About this Guide

The *OFS Common Reporting Standard User Guide* explains the concepts behind the OFS Common Reporting Standard application and provides step-by-step instructions for navigating through the application.

This chapter discusses the following topics:

- Who Should Use this Guide
- How this Guide is Organized
- Where to Find More Information
- Conventions Used in this Guide

Who Should Use this Guide

The *OFS Common Reporting Standard User Guide* is designed for use by various users. Their roles and responsibilities, as they operate within the OFS Common Reporting Standard application, include the following:

- **CRS Analyst:** This user can create new reports, edit report details, add comments to the report, request reports for approval, generate revised reports and also cancel filing of reports from open and reopen status.
- **CRS Supervisor:** This user can create new reports, edit report details, approve reports, request for cancellation, generate revised reports, add comments, rework on reports, cancel filing of reports, view final report, mark reports as submitted, reopen cancelled reports, and reopen submitted reports.
- **CRS Auditor:** This user can view reports and add comments to the report.
- **CRS Admin:** This user is responsible for mapping security attributes to the users, executing CRS batches and uploading client specific data.

How this Guide is Organized

The *OFS Common Reporting Standard User Guide*, includes the following topics:

- Chapter 1, *About OFS Common Reporting Standard*, provides an overview of the OFS Common Reporting Standard application.
- Chapter 2, *Getting Started*, explains the steps to login to the OFS Common Reporting Standard application and provides a brief overview of the various users and their roles in the application.
- Chapter 3, *Managing OFS Common Reporting Standard*, explains the workflow of CRS reports.

Where to Find More Information

For additional information about OFS Common Reporting Standard, refer to the following documents on [OTN](#):

- *OFS CRS Data Model Reference Guide*
- *OFS BD Installation Guide*
- *OFS CRS Administration and Configuration Guide*

To find additional information about how Oracle Financial Services solves real business problems, see our website at www.oracle.com/financialservices.

About OFS Common Reporting Standard

This chapter provides an overview of the OFS Common Reporting Standard application.

Introduction to OFS Common Reporting Standard

Oracle Financial Services Common Reporting Standard application enables financial institutions to create reports containing tax data on reportable accounts to their respective jurisdiction, which in turn will exchange it with other participating jurisdictions on an annual basis.

CRS is a global model developed by the Organization for Economic Cooperation and Development (OECD) Council, working with G20 countries, for automatic exchange of information, including the technical modalities, to better fight tax evasion and ensure tax compliance. CRS combines global anti-money laundering standards with intergovernmental implementation such as found in the Foreign Account Tax Compliance Act (FATCA), and provides an automatic exchange of information in a global context. Jurisdictions must obtain information from their financial institutions and share that information with other jurisdictions annually, in accordance with CRS. The Standard specifies the financial account information to be exchanged, which financial institutions are required to report, the different types of accounts and taxpayers covered, and the due diligence procedures to be followed.

For more information on the workflow of CRS reports, refer to *OFS CRS Regulatory Reporting Workflow*.

This section explains the steps to login to OFS Common Reporting Standard and provides a brief overview of the various users and their roles within the application.

This chapter explains the following topics:

- User Roles
- User Access
- Logging in to OFS Common Reporting Standard

User Roles

The following user roles are defined in OFS Common Reporting Standard:

- CRS Report Analyst
- CRS Report Supervisor
- CRS Report Auditor
- Report Sys-Admin

User Access

The following table explains the tasks that can be performed by various users in OFS Common Reporting Standard.

Based on user roles and access permission, CRS displays the following menu options.

- Users mapped to CRS Analyst, CRS Supervisor, and CRS Auditor role can access the **Regulatory Reporting** Menu.
- Users mapped to CRS Admin role can access the **CRS Assessment Configuration** menu.

