About This Guide

The *Oracle Financial Services Compliance Regulatory Reporting User Guide* explains the concepts behind the Oracle Financial Services Compliance Regulatory Reporting application and provides step-by-step instructions for navigating through the application.

This chapter discusses the following topics:

- Who Should Use this Guide
- How this Guide is Organized
- Where to Find More Information
- Conventions Used in this Guide

Who Should Use this Guide

The *Oracle Financial Services Compliance Regulatory Reporting User Guide* is designed for use by various users. Their roles and responsibilities, as they operate within the Oracle Financial Services Compliance Regulatory Reporting application, include the following:

- **Analyst:** This user can access Regulatory Reports, create new reports, edit/view report details, add comments to the report, request for approval, cancel filing of reports from *Open* and *Reopen* status, reopen canceled reports, and also view/save the final report.
- **Supervisor:** This user can access Regulatory Reports, create new reports, edit and view report details, add comments to the report. This user can also take actions on the reports such as approve, rework, and cancel filing of reports. This user can also submit the reports.
- **Auditor:** This user can view and add comments to the report.
- **RR Admin:** This user is responsible for handling various configurations required to support the report workflow.

How this Guide is Organized

The *Oracle Financial Services Compliance Regulatory Reporting India STR User Guide* includes the following topics:

- *Chapter 1, About Compliance Regulatory Reporting*, provides an overview of the Oracle Financial Services Compliance Regulatory Reporting application.
- *Chapter 2, Getting Started*, explains the steps to login to the Oracle Financial Services Compliance Regulatory Reporting application and provides a brief overview of the various users and their roles in the Compliance Regulatory Reporting application.
- *Chapter 3, Managing Compliance Regulatory Reporting*, explains the workflow of regulatory reports.
- *Chapter 4, Filing Regulatory Reports* describes the process of filing the regulatory reports to the Regulatory Authorities and completing the STR process.

Where to Find More Information

For additional information about the Oracle Financial Services Compliance Regulatory Reporting, refer to the following documents in [OTN](#):

- *Oracle Financial Services Compliance Regulatory Reporting Data Model Reference Guide*: This guide explains the structure of the entities in the RR data model and provides in-depth information on managing the data in the Compliance Regulatory Reporting application.
- *Oracle Financial Services Compliance Regulatory Reporting Webservice Guide*: This guide explains how and in what format the source business data is provided to the Compliance Regulatory Reporting application through a web service for the report type.
- *Oracle Financial Services Compliance Regulatory Reporting Installation Guide*: This guide provides step-by-step instructions for installing the Oracle Financial Services Compliance Regulatory Reporting application on an existing Oracle Financial Services Behavior Detection Framework hosted in Windows environment.
- *Oracle Financial Services Compliance Regulatory Reporting Release Notes*: This guide provides details about the enhancements made to the features in the Oracle Financial Services Compliance Regulatory Reporting application.
- *Oracle Financial Services Compliance Regulatory Reporting Indian Administration Guide*: This guide describes comprehensive activities to be done by the Administrator in the Oracle Financial Services Compliance Regulatory Reporting application. This guide details the Compliance Regulatory Reporting application and provides information about configuring and maintaining users and static data.

About Compliance Regulatory Reporting

This chapter provides an overview of the Oracle Financial Services Compliance Regulatory Reporting application.

This chapter discusses the following topics:

- Introduction to Compliance Regulatory Reporting
- About Oracle Financial Services Compliance Regulatory Reporting Application

Introduction to Compliance Regulatory Reporting

As a part of regulations and compliances, a Financial Services Organization must perform appropriate analysis and report any suspicious activities that may lead to fraud and money laundering to the regulatory authorities. These regulatory bodies are responsible for safeguarding financial institutions and consumers from abuse, providing transparency in the country's financial system, enhancing that country's security, and deterring and detecting criminal activity in the financial system.

Financial institutions are required to provide data regarding suspicious activities to their geographic region's regulatory authority. This data is delivered to the regulatory bodies through regulatory reports. These reports, depending on the regulatory geographic region, can be delivered in a paper format or in an electronic format.

About Oracle Financial Services Compliance Regulatory Reporting Application

The Oracle Financial Services Compliance Regulatory Reporting (OFSCRR) application supports the management, delivery, and resolution of regulatory reports across multiple geographic regions and across multiple financial lines of business. The Compliance Regulatory Reporting application supports the generation of Suspicious Transaction Reports (STR) for various countries such as The United States of America Suspicious Activity Reports (US SAR), Nigeria (NG STR), Pakistan (PK STR), Malaysia (MY STR), Singapore (SG STR), New Zealand (NZ STR), Bahamas (BS STR), Kenya STR (KE STR), Burundi (BD STR), Rwanda (RW STR), Uganda (UG STR), Philippines STR (PH STR), Indonesia STR (ID STR), Canada STR (CA STR), Russian STR (RU STR) and India STR (IN STR). Since there are several differences in requirements for paper-based formats versus electronic formats, between different geographic regions, and the data elements that are required on these STRs, the approach to satisfy the end goal is to provide a Compliance Regulatory Reporting framework that is configured to support paper-based and electronic formats for different geographic regions and to generate and file different types of reports.

The Compliance Regulatory Reporting application is integrated with Oracle Financial Services Financial Crime and Compliance (OFSFCCM) and allows users to **Generate IN STR** from within OFSFCCM. When a report is created in the Compliance Regulatory Reporting application through OFSFCCM, the report details are auto-populated with information from the alert or case which triggered the action to generate the draft STR. You can also manually create a new STR from OFSCRR.

Users mapped to appropriate roles can update the report information and submit the report details for approval to the Supervisor. The Supervisor can approve, rework, cancel the filing or reject the cancellation request of the report. Once the STRs are approved, they can combine one or more reports and generate E File. Then they can be

submitted to the regulators. However, sending the documents to the regulator is the responsibility of the user and out of scope of the application.

Once a report is submitted, the user can generate a duplicate report and can perform amendments and resubmit the new report to the regulator.

For more information on the workflow of regulatory reports section, refer to *Table 2*.

This chapter explains the steps to login to the Oracle Financial Services Compliance Regulatory Reporting (OFSCRR) application and provides a brief overview of the various users and their roles in the Compliance Regulatory Reporting application.

This chapter explains the following topics:

- User Roles
- User Access
- Logging in to Compliance Regulatory Reporting
- Accessing Compliance Regulatory Reporting from OFSFCCM

User Roles

The following user roles are defined in the Compliance Regulatory Reporting application:

- **Analyst-I:** This user can access Regulatory Reports, create new reports, edit/view report details, add comments to the report, request for approval, cancel filing of reports from *Open* and *Reopen* status, reopen canceled reports, and also view/save the final report. This user can also generate revised reports, and reject a report.
- **Auditor:** This user can view and add comments to the report.
- **Supervisor:** This user can access Regulatory Reports, create new reports, edit and view report details, add comments to the report. This user can also take actions on the reports such as approve, rework, and cancel filing of reports, submit the reports, generate revised reports, and reject a report. This user can also generate and regenerate E-File, submit and upload acknowledgment.
- **RR Admin:** This user is responsible for handling various configurations required to support the report workflow.

User Access

The following table explains the tasks that can be performed by various user roles in the Compliance Regulatory Reporting application.

Logging in to Compliance Regulatory Reporting

To access the Compliance Regulatory Reporting application, follow these steps:

1. Go to the **OFSAAI** Login page.
2. Select the **Language** for the application.
3. Enter your **User ID**.
4. Enter your **Password**.
5. Click **Login**. The Oracle Financial Services Analytical Applications Infrastructure page is displayed with a link to either **OFSCRR** or **OFSFCCM**.

Note:

- If you've installed OFSCRR without OFSFCCM, the Oracle Financial Services Analytical Applications Infrastructure page will display the **OFSCRR** link under the Home menu. Clicking **Compliance Regulatory Reporting** will navigate you to the Compliance Regulatory Reporting Search and List page.
- If you've installed OFSCRR with OFSFCCM, the Oracle Financial Services Analytical Applications Infrastructure page will display the **FCCM** link under the Home menu. Clicking **FCCM** will navigate you to the OFSFCCM Home page depending upon your roles and access rights.

Accessing Compliance Regulatory Reporting from OFSFCCM

To access OFSCRR from OFSFCCM, follow these steps:

1. Go to the **OFSAAI** Login page.

The screenshot shows the OFSAAI Login Page. At the top left is the Oracle logo. To its right, the text 'Financial Services Analytical Applications Infrastructure' is displayed in a blue header bar, with 'About' as a link below it. The main content area is light gray. On the left side, there are three input fields: 'Language' with a dropdown menu showing 'US-English', 'User ID', and 'Password'. A blue 'Login' button is positioned below these fields. On the right side, there is a large image of a classical column and a modern skyscraper. The Oracle logo is also visible at the bottom right of the image area.

Figure 1. OFSAAI Login Page

2. Select the **Language** for the application.
3. Enter your **User ID**.
4. Enter your **Password**.
5. Click **Login**. The OFSAAI Home page is displayed.

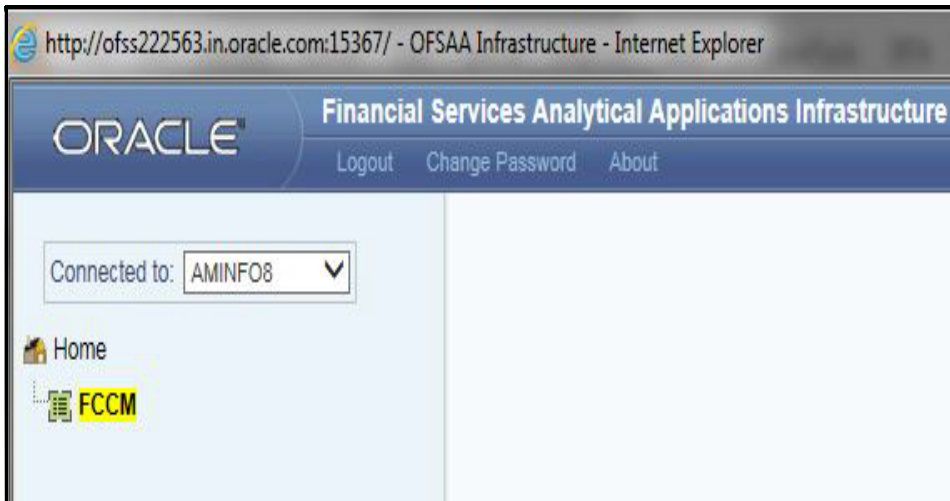

Figure 2. OFSAAI Home Page

6. Click **FCCM**. The OFSFCCM Home page is displayed depending upon the user roles and their access permissions.
7. Select **Financial Services Regulatory Reporting** from the Select Applications list.
8. From the Compliance Regulatory Reporting menu, hover over **India STR**, and click **Search and List**. The Regulatory Reporting Search and List page opens.

