1 About This Guide

The *Oracle Financial Services Compliance Regulatory Reporting goAML Suspicious Transaction Reporting (OFS CRR goAML STR) User Guide* provides step-by-step instructions to use the *OFS CRR goAML STR* application.

1.1 Who Should Use This Guide

The *OFS CRR goAML STR User Guide* is designed for use by various *OFS CRR goAML STR* users. The roles and responsibilities of the *OFS CRR goAML STR* application, include the following:

- **Analyst:** This user can access the *OFS CRR goAML STR* regulatory reports, create new reports, edit or view report details, and add comments to the report. Users in this role can also request for approval, cancel the filing of reports in the *Open* and *Reopen* statuses, reopen canceled reports, and view or save the final report.
- **Supervisor:** This user can access the *OFS CRR goAML STR* regulatory reports, create new reports, edit and view report details, and add comments to the report. Users in this role can also take actions on reports such as approve, rework, and cancel the filing of reports. This user can also submit reports.
- **Auditor:** This user can only view and add comments to reports.
- **RR Admin:** This user handles various configurations required to support the reporting workflow.

1.2 How this Guide is Organized

The *OFS CRR goAML STR User Guide* includes the following chapters:

- *Chapter 2, About goAML STR*, provides an overview of the *OFS CRR goAML STR* application and its workflow.
- *Chapter 3, Getting Started*, explains the steps to log in to the *OFS CRR goAML STR* application and provides a brief overview of users and their roles in the application.
- *Chapter 4, Opening a Report*, describes various search options to open the existing reports in the application.
- *Chapter 5, Creating a Report*, explains how to create a new report manually.
- *Chapter 6, Analyzing a Report*, describes each tab (business and operational) pertaining to the selected report. This information aids you to take action on the selected report.
- *Chapter 7, Acting on a Report*, describes types of actions and steps to take these actions on the selected report.

1.3 Conventions Used in this Guide

2 About goAML STR

The United Nations Office on Drugs and Crime (UNODC) standard software system is available for Financial Intelligence Units to counter Terrorist Financing and Money Laundering.

In today's global economy, terrorist financing and money-laundering have assumed heightened importance. Money-laundering and the financing of terrorism are global problems that threaten the security and stability of financial institutions and also lead to undermining economic prosperity. A lot is being done in order to combat money laundering at the global level.

goAML is a UNODC response to combat money-laundering. It is an intelligence analysis system intended to be used by the FIU (Financial Intelligence Unit). FIUs have a big role to play as they have access to financially related information that provides a base for financial investigations. An FIU is responsible for receiving, analyzing and processing reports required from financial institutions or persons referred to in national anti-money-laundering legislation.

Financial Intelligence Units play a leading role in any anti-money laundering regime as they are generally responsible for receiving, processing, and analyzing reports made by financial institutions or other entities according to the requirements of domestic anti-money laundering laws and regulations. Such reports and other information gathered by FIUs often provide the basis for investigations into money laundering, terrorist financing and other serious offenses. This template allows the banks to generate the final Suspicious Transaction XML Report that are submitted to their regulator via the goAML application..

2.1 CRR goAML STR Application

The OFS CRR goAML STR application is used to analyze the reports and take appropriate action on the report for a resolution.

Reports are generated in the OFS CRR goAML STR application as result of the *Generate STR* action taken on a case or cases in the Oracle Financial Services Enterprise Case Management (OFS ECM) application. The business data (transaction, account, and entity details) and operational data (narratives, documents, and comments) related to the case which led to the creation of a report are available in the OFS CRR goAML STR application.

Using this information, authorized users analyze reports and report them to the FIU (Financial Intelligence Unit) or close them by providing appropriate details.

2.1.1 Report Life Cycle

The following image depicts the life cycle of a report.

Figure 1: CRR Application Workflow

- **Generate a CRR Report:** After analyzing a suspicious case, if it is required to report to the regulator, you can take an action create a report. For more information, see the *Acting on Cases* chapter in the *OFS ECM User Guide*.
- **Create a Report:** A report is created in OFS ECM and the related information is passed to the OFS CRR application using web service. The newly created report is available in the *OFS CRR goAML STR* application and it is assigned to a specific user with a due date to take appropriate action. These parameters are configurable.

