About This Guide

The *Oracle Financial Services Compliance Regulatory Reporting User Guide* explains the concepts behind the Oracle Financial Services Compliance Regulatory Reporting application and provides step-by-step instructions for navigating through the application.

This chapter discusses the following topics:

- Who Should Use this Guide
- How this Guide is Organized
- Where to Find More Information
- Conventions Used in this Guide

Who Should Use this Guide

The *Oracle Financial Services Compliance Regulatory Reporting User Guide* is designed for use by various users. Their roles and responsibilities, as they operate within the Oracle Financial Services Compliance Regulatory Reporting application, include the following:

- **Analyst:** This user can access Regulatory Reports, create new reports, edit/view report details, add comments to the report, request for approval, cancel filing of reports from *Open* and *Reopen* status, reopen cancelled reports, and also view/save the final report.
- **Supervisor:** This user can access Regulatory Reports, create new reports, edit and view report details, add comments to the report. This user can also take actions on the reports such as approve, rework, and cancel filing of reports. This user can also submit the reports.
- **RR Admin:** This user is responsible for handling various configurations required to support the report workflow.
- **Auditor:** This user can view and add comments to the report.

How this Guide is Organized

The *Oracle Financial Services Compliance Regulatory Reporting User Guide* includes the following topics:

- *Chapter 1, About Compliance Regulatory Reporting*, provides an overview of the Oracle Financial Services Compliance Regulatory Reporting application.
- *Chapter 2, Getting Started*, explains the steps to login to the Oracle Financial Services Compliance Regulatory Reporting application and provides a brief overview of the various users and their roles in the Compliance Regulatory Reporting application.
- *Chapter 3, Managing Compliance Regulatory Reporting*, explains the workflow of regulatory reports.

Where to Find More Information

For additional information about the Oracle Financial Services Compliance Regulatory Reporting, refer to the following documents in [OTN](#):

- *Oracle Financial Services Compliance Regulatory Reporting Data Model Reference Guide*: This guide explains the structure of the entities in the RR data model and provides in-depth information on managing the data in the Compliance Regulatory Reporting application.
- *Oracle Financial Services Compliance Regulatory Reporting Webservice Guide*: This guide explains how and in what format the source business data is provided to the Compliance Regulatory Reporting application through a web service for the report type.
- *Oracle Financial Services Compliance Regulatory Reporting Installation Guide*: This guide provides step-by-step instructions for installing the Oracle Financial Services Compliance Regulatory Reporting application on an existing Oracle Financial Services Behavior Detection Framework hosted in Windows environment.
- *Oracle Financial Services Compliance Regulatory Reporting Release Notes*: This guide provides details about the enhancements made to the features in the Oracle Financial Services Compliance Regulatory Reporting application.
- *Oracle Financial Services Compliance Regulatory Reporting Russian Administration Guide*: This guide describes comprehensive activities to be done by the Administrator in the Oracle Financial Services Compliance Regulatory Reporting application. This guide details the Compliance Regulatory Reporting application and provides information about configuring and maintaining users and static data.

About Compliance Regulatory Reporting

This chapter provides an overview of the Oracle Financial Services Compliance Regulatory Reporting application.

This chapter discusses the following topics:

- Introduction to Compliance Regulatory Reporting
- About Oracle Financial Services Compliance Regulatory Reporting Application

Introduction to Compliance Regulatory Reporting

As a part of regulations and compliances, a Financial Services Organization must perform appropriate analysis and report any suspicious activities that may lead to fraud and money laundering to the regulatory authorities. These regulatory bodies are responsible for safeguarding financial institutions and consumers from abuse, providing transparency in the country's financial system, enhancing that country's security, and deterring and detecting criminal activity in the financial system.

Financial institutions are required to provide data regarding suspicious activities to their geographic region's regulatory authority. This data is delivered to the regulatory bodies through regulatory reports. These reports, depending on the regulatory geographic region, can be delivered in a paper format or in an electronic format.

