## About this Guide

This guide explains the concepts of the Oracle Financial Services Currency Transaction Reporting, and provides step-by-step instructions for navigating the Currency Transaction Reporting (CTR) user interface such as viewing, verifying, reviewing, approving, e-filing of the Currency Transaction Reports with FinCEN, creating exemptions, and managing the Currency Transaction Report process flow.

This chapter focuses on the following topics:

- Who Should Use this Guide
- How this Guide is Organized
- Where to Find More Information
- Conventions Used in this Guide

#### Who Should Use this Guide

The Oracle Financial Services Currency Transaction Reporting User Guide is designed for use by a variety of Oracle Financial Services users. Their roles and responsibilities, as they operate within the CTR, include the following:

- Analyst: This user is typically responsible for updating the status of listed Currency Transaction Reports through UI screens.
- **QA Analyst**: This user is responsible for verifying the details in the Currency Transaction Reports when the status of Currency Transaction Report is changed to Pending QA review. This user role will have access to Batch Approval action of Currency Transaction Reports.
- **Supervisor**: This user is typically responsible for verifying, reviewing and approving the Currency Transaction Reports before they are e-filed with the FinCEN. This user is also responsible for managing the workflow of Exemptions.
- E-File Analyst: This user is responsible for e-filing the Currency Transaction Reports with the regulatory authorities once verified by the QA Analyst. This user is responsible for changing the status of Currency Transaction Reports from Ready for E-File to Filed.
- **Exemption Analyst**: This user is responsible for creating and managing the exemptions through the UI screens.
- Administrator: This user is responsible for managing the static data used in the application, creating application users, mapping users to user roles, and configuring the various parameters used in the CTR.

### How this Guide is Organized

The Oracle Financial Services Currency Transaction Reporting User Guide, includes the following sections:

- Chapter 1, *About Currency Transaction Report*, provides an overview of Currency Transaction Reporting application, describes the various user roles and the privileges associated with them, and includes instructions on accessing the CTR.
- Chapter 2, *Managing Home Page*, describes the users who can access the Home page and various options available for each user roles.
- Chapter 3, *Managing Currency Transaction Reports*, describes how to manage the CTR List and how to create a Currency Transaction Report.
- Chapter 4, *Managing E-files*, describes how to manage the Search and List and how to create an E-File.
- Chapter 5, *Managing Exemptions*, describes how to manage Search and List and how to create an Exemption.
- Chapter 6, *Generating Reports*, describes how to generate various reports from Currency Transaction Report, Exemption and Transaction Log dashboards respectively.

### Where to Find More Information

For additional information about the Oracle Financial Services Currency Transaction Reporting application, refer to the following documents:

## About Currency Transaction Report

This chapter gives an overview of Oracle Financial Services Currency Transaction Reporting application.

This chapter covers the following topics:

- Introduction to Currency Transaction Report
- Logging in Currency Transaction Report
- CTR Menu

#### Introduction to Currency Transaction Report

**CHAPTER 1** 

As part of Regulations and Compliances, organizations are required to perform appropriate analysis and report any suspicious activities that may lead to fraud or money laundering within the institution to the regulatory authorities. These regulatory bodies are responsible for safeguarding financial institutions and consumers from abuse, providing transparency in the country's financial system, enhancing that country's security, and deterring and detecting criminal activity in the financial system.

Currency Transaction Reporting is a robust solution developed to meet operational and regulatory requirements of the FinCEN (Financial Crimes Enforcement Network). This product helps in minimizing repetitive data entry and supports parallel processing of Currency Transaction Reports. The CTR also helps in reducing the process cycle time using STP (Straight Through Processing) and accommodates FinCEN compliance and real time environmental changes. This product automates the workflow, analysis and report production and offers integration capabilities with internal and external systems thereby improving the operational efficiency.

The CTR supports the e-filing of cash transactions that are greater than \$10,000 or multiple transactions that aggregate to greater than \$10,000. The Currency Transaction Reports are created either at the branches or through the end of day files, where the CTR aggregates multiple transactions performed at the branch, ATMs and Vaults. In addition, this application also captures and reports Monetary Instrument Purchases.

