page "](#)
- [Section 3.20, "Maintaining Entity Details"](#)
- [Section 3.21, "Maintaining Entity Dependency Details"](#)
- [Section 3.22, "Maintaining Customer Economic Dependency Details"](#)

## 3.2 Maintaining System Data Elements

In order to calculate financial ratios, you can maintain System Data Elements (SDEs) using the 'SDE Maintenance' screen. You can invoke this screen by typing 'ORDSDEMT' in the field at the top-right corner of the Application tool bar and clicking the adjoining arrow button.

The screenshot shows the 'SDE Maintenance' application window. It features a 'Save' button at the top left. The main area contains several input fields: 'Group / Worksheet Name \*', 'Element Type \*' (a dropdown menu with 'Corporate' selected), 'Group / Worksheet Description', 'SDE Name \*', 'SDE Description', 'Data Type' (a dropdown menu with 'Number' selected), 'SDE Type' (a dropdown menu with 'Static' selected), and 'Derivation Required'. Below these fields is a table with columns: 'SDE Name \*', 'SDE Description', 'Data Type', 'SDE Type', 'Derivation Required', and 'Deri'. The table has one row with a checkmark in the first column, a text input field, a text input field, a dropdown menu with 'Number', a dropdown menu with 'Static', and a checkbox. At the bottom of the window, there are labels for 'Maker', 'Checker', 'Mod No', 'Date Time:', 'Record Status', and 'Authorization Status'. A 'Cancel' button is in the bottom right corner.

Specify the following details:

### Group/Worksheet Name

Specify the group/worksheet name here.

### Element Type

Select the element type from the adjoining drop-down list. This list displays the following values:

- Corporate
- Retail
- Both

### Group/Worksheet Description

Specify a brief description of the group/worksheet you are maintaining.

### SDE Name

Specify a unique name for the SDE you are maintaining.

### SDE Description

Specify a description for the SDE you are maintaining.

### Data Type

Select the data type of the SDE from the adjoining drop-down list. This list displays the following values:

- VARCHAR2
- Number
- Date

## SDE Type

Select the SDE type from the adjoining drop-down list. This list displays the following values:

- Template
- Static

## Derivation Required

Select this check box to indicate that derivation formula is required for the SDE.

## Derivation Formula

Specify the derivation formula here. You can also maintain the derivation formula in the 'Condition Builder' screen which is invoked by clicking the 'Formula' button.

The screenshot shows the 'Condition Builder' dialog box. It has a title bar with a diamond icon and the text 'Condition Builder'. The main area is divided into two sections. The top section is labeled 'Condition' and contains a large text area with the word 'undefined' and a small help icon. The bottom section is labeled 'Business Rule' and contains several controls: a 'Braces' section with three dropdown menus, a 'Value' section with a text input field and 'Insert' and 'Clear' buttons, and 'Ok' and 'Cancel' buttons at the bottom right.

Specify the following details:

## Condition

Specify the condition for the rule here.

## Business Rule

### Braces

Select the braces from the adjoining drop-down list.

### Functions

Select the functions from the adjoining drop-down list.

### Elements

Select the elements from the adjoining option list. This list displays all valid elements maintained in the system.

### Operators

Select the mathematical operators from the adjoining drop-down list. This list displays the following values:

- Equal To

- Greater Than
- Greater Than or Equal To
- Less Than
- Less Than or Equal To
- Like
- Not Like
- Not Equal To

### Logical Operators

Select the logical operators from the adjoining drop down list. This list displays the following values:

- And: Use 'And'
- Or: Use 'OR'

### Value

Specify the value of the SDE to define the condition. The value may be numeric or alphanumeric, as required for the condition.

After building the condition, click the 'Insert' button to insert the same. To remove a condition, click the 'Clear' button in the screen.

## 3.3 Defining Template for Calculating Ratios

You can define templates for calculating financial ratios taken from the balance sheet, income statement, statement of cash flows, or statement of retained earnings within the product. You can capture the template related details through the 'Ratio Template Definition' screen.

You can invoke this screen by typing 'ORDTEMDF' in the field at the top-right corner of the Application tool bar and clicking the adjoining arrow button.

Specify the following details:

**Industry**

Specify the industry name here.

**Sheet Name**

Specify the worksheet name here.

**Short Description**

Specify a brief description about the template.

Click the 'Generate' button to view an excel sheet, which is generated on the basis of the System Data Elements (SDE) maintained in the system.

**Worksheet****Worksheet Name**

Specify the name of the worksheet.

**Worksheet Description**

Specify a brief description about the worksheet.

**Work sheet Required**

Select this check box to include the worksheet in the generated Excel.

**SDE Details****SDE Name**

Specify the SDE name here.

**SDE Description**

Specify a brief description of the SDE.

**Data Type**

Select the data type from the adjoining drop-down list. This list displays the following values:

- VARCHAR2
- Number
- Date

**Category**

Select the SDE category from the adjoining drop-down list. This list displays the following values:

- Asset
- Liability
- Income
- Expense

**Sub Category**

Select the sub-category of the SDE from the adjoining option list. This list displays all valid sub-categories maintained in the system. Sub- Category has to be maintained as part of SDE maintenance only if the subcategory is used as part of Ratio formula.

For example:

If SDE's defined are SDE1, SDE2, SDE3 and all of them belong to a SUB-CATEGORY1, then you can use SDE1, SDE2 and SDE3 directly in the Ratio formula.

You can also define SUBCATEGORY1 in the SDE maintenance and use the same in ratio formula. The system will then internally derive the formula:

SUB-CATEGORY1 =SDE1+SDE2+SDE3

---

**Note**

The sub-category should be defined as an SDE in the 'SDE Maintenance' (ORDSDEMT) screen.

---

**SDE Type**

System displays the SDE type here. The SDE type could either be General SDE or Derived SDE based on the SDE maintenance.

## 3.4 Maintaining Credit Ratios

You can maintain the rules to calculate the credit ratios in 'Credit Ratio Maintenance' screen. You can invoke this screen by typing 'ORDRATMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can specify the following details in this screen:

**Group ID**

Specify a unique identification code for the ratio group.

**Description**

Specify a suitable description for the ratio group.

**Type**

Select the type of the customer from the following options available:

- Retail
- Corporate
- Ijarah
- Istisna
- Mudarabah

- Murabaha
- Musharaka
- Tawarooq

### Ratio ID

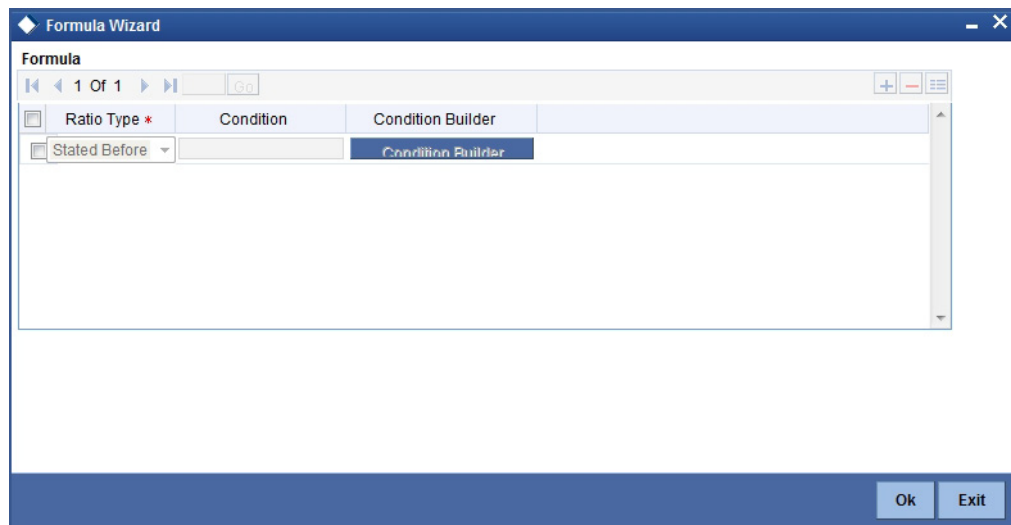

Specify a unique identification for the credit ratio being maintained.

### Description

Specify a suitable description for the credit ratio.

## 3.4.1 Specifying Formula Details

You can specify the formula to calculate the credit ratio by clicking the 'Formula' button corresponding to a ratio ID. The 'Formula' screen is displayed where you can specify the condition for calculating the credit ratio associated with a ratio ID.

You can specify the following details here:

### Ratio Type

Select the type of the ratio being maintained, from the drop down list provided. The following options are available:

- Stated Before
- Stated After
- Actual Before
- Actual After

---

### Note

All of the above mentioned options are applicable for retail ratio type maintenance. For Corporate Ratio Type Maintenance only Actual Ratio Types can be maintained.

---

### Condition

The condition specified using the Elements, Functions, Operators, and so on is displayed here.

Click the Condition Builder button to define the following fields.

### Elements

Specify the data elements to be used to define the formula for credit ratio calculation or select the element from the option list provided.

### Functions

Select the mathematical function to be used to define the formula from the drop-down list provided.

### Braces

Select the opening or the closing brace from the drop-down list provided, to define the credit ratio calculation formula.

### Operators

Select the mathematical operator to be used to define the credit ratio calculation formula. You can select '+', '-', '\*', or '/'.

### Logical Operators

Select the logical operators from the adjoining drop down list. This list displays the following values:

- And: Use 'And'
- Or: Use 'OR'

### Value

Specify the value of the SDE to define the condition. The value may be numeric or alphanumeric, as required for the condition.

After building the condition, click the 'Insert' button to insert the same. To remove a condition, click the 'Clear' button in the screen.

## 3.4.2 Viewing Credit Ratio Summary

You can view a summary of the credit ratios in 'Credit Ratio Maintenance' screen. You can also query for a particular record based on desired search criteria.

