U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.
The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Preface

1.1 Intended Audience

This document is intended for the following audience:
- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at
http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support.
For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info
or visit
http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

1.4 Structure

This manual includes reference user interface style guide for Desktop, Tablet and Mobile. It covers screen layout and UI components details.

Primary Elements

Grid

The application follows a responsive bootstrap grid system which allows uotp 12 columns acoss the page.

All the designs are created within and around the grid and breakpoints.
They have a minimum of 10px outer margin.

Why 1200?

The modern monitors (mostly wide-screen) support at least 1280 x 1024 pixel resolution.

1200 is divisible by 2, 3, 4, 5, 6, 8, 10, 12, 15, 16, 20, 24, 30, 40, 48, 60, 80, 120, 150, 200, 240 and 400. This makes it a highly flexible base number to work with.

Desktop

• Grid size: 1366px, 12 column
• Maximum width: Website locks at 1400px

Tablet

• Grid size: 768px, 12 column
• Maximum width: Website locks at 1400px

Phone

• Comp size: 320px, 12 column

Grids are used to structure the page layout. They allows elements to be aligned horizontally and vertically, which creates columns that keep things organized. Optimal spacing, type sizes and layout relationships should be maintained throughout.

The following grid examples show the transition from desktop designs to tablet and down to phone.

Note: Some images in the style guide have been reduced in size to fit the dimensions of this guide's layout. Note:
