

Oracle® Hospitality Hotel Property Interface
Release Notes
Release 8.11.0
Part Number: E91893-01

December 2017

Copyright © 2001, 2017, Oracle and/ or its affiliates. All rights reserved.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/ or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/ or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/ or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Purpose

These Release Notes provide a brief overview of additions, enhancements, and corrections implemented in this software release. Their intent is informative, not instructional. Review the Oracle Hospitality Suite8 Property Management and the OPERA Property Management System product documentation, including technical and application advisories for previous versions, for detailed information on installation, upgrade, configuration, and general use.

Audience

This document is intended for customers who use Oracle Hospitality Hotel Property Interface version 8.11.0.0 or higher.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL: [https:// support.oracle.com](https://support.oracle.com)

When contacting Customer Support, please provide the following:

- Product version and program/ module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received and any associated log files
- Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at [http:// docs.oracle.com/ en/ industries/ hospitality/](http://docs.oracle.com/en/industries/hospitality/)

Revision History

Date	Description of Change
December 2017	Initial publication

1 Features and Updates

General:

- This release contains minor bug fixes.

2 System Requirements, Supported Systems, and Compatibility

You must update the Oracle Hospitality Hotel Property Interface System to an operating system currently supported by Microsoft to maintain the PA-DSS certifications for the Oracle Hospitality Suite8 Property Management System and the Oracle Hospitality OPERA Property Management System. If any part of the system uses an operating system not supported by Microsoft then the PA-DSS certification is not valid.

Supported Operating Systems

The following lists contains the supported Microsoft Windows operating systems:

- Microsoft Windows 7 SP1 32-bit and 64-bit
- Microsoft Windows 8.1 32-bit and 64-bit
- Microsoft Windows 10 64-bit
- Microsoft Windows 2008 Server R2 32-bit and 64-bit
- Microsoft Windows 2012 Server

This release supports the following Oracle Hospitality Property Management Systems:

- Oracle Hospitality Suite8 release 8.10.0 and higher
- Oracle Hospitality OPERA Property Management System release 5.0.3.xx and higher

3 Resolved Issues

The following table lists the resolved issues for this release.

Table 1 – Resolved Issues

Product	Bug DB	Description
Configuration	27035232	For the Messerschmitt Interface (MST) on Suite8 PMS integrations the door lock key for a sharer can now be properly created. Related configuration change in IFC application configuration for this parser is necessary.