You can invoke this screen by typing 'ORSRATMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can specify any of the following details to search for a record:

- Authorization Status
- Record Status
- Group ID

Click 'Search' button to search for a record based on the search criteria specified. You can double click a desired record to view the detailed screen.

## 3.5 Maintaining Benchmark Ratio

You can maintain the benchmark details for criteria like category, industry, and balance sheet size through 'Ratio Benchmark Maintenance' screen. The maintained benchmark values are used to generate report for the customer financial status against the bank benchmark details.

You can invoke this screen by typing 'ORDRATBM' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |
| <input type="checkbox"/> |                      |               |          |             |          |                    |             |

Exit

You can click 'Search' button to view all the pending functions. However, you can to filter your search based on any of the following criteria:

#### Authorization Status

Select the authorization status of the contract from the drop-down list.

#### Category

Select the category from the option list.

#### Industry

Select the industry from the option list.

#### Period Type

Select the period type from the option list.

#### Record Status

Select the record status from the drop-down list.

#### Ratio Group

Select the ratio group from the option list

#### Balance Sheet Size

Select the balance sheet size from the option list.

When you click 'Search' button the records matching the specified search criteria are displayed. For each record fetched by the system based on your query criteria, the following details are displayed:

- Authorization Status
- Record Status
- Category
- Ratio Group
- Industry
- Balance Sheet Size
- Period Type

## 3.6 Maintaining Document Details

You can maintain the list of documents that are required during the CAM origination process, in 'Documents Verify Maintenance' screen. Document checklists are maintained for an application category and for the various stages in the origination process. You can also maintain the details of the Advices that need to be generated on completion of a stage in the process.

You can invoke 'Documents Verify Maintenance' screen by typing 'ORDDOCMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

The screenshot shows the 'Document verify Maintenance' application window. It features a top navigation bar with 'New' and 'Enter Query' buttons. Below this, there are input fields for 'Process Code' and 'Application Category'. The main area is divided into four sections: 'Process Stages' (with 'Stage' fields), 'Document Details' (with a table for 'Document Category', 'Document Type', and 'Mandatory'), 'BI Advices' (with a table for 'Report Name', 'Description', 'Template', 'Type', 'Format', 'Locale', and 'Outcome'), and 'Checklist Details' (with a table for 'Sequence Number', 'Checklist Item', and 'Mandatory'). The bottom of the window has a status bar with fields for 'Maker', 'Checker', 'Date Time', 'Mod No', 'Record Status', and 'Authorization Status', along with an 'Exit' button.

You can specify the following details in this screen:

### Process Code

Specify the process code of the process for which you wish to maintain override conditions or select the process code from the option list provided.

**Application Category**

Specify the category to which the application belongs or select the application category from the option list provided.

**Stage**

Select the stage of the CAM origination process from the option list provided.

**Stage Title**

Specify a suitable description for the loan origination stage.

**Document Details****Document Category**

Specify the category to which the document belongs or select the document category from the option list provided.

**Document Type**

Specify the type of the document or select the document type from the option list provided.

**Mandatory**

Select the option to indicate whether the document is mandatory or not. You can select any of the following options from the drop-down list provided:

- Mandatory
- Overridden
- Others

**BI Advices****Report Name**

Specify the name of the advice report to be generated on completion of the process stage.

**Template**

Specify the template to be used to generate the advice report.

**Format**

Select the format in which the advice report needs to be generated from the drop-down list provided. The following options are available:

- PDF
- RTF

**Locale**

Select the locale information to be used for generating the advices from the drop-down list. The following options are available:

- en-US

**Out come**

Specify the outcome for which the report needs to be generated.

**Checklist Details****Sequence Number**

The system displays the sequence number.

**Checklist Item**

Specify the checklist to be maintained.

## Mandatory

Check this box to indicate whether the checklist is mandatory or optional.

### 3.6.1 Viewing Document Checklist Summary

You can view a summary of the document checklists and advices in 'Document Details' screen. You can also query for a particular record based on desired search criteria.

You can invoke this screen by typing 'ORSDOCMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

The screenshot shows a web application window titled 'Summary'. At the top, there are buttons for 'Advanced Search' and 'Reset'. Below these are four search criteria fields: 'Authorization Status' (a dropdown menu), 'Record Status' (a dropdown menu), 'Process Code' (a text input field with a search icon), and 'Application Category' (a text input field with a search icon). Below the search fields, there is a 'Records per page' dropdown set to '15' and a '1 Of 1' indicator. The main area is a table with the following headers: 'Authorization Status', 'Record Status', 'Process Code', and 'Application Category'. The table contains several empty rows. At the bottom right of the window is an 'Exit' button.

You can specify any of the following details to search for a record:

- Authorization Status
- Record Status
- Process Code
- Application Category

Click 'Search' button to search for a record based on the search criteria specified. You can double click a desired record to view the detailed screen.

### 3.7 Maintaining Application Category Details

You can maintain various application categories linked to multiple products that cater to the requirements of different customers, in 'Application Category Maintenance' screen. The entire process of loan origination depends mainly on the category to which the application belongs.

You can invoke 'Application Category Maintenance' screen by typing 'ORDCATMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can specify the following details in this screen:

### **Application Category**

Specify a unique identification for the application category.

### **Category Description**

Specify a suitable description for the application category.

### **Rule ID**

Specify the credit rule to be associated with the application category or select the Rule Id from the option list provided.

### **Ratio ID**

Specify the credit ratio to be associated with the application category or select the Ratio Id from the option list provided.

### **Pricing Group**

Specify the pricing group. The pricing group comprises of the multiple pricing IDs containing formula.

## **3.7.1 Main Tab**

You can capture the following details in the 'Main' tab.

### **Product Details**

You can specify the following details related to the loan product here:

#### **Product Code**

Specify the identification code of the product to be linked to the application category being maintained. You can also select the product code from the option list provided.

#### **Product Description**

The description associated with the selected product gets displayed here.

**Default**

Check this box to indicate if the product selected should be maintained as the default product for the application category.

**Other Details**

You can capture the additional details related to the product here:

**Offer ID**

Specify a unique identification for the offer being made to the customer.

**No of Installments**

Specify the number of installments.

**Units**

Select the units based on which the disbursement should be carried out. The following options are available in the option list:

- Daily
- Weekly
- Monthly
- Quarterly
- Half Yearly
- Yearly

**Frequency**

Specify the frequency at which the disbursement should be carried out.

**Rate**

Specify the interest rate.

**Rate Code**

Specify the rate code used to derive the interest rate or select the rate code from the option list provided.

**Spread**

Specify the spread that is applicable.

**Effective Rate**

The effective rate of interest gets displayed here, based on the interest and the spread specified.

**Default**

Select this check box to indicate if the loan offer specified should be maintained as the default offer for the application category.

**3.7.2 Agency Tab**

In 'Agency' tab, you can capture the details of the credit rating agencies and credit bureaus that provide credit rating details for customer securities.

You can specify the following details in this screen:

### **Credit Agency**

You can capture the details related to the credit rating agencies here.

#### **Agency Code**

Specify the identification code of the rating agency that provides credit rating details for customer securities.

#### **Agency Name**

Specify the name of the rating agency that provides credit rating details for customer securities.

### **Bureau Details**

You can capture the details related to the credit bureau here.

#### **Bureau Code**

Specify the identification code of the credit bureau that provides credit ratings for customer securities.

#### **Bureau**

Specify the name of the credit bureau that provides credit rating details for customer securities.

### 3.7.3 Viewing Application Category Summary

You can view a summary of the application categories in 'Category Details' screen. You can also query for a particular record based on desired search criteria.

You can invoke this screen by typing 'ORSCATMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

| <input type="checkbox"/> |                      |               |                      |                      |                  |

Exit

You can specify any of the following details to search for a record:

- Authorization Status
- Record Status
- Application Category

Click 'Search' button to search for a record based on the search criteria specified. You can double click a desired record to view the detailed screen.

## 3.8 Creating Conversations

You can create conversations using the 'Conversation Input' screen. To invoke this screen, type 'ITDINTRN' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

The screenshot shows the 'Conversation Capture Details' window. It contains the following sections and fields:

- Customer Details:** Customer ID, Customer Name.
- Conversation Details:** Conversation ID, Conversation Date, Conversation Time, Last Changed On, Priority (Low), Conversation Status (Open), Target Closure Date, Conversation Category (Call Report), Venue (Branch), Conversation Mode (Not Available).
- Department Details:** Department, User/Role (Role), Other Department, Assigned To, Senior Management Involved (Not Available), Other Offices Involved.
- Channel Details:** Direct Access Channel (No), External System User ID, Channel User ID.
- Message Details:** Original Request, Subject, Detail, Documents Presented, Reply to Customer (No), Closure Remarks.
- Documents:** Maker, Checker, Date Time, Mod No, Record Status, Authorization Status.

An 'Exit' button is located at the bottom right of the window.

In this screen, you need to specify the following information:

### Conversation ID

The system generates and displays the conversation ID. This is a unique identifier of the conversation.

### Conversation Status

The system displays the conversation status as 'Open'. However, you can modify the conversation status. The drop-down list displays the following statuses:

- Open - Select 'Open' to create a new conversation.
- WIP - Select WIP to assign the conversation to a user.
- Close - Select Close when the conversation is closed.
- Pending with Customer - Select Pending with Customer if the conversation is pending with Customer.
- Re-Open - Select Re-Open to modify a closed conversation.

### Customer ID

Specify the customer ID. The option list displays all valid customer IDs maintained in the system. You can select the appropriate one.

### Customer Name

Based on the customer ID selected, the system displays the name of the customer.

**Department**

Specify the corresponding department. You can also click on the adjoining option list and select the corresponding Department.

**Other Department**

Specify other departments, if any.

