2. Savings Account Application

A savings account is an interest-bearing deposit account held at a bank or in a financial institution that provides a modest interest rate.

The savings account application is created so as to enable customers to apply for a savings account by providing minimal personal details. As an applicant, you are also provided with the option to customize the debit card associated with the account.

The application tracker has been built so as to enable tracking of the application once it is submitted. The application tracker also enables the applicant to retrieve and complete an application that has been saved.

Savings Workflow

Following are the steps involved as part of application submission:

- **Account Information:** In this section, you can identify the holding pattern of the account, i.e. whether the account is to be jointly held and subsequently identify if the co-applicant is an existing customer of the bank or a new user.
- **Applicant Information:** The applicant information sections consist of details such as basic personal information, identity, contact, and employment information of the applicant.
- **Features and Specifications:** This section comprises of two sub sections – Activity Profile and Debit Card Preferences. In the activity profile sub section, you can define details pertaining to the regular activities you plan on performing on your account. In the debit card preferences sub section, you can customize your debit card linked to the savings account, by defining the name to be embossed on the card, the card design etc.
- **Account Funding:** This section enables you to select the option through which you will fund the initial deposit on your account and to specify details of funding including amount to be funded and subsequent account or card details from which the amount is to be debited.
- **Review and Submit:** This section displays the summary of the application. You can verify details submitted as part of the application and can modify any if required.
- **Confirmation:** This section displays a message confirming that the application has been submitted along with account number and additional steps that might be required to be taken by the applicant or the bank.
