About this Guide

The OFS FATCA Regulatory Reporting User Guide explains the concepts behind OFS FATCA Regulatory Reporting application and provides step-by-step instructions for navigating through the application.

This chapter discusses the following topics:

- Who Should Use this Guide
- How this Guide is Organized
- Where to Find More Information
- Conventions Used in this Guide

Who Should Use this Guide

The OFS FATCA Regulatory Reporting User Guide is designed for use by various users. Their roles and responsibilities, as they operate within the OFS FATCA Regulatory Reporting application, include the following:

- **FATCA RR Analyst**: This user can create new reports, edit report details, add comments to the report, request reports for approval, and also cancel filing of reports from open and reopen status.

- **FATCA RR Supervisor**: This user can create new reports, edit report details, approve reports, request for cancellation, add comments, rework on reports, cancel filing of reports, view final report, mark reports as submitted, reopen cancelled reports, and reopen submitted reports.

- **FATCA RR Auditor**: This user can view reports and add comments to the report.

- **FATCA RR Admin**: This user is responsible for mapping security attributes to the users.
How this Guide is Organized

The OFS FATCA Regulatory Reporting User Guide, includes the following topics:

- Chapter 1, About OFS FATCA Regulatory Reporting, provides an overview of the OFS FATCA Regulatory Reporting application.
- Chapter 2, Getting Started, explains the steps to login to the OFS FATCA Regulatory Reporting application and provides a brief overview of the various users and their roles in the application.
- Chapter 3, Managing OFS FATCA Regulatory Reporting, explains the workflow of FATCA reports.

Where to Find More Information

For additional information about OFS FATCA Regulatory Reporting, refer to the following documents on OTN:

- OFS FATCA Administration and Configuration Guide
- OFS FATCA RR Administration and Configuration Guide
- OFS FATCA RR Data Model Reference Guide

CHAPTER 1 About OFS FATCA Regulatory Reporting

This chapter provides an overview of the OFS FATCA Regulatory Reporting application.

Introduction to OFS FATCA Regulatory Reporting

The Foreign Account Tax Compliance Act (FATCA) is an important development in the United States, that aims to combat tax evasion by US persons holding accounts and other financial assets in other countries. Under FATCA, certain US taxpayers holding financial assets outside the United States must report those assets to the Internal Revenue Service (IRS).

FATCA also requires certain foreign financial institutions to report directly to the IRS information about financial accounts held by US taxpayers or by foreign entities in which US taxpayers hold a substantial ownership interest. The reporting institutions include not only banks, but also other financial institutions, such as investment entities, brokers, and certain insurance companies.

The OFS FATCA Regulatory Reporting application focuses on reporting:

- By US taxpayers about certain foreign financial accounts and offshore assets
- By foreign financial institutions about financial accounts held by US taxpayers or foreign entities in which US taxpayers hold substantial ownership interest

FATCA reports are of two types, namely, Individual reports and Pooled reports.

- **Individual Reports**: Individual Reports are used for reporting specific account holder information.
- **Pooled Reports**: Pooled Reports are used for reporting on an aggregate basis in a reporting pool rather than reporting specific account holder information.

The OFS FATCA Regulatory Reporting helps generate FATCA reports as per Form 8966 provided by the IRS. For more information on the workflow of FATCA reports, refer to *OFS FATCA Regulatory Reporting Workflow*.
CHAPTER 2

Getting Started

This section explains the steps to login to OFS FATCA Regulatory Reporting and provides a brief overview of the various users and their roles within the application.

This chapter explains the following topics:

- User Roles
- User Access
- Logging in to OFS FATCA Regulatory Reporting

User Roles

The following user roles are defined in OFS FATCA Regulatory Reporting:

- FATCA RR Analyst
- FATCA RR Supervisor
- FATCA RR Auditor
- FATCA RR Admin

Note: If OFS FATCA Regulatory Reporting is integrated with OFS FCCM, then you can map the FATCA admin role to the ECM admin role.
User Access

The following table explains the tasks that can be performed by various users in OFS FATCA Regulatory Reporting.

Logging in to OFS FATCA Regulatory Reporting

To access OFS FATCA Regulatory Reporting, follow these steps:

1. Go to the OFSAAI Login page.
2. Select the Language.
3. Enter your User ID.
4. Enter your Password.
5. Click Login. The Oracle Financial Services Analytical Applications Infrastructure page is displayed with a link to FCCM.

6. Click FCCM.

7. Hover over Regulatory Reporting. Click FATCA Reports. The Search and List page is displayed.
Based on user roles and access permission, FATCA Reporting displays the following menu options.

- Users mapped to FATC RR Analyst, FATC RR Supervisor, and FATC RR Auditor role can access the **FATCA Reports** menu.
- Users mapped to FATC RR Admin role can access the **FATCA Regulatory Reporting User Attribute Administration** menu.

The FATCA Reports menu displays the following sub-menus:

- **Search and List**: This menu allows you to navigate to the Search and List page. From this page you can use various criteria to search for FATCA Regulatory Reports.
- **Case Search**: This menu allows you to navigate to the Case Search page. From this page, you can search for FATCA cases that are ready for regulatory filing, incase your firm has implemented OFSECM.
- **Create New Report**: This menu allows you to navigate to the Create New Reports page where you can initiate a user created FATCA Regulatory Report.

The Administration menu displays the following menu:

- **FATCA Regulatory Report User Attribute Administration**: This menu allows you to map and maintain the security attributes for each user role.
CHAPTER 3

Managing OFS FATCA Regulatory Reporting

This section provides step-by-step instructions to manage FATCA reports and includes the following topics:

- OFS FATCA Regulatory Reporting Workflow
- Creating FATCA Reports
- Searching FATCA Cases
- Searching FATCA Reports
- Filing and Submitting FATCA Reports for Approval
- Setting Due Date For Reports
- Adding Comments to Report
- Exporting the Report Details to Excel

OFS FATCA Regulatory Reporting Workflow

FATCA Reports can be created manually with OFS FATCA Regulatory Reporting application, or from the Case Search page or through batch process. For more information on creating reports, refer to Creating FATCA Reports.

Once the reports are created they are displayed in the Search and List page. Users mapped to the role of Analyst can update the report information as needed and submit the report details for approval to the Supervisor.

The Supervisor can approve, rework, or cancel filing of reports once an Analyst has requested approval. On the other hand, Supervisors can also edit the report details and approve reports directly, if needed.

If the report is approved by the Supervisor, the OFS FATCA Regulatory Reporting application generates the final PDF after all the necessary validations. The status of the report changes to Approved. For more information on approving reports, refer Approving Reports.

Once the report is approved, the PDF can be submitted to IRS. Submission to IRS occurs outside of the application. The report can then be marked as Submitted in the application. The status of the Report changes to Submitted. For more information, refer to E-File Generation.

If required, the Supervisor can send the report for rework when the report is in request for approval status. The analyst must then re-work the report and re-submit the report for approval. This process continues until the report is approved or canceled. For more information, refer to Sending Reports For Rework.

If the Supervisor determines that a report should not be filed, they can cancel it. If the report is canceled, the report details cannot be edited and the report is in View mode. The status of the report changes to canceled. For more information, refer to Cancel Filing of Reports.

The application allows users mapped to the role of Supervisor to re-open canceled reports. The status of the report changes to Reopened. For more information, refer to Reopening Reports.

For more information on user roles, refer to Table 2.

The report has a life cycle which begins with the Open status and ends when it is in Submitted status.
**Note:** You cannot edit report details when the report is in *View Only* mode. You can add comments to a report in all statuses.

To view the report details, click the report name in the Search and List page.

The following figure depicts the workflow of FATCA reports:

**Figure 3. Workflow of FATCA Reports**
If you try to take action on more than one report and some reports are locked by another user, the application displays the following message: `<Report Name(s)> are locked by another user. Click OK to take action on the remaining reports or CANCEL to go back to the previous page.

If you try to take action on one or more than one report and all the reports are locked by another user, the application displays the following message: All the selected reports are locked by another user. Please try again later.