When you identify a report of suspicious behavior that is not reported through the OFS ECM application but want to report it to the regulator, you can manually create a new report using the *Create New Report* option in the *OFS CRR goAML STR* application. For more information, see *Manually Creating a Report from OFS CRR goAML STR*.

- **Search and Open a Report:** To analyze the existing reports, you should open reports using basic, advanced, or views search criteria. For more information, see *Opening a Report*.
- **Analyze a Report:** To take any kind of action on a selected report, you must thoroughly analyze the details. You should verify the details of the report such as involved accounts, transactions, reporting entity details, related documents, narratives, and audit history. For more information, see *Analyzing a Report*.
- **Act on a Report:** Post analyses, you can take action on the selected report based on your privileges. For more information, see *Acting on a Report*.

2.1.2 User Workflow

This section explains the workflow of *OFS CRR goAML STR* for Analyst and Supervisor role.

When a report is created in the *OFS CRR goAML STR* application through the OFS ECM application, the report details are auto-populated with information from the case, which triggered the action to generate the report. Users mapped to the role of Analyst can update a report that is in *Open* status and request the report's details for approval. During the edit and review process, the report is available to be viewed as a draft report.

A Supervisor can approve, rework, or cancel the filing of reports after the Analyst requests for approval. Supervisors can also edit report details and approve reports directly, if required.

If the report is approved by the Supervisor, the Regulatory Reporting application generates the report in the final XML format after all the necessary validations. The report is then manually submitted to the Regulator. The submission to the Regulator occurs outside the *OFS CRR goAML STR* application. The report status can then be marked as *Submitted* in the *OFS CRR goAML STR* application.

If required, the Supervisor can send the reports for rework when the report is in *Request for Approval* status. The Analyst must then rework and re-submit the report for approval. This process continues until the report is approved or canceled.

Authorized users can reopen the canceled reports. The report status then changes to *Reopened*.

For the complete list of actions the Analyst, Auditor, or Supervisor can perform on various report statuses, see [Table 2](#). For more information on user roles, see [Table 4](#).

A Report has a life cycle that begins with the *Open* status and ends when it is in the *Submitted* status.

If the report is already opened by another user, then that report is locked and can only be viewed

[Table 2](#) List the action that can be performed in various statuses by users.

3.2 Accessing the OFS CRR goAML STR Application

The *OFS CRR goAML STR* application is qualified to run on Microsoft Internet Explorer (IE) or Google Chrome web browsers.

Your System Administrator provides the intranet address Uniform Resource Locator (URL), User ID, and Password to access the application. After your first login, you are prompted to change your password.

To access the *OFS CRR goAML STR* application, follow these steps:

1. Enter the URL in the web browser using the following format:
`<Protocol>://<HostName>:<Port_Number >/crrgoamlstr/login`
2. The *OFS Analytical Applications* login page is displayed.

3. Select the required language.
4. Enter your *User ID* and *Password* and click **Login**. The OFS Analytical Applications page is displayed.
5. Click the **Financial Compliance Regulatory Reporting Application**. The *Financial Compliance Regulatory Reporting Application* landing page is displayed.
6. From the **Navigation List** LHS menu, select **Compliance Regulatory Reporting**. The Compliance Regulatory Reporting menu is displayed.
7. Click **goAML STR**. By default, the *Search and List* page is displayed.
Or, hover over **goAML STR** to open *Create Report* or *File Report* page.

Based on the user roles and access permission, the *Compliance Regulatory Reporting* application displays the following menu options:

- **Search and List:** Use this page to search and open required reports.
- **Create New Report:** Use this page to create reports manually.
- **File Reports:** Use this page to generate an E-File and file regulatory reports.

- **Administration:** Use this menu to view the following sub-menus:
 - **User Administration:** Use this sub-menu to map and maintain the security attributes for each user role.
 - **Web Service Configuration:** Use this sub-menu to reset the Web service password.

For more information on Administration and Web service guide, see [OHC](#).

4 Opening a Report

Use the *Search and List* page to filter the list of reports that you want to open, view, analyze, and/or take action.

