# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

*Introduction* provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.
- If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

### 3. Current Account Application

A current account is a deposit account held at a financial institution that allows withdrawals and deposits. They are also called as demand accounts and can be accessed using checks, automated teller machines and electronic debits.

Current accounts can include business accounts, student accounts and joint accounts, along with many other types of accounts that offer similar features. The current account application has been created so as to enable customers to apply for a current account by providing minimal personal details. As an applicant, you are also provided with the option to customize your account by adding features such as a debit card, cheque book, etc.

The application tracker has been built so as to enable tracking of the application once it is submitted. The application tracker also enables the applicant to retrieve and complete an application that has been saved.

#### Current Account Application Workflow

Following are the steps involved in the account application submission:

- **Applicant Information:** The applicant information sections consist of details such as basic personal information, identity, contact, and employment information of the applicant.
- **Features & Specifications:** In this section, you can customize your account by defining your preferences related to features provided against the account including debit card, cheque book and account statement.
- **Account Funding:** This section is enabled for existing customers i.e. for an applicant who has previously applied for and holds an account with the bank. As an existing customer, you will be provided with the option to fund the account you are applying for, through own account transfer i.e. you can select any of your existing current or savings accounts by which to fund the initial deposit of the new account.
- **Document Upload:** You might be required to provide documents supporting various proofs i.e. proof of identity, address proof, etc. that you have defined as part of the application. This

feature enabled you to upload documents supporting these proofs. You can upload multiple documents against a document type.

- **Review and Submit:** This section displays the summary of the application. You can verify details submitted as part of the application and can modify information if required.
- **Confirmation:** This section displays a message confirming that the application has been submitted along with details on and additional steps that might be required to be taken by the applicant or the bank.

All the sections defined above, apart from Review and Submit and Confirmation, will be displayed in the order defined specifically for Current Account applications by the bank administrator in the workflow configuration screen.

---

**Note:** The process type used for integration with UBS is BPEL.

### 3.16 Existing User

An application form being initiated by an existing user (registered user) will differ from that of one being initiated by a new/unregistered user. If you are applying for a current account product as an existing user, once you login to the banking system after having entered your login credentials, the application form will be displayed with all your personal details pre-populated in the respective fields and sections. You will, hence, be required to only specify details pertaining to the current account. The sections that will be pre-populated with your information are Primary Information, Proof of Identity, Contact Information and Employment Information.

## 4. Application Tracker

The Application Tracker enables you to view the progress of submitted applications and also to retrieve and complete applications that have been saved. Through the application tracker you can perform the following actions:

- **View submitted applications:** The application tracker enables you to view details of submitted application which includes viewing status history, application summary and uploaded documents as well as performing any pending tasks required for the processing of the application.
- **View applications in draft:** While filling out an application form, if you opt to save the application instead of submitting it, the application is saved in the application tracker as an 'In Draft application'. You can select any of the applications available under this tab in order to complete and submit that application.

### To track an application:

- Click **Track Application** on the dashboard. The **Login** screen is displayed.
- Enter the registered email ID and password, click **Login**.
- The **Application Tracker** screen is displayed. By default the submitted application view is displayed.

## 4.1 Submitted Application – Current Account

The following details are displayed on a current account application card under the Submitted tab of the application tracker page. On clicking on a specific card, the details page of that card appears. However, once an application has been completely processed, the card will no longer be clickable.