**User/Role**

Select the category to which the conversation is being assigned to from the following options:

- User
- Role

**Assigned To**

Specify the bank user or role, to which the conversation needs to be assigned by clicking on the adjoining option list.

**Conversation Category**

Select the category of the corresponding conversation from the following list:

- Call Report
- Courtesy Meeting
- Customer Interaction
- Service Request
- Complaints
- Lead

**Venue**

Select the venue of the corresponding conversation from the following list:

- Branch
- Face to Face
- Client Office
- Client Residence
- Public Place

**Conversation Date**

Specify the date when the conversation started. The system defaults the conversation date in accordance with the system date and branch offset. Conversation date cannot be future dated.

**Conversation Time**

Specify the time when the conversation started. The system defaults the conversation time in 24 hours format.

**Senior Management Involved**

Select the corresponding senior management involved from the following options:

- COO
- Region Head
- Senior RM
- CEO

**Other Offices Involved**

Specify other offices involved, if any.

**Last Changed On**

Last Changed On is a read-only field displaying the date and time of the last modification.

**Priority**

The system defaults the priority as Low. Select the priority of the corresponding conversation from the following list:

- Low
- Medium
- High

**Target Closure Date**

Specify the tentative conversation closure date that was communicated to the customer.

**Conversation Mode**

Select the mode of conversation from the following options:

- Meeting
- Telephone
- Email
- Other
- Face to Face

**Subject**

Specify a subject for the corresponding conversation.

**Detail**

Specify the additional details of the corresponding conversation, if any.

**Original Request**

Specify the initial conversation message.

**Documents Presented**

Specify the details of the documents presented.

**Display Closure Remarks for Customer**

Select the option to specify whether to display closure remarks for customer or not. The system defaults the Closure Remarks for Customer as 'Yes'.

**Closure Remarks**

Specify the closure remarks

---

**Note**

Closure Remarks is mandatory if 'Display Closure Remarks to Customer' is opted; and Conversation Status belongs to the following options:

---

- Open
- WIP
- Pending with Customer
- Close

**Direct Access Channel**

The system displays the Direct Access Channel as checked if conversation is initiated from FCDB-Direct access channels

### External System User ID

The system displays the system user ID of FCDB.

### Channel User ID

The system displays the channel used by FCDB for the conversation.

## 3.8.1 Uploading Documents

You can upload documents during conversation using 'Document Upload' screen. These documents are retrievable to the bank users or customers involved in the conversation. To invoke this screen, click 'Documents' button in 'Conversation Input' screen.

| Document Category *      | Document Type * | Document Reference * | Remarks | Upload | View |
|--------------------------|-----------------|----------------------|---------|--------|------|
| <input type="checkbox"/> |                 |                      |         | Upload | View |
|                          |                 |                      |         |        |      |

You can specify the following details here:

#### Document Category

Select the appropriate Document Category from the adjoining option list.

#### Document Type

Select the appropriate Document Type from the adjoining option list.

#### Document Reference

System displays the document reference number when you upload the document in the server.

#### Remarks

Provide the additional remarks related to the document to be uploaded.

#### Upload

Click 'Upload' button to upload the document.

You can browse through the document path and click 'Submit' to generate the document reference number.

#### View

Click 'View' button to retrieve and view the uploaded document.

System stores the uploaded documents in the server as a binary image in the Web Content Management Repository. The bank users and customers are able to retrieve these documents and documents related information during conversation enquiries.

### 3.8.2 Viewing Conversation Summary

You can view the summary of all conversation created in Oracle FLEXCUBE using the 'Conversations Summary' screen. To invoke this screen, type 'ITSINTRN' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

| <input type="checkbox"/> |                      |               |                 |         |               |                   |              |
| <input type="checkbox"/> |                      |               |                 |         |               |                   |              |
| <input type="checkbox"/> |                      |               |                 |         |               |                   |              |
| <input type="checkbox"/> |                      |               |                 |         |               |                   |              |
| <input type="checkbox"/> |                      |               |                 |         |               |                   |              |
| <input type="checkbox"/> |                      |               |                 |         |               |                   |              |
| <input type="checkbox"/> |                      |               |                 |         |               |                   |              |
| <input type="checkbox"/> |                      |               |                 |         |               |                   |              |

Exit

You can search for the conversations based on one or more of the following parameters:

- Authorization Status
- Record Status
- Conversation ID
- Customer Name
- Conversation Date
- Conversation Mode
- Priority
- Conversation Status
- Customer ID
- Department
- Target Closure Date
- Venue
- Channel User ID

Once you have set the search parameters, click the 'Search' button. The summary screen displays the following information:

- Conversation ID
- Subject
- Customer Name
- Conversation Date
- Conversation Mode
- Priority

- Conversation Status
- Customer ID
- Department
- Target Closure Date
- Venue
- Channel User ID

### 3.8.3 Viewing Conversations on User Dashboard

You can view the conversation details through 'Dashboard Maintenance' screen. You can invoke this screen by clicking on the 'Interactions' tab available on the main screen.

| Conversation ID | Subject                 | Assigned To |
|-----------------|-------------------------|-------------|
| 0040000035      | Debit Cards             | SHANK       |
| 0040000039      | Credit Card             | SHANK       |
| 0040000034      | Amount debited twice fr | SHANK       |
| 0040000038      | Credit Card             | SHANK       |

The conversation dashboard is mapped to the role 'IT-CONV-VW'.

The dashboard displays the following information pertaining to the first five conversations:

- Conversation ID
- Subject
- Assigned to

You can use the arrow buttons on the top right corner of the dashboard to view the next/previous set of conversations.

The system displays the conversation details in the following sequence starting with the oldest conversation:

1. Assigned to me and Open
2. Assigned to my role and Open
3. Assigned to me and in WIP status
4. Assigned to my role and in WIP status
5. Assigned to me and in Pending with customer status
6. Assigned to my role and in Pending with customer status

## 3.9 Maintaining Origination Dashboard Details

You can maintain dashboard related information using the 'Origination Dashboard Maintenance' screen. You can invoke this screen by typing 'ORDDSHMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

The screenshot shows the 'Dashboard' maintenance window. It includes a 'Save' button at the top left. Below it are input fields for 'Dashboard Id', 'Description', and 'Partition Per Page' (set to 6). The 'Dashboard Mapping Details' section contains a table with columns: Sequence Number, Queue Type, Queues, Report Id, Fields, Actions, and Mapping Details. The 'Dashboard Menu Details' section contains a table with columns: Language, Main Menu, and Sub Menu. At the bottom, there is a status bar with fields for Maker, Date Time, Mod No, Record Status, and Authorization Status, along with a 'Cancel' button.

Specify the following details:

### Dashboard Id

Specify the dashboard id here.

### Description

Specify a brief description of the dashboard.

### Partition Per Page

Specify the maximum number of partitions to be displayed in each dashboard page.

### Dashboard Mapping Details

#### Sequence Number

Specify the sequence number for the dashboard. It is used to sequence the order in which the frames are displayed in dashboard.

#### Queue Type

Select the queue type from the adjoining drop-down list. This list displays the following values:

- Queue - If you select this option, then system displays all valid queue ids in the 'Queue Id' option list.
- Count - If you select this option, then system displays the title for the frame selected. This is used when you want to configure a summary dashboard having multiple queue and their corresponding count.

## Queue ID

If the 'Queue Type' is 'Queue', then the adjoining option list displays all valid queue ids maintained in the system. If the 'Queue Type' is 'Count', then the adjoining option list displays the title for the view.

## Report ID

Select the report id for the dashboard from the adjoining option list. This list displays all valid report ids maintained in the system.

## Fields

System displays the fields of the dashboard here, based on the fields selected from the 'Mapping Details' screen.

## Actions

System displays the fields of the dashboard here, based on the fields selected from the 'Mapping Details' screen.

## Dashboard Menu Details

### Main Menu

Specify the main menu name here,

### Language Code

Specify the language code of the dashboard.

### Sub Menu

Specify the name of the sub menu.

## 3.9.1 Specifying the Mapping Details

You can select the fields and actions by clicking the 'Mapping Details' button in the 'Origination Dashboard Maintenance' screen. This screen is used to select the action and columns that you want to perform on a particular frame of the dashboard ..

The screenshot shows the 'Mapping Details' window with the following components:

- Dashboard Id:** DEFAULT
- Sequence Number:** 1
- Available Fields:** A list of fields with checkboxes and descriptions. The first field, 'WF\_REF\_NO', is selected. Other fields include 'TXN\_REF\_NO' (Split Transaction), 'TITLE' (Prefix 1), 'ASSIGNEEGROUPS', 'ASSIGNEEUSERS', and 'CUSTOMNAME' (Customer Name).
- Available Actions:** A list of actions with checkboxes and descriptions. The first action, 'ACQUIRE', is selected. Other actions include 'COPY' (Copys the Task), 'ESCALATE' (Escalates the Task), 'REASSIGN' (Reassigns the Task), and 'RELEASE' (Releases the Task).
- Selected Fields:** A list for selecting fields from the available fields. It currently contains one entry with a checkbox and the description 'WF\_REF\_NO'.
- Selected Actions:** A list for selecting actions from the available actions. It currently contains one entry with a checkbox and the description 'ACQUIRE'.
- Navigation:** Buttons for '1 Of 1' and 'Go' are present for both the Available Fields and Available Actions lists.
- Buttons:** 'Ok' and 'Cancel' buttons are at the bottom right.

In this screen, you can select the required fields and actions for the dashboard from the Available Fields and Available Actions. Available fields displays all the queues maintained from SMDQUEMT screen, if the option selected is Count in queue type. Available action displays all the actions listed in the header of the task bar. On clicking the right-arrow button,

system moves the selected fields and actions to the Selected Fields and Selected Actions sections respectively. Similarly, to de-select an action or a field, click the left-arrow button. Available fields displays blank if the queue type is selected queue and if the option is selected as 'Queue'. The mapping details are not allowed if the queue type is selected as BAM. The system displays an error message as “No field mappings available for selected queue criteria”.