The types of search supported are: Views, Basic Search, and Advanced Search. The Reports List section displays the list of reports you have specified in the search parameters. Use the Search and List page to perform the following search activities and view the results:

- **Basic Search:** This search is based on a limited set of search fields, such as Report Number, Report Status, and Report Name. This is the default search option.
- **Advanced Search:** This search is based on the ability to specify an additional set of fields to narrow down your search results.
- **Views:** This search helps you to quickly filter the reports based on pre-defined search queries. Select the search criteria from the **Views** option and filter the list of reports.
- **Saving Views:** Use this option to save your search criteria as a *View*. The saved views are available in the **Views** drop-down list.
- **Regulatory Reports List:** This is the list of reports that matches the search criteria provided.

4.1 Basic Search

This search is based on a limited set of search criteria and helps retrieve the required reports for your analysis. This search type is very useful if you know the report details such as report name, report number and so on. Only those reports that match the criteria you specify are displayed.

To search for reports using basic search criteria, follow these steps:

1. Go to the *Search and List page*. By default, the *Basic Search* option is displayed.

Figure 2: Basic Search

The screenshot shows the 'Basic Search' interface. At the top, there are navigation options: 'Search' (selected), 'Views', 'Advanced Search', 'Reset', and 'Go'. Below this, there are several search criteria fields arranged in a grid:

- Report Number: [Text Input]
- Report Name: [Text Input]
- Report Status: [Dropdown Menu]
- Type of Report: [Dropdown Menu]
- Reported Subject Name(s): [Text Input]
- Account Number(s): [Text Input]
- Created By: [Dropdown Menu]
- Created Date >=: [Text Input] [Calendar Icon] [X Icon]
- Created Date <=: [Text Input] [Calendar Icon] [X Icon]
- Jurisdiction: [Dropdown Menu]
- Due Date >=: [Text Input] [Calendar Icon] [X Icon]
- Due Date <=: [Text Input] [Calendar Icon] [X Icon]

2. Enter the required fields as described in [Table 5](#).
3. Click **Search**. Report(s) matching your search criteria are displayed.

4.2 Advanced Search

The Advanced Search offers an additional set of fields to the search fields provided with the Basic Search. This option helps you narrow down your search results. You can use combinations of these search criteria to quickly find the reports you are looking for.

To search for reports using advanced search criteria, follow these steps:

1. On the *Search and List* page, click **Advanced Search**. The *Advanced Search* window is displayed.

2. Enter the required fields as described in the following table.

Table 5 explains the field details in the Advanced search. Fields marked with *are mandatory.

Table 5: Advanced Search

Fields	Description
Report Number	Enter one or more report numbers you want to view. For multiple report numbers, separate the report numbers with a comma. Ensure that you do not enter a space after the comma. Report numbers are not case-sensitive. This overrides all other filter criteria. For example, 660,671. NOTE: You can enter a maximum of 50 characters in this field.
Report Name	Enter the report name you want to view. This field supports a wildcard search. You can use '%' and '_' as wildcard indicators. NOTE: You can enter a maximum of 50 characters in this field.
Report Status	Select one or more statuses from the following options: <ul style="list-style-type: none"> • Select All • Acknowledged ('Not applicable for 'no batch filling') • Approved • Cancelled • E- File Generated (Not applicable for 'no batch filling') • Open • Rejected from E- File (Not applicable for 'no batch filling') • Reopened • Requested for Approval • Rework • Submitted

Table 5: Advanced Search

Fields	Description
Reported Subject Name(s)	Enter the customer(s) name reported as subjects in the report. This field supports a wildcard search. You can use the '%' and '_' as wildcard indicators.
Account Number(s)	Enter account (s) involved in the Suspicious Activity Report. You can enter multiple account numbers by using a comma to separate the entries.
Created By	Select the user who has created the report. You can enter multiple names by using a comma to separate the entries.
Created Date >=	Select the created date to view reports having a created date greater than or equal to the specified date. Using this criterion, you can view the reports created during the particular date range. For example, reports created on or after December 26, 2019 You can either perform a range search using 'Created Date >=' and 'Created Date <=' or use them independently.
Created Date <=	Select the created date from the calendar to view reports having a created date lesser than or equal to the specified date. Using this criterion, you can view the reports created during the particular date range. For example, reports created on or before December 26, 2019.
Last Modified By	Select the user who last modified the report. Use this criterion to view all the reports modified by the particular user. For example, Analyst1, Supervisor2, and so on.
Last Modified Date >=	Select the last modified date to view reports having a last modified date greater than or equal to the specified date. Using this criterion, you can view the reports modified during the particular date range. For example, reports modified on or after July 27, 2019 You can either perform a range search using 'Last Modified Date >=' and 'Last Modified Date <=' or use them independently.
Last Modified Date <=	Select the Last Modified Date from the calendar to view reports having a last modified date lesser than or equal to the specified date. Using this criterion, you can view the reports modified during the particular date range. For example, reports modified on or before July 27, 2019.
Approved By	Select the name of the approver to view reports approved by the selected user. For example, Supervisor1, Supervisor2, and so on.
Approved Date >=	Select the approved date to view reports having an approved date greater than or equal to the specified date. Using this criterion, you can view the reports approved during the particular date range. For example, reports approved on or after December 26, 2019.
Approved Date <=	Select the approved date from the calendar to view reports having an approved date lesser than or equal to the specified date. Using this criterion, you can view the reports approved during the particular date range. For example, reports approved on or before December 26, 2019.

Table 5: Advanced Search

Fields	Description
Submitted By	Select the user(s) who submitted the report. For example, Analyst1, Analyst2, and so on.
Submitted Date >=	Select the submitted date to view reports having a submitted date greater than or equal to the specified date. For example, reports submitted on or after July 18, 2019.
Submitted Date <=	Select the submitted date to view reports having a submitted date lesser than or equal to the specified date. For example, reports submitted on or before July 18, 2019.
Case ID	Enter the case ID to view reports associated with the specific case ID. For multiple case IDs, separate them with a comma. Ensure that you do not enter a space after the comma. This overrides all other filter criteria. For example, CA660,ca671 NOTE: This search is not case-sensitive. You can enter a maximum of 255 characters in this field. Case ID is the identifier that has triggered the creation of a report in the OFS CRR application.
Acknowledgment ID/ Tracking ID	Enter the acknowledgment ID or tracking ID to view the report with the corresponding acknowledgment ID received as acknowledgment when the report was submitted to the regulator.
Prior Report Number	Enter the prior report number to view the original report stored in the revised report.
Jurisdiction	Select the jurisdiction to view reports mapped to the selected jurisdiction. Jurisdictions are defined by your institution. Every report is associated with a jurisdiction. When a report is created from a case, the report inherits the jurisdiction that was associated with that case. Each user has access to a set of jurisdictions. Every report is associated with a single jurisdiction. A user has access to any report where the user's jurisdictions intersect with the report's jurisdiction.
Due Date>=	Select the due date to view reports having a due date greater than or equal to the specified date. Using this criterion, you can view the reports that have a due date during the particular date range. For example, reports having a due date on or after December 26, 2019.
Due Date<=	Select the due date from the calendar to view reports having a due date lesser than or equal to the specified date. Using this criterion, you can view the reports that have a due date during the particular date range. For example, reports having a due date on or before December 26, 2019.

- Click **Go**. The reports matching your search criteria are displayed on the *Search and List* page. To perform a different search, click the **Reset** button and enter your search criteria again.

4.3 Views

Views search helps you quickly filter the reports based on pre-defined search queries. You can save your search criteria as *Views*. For more information on pre-defining the search as views, see [Saving Views](#).

To search reports using Views option, follow these steps:

1. On the *Search and List* page, click **Views** to view the available options.

Figure 4: Pre-defined views

2. Select the out of box pre-defined views as described in [Table 6](#). The Search and List page refreshes to show the results matching the *View* search criteria.

You can also create your pre-defined views. For more information, see [Saving Views](#)

[Table 6](#) explains the fields details in the pre-defined view.

Table 6: Pre-defined views

Views	Description
Open/ Reopened/ Rework - Reports Last Modified by Me	Select this option to view the list of reports in the <i>Open, Reopened, or Rework</i> status which you have modified in the last session. NOTE: This is the default view for an Analyst.
Reports Awaiting Approval	Select this option to view the list of reports in <i>Requested for Approval</i> status. NOTE: This is the default view for a Supervisor.
Reports Overdue	Select this option to view the list of reports that have exceeded their due dates. When a report has passed its due date or when the due date is the same as the system date, the reports in the list are highlighted in <i>Red</i> .
Reports Submitted in Last 3 Months	Select this option to view the list of reports that were submitted in the last three months.
All Views saved by the user	Select <i>Views</i> that you have created and saved using the Save as View option. For more information, see Saving Views .

