About this Guide

This guide provides overview of the Oracle Financial Services Regulatory Reporting (herein referred to as RRS), life cycle of the Regulatory Reports. This chapter focuses on the following topics:

- Naming Discrepancies
- Scope of this Guide
- How this Guide is Organized
- Where to Find More Information
- Conventions Used in this Guide

Naming Discrepancies

The product branding in the screen shots shown in this guide retains the original product name (Oracle Mantas) and original logo. The Oracle Financial Services Regulatory Reporting Solution might be referred to as Mantas Regulatory Reporting Solution, Mantas RRS, or RRS.

Who Should Use this Guide

The *Oracle Financial Services RRS User Guide,* is designed for use by a variety of Oracle Financial Services users. Their roles and responsibilities, as they operate within the Oracle Financial Services RRS application, include the following:

- **Analyst:** This user is responsible for updating the data related to the report through UI screens and can add comments to the report. This user can send reports to the supervisor for further action (such as Approve, Reject, or Close).
- **Supervisor**: This user is responsible for taking action on the reports submitted by the Analyst, such as Approve, Close, and Reject, and can add comments to the report. This user should verify all the details of the report before taking action which files the report with the Regulatory Authorities.
- **Admin User**: This user is responsible for managing the security attributes of the users and filing the reports approved by the Supervisor.
- **Super User**: This user is responsible for updating the data related to the report through UI screens, approving and closing reports, generating reports, adding comments to the reports, and filing the reports from the list of approved reports.
- **System/Application Administrator**: This user is responsible for managing the static data used in the application,creating application users, mapping users to user groups, and configuring the various parameters used in the application.

Scope of this Guide

The purpose and scope of this guide is to define how users can view, edit and generate report data, and to file the regulatory reports to the Regulatory Authorities. It also guides the users to adjust the application parameters.

This guide explains how the User Interface (UI) in the Oracle Financial Services RRS is organized, how the application uses the data entered, and guides the user to generate the XML report defined by the regulatory body.

How this Guide is Organized

The *Oracle Financial Services Regulatory Reporting User Guide*, includes the following topics:

- Chapter 1, *About Regulatory Reporting*, describes the default page setting and Regulatory report workflow in Oracle Financial Services RRS login process.
- Chapter 2, *Nigerian STR*, describes how to search, view, and edit the regulatory reports.
- Chapter 3, *Report Summary*, describes the life cycle of the report, and details the suspicious transaction report analysis.
- Chapter 4, *File Regulatory Reports*, describes the process of filing the Regulatory Reports to the Regulatory Authorities.
- Chapter 5, *User Administration*, describes how to map and maintain the security attributes for each user in Oracle Financial Services RRS.

Where to Find More Information

For additional information about the Oracle Financial Services Regulatory Reporting application, refer to the following documents:

- *Oracle Financial Services Regulatory Reporting Data Model Reference Guide*: This guide explains the structures of the entities in the Oracle Financial Services RRS data model and provides in-depth information on data handling of the Oracle Financial Services RRS system.
- *Oracle Financial Services Regulatory Reporting Web Service Guide*: This guide explains how and in what format the source business data should be provided to the Oracle Financial Services RRS application through a web service for the Nigerian STR report type.
- *Oracle Financial Services Regulatory Reporting Installation Guide*: This guide provides step-by-step instructions for installing the Oracle Financial Services RRS on an existing Oracle Financial Services Platform hosted in a Windows environment.
- *Oracle Financial Services Regulatory Reporting Administration Guide:* This guide describes comprehensive activities of the Oracle Financial Services Analytical Applications Infrastructure Administrator in the Oracle Financial Services Regulatory Reporting and associated solution set. This guide details the Regulatory Reporting, and provides information about configuring and maintaining users and static data.

To find additional information about how Oracle Financial Services Regulatory Reporting solves real business problems, see our website at www.oracle.com/financialservices.

Conventions Used in this Guide

Table 1 lists the conventions used in this guide.