## 3.10 Maintaining Credit Bureau Details

You can maintain the details of external credit bureaus using 'Credit Bureau Maintenance' screen. You can use the credit bureau information while retrieving the credit information of customers through external credit checks.

To invoke the 'Credit Bureau Maintenance' screen, type 'ORDCBRMT' in the field at the top right corner of the application toolbar and click the adjoining arrow button.

Specify the following details:

### Bureau Code

Specify a unique code that identifies the credit bureau that you are maintaining.

### Bureau

Specify the name of the bureau.

### Branch Code

Specify the branch code for which the bureau details are maintained. Use add row button to add more rows to the list of branches.

### Validity Period for Bureau Report

Select the number of days during which the credit report from this bureau is considered as valid. The drop-down list displays the following values:

- 30 days
- 60 days
- 90 days
- 120 days

- **Blank Space** - If the credit check is initiated for the same bureau either automatically or manually by underwriter, a new bureau report will be fetched and displayed irrespective of any bureau report existing for same applicant from the same bureau.

Select the appropriate one. The system will store the credit bureau report of the applicant for the validity period from the date of report request.

You can add more rows to the list of branches using add row button. Once you have specified all the details, save the maintenance.

The following credit bureaus are already available in the system.

| Bureau Name | Bureau Code |
|-------------|-------------|
| Equifax     | EQFX        |
| TransUnion  | TRUN        |
| Credco      | CRDC        |
| Experian    | EXPN        |
| CIBIL       | CIBL        |

You can add the details of other credit bureaus as per requirement.

### 3.10.1 Viewing Credit Bureau Summary

You can view a summary of credit bureau details maintained in the system using 'Credit Bureau Details' screen. To invoke the screen, type 'ORSCBRMT' in the field at the top right corner of the application toolbar and click the adjoining arrow button.

You can search for the records based on one or more of the following parameters:

- Authorization status
- Record status
- Bureau code

Once you have specified the search parameters, click search button. The system displays the following details of each result.

- Authorization status
- Record status
- Bureau code

## 3.11 Maintaining Credit Rating Rules

You can maintain a set of questions along with a possible set of answers with associated scores, to assess the credit rating of a prospective customer. You can also calculate the risk factor associated with the customer and arrive at a credit grade based on the scores obtained.

You can maintain these details in 'Rule Details' screen. You can invoke this screen by typing 'ORDRULMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.'

You can specify the following details in this screen:

### Rule ID

Specify a unique identification for the credit rating rule.

### Description

Specify a suitable description for the credit rating rule.

### Type

Select the type of customer from the following options available:

- Retail
- Corporate

- Ijarah
- Istisna
- Mudarabah
- Murabaha
- Musharaka
- Tawarooq

### **3.11.1 Main Tab**

You can maintain the following details in this tab:

#### **Question Details**

##### **Question ID**

The question ID is automatically generated by the system.

##### **Category**

Select the category to which the question belongs from the option list provided.

##### **Question**

Specify the question to be asked to the prospective customer to derive the credit rating score.

#### **Answer Details**

##### **Sequence Number**

The sequence number is automatically generated by the system.

##### **Possible Answer**

Specify a set of possible answers to be associated with a question.

##### **Score**

Specify the score associated with an answer.

### 3.11.2 Risk Factor Tab

You can specify the risk details associated with the customer and also indicate the formula for calculating the credit score in this tab.

The screenshot shows the 'Rule Maintenance' window with the 'Risk Factor' tab selected. At the top, there are input fields for 'Rule Id \*' and 'Account Description', a 'Type' dropdown menu set to 'Retail', and a checked 'New Route' checkbox. Below these is a tab bar with 'Main' and 'Risk Factor'. The 'Risk Factor' tab contains a table with columns 'Risk Id \*', 'Account Description', and 'Formula'. The table has one row with empty input fields. Above the table is a navigation bar with '1 Of 1' and a 'Go' button. At the bottom of the window, there is a 'Rating | Auto Decision' section with fields for 'Maker', 'Checker', 'Mod No', 'Date Time:', 'Record Status', and 'Authorization Status'. An 'Exit' button is located in the bottom right corner.

You can specify the following details here:

#### **Risk ID**

Specify a unique identifier for the credit risk being maintained.

#### **Description**

Specify a suitable description for the credit risk.

#### 3.11.2.1 Specifying Formula Details

You can specify the formula to calculate the credit score by clicking the 'Formula' button corresponding to a credit risk entry in Risk Factor tab. The 'Formula' screen is displayed

where you can specify the condition for calculating the credit score associated with a risk condition.

| Sequence Number * | Condition | Result |
|-------------------|-----------|--------|
|                   |           |        |

Elements

Index

Functions

Braces

Operators

Logical Operators

Ok Exit

You can specify the following details here:

### Sequence Number

The sequence number is automatically generated by the system.

### Condition

The condition specified using the Elements, Functions, Operators etc. gets displayed here.

### Result

Specify the result to be associated with the condition specified.

### Elements

Specify the data elements to be used to define the formula for credit score calculation or select the element from the option list provided.

### Functions

Select the mathematical function to be used to define the formula from the drop-down list provided.

### Braces

Select the opening or the closing brace from the drop-down list provided, to define the credit score calculation formula.

### Operators

Select the mathematical operator to be used to define the credit score calculation formula. You can select '+', '-', '\*', or '/'.

### Logical Operators

Select the logical operator to be used to define the credit score calculation formula. You can select '<', '>', '=', '<>', '>=', '<=', 'AND' or 'OR'.

### 3.11.3 Specifying Credit Grades

You can maintain different credit grades based on the credit scores obtained. Click 'Rating' button in Rule Details screens to invoke the 'Rating' screen, where you can maintain these details.

| Sequence Number * | Score | Grade |
|-------------------|-------|-------|
|-------------------|-------|-------|

You can specify the following details here:

#### **Sequence Number**

The sequence number is automatically generated by the system.

#### **Score**

Specify the score associated with a credit risk.

#### **Grade**

Specify the credit grade based on the score obtained.

### 3.11.4 Specifying Auto Decision

You can maintain decisions based on the credit scores obtained to decide applicants eligibility for customer. Click 'Auto Decision' button in Rule Details screens to invoke the 'Auto Decision' screen, where you can maintain these details.

| Serial Number * | Score | Credit Decision  |
|-----------------|-------|------------------|
|                 |       | RECOMMEND REJECT |

#### **Serial Number**

System generates the unique serial number for each auto decision status.

#### **Score**

Specify the maximum credit score for the applicant based on the auto decision.

### Credit Decision

Specify the credit decision for the applicant based on the auto decision. You can select any of the following options from the drop-down list provided:

- AUTO APPROVED
- RECOMMEND-APPROVAL
- RECOMMEND-REJECT
- AUTO REJECTED.

#### 3.11.5 Viewing Credit Rule Summary

You can view a summary of the credit rules in 'Rule Maintenance' screen. You can also query for a particular record based on desired search criteria.

You can invoke this screen by typing 'ORSRULMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

| <input type="checkbox"/> |                      |               |         |                     |

Exit

You can specify any of the following details to search for a record:

- Authorization Status
- Record Status
- Rule ID

Click 'Search' button to search for a record based on the search criteria specified. You can double click a desired record to view the detailed screen.

### 3.12 Configuring Queues

A queue represents a set of human tasks that are grouped on the basis of the common characteristics they share. For instance, you could have groups based on whether the tasks have been completed, deleted or the type of transaction

You can define the basis for grouping for each queue in the 'Queue Maintenance' screen. To invoke this screen, type 'SMDQUEMT' in the field at the top right corner of the Application tool bar and click the adjoining arrow button. The following screen is displayed:

In this screen, you are required to specify the following details:

### Queue ID

Specify a unique identification code for the queue.

### Queue Type

Indicate the type of tasks that should be displayed for the queue you are defining. Select one of the following values from the adjoining drop-down list:

- Editable tasks: Tasks where the user will be allowed to modify existing data.
- Read-only Tasks: Tasks where the user can only view existing information.
- Normal Tasks – All the tasks for which the user has rights (editable/read-only)
- Supervisor – All tasks pertaining to the all the subordinates of the user.
- Current stage – The current stage of a process instance in which the user has performed at least one task.
- Dashboard - Select this queue type to define the queue as a dashboard. Dashboard queues will not be displayed in the queue navigation tree in the landing page.
- Audit - Select this option to define this queue as an audit queue.

### Queue Criteria

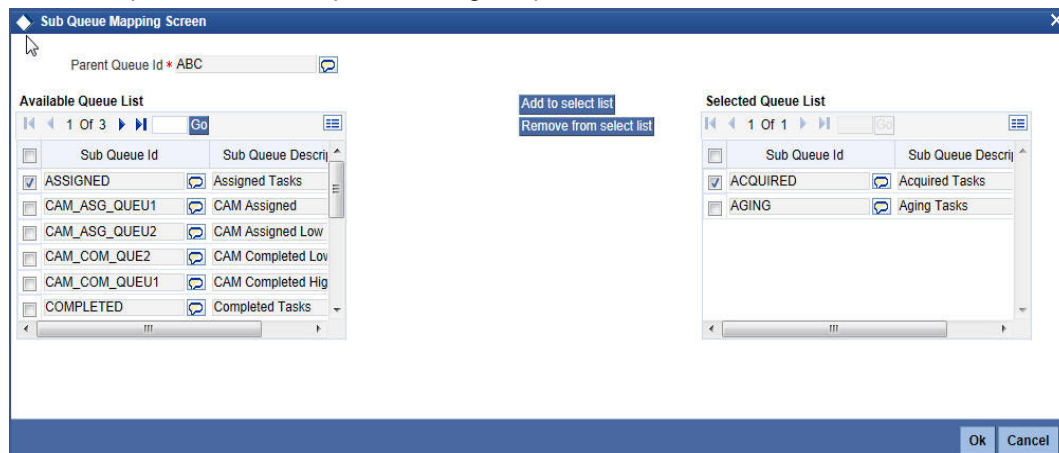

Specify the criteria to be used to filter all tasks. The criteria specified here and the queue type you have indicated earlier determine the tasks that are displayed under each queue.