4.4 Saving Views

Use *Save as View* option to save your search criteria as a *View*. The saved views are available in the *Views* drop-down list. For more information, see [Views](#).

For example, if you regularly search for reports approved by Supervisor1 and reports approved on or before December 2019, you can pre-define a search as *SupDecember* under *Views*. When you login to the application next time, rather than re-entering search criteria, you select the required pre-defined view as *SupDecember* and filter the reports.

To save your search criteria as a view, follow these steps:

1. On the *Search and List* page, click the **Advanced Search**. The *Advanced Search* window is displayed.
2. Enter the search criteria in the search fields. For more information on the search criteria, see [Table 5](#).

3. Click **Save as View**. The *Save as View* window is displayed.
4. Enter the view name and view details. The field marked with * an asterisk is mandatory.

NOTE The View Details field allows a maximum of 255 characters.

5. Click **Save** to add a new pre-defined view.
6. Click **OK**. The view is saved and displayed in the *Views* drop-down list.

NOTE The saved view is available only to the user who has created it, not to other users.

4.5 Regulatory Reports List

Use the *Regulatory Reports List* section to view the list of reports based on your search criteria. Click the required report number to view additional information of reports that you can use to analyze or take actions. By default, all reports are displayed if you do not use any search criteria to filter the list.

NOTE If the report is already opened by another user, then that report is locked. You can only view that report.

Use the *Regulatory Reports* list section to perform the following tasks:

- Select the required report(s) to take actions such as Set Due Date, Cancel Filing, Export to Excel, and so on.
- Click the report number to view details pertaining to the report in the *Report Details* page.
- Sort list of values in the column by using *Sort Ascending*, *Sort Descending*, and *Clear the sort* options. Right-click on the column and select the required sort option to view the list.
- View column headers (Report Name, Created Date, Due date, and so on) of your choice by using the *Field Chooser* option. Right-click on the column and select the required columns header names and the size of the column from the *Field Chooser* list to view.
- Navigate pages using the *Pagination* option. Enter the page number or use arrows to navigate to and fro.
- In the *Due Date* column, dates in green will expire in few days. Dates in yellow indicate that due date is nearing, and dates in red indicate that the due date has expired.

5 Creating a Report

When a report is created in the *OFS CRR goAML STR* application through the OFS ECM application, the report details are auto-populated with information from the case, which triggered the action to generate the report. The newly created report is available in the *OFS CRR goAML STR* application and it is assigned to a specific user with a due date to take appropriate action. These parameters are configurable.

When you identify a report of suspicious behavior that is not reported through the OFS ECM application but want to report it to the regulator, you can manually create a new report using the *Create New Report* option in the *OFS CRR goAML STR* application. For more information, see [Manually Creating a Report from OFS CRR goAML STR](#).

5.1 Acknowledgment to OFS ECM

When the *OFS CRR goAML STR* application receives a report from the OFS ECM application, it sends an acknowledgment to the OFS ECM application when all the mandatory information is verified.

To send the acknowledgment, the *OFS CRR goAML STR* Administrator must set the status to Y. If the status is set to N, the *OFS CRR goAML STR* application does not send any status update to the OFS ECM application. By default, the ECM STATUS UPDATE FLAG is set to Y. For more information on configuration, see the [OFS ECM Administration Guide](#).

The following information is sent as a part of the acknowledgment:

- Case ID
- Acknowledgment Code – 0 (Meaning successful)
- Report ID (System Generated)
- Report Status

If there is an error, the *OFS CRR goAML STR* application sends a negative acknowledgment to the OFS ECM application. The error may be due to the following reasons:

- User ID failure
- Unsuccessful mandatory information verification
- System/Application Error

The acknowledgment sent to the OFS ECM application contains the following details:

- Case ID
- Acknowledgment Code:
 - 1 for Invalid User ID
 - 2 for Mandatory Information Missing
 - 3 for Format Failure
 - 4 for System/Application Error
- Error Description

NOTE If a case fails to complete the *Generate Report* action successfully, the failure is recorded in the *Case Audit History*.