A Currency Transaction Report can be created in following three ways:

- System Generated Currency Transaction Reports
- Manual Creation of Currency Transaction Reports
- Branch Generated Currency Transaction Report

#### System Generated Currency Transaction Reports

The CTR creates Currency Transaction Reports through batch processing of transaction data.

The following variations are possible for system generated Currency Transaction Reports:

- Currency Transaction Reports created on an exempted entity (Audit Currency Transaction Reports).
- Superseded Currency Transaction Reports in which the activity is the same or subset and the aggregation focus is less preferred to another Currency Transaction Report.
- Currency Transaction Reports that pass the initial validation are created with Pending QA Review' status (STP) and Currency Transaction Reports that do not pass initial validation are created with 'New' status.

#### **Manual Creation of Currency Transaction Reports**

You can manually create a Currency Transaction Report using the **Create New Report** submenu option from the Currency Transaction Report menu in the CTR. For detailed information about creating a Currency Transaction Report, refer to "Creating a Currency Transaction Report," on page 41.

#### **Branch Generated Currency Transaction Report**

When a CTR is integrated with the Retail Branches, a Currency Transaction Report is generated in the following manner:

- 1. The branch system identifies an eligible transaction during the teller session and communicates it to the CTR to determine its exemption status. The CTR returns an appropriate notification to the Teller stating whether a transaction is an exempt transaction or a Currency Transaction Report needs to be created.
- 2. Subsequently if a Currency Transaction Report is required, the teller enters the Currency Transaction Report data.
- 3. The CTR will then validate the required fields, and pre-populate the customer/beneficiary information from Currency Transaction Report history files or from Customer Information Systems.

Thus, a branch Currency Transaction Report is generated.

**Note:** The CTR will have standard work queues, user defined workflow and reporting functionality to manage exceptions, continuous quality reviews, and audits.

### Logging in Currency Transaction Report

The Currency Transaction Reporting link is enabled for users who have access to the Oracle Financial Services Currency Transaction Report.

You can access the CTR through the Web Browser once the software is installed and configured. The Currency Transaction Report login page will open in a pop-up window. This allows you to log into the CTR (Figure 1).

## CTR Menu

This section explains various menus that can be accessed through the CTR User Interface. Each menu in the CTR Home page facilitates a set of possible actions, which are visible based on privileges assigned to user role and the status of a particular Currency Transaction Report. The CTR menu includes links for Home, Currency Transaction Reports, E-File, Exemptions, and Reports.

#### Figure 5. CTRs Menus

The following table shows the menu options accessible to users with different roles:

#### Table 3. CTR Menu-User Role Mapping Table

#### Home Menu

The Home menu is accessible to users with the roles of Analyst, QA Analyst, and Supervisor. For detailed information, refer to *Chapter 2, "Managing Home Page," on page 9* for more information.

#### **Currency Transaction Reports Menu**

The Currency Transaction Reports Menu is accessible to users with the roles of CTR Viewer, Analyst, QA Analyst and Supervisor.. The Currency Transaction Reports menu has two sub-menu options namely, Search and List, and Create New Report. Refer to *Chapter 3, "Managing Currency Transaction Reports," on page 13*, for more information.

E-File Menu	
	The E-File menu is accessible to users with roles of E-File Analyst and Supervisor. The E-File menu has two sub-menu options namely, Search and List, and Create E-File. Refer to <i>Chapter 4</i> , <i>"Managing E-File," on page 43</i> , for more information.
<b>Exemptions Menu</b>	
	The Exemption menu is accessible to users with roles of Exemption Analyst and Supervisor. A user with a Supervisory role in the Currency Transaction Report menu will have similar Supervisory role in the Exemptions menu as well. The Exemptions menu has two sub-menu options namely, Search and List, and Create Exemption. Refer to <i>Chapter 5, "Managing Exemptions," on page 63,</i> for more information.
Reports Menu	
	The Reports menu is accessible to users with roles of CTR Viewer, Analyst, QA Analyst, Supervisor, E-File Analyst, and Exemption Analyst. For detailed information on Reports menu, refer to <i>Chapter 6, "Generating Reports," on page 95</i>

## Managing Home Page

This chapter describes the components of Home page and the various actions that can be performed by each user.