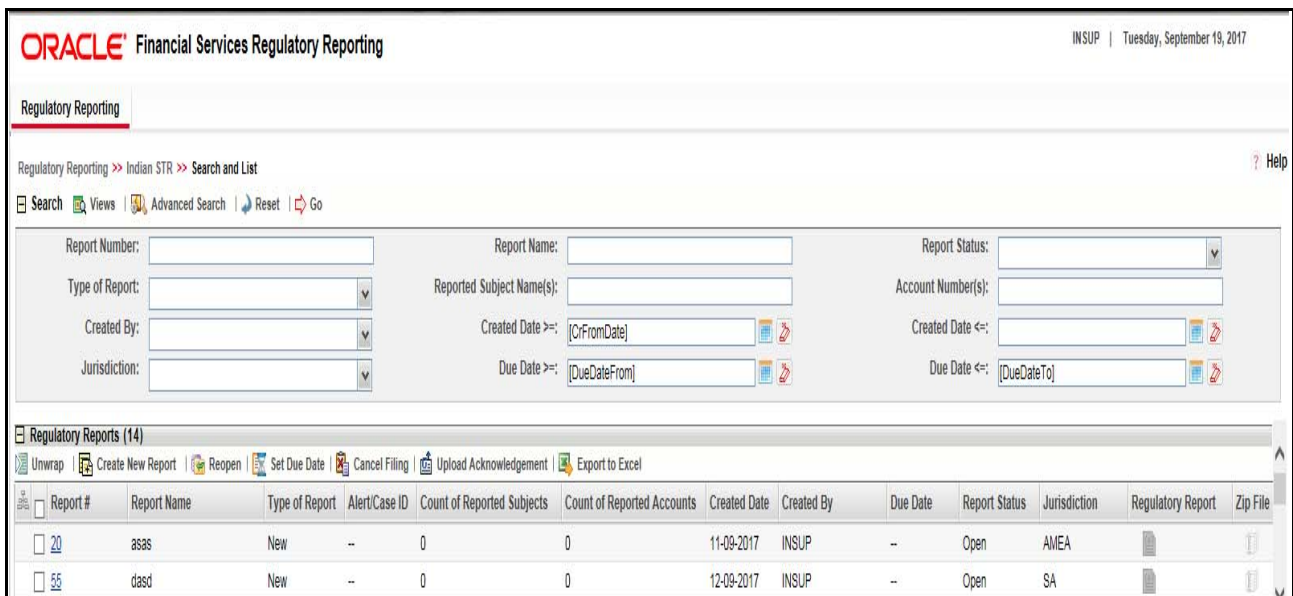

Figure 3. RR Search And List Page in OFSFCCM

- Users mapped to Analyst-I, Auditor, and Supervisor roles can access the Regulatory Reports menu.
- Users mapped to the RR Admin role can access the Administration menu.

Based on the user roles and access permission, the Compliance Regulatory Reporting application displays the following menu options:

- **Search and List:** This menu option allows you to navigate to the Search and List page. From this page you can use various criteria to search for Regulatory Reports.
- **Create New Report:** This menu option allows you to navigate to the Create New Reports page where you can initiate a user created Regulatory Report.
- **File Reports:** This menu option allows you to navigate to the File Reports page where you can generate an E-file and file Regulatory Reports.
- **Administration:** The Administration menu displays the following sub-menus:
 - **User Administration:** This menu option allows you to map and maintain the security attributes for each user role.
 - **Web Service Configuration:** This menu option allows you to reset the Webservice password. For more information on resetting the User ID and Password, refer to the *Oracle Financial Services Compliance Regulatory Reporting Administration Guide* in [OTN](#).

Managing Compliance Regulatory Reporting

This chapter provides step-by-step instructions to manage Oracle Financial Services Compliance Regulatory Reporting (OFSCRR) and includes the following topics:

- Compliance Regulatory Reporting Workflow
- Creating an STR
- Searching STRs
- Saving Views
- Submitting an STR for Approval
- Adding Comments to an STR
- Setting Due Date of an STR
- Exporting the Report Details to Excel

Compliance Regulatory Reporting Workflow

This section explains the workflow of regulatory reports for users mapped to the role of Analyst and Supervisor. The following figure depicts the workflow involved in Regulatory Reporting application:

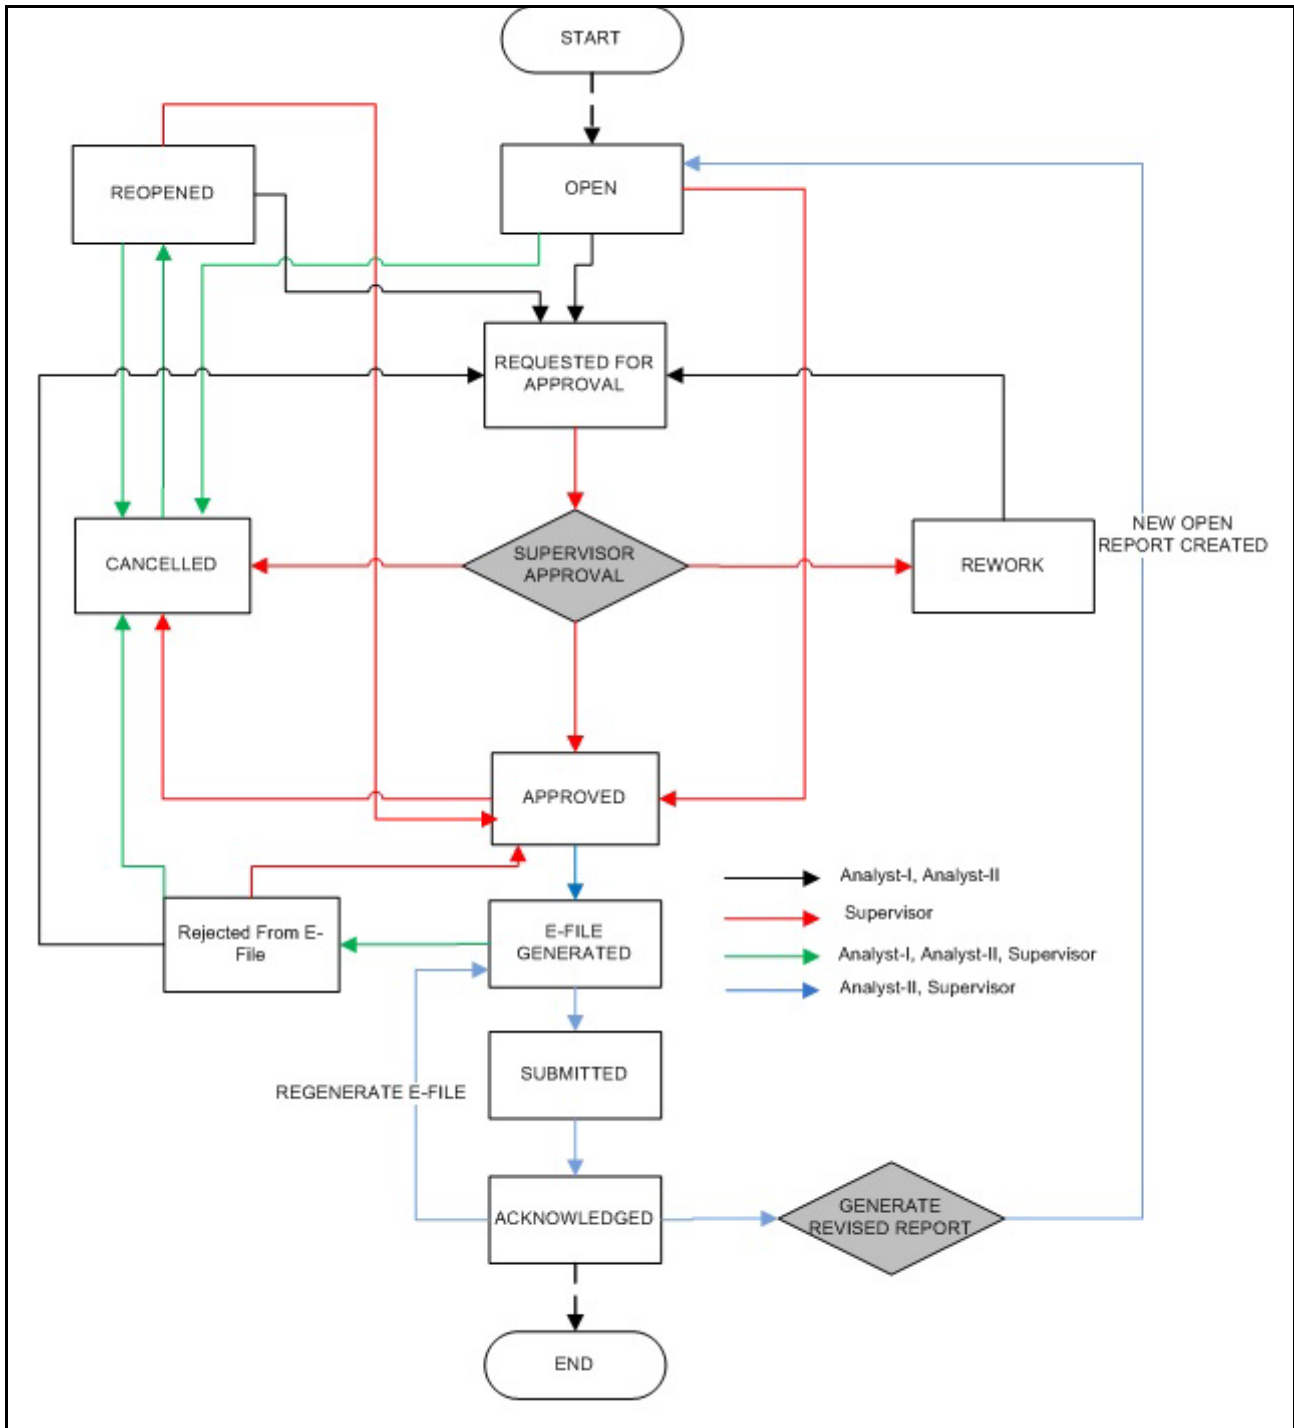

Figure 4. Compliance Regulatory Reporting workflow for Analyst and Supervisor

Note: Acknowledged Status will be functioning in the coming version.