You can also associate Function IDs to queues by specifying them here. If you do so, only those Function IDs that have been associated can be accessed by the user. If there is no such association in the criteria, all Function IDs are made available for the queue.

## Sub Queues

The system displays the names of sub queues mapped to this queue.

You can map additional sub queues using 'Map Sub Queues' button.

Available Queue List displays the sub queue IDs available for selection. You can add one or more sub queues to the Selected Queue List using 'Add to select list' button. Identify the required sub queues, check the adjoining check box and click 'Add to select list' button. The selected queues are added to Selected Queue List.

You can also remove a sub queue from the Selected Queue List. From the Selected Queue List, identify the queue to remove, check the adjoining check box and click 'Remove from select list' button. The selected queues are removed from the list.

You can view the sub queues under the respective parent queues in the queue navigation tree.

## Filter Column

Indicate the basis for filtering the tasks.

## Operator

Indicate the operator.

## Filter Value

Specify the value to be considered for filtering.

## Others

If 'Filter Value' chosen is 'Others', you can specify the value here.

## Language Code

Indicate the language code to be used for the queue ID.

## Main Menu

Indicate the name of the group under which the queue should be placed.

## Sub-Menu

Specify the name for the queue. This will appear under the Main Menu.

## Description

Specify a relevant description that will be displayed when you point the mouse on the Sub-Menu.

Workflow places the tasks that meet the criteria specified for each queue as shown below:

| Workflow Reference      | Transaction Reference        | Title             | Assignee Group | Assignee Users | Customer Name | Amount     | Creation Date (FromTo) | Priority |
|-------------------------|------------------------------|-------------------|----------------|----------------|---------------|------------|------------------------|----------|
| IslamiqjarahAccount1362 | Application Entry            | ALLROLES          | 11:14:27 IST   | 2012-04-30     | 15:15:46 IST  | 2012-05-10 | 15:40:50 IST           |          |

### 3.13 Maintaining Field Investigation Details

You can maintain field investigation details and valuation details including the agency details and the corresponding verification types using 'Field Investigation Maintenance' screen. To invoke this screen, type 'ORDFIAMT' at the top right corner of the application toolbar and click the adjoining arrow button.

Specify the following details:

#### Branch Code

Specify the branch code.

#### 3.13.1 FI Agency Tab

Under 'Agency' tab, you can capture the details of the investigation agency and the corresponding verification type.

### Agency Code

Specify a unique agency code. The system will use this code to identify the agency whose details you are maintaining.

### Agency Name

Specify the name of the investigation agency whose details you are maintaining.

### Contact Number

Specify the contact number of the agency.

### Verification Type

Select the verification type that you need to associate with the agency. The drop-down list displays the following verification types:

- Address - Select 'Address' to indicate that the agency deals in address verification only
- Employment - Select 'Employment' to indicate that the agency deals in employment verification only
- Collateral - Select 'Collateral' to indicate that the agency deals in collateral verification only
- All - Select 'All' to indicate that the agency deals in all kind of verifications, i.e. address, employment and collateral verifications.

### Collateral Type

Select the collateral type from the adjoining option list.

### From ZIP

Specify the zip code starting value which is to be used along with ending value to auto populate valuation agency based on collateral zip code (mainly applicable for retail collaterals).

### To ZIP

Specify the zip code ending value.

## 3.13.2 Valuation Agency Tab

Specify the following details in this tab:

The screenshot displays the 'Field Investigation Maintenance' window, specifically the 'Valuation Agency' tab. The window includes a 'Save' button at the top left. Below it is a 'Facility Branch' dropdown menu. The 'Valuation Agency' tab is selected, showing a table with the following columns: Agency Code, Agency Name, Contact Details, Collateral Type, and From ZIP. The table contains one row with empty input fields. At the bottom of the window, there are fields for 'Maker', 'Checker', 'Mod No', 'Date Time', 'Record Status', and 'Authorization Status', along with a 'Cancel' button.

### Agency Code

Specify a unique agency code. The system will use this code to identify the agency whose details you are maintaining.

### Agency Name

Specify the name of the investigation agency whose details you are maintaining.

### Contact Details

Specify the contact number of the agency.

### Collateral Type

Select the collateral type from the adjoining option list.

### From ZIP

Specify the zip code starting value which is to be used along with ending value to auto populate valuation agency based on collateral zip code (mainly applicable for retail collaterals).

### To ZIP

Specify the zip code ending value.

## 3.13.3 Others Tab

Click 'Others' tab on the 'Field Investigation Maintenance' screen.

The screenshot displays the 'Field Investigation Maintenance' application window. At the top, there is a title bar with a diamond icon and the text 'Field Investigation Maintenance'. Below the title bar, there are two buttons: 'New' and 'Enter Query'. A text field labeled 'Facility Branch \*' is present. Below this, there are three tabs: 'FI Agency', 'Others' (which is selected and highlighted in blue), and 'Valuation Agency'. Under the 'Others' tab, there is a 'Status' section with a table. The table has three columns: 'Code', 'Description', and 'Enabled'. The table is currently empty. Below the table, there is a 'Result' section. At the bottom of the window, there is a blue footer bar containing the following text: 'Maker', 'Checker', 'Date Time:', 'Mod No', 'Record Status', 'Authorization Status', and an 'Exit' button.

Under 'Others' tab, you can configure the statuses and results that should be enabled for the field investigation.

### Status

You can configure the statuses here. The statuses that you enable here are available at the following places for selection:

You can add a new status or delete an existing status using the add row button or delete row button respectively.

**Code**

Specify a unique code that identifies the status that you are maintaining.

**Description**

Specify a brief description of the status.

**Enabled**

Select this check box to enable the status. If you do not select the check box for a particular status, you cannot get the status for selection in the above screens

**Result**

You can configure the results here.

You can add a new result or delete an existing result using the add row button or delete row button respectively.

**Code**

Specify a unique code that identifies the result that you are maintaining.

**Description**

Specify a brief description of the result.

**Enabled**

Select this check box to enable the result.

If you do not select the check box for a particular result, you cannot get that result for selection in the above screens.

Once you have captured the details, save the maintenance.

### 3.13.4 Viewing Field Investigation Summary

You can view a summary of the field investigations maintained in the system using 'Field Investigation Summary' screen. To invoke the screen, type 'ORSFIAMT' in the field at the top right corner of the application toolbar and click the adjoining arrow button.

|                          | Authorization Status | Record Status | Facility Branch |
|--------------------------|----------------------|---------------|-----------------|
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |
| <input type="checkbox"/> |                      |               |                 |

You can search for the records based on the of parameters available on the screen. The system will display the records based on the search criteria specified. You can double-click a record to open the detailed screen.

## 3.14 Maintaining Override Details

You can maintain the formulae to verify if overrides need to be generated dynamically, in 'Override Maintenance' screen. You can invoke this screen by typing 'ORDOVDMT' in the

field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can specify the following details in this screen:

### Process Code

Specify the process code of the process for which you wish to maintain override conditions or select the process code from the option list provided.

### Application Category

Specify the category to which the application belongs or select the application category from the option list provided.

### Type

Select the type of the customer from the following options available:

- Retail
- Corporate
- Ijarah
- Istisna
- Mudarabah
- Murabaha
- Musharaka
- Tawarooq

### Stage

Select the stage of the CAM origination process from the option list provided.

### Description

Specify a suitable description for the CAM origination stage.

## **Overrides**

Here, you can capture the details of the conditions to be checked for generating override messages.

### **Sequence Number**

The sequence number is automatically generated by the system.

### **Condition**

The condition specified using the Elements, Functions, Operators etc. gets displayed here.

### **Error Code**

Specify the error code to be used to generate the override message or select the error code from the option list provided.

### **Error Parameter**

Specify the error parameter to be substituted in the override messages.

### **Elements**

Specify the data elements to be used to define the conditions for generating override messages or select the element from the option list provided.

### **Functions**

Select the mathematical function to be used to define the condition from the drop-down list provided.

### **Braces**

Select the opening or the closing brace from the drop-down list provided, to define the conditions for generating override messages.

### **Operators**

Select the mathematical operator to be used to define the conditions for generating override messages. You can select '+', '-', '\*', or '/'.

### **Logical Operators**

Select the logical operator to be used to define the conditions for generating override messages. You can select '<', '>', '=', '<>', '>=', '<=', 'AND' or 'OR'.

## **3.14.1 Viewing Override Summary**

You can view a summary of the overrides in 'Override Maintenance' screen. You can also query for a particular record based on desired search criteria. You can invoke this screen by

typing 'ORSOVDMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can specify any of the following details to search for a record:

- Authorization Status
- Record Status
- Process Code
- Application Category

Click 'Search' button to search for a record based on the search criteria specified. You can double click a desired record to view the detailed screen.

### 3.15 Maintaining Balance Sheet Size

You can maintain the balance sheet size and the size of the balance sheet are classified based on the Amount range using 'Balance Sheet Maintenance' screen.

You can invoke this screen by typing 'ORDBSZMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can enter the following details:

**Balance Sheet Size**

Specify the unique name to identify the balance sheet size.

**Description**

Enter a brief description about the balance sheet size.

**Currency**

Specify the currency to define the balance sheet size.

**Balance Sheet amount range**

**From Amount**

Specify the range for balance sheet size.