If you try to open a report that is already opened by another user, the application displays the following message: The report is currently locked by another user. You will not be able to edit/take action on the report. Do you wish to open report details in read only mode.

Creating FATCA Reports

You can create new FATCA reports whenever you identify tax non-compliance by US taxpayers with foreign accounts, and want to report it to the IRS. The reports can be generated from within the application, or through the Case Search page, or through Batch Process.

This section covers the following topics:

- Creating Reports Manually from OFS FATCA Regulatory Reporting
- Creating Reports from Case Search Page
- Creating Reports Through Batch Process

Creating Reports Manually from OFS FATCA Regulatory Reporting

You can manually create a new report using the Create New Report option in the OFS FATCA Regulatory Reporting application.

Note: Users mapped to the role of Analyst and Supervisor can create new FATCA reports.

To create FATCA reports from OFS FATCA Regulatory Reporting, follow these steps:

1. From the FATCA Reporting menu, hover over FATCA Reports and click Create New Report. The Create New Report container is displayed.

   Or

   ![Create New Report](image)

   **Figure 4. Create New Report**

3. Enter the required information.

   Note: Always specify values for fields marked as required. Required fields are identified by a red asterisk.
The following table explains the fields in the Create New Report container:

4. Click Save. The following confirmation message is displayed: <> Report created successfully. Click Ok to view the report details or Cancel to create more reports.

5. Click OK. The Report Details page is displayed.
A new report is created and the due date is set as per the number of days configured in the application parameter Table.

If the Report Name, Report Type, Jurisdiction, or FATCA Status is missing in the Create new Report container, and when you click on Save, the application displays the following message: Report Name, Report Type, Jurisdiction and FATCA Status are mandatory.

Note: Reporting Year Start and End Date for a report will be populated from configuration parameter.

Creating Reports from Case Search Page
The Case Search page allows you to create reports from cases generated in OFSFCCM. However, the OFS FATCA Regulatory Reporting application does not support creating reports from the Case Search page, if it is installed as a standalone application.

The Case Search page allows you to create individual/pooled FATCA reports for FATCA cases. For more information on generation of FATCA cases, refer to the FATCA Administration and Configuration Guide.
Creating Individual Reports

Individual Reports are used for reporting specific account holder information. You can create individual reports for more than one FATCA status listed in the Case Summary grid. Each FATCA status can contain one or more cases. If you click Create Individual Report, all the cases under the selected FATCA status are converted into Individual FATCA reports.

For example, consider having 15 cases under FATCA status Non-Participating FFI and 10 cases under FATCA status Recalcitrant. If you click Create Individual Report after checking these two FATCA statuses in the Case Summary grid, the application generates 25 individual reports: 10 reports for Non-Participating FFI and 15 reports for Recalcitrant.

To create individual reports, follow these steps:

1. Navigate to the Case Search page.
2. Select the FATCA status for which you want to create an individual report.
3. Click Create Individual Report. The following message is displayed: Reports were created successfully.
4. Click OK.

Note: The selected FATCA status records are removed from the Case Summary grid after the reports are created successfully.

Creating Pooled Reports

Pooled Reports are used for reporting on an aggregate basis in a reporting pool rather than report specific account holder information. Pooled reports can contain only a given FATCA status.

You can create pooled reports for more than one FATCA status listed in the Case Summary grid. Each FATCA status can contain one or more than one case. If you click Create Pooled Report, all the cases under the selected FATCA status are converted into a Pooled Report summarizing each FATCA status into one report.

For example, consider having 15 cases under FATCA status Non-Participating FFI and 10 cases under FATCA status Recalcitrant. If you click Create Pooled report after checking these two FATCA statuses in the Case Summary grid, the application generates 2 reports, 1 report for Non-Participating FFI and 1 report for Recalcitrant.