### Accessing Home Page

CHAPTER 2

On successful login into the CTR, a default Home page displays. The Home page can be viewed only by users who have appropriate roles. The Home page displayed for a Supervisor role has three sections namely, notifications, priority list, and reports.

#### **Viewing Notification**

Users with access to Currency Transaction Reports will be able to view the notifications on Currency Transaction Reports, and users with access to Exemptions will get notifications on exemptions. Users who have access to both Currency Transaction Reports and exemptions will be able to view the notifications on both exemptions and Currency Transaction Reports.

The Currency Transaction Report notifications will be displayed for a user only if the user has access to the underlying Currency Transaction Report business domain and jurisdiction.

The E-File notifications will be displayed for CTR Supervisors only. An E-File analyst user will not have access to the Home page and will receive notifications via email.

The exemption notifications will be displayed for a user only if the user has access to the underlying exemptions business domain and jurisdiction.

Double click any notification from the notification list to open the Notifications Detail window.

#### **Removing Notification**

To remove a notification from the notification list, select a notification and click **Remove**.

**Note:** The action taken notification will not be generated for the action taking user.

#### **Viewing Reports**

The Reports section in the Home page displays graphs based on the user role and access. A user with a CTR role can view the **CTR Trends** graph and a user with an Exemption role can view the **Revoked Exemptions Ct**. graph. Refer to *Table 20 "Currency Transaction Report Reports-User Roles Mapping Table," on page 96*, for more information.

Similarly, a user with a CTR Supervisor role upon login will be able to view the graphs of CTR Productivity by Status and Recertify Productivity Report in the Reports section of the Home page.

#### **Viewing Priority List**

A user with access to both Currency Transaction Reports and Exemptions will be able to view two tabs; Priority Currency Transaction Reports and Priority Exemptions.

# Priority Currency<br/>Transaction ReportsA user with a CTR role can only view the Currency Transaction Report menu and<br/>Priority CTRs tab in the Priority List section. The Currency Transaction Reports<br/>listed in the Priority List will vary for each user with different access roles.

	This tab helps you take appropriate action on Currency Transaction Reports that are approaching their due dates. The Priority CTRs tab displays up to 10 non-closed Currency Transaction Reports based on Due Date and CTR IDs. The Currency Transaction Reports are first arranged in chronological order of due dates and then in the ascending order of CTR IDs. The due dates of overdue Currency Transaction Reports are highlighted in red background and due dates of Near Due Currency Transaction Reports are highlighted in red.
	Click <b>CTR List</b> from the Priority CTRs tab to navigate to the Search and List page. From Search and List page, you can use the views drop-down options to view the list of Currency Transaction Reports in different statuses and take appropriate action.
	Click <b>Next CTR</b> from the Priority CTRs tab to navigate to the CTR Context page and subsequently assigning the new Currency Transaction Reports to the current user.
	Note: For a user with CTR role, the Priority CTRs tab will be selected by default.
Priority Exemptions	A user with an Exemption role can only access the Exemption menu and Priority Exemption in the Priority List section from the Home page.
	Click <b>Search and List</b> from the Priority Exemption tab to navigate to the Search and List page. From Search and List page, you can use the Views drop-down options to view the list of exemptions in different statuses and take appropriate action.
	The Priority Exemption tab displays up to 10 non-closed exemptions based on its expiry date. The Search and Listed in this tab will exclude exemptions which are Revoked, Rejected and Closed. The Expire Dates are arranged in chronological order first and then the Exemption IDs are arranged in the ascending order.
	<b>Note:</b> For a user with an Exemption role, the Priority Exemption tab will be selected by default.