The CRS Reports menu displays the following sub-menus:

- **Search and List:** This menu allows you to navigate to the Search and List page. From this page you can use various criteria to search for CRS Regulatory Reports.
- **Create New Report:** This menu allows you to navigate to the Create New Reports page where you can initiate a user created CRS Report.
- **File CRS Reports:** This menu allows you to navigate to the File CRS Reports page where you can file CRS reports and create E-Files.

The Administration menu displays the following menu:

- **Security Attribute Administration:** This menu allows you to map and maintain the security attributes for each user role.

Managing OFS Common Reporting Standard

This section provides step-by-step instructions to manage CRS reports and includes the following topics:

- OFS CRS Regulatory Reporting Workflow
- Creating CRS Reports
- Searching CRS Reports
- Filing and Submitting CRS Reports for Approval
- Setting Due Date For Reports
- Adding Comments to Report
- Exporting the Report Details to Excel
- Managing FATCA Analytics Report

OFS CRS Regulatory Reporting Workflow

CRS Reports can be created manually with the OFS Common Reporting Standard application or through batch process. For more information on creating reports, refer to *Creating CRS Reports*.

Once the reports are created they are displayed in the Search and List page. Users mapped to the role of Analyst can update the report information as needed and submit the report details for approval to the Supervisor.

The Supervisor can approve, rework, or cancel filing of reports once an Analyst has requested approval. On the other hand, Supervisors can also edit the report details and approve reports directly, if needed.

If the report is approved by the Supervisor, the status of the report changes to Approved. For more information on approving reports, refer *Approving Reports*.

Once the report is approved, the approved report goes through the E-File Generation process. For more information, refer to *Generating E-File*.

If required, the Supervisor can send the report for rework when the report is in request for approval status. The analyst must then re-work the report and re-submit the report for approval. This process continues until the report is approved or canceled. For more information, refer to *Sending Reports For Rework*.

If the Supervisor determines that a report should not be filed, they can cancel it. If the report is canceled, the report details cannot be edited and the report is in View mode. The status of the report changes to *canceled*. For more information, refer to *Canceling Filing of Reports*.

The application allows users mapped to the role of Supervisor to re-open canceled reports. The status of the report changes to *Reopened*. For more information, refer to *Reopening Reports*.

For more information on user roles, refer to *Table 2*.

The report has a life cycle which begins with the *Open* status and ends when it is in *Submitted* status.

Note: You cannot edit report details when the report is in *View Only* mode. You can add comments to a report in all statuses.

To view the report details, click the report name in the Search and List page.

The following figure depicts the workflow of CRS reports:

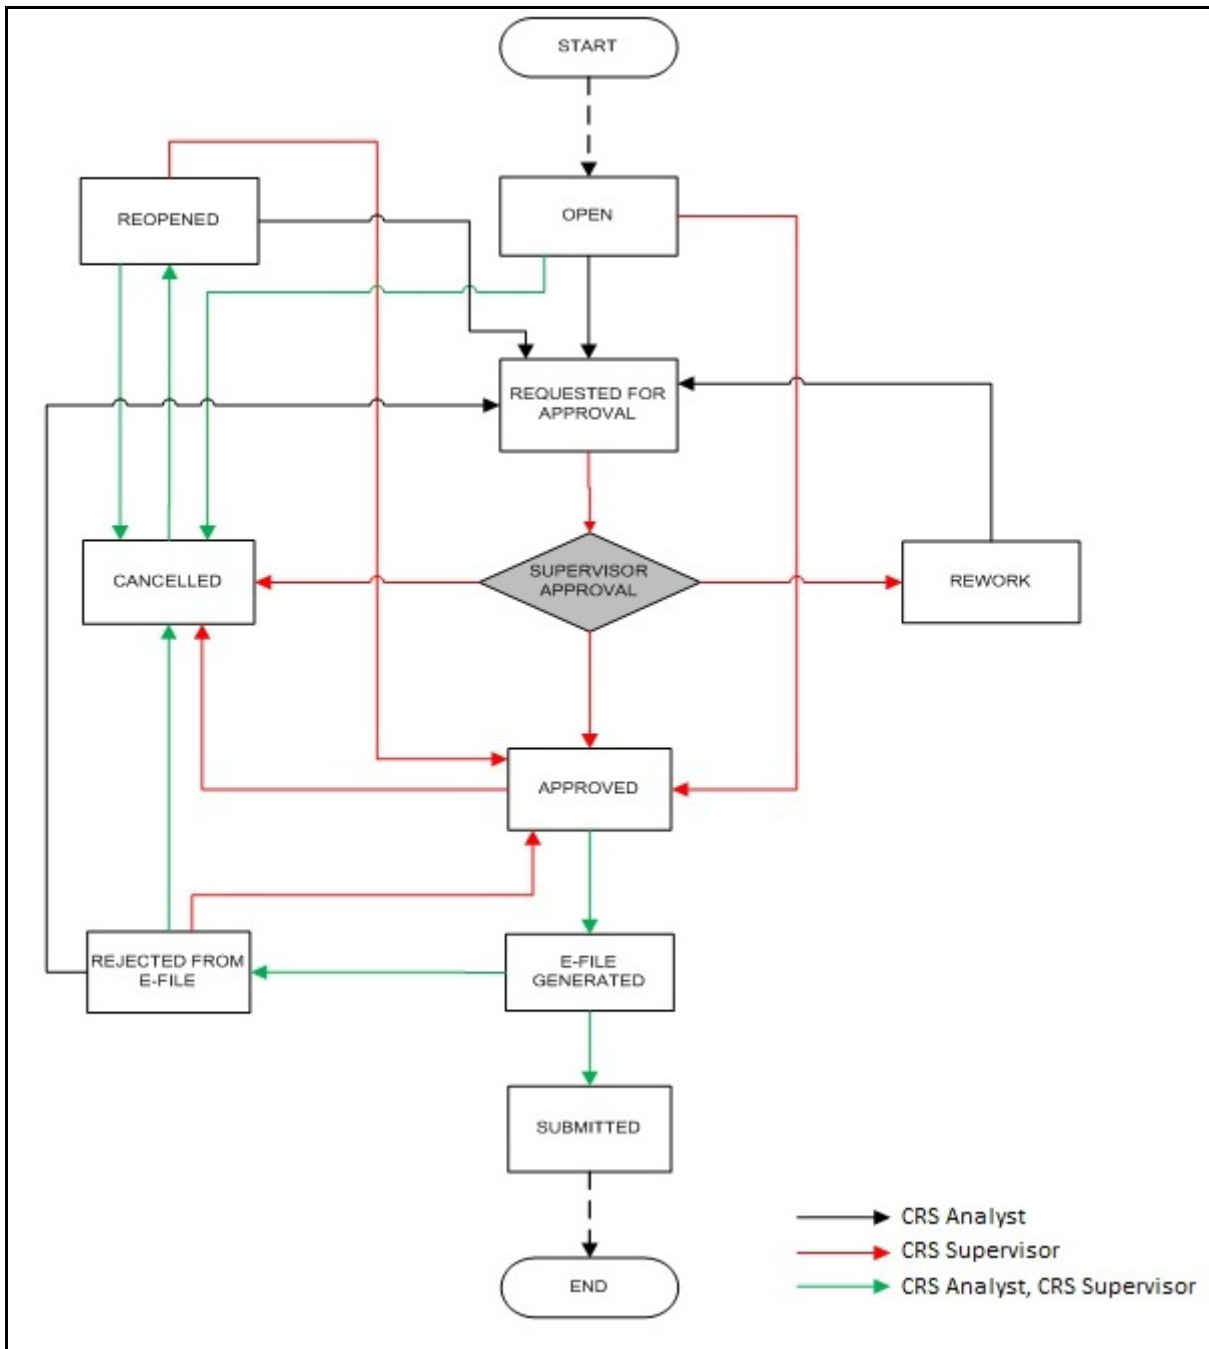

Figure 4. Workflow of CRS Reports

If you try to take action on more than one report and some reports are locked by another user, the application displays the following message: *<Report Name(s)> are locked by another user. Click OK to take action on the remaining reports or CANCEL to go back to the previous page.*