An STR is created in the Compliance Regulatory Reporting application as a result of taking *Generate IN STR* action from within OFSFCCM or manually creating a report from OFSCRR. When an STR is created in the Compliance Regulatory Reporting application through OFSFCCM, the report details are auto-populated with information from

the alert or case which triggered the action to generate the STR. Users mapped to the role of Analyst-I can update the report in *Open* status and request the report details for approval. During the edit and review process, the STR is available to view as a draft report.

The Supervisor can approve, rework, and cancel filing of reports once the Analyst user has requested for approval. Supervisors can also edit the report details and approve reports directly, if needed.

If the report is approved, then an E-file is generated for multiple approved reports. The generated e-file is submitted with the Financial Intelligence Unit – India (FIU-IND) E-Filing System. The e-file is validated and an acknowledgment (.asc file) is generated. The acknowledgment file is then uploaded into the OFSRR application, thereby completing the STR process. The status of the report changes to Acknowledged. Acknowledged status is the final status given to a STR that has been submitted to and processed by FIU-IND.

An Analyst or Supervisor can generate revised reports when the report is in *Acknowledged* status. A new report is created with *Open* status. There is no change to the STR status. The new report retains all the details of the original report. and records the originating report as the Prior Report Number.

If required, the Supervisor can send the reports for rework when the report is in *Request for Approval* status. The analyst must then rework and re-submit the report for approval. This process continues until the report is approved or canceled.

Supervisor can generate an E-file from the approved reports. The status changes to *E-File Generated*. Depending on the information in the E-File, a report can be rejected by analyst or supervisor and the status changes to *Rejected from E-File*.

The E-File is verified and the Acknowledgment is uploaded with the status *Acknowledged*.

The application allows authorized users to reopen canceled reports. The STR status then changes to *Reopened*.

For the complete list of actions an Analyst, Auditor, and Supervisor can perform on various report statuses, refer to *Table 3*.

For more information on user roles, refer to *Table 2*.

An STR has a life cycle which begins with the *Open* status and ends when it is in *Acknowledged* status.

To view the report details, click the report name in the RR Search and List page.

If the report is already opened by another user, the following message is displayed: *This report is currently locked by another user. You will not be able to edit/take action on the report. Do you wish to open report details in read only mode?*

Creating an STR

You can create a new STR whenever you identify a suspicious transaction and want to report it to the Regulator. You can manually create a new report from within OFSCRR or through OFSFCCM.

This section covers the following topics:

- Creating STR from OFSFCCM
- Creating a New STR from OFSCRR

Creating STR from OFSFCCM

When a user with appropriate access permission performs the **Generate IN STR** action on an alert or a case from OFSFCCM, the data is passed to the OFSCRR through the web service and a new STR is created in the OFSCRR. This section displays the following topics:

- Creating STR on an Alert
- Creating STR on a Case

Creating STR on an Alert

To create an STR on an alert from OFSFCCM, follow these steps:

1. From OFSFCCM Home page, select **Alerts** from the **Monitoring** menu.

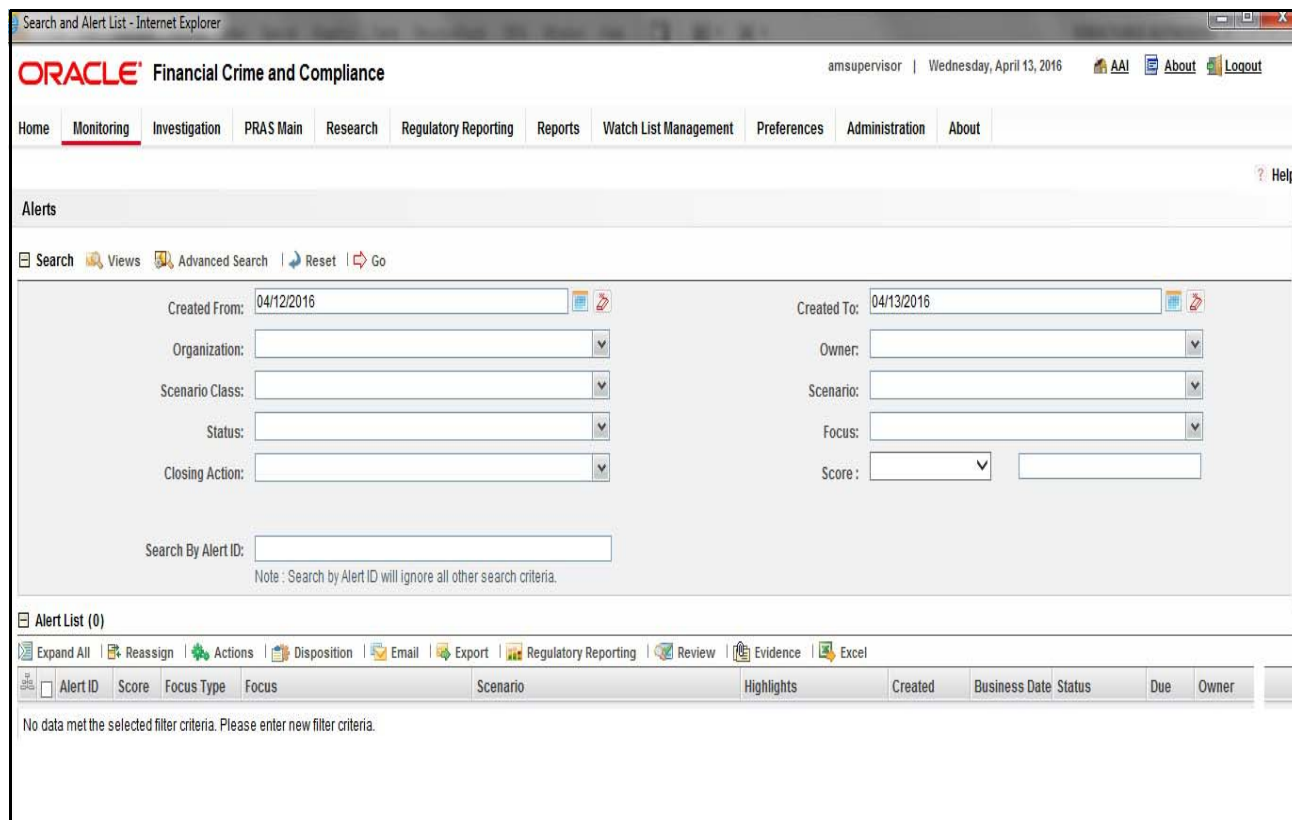

Figure 5. Alerts Search and List Page

2. Click **Advanced Search**.
3. Select the required **Scenario Class** and **Focus Type** from the drop-down list.

Figure 6. Alerts Advanced Search

Note: You can generate STRs only for specific a Scenario Class and Focus Type. For more information, refer to the *Alert Management and Case Management User Guides*.

4. Click **Go**.
5. Select the required alerts from the Alert Search and List page and click **Compliance Regulatory Reporting** in the Action bar.
6. Select **Generate IN STR** from the Choose Action drop-down list in the *Monitoring Actions Window* and enter the comments.

9. Navigate to the RR Search and List page. The latest alert on which **Generate IN STR** action was taken is displayed in the RR Search and List page.

Note: You can also perform **Generate IN STR** on multiple alerts from the Alert Search and List page.

Creating STR on a Case

To create an STR on a case from OFSFCCM, follow these steps:

1. From the OFSFCCM home page, select **Cases - AML/Fraud** under the **Investigation** menu.

Sending Acknowledgement to OFSFCCM from Compliance Regulatory Reporting

OFSRR sends a positive acknowledgment to OFSFCCM when all the mandatory information verification is completed successfully.

By default, the **ECM STATUS UPDATE FLAG** is set to **Y**. If the status is set to **Y**, then the OFSCRR application will send all the status updates to OFSFCCM. If the status is set to **N**, then the OFSCRR application will not send any status updates to the OFSFCCM.

The following information is sent as a part of the positive acknowledgment:

- Alert/Case ID (Alert/Case ID)
- Acknowledgment Code – 0 (Meaning successful)
- Report ID (System Generated)
- Report Status

If there are any errors, the Compliance Regulatory Reporting application sends a negative acknowledgment to OFSFCCM. The error may be due to the following reasons:

- User ID failure
- Unsuccessful mandatory information verification
- System/Application Error

The negative acknowledgment sent to OFSFCCM contains the following details:

- Alert/Case ID
- Acknowledgment Code
 - 1 stands for Invalid User ID
 - 2 stands for Mandatory Information Missing
 - 3 stands for Format Failure
 - 4 stands for System/Application Error
- Error Description

Note: If an alert or case fails to successfully complete the Generate IN STR action, then the failure is recorded in the alert or case audit history.

Creating a New STR from OFSCRR

When you identify a transaction of a suspicious behavior that is not reported in OFSFCCM, and want to report the transaction to the regulator, you can manually create a new STR using the **Create New Report** option in OFS Compliance Regulatory Reporting.

Note: Users mapped to the role of Analyst and Supervisor can create a new regulatory report.

To create a new STR from OFSCRR, follow these steps:

1. From the Regulatory Reporting menu, hover over India STR and click **Create New Report**. The Create New Report page is displayed.