Table 1. Conventions Used in this Guide

Convention	Meaning
Italics	● Names of books, chapters, and sections as references ● Emphasis
Bold	● Object of an action (menu names, field names, options, button names) in a step-by-step procedure ● Commands typed at a prompt ● User input
`Monospace`	● Directories and subdirectories ● File names and extensions ● Process names ● Code sample, including keywords and variables within text and as separate paragraphs, and user-defined program elements within text
<Variable>	● Substitute input value

CHAPTER 1

About Regulatory Reporting

This chapter explains the Oracle Financial Services RRS Login and User access process and covers the following topics:

- Introduction to RRS
- About RRS Login
- Regulatory Report Workflow
- User Access

Introduction to RRS

As a part of regulations and compliances, the organizations are required to perform appropriate analysis and report the suspicious activities that lead to fraud and money laundering in institution, to the Regulatory Authorities. These regulatory bodies are responsible for safeguarding financial institutions and consumers from abuse, providing transparency in the country's financial system, enhancing that country's security, and deterring and detecting criminal activity in the financial system.

As part of this goal, these regulatory bodies require the Financial Crimes Unit (FCU), also referred to as Financial Intelligence Units (FIUs), in financial institutions to provide data regarding suspicious activities. These reports, depending on the regulatory geographic region, can be delivered in either printed or electronic format.

RRS supports the management, delivery, and resolution of these regulatory reports across multiple geographic regions and across multiple financial lines of business. Since there are several differences in requirements for paper-based formats versus electronic formats, and between different geographic regions and the data elements that are required on these reports, the approach to satisfying the end goal is to provide a Regulatory Reporting framework that is configured to support paper-based and electronic formats for different geographic regions and to generate and file different types of reports.

RRS is integrated with the Oracle Financial Services Behavior Detection platform to allow users to generate reports automatically populated with information relevant to the investigation which triggered the need for the report to be filed.

About RRS Login

The Oracle Financial Services Behavior Detection UI enables you to view and edit the report information, generate the XML for the report and generate an electronic file (E-File), which is filed with the Regulatory Authorities.

The Regulatory Reporting link is enabled for users who have access to the Oracle Financial Services RRS.

Click the **Regulatory Reporting** link in the Oracle Financial Service Behavior Detection UI page. The RRS login page will open in a pop-up window. This allows you to log into the RRS application.

For information about changing your password, refer to the *Oracle Financial Services Regulatory Reporting Administration Guide*.

Figure 1. RRS Application Login

Follow these steps to log into the Oracle Financial Services RRS Application:

1. Select the **Language** for the application.

2. Enter your **User ID**.
3. Enter your **Password**.
4. Click **Login**.

The System Administrator can see all links on the application menu, whereas other users can see only the RRS link. Users will see the links as per their roles and privileges.

Figure 2 and Figure 3 shows the landing screen for various users.

To see the data required, select the information domain and click the **Regulatory Reporting** link. This takes you to the application page (Figure 4).

Setting the Default Page

From the **Make my Start Page**, select **Financial Services Regulatory Reporting** from the drop-down list and click Save. This saves the application page as the Start page.

If the Application page is the start page, the Home link and the Logout link will also be enabled on the page. If not, the Logout link is available only in the Home page.

The Application page has Regulatory Reports and File Regulatory Reports. The page displays the Regulatory Report Search and List of the Regulatory Reports, by default (Figure 4).

Filed

Figure 5. Regulatory Reporting Workflow

Note: The dotted line in Figure 5 represents the workflow of Super User - Mapped to Analyst, Supervisor, and Administrator roles.

When the RRS user selects **Recommend** action on an Alert or Case, the data is passed to RRS through the web service and a report is opened in the RRS.

The users can then work on open or rejected reports and send them for approval.

The user with the Supervisor role may do the following:

- Approve the report for filing
- Reject the report for rework
- Close the report
- Take no further action

Every action taken on a report is recorded in the Audit Tab of the Regulatory Report Actions. Refer to section *Audit* on page 75 for more information.