5.2 Manually Creating a Report from OFS CRR goAML STR

When you identify a report of suspicious behavior that is not reported through the OFS ECM application but want to report it to the regulator, you can manually create a new report using the *Create New Report* option in the *OFS CRR goAML STR* application.

Only Analyst and Supervisor users can create a new regulatory report.

To create a new report, follow these steps:

1. On the *Search and List* page, click **Create New Report**. The *Create New Report* window is displayed.

Figure 6: Create New Report

2. Enter the required fields as described in the following table.

Table 7 explains fields available in the Create New Report page. Fields marked with * an asterisk are mandatory.

Table 7: Creating a New Report

6.7 Narrative

Use the *Narrative* option to summarize suspicious activity and mention the action taken by the reporting entity.

To use the *Narrative* option, follow these steps:

1. On the *Reports Details* page, click the **Narrative** tab. The Narrative page is displayed.

Figure 21: Narrative

2. Enter the following information in the respective fields. Fields marked with * are mandatory.
 - Description of Suspicious Activity: Enter the following information:
 - Background/profile/occupation of the customer and other related individuals/entities.
 - When did the relationship with the customer begin?
 - How was suspicion detected?
 - What information was linked or collected during the review process?
 - What explanation was provided by the subject(s) or other persons (without tipping off)?
 - Summary of suspicion of whether the suspicious activity is an isolated incident or relates to another transaction?
 - Who benefited, financially or otherwise, from the transaction(s), how much, and how (if known)?
 - What is the volume of transactions in reported accounts in the financial year, and what is the volume of cash transactions? Whether any STR filed for the customer earlier?
 - Any additional information that might assist law enforcement authorities.
 - Action Taken by Reporting Entity: Enter the following details.
 - Details about the investigation being conducted covering the name of the agency, contact person, and contact details.
 - The source of the investigation could be both internal to the reporting entity or any investigation by the law enforcement agency.
 - Whether any Law enforcement agency is informed about the incident reported in the STR.
 - Contact details of the person in the law enforcement agency which is conducting the investigation.
3. Click **Save** to update the narration of suspicious activity.

The *Audit* section tracks both actions and comments entered while performing the *Narrative* action.

6.8 Documents

While filing the report with regulatory authorities, you can also send additional documents. This additional information aids in taking the correct decision on the report. When you attach a document to a report, the status of that report does not change. However, the attachment is added to the report’s history.

An Analyst or a Supervisor can attach, modify, or delete documents in all statuses except when the report is in *View Only* mode. For more information on user roles, see [Table 4](#).

To modify or attach a document, follow these steps:

1. On the *Reports Details* page, click the **Document** tab and click **Add** to attach a new document to the selected report. The Add Document window is displayed.

Figure 22: Documents

2. Enter the information in the Documents fields.
3. [Table 25](#) describes fields available in the Documents page.

Table 26: Actions Grid Field Description

Fields	Description
Date	The date on which the action has occurred.
Action By	The name of the user who acted on this.
Action	A short description of the action.
Comments	The comments entered while performing an action.

7 Acting on a Report

After reports are analyzed using the Reports Details page, an authorized user can take the following actions on reports:

- **Requesting the Report for Approval:** As an Analyst, you can request the supervisor to approve the report for filing when it is in the Open, Reopened, Requested for Approval, or Rework status. Click **Request Report for Approval** to take this action. The status of the report changes to Requested for Approval.
- **Approving Reports:** As a Supervisor, you can assess the reports that are requested for your approval. You can approve reports that are in Open, Reopened, Requested for Approval, or Rework status. Click **Approve Report** to take this action. If you approve the request, the status of the report changes to Approved.
- **Reworking Reports:** As a Supervisor, you can send reports for rework if they are incomplete or need more investigation. You can order reports for rework when they are in the Open, Reopened, Requested for Approval, or Rework status. Click **Rework Report** to take this action. The status of the report changes to Rework.
- **Canceling Report Filing:** As an Analyst or a Supervisor, you can decide to cancel the filing of the report. You can cancel the reports from filing when they are in the Open, Reopened, Requested for Approval, or Approved status. Click **Cancel Filing** to take this action. The status of the report changes to Canceled.
- **Reopening Reports:** If a report is canceled for any reason and needs to be evaluated again, an Analyst or a Supervisor can reopen a report. You can reopen a report only when it is in the Canceled status. Click **Reopen a Report** to take this action. The status of the report changes to Reopen.
- **Submitting the Reports:** After the reports are validated, they must be submitted. As an Analyst or a Supervisor, click **Submit** button to submit the report.
- **Adding Comments:** You can add comments to a report in any status. By adding comments, the status of the report does not change.
- **Setting a Due Date:** You can set due date to a report in any status. By setting dates, the status of the report doesn't change.