### **CHAPTER 3**

## Managing Currency Transaction Reports

This chapter describes the workflow of a Currency Transaction Report, the managing Search and List page, and managing the CTR Context page. This chapter focuses on the following topics:

- Currency Transaction Report Workflow
- Managing CTR List
- Managing Currency Transaction Report Details
- Creating a Currency Transaction Report

### **Currency Transaction Report Workflow**

The life cycle of the currency transaction report is illustrated in the following workflow diagram (Currency Transaction Reporting Workflow). The Currency Transaction Report can be in any of the following statuses at any point.

# **Components of Search and List Page**

The Search and List page contains the following components:

- Check boxes
- Action s
- Column Headingsgr

Check boxesCheck boxes are provided at the beginning of each row in the CTR List matrix. Select<br/>these boxes to take action on CTR List records and deselect the check box to clear it.<br/>You can select a record from Search and List page and take actions.

**Action s** The system provides the following action s that appear above the list of CTR List:

- **Expand All**: This option allows you to expand the complete details for the items where text cannot be accumulated in the column length. Clicking **Collapse All**, and this takes you to the original view of CTR List.
- Action: This option allows you to take an action for the selected Currency Transaction Reports.
- Email: This option allows you to send an email.

- **Batch Approval**: This option allows you batch approve Currency Transaction Reports from Pending QA Review/In QA Review to Ready for E-File status. Only a user with QA Analyst role has access to this option.
- Next Currency Transaction Report: This option assigns a new Currency Transaction Report to the current user.

# **Column Headings** Column headings provide labels that tell you what kind of information displays in the columns. Most column headings in the CTR List matrix are sortable.

Right-click on the column heading to sort the display. A list of sorting menus displays. For example, Ascending, Descending, Clear Sort, Field Chooser, and Transpose. Select the relevant sorting option. The Currency Transaction Reporting application refreshes the list and re-sorts the CTR List records based on the selected criteria.

The CTR List will have the following column heading:

- CTR ID
- CTR Title
- CTR Focal Entity
- Type of Filing
- Trans Date
- Source
- Status
- Created date
- Due Date
- Owner
- Cash-in amount
- Cash-out amount

# Searching and Viewing CTR List

The Search and List page displays the summary information of the Currency Transaction Reports viewable for the current user.

To search the CTR List, hover over the Currency Transaction Reports tab in application and click **Currency Transaction Reports**. The Search and List page displays.

This section details about the following topics:

- Searching CTR List Using Search Components
- Searching CTR List Using Pre-defined Views
- Currency Transaction Report Search and Views User Roles Table

#### Searching CTR List Using Search Components

This page allows you to filter the CTR List using the search components.

To search CTR List using search components, follow these steps:

- 1. Hover over the Currency Transaction Reports tab in application and click **Currency Transaction Reports**. The Search and List page displays.
- 2. Click Search/Advanced Search. The Search Components page displays.

#### Figure 12. Currency Transaction Report Advanced Search View

3. Enter the search components and click Go. The relevant search results displays.

This page allows you to filter the CTR List using the pre-defined views.

To search CTR List using pre-defined views, follow these steps:

- 1. Hover over the Currency Transaction Reports tab in application and click **Currency Transaction Reports**. The Search and List page displays.
- 2. Select any pre-defined views from Views drop-down list (for example, My Open Currency Transaction Reports record, All Open Currency Transaction Reports and so on). The relevant search list page displays.

**Note:** The default View option selected for a Supervisor role, QA Analyst role and an Analyst role are **Pending Review**, **Pending QA Review**, and **My Open Currency Transaction Reports** respectively. When a user accesses the Search and List page, the Currency Transaction Reports are listed based on a default search criteria. The listed Currency Transaction Reports are sorted by their Due Dates and CTR IDs. The Currency Transaction Reports are arranged first in chronological order of the due dates and then in descending order of the CTR IDs.

If there are more than 20 Currency Transaction Reports for a search criterion, the CTR automatically displays pagination option.

The Due Date values in the Search and List page displays different color for Near Due and Overdue column values.

#### Searching CTR List Using Pre-defined Views

The Cash-in and Cash-out amounts in the Search and List page will be same as those in the Transactions summary records in CTR Details page.