Figure 10. Create New Report

2. Enter the required information in the fields.

Note: Always specify values for fields marked as required. Required fields are identified by a red asterisk.

The following table explains the fields in the Create New Report section:

Table 6. Creating New Report

Fields	Description
Report Name	Enter a name for the report being created. Note: This is a mandatory field.
Alert/Case ID	Enter the Alert/Case ID associated with the suspicious transaction.
Report Type	This field is auto-populated with the report type. Note: This field cannot be edited.
Attribute 1	Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Jurisdiction. Note: This is a mandatory field.
Attribute 2	Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Business Domain.

Table 6. Creating New Report

Fields	Description
Attribute 3	Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Case Type.
Attribute 4	Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Sub Type.
Attribute 5	Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Organization.
Created Date	This field is auto-populated with the current system date. Note: This field cannot be edited.
Created By	This field is auto-populated with the logged in user's name. Note: This field cannot be edited.

3. Click **Save**. The following confirmation message is displayed: *Report created successfully. Click OK to view the report details or Cancel to create more reports.*
4. Click **OK**. The Report Details page is displayed.

A new STR is created and the due date is set as per the number of days configured by your administrator in the static data table. The status of the new STR is set to *Open*.

Note: The report details of the manually created STR are not sent to OFSFCCM.

Searching STRs

The Compliance Regulatory Reporting Search and List page enables you to filter the list of reports that you want to view and analyze. The Compliance Regulatory Reporting search bar supports three types of search namely, Views, Simple Search, and Advanced Search.

The Reports List displays the list of reports that meet the criteria specified on the Compliance Regulatory Reporting Search bar.

This section explains the following topics:

- Searching Reports Using Simple Search
- Searching Reports Using Advanced Search
- Searching Reports Using Pre-defined Views
- Saving Views
- Regulatory Reports List

Searching Reports Using Simple Search

This search is based on a limited set of search components and helps to retrieve the required reports details.

To search for reports using the simple search components, follow these steps:

1. From the Regulatory Reporting menu, hover over India STR and click **Search and List**. The Search and List page is displayed.

The screenshot displays the Oracle Financial Crime and Compliance Regulatory Reporting interface. At the top, it shows the Oracle logo and the text 'Financial Crime and Compliance'. The user is logged in as 'canadian supervisor' on 'Monday, April 11, 2016'. The page title is 'Regulatory Reporting'.

The search bar includes the following fields:

- Report Number:
- Type of Report:
- Created By:
- Jurisdiction:
- Report Name:
- Reported Subject Name(s):
- Created Date >:
- Due Date >:
- Report Status:
- Account Number(s):
- Created Date <=:
- Due Date <=:

Below the search bar, there is a table titled 'Regulatory Reports (22)'. The table has the following columns: Report #, Report Name, Type of Report, Alert/Case ID, Count of Reported Accounts, Count of Reported Subjects, Created Date, Created By, Due Date, Report Status, Jurisdiction, Regulatory Report, and Zip. The table contains 16 rows of data, each representing a report with a unique ID and name (e.g., test2, test1, test3, etc.).

Note: By default, the basic **Search** option is selected.

2. Enter the details in the relevant search fields to retrieve the list of reports. For detailed descriptions of search fields, refer to *Table 7*.
3. Click **Go**. The relevant search list is displayed.

Note: If there is no match for the entered search criteria, the application displays the following message: *No Data Found*.

Searching Reports Using Advanced Search

The Advanced Search offers the same search fields as provided for a simple search with an additional set of fields. If you know any of the report details such as Report Name, Report Status, Alert/Case ID, FIA Reference Number, Prior Report Number, Jurisdiction, Approved By, Approved Date, Submitted By, Submitted Date, and so on, then you can filter the list of reports using the advanced search components.

To search for reports using advanced search components, follow these steps:

1. From the Regulatory Reporting menu, hover over India STR and click **Search and List**. The Search and List page is displayed.

Searching Reports Using Pre-defined Views

Views search helps you to quickly filter the reports based on the pre-defined search queries.

To search for reports using pre-defined views, follow these steps:

1. From the Regulatory Reporting menu, hover over Indian STR and click **Search and List**. The Search and List page is displayed.
Note: By default, the Regulatory Reporting Search and List page displays all the records.
2. Click **Views** from the Search bar.
3. Select any of the pre-defined views from the Views drop-down list. The List page refreshes to show results matching the View criteria.

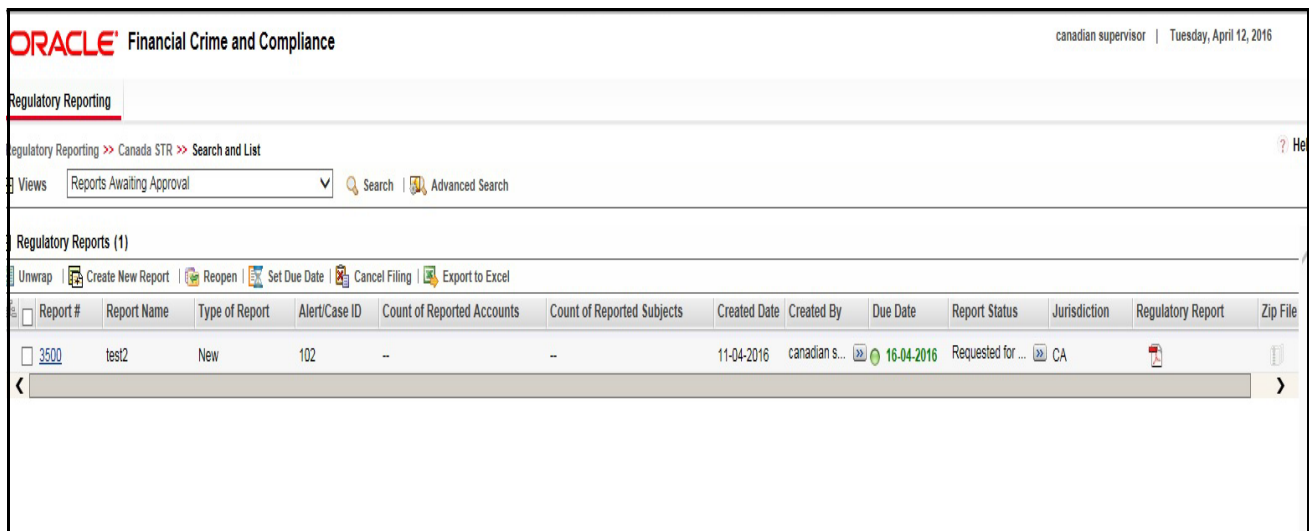

Figure 13. Searching Reports using Pre-defined Views

The following table explains the different types of pre-defined views available.

Table 8. Pre-defined Views

Views	Description
Open/ Reopened/Rework - Reports Last Modified by Me	Select Open/ Reopened - Reports Last Modified by Me from the drop-down list to display the list of reports in <i>Open</i> or <i>Reopened</i> , or <i>Rework</i> status for which the logged in user is the last modifier. Note: This option is the default view for an Analyst user.
Reports Awaiting Approval	Select Reports Awaiting Approval from the drop-down list to display the list of reports in <i>Requested for Approval</i> status. Note: This option is the default view for a Supervisor user.
Reports Overdue	Select Reports Overdue from the drop-down list to display the list of reports that have exceeded their due dates. When an STR is past its due date or when the due date is same as the system date, the STRs in the reports list are highlighted in Red color.
Reports Submitted in Last 3 Months	Select Reports Submitted in Last 3 Months from the drop-down list to display the list of reports that were submitted in the last three months. Note: This option is the default view for a user logged in as a Reviewer.
All Views saved by user	Select any of the views that you have created and saved using Save as View to display the reports as per the view selected. For more information, refer to Saving Views.

Saving Views

The Save as View action allows you to save the search criteria as a view. The saved views will be available in the **Views** drop-down list.

To save a view, follow these steps:

1. From the Regulatory Reporting menu, hover over India STR and click **Search and List**. The Search and List page is displayed.
2. Click **Advanced Search**. The Advanced Search page is displayed.
3. Enter the search criteria you want to save as view.

4. Click **Save as View**. The *Save as View* window is displayed.

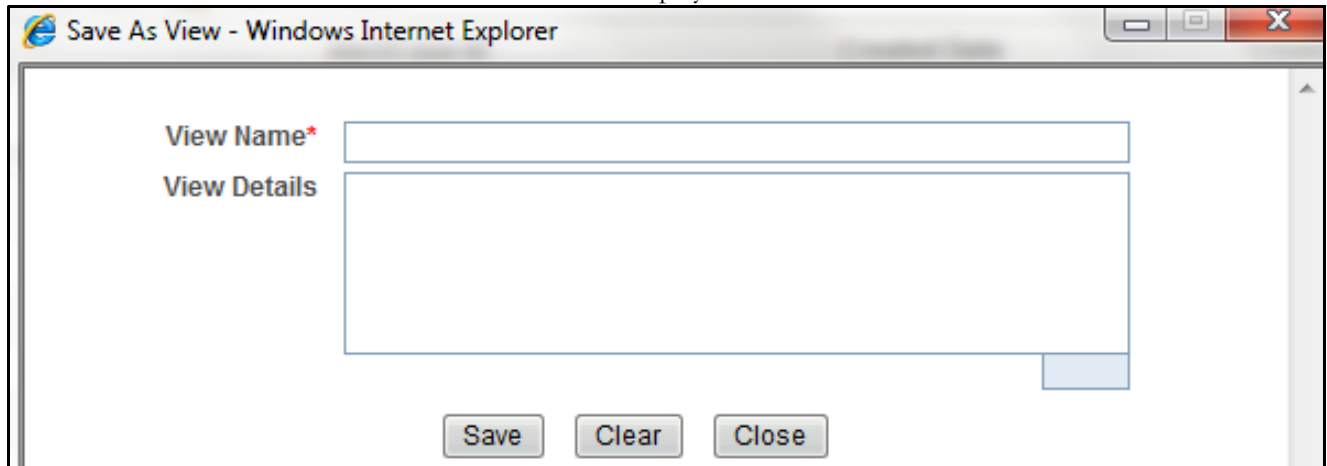

Figure 14. Save As View Window

5. Enter the view name and view details. The View details box in the *Save as View* window allows a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in this box, the following message is displayed: *Number of characters exceeded.*
6. Click **Save**. The following message is displayed: *Add Operation Successful.*
7. Click **OK**. The view is saved and is displayed in the **Views** drop-down list.