About Oracle Financial Services Compliance Regulatory Reporting Application

The Oracle Financial Services Compliance Regulatory Reporting (OFSCRR) application supports the management, delivery, and resolution of regulatory reports across multiple geographic regions and across multiple financial lines of business. The Compliance Regulatory Reporting application supports the generation of Suspicious Transaction Reports (STR) for various countries such as The United States of America Suspicious Activity Reports (US SAR), Nigeria (NG STR), Pakistan (PK STR), Malaysia (MY STR), Singapore (SG STR), New Zealand (NZ STR), Bahamas (BS STR), Kenya STR (KE STR), Burundi (BD STR), Rwanda (RW STR), Uganda (UG STR), Phillipines STR (PH STR), Indonesia STR (ID STR), Canada STR (CA STR) and Russian STR (RU STR). Since there are several differences in requirements for paper-based formats versus electronic formats, between different geographic regions, and the data elements that are required on these STRs, the approach to satisfy the end goal is to provide a Compliance Regulatory Reporting framework that is configured to support paper-based and electronic formats for different geographic regions and to generate and file different types of reports.

The Compliance Regulatory Reporting application is integrated with Oracle Financial Services Financial Crime and Compliance (OFSFCCM) and allows users to **Generate RU STR** from within OFSFCCM. When a report is created in the Compliance Regulatory Reporting application through OFSFCCM, the report details are auto-populated with information from the alert or case which triggered the action to generate the draft STR. You can also manually create a new STR from OFSCRR.

Users mapped to appropriate roles can update the report information and submit the report details for approval to the Supervisor. The Supervisor can approve, rework, cancel the filing or reject the cancellation request of the report.

Once the STRs are approved, they can be submitted to the regulators. However, sending the documents to the regulator is the responsibility of the user and out of scope of the application.

For more information on the workflow of regulatory reports section, refer to *Table 2*.

This chapter explains the steps to login to the Oracle Financial Services Compliance Regulatory Reporting (OFSCRR) application and provides a brief overview of the various users and their roles in the Compliance Regulatory Reporting application.

This chapter explains the following topics:

- User Roles
- User Access
- Logging in to Compliance Regulatory Reporting
- Accessing Compliance Regulatory Reporting from OFSFCCM

User Roles

The following user roles are defined in the Compliance Regulatory Reporting application:

- **Analyst:** This user can access Regulatory Reports, create new reports, edit/view report details, add comments to the report, request for approval, cancel filing of reports from *Open* and *Reopen* status, reopen cancelled reports, and also view/save the final report.
- **Supervisor:** This user can access Regulatory Reports, create new reports, edit and view report details, add comments to the report. This user can also take actions on the reports such as approve, rework, and cancel filing of reports. This user can also submit the reports.
- **RR Admin:** This user is responsible for handling various configurations required to support the report workflow.
- **Auditor:** This user can view and add comments to the report.

User Access

The following table explains the tasks that can be performed by various user roles in the Compliance Regulatory Reporting application.

Logging in to Compliance Regulatory Reporting

To access the Compliance Regulatory Reporting application, follow these steps:

1. Go to the **OFSAAI** Login page.
2. Select the **Language** for the application.
3. Enter your **User ID**.
4. Enter your **Password**.
5. Click **Login**. The Oracle Financial Services Analytical Applications Infrastructure page is displayed with a link to either **OFSCRR** or **OFSFCCM**.

Note:

- If you've installed OFSCRR without OFSFCCM, the Oracle Financial Services Analytical Applications Infrastructure page will display the **OFSCRR** link under the Home menu. Clicking **Compliance Regulatory Reporting** will navigate you to the Compliance Regulatory Reporting Search and List page.
- If you've installed OFSCRR with OFSFCCM, the Oracle Financial Services Analytical Applications Infrastructure page will display the **FCCM** link under the Home menu. Clicking **FCCM** will navigate you to the OFSFCCM Home page depending upon your roles and access rights.

Accessing Compliance Regulatory Reporting from OFSFCCM

To access OFSCRR from OFSFCCM, follow these steps:

1. Go to the **OFSAAI** Login page.

The screenshot shows the OFSAAI Login page. At the top left is the Oracle logo. To its right, the text 'Financial Services Analytical Applications Infrastructure' is displayed in a blue header bar, with 'About' as a link below it. The main content area is light gray. On the left, there are three input fields: 'Language' with a dropdown menu showing 'US-English', 'User ID', and 'Password'. A 'Login' button is located at the bottom left of this section. On the right, there is a large image of classical columns and a modern skyscraper. The Oracle logo is also present at the bottom right of the image area.

2. Select the **Language** for the application.
3. Enter your **User ID**.
4. Enter your **Password**.
5. Click **Login**. The OFSAAI Home page is displayed.

