Preface

The objective of this document is to depict how the Brochure Web Service messages function in OPERA Web Suite (OWS). In addition, this document breaks down the available simple and complex element types.

This document may not contain all the web service messages supported by OWS.

Audience

This document is intended for those developing custom applications that interact with Brochure functionality in OPERA via OWS operation.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL: <https://support.oracle.com>

When contacting Customer Support, please provide the following:

Product version and program/module name

Functional and technical description of the problem (include business impact)

Detailed step-by-step instructions to re-create

Exact error message received and any associated log files

Screen shots of each step you take

Documentation

Oracle Hospitality product documentation is available on the Oracle Help Center at <http://docs.oracle.com/en/industries/hospitality/>