**To Amount**

Specify the range for balance sheet size.

### 3.15.1 **Viewing Balance Sheet Size Details**

You can view the balance sheet size details using 'Balance Sheet Size Maintenance Summary' screen. To invoke this screen, type 'ORSBSZMT' in the field at the top right corner of the Application tool bar and click the adjoining arrow button.

You can click 'Search' button to view all the pending functions. However, you can to filter your search based on any of the following criteria:

**Authorization Status**

Select the authorization status of the contract from the drop-down list.

**Balance Sheet Size**

Select the balance sheet size from the option list.

**Record Status**

Select the record status from the drop-down list.

When you click 'Search' button the records matching the specified search criteria are displayed. For each record fetched by the system based on your query criteria, the following details are displayed:

- Authorization Status
- Record Status
- Balance Sheet Size
- Description
- Currency
- From Amount
- To Amount

## 3.16 Maintaining Document Upload

You can upload the workflow supportive documents using 'Document Upload Maintenance' screen.

You can invoke this screen by typing 'ORDEXLUP' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can enter the following in this screen:

### Customer No

Specify the customer number whose document needs to be uploaded. The adjoining option list displays all the customer numbers maintained in the system. Select the appropriate one.

### Customer Name

The system displays the customer name whenever you select Customer No.

### Upload Reference Number

The system will display the upload reference number.

### Document Category

Specify the document category for upload. The adjoining option list displays all the document categories maintained in the system. Select the appropriate one.

## **Document Upload**

### **Document Category**

Specify the document category for document upload. The adjoining option list displays all the document categories maintained in the system. Select the appropriate one.

### **Document Reference**

Specify the document reference number.

### **Document Type**

Specify the document type for upload. The adjoining option list displays all the document types maintained in the system. Select the appropriate one.

### **Remarks**

Specify remarks, if any.

### **Ratio Upload**

Check this box if you require ratio upload.

### **Upload**

Click Upload Button to upload the document.

### **View**

Click View Button to view the uploaded document.

## **3.16.1 Viewing Document Upload Details**

You can view the document upload details using 'Document Upload Summary' screen. To invoke this screen, type 'ORSEXLUP' in the field at the top right corner of the Application tool bar and click the adjoining arrow button.

The screenshot shows the 'Document Upload Summary' application window. At the top, there is a search bar with buttons for 'Search', 'Advanced Search', 'Reset', and 'Clear All'. Below the search bar, there are several input fields: 'Authorization Status' (a dropdown menu), 'Upload Reference Number' (a text field with a search icon), 'Document Category' (a text field with a search icon), 'Record Status' (a dropdown menu), and 'Customer No' (a text field with a search icon). Below these fields, there is a table with the following columns: 'Authorization Status', 'Record Status', 'Upload Reference Number', 'Customer No', and 'Document Category'. The table has 15 rows, with the first row highlighted. The bottom right corner of the window has an 'Exit' button.

You can click 'Search' button to view all the pending functions. However, you can to filter your search based on any of the following criteria:

### **Authorization Status**

Select the authorization status of the contract from the drop-down list.

### **Upload Reference Number**

Select the upload reference number from the option list.

### Document Category

Select the document category from the option list.

### Record Status

Select the record status from the drop-down list.

### Customer No

Select the customer No from the option list.

When you click 'Search' button the records matching the specified search criteria are displayed. For each record fetched by the system based on your query criteria, the following details are displayed:

- Authorization Status
- Record Status
- Upload Reference Number
- Customer No
- Document Category

## 3.17 Covenant Maintenance

The bank receives an application covenant details which will be tracked in the process. Facility will be provided to view the interaction which has been carried out with the customers and list of covenants which are pending / received from the customer. To capture the no of days before the covenant task needs to be created from the due date / revision date.

You can key-in the covenant details required in 'Covenant Process Initiation Maintenance' screen. You can also invoke this screen by typing 'ORDCTRMT' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

You can enter the following details:

### **Covenant Name**

Specify the name of the covenant to which the task initiation parameter is maintained. The adjoining option list displays all the covenant names maintained in the system. Select the appropriate one.

### **Covenant Description**

The system displays the description. However, you can modify it.

### **Initiation of Covenant Tracking Process**

#### **Covenant Tracking Required**

Select this check box to indicate whether the covenant tracking is required.

#### **No of days before Due date**

Specify the number of days before which the task needs to be initiated from the due date.

#### **Days after due date**

Specify the number of days before which the task needs to be initiated from the revision date.

## **3.18 Uploading Modified Excel**

The system displays the financial entities which have been uploaded through the excel sheet, Industry, customer no, fin type (PL/BS), financial year, financial cycle will be used as key elements for retrieving the uploaded details through 'Excel Upload Modify Screen' screen.

You can invoke this screen by typing 'ORDEXLMD' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

| Parameter | Value | From Date | To Date | Currency |
|-----------|-------|-----------|---------|----------|
|-----------|-------|-----------|---------|----------|

You can enter the following details:

#### **Application Category**

The system displays the application category.

**Ratio Group**

The system displays the ratio group.

**Industry**

Specify the Industry code for the financial statement. The adjoining option list displays all the industries maintained in the system. Select the appropriate one.

**Customer No**

Specify the customer No for the financial statement. The adjoining option list displays all the customer numbers maintained in the system. Select the appropriate one.

**Sheet Name**

Specify the uploaded sheet name. The adjoining option list displays all the sheet names maintained in the system. Select the appropriate one.

**Financial cycle**

Specify the financial cycle for the financial statement. The adjoining option list displays all the financial cycles maintained in the system. Select the appropriate one.

**Financial year**

Specify the financial year for the financial statement. The adjoining option list displays all the financial years maintained in the system. Select the appropriate one.

**Work Sheet Name**

Specify the worksheet name for the financial statement. The adjoining option list displays all the work sheet names maintained in the system. Select the appropriate one.

**Parameter**

Specify the financial element name.

**Value**

Specify the value for the financial element.

**From Date**

Specify the From date for the financial cycle.

**To Date**

Specify the To date for the financial cycle.

**Currency**

Specify the currency for the financial element.

### 3.18.1 Viewing Modified Excel Details

You can view the modified excel details using 'Excel Upload Modify Screen Summary' screen. To invoke this screen, type 'ORSEXLMD' in the field at the top right corner of the Application tool bar and click the adjoining arrow button.

#### Industry

Select the industry from the option list.

#### Financial Cycle

Select the financial cycle from the option list.

#### Sheet Name

Select the sheet name from the option list.

#### Application Category

Select the application category from the option list.

#### Record Status

Select the record status from the drop-down list.

#### Customer No

Select the customer No from the option list.

#### Financial Year

Select the financial year from the option list.

#### Worksheet Name

Select the work sheet name from the option list.

When you click 'Search' button the records matching the specified search criteria are displayed. For each record fetched by the system based on your query criteria, the following details are displayed:

- Authorization Status

- Record Status
- Industry
- Customer No
- Financial Cycle
- Financial Year
- Sheet Name
- Worksheet Name
- Application Category

### 3.19 Configuring Landing Page

The page that is displayed on invoking the application is called as the 'Landing Page'. As mentioned above, you can launch a search for a particular task on the basis of the fields displayed in the Task List pane under the 'All' sub-menu in the 'Search' main menu item. The fields under this sub-menu (All) are pre-defined in the system and represent all process flows. The search fields under the 'All' sub-menu are displayed as shown in the screen below:

The screenshot displays the Oracle FLEXCUBE UBS1.1.2 application window. The title bar indicates the document name 'DOCUMENT1 - 002 - 000 - Oracle FLEXCUBE UBS1.1.2 - ENG - 2012-11-07 - Transaction Input - Windows Internet Explorer'. The application has a menu bar with 'Home', 'Interactions', 'Customer', 'Workflow', 'Tasks', and 'Preferences'. A toolbar at the top right includes 'Change Branch', 'Options', 'Window', 'Help', 'Sign Off', and 'CLRU'. The 'Tasks' menu is expanded, showing a 'Search' sub-menu. Under 'Search', there is an 'ALL' option and a 'Standard' section with several task status filters: 'Acquired(0)', 'Assigned(4)', 'Completed(0)', 'Pending(0)', and 'Supervision(0)'. The 'Task List - Search' form is active, featuring a search bar and several input fields with dropdown menus: 'Workflow Reference', 'Transaction Reference', 'Title', 'Assignee Group', 'Assignee Users', 'Customer Name', 'Amount', 'Creation Date(From/To)', and 'Priority'. A 'Search' button is located at the bottom of the form.

You can also choose to maintain additional fields for specific process flows. When you maintain additional fields for search operation for a process flow, the process flow is displayed under the 'Search' main menu and all the fields (pre-defined and the additional ones maintained for the process flow) become available for you to search on.

You can define the process-flow specific additional fields in the 'Landing Page Configuration' screen, which you can invoke by typing 'SMDLNDPG' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button. The following screen is displayed:

Here, you can capture the following details:

#### **Process Code**

Specify the function ID associated with the process work flow for which you are defining additional details.

#### **Field Name**

Select the field name which should appear in the Task List pane when you carry out a search for a task under the process flow mentioned above.

#### **Field Label**

Specify the name that should be displayed in the Task List pane.

#### **Display**

Check this box if the value of the field specified should be displayed as part of task details when you click on a task. This is applicable only when the 'Process Code' field is 'specified as 'All'.

#### **Searchable**

Check this box to indicate that the field should be made available for searching tasks. This facility is available for any 'Process Code'.

#### **Seq No**

Specify the order of display for the field.