If you try to take action on one or more than one report and all the reports are locked by another user, the application displays the following message: *All the selected reports are locked by another user. Please try again later.*

If you try to open a report that is already opened by another user, the application displays the following message: *The report is currently locked by another user. You will not be able to edit/take action on the report. Do you wish to open report details in read only mode.*

Creating CRS Reports

You can create CRS reports when you want to submit reporting information to local regulator for any foreign account holder that a financial institution finds eligible for reporting.

This section covers the following topics:

- Creating Reports Manually from OFS CRS
- Creating Reports Through Batch Process
- Creating Report Using CRS Assessment

Creating Reports Manually from OFS CRS

You can manually create a new report using the **Create New Report** option in the OFS CRS application.

Note: Users mapped to the role of Analyst and Supervisor can create new CRS reports.

To create CRS reports from OFS CRS, follow these steps:

1. From the Regulatory Reporting menu, hover over **CRS Reports** and click **Create New Report**. The Create New Report container is displayed.

Or

2. Click **Create New report** in the Search and List page. The Create New Report container is displayed.

The screenshot shows the Oracle Financial Services Common Reporting Standard application interface. At the top, it says 'ORACLE Oracle Financial Services Common Reporting Standard' and 'crssup | Monday, October 24, 2016'. Below this is a navigation breadcrumb: 'Regulatory Reporting >> CRS Reports >> Create New Report'. The main form area is titled 'Create New Report' and includes a 'Save' button and a 'Reset' button. The form contains several input fields: 'Report Name*' (text input), 'Jurisdiction*' (dropdown menu), 'CRS Status*' (dropdown menu), 'Business Domain' (text input), 'Legal Entity' (dropdown menu), and 'Geographic Jurisdiction' (dropdown menu). At the bottom of the form, there are two date fields: 'Created Date' (24-10-2016) and 'Created By' (crssup), and 'Reporting Year Start Date >=' (01-09-2016) and 'Reporting Year End Date <=' (01-09-2017).

Figure 5. Create New Report

3. Enter the required information.

Note: Always specify values for fields marked as required. Required fields are identified by a red asterisk.

The following table explains the fields in the Create New Report container:

Table 5. Create New Report

Fields	Description
Report Name	Enter a name for the report being created. This is a mandatory field.
Jurisdiction	Select the jurisdiction from the drop-down list. The attributes that are available in the drop-down list are based upon your firm's configuration. Note: This is a mandatory field.
Business Domain	Select the business domain from the drop-down list. The attributes that are available in the drop-down list are based upon your firm's configuration.
Legal Entity	Select the legal entity from the drop-down list. The attributes that are available in the drop-down list are based upon your firm's configuration.
Geographic Jurisdiction	Select the geographic jurisdiction from the drop-down list. The attributes that are available in the drop-down list are based upon your firm's configuration.
Created Date	This field is auto-populated with the current system date. Note: This field cannot be edited.
Created By	This field is auto-populated with the logged in user's name. Note: This field cannot be edited.
CRS Status	Select the CRS status from the drop-down list. Note: This is a mandatory field.

4. Click **Save**. The following confirmation message is displayed: <> *Report created successfully. Click Ok to view the report details or Cancel to create more reports.*
5. Click **OK**. The Report Details page is displayed.

A new report is created and the due date is set as per the number of days configured in the application parameter Table.