User Access

The following user roles are defined in the RRS application:

- Analyst
- Supervisor
- Admin
- Super user (Analyst , Supervisor, and Admin Role)
- System Administrator

The User Role - Function mapping required for RRS is defined in Table 2. These functions are required to set the privileges for each role.

Table 2. User Role - Function Mapping

CHAPTER 2

Nigerian STR

This chapter explains how to view, edit, and generate XML files for the report. This chapter covers the following topics:

- RR Application Menu
- Icons Used
- Regulatory Reports- User Interface

RR Application Menu

This section explains the modules that can be accessed through the UI and their functions. Each module facilitates a list of possible actions that are visible based on the roles and privileges assigned for each user. The RR application menu includes links for Regulatory Reports, Generate Regulatory Reports, and User Administration.

Regulatory Reports

This is the default opening screen for users after clicking the **Regulatory Reports** link. Generated reports are displayed and accessed on this page, based on user privileges. You can view Report Summary details by clicking a report.

The **Search** option allows users to search for reports based on the following components:

- Report ID
- Status
- Alert/Case ID
- Involved Party Name
- SSN
- Focus
- Transaction Number
- Jurisdiction
- Created By
- Created From Date
- Created To Date

Icons Used

Table 3 details the icons used in the application.

Table 3. RR Icons

Icon	Conventions	Description
⇨	**Go**	Displays search results for the selected search components.
▾	**Drop Down List**	Displays the possible values that can be selected for the field.
📅	**Calendar**	Opens the calendar to select the date.
✎	**Clear**	Clears a selection made on the calendar or the hierarchy browser.
↩	**Reset**	Clears the selections and values and shows the previous selected values if any are made.
✎	**Edit**	Edits the report details with respect to context.
➕	**Add**	Adds a new entry with respect to context.
✖	**Close**	Closes the report after successful validation for unsaved data.
💾	**Save**	Saves any changes made, after successful validation of the fields.
☒	**Delete**	Deletes the selected records after user confirmation.
Logout	**Logout**	Allows the user to log out of the application.
🔍	**Details**	Displays details for the selected report.
☑	**Validate**	Allows the users to identify for any missing mandatory information.
✓	**Approve**	Approves the reports for filing with the regulatory bodies.
✓	**Request for Approval**	Submits the report for approval.
🗋	**Add Comments**	Allows the user to add comments to a specific report.
☎	**Contact Details**	Allows the user to view contact details.
🏠	**Address Details**	Allows the user to view address details.
👤	**Identification Details**	Allows the user to view identification details.
⇄	**Reject**	Rejects the reports from filing.
🔍	**View**	Allows the user to view report details when in read-only mode.

Regulatory Reports- User Interface

The Regulatory Reports user interface displays the list of reports generated. This list provides the following details:

- Report Name
- Report Type
- Jurisdiction
- Alert/Case ID
- Report ID
- Created Date
- Created By
- Status
- Xml

Users are permitted to take action on reports which are not locked by another user. Users can perform actions on reports using the Actions bar on the Report Summary page. The Analyst/Super user may open the report to edit or view the contents by clicking the report name. This opens the page in the Edit/View mode. Only reports in the Open or Rejected status can be edited.

The Supervisor can navigate to the Report Summary page by clicking the required report name in the Regulatory Report List.

Regulatory Report Search

Users can search the Report based on the following components:

- Report ID
- Status
- Alert/Case ID
- Report Type
- Involved Party Name
- SSN
- Focus
- Transaction Number
- Jurisdiction
- Created By
- Created From Date
- Created To Date

Click **Reset** on the Regulatory Report Search to clear all the selections made and display a blank search container (Figure 8).