The saved view is available only to the user creating the view and will not be available to any other users.

Regulatory Reports List

The *RR List* grid is displayed as per the search criteria in the RR search page. The application supports right-click options on some columns within the List header that allow users to specify sorting as well as hide or display columns.

- **Ascending** - This option allows you to sort the selected column in ascending order.
- **Descending** - This option allows you to sort the selected column in descending order.
- **Clear Sort** - This option allows you to clear the selected sort option.
- **Field Chooser** - This option allows you to hide or display columns within the current list as well as modify the width of the columns. Click **OK** on Field Chooser to save the selected settings for the current session or click **Save** will save the selected settings for future logins.
- **Group by Tab** - This option allows you to group the reports and display them in different tabs as per the selected column.
- **Group By Tree** - This option allows you to group the reports and display them in tree format as per the selected column.

This list displays the following columns:

- Report Number
- Report Name

- Type of Report
- Alert/Case ID
- Count of Reported Subjects
- Count of Reported Accounts
- Created Date
- Created By
- Due Date
- Report Status
- Jurisdiction
- Regulatory Report
- Documents

Note:

- Count of Reported Subjects displays the total number of subjects reported in the STR.
- Count of Reported Accounts displays the total number of accounts involved in the suspicious activity reported. It will have both source and destination accounts.

Submitting an STR for Approval

This process involves the following steps:

- Entering Report Details
- Taking Action on Reports

Entering Report Details

The Report Details page allows users mapped to the role of Analyst and Supervisor to enter or update report information depending upon the report status. For more information on various statuses in which an Analyst, Auditor, and Supervisor user can edit the report details, refer to *Table 4*.

Click the report name in the RR Search and List page to navigate to the Report Details page.

The Report Details page allows you to manage following sections:

- Report Context
- Managing Reporting Entity Information
- Managing Account Information
- Managing Description of Suspicious Activity
- Managing Narrative and Actions
- Managing Documents
- Viewing Audit

Report Context

The Report Context section in the Regulatory Reporting (RR) Details page displays information about the report and is non-editable. It contains minimize and maximize buttons that allow you to expand and collapse the details in the Report Context. By default, the report context container is minimized.

Taking Action on Reports

The Report Details page allows the authorized users to take the following actions on reports.

- Requesting the Report for Approval
- Approving Reports
- Reworking on Reports
- Cancel Filing of Reports
- Reopening Reports
- Generating Revised Reports

Requesting the Report for Approval

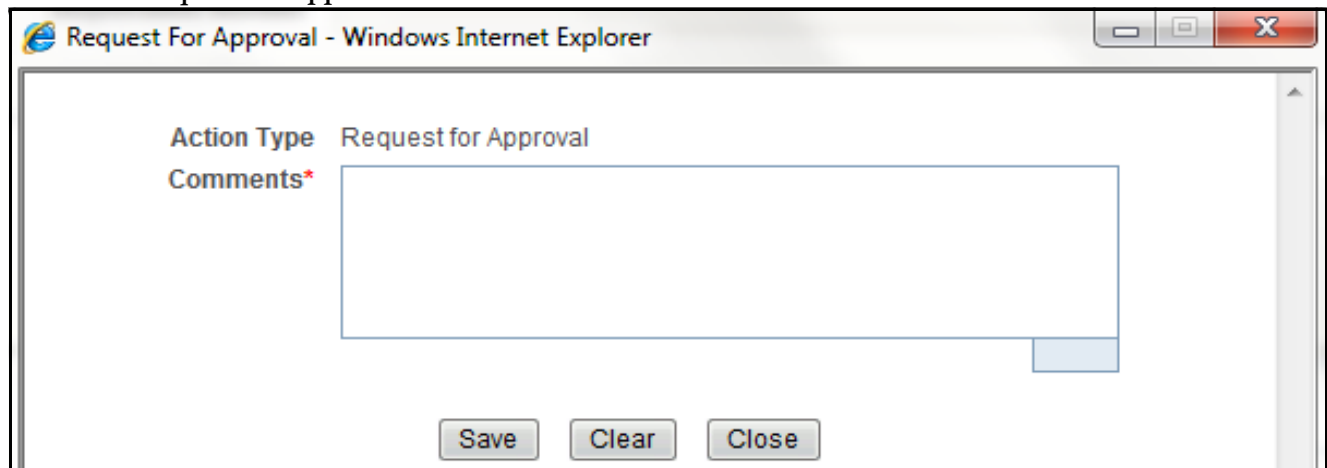

After updating the report details, they must be validated. The Report Details page allows authorized users to validate the report details and then submit the report for approval. When the user submits the report for approval, it is validated if the mandatory fields within the report are displayed. When a report is requested for approval, the status of the report changes to *Requested for Approval*.

A Supervisor can view/edit the report submitted for approval by an analyst and can either approve the report, send the reports for rework or cancel filing of the report.

For more information, refer to *Table 2*.

To submit a report for approval, an analyst must follow these steps:

1. Navigate to the Reports Details page of report in either *Open*, *Reopen*, or *Rework* status.
2. Click **Request for Approval**.

The screenshot shows a web browser window titled "Request For Approval - Windows Internet Explorer". The main content area contains a form with the following elements:

- Action Type**: Request for Approval
- Comments***: A large, empty text input box.
- Buttons**: Three buttons labeled "Save", "Clear", and "Close" are positioned at the bottom of the form.

Figure 30. Request for Approval Window

3. Enter the comments in the *Request for Approval* window.

Note: The comments box in the Request for Approval window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following error message is displayed:
Number of characters exceeded.

If you click **Save**, without entering the comments in the Request for Approval window, the following error message is displayed: *Mandatory fields are not entered.*

4. Click **Save**. The following message is displayed: *Add Operation Successful.*
5. Click **OK**. The Report Details page is displayed and the status of the STR changes to *Requested for Approval*. The Actions grid in the **Audit** tab tracks both the actions and the comments entered while performing the **Request for Approval** action.

Approving Reports

Authorized users can approve a report when it is in *Open*, *Reopened*, *Requested for Approval*, or *Rework* status. For more information, refer to *Table 3*.

To approve an STR, follow these steps:

1. Navigate to the Report Details page of a report in *Open*, *Reopened*, *Requested for Approval*, or *Rework* status
2. Click **Approve**.

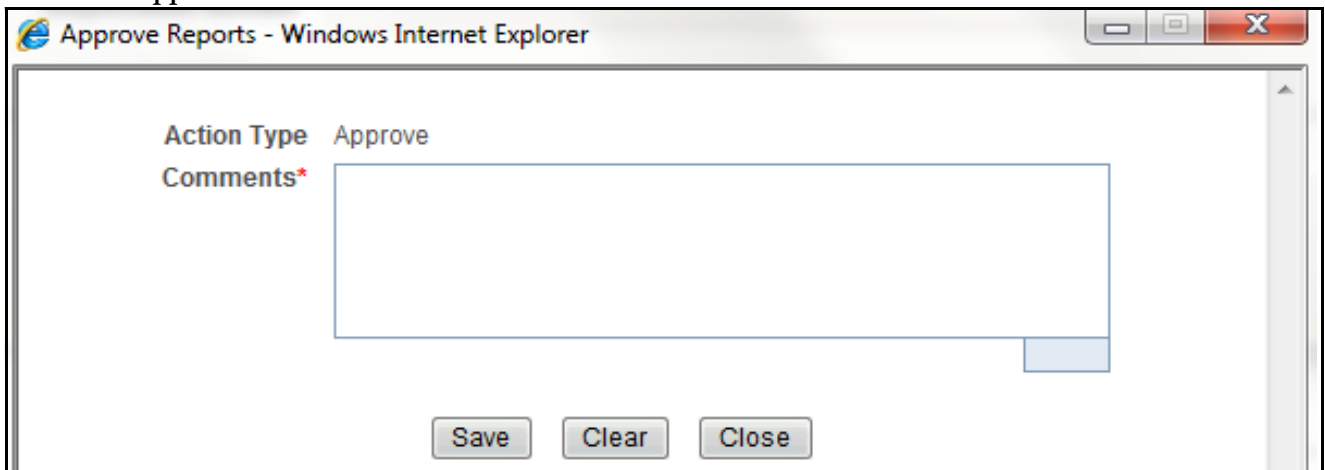

Figure 31. Approve Reports Window

3. Enter the comments in the *Approve* window.

Note: The comments box in the *Approve* window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: *Number of characters exceeded.*

If you click **Save**, without entering the comments in the *Approve* window, the following message is displayed: *Mandatory fields are not entered.*

4. Click **Save**. The following message is displayed: *Update Operation Successful.*

Note: The naming convention for final STR is in the format STR_Alert/Case ID_Approved Date (DD-MM-YYYY_HH24-MM-SS).doc, if the report is created from OFSFCCM. You can rename the final STR while saving.

Note: When the report is created manually, the naming convention for final STR is in the format STR_Manual_Approved Date (DD-MM-YYYY_HH24-MM-SS).doc.

5. Click **OK**. The Report Details page is displayed and the status of the report changes to *Approved*.

Note: Once the report is approved, the Compliance Regulatory Reporting application generates the final STR containing the required information that must be submitted to the regulatory authority. The Actions grid in the **Audit** tab tracks both the actions and the comments entered while performing the **Approve** action.

Reworking on Reports

A Supervisor can send reports for rework if there is incomplete or inaccurate information in the report, or for additional investigation. The Report Details page allows a Supervisor to take Rework action on reports.

If a report is sent for rework, the Analyst must rework on the report and submit again for approval. The process continues until the report is approved or canceled.