If the Report Name, Jurisdiction, and CRS Status are missing in the Create new Report grid, and when you click Save, the application displays the following message: *Report Name, Jurisdiction and CRS Status are mandatory.*

Creating Reports Through Batch Process

CRS reports can also be generated through Batch Process. Reports are generated based on account identifier, customer identifier, CRS status, CRS Country Code and undocumented flag. These values are provided by the client. The reports are generated automatically whenever batch process is executed.

For more information on batch process, refer to the *CRS Administration and Configuration Guide*.

Creating Report Using CRS Assessment

CRS reports can also be generated through CRS Assessments. Reports are generated based on account identifier, customer identifier, CRS status, CRS Country Code and undocumented flag. These values are taken up from CRS assessment.

User have to execute 2 batches to create reports for the same.

First batch populates required information in report staging area. For more information on this batch refer to CRS Assessment admin guide.

Second batch is the one listed above.

The reports are generated automatically whenever batch process is executed.

For more information on batch process, refer to the *CRS Administration and Configuration Guide*.

Searching CRS Reports

The Search and List page enables you to filter the list of reports that you want to view and analyze. The search bar supports three types of search, namely, Views, Basic Search, and Advanced Search.

The Reports List displays the list of reports that meet the criteria specified on the Search bar.

This section explains the following topics:

- Searching CRS Reports Using Simple Search
- Searching CRS Reports Using Advanced Search
- Searching CRS Reports Using Pre-defined Views

Searching CRS Reports Using Simple Search

This search is based on a limited set of search components and helps to retrieve the required reports details.

To search for CRS reports using the simple search components, follow these steps:

1. Navigate to the Search and List page.

Figure 6. Basic Search Components

Note: The basic **Search** option is displayed by default.

2. Enter the details in the relevant search fields to retrieve the list of reports. For detailed descriptions of search fields, refer to *Table 6*.
3. Click **Go**. The relevant search list is displayed.

Note: If there is no match for the entered search criteria, the application displays *No Data Found* message.

Searching CRS Reports Using Advanced Search

The Advanced Search offers the same search fields as provided for a simple search along with additional fields. If you know any of the report details such as approver details, last modified details, report submitted details, and so on, then you can filter the list of reports using the advanced search components.

To search for reports using advanced search components, follow these steps:

1. Navigate to the Search and List page.
2. Click **Advanced Search** from the search bar.

Figure 7. Advanced Search Components

Note: The application supports right-click options on some columns within the List header that allow users to specify sorting as well as hide or display columns.

- **Ascending** - This option allows you to sort the selected column in ascending order.
 - **Descending** - This option allows you to sort the selected column in descending order.
 - **Clear sort** - This option allows you to clear the selected sort option.
 - **Field Chooser** - This option allows you to hide or display columns within the current list as well as modify the width of the columns. Click **OK** on Field Chooser to save the selected settings for the current session or click **Save** will save the selected settings for future logins.
 - **Group by Tab** - This option allows you to group the reports and display them in different tabs as per the selected column.
 - **Group By Tree** - This option allows you to group the reports and display them in tree format as per the selected column.
3. Enter the search components to filter the reports.

The following table provides the description of the search components that display in the Advanced Search bar:

Table 6. Components of Simple and Advanced Search Bar

Searching CRS Reports Using Pre-defined Views

Pre-defined views search helps you to quickly filter the reports based on pre-defined search queries.

To search for reports using pre-defined views, follow these steps:

1. Navigate to Search and List page.

Note: By default, the Search and List page displays all the available records.

