1 About this Guide

The *OFS FATCA Regulatory Reporting User Guide* explains the concepts behind OFS FATCA Regulatory Reporting application and provides step-by-step instructions for navigating through the application.

This chapter discusses the following topics:

- Who Should Use this Guide
- How this Guide is Organized
- Where to Find More Information
- Conventions Used in this Guide

1.1 Who Should Use this Guide

The *OFS FATCA Regulatory Reporting User Guide* is designed for use by various users. Their roles and responsibilities, as they operate within the OFS FATCA Regulatory Reporting application, include the following:

- **FATCA RR Analyst:** This user can create new reports, edit report details, add comments to the report, request reports for approval, and also cancel filing of reports from open and reopen status.
- **FATCA RR Supervisor:** This user can create new reports, edit report details, approve reports, request for cancellation, add comments, rework on reports, cancel filing of reports, view final report, mark reports as submitted, reopen canceled reports, and reopen submitted reports.
- **FATCA RR Auditor:** This user can view reports and add comments to the report.
- **FATCA RR Admin:** This user is responsible for mapping security attributes to the users.

1.2 How this Guide is Organized

The *OFS FATCA Regulatory Reporting User Guide*, includes the following topics:

- Chapter 2, *About OFS FATCA Regulatory Reporting*, provides an overview of the OFS FATCA Regulatory Reporting application.
- Chapter 3, *Getting Started*, explains the steps to login to the OFS FATCA Regulatory Reporting application and provides a brief overview of the various users and their roles in the application.
- Chapter 4, *Managing FATCA Regulatory Reporting*, explains the workflow of FATCA reports.

1.3 Where to Find More Information

For additional information about the OFS FATCA Regulatory Reporting, refer to the following documents on [OHC](#):

- OFS FATCA Administration and Configuration Guide
- OFS FATCA RR Administration and Configuration Guide

2 About OFS FATCA Regulatory Reporting

This chapter provides an overview of the OFS FATCA Regulatory Reporting application.

2.1 Introduction to OFS FATCA Regulatory Reporting

The Foreign Account Tax Compliance Act (FATCA) is an important development in the United States, that aims to combat tax evasion by US persons holding accounts and other financial assets in other countries. Under FATCA, certain US taxpayers holding financial assets outside the United States must report those assets to the Internal Revenue Service (IRS).

FATCA also requires certain foreign financial institutions to report directly to the IRS information about financial accounts held by US taxpayers or by foreign entities in which US taxpayers hold a substantial ownership interest. The reporting institutions include not only banks, but also other financial institutions, such as investment entities, brokers, and certain insurance companies.

The OFS FATCA Regulatory Reporting application focuses on reporting:

- By US taxpayers about certain foreign financial accounts and offshore assets
- By foreign financial institutions about financial accounts held by US taxpayers or foreign entities in which US taxpayers hold substantial ownership interest

FATCA reports are of two types, namely, Individual reports and Pooled reports.

- **Individual Reports:** Individual Reports are used for reporting specific account holder information.
- **Pooled Reports:** Pooled Reports are used for reporting on an aggregate basis in a reporting pool rather than reporting specific account holder information.

The OFS FATCA Regulatory Reporting helps generate FATCA reports as per Form 8966 provided by the IRS.

For more information on the workflow of FATCA reports, refer to *OFS FATCA Regulatory Reporting Workflow*.

3 Getting Started

This section explains the steps to login to OFS FATCA Regulatory Reporting and provides a brief overview of the various users and their roles within the application.

This chapter explains the following topics:

- User Roles
- User Access
- Logging in to OFS FATCA Regulatory Reporting

3.1 User Roles

The following user roles are defined in OFS FATCA Regulatory Reporting:

- FATCA RR Analyst
- FATCA RR Supervisor
- FATCA RR Auditor
- FATCA RR Administrator

NOTE If OFS FATCA Regulatory Reporting is integrated with OFS FCCM, then you can map the FATCA Administrator role to the ECM Administrator role.