Regulatory Report List

The Regulatory Report List provides the following details:

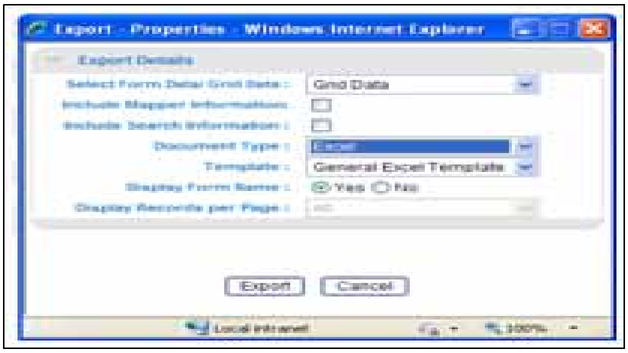
- Report Name
- Report Type
- Jurisdiction
- Alert/Case ID
- Report ID
- Created Date
- Created By
- Status
- XML

You can view the report details by clicking the required report.

Export to Excel

You can export all the reports in the Regulatory Report List to a new excel spreadsheet by clicking on the **Export to Excel** icon present on the Regulatory Report List grid header. By clicking on the **Export to Excel** icon you will see a new prompt on the screen (Figure 6**)**. Make your selection as mentioned below.

1. Select Grid Data.
2. Select Document Type as Excel.
3. Display From Name as Yes.
4. Click **Export button**. All the data under Regulatory Report List will be populated in a new Excel spread sheet.



Export - Properties - Windows Internet Explorer

Export Details

Select Form Data/ Grid Data : Grid Data
Include Mapper Information : ☐
Include Search Information : ☐
Document Type : Excel
Template : General Excel Template
Display Form Name : ● Yes ○ No
Display Records per Page : All

Figure 6. Export Properties Dialog Box

View/Edit Report

You can view and edit the report details by clicking the report name. If the report is already opened by another user, the system displays the message as shown in Figure 7. After confirmation from the logged in user, the report details are displayed in the

View mode. The report opens in View or Edit mode based on the roles and privileges of the user who has logged in and the report status.

Figure 8. Regulatory Report Search and List

CHAPTER 3

Report Summary

This chapter discusses the life cycle of the report, bank information, customer particulars, account information, entity information, and the suspicious transaction information. This chapter focuses on the following topics:

- About the Report Summary Page
- Action Bar
- Report Context
- Reporting Entity Information Tab
- Transaction Details Tab (Edit Mode)
- Transaction Details Tab (View Mode)
- Activity Details (View Mode)
- Activity Details Tab (Edit Mode)
- Narrative
- Audit

About the Report Summary Page

The Report Summary page provides information about the report. You can navigate to the Report Summary page from the Regulatory Report List by clicking a report.

The Report Summary page has three sections – the Actions bar, Report Context, and Report Tabs. Each section is detailed below:

- The **Actions bar** displays the various actions that can be taken on the report. This list of action buttons is updated based on the logged in user and the report status.
- The **Report Context** displays information about the report, such as Report Name, Alert/Case ID, Report Type, Report Status, Created Date, Created By, Jurisdiction, Last Modified Date, Last Modified By, Report Generated Date, and Report Generated By.
- The **Report tabs** display the related information that needs to be submitted with the regulatory authorities.

Every report generated in the RR can have any of the following statuses:

- Open (New/Reopened)
- Request for Approval
- Approved for Filing
- Closed without Filing
- Rejected
- E-File Generated
- E-File Rejected
- Filed

You can view the following tabs in the Report Summary page:

- Reporting Entity Information
- Transaction Details
- Activity Details
- Narrative
- Audit

Action Bar

The Action Bar lists actions that can be taken by users on the report. The buttons are displayed based on the user logged in, report status and the mode in which the report is opened (Edit or View). Table 4 details the Actions buttons.

Table 4. Action Bar

Action	Report Status	User	Description
Request for Approval	Open/Reopened/Rejected	Analyst / Super User	This action is taken once the report details have been updated and it is sent for approval.
Approve for Filing	Request for Approval/ Open/Reopened	Supervisor/Super User	This action is taken once the report is reviewed and the Supervisor/Super User determines that it is ready to be filed.