2. Click **Views** from the search bar.

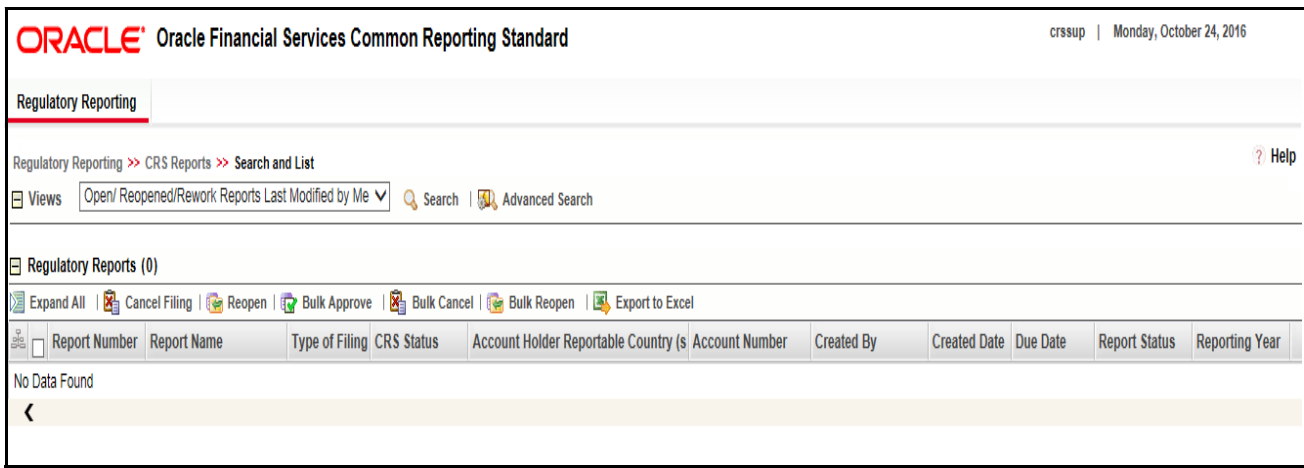

Figure 8. Pre-defined views Search

3. Select any of the pre-defined views from the Views drop-down list. The Search and List page refreshes to show results matching the View criteria.

The following table explains the different types of default pre-defined views available:

Table 7. Pre-defined Views

Views	Description
Reports Awaiting Approval	Select Reports Awaiting Approval from the drop-down list to display the list of reports in <i>Requested for Approval</i> status. This option is the default view for Supervisor. Note: Users will be allowed to take action on the Reports Awaiting Approval based on the user role, actions and status mapping.
Open/ Reopened/Rework – Last Modified by Me	Select Open/ Reopened - Reports Last Modified by Me from the drop-down list to display reports in Open/Reopened/Rework status for which the logged in user is the last modifier. This option is the default view for an Analyst.
Reports Nearly Due	Select Reports Nearly Due from the drop-down list to display the reports that are approaching their due dates. The Nearly Due date is defined as 4 days from the due date or all the reports in which due date is System date +4. Reports which are nearly due are highlighted in <i>Yellow</i> color.

Table 7. Pre-defined Views

Views	Description
Reports Overdue	Select Reports Overdue from the drop-down list to display the list of reports that have exceeded their due dates. When a report is past its due date or when the due date is same as the system date, the reports in the Search and List page are highlighted in <i>Red</i> color.
Reports Submitted in the Last 3 Months	Select Reports Filed in Last 3 Months from the drop-down list to display reports that were submitted in the last 3 months. This option is the default view for an Auditor.
All saved views by user	Select any of the views that you have created and saved using the Save as View button to display reports as per the view selected. For more information, refer to section <i>Saving Views</i> . The saved view is available only to the user creating the view and will not be available to other users.

Saving Views

The **Save as View** action allows you to save the search criteria as a view. The saved views will be available in the Views drop-down list.

To save a view, follow these steps.

1. Navigate to Search and List page and click **Advanced Search**.
2. Enter the search criteria you want to save as view.
3. Click **Save as View**. The Save as View window is displayed.