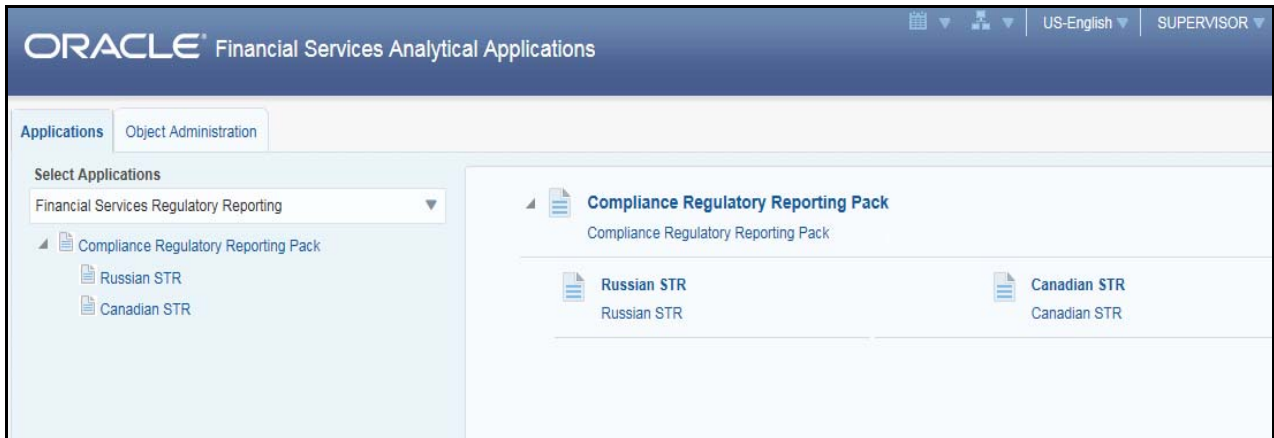

Figure 2. OFSAAI Home Page

6. Click **FCCM**. The OFSFCCM Home page is displayed depending upon the user roles and their access permissions.
7. Select **Financial Services Regulatory Reporting** from the Select Applications list. The Russian STR
8. From the Compliance Regulatory Reporting menu, hover over **Russian STR**, and click **Search and List**. The Regulatory Reporting Search and List page opens.

Figure 3. RR Search And List Page in OFSFCCM

- Users mapped to Analyst, Auditor, and Supervisor roles can access the Regulatory Reports menu.
- Users mapped to the RR Admin role can access the Administration menu.

Based on the user roles and access permission, the Compliance Regulatory Reporting application displays the following menu options:

- **Search and List:** This menu option allows you to navigate to the Search and List page. From this page you can use various criteria to search for Regulatory Reports.

- **Create New Report:** This menu option allows you to navigate to the Create New Reports page where you can initiate a user created Regulatory Report.
- **Administration:** The Administration menu displays the following sub-menus:
 - **User Administration:** This menu option allows you to map and maintain the security attributes for each user role.
 - **Web Service Configuration:** This menu option allows you to reset the Webservice password. For more information on resetting the User ID and Password, refer to the *Oracle Financial Services Compliance Regulatory Reporting Administration Guide* in [OTN](#).

Managing Compliance Regulatory Reporting

This chapter provides step-by-step instructions to manage Oracle Financial Services Compliance Regulatory Reporting (OFSCRR) and includes the following topics:

- Compliance Regulatory Reporting Workflow
- Creating an STR
- Searching STRs
- Saving Views
- Submitting an STR for Approval
- Adding Comments to an STR
- Setting Due Date of an STR
- Exporting the Report Details to Excel

Compliance Regulatory Reporting Workflow

This section explains the workflow of regulatory reports for users mapped to the role of Analyst and Supervisor. The following figure depicts the workflow involved in Compliance Regulatory Reporting application:

Figure 4. Compliance Regulatory Reporting workflow for Analyst and Supervisor

An STR is created in the Compliance Regulatory Reporting application as a result of taking *Generate RU STR* action from within OFSFCCM or manually creating a report from OFSCRR. When an STR is created in the Compliance Regulatory Reporting application through OFSFCCM, the report details are auto-populated with information from the alert or case which triggered the action to generate the STR. Users mapped to the role of Analyst can update the report in *Open* status and request the report details for approval.

The Supervisor can approve, rework, and cancel filing of reports once the Analyst user has requested for approval. Supervisors can also edit the report details and approve reports directly, if needed.

If the STR is approved by the Supervisor, the Compliance Regulatory Reporting application generates the STR in final XML format after all the necessary validations. The STR is then manually submitted to the Regulator and it is marked as *Submitted* in the Compliance Regulatory Reporting application.

If it is required to submit an updated report on top of already submitted report then we can create a copy of already existing report using Generate Revised report action.