# **Viewing CTR Context**

CTR Context displays detailed information about a Currency Transaction Report. In the CTR, you can view a CTR Context in the following ways:

- In the CTR Home page under the Priority CTRs tab, click the required CTR ID to view the CTR Context.
- You can also view a CTR Context from the CTR IDs displayed in the Search and List page.

• You can also view a CTR Context by clicking **Next Currency Transaction Report** from the CTR Home page.

#### Figure 13. CTR Details Page

The following are the components of CTR Details page:

- CTR Context
- Currency Transaction Report Details Tabs

**CTR Context** 

CTR Context displays detailed information about a Currency Transaction Report. By default, CTR ID, Due Date, CTR Focal Entity, and Status details are displayed.

Click<sup>1</sup> to expand the CTR Context to display the following details:

- CTR Title
- Owner
- Jurisdiction
- Bus Domain
- Created date
- Trans Date
- Source
- Parent Fin Inst

- Type of Filing

#### Currency Transaction Report Details Tabs

The CTR Details page displays the following CTR Context tabs:

- **Transaction Summary**: The Transaction Summary tab displays summary information for all the transactions associated with a Currency Transaction Report. The fields appearing on Transaction Summary tab are from Form 3A of the efile. This tab provides the user a consolidated view of the values that the generated efile will have for that Currency Transaction Report.
- **Transactions**: The Transactions tab provides information on the transactions associated with the Currency Transaction Report, and allows the users to take certain actions based on their user roles. Currency Transaction Report Transactions tab displays the details of all the individual transactions, and allow the user to add or remove the transactions from the Currency Transaction Report. If the user adds or removes transactions on Transaction tab, the values on Transaction Summary tab will be updated accordingly. However, the Transaction Date will not be affected by adding or removing transactions. Adding or removing transactions will also affect Persons Involved, Accounts and Financial Institution information of a Currency Transaction Report.
- **Persons Involved**: The Persons Involved tab displays information on the individuals or entities associated with a Currency Transaction Report. You can also add or view attachments and comments for the persons involved in a Currency Transaction Report. There is only one record for a person on a Currency Transaction Report, even if the person is involved in multiple transactions on the Currency Transaction Report, with same or different involvement types. The information appearing on this tab is part of Form 4A of the E-File.

Note: You an add a User Filed value to a Persons Involved record by clicking

the 🥵

- Accounts: The Accounts tab displays the details of all the accounts associated with the transactions of the Currency Transaction Report. You cannot add, edit or remove any information on the Accounts tab. An account appears on the grid only once even if it is associated with more than one transaction of the Currency Transaction Report. If you add or remove a transaction on the Transaction tab, the accounts on the Accounts tab also get updated accordingly.
- Financial Institutions: The Financial Institutions tab displays the information on financial institutions information associated with the Currency Transaction Report. You can change the Transaction FI information and the Parent FI information present in the Currency Transaction Report using the Change Transaction FI option in the Transaction FI page and Change Parent FI

option in Parent FI page respectively. The information appearing on this tab will be part of Form 2A and 2B of the E-File.

Note: You an add a User Field value to a Transaction FI record and Parent FI

records by clicking the

- **Evidence**: The Evidence tab displays the comments and documents associated with the Currency Transaction Report. It allows a user to add comments and add or remove documents. The records are displayed in reverse chronological order.
- Audit: The Audit tab displays the history of actions taken on the Currency Transaction Report along with the comments and attachments provided for each action. Any errors found in the initial validation and those returned by FinCEN in the acknowledgement file are also be displayed in the Audit tab.