7.1 Requesting the Report for Approval

An Analyst requests the Supervisor to approve the report for filing when it is in the *Open*, *Reopened*, *Requested for Approval*, or *Rework* status. A Supervisor evaluates and then approves the report, sends the report for rework, or cancels the filing of the report.

To request a report for approval, an analyst must follow these steps:

1. On the *Reports Details* page, click **Request for Approval**. The *Request for Approval* window is displayed.
2. Enter the comments in the *Request for Approval* window.

NOTE In the comments box in the Request for Approval window, you can enter a maximum of 255 characters.

3. Click **Save** to confirm the action. The *Report Details* page is displayed and the status of the report changes to *Requested for Approval*. The Audit section tracks both actions and comments entered while performing the Request for Approval action.

7.2 Approving Reports

A Supervisor can approve a report when it is in the *Open*, *Reopened*, *Requested for Approval*, or *Rework* status.

To approve a report, follow these steps:

1. On the *Reports Details* page, click **Approve**. The *Approve* window is displayed.
2. Enter the Comments in the *Approve* window.

NOTE In the comments box in the Request for Approval window, you can enter a maximum of 255 characters.

3. Click **Save**. A confirmation message is displayed.

NOTE The naming convention for the final STR is in the format STR_Case ID_Approved Date (DD-MM-YYYY_HH24-MM-SS).doc. If the report is created from the OFS ECM, you can rename the final STR while saving.

When the report is created manually, the naming convention for final STR is in the format STR_Manual_Approved Date (DD-MM-YYYY_HH24-MM-SS).doc.

4. Click **OK**. The *Report Details* page is displayed and the status of the report changes to *Approved*.

After the report is approved, the application generates the final report containing the required information that must be submitted to the regulatory authority. The Audit section tracks both actions and the comments entered while performing the *Approve* action.

7.3 Reworking Reports

A Supervisor can send a report for rework, if it is incomplete, inaccurate, or needs additional investigation. If a report is sent for rework, an Analyst must rework the report and submit it again for the approval. This process continues until the report is approved or canceled.

To send a report for rework, follow these steps:

1. On the *Reports Details* page, click **Rework**. The *Rework* window is displayed.
2. Enter the Comments in the *Rework* window.

NOTE In the comments box in the Request for Approval window, you can enter a maximum of 255 characters.

3. Click **Save**. A confirmation message is displayed.
4. Click **OK**. The *Report Details* page is displayed and the status of the report changes to *Rework*.
The Audit section tracks both actions and comments entered while performing the *Rework* action.

7.4 Canceling Report Filing

For any valid reasons, if you determine that a report should not be filed, then you can cancel it. After the report is canceled, you cannot edit the report details.

Only authorized users can cancel a report from filing. For more information on user privileges, see [Table 4](#).

To cancel filling the report, follow these steps:

1. On the *Reports Details* page, click **Cancel Filing**. The *Cancel Filing* window is displayed.
2. Enter comments in the *Comments* box.

NOTE In the Comments box in the Request for Approval window, you can enter a maximum of 255 characters.

3. Click **Save**. A confirmation message is displayed.
4. Click **OK**. The *Report Details* page is displayed and the status of the report changes to *Canceled*.

NOTE The due date of the report is deleted on taking the *Cancel Filing* action.

The Audit section tracks both actions and comments entered while performing the *Cancel* action.

7.5 Reopening Reports

If a report is canceled for any reason or it needs to be evaluated again, an Analyst or a Supervisor can reopen a report in the *Canceled* status.