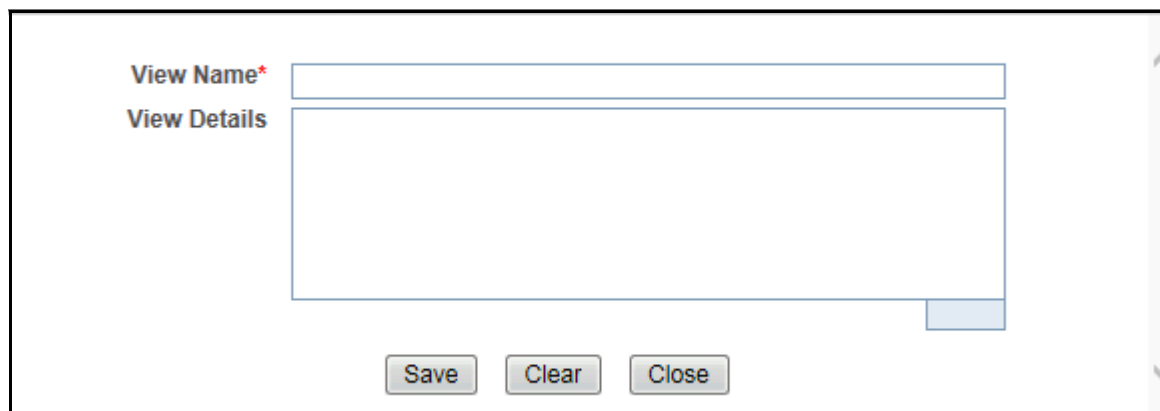

The image shows a screenshot of a 'Save as View' window. On the left side, there are two labels: 'View Name*' and 'View Details'. To the right of 'View Name*' is a single-line text input field. Below 'View Details' is a larger, multi-line text area. At the bottom of the window, there are three buttons: 'Save', 'Clear', and 'Close'. The window has a light gray background and a thin border.

Figure 9. Save as View Window

4. Enter the view name and view details.

The View Details box in the **Save as view** window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in this box, the following message is displayed: *Number of characters exceeded*.

5. Click **Save**. The following message is displayed: *Add Operation Successful*.
6. Click **OK**. The view is saved and is displayed in the Views drop-down list.

The saved view is available only to the user creating the view and will not be available to any other users.

Filing and Submitting CRS Reports for Approval

Note: If the Account Number, Currency Code and Account Balance are missing from the Financial Information Tab and when you click **Save**, the application displays the following message: *Account Number, Currency Code and Account Balance are mandatory.*

Note: If you click **Request for Approval** or **Approve** while the required mandatory fields such as Account Number, Currency Code, and Account Balance are missing in Financial Information tab, the application displays the following message: *Required mandatory information is missing on Financial Information tab.*

Financial Information History Grid

The Financial Information History grid displays the actions performed on that particular report regarding the Financial Information. The following fields are displayed in this grid:

- Date
- Action By
- Action
- Comments

If you want to see the change that has been made from the previous entries, then click **Change**.

Managing Related Reports Tab

This tab displays all the related reports associated to the main report.

Figure 18. Related Reports Tab

Related Reports are identified based on Account Number and Customer Identifier. A related report is defined as a report that is created for the same account as the reported account and the same Account Holder specified in *Financial Information tab and Account Holder/Controlling Person tab*.

This tab displays three fields, namely, Financial year, Customer ID and Account number. The Related reports grid displays reports with the same account number for the Financial Year configured. For more information on configuring financial year, refer to the *CRS Administration and Configuration Guide*.

The related reports grid allows you to select reports based on report status.

Note: The Related Reports grid allows users mapped to the role of Supervisor to select multiple reports and take Cancel Filing action when the reports are in *Submitted* status, and are not locked by any other user. The Cancel Filing button is hidden in View mode.

The following table displays the columns in the Related Reports grid.

Table 12. Fields in Related Reports Grid

Managing Documents Tab

The Documents tab allows you to attach and remove documents related to the CRS report. While filing the CRS report, you can also send additional documents. The process of sending additional documents to the regulatory authorities occurs outside of the application.

Figure 19. Documents Tab

Sending the documents to OECD Council is the responsibility of the user and out of scope of the application.