To create pooled reports, follow these steps:

1. Navigate to the Case Search page.
2. Select the FATCA status for which you want to create an individual report.
3. Click Create Pooled Report. The following message is displayed: Reports were created successfully.
4. Click OK. The selected FATCA status is removed from the Case Summary grid.
Creating Reports Through Batch Process

For a standalone application, reports are generated using Batch Process. Reports are generated based on FATCA Status, Overall Indicia, and FATCA Pool Report Code. For standalone implementations, these values are provided by the client as part of the Account reference data and are used to determine if an account should be reported and under what classification. The reports are generated automatically whenever the batch is run.

For more information on batch process, refer to the *FATCA RR Administration and Configuration Guide*.

Searching FATCA Cases

The Case Search page enables you to search for cases that you want to view and analyze using the search criteria. By default, the search criteria is blank.

The Case Summary in the Case Search page displays the number of latest created FATCA cases matching the search criteria, for an account. All cases are grouped by FATCA status of an account. The search results are further filtered based on the following logic:

1. Only FATCA cases in the following statuses are considered:
   a. Closed - Cases closed by users following an investigation.
   b. Closed by System - These are cases which are automatically closed by the system upon creation based upon configurable settings. For example, if the FATCA status is clear and due diligence is not required, the case may be automatically closed and ready for filing depending on status.

2. Based on the search criteria, the latest cases for an account number are displayed, if the cases are in *Closed* or *Closed by System* status.

3. The cases are displayed only for the current filing financial year configured in static tables.

4. Cases are displayed based on the security attributes mapped to the current user. Users can only see cases to which they have access rights.
Searching FATCA Cases Using Search Criteria

To search for FATCA cases using the search components, follow these steps:

1. Navigate to the Case Search page.

2. Enter the details in the relevant search fields to retrieve the number of reportable cases for each reportable FATCA status. The following table explains the search fields in Case Search page.

Searching FATCA Reports

The Search and List page enables you to filter the list of reports that you want to view and analyze. The search bar supports three types of search, namely, Views, Basic Search, and Advanced Search. The Reports List displays the list of reports that meet the criteria specified on the Search bar. This section explains the following topics:

- Searching FACTA Reports Using Basic Search
- Searching FACTA Reports Using Advanced Search
- Searching FATCA Reports Using Pre-defined Views

Searching FACTA Reports Using Basic Search

This search is based on a limited set of search components and helps to retrieve the required reports details. To search for FATCA reports using the basic search components, follow these steps:

1. Navigate to the Search and List page.

![Basic Search Components](image)

**Figure 6. Basic Search Components**

*Note:* The basic Search option is displayed by default.

2. Enter the details in the relevant search fields to retrieve the list of reports. For detailed descriptions of search fields, refer to *Table 7*.

3. Click Go. The relevant search list is displayed.

*Note:* If there is no match for the entered search criteria, the application displays *No Data Found* message.
Searching FACTA Reports Using Advanced Search

The Advanced Search offers the same search fields as provided for a simple search along with additional fields. If you know any of the report details such as approver details, last modified details, report submitted details, and so on, then you can filter the list of reports using the advanced search components.

To search for reports using advanced search components, follow these steps:

1. Navigate to the Search and List page.
2. Click **Advanced Search** from the search bar.

![Advanced Search Components](image)

3. Enter the search components to filter the reports.

The following table provides the description of the search components that display in the Advanced Search bar:

### Searching FATCA Reports Using Pre-defined Views

Views search helps you to quickly filter the reports based on pre-defined search queries. To search for reports using pre-defined views, follow these steps:

1. Navigate to Search and List page.
   
   **Note:** By default, the Search and List page displays all the available records.

2. Click **Views** from the search bar.

![Figure 8. Views Search](image)

3. Select any of the pre-defined views from the Views drop-down list. The Search and List page refreshes to show results matching the View criteria.

The following table explains the different types of default pre-defined views available:

Saving Views

The Save as View action allows you to save the search criteria as a view. The saved views will be available in the Views drop-down list.

To save a view, follow these steps.

1. Navigate to Search and List page and click Advanced Search.
2. Enter the search criteria you want to save as view.
3. Click Save as View. The Save as View window is displayed.

4. Enter the view name and view details.

   The View Details box in the Save as View window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in this box, the following message is displayed: Number of characters exceeded.