To send a report for rework, follow these steps:

1. Navigate to the Report Details page.
2. Click **Rework**. The *Rework* window is displayed.

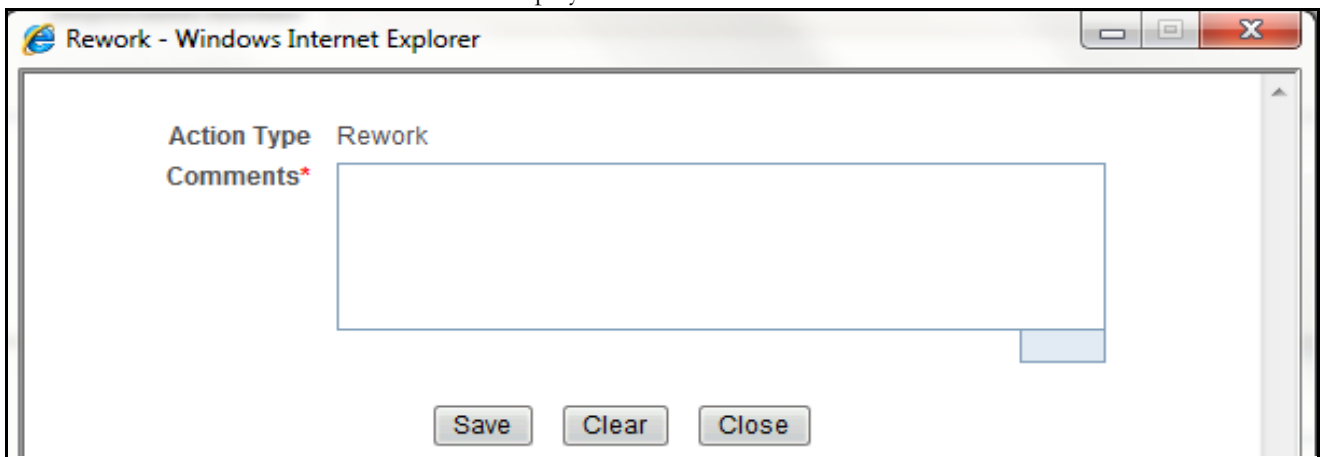

Figure 32. Rework Window

3. Enter the comments in the *Rework* window.

Note: The comments box in the *Rework* window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: *Number of characters exceeded.*

If you click **Save**, without entering the comments in the *Rework* window, the following message is displayed: *Mandatory fields are not entered.*

4. Click **Save**. The following message is displayed: *Update Operation Successful.*
5. Click **OK**. The Report Details page is displayed and the status of the STR changes to *Rework*.

Note: The Actions section in the **Audit** tab tracks both the actions and the comments entered while performing the **Rework** action.

Cancel Filing of Reports

If the users determine that a report should not be filed, then they can cancel it.

The Report Details page allows authorized users to cancel the reports from being filed. For more information on users who can take cancel filing action, refer to *Table 2*.

Once the report is canceled, you cannot edit the report details and the report changes into **View Only** mode.

Note: A canceled report can be reopened by authorized users.

To cancel the filing of a report, follow these steps:

1. Navigate to the Report Details page.
2. Click **Cancel Filing**. The *Cancel Filing* window is displayed.

Figure 33. Cancel Filing Window

3. Enter the comments in the *Cancel Filing* window.

Note: The comments box in the *Cancel Filing* window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: *Number of characters exceeded.*

If you click **Save** without entering the comments in the *Cancel Filing* window, the following message is displayed: *Mandatory fields are not entered.*

4. Click **Save**. The following message is displayed: *Update Operation Successful.*
5. Click **OK**. The Report Details page is displayed and the status of the STR changes to *Canceled*. The due date of the report is deleted on taking canceled action

Note: The Actions section in the **Audit** tab tracks both the actions and the comments entered while performing the **Cancel** action.

Reopening Reports

The Search and List page and the Report Details page allows authorized users to initiate reopen action on a report. For more information, refer to Table 2.

To reopen a report from Report Details page, follow these steps:

1. Navigate to the Report Details page of a report in *Canceled* status.

2. Click **Reopen**. The *Reopen Reports* window is displayed.

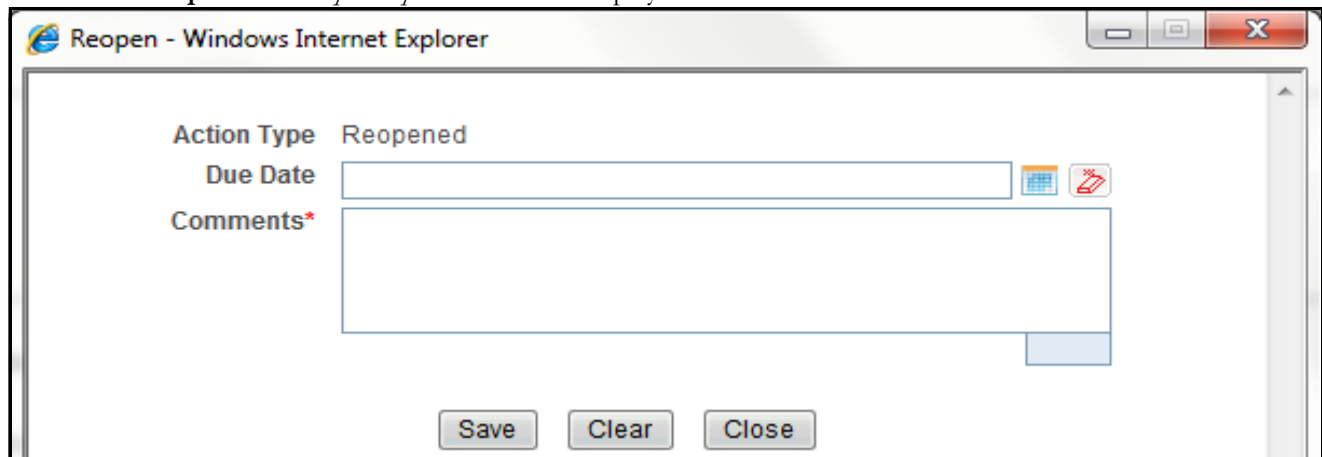

Figure 34. Reopen Reports Window from Report Details Page

3. Set the due date and enter the comments in the *Reopen* window. If you set the Due Date Required Flag attribute to **Y**, you must enter a due date. If you set the Due Date Required Flag attribute to **N**, you can optionally enter a due date.

Note: The comments box in the *Reopen* window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: *Number of characters exceeded.*

If you click **Save** without entering the comments in the *Reopen* window, the following error message is displayed: *Mandatory fields are not entered.*

4. Click **Save**. The following message is displayed: *Update Operation Successful.*
5. Click **OK**. The Report Details page is displayed and the status of the report changes to *Reopened*.

Note: The Actions section in the Audit tab tracks both the **Actions** and the **Comments** entered while performing the Reopen action.

To reopen a report from RR Search and List page, follow these steps:

1. Navigate to the RR Search and List page.
2. Select the check box of the report(s) you want to reopen.

Note: You can select multiple reports from the search and list page and collectively reopen them. If you try to perform reopen action on reports other than in *Canceled* status, the application displays the following message: *Some reports are not in Canceled state. Reopen action can only be taken on Canceled reports. Please de-select those reports and try again.*

3. Click **Reopen**. The *Reopen Reports* window is displayed.

5. Click **Save**. The following message is displayed: *Update Operation Successful.*
6. Click **OK**. The RR Search and List page is displayed and the status of the report changes to *Reopen*.

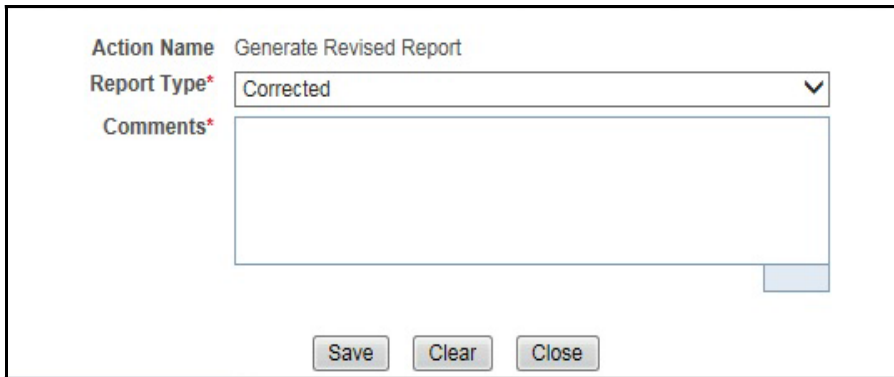

Note: If you try to reopen reports other than in *Canceled* or *Submitted* status, the application displays the following message: *Some reports are not in Canceled or Submitted state. Reopen action can only be taken on Canceled or Submitted reports. Please de-select those reports and try again.*

Generating Revised Reports

The Report Details page allows the authorized users to generate revised reports when the report is in *Acknowledged-Rejected* status. When the user generates a revised report, a new report is created with *Open* status. There is no change to the STR status. The new report retains all the details of the original report and records the originating report as the Prior Report Number. These new reports will receive a default due date as associated with the configuration for newly created reports generated through action from an alert or case.

To generate revised reports, follow these steps:

1. Navigate to the Report Details page of a report in *Acknowledged-Rejected* status.
2. Click **Generate Revised Reports**. The *Generate Revised Reports* window is displayed.

The screenshot shows a window titled "Generate Revised Reports". It has three main input areas: "Action Name" is a text field containing "Generate Revised Report"; "Report Type*" is a dropdown menu currently set to "Corrected"; and "Comments*" is a large, empty text area. At the bottom of the window, there are three buttons: "Save", "Clear", and "Close".

Adding Comments to an STR

The Report Details page allows users mapped to the role of Analyst, Auditor, and Supervisor to add comments to a report. You can add comments to a report in any status.

To add comments to a report, follow these steps:

1. Navigate to the Report Details page of a report.
2. Click **Add Comments**. The *Add Comments* window is displayed.

Figure 37. Add Comments Window

3. Enter the comments in the *Add Comments* window.

The comments box in the *Add Comments* window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following error message is displayed: *Number of characters exceeded*.

If you click **Save**, without entering the comments in the *Add Comments* window, the following error message is displayed: *Mandatory fields are not entered*.

4. Click **Save**. The following message is displayed: *Update Operation Successful*.
5. Click **OK**. The *Add Comments* window closes and displays the Report Details page.