# Managing Exemptions

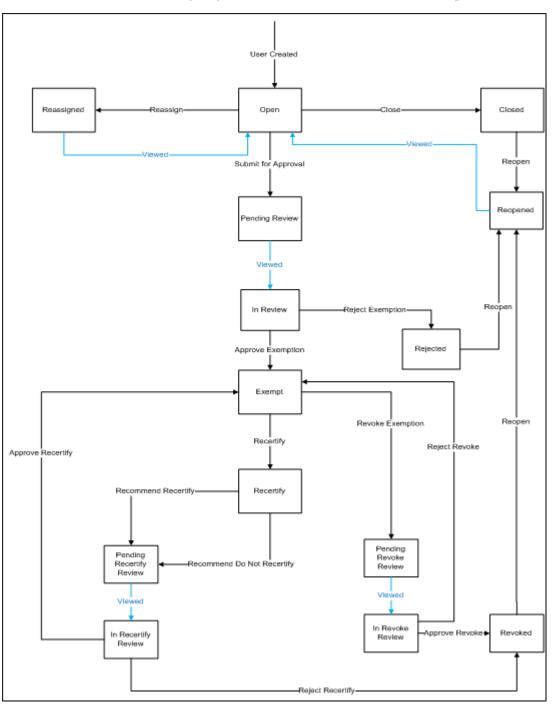

This chapter describes the workflow of an Exemption, managing Search and List page, and managing Exemption Details page. This chapter focuses on the following topics:

• Exemption WorkFlow

**CHAPTER 5** 

- Managing Search and List
- Managing Exemption Details Page
- Creating an Exemption

# Exemption WorkFlow

The following diagram illustrates the workflow of the Exemption:

Figure 48. Exemption Workflow

# Life Cycle of an Exemption

Open	When a user creates a new exemption or re-opens an exemption, the status of that exemption is changed to Open. All Exemptions need to be created manually.
Closed	A user can close an exemption if its status is changed to Open or Re-Open from Revoked Rejected or Closed status.
Pending review	The status of an exemption is changed to Pending Review in the following scenarios:
	• When a user takes a Submit for approval action or any other action taken along with Submit for approval
	• When a supervisor submits for exemption approval while creating new Exemption/Reopening rejected/Revoked/Closed Exemptions
Reassign	An Exemption can be reassigned in the following statuses:
	• Open
	Pending Review
	• In- review
	Pending Recertify Review
	• In Recertify Review
	Pending Revoke Review
	In Revoke Review
	• Reopened
	• Reassigned
	• Recertify
	Reassign is not possible on an exemption when its in below status
	• Exempt
	• Revoked
	• Closed
	• Rejected
Reopen	The status of an Exemption can be changed to Reopen when its in Rejected, Revoked, and Closed status.
In-review	The status of an Exemption changes to In-review when a Supervisor views an exemption in Pending Review status.
Exempt	The status of an Exemption can be changed to Exempt when a Supervisor approves an exemption.

	An exemption can move to Exempt status in the following cases:
	• When a newly created Exemption is approved by the supervisor to be Exempt.
	• When an existing Exemption which goes through yearly recertify process as a result of system triggered/user submitted and get Recertified
	<ul> <li>When Revoked/Rejected Exemptions which are Reopened and Exempted again</li> </ul>
	• When Rejected/Closed Exemption which are reopened and Exempted.
Exempt Date	An Exempt Date is the date on which the entity exempted for filing Currency Transaction Report for the first time.
	The following are the scenarios when an exempt date is recorded in the CTR:
	• When an exemption is Recertified (Approve - Recertify) as a result of a system- triggered or user- submitted Recertify action. The exempt date is not changed but the status is changed to Exempt.
	• When an Exemption is Reopened from the Rejected or Closed status and exempted for the first time, records the Exempt Date.
	• Exemption which is reopened from the Rejected status and if such Exemption had already been approved at least once before, then it gets rejected and does not record an exempt date and gets Exempt status again.
	Note: The CTR does not extend the expiration date on the exemption if the Exempt status has resulted from the Reject Revoke action.
Revoked	The status of an Exemption can be changed to Revoked in the following scenarios:
	• Revoke action can be taken on Exemption which is in Exempt status however this action results in Pending Revoke Review status. Once supervisor approves the Revoke, (Approve – Revoke) Exemption moves to Revoked status, if supervisor rejects (Reject – Revoke) the exemptions status changes to Exempt.
	• Submit for Revoke action can be taken on Exemption which is in Recertify status however this action results in Pending Recertify Review status. Once the supervisor approves the Reject Recertify Exemption moves to Revoked status, if supervisor Approve Recertify the exemption is extended for next one year from the date of Approve Recertify action and Exemption status changes to Exempt.
	• Exemptions which are in Revoked status can be reopened to reinstate the exemption.
	• CTR expires the exemptions on the date of expiry irrespective of the status however the exemption status remains unchanged.
	• When the Exemptions status which are in Pending Recertify Review, In Recertify Review, Pending Revoke Review, and In Revoke Review pass the expiry date, the CTR revokes exemption by clearing the exempt date from the exemption without changing the status.