5. Click Save. The following message is displayed: Add Operation Successful.
6. Click OK. The view is saved and is displayed in the Views drop-down list.

   The saved view is available only to the user creating the view and will not be available to any other users.

Filing and Submitting FATCA Reports for Approval

This process involves the following steps:

- Entering Report Details in Report Details Page
- Taking Actions on FATCA Reports

Entering Report Details in Report Details Page

The Report Details page allows users mapped to the role of Analyst and Supervisor to enter or update report information depending upon the report status.

Click the report name in the Search and List page to navigate to the Report Details page.

The Report Details page allows you to manage the following sections:

- Report Context
- Identification of Filer
- Account Holder/Payee Information
- Financial Information
- Related Reports
- Documents
- Audit
- Pool Reporting

Note: For Individual reports, the Report Details page displays the tabs namely, Identification of Filer, Account Holder/Payee Information, Financial Information, Related Reports, Documents, and Audit.

For Pooled reports, the Report Details page displays the tabs namely, Identification of Filer, Documents, and Audit.

This section explains the following topics:

- Managing Identification of Filer Tab
- Managing Account Holder/Payee Information Tab
- Managing Financial Information Tab
- Managing Related Reports Tab
- Managing Pooled Reporting Tab
- Managing Documents Tab
- Viewing Audit Information
Report Context

The Report Context section in the Report Details page displays information about the report and is non-editable. It contains minimize and maximize buttons that allow you to expand and collapse the details in the Report Context. By default, the Report Context container is in minimized mode and displays report number, report name, and report status.

Taking Actions on FATCA Reports

The Report Details page allows authorized users to take the following actions on the report.

- Requesting the Report Details for Approval
- Approving Reports
- Sending Reports For Rework
- Cancel Filing of Reports
- Reopening Reports
- E-File Generation
- NIL E-File Generation
- Generate Revised Report

Requesting the Report Details for Approval

After updating the report details, they must be validated. The Report Details page allows authorized users to validate the report details and then submit the report for approval. When the user submits the report for approval, it is validated if the mandatory fields within the report have been populated. When a report is requested for approval, the status of the report changes to Requested for Approval.

A Supervisor user can review the report submitted for approval by an analyst and can either approve report or send reports for rework, or cancel filing of report.

For more information, refer to Table 2.

To submit a report for approval, an analyst must follow these steps:

1. Navigate to the Reports Details page of a report in Open / Reopen status.
2. Click Request for Approval.

![Figure 30. Request for Approval Window](image)

3. Enter the comments in the Request for Approval window.

   Note: The comments box in the Request for Approval window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following error message is displayed: Number of characters exceeded.

   If you click Save without entering the comments in the Request for Approval window, the following error message is displayed: Mandatory fields are not entered.

4. Click Save. The following message is displayed: Update Operation Successful.
5. Click OK. The Report Details page is displayed and the status of the report changes to Requested for Approval. The Actions section in the Audit tab tracks both the actions and the comments entered while performing the Request for Approval action.

**Bulk Request for Approval**

An analyst user can perform Bulk Request for Approval action. To perform Bulk Request for Approval action, follow these steps:

1. Navigate to the Search and List page.
2. Click Bulk Request for Approval.
   
   The Request for Approve Reports pop-up window is displayed. User can select all the reports eligible for bulk action in the pop-up window.

If you try to enter more than 255 characters in the Comments box, the following message is displayed: Number of characters exceeded.

   If you click Save without entering the comments in the Request for Approve Reports Action window, the following message is displayed: Mandatory fields are not entered.

4. Click Save. The following message is displayed: Update Operation Successful.
5. Click OK. The Report Details page is displayed and the status of the report changes to Approved.
   
   The Actions section in the Audit tab tracks both the actions and the comments entered while performing the Bulk Approve action.
Approving Reports

Authorized users can approve a report when it is in Open, Reopened, Requested for Approval status. For more information, refer to Table 2.

To approve a report, follow these steps:

1. Navigate to the Report Details page of a report in Open, Reopened, Requested for Approval status.
2. Click Approve.

![Figure 32. Approve Window](image)

3. Enter the comments in the Approve window.

   **Note:** The comments box in the Approve window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: Number of characters exceeded.