Note: The Actions grid in the Audit tab tracks both the actions and the comments entered while performing the **Add Comments** action.

Setting Due Date of an STR

Analyst and Supervisor users can set a due date or modify an existing due date of a STR.

Note: The **Set Due Date** action is available in the Compliance Regulatory Reporting application only when you set the **Edit Due Date Flag** attribute to **Y** in the *Application Parameters* table.

Table 22. Behavior and Attributes for Various Roles

Attribute Name	Value	Behavior
Due Date with edit		Users mapped with this role will be able to set/edit/view 'due date'.
Due date with view		User mapped with this role will be able to view 'due date' but will not be able to set/edit the same.
Number of Days	N	When a report is created either manually or through action from alert/case, automatically sets due date to action date + N calendar days. If parameter is blank then no date is set. Default value would be 5 days.

The following table explains the various statuses where the Analyst and Supervisor users can perform the Set Due Date action:

6. Click **Save**. The following message is displayed: *Update Operation Successful.*
7. Click **OK**. The RR Search and List page is displayed.

Note: The Actions section in the **Audit** tab tracks both the actions and the comments entered while performing the **Set Due Date** action.

Exporting the Report Details to Excel

The RR Search and List page allows you to export the report list into an Excel template.

To export the report details into an Excel template, follow these steps:

1. Navigate to the RR Search and List page.
2. Click **Export to Excel**. The *Export Properties* Window is displayed.

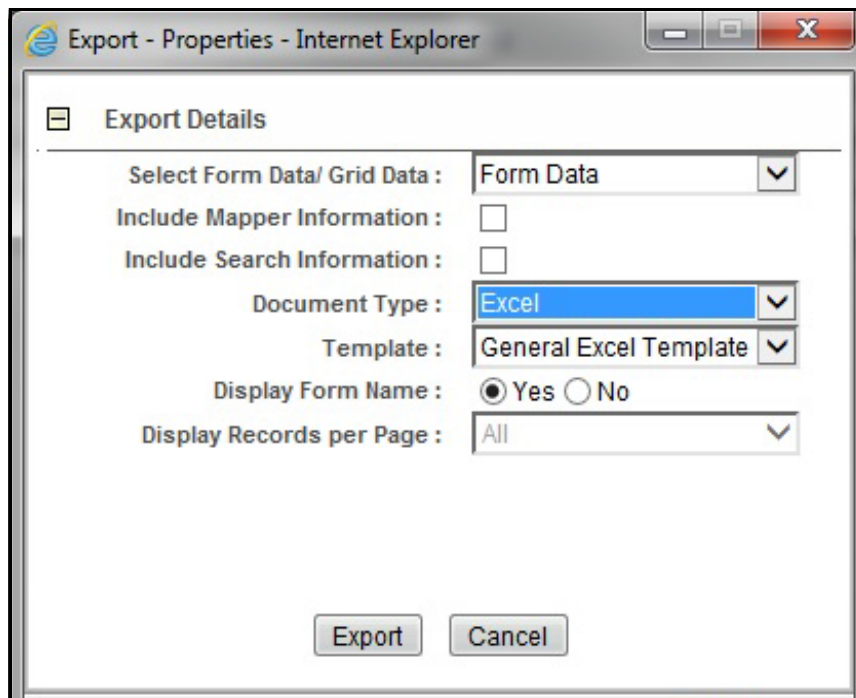

Figure 39. Export Properties Window

All the reports in the RR Search and List page are exported into an Excel template. You cannot export individual reports into Excel.

3. Set Document Type as **Excel** and select Form Data/Grid Data as **Grid** Data.
4. Click **Export** in the Export Properties dialog box.

When processing is complete, the data is displayed in an Internet Explorer window with a dialog box.

5. Click **Save** from the dialog box. The Save As dialog box is displayed.
6. Select a directory location where you want to save the file.
7. Enter a new name in the File Name field or the application automatically generates a name for the file to accept.
8. Click **Save**.

The application saves your file to the specified location.

Note: Open the file in Microsoft Excel to edit as needed.

This chapter describes the instructions for generating an e-file, filing regulatory report at FIU-IND, uploading the acknowledgment, and completing the STR process. Only users mapped to the role of *Supervisor* and *Analyst2* can generate the e-file.

This chapter discusses the following topics:

- Overview
- Approved Reports Tab
- E-File Status Tab

Overview

When a report is created in the application, the report details are entered and then submitted for approval. Once the report is submitted for approval, an authorized user validates the report details and either approves, rejects, or closes the report.

If the user approves the report, that report is available for e-file generation by an authorized user. The generated e-file is submitted with the FIU-IND E-Filing System. The e-file is validated by FIU-IND and an acknowledgment (.asc file) is generated. The acknowledgment file can then be uploaded into the OFSRR application. The application will then associate the FIU-IND returned Identifier to each STR within the e-file. At this point the user can then mark the STR process as complete.

This chapter explains the steps involved in filing approved reports.

Approved Reports Tab

The Approved Reports tab enables you to search for and display reports that are in an Approved state and are ready for e-filing. It is from this tab that you will generate the e-file.

Note: Only Supervisor can reject or close approved reports from this tab.

The Approved Reports tab allows you to perform any of the following actions:

- Searching Approved Reports
- Approved Report List
- Generating E-File
- Exporting Approved Report Details to Excel

Searching Approved Reports

To search for approved reports, follow these steps:

1. Login to the OFSRR application as a Supervisor/Analyst.
2. From the Regulatory Reporting menu, hover over **Regulatory Reporting** and click **India STR** and **File Reports**. The File Report page displays.
3. Click **Approved Reports** tab. The Advanced Report List page displays all the reports in *Approved* status.

The screenshot shows the Oracle Financial Crime and Compliance application interface. At the top, it says "ORACLE Financial Crime and Compliance" and "Canada Analyst2 | Tuesday, April 26, 2016". The main heading is "Regulatory Reporting". Below that, there are tabs for "Approved Reports", "E-file Status", and "Acknowledgement". The "Approved Reports" tab is selected. There is a search bar with "Search", "Reset", and "Go" buttons. The search criteria include: Report Number, Report Name, Type of Report (dropdown), Jurisdiction (dropdown), Account Number, Alert/Case ID, Approved By (dropdown), Approved Date (range), Created By (dropdown), Created Date (range), and Due Date (range). Below the search bar, there is a section for "Approved Report List (0)". It has buttons for "Unwrap", "Generate E-File", and "Export to Excel". Below that is a table with the following columns: Report #, Report Name, Type of Report, Accounts Involved, Number of Subjects, Number of Transactions, Number of Dispositions, Jurisdiction, Due Date, Created By, and Created Date. The table currently shows "No Data Found".

2. Click **Search**. The relevant search list displays.

Note: If you click **Reset**, all search fields are set to default values (blank).

Approved Report List

The *Approved Report List* grid is displayed as per the search criteria in the Approved Reports page.

This displays the following columns:

- Report Number
- Report Name
- Type of Report
- Accounts Involved
- Number of Subjects
- Number of Transactions
- Number of Dispositions
- Jurisdiction
- Due Date
- Created By
- Created Date
- Regulatory Report
- Approved By
- Alert/Case ID

- Submitted By
- Submitted Date
- Last Modified By
- Last Modified Date
- Prior Report Number

Note:

- Number of Subjects displays the number of reports that were selected ‘Yes’ in the Part D grid for the **Include in Report?** field.

Generating E-File

Once the status of a regulatory report changes to *Approved*, you can generate the e-file for those report(s) and upload the resultant *.txt* file into FIU-IND’s E-Filing System.

Note: When an e-file is generated, an attachment zip file is created for the e-file with a *.csv* file in it. This *.zip* file is only available if attachments were associated with any STR within the E-File.

To generate e-file, follow these steps:

1. Login to the OFSRR application as a Supervisor/ Analyst.
2. From the Regulatory Reporting menu, hover over **Regulatory Reports**, click **India STR** and then **File Reports**. The File Reports page displays.

3. In the **Approved Reports** tab, the Advanced Report List page displays all the reports in *Approved* status. You can also use the Approved Report Search to filter the required reports in *Approved* status.
4. Click **Generate E-File**. The Generate E-File window is displayed.

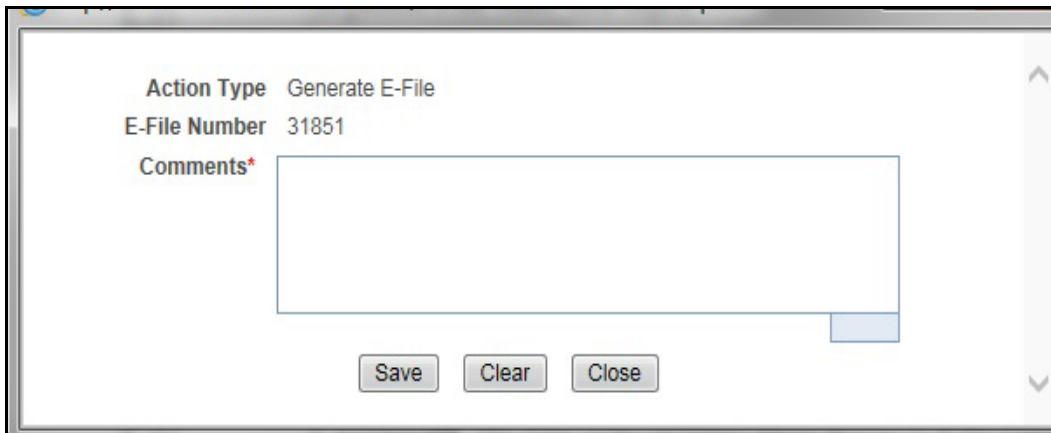

Figure 41. Generate E-File Window

5. Click **Save**. The following message displays: *E-File Generated Successfully*.
6. Click **OK**. The status of the regulatory report changes to *E-File Generated*.

Note: The reports on which **Generate E-File** action is taken are moved from Approved Reports list to E-File List.