An Analyst or Supervisor can generate revised reports when the report is in *Submitted* status. A new report is created with *Open* status. There is no change to the STR status of the older report. The new report retains all the details of the original report. and records the originating report as the Prior Report Number.

The Supervisor can cancel the submitted reports. The STR status changes to *Cancelled*.

If required, the Supervisor can send the reports for rework when the report is in *Request for Approval* status. The analyst must then rework and re-submit the report for approval. This process continues until the report is approved or cancelled.

The application allows authorized users to reopen cancelled reports. The STR status then changes to *Reopened*.

For the complete list of actions an Analyst, Auditor, and Supervisor can perform on various report statuses, refer to *Table* .

For more information on user roles, refer to *Table 2*.

An STR has a life cycle which begins with the *Open* status and ends when an Acknowledgement is received.

To view the report details, click the report name in the RR Search and List page.

If the report is already opened by another user, the following message is displayed: *This report is currently locked by another user. You will not be able to edit/take action on the report. Do you wish to open report details in read only mode?*

Table 3. Action that can be performed in various statuses

| Report Status | Possible Actions | Who can Perform | Report Status Changes To |
|------------------------|-------------------------|------------------------|--------------------------|
| Open | Request for Approval | Analyst | Requested for Approval |
| | Approve | Supervisor | Approved |
| | Cancel Filing | Analyst and Supervisor | Cancelled |
| Reopened | Request for Approval | Analyst | Requested for Approval |
| | Approve | Supervisor | Approved |

Creating an STR

You can create a new STR whenever you identify a suspicious transaction and want to report it to the Regulator. You can manually create a new report from within OFSCRR or through OFSFCCM.

This section covers the following topics:

- Creating STR from OFSFCCM
- Creating a New STR from OFSCRR

Creating STR from OFSFCCM

When a user with appropriate access permission performs the **Generate RU STR** action on an alert or a case from OFSFCCM, the data is passed to the OFSCRR through the web service and a new STR is created in the OFSCRR. This section displays the following topics:

- Creating STR on an Alert
- Creating STR on a Case

Creating STR on an Alert

To create an STR on an alert from OFSFCCM, follow these steps:

1. From OFSFCCM Home page, select **Alerts** from the **Monitoring** menu.

Note: You can also perform the **Generate RU STR** action from the Case Details page of a case.

Sending Acknowledgement to OFSFCCM from Compliance Regulatory Reporting

OFSRR sends a positive acknowledgment to OFSFCCM when all the mandatory information verification is completed successfully.

By default, the **ECM STATUS UPDATE FLAG** is set to **Y**. If the status is set to **Y**, then the OFSCRR application will send all the status updates to OFSFCCM. If the status is set to **N**, then the OFSCRR application will not send any status updates to the OFSFCCM.

The following information is sent as a part of the positive acknowledgment:

- Alert/Case ID (Alert/Case ID)
- Acknowledgment Code – 0 (Meaning successful)
- Report ID (System Generated)
- Report Status

If there are any errors, the Compliance Regulatory Reporting application sends a negative acknowledgment to OFSFCCM. The error may be due to the following reasons:

- User ID failure
- Unsuccessful mandatory information verification
- System/Application Error

The negative acknowledgment sent to OFSFCCM contains the following details:

- Alert/Case ID
- Acknowledgment Code

- 1 stands for Invalid User ID
- 2 stands for Mandatory Information Missing
- 3 stands for Format Failure
- 4 stands for System/Application Error
- Error Description

Note: If an alert or case fails to successfully complete the Generate RU STR action, then the failure is recorded in the alert or case audit history.

Creating a New STR from OFSCRR

When you identify a transaction of a suspicious behavior that is not reported in the OFSFCCM, and want to report the transaction to the regulator, you can manually create a new STR using the **Create New Report** option in OFS Compliance Regulatory Reporting.

Note: Users mapped to the role of Analyst and Supervisor can create a new regulatory report.

To create a new STR from OFSCRR, follow these steps:

1. From the Regulatory Reporting menu, hover over Russian STR and click **Create New Report**. The Create New Report page is displayed.

Figure 10. Create New Report

2. Enter the required information in the fields.

Note: Always specify values for fields marked as required. Required fields are identified by a red asterisk.