3.2 User Access

The following table explains the tasks that can be performed by various users in OFS FATCA Regulatory Reporting.

Table 1: User Roles and Actions

3.3 Logging in to OFS FATCA Regulatory Reporting

To access OFS FATCA Regulatory Reporting, follow these steps:

1. Go to the **OFSAAI** Login page.
2. Select the **Language**.
3. Enter your **User ID**.
4. Enter your **Password**.
5. Click **Login**. The Oracle Financial Services Analytical Applications Infrastructure page is displayed with application **icons**.
6. Click **Financial Services Foreign Account Tax Compliance Act Management** application icon. The FATCA landing page is displayed
7. In the LHS menu, click **Behavior Detection - FATCA**. Click **FATCA Regulatory Reports**. By default, The Regulatory Reporting Search and List page is displayed. If you want search reports pertaining to FTS reports, click Russian Regulatory Reporting tab. Then click FTS Report and Search and List.

Based on user roles and access permission, FATCA Reporting displays the following menu options.

- Users mapped to FATC RR Analyst, FATC RR Supervisor, and FATC RR Auditor role can access the **FATCA Reports** Menu.
- Users mapped to FATCA RR Administrator role can access the **FATCA Regulatory Reporting User Attribute Administration** menu.

The FATCA Reports menu displays the following sub-menus:

- **Search and List:** This menu allows you to navigate to the Search and List page. From this page you can use various criteria to search for FATCA Regulatory Reports.

- **Case Search:** This menu allows you to navigate to the Case Search page. From this page, you can search for FATCA cases that are ready for regulatory filing, in case your firm has implemented OFSECM.
- **Create New Report:** This menu allows you to navigate to the Create New Reports page where you can initiate a user created FATCA Regulatory Report.

The Administration menu displays the following menu:

- **FATCA Regulatory Report User Attribute Administration:** This menu allows you to map and maintain the security attributes for each user role.

4 Managing FATCA Regulatory Reporting

This section provides step-by-step instructions to manage FATCA reports and includes the following topics:

- OFS FATCA Regulatory Reporting Workflow
- Creating FATCA Reports
- Searching FATCA Reports
- Filing and Submitting FATCA Reports for Approval
- Setting Due Date For Reports
- Adding Comments to Report
- Exporting the Report Details to Excel
- Managing FATCA Analytics Report

4.1 OFS FATCA Regulatory Reporting Workflow

FATCA Reports can be created manually with OFS FATCA Regulatory Reporting application, or from the Case Search page or through batch process. For more information on creating reports, refer to [Creating FATCA Reports](#).

Once the reports are created they are displayed in the Search and List page. Users mapped to the role of Analyst can update the report information as needed and submit the report details for approval to the Supervisor.

The Supervisor can approve, rework, or cancel filing of reports once an Analyst has requested approval. On the other hand, Supervisors can also edit the report details and approve reports directly, if needed.

If the report is approved by the Supervisor, the OFS FATCA Regulatory Reporting application generates the final PDF after all the necessary validations. The status of the report changes to *Approved*. For more information on approving reports, refer [Approving Reports](#).

Once the report is approved, the PDF can be submitted to IRS. Submission to IRS occurs outside of the application. The report can then be marked as *Submitted* in the application. The status of the Report changes to *Submitted*. For more information, refer to [E-File Generation](#).

If required, the Supervisor can send the report for rework when the report is in request for approval status. The analyst must then re-work the report and re-submit the report for approval. This process continues until the report is approved or canceled. For more information, refer to [Sending Reports For Rework](#).

If the Supervisor determines that a report should not be filed, they can cancel it. If the report is canceled, the report details cannot be edited and the report is in *View* mode. The status of the report changes to *canceled*. For more information, refer to [Cancel Filing of Reports](#).

The application allows users mapped to the role of Supervisor to re-open canceled reports. The status of the report changes to *Reopened*. For more information, refer to [Reopening Reports](#).