When two users try to generate e-file for the same report(s) at the same time, the following message displays: *One or more reports selected by you are locked by another user for generating E File or it has already been generated. Click OK to refresh the list*

If you try to E File/Reject a report which has already been locked by another user for E Filing, the application displays the following message: *<Report nm1>-<user>, <Report nm2>-<user>..... One or more r Report(s) selected by you are locked by another user and not available for action.*

If you try to E File a report which has already been generated/rejected, the application displays the following message: *<Report nm1>, <Report nm2>..... Report(s) selected by you has already been actioned to either include in an e-file or rejected from the e-file. So cannot perform this action.*

Exporting Approved Report Details to Excel

The File Reports page allows you to export the Approved report list into an Excel template.

To export the Approved report details into an Excel template, follow these steps:

1. Login to the OFSRR application as a Supervisor/ Analyst.
2. From the Regulatory Reporting menu, hover over **Regulatory Reports**, click **India STR** and then **File Reports**. The File Reports page displays.
3. In the **Approved Reports** tab, the Advanced Report List page displays all the reports in *Approved* status. You can also use the Approved Report Search to filter the required reports in *Approved* status.
4. Click **Export to Excel**. The *Export Properties Window* is displayed.

8. Enter a new name in the File Name field or the application automatically generates a name for the file to accept.
9. Click **Save**.

The application saves your file to the specified location.

Note: Open the file in Microsoft Excel to edit as needed.

Submitting an E-File

The E-File tab in the File Reports page allows you to submit an E-File which is in the *E-File Generated* or *E-File Regenerated* status. To submit an E-File, follow these steps:

1. Login to the OFSRR application as a Supervisor/ Analyst.
2. From the Regulatory Reporting menu, hover over **Regulatory Reports**, click **India STR** and then **File Reports**. The File Reports page displays.
3. In the **E-File Status** tab, select a record/ records which are in the *E-File Generated* or *E-File Regenerated* status from the E-File List.

4. Click **Submit**. The Submit E-File window is displayed.

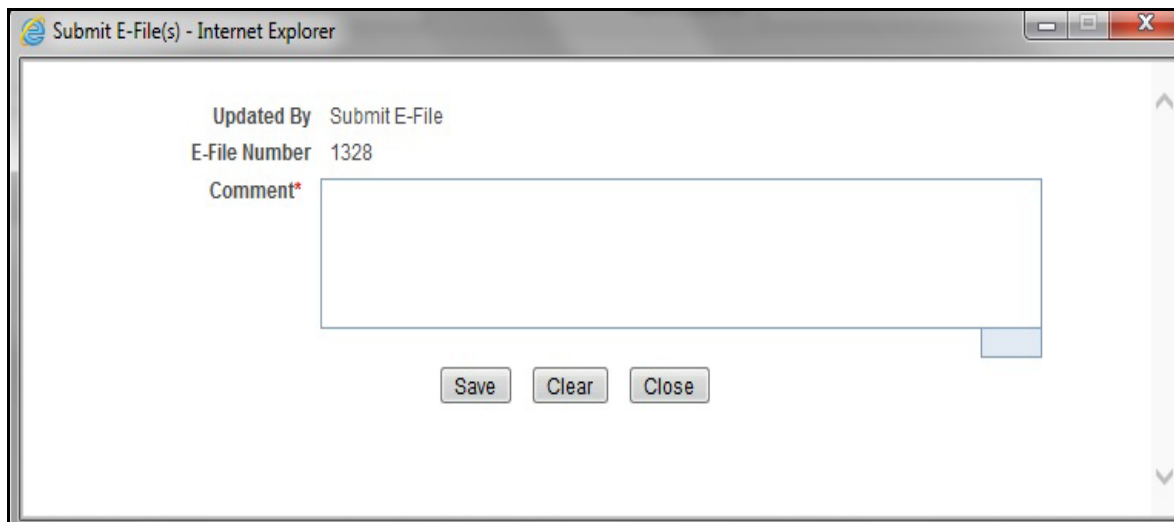

Figure 45. Submit E-File Details

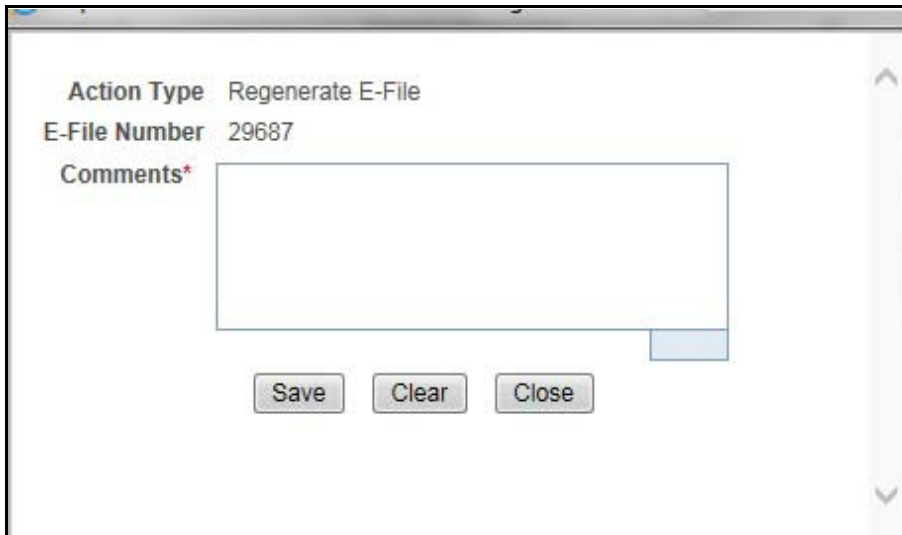

5. Enter the comments and click **Save**. The status of the E-file changes to *Submitted*.

Regenerating E-File

The File Reports page allows you to regenerate an E-File that is in the *Acknowledged- Rejected* status. If you try to regenerate an E File which is any other status, the application displays the following message: *Regenerate E-File action can only be taken on Acknowledged- Rejected E-File.*

To export regenerate an E-File, follow these steps:

1. Login to the OFSRR application as a Supervisor/ Analyst.
2. From the Regulatory Reporting menu, hover over **Regulatory Reports**, click **India STR** and then **File Reports**. The File Reports page displays.
3. In the **E-File Status** tab, the Advanced Report List page displays all the reports in *Approved* status. You can also use the Approved Report Search to filter the required reports in *Approved* status.
4. Select a record which is in the *Acknowledged- Rejected* status. Click **Regenerate E-File**. The Regenerate E-File window is displayed.

5. Enter the Comments and click **Save**. The following message displays: *E-File Generated Successfully*
6. Click **OK**. The E-File is regenerated with the same E-File Number. The status changes to *E-File Generated*.

Rejecting STR(s) from E-File

You can reject STR(s) from an e-file at any point of time before completing the STR process. Once an STR report is rejected from an e-file, it is removed from the reports list and the status of the rejected report changes to *Rejected from E-File*.

Only the records which are in *E-File Generated* status can be rejected. For STR(s) that are not rejected, a new e-file is regenerated.

You can correct/amend a rejected report and submit for Supervisor's approval. Once the corrected report is approved, you can follow the workflow of filing a regulatory report all over again as explained earlier.

Note: Once an e-file has been uploaded and accepted by FINTRAC, it is advised that you do not reject STRs from the e-file until after the acknowledgment file has been uploaded and parsed. If you reject a report after submission but before processing the acknowledgment files there will be a mismatch in the files referenced in the acknowledgment file and the current e-file. If a report is rejected prior to uploading the acknowledgement into the application, then you have to re-submit the e-file at FINTRAC's E-Filing System to get the latest acknowledgment file.

To reject STRs from an e-file, follow these steps:

1. Login to the OFSRR application as a Supervisor/Analyst.
2. From the Regulatory Reporting menu, hover over **Regulatory Reports**, click **India STR** and then **File Reports**. The File Reports page displays.
3. Click **E-File Status** tab.
4. From E-File List results, click E-File Number of an e-file record that you want to reject. The Reports that are a part of the corresponding E-File are displayed.
5. Click **Reject**.

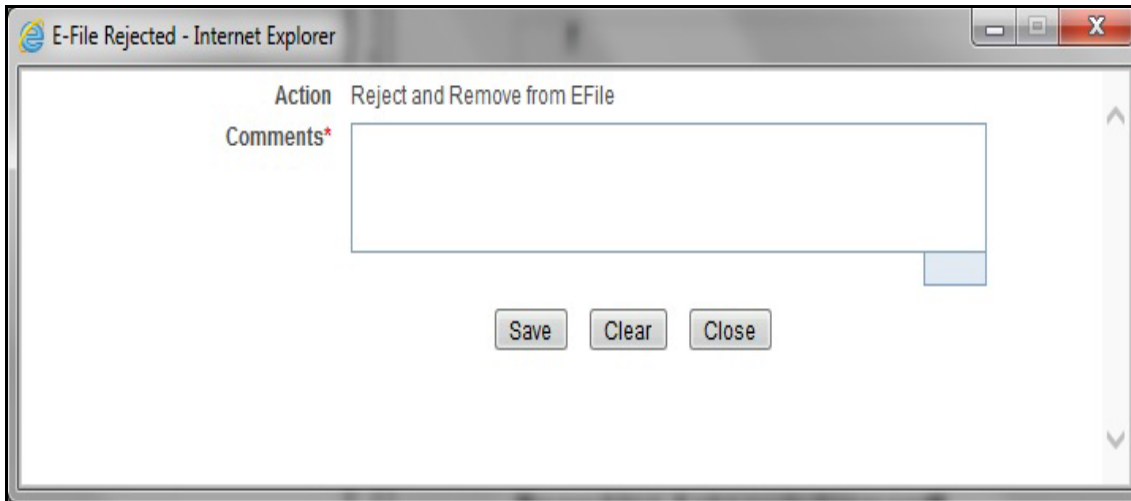

Figure 46. E-File Rejected Window

6. Enter comments in the comments field and click **Save**. The following message displays: *Reports Successfully removed from E-File.*

Note: The comments box in the E-File rejected window allows entering a maximum of 120 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 120 characters in the Comments box, the following message displays: *Number of characters exceeded.*

7. Click **OK**. The rejected e-file is removed from the E-File List results.