For instance, if you have maintained the fields 'Currency' and Product ID as an additional field for the Export LC process flow, you can see these fields along with the ones available under

the 'All' sub-menu, when you click the 'Export LC' queue under the 'Search' main menu item as shown in the screen below:

| Workflow Reference       | Transaction Reference | Title                        | Assignee Group    | Assignee Users | Customer Name | Amount | Creation Date (From/To) | Priority |
|--------------------------|-----------------------|------------------------------|-------------------|----------------|---------------|--------|-------------------------|----------|
| IslamicjjarahAccount1362 |                       | Application Entry            | ALLROLES          |                |               |        | 2012-04-30 11:14:27 IST |          |

## 3.20 Maintaining Entity Details

In the 'Entity Details Maintenance' screen, you can capture entity details such as Entity Short Name, Full Name, Address details and so on. This eventually helps in capturing the customer's economic dependency details like supplier details, shareholder details, lender details and so on, during the credit appraisal management process. Based on this maintenance you can generate reports to analyse the customer's economic dependency details during the Credit Appraisal Management Process. *For more information on these reports, refer to the 'Customer Economic Dependency Analysis Reports' User Manual.*

You can invoke this screen by typing 'ORDENTYM' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

Specify the following details in this screen:

### Entity Code

Specify a reference number to identify the vendor.

### Full Name

Specify the complete name of the vendor.

### Short Name

Specify the vendor's abbreviated name. The description that you capture is unique for each vendor. It helps in conducting a quick alpha-search or generating queries regarding the vendor.

### Vendor Type

Select the vendor type from the drop-down list. The following values are provided in the drop down list:

- Supplier
- Consumer
- Lender
- Share Holder
- Holdings
- Guarantor
- Borrower
- All

### Customer Number

Select the CIF number of the vendor.

### 3.20.1 Corporate Tab

This tab consists of corporate information.

The screenshot shows the 'Entity Code Maintenance' window with the 'Corporate' tab selected. The window has a title bar with a diamond icon and standard window controls. Below the title bar is a toolbar with 'New' and 'Enter Query' buttons. The main area is divided into several sections: 'Entity Code' with fields for 'Entity Code \*', 'Full Name', 'Short Name', and 'Vendor Type' (a dropdown menu currently showing 'Supplier'); 'Customer No' with a text field containing 'P'; 'Address For Correspondence' with fields for 'Full Name', 'Address Line 1', 'Address Line 2', 'Address Line 3', 'Address Line 4', 'Pincode', 'Country', 'Telephone ISD Code +', 'Telephone', 'Mobile ISD Code +', 'Mobile Number', 'Fax ISD Code +', 'Fax', 'Email', 'Language', and 'Communication Mode' (radio buttons for 'Email' and 'Mobile'); 'Registration Address' with a checkbox 'Same as Correspondence Address' and fields for 'Name', 'Address Line 1', 'Address Line 2', 'Address Line 3', 'Address Line 4', 'Pincode', and 'Country'; 'Incorporation' with fields for 'Incorp Date', 'Currency Code', 'Capital', 'Net Worth', and 'Incorporation Country'; and 'Business Description' with a text field. At the bottom, there is a 'Dedupe Check' button and a status bar with fields for 'Maker', 'Checker', 'Date Time', 'Mod No', 'Record Status', and 'Authorization Status', along with an 'Exit' button.

#### **Address for Correspondence**

##### **Full Name**

Specify the name of the vendor. The vendor will be addressed by this name on all correspondence sent from the bank.

##### **Address Line 1 - 4**

Specify the mailing address of the vendor in the four rows that are provided.

##### **Pincode**

Specify the pincode of the address.

##### **Country**

Select a country code from the adjoining option list. This is the country as given in the address of correspondence of the vendor. A list of countries maintained in the Country Codes screen is displayed. You can select the appropriate country.

##### **Telephone ISD Code**

Specify a valid international dialling code for the telephone number of the vendor.

##### **Telephone**

Specify the telephone number of the vendor.

##### **Mobile ISD Code**

Specify a valid international dialling code for the mobile number of the vendor.

##### **Mobile Number**

Specify the mobile number of the vendor.

**Fax ISD Code**

Specify a valid international dialling code for the fax number of the vendor.

**Fax**

Specify the fax number of the vendor.

**Language**

Select the language in which the vendor wants the statements and advices to be generated, from the adjoining option list. English is defaulted as the language of correspondence; you have the option to change the default.

**Communication Mode**

Select the mode of the communication to the vendor. You can select one of the following options:

- Mobile
- Email ID

**Registration Address****Same as Correspondence Address**

Select the check box if the 'Address For Correspondence' is the same as "Registration Address". If the address is the same, then you need not provide the details of the registration address. If not, you need to specify the registration address.

**Name**

Specify the name of the vendor. The vendor will be addressed by this name on all correspondence sent from the bank. These characters should conform to SWIFT standards.

**Address Line 1 to 4**

Specify the registration address of the vendor in the four rows that are provided

**Pincode**

Specify pincode of the address specified.

**Country**

Select the country from the adjoining option list. This is the country as given in the address of correspondence of the vendor. A list of countries maintained in the Country Codes screen is displayed. You can select the appropriate country.

**Incorporation****Incorp Date**

Specify the date on which the vendor's company was registered as an organization

**Currency Code**

Specify the Currency in which the particular vendor's various financial details, like the net worth of the customer organization, the total paid up capital and so on, needs to be specified.

**Capital**

Specify the initial investment in the company.

**Net Worth**

Specify the net worth of the company

**Incorporation Country**

Specify the country of registration of the office of the corporate.

## **Business Description**

Specify a brief description of the vendor's business.

### **3.20.2 Director Tab**

This tab consists of the director's basic information.

The screenshot shows the 'Entity Code Maintenance' window with the 'Director' tab selected. The window has a title bar with a diamond icon and the text 'Entity Code Maintenance'. Below the title bar is a 'Save' button. The main area is divided into several sections: 'Entity Code' with fields for 'Entity Code \*', 'Full Name', 'Short Name', and a 'Vendor Type' dropdown set to 'Supplier'; 'Customer No' with a text field and a small icon; 'Corporate' and 'Director' tabs, with 'Director' being the active tab; 'Director Details' with fields for 'Director Name', 'Tax Id', 'Work Phone ISD+', 'Work Phone', 'Home Phone ISD+', 'Home Phone', 'Mobile ISD Code +', 'Mobile Number', and 'Email'; 'Permanent Address' with a list of address lines (1-4), 'Country', and 'Pincode'; 'Mailing Address' with fields for 'Address Line 1-4', 'Pincode', and 'Country'; and a 'Dedupe Check' section. At the bottom, there is a status bar with fields for 'Maker', 'Checker', 'Date Time:', 'Mod No', 'Record Status', 'Authorization Status', and a 'Cancel' button.

## **Director Details**

### **Director Name**

Specify the corresponding director's name.

### **Tax ID**

Specify the Tax Id of the corresponding director.

### **Work Phone ISD +**

Specify a valid international dialling code for the work telephone number of the director.

### **Work Phone**

Specify the work telephone number of the director.

### **Home Phone ISD +**

Specify a valid international dialling code for the home telephone number of the director.

### **Home Phone**

Specify the home telephone number of the director.

### **Mobile ISD Code +**

Specify the international dialling code for the mobile number of the director.

### **Mobile Number**

Specify the mobile number of the corresponding director.

**Email**

Specify a valid email address of the corresponding director.

**Mailing address****Address Line 1 - 4**

Specify the mailing address of the director. Four rows have been provided for this purpose.

**Pincode**

Specify pincode of the mailing address specified.

**Country**

Specify the country of the mailing address of the corresponding director.

**Permanent Address****Address Line 1 -4**

Specify the permanent address of the director. Four rows have been provided for this purpose.

**Country**

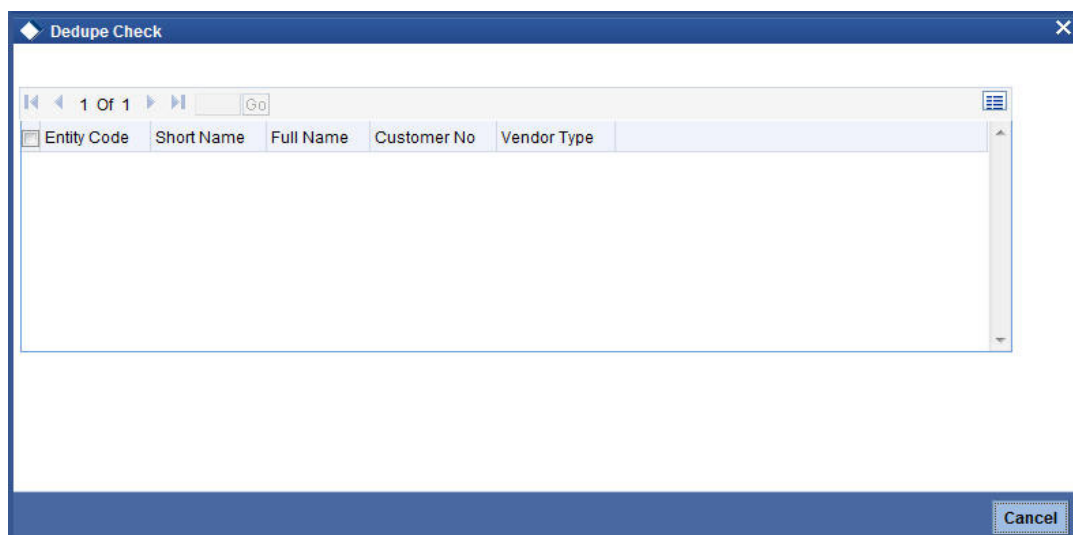

Specify the country of the permanent address of the corresponding director.

**Pincode**

Specify pincode of the permanent address specified.

**3.20.3 Duplicate Check**

The 'Dedup Check' screen enables in providing a list of duplicate customers that share the same name. The entity code, short name, full name, customer number, and vendor type is displayed in this screen. If a duplicate record is displayed in this screen, then the Customer Number can be changed in the main screen. You can invoke this screen by clicking the 'Dedup Check' button at bottom of the main screen.