The following table explains the fields in the Create New Report section:

Table 6. Creating New Report

| Fields | Description |
|---------------|---|
| Report Name | Enter a name for the report being created. Note: This is a mandatory field. |
| Alert/Case ID | Enter the Alert/Case ID associated with the suspicious transaction. |
| Report Type | This field is auto-populated with the report type. Note: This field cannot be edited. |
| Attribute 1 | Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Jurisdiction. Note: This is a mandatory field. |
| Attribute 2 | Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Business Domain. |

Table 6. Creating New Report

| Fields | Description |
|--------------|---|
| Attribute 3 | Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Case Type. |
| Attribute 4 | Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Sub Type. |
| Attribute 5 | Classifies the attribute of a report being created. The attributes that are available in the drop-down list are based upon your firm's configuration. For example, Organization. |
| Created Date | This field is auto-populated with the current system date. Note: This field cannot be edited. |
| Created By | This field is auto-populated with the logged in user's name. Note: This field cannot be edited. |

3. Click **Save**. The following confirmation message is displayed: *Report created successfully. Click OK to view the report details or Cancel to create more reports.*
4. Click **OK**. The Report Details page is displayed.

A new STR is created and the due date is set as per the number of days configured by your administrator in the static data table. The status of the new STR is set to *Open*.

Note: The report details of the manually created STR are not sent to OFSFCCM.

Searching STRs

The Compliance Regulatory Reporting Search and List page enables you to filter the list of reports that you want to view and analyze. The Compliance Regulatory Reporting search bar supports three types of search namely, Views, Simple Search, and Advanced Search.

The Reports List displays the list of reports that meet the criteria specified on the Compliance Regulatory Reporting Search bar.

This section explains the following topics:

- Searching Reports Using Simple Search
- Searching Reports Using Advanced Search
- Searching Reports Using Pre-defined Views

Searching Reports Using Simple Search

This search is based on a limited set of search components and helps to retrieve the required reports details.

To search for reports using the simple search components, follow these steps:

1. From the Regulatory Reporting menu, hover over Russian STR and click **Search and List**. The Search and List page is displayed.

| Report # | Report Name | Type of Report | Alert/Case ID | Count of Reported Subjects | Count of Reported Accounts | Created Date | Created By | Due Date | Report Status | Jurisdiction | Regulatory Report | Zip |
|----------|---------------------|----------------|---------------|----------------------------|----------------------------|--------------|------------|------------|---------------|--------------|-------------------|-----|
| 101 | 1403132017194414 | New | 14 | 0 | 0 | 13-03-2017 | SUPERVISOR | -- | Cancelled | AMEA | | |

Figure 11. Searching Reports using Simple Search

Note: By default, the basic **Search** option is selected.

2. Enter the details in the relevant search fields to retrieve the list of reports. For detailed descriptions of search fields, refer *Table 7*.
3. Click **Go**. The relevant search list is displayed.

Note: If there is no match for the entered search criteria, the application displays the following message: *No Data Found*.

Searching Reports Using Advanced Search

The Advanced Search offers the same search fields as provided for a simple search with an additional set of fields. If you know any of the report details such as Report Name, Report Status, Alert/Case ID, FIA Reference Number, Prior Report Number, Jurisdiction, Approved By, Approved Date, Submitted By, Submitted Date, and so on, then you can filter the list of reports using the advanced search components.

To search for reports using advanced search components, follow these steps:

1. From the Regulatory Reporting menu, hover over Russian STR and click **Search and List**. The Search and List page is displayed.

| Report # | Report Name | Type of Report | Alert/Case ID | Count of Reported Subjects | Count of Reported Accounts | Created Date | Created By | Due Date | Report Status | Jurisdiction | Regulatory Report | Zip |
|----------|---------------------|----------------|---------------|----------------------------|----------------------------|--------------|------------|------------|---------------|--------------|-------------------|-----|

Figure 12. Advanced Search

2. Click **Advanced Search** on the **Search** tool bar

Note: The application supports right-click options on some columns within the List header that allow users to specify sorting as well as hide or display columns.

- **Ascending** - This option allows you to sort the selected column in ascending order.
- **Descending** - This option allows you to sort the selected column in descending order.
- **Clear sort** - This option allows you to clear the selected sort option.
- **Field Chooser** - This option allows you to hide or display columns within the current list as well as modify the width of the columns. Click **OK** on Field Chooser to save the selected settings for the current session or click **Save** will save the selected settings for future logins.
- **Group by tab** - This option allows you to group the reports and display them in different tabs as per the selected column.
- **Group By Tree** - This option allows you to group the reports and display them in tree format as per the selected column.