   If you click Save without entering the comments in the Approve Action window, the following message is displayed: Mandatory fields are not entered.

4. Click Save. The following message is displayed: Update Operation Successful.
5. Click OK. The Report Details page is displayed and the status of the report changes to Approved.

   The Actions section in the Audit tab tracks both the actions and the comments entered while performing the Approve action.

**Bulk Approving Reports**

Users mapped to the role of Supervisor can perform Bulk Approve action on individual reports. To take bulk actions, all reports selected for action should be in the same status.

Search and List page and Views page allows you to take Bulk Approve action on reports which are in Open, Reopened, and Requested for Approval status.

To perform Bulk Approve action, follow these steps:

1. Navigate to the Search and List page.
2. Click Bulk Approve.

   The Approve Reports pop-up window is displayed. User can select all the reports eligible for bulk action in the pop-up window.
3. Enter the comments in the Approve Reports window.

   **Note:** The comments box in the Approve Reports window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: Number of characters exceeded.

   If you click **Save** without entering the comments in the **Bulk Approve** Action window, the following message is displayed: Mandatory fields are not entered.

4. Click **Save**. The following message is displayed: *Update Operation Successful.*

5. Click **OK**. The Report Details page is displayed and the status of the report changes to **Approved**.

   The Actions section in the **Audit** tab tracks both the actions and the comments entered while performing the **Bulk Approve** action.
Sending Reports For Rework

A Supervisor can send reports for rework for incomplete, inaccurate information in the report, or for additional investigation. The Report Details page allows a Supervisor to take Rework action on reports.

If a report is sent for rework, the Analyst must rework on the report and request the report again for approval. This process continues until the report is approved or canceled.

To send a report to rework, follow these steps:

1. Navigate to the Report Details page of a report in Requested for Approval status.

2. Click Rework. The Rework window is displayed.

   ![Rework Window](image)

   **Figure 34. Rework Window**

3. Enter the comments in the Rework window.

   **Note:** The comments box in the Rework window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: *Number of characters exceeded.*

   If you click Save, without entering the comments in the Rework window, the following message is displayed: *Mandatory fields are not entered.*

4. Click Save The following message is displayed: *Update Operation Successful.*

5. Click OK. The Report Details page is displayed and the status of the report changes to Rework.

   The Actions section in the Audit tab tracks both the actions and the comments entered while performing the Rework action.
Cancel Filing of Reports
If a user determine that a report should not be filed they can cancel it. The Report Details page allows authorized users to cancel the reports from being filed. For more information on users who can cancel filing, refer to Table 2. Once the report is canceled, you cannot edit the report details and the report changes into View Only mode.

Note: A canceled report can be reopened by authorized users.

To cancel the filing of a report, follow these steps:
1. Navigate to the Report Details page.
2. Click Cancel Filing. The Cancel window is displayed.

![Figure 35. Cancel Filing Window](image)

3. Enter the comments in the Cancel Filing window.

   Note: The comments box in the Cancel window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: Number of characters exceeded.

   If you click Save without entering the comments in the Cancel window, the following message is displayed: Mandatory fields are not entered.

4. Click Save. The following message is displayed: Update Operation Successful.
5. Click OK. The Report Details page is displayed and the status of the report changes to canceled. The due date of the report is deleted on taking canceled action

   Note: The Actions section in the Audit tab tracks both the actions and the comments entered while performing the Cancel action.

   If you try to perform Cancel Filing action on reports that are in Submitted status, the application displays the following message: Cancel Filing action cannot be taken on Submitted and canceled reports. Please deselect those reports and try again.

Bulk Cancel Filing of Reports
Users mapped to the role of Supervisor can perform Bulk Cancel action on individual reports. To take bulk actions, all reports selected for action should be in the same status.

Bulk Cancel Filing action can be taken on reports which are in Open, Reopened, and Requested for Approval status.

To perform Bulk Cancel Filing action, follow these steps:
1. Navigate to the Search and List page.
2. Click Bulk Cancel.