For more information on user roles, refer to [Table 1](#).

The report has a life cycle which begins with the *Open* status and ends when it is in *Submitted* status.

NOTE

You cannot edit report details when the report is in *View Only* mode. You can add comments to a report in all statuses.

To view the report details, click the report name in the Search and List page.

The following figure depicts the workflow of FATCA reports:

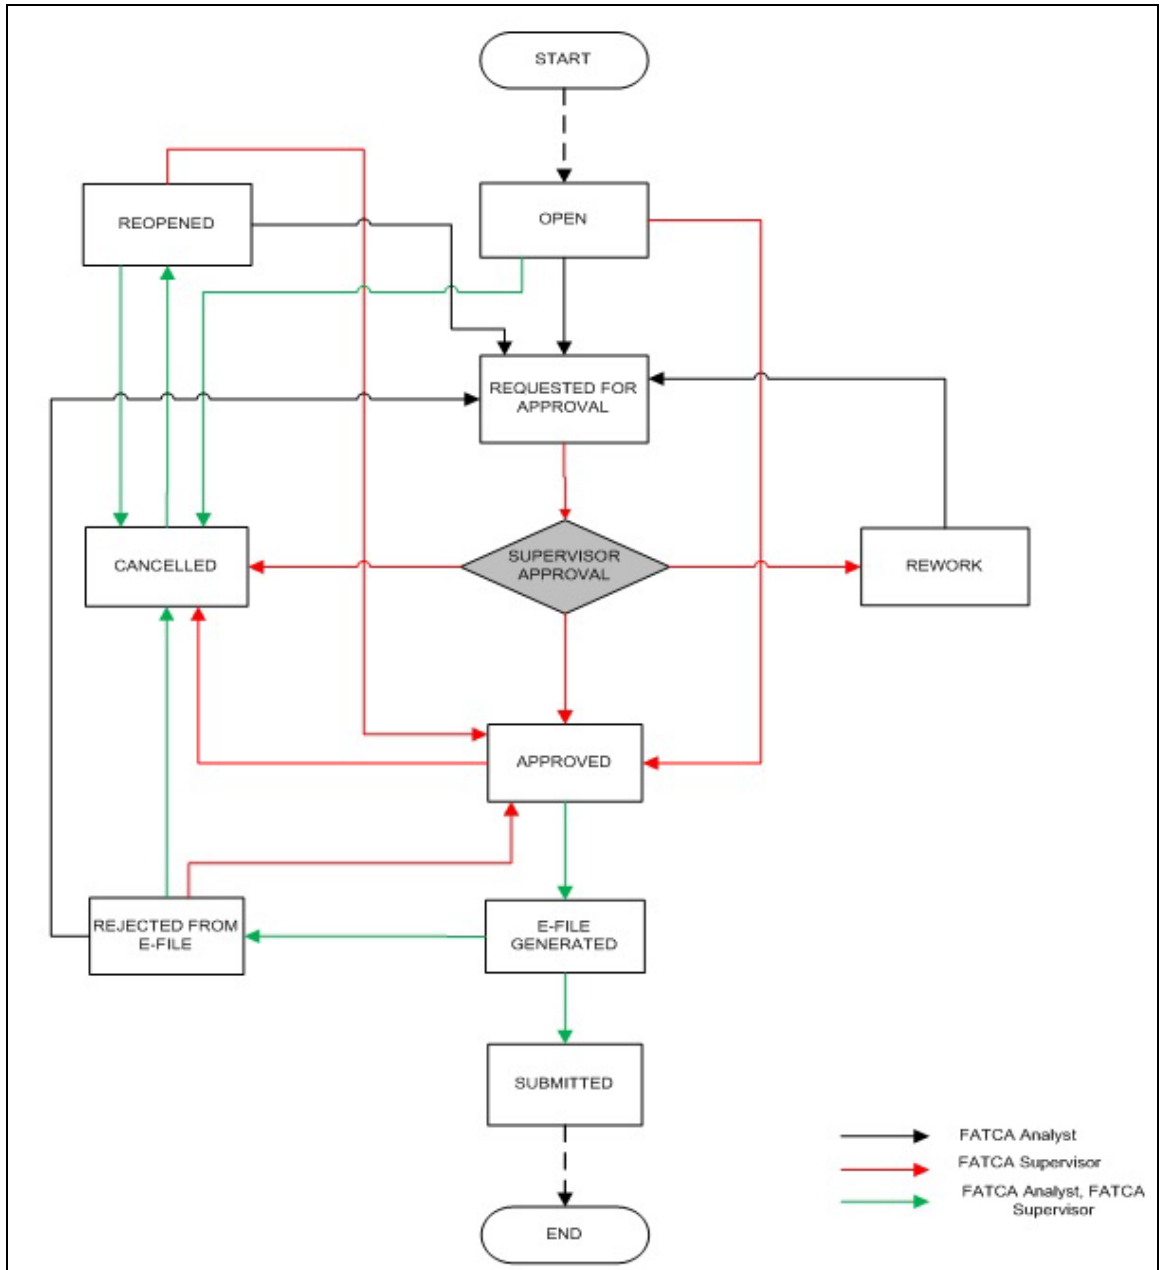

Figure 1: OFS FATCA Regulatory Reporting Workflow

If you try to take action on more than one report and some reports are locked by another user, the application displays the following message: *<Report Name(s)> are locked by another user. Click OK to take action on the remaining reports or CANCEL to go back to the previous page.*

If you try to take action on one or more than one report and all the reports are locked by another user, the application displays the following message: *All the selected reports are locked by another user. Please try again later.*

If you try to open a report that is already opened by another user, the application displays the following message: *The report is currently locked by another user. You will not be able to edit/take action on the report. Do you wish to open report details in read only mode.*

Table 1: Actions that can be performed in Various Statuses

Status	Possible Action	User	Resulting Status
Open	Request for Approval	Analyst	Requested for Approval

NOTE Editing reports does not include addition of comments.

4.2 Creating FATCA Reports

You can create new FATCA reports whenever you identify tax non-compliance by US taxpayers with foreign accounts, and want to report it to the IRS. The reports can be generated from within the application, or through the Case Search page, or through Batch Process.

This section covers the following topics:

- Creating Reports Manually from OFS FATCA Regulatory Reporting
- Creating Reports Through Batch Process