3. Enter the search components to filter the reports.

The following table provides the description of the search components that display in the Search bar:

Searching Reports Using Pre-defined Views

Views search helps you to quickly filter the reports based on the pre-defined search queries.

To search for reports using pre-defined views, follow these steps:

1. From the Regulatory Reporting menu, hover over Russian STR and click **Search and List**. The Search and List page is displayed.

Note: By default, the Regulatory Reporting Search and List page displays all the records.

2. Click **Views** from the Search bar.
3. Select any of the pre-defined views from the Views drop-down list. The List page refreshes to show results matching the View criteria.

The screenshot shows the Oracle Financial Services Regulatory Reporting interface. At the top, it says 'ORACLE Financial Services Regulatory Reporting' and 'SUPERVISOR | Monday, March 27, 2017'. Below that, there's a 'Regulatory Reporting' section with a breadcrumb 'Regulatory Reporting >> Russian STR >> Search and List'. A 'Views' dropdown menu is open, showing options: 'Open/ Reopened/Rework Reports Last Modified by Me', 'Reports Awaiting Approval', 'Reports Overdue', and 'Reports Submitted in Last 3 Months'. Below the dropdown is a search bar with 'Search' and 'Advanced Search' buttons. There are also buttons for 'Cancel Filing', 'Upload Acknowledgement', and 'Export to Excel'. The main part of the screenshot is a table with the following data:

| Report # | Report Name | Type of Report | Alert/Case ID | Count of Reported Subjects | Count of Reported Accounts | Created Date | Created By | Due Date | Report Status | Jurisdiction | Regulatory Report |

Figure 13. Searching Reports using Pre-defined Views

The following table explains the different types of pre-defined views available.

Pre-defined Views

| Views | Description |
|---|---|
| Open/ Reopened/Rework - Reports Last Modified by Me | Select Open/ Reopened - Reports Last Modified by Me from the drop-down list to display the list of reports in <i>Open</i> or <i>Reopened</i> , or <i>Rework</i> status for which the logged in user is the last modifier. Note: This option is the default view for an Analyst user. |
| Reports Awaiting Approval | Select Reports Awaiting Approval from the drop-down list to display the list of reports in <i>Requested for Approval</i> status. Note: This option is the default view for a Supervisor user. |
| Reports Overdue | Select Reports Overdue from the drop-down list to display the list of reports that have exceeded their due dates. When an STR is past its due date or when the due date is same as the system date, the STRs in the reports list are highlighted in Red color. |

Pre-defined Views

| Views | Description |
|------------------------------------|---|
| Reports Submitted in Last 3 Months | Select Reports Submitted in Last 3 Months from the drop-down list to display the list of reports that were submitted in the last three months. Note: This option is the default view for a user logged in as a Reviewer. |
| All Views saved by user | Select any of the views that you have created and saved using Save as View to display the reports as per the view selected. For more information, refer to Saving Views. |

Regulatory Reports List

The *RR List* grid is displayed as per the search criteria in the RR search page.

This displays the following columns:

- Report Number
- Report Name
- Type of Report
- Alert/Case ID
- Count of Reported Subjects
- Count of Reported Accounts
- Created Date
- Created By
- Due Date
- Report Status

- Acknowledgement ID/ Tracking ID

Note:

- Count of Reported Subjects displays the total number of subjects reported in the STR.
- Count of Reported Accounts displays the total number of accounts involved in the suspicious activity reported. It will have both source and destination accounts.

Saving Views

The Save as View action allows you to save the search criteria as a view. The saved views will be available in the **Views** drop-down list.

To save a view, follow these steps:

1. From the Regulatory Reporting menu, hover over Russian STR and click **Search and List**. The Search and List page is displayed.
2. Click **Advanced Search**. The Advanced Search page is displayed.
3. Enter the search criteria you want to save as view.
4. Click **Save as View**. The *Save as View* window is displayed.