To reopen a report from *Report Details* page, follow these steps:

1. On the *Reports Details* page, click **Reopen**. The *Reopen Reports* window is displayed.
2. Enter comments in the *Reopen* window.

NOTE In the Comments box in the Request for Approval window, you can enter a maximum of 255 characters.

3. Click **Save**. A confirmation message is displayed.
4. Click **OK**. The *Report Details* page is displayed and the status of the report changes to *Reopened*.

The Audit section tracks both actions and comments entered while performing the *Reopen* action.

7.6 Submitting the Reports

Authorized users can submit a report after the report is validated.

To submit a report, follow these steps:

1. On the *Reports Details* page, click **Submit**. The *Submit* window is displayed.
2. Enter *Comments*, if required.
3. Click **Save**, the report is submitted.

The following activities are allowed after submitting a report:

- The final report can be viewed, saved as a local copy, or printed.
- The report can be edited by any user.
- System Initiated feedback to OFS ECM can be sent on processing *Generate Revised Reports* actions.
- In the revised reports, the feedback is sent to the original case from which the revised report is created. For manually created reports, no feedback is sent.

7.7 Adding Comments

An Analyst, Auditor, or Supervisor can add comments to a report in any status.

To add comments to a report, follow these steps:

1. On the *Reports Details* page, click **Audit**. The *Audit* window is displayed.
2. Enter the comments in the *Comments* box.

NOTE In the Comments box in the Request for Approval window, you can enter a maximum of 255 characters.

3. Click **Done**. The Audit section tracks both actions and comments entered while performing the *Set Due Date* action.

7.8 Generating PDF

An Analyst, Auditor, or Supervisor can generate PDF of a report in any status.

You can generate a new PDF whenever you do changes in the Report Details page.

To generate/download new or existing PDF, follow these steps:

1. On the *Reports Details* page, click **Generate PDF**. The **Report PDF List** window is displayed.
2. Click **Generate PDF**. The latest generated PDF is listed in the Report PDF List. Click **Refresh** to check the latest generated PDF.

NOTE

- If you try to generate a PDF without changing any information in the Report Details page, an error message is displayed.
- It takes few moments to generate any new PDF.

3. Click on the name of the report link to download the latest PDF.

7.9 Setting a Due Date

Analyst and Supervisor can set a due date or modify an existing due date of a report to close or report to the regulator by that date.

The **Set Due Date** action is available in the application only when an Administrator set the **Edit Due Date Flag** attribute to **Y** in the *Application Parameters* table

Table 27 explains Setting a Due Date.

Table 27: Behavior and Attributes for Due Date

Attribute Name	Value	Behavior
Due Date with edit		Users mapped to this role can set/edit/view the due date.
Due date with view		Users mapped to this role can only view the due date.
Number of Days	N	When a report is created either manually or through action from the case, the application automatically sets the due date to action date + N calendar days. If the parameter is blank, no date is set. The default is five days.

Table 28 explains the statuses in which the Analyst and Supervisor users can perform the *Set Due Date* action:

Table 28: User Roles and Set Due Date Action

Menu	Role			
	Analyst1	Analyst2	Supervisor	Auditor
Open	X	X	X	
Reopened	X	X	X	
Requested for Approval	X	X	X	
Rework	X	X	X	
Approved	X	X	X	
Cancelled				
Acknowledged				
Rejected from E-File				
E-File Generated	X	X	X	
Submitted				

NOTE An Auditor can only view the Due Date.

To set a due date for a report, follow these steps:

1. On the *Reports Details* page, click **Set Due Date**. The *Set Due Date* window is displayed.

The screenshot shows a web browser window titled "Set Due Date - Google Chrome". The address bar indicates a "Not secure" connection to a local server. The form is titled "Set Due Date" and contains three main sections: "Action Type" set to "Set Due Date", a "Due Date*" field with the value "23-12-2019" and a calendar icon, and a "Comments*" field with a large text area for input.

2. Enter the comments in the *Comments* box.

NOTE In the Comments box in the Request for Approval window, you can enter a maximum of 255 characters.

3. Select a date from the calendar.
4. Click **Save**. A confirmation message is displayed.
5. Click **OK**. The updated *Report Details* page is displayed.

The Audit section tracks both actions and comments entered while performing the *Set Due Date* action.