4.2.0.1 Creating Reports Manually from OFS FATCA Regulatory Reporting

You can manually create a new report using the **Create New Report** option in the OFS FATCA Regulatory Reporting application.

NOTE Users mapped to the role of Analyst and Supervisor can create new FATCA reports.

To create FATCA reports from OFS FATCA Regulatory Reporting, follow these steps:

1. From the FATCA Reporting menu, hover over **FATCA Reports** and click **Create New Report**. The Create New Report container is displayed.
- Or
2. Click **Create New report** in the Search and List page. The Create New Report container is displayed.

Figure 2: Create New Report

3. Enter the required information.

NOTE Always specify values for fields marked as required. Required fields are identified by a red asterisk. The following table explains the fields in the Create New Report container:

5. Click **OK**. The Report Details page is displayed.

A new report is created and the due date is set as per the number of days configured in the application parameter Table.

If the Report Name, Report Type, Jurisdiction, or FATCA Status is missing in the Create new Report container, and when you click on Save, the application displays the following message: *Report Name, Report Type, Jurisdiction and FATCA Status are mandatory.*

NOTE

Reporting Year Start and End Date for a report will be populated from configuration parameter.

4.2.0.2 Creating Reports Through Batch Process

For a standalone application, reports are generated using Batch Process. Reports are generated based on FATCA Status, Overall Indicia, and FATCA Pool Report Code. For standalone implementations, these values are provided by the client as part of the Account reference data and are used to determine if an account should be reported and under what classification. The reports are generated automatically whenever the batch is run. For more information on batch process, refer to the *FATCA RR Administration and Configuration Guide*.