**3.21 Maintaining Entity Dependency Details**

You can also capture the dependency details of the entity like the following:

- Supplier's products, sectors and so on
- Lender's products, sectors and so on

- Customer products, sectors and so on

These details will be defaulted when the customer's economy dependency details are captured, during the credit appraisal management process. You can invoke this screen by typing 'ORDEDEPM' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

Specify the following details in this screen:

#### **Entity Dependency Type**

Specify the entity dependency type. This dependency type can be the supplier's product, supplier's currency, lender's products and so on.

#### **Entity Dependency Code**

Specify a code for the dependency type selected in the 'Entity Dependency Type' field. Multiple rows can be added to capture multiple dependency codes.

#### **Description**

Specify a description for each code that is specified.

## **3.22 Maintaining Customer Economic Dependency Details**

The system provides a facility to capture the bank customer's dependency details in the 'Customer Economic Details' screen. Eventually, during the credit appraisal management process, when the customer requests for a new facility or modification of an existing facility, then reports can be generated to analyse the customer's economic dependency. The details that are captured in the 'Customer Economic Details' screen are as follows:

- **Supplier Details:** List of organizations that are supplying raw materials to the customer who has requested for a facility.
- **Customer/Consumer Details:** List of organizations that are consuming the products of the customer who has requested for a facility.
- **Lender Details:** List of organizations that are lending money to the customer who has requested for a facility.
- **Borrower Details:** List of organizations that have borrowed loans from the customer who has requested for a facility.

- Share Holder Details: List of organizations that own shares of the customer who has requested for a facility.
- Guarantor Details: List of organizations providing guarantee to the customer who has requested for a facility.
- Share Holding: List of organizations whose shares the customer holds.

Based on the details maintained in this screen, you can extract reports to analyse the customer economic details. *For more information on these reports, refer to the 'Customer Economic Dependency Analysis Reports' User Manual.*

You can invoke the 'Customer Economic Dependency Details' screen by typing 'ORDCEDM' in the field at the top right corner of the Application tool bar and clicking the adjoining arrow button.

Specify the following details in this screen:

### **Applicant Code**

Specify the CIF number of the applicant/customer who is requesting for a new facility.

### **Applicant Name**

Specify the short name of the applicant.

### **Year**

Specify the financial year.

## **3.22.1 Supplier Details Tab**

In this tab list of organizations that are supplying raw materials to the customer who has requested a new facility are maintained.

Specify the following details in this screen:

## **Supplier Details**

### **Supplier Code**

Select the supplier code as maintained in the 'Entity Details Maintenance' (ORDENTYM) screen. You can alternatively specify a new supplier code which is not already maintained in the 'Entity Details Maintenance' screen.

### **New**

Select this check box if the supplier code maintained in the supplier code field is a new supplier code which is not already maintained in the 'Entity Details Maintenance' (ORDENTYM) screen.

### **Details**

Click the 'Details' button to launch the 'Entity Details Maintenance' (ORDENTYM) screen. If the supplier code is already maintained in the 'Entity Details Maintenance' screen, then the supplier details are displayed in this screen. You can modify these details.

If 'New' check box is selected, then on clicking the 'Details' button the 'Entity Details Maintenance' (ORDENTYM) screen is displayed, where details of the new supplier is to be maintained. *For more information on maintaining these details, refer to the section Maintaining Entity Details in this User Manual.*

### **Supplier Name**

The system displays the name of the supplier as maintained in the 'Entity Details Maintenance' (ORDENTYM) screen.

### **CIF Code**

The system displays the CIF code of the supplier as maintained in the 'Entity Details Maintenance' (ORDENTYM) screen.

**% of Contribution**

Specify the percentage contribution of the supplier in supplying raw materials to the customer.

**Currency**

Select the reporting currency from the adjoining option list.

**Average Stock Holding**

Specify the average stock holding of the supplier.

**Overall Raw Materials**

Specify the overall raw materials supplied.

**Reporting Amount**

The system displays the amount in reporting currency.

**Entity Dependency Details****Dependent Type**

Select the dependency type from the adjoining option list. The dependency types as maintained in the 'Entity Dependency Details' (ORDEDEPM) screen are listed here.

**Dependent Code**

Select the dependent code from the adjoining option list. The dependency codes as maintained in the 'Entity Dependency Details' (ORDEDEPM) screen are listed here.

**Description**

The system displays the description of the dependency code in this field.

**Currency Level Distribution****Currency Code**

Select the currency code from the adjoining option list. The currency in which the supplier has supplied raw materials is selected in this field.

**% of Contribution**

Specify the percentage of contribution, in the currency specified, in supplying raw materials to the bank customer.

**Amount**

Specify the amount of contribution, in the currency specified, in supplying raw materials to the bank customer.

**Reporting Amount**

The system displays the amount in the reporting currency.

**Country Level Distribution****Country Code**

Select the country, which the supplier belongs to, from the adjoining option list.

**% of Contribution**

Specify the percentage of contribution in supplying raw materials to the bank customer.

**Currency Code**

Select the currency code from the adjoining option list.

## Amount

Specify the amount of contribution in supplying raw materials to the bank customer.

## Reporting Amount

The system displays the amount in the reporting currency.

### 3.22.2 Consumer Details Tab

In this tab list of organizations that are consuming products of the customer who has requested for this facility, is maintained.

## Consumer Details

### Consumer Code

Select the consumer code as maintained in the 'Entity Details Maintenance' (ORDENTYM) screen. You can alternatively specify a new consumer code which is not already maintained in the 'Entity Details Maintenance' screen.

### New

Check this box if the consumer code maintained in the consumer code field is a new consumer code which is not already maintained in the 'Entity Details Maintenance' (ORDENTYM) screen.

### Details

Click the 'Details' button to launch the 'Entity Details Maintenance' (ORDENTYM) screen. If the consumer code is already maintained in the 'Entity Details Maintenance' screen, then the consumer details are displayed in this screen. You can modify these details.

If 'New' check box is selected, then on clicking the 'Details' button the 'Entity Details Maintenance' (ORDENTYM) screen is displayed, where further details of the new consumer is to be maintained. *For more information on maintaining these details, refer to the section Maintaining Entity Details in this User Manual.*

**Consumer Name**

The system displays the consumer name as maintained in the 'Entity Details Maintenance' (ORDENTYM).

**CIF Code**

The system displays the CIF code of the consumer as maintained in the 'Entity Details Maintenance' (ORDENTYM) screen.

**% of Revenue Contribution**

Specify the percentage contribution of the consumer to the bank customer's revenue.

**Currency**

Select the reporting currency from the adjoining option list.

**Overall Sales**

Specify the overall sales amount of the customer.

**Reporting Amount**

The system displays the amount in reporting currency.

**Entity Dependency Details****Dependency Type**

Select the dependency type from the adjoining option list. The dependency types as maintained in the 'Entity Dependency Details' (ORDEDEPM) screen are listed here.

**Dependent Code**

Select the dependent code from the adjoining option list. The dependency codes as maintained in the 'Entity Dependency Details' (ORDEDEPM) screen are listed here.

**Description**

The system displays the description of the dependency code in this field.

**Currency Level Distribution****Currency Code**

Select the currency code from the adjoining option list.

**% of Contribution**

Specify the percentage of contribution of the consumer to the bank customer's revenue in the currency specified.

**Amount**

Specify the amount of contribution of the consumer to the bank customer's revenue in the currency specified.

**Reporting Amount**

The system displays the amount in the reporting currency.

**Country Level Distribution****Country Code**

Select the country which the consumer belongs to, from the adjoining option list.

### % of Contribution

Specify the percentage of contribution of the consumer to the bank customer's revenue.

### Currency Code

Select the currency code from the adjoining option list.

### Amount

Specify the amount of contribution of the consumer to the bank customer's revenue.

### Reporting Amount

The system displays the amount in the reporting currency.

## Institution ID

Select the Institution ID code as maintained in the 'Entity Details Maintenance' (ORDENTYM) screen. You can alternatively specify a new Institution ID code which is not maintained in the 'Entity Details Maintenance' screen.

## New

Check this box if the Institution ID code maintained in the Institution ID field is a new Institution ID code which is not already maintained in the 'Entity Details Maintenance' (ORDENTYM) screen.

## Details

Click the 'Details' button if you wish to launch the 'Entity Details Maintenance' (ORDENTYM) screen. If the Institution ID code is already maintained in the 'Entity Details Maintenance' screen, then the Institution details are displayed in this screen. You can modify these details.

If 'New' check box is selected, then on clicking the 'Details' button the 'Entity Details Maintenance' (ORDENTYM) screen is displayed, where further details of the new Institution is to be maintained. *For more information on maintaining these details, refer to the section Maintaining Entity Details in this User Manual.*

## Institution Name

The system displays the Institution name as maintained in the 'Entity Details Maintenance' (ORDENTYM).

**CIF Code**

The system displays the CIF code of the Institution as maintained in the 'Entity Details Maintenance' (ORDENTYM) screen.

**% of Contribution**

Specify the percentage of investment of the customer towards owning the shares.

**Type of Holdings**

Specify the type of holdings.

**Currency**

Specify the reporting currency in this field.

**Invested Amount**

Specify the investment amount to own the shares in this field.

**Reporting Amount**

The system displays the amount in the reporting currency.

**Entity Dependency Details****Dependency Type**

Select the dependency type from the adjoining option list. The dependency types as maintained in the 'Entity Dependency Details' (ORDEDEPM) screen are listed here.

**Dependent Code**

Select the dependent code from the adjoining option list. The dependency codes as maintained in the 'Entity Dependency Details' (ORDEDEPM) screen are listed here.

**Description**

The system displays the description of the dependency code in this field.