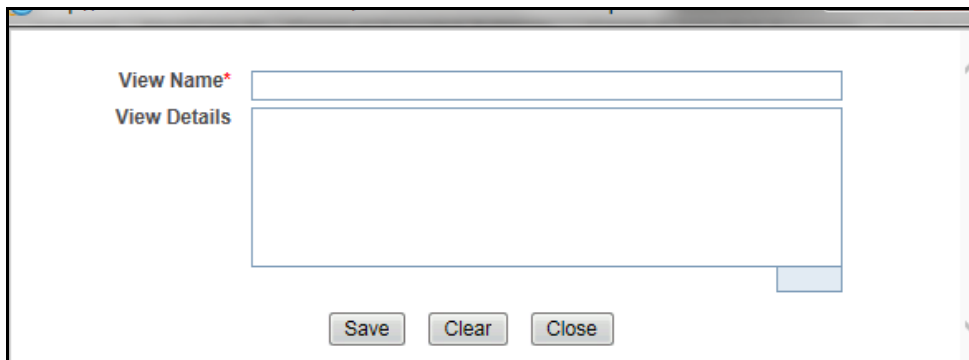

The image shows a screenshot of a web application window titled "Save as View". The window contains a form with two main sections. The first section is labeled "View Name*" and has a single-line text input field. The second section is labeled "View Details" and has a larger, multi-line text area. Below the text area, there is a small blue square icon. At the bottom of the window, there are three buttons: "Save", "Clear", and "Close".

Figure 14. Save As View Window

5. Enter the view name and view details. The View details box in the *Save as View* window allows a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in this box, the following message is displayed: *Number of characters exceeded*.
6. Click **Save**. The following message is displayed: *Add Operation Successful*.
7. Click **OK**. The view is saved and is displayed in the **Views** drop-down list.

The saved view is available only to the user creating the view and will not be available to any other users.

Submitting an STR for Approval

This process involves the following steps:

- Entering Report Details
- Taking Action on Reports

Entering Report Details

The Report Details page allows users mapped to the role of Analyst and Supervisor to enter or update report information depending upon the report status. For more information on various statuses in which an Analyst, Auditor, and Supervisor user can edit the report details, refer to *Table 4*.

Click the report name in the RR Search and List page to navigate to the Report Details page.

The Report Details page allows you to manage following sections:

- Report Context
- Managing Reporting Entity
- Managing Report Information
- Managing Activity Description
- Managing Documents
- Viewing Audit

Report Context

The Report Context section in the Regulatory Reporting (RR) Details page displays information about the report and is non-editable. It contains minimize and maximize buttons that allow you to expand and collapse the details in the Report Context. By default, the report context container is minimized.

3. Enter the comments in the *Approve* window.

Note: The comments box in the *Approve* window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: *Number of characters exceeded.*

If you click **Save**, without entering the comments in the *Approve* window, the following message is displayed: *Mandatory fields are not entered.*

4. Click **Save**. The following message is displayed: *Update Operation Successful.*

Note: The naming convention for final STR is in the format STR_Alert/Case ID_Approved Date (DD-MM-YYYY_HH24-MM-SS).doc, if the report is created from OFSFCCM. You can rename the final STR while saving.

Note: When the report is created manually, the naming convention for final STR is in the format STR_Manual_Approved Date (DD-MM-YYYY_HH24-MM-SS).doc.

5. Click **OK**. The Report Details page is displayed and the status of the report changes to *Approved*.

Note: Once the report is approved, the Compliance Regulatory Reporting application generates the final STR containing the required information that must be submitted to the regulatory authority. The Actions grid in the **Audit** tab tracks both the actions and the comments entered while performing the **Approve** action.

Reworking on Reports

A Supervisor can send reports for rework if there is incomplete or inaccurate information in the report, or for additional investigation. The Report Details page allows a Supervisor to take Rework action on reports.

If a report is sent for rework, the Analyst must rework on the report and submit again for approval. The process continues until the report is approved or cancelled.

To send a report for rework, follow these steps:

1. Navigate to the Report Details page.
2. Click **Rework**. The *Rework* window is displayed.

3. Enter the comments in the *Rework* window.

Note: The comments box in the *Rework* window allows entering a maximum of 255 characters. As you begin entering the comments, the word count displayed below the comments box keeps decreasing. If you try to enter more than 255 characters in the Comments box, the following message is displayed: *Number of characters exceeded*.

If you click **Save**, without entering the comments in the *Rework* window, the following message is displayed: *Mandatory fields are not entered*.

4. Click **Save**. The following message is displayed: *Update Operation Successful*.
5. Click **OK**. The Report Details page is displayed and the status of the STR changes to *Rework*.

Note: The Actions section in the **Audit** tab tracks both the actions and the comments entered while performing the **Rework** action.

Cancel Filing of Reports

If the users determine that a report should not be filed, then they can cancel it.

The Report Details page allows authorized users to cancel the reports from being filed. For more information on users who can take cancel filing action, refer to *Table 2*.

Once the report is cancelled, you cannot edit the report details and the report changes into **View Only** mode.

Note: A cancelled report can be reopened by authorized users.