4.3 Searching FATCA Reports

The Search and List page enables you to filter the list of reports that you want to view and analyze. The search bar supports three types of search, namely, Views, Basic Search, and Advanced Search.

The Reports List displays the list of reports that meet the criteria specified on the Search bar.

This section explains the following topics:

- Searching FACTA Reports Using Basic Search
- Searching FACTA Reports Using Advanced Search
- Searching FATCA Reports Using Pre-defined Views

4.3.1 Searching FACTA Reports Using Basic Search

This search is based on a limited set of search components and helps to retrieve the required reports details.

To search for FATCA reports using the basic search components, follow these steps:

1. Navigate to the Search and List page.

Figure 3: Basic Search Components

NOTE The basic **Search** option is displayed by default.

2. Enter the details in the relevant search fields to retrieve the list of reports. For detailed descriptions of search fields, refer to [Table 4](#).
3. Click **Go**. The relevant search list is displayed.

NOTE If there is no match for the entered search criteria, the application displays *No Data Found* message.

4.3.2 Searching FACTA Reports Using Advanced Search

The Advanced Search offers the same search fields as provided for a simple search along with additional fields. If you know any of the report details such as approver details, last modified details, report submitted details, and so on, then you can filter the list of reports using the advanced search components.

To search for reports using advanced search components, follow these steps:

1. Navigate to the Search and List page.

2. Click **Advanced Search** from the search bar.

Figure 4: Advanced Search Components

3. Enter the search components to filter the reports.

The following table provides the description of the search components that display in the Advanced Search bar:

Table 4: Components of Basic and Advanced Search Bar

Fields	Description
Date	Displays the date on which the comment was recorded.
Comment By	Displays the name of the user who has given that comment.
Comments	Displays the comments added to the report by the user.

NOTE You can export the list of actions and comments to an Excel format using the **Export to Excel** option. Refer to [Exporting the Report Details to Excel](#) for more information.

4.1.2 Taking Actions on FATCA Reports

The Report Details page allows authorized users to take the following actions on the report.

- [Requesting Report Details for Approval](#)

- Approving Reports
- Sending Reports For Rework
- Cancel Filing of Reports
- Reopening Reports
- E-File Generation
- Submitting the Report
- Report List
- NIL E-File Generation
- Generating Revised Report

4.1.2.1 Requesting Report Details for Approval

After updating the report details, they must be validated. The Report Details page allows authorized users to validate the report details and then submit the report for approval. When the user submits the report for approval, it is validated if the mandatory fields within the report have been populated. When a report is requested for approval, the status of the report changes to *Requested for Approval*.

A Supervisor user can review the report submitted for approval by an analyst and can either approve report or send reports for rework, or cancel filing of report.

For more information, refer to [Table 1](#).

To submit a report for approval, an analyst must follow these steps:

1. Navigate to the Reports Details page of a report in *Open /Reopen status*.
2. Click **Request for Approval**.

The image shows a screenshot of a web application window titled "Request for Approval". Inside the window, there is a label "Action Type" with the value "Request for Approval" next to it. Below this is a label "Comments*" followed by a large, empty text input box. At the bottom of the window, there are three buttons: "Save", "Clear", and "Close".

4.1.2.3 Sending Reports For Rework

A Supervisor can send reports for rework for incomplete, inaccurate information in the report, or for additional investigation. The Report Details page allows a Supervisor to take Rework action on reports.

If a report is sent for rework, the Analyst must rework on the report and request the report again for approval. This process continues until the report is approved or canceled.

To send a report to rework, follow these steps:

1. Navigate to the Report Details page of a report in *Requested for Approval* status.
2. Click **Rework**. The Rework window is displayed

The screenshot shows a window titled 'Rework'. At the top left, it says 'Action Type Rework'. Below that is a label 'Comments*' followed by a large, empty text input box. At the bottom of the window, there are three buttons: 'Save', 'Clear', and 'Close'.