	<b>Note:</b> For exemptions that are moved to the Revoked status, the expiration date is cleared.
Recertify	The status of an Exemption can be changed to Recertify in the following scenarios:
	• Upon an exemption record moving to Exempt status the CTR applies an Initiate Recertification Date that is current day + 320 calendar days (45 days prior to yearly review date)
	• When a user recertifies (Approve – Recertify) and the status returns to an exempt status and the process repeats (initiate recertification date is reset).
	• When a user doesn't recertify (Rejected – Recertify) Exemption status moves to Revoked and initiate recertification and expiration dates are cleared.
Recertify Date	The following are the scenarios when a recertify date is recorded in the CTR:
	• Recertify (Last Renewal) date is recorded when an exemption gets recertified.
	• Recertify (Last Renewal) date is not recorded when an exemption is exempted for the first time.
In Revoke Review	The status of an Exemption can be changed to In-Revoke Review in the following scenarios:
	• When a supervisor views an Exemption which is in the status of Pending Revoke Review, the status changes to In Revoke Review. The possible actions on In Revoke Review state are Approve Revoke or Reject Revoke.
	• Expire Date is not cleared on the Exemption until an exemption is in In Revoke Review status. Clearing of Expire Date on Exempt Entity depends on the supervisor action. If a supervisor takes Reject Revoke action Expire Date stays on the Exempt entity as is. In case of Approve Revoke action Expire Date is cleared from the exemption entity from the immediate effect.
In Recertify Review	The status of an Exemption can be changed to In-Recertify Review in the following scenarios:
	• When a supervisor views an exemption which is in Pending Recertify Review, the status changes to In Recertify Review.
	• A supervisor can take Approve Recertify action which change Exemption status to Exempt and can extend the expiry date to next one year from the date of Approve Recertify action.
Rejected	The status of an Exemption can be changed to Rejected when Exemptions are denied. This status is considered as inactive status of exemption.
Pending Revoke Review	The status of an Exemption can be changed to Pending Revoke Review when Submit for Revoke Exemption action is taken on Exemption which is in Exempt status.

Pending RecertifyThe status of an Exemption can be changed to Pending Recertify Review when a user<br/>takes Submit for Renewal Approval action on the exemption which is in Recertify<br/>status.

# Managing Search and List

This chapter discusses the following topics:

# Components of Search and List Page

The Search and List page is composed of the following components:

- Check boxes
- Action s
- Column Headings

Check boxes	Check boxes are provided at the beginning of each row in the Search and List matrix. Select these boxes to take action on Search and List records and deselect the check box to clear it. A user can select a record from Search and List page and take actions.
Action s	The system provides the following action s that appear above the list of Exemptions:
	• Action: This option allows you to set an action for the selected Exemptions.
	• Email: This option allows you to email Search and List IDs.
	• <b>Expand All</b> : This option allows you to expand the complete details for the items where text cannot be accumulated in the column length. This can be vice versa if you click <b>Collapse All</b> , and this takes you to the original view of Search and List.
Column Headings	Column headings provide labels that tell you what kind of information displays in the columns. Most column headings in the Search and List matrix are sortable.
	right-click on the column heading to sort the display. A list of sorting menu displays. For example, Ascending, Descending, Clear Sort, Field Chooser, and Transpose. Select the relevant sorting option. The Currency Transaction Reporting application refreshes the list and re-sorts the Search and List records based on the selected criteria.
	The Exemptions List will have the following column headings:
	• Exemption ID
	• Entity Name
	• Entity ID
	• TIN
	• Exempt Date
	• Initiate Recert Start
	Last Renewal Date
	• Expire Date
	• Status

Status	The current status of the Exemption.

