How to Apply This Release?

For detailed instructions on installing this OFS ECM Release, see the [OFS ECM Application Pack Installation Guide 8.0.7.3.0](#).

Oracle Financial Services Enterprise Case Management

This section includes the following sub-sections:

- [New Features/Changes](#)
- [List of Issues Fixed in This Release](#)
- [Known Issues/Limitations in This Release](#)

New Features/Changes

The following change is incorporated in OFS ECM release 8.0.7.3.0.

- Correlation Updates - The default correlation from OFS ECM 8.0.7.3.0 is BD CORRELATION. The PGX CORRELATION has been removed in OFS ECM 8.0.7.3.0. Any entries or related contents of PGX CORRELATION for Out-Of- Box Case Types are deleted from the KDD_CASEENTITY_MASTER table and updated with the BD Correlation tab in the KDD_CASETYPE_ENTITY_MAP during installation. If PGX Correlation is already mapped to any case type, then it should be removed and updated with BD Correlation before Installing OFS ECM 8.0.7.3.0.

List of Issues Fixed in This Release

No additional issues have been resolved in OFS ECM Release 8.0.7.3.0.

Known Issues/Limitations in This Release

There are no known issues/limitations in OFS ECM Release 8.0.7.3.0.