Attaching Documents

Users mapped to the role of an Analyst, Reviewer, or Supervisor can attach and delete documents in all statuses except when the report is in *View Only* mode.

To attach a document, follow these steps:

1. Navigate to the Report Details page.
2. Click **Documents**. The Documents section is displayed.
3. Click **Add**. The Add Document window is displayed.

Figure 20. Adding Documents to CRS Report

Note: The application allows you to enter a a maximum of 255 characters in the Document Description field.

5. Click **Browse** to choose a file from your machine.
6. Click **Attach File**. The following message is displayed: *Add Operation Successful*.
7. Click **OK**. The file is attached and you are navigated back to the Add Document window.
Click **Close** to navigate back the Report Details page or attach additional documents.

Editing the Logical File Name and Document Description of an Added Document

The Reports Details page allows you to edit the logical file name and the document description of the document.

Note: If the logical file name is provided then the application considers the document name as the logical file name.

To edit the logical file name and the document description, follow these steps:

1. Navigate to the Report Details page.
2. Click the **Documents** tab.
The list of added documents associated to the report is displayed in the Documents grid.
3. Select the check box at the beginning of the Document row or click anywhere in the row.
The document record changes into editable mode.
4. Edit the Logical File Name or the Document Description.
5. Click **Save**. The following message is displayed: *Update Operation Successful*.
6. Click **OK**. The document is updated in the Documents section.

Removing Documents

The Report Details page also allows you to remove the documents attached to a report.

To remove the documents attached, follow these steps:

1. Navigate to the Report Details page.
2. Click the **Documents** tab.
The list of documents associated to the report is displayed in the Documents section.
3. Select the check box of the document you want to delete.
4. Click **Remove**. The following message is displayed: *Are you sure you want to remove this record*.
5. Click **OK**. The following message is displayed: *Record removed successfully*.
6. Click **OK**. The document is removed and you are navigated back to the Report Details page.

Taking Actions on CRS Reports

The Report Details page allows authorized users to take the following actions on the report.

- Requesting the Report Details for Approval
- Approving Reports
- Sending Reports For Rework
- Canceling Filing of Reports
- Reopening Reports
- Generating E-File
- Submitting the Report
- Generating Revised Report

Requesting the Report Details for Approval

After updating the report details, they must be validated. The Report Details page allows authorized users to validate the report details and then submit the report for approval. When the user submits the report for approval, it is validated if the mandatory fields within the report have been populated. When a report is requested for approval, the status of the report changes to *Requested for Approval*.

A Supervisor user can review the report submitted for approval by an analyst and can either approve report or send reports for rework, or cancel filing of report.

For more information, refer to *Table 2*.

To submit a report for approval, an analyst must follow these steps:

1. Navigate to the Reports Details page of a report in *Open /Reopen status*.
2. Click **Request for Approval**.

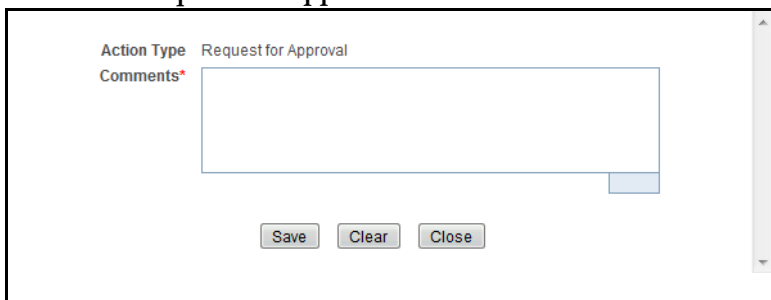

The image shows a screenshot of a web application window titled "Request for Approval". At the top left, it says "Action Type Request for Approval". Below that is a label "Comments" followed by a large, empty text input box. At the bottom of the window, there are three buttons: "Save", "Clear", and "Close".