#### Table 16. Exemption Details

**Exemption Details** 

The Exemption Details page displays the following Exemption Details tabs:

Tabs

Transaction: The transaction tab on an Exemption Details page provides • information on the transactions associated with the Audit Currency Transaction Reports and Related CTRs where the Exempt Entity or its accounts appears as beneficiary, originator of the transaction. When an exemption is on Account, the transaction tab will show transaction/s where the

exempt account appears on a transaction associated with any of the currency

transactions which have been included in any Currency Transaction Report. When an exemption is on a Customer ID, the transaction tab displays all transactions that have been matched to a Currency Transaction Report where the account on the transaction is mapped to the Exempted Customer ID or is owned by the exempt Customer. A user can filter transactions either selecting the Lookback Period drop-down options or by selecting both Lookback Period and Account drop-down options. If the transactions list exceeds 15 records, the CTR displays the pagination options.

**Note:** By default in the All Transaction and All Accounts are selected in the Lookback Period filter and Account filter respectively.

The Transaction tab includes the following fields.

- Acct ID
- Trans Ref
- Trans Dt
- Trans Type
- Trans Am Base
- Conductor Name
- Conductor ID
- Conductor ID Type
- Location ID
- Exempt Fl
- Bus Reason
- Related CTRs: The Related CTRs tab displays all Currency Transaction Reports and Audit Currency Transaction Reports where the exempt entity appears as Involved Party. If the exemption is on Account, all the Currency Transaction Reports are displayed on which the exempt account exists in any of the transaction. If the exemption is on Customer, all the Currency Transaction Reports are displayed on which exempt entity exist as a person involved in the transaction. A user can filter transactions by selecting the Lookback Period drop-down options. If the Related CTRs list exceeds 15 records, the CTR displays the pagination options.

Related CTRs tab displays the following fields:

- CTR ID
- CTR Title
- CTR Focal Entity
- CTR Type
- Transaction Date
- Source
- Status

- Created date
- Due Date
- Owner
- Cash-in amount
- Cash-out amount

A user with a CTR Supervisor role can click on the CTR IDs in the Related CTRs list page to navigate to the CTR Details page subject to access to business domain and jurisdiction similar to the CTR ID. A user with no access to business domain and jurisdiction of the selected Currency Transaction Report cannot view the hyper link on the CTR IDs in Related CTRs list page.

• Accounts: The Accounts tab displays list of all the accounts that are exempted under the Current exemption ID. If the exemption is on AC, Account tab would display only one Account. If the exemption is on Customer ID, Account tab would display all the accounts where customer has an owning role and is mapped to the Customer ID.

When new accounts are mapped to the exempted Customer ID in the business data, the CTR displays those newly mapped accounts while viewing an exemption on a Customer ID. New accounts are automatically exempted for the exempt customer if customer has owning role on the newly added accounts. The accounts in the account list page are sorted based on the Account Open Date in a chronological (Descending) order. If the date of Account open is same then the account is selected and viewed in the account list page.

The Account tab has the following three LHS menu options:

- Details
- Comments
- Attachments

The Account list page displays the account records displaying the following fields:

- Account ID
- Type
- Account Name
- Open Date
- Status
- Branch
- TIN concatenate format code + Account Tax Identifier

The Details LHS menu option in Account list displays detailed information of a selected account with following fields:

Account ID

- Account Type concatenation of Account Type 1 and Account Type 2 fields
- Account Name
- Account Status
- Reporting Currency
- Business Domain
- Account Purpose
- Open Date
- Last Activity Date
- Prmry Customer ID
- TIN concatenate format code + Account Tax Identifier
- Registration Type:
- **Customer:** The Customer tab displays only one customer record for the exempt customer. If the exempt entity is of type Account this list would display all customers currently having an owning role on the exempt account. The Customer tab has the following five LHS menu options:
  - Details
  - Contact Info
  - Accounts
  - Attachment
  - Comments

The Details LHS menu option in Customer list displays detailed information of a selected customer with following fields:

- Cust ID