Figure 12. Transaction Details Tab - Edit Mode

Transactions –Edit Mode

The Transactions container provides the following details:

- Transaction Number
- Transaction Category
- Transaction Date
- Transaction Method
- Amount
- Value Date

Add	Click **Add** (Figure 12) to add a new Transaction. The page is refreshed and displays Transaction details' container with Involved parties and Goods and Services grid. Enter the information required in transaction details container and click **Save**. User is not allowed to add Involved parties details and Good and services without saving the mandatory information in transaction details container. A new row is added to the existing Transactions grid.
Delete	Select the Transaction you want to remove for a record and click **Delete** to clear the Transaction information (Figure 12).
Validate	When you click **Validate**, a popup message is displayed on the screen giving the information of Transaction number in which the *Mandatory* information is missing.

Transaction Category

Transaction category are of two types:

- Bi-Party:

Transactions can be considered as bi-party where there are only two parties reported on the transaction, *From* side and *To* side. A maximum of one party should be on the *To* side and a maximum of one party should be on the *From* side. If a user is trying to approve any report having a transaction linked with a single party, then the system warns the user to add another party to the Transaction.

Following are the party validations to be considered if a user saves a new party or modifies party classifications:

  - Transaction cannot have both a *To* and a *To* My Client classification on the same transaction. The following error message is displayed: *It is not allowed to have two parties classified on the same side of a transaction. Please correct this error before submitting this report.*
  - Transaction cannot have both a *From* and a *From* My Client classification on the same transaction. The following error message is displayed: *It is not allowed to have two parties classified on the same side of a transaction. Please correct this error before submitting this report.*

- Multi-Party: Transactions can be considered as multiple parties where there are more than two parties on the transaction.

Note: User can add more than two parties if transaction is of multi party type.

Transactions –View Mode

All the information in the Transactions - View Mode page is in read-only mode. The Save and Reset buttons are hidden.

Transaction Details –Edit Mode

Save	Click **Save** to save the details you have entered. The page is refreshed and displays saved E-file details. The reports are in *Filed* status.
Reset	Click **Reset** to clear the updated data. The page is refreshed and displays the last saved E-file details.

CHAPTER 5

User Administration

This section shows how to map and maintain the security attributes for each user role (Figure 51). This chapter discussed the following topics:

- View Security Attribute Mapping
- Add Security Attribute Mapping
- Delete Security Attribute Mapping
- Clear Security Attribute Mapping

Security Attributes are configured for an installation by the System Administrator. These security attribute can then be mapped to users.

Attributes of generated reports are based on the Alert or Case for which the report is generated. Users will be able to access reports based on the Security Attributes mapped to each user and report.

This is available for the Admin and Super user roles only.

User Name: RRSSUPERVISOR

Attribute 1: CA,SA,US,INDA,AMEA,SGI,SGO

Attribute 2: RBPC,RET,INST,GEN,GWS,EMP,c,d,e,f

Attribute 3: CST2,AML

Attribute 4: AML_TER,FR_AC

Attribute 5: MockOrgB

Figure 51. User Attributes

View Security Attribute Mapping

To view the security mapping for a user, follow these steps:

1. Select the user whose security attribute mapping is to be viewed.
2. Click **Go**. The page is refreshed with the security attributes and values mapped for the user. These values are comma separated.

Add Security Attribute Mapping

To add a security attribute value to a security attribute, follow these steps:

1. Select the required Security Attribute from the drop-down list.
2. Click **Save**.

Delete Security Attribute Mapping

To delete the security attribute value mapping, follow these steps:

1. De-select the Security Attribute you wish to delete from the drop-down list.
2. Click **Save**. The new security mappings to the user are saved.

Clear Security Attribute Mapping

To clear the security attribute value mapping, follow these steps:

1. De-select the Security Attribute you wish to clear from the drop-down list.
2. Click **Clear**. The page is refreshed and displays the last saved security attributes.