To cancel the filing of a report, follow these steps:

1. Navigate to the Report Details page.
2. Click **Cancel Filing**. The *Cancel Filing* window is displayed.

Submitting Reports

For tracking and reporting purposes, the application allows you to mark the reports that are filed with the regulatory authorities as Submitted once the report has been sent to the regulatory authorities, or whenever is defined as appropriate per your institution's business practices.

Authorized users can mark the reports submitted to the regulatory authorities as Submitted. This action can only be performed when the report is in *Approved* status.

If you try to submit submitted action on reports that are not in *Approved* status, the application displays the following message: Submitted action can only be taken on Approved reports.

The Report Details page and RR Search and List page allows the Supervisor to submit approved reports.

To submit a report from the Report Details page, follow these steps:

1. Navigate to the Report Details page of a report in *Approved* status.

2. Click **Submit**. The *Submit Reports* Window is displayed.

Generating Revised Reports

The Report Details page allows the authorized users to generate revised reports when the report is in *Submitted* status. When the user generates a revised report, a new report is created with *Open* status. There is no change to the STR status. The new report retains all the details of the original report and records the originating report as the Prior Report Number. These new reports will receive a default due date as associated with the configuration for newly created reports generated through action from an alert or case.

To generate revised reports, follow these steps:

1. Navigate to the Report Details page of a report in *Submitted* status.
2. Click **Generate Revised Reports**. The *Generate Revised Reports* window is displayed.

The screenshot shows a dialog box titled "Action Name Generate Revised Report". It has three main input fields: "Report Type*" with a dropdown menu showing "Corrected", "Comments*" with a large text area, and three buttons at the bottom: "Save", "Clear", and "Close".

5. Click **OK**. The Report Details page is displayed and the status of the report changes to *Open*.

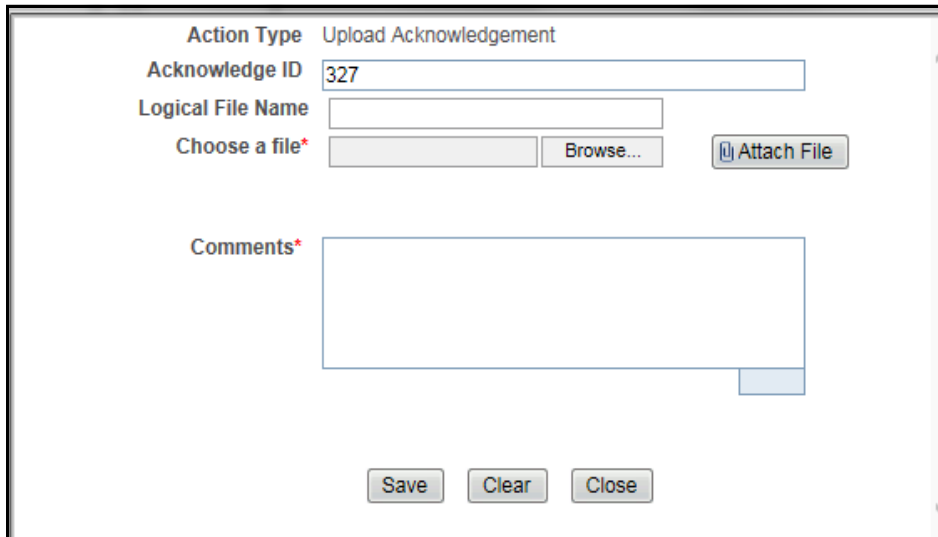

Note: The Actions section in the **Audit** tab tracks both the actions and the comments entered while performing the **Generate Revised Report** action.

Uploading Acknowledgement

Once a report is submitted, you receive an acknowledgement. You can upload the Acknowledgement into the application and complete the process to generate the final report.

To upload Acknowledgement, follow these steps:

1. From the Regulatory Reporting menu, hover over Russian STR and click **Search and List**. The Search and List page is displayed.
2. Select a Report which is in the *Submitted* status. Click **Upload Acknowledgement**. The Upload Acknowledgement window is displayed.

The screenshot shows a web-based form titled "Upload Acknowledgement". The form includes the following elements:

- Action Type:** Upload Acknowledgement
- Acknowledge ID:** 327
- Logical File Name:** An empty text input field.
- Choose a file*:** A button labeled "Browse..." next to a greyed-out file selection area, and an "Attach File" button with a paperclip icon.
- Comments*:** A large, empty text area for entering comments.
- Buttons:** "Save", "Clear", and "Close" buttons are located at the bottom of the form.
