1. Preface

1.1 Intended Audience
This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility
For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

1.3 Access to Oracle Support
Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit
http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

1.4 Structure
This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. **Credit Cards**

Credit card is a plastic card issued by a financial institution that involves the card holder and the financial institution entering into an agreement that the card holder will pay the institution back in the future so that they can purchase something at present. The financial institution lends the card holder the money that they use to make the purchase and expects that the user pays them back over a period of time (generally a month). The card holder is required to pay the entire amount back including a fee or interest charge if the amount is not paid back in full by the due date.

Credit cards are used by users to make purchases online or at a point of sale (POS). The card holder’s borrowing limit is pre-set based on the individual’s credit rating.

The application enables users to manage cards effectively and efficiently. Through the credit card module, a user is able to perform a variety of functions such as viewing credit card details and statements, applying for automatic and adhoc payment of credit card dues, initiating service requests such as request for a change in card billing cycle, request for PIN etc. Additionally the user can also apply for a new credit card from the credit card dashboard. A facility is also provided to view the details of an add-on card issued under primary card and perform a variety of functions. (Add-on credit card is an additional credit card that is issued under a primary card. The card can be issued for family members, parents, spouse or children, depending on the terms and conditions attached with the card)

This user manual covers all the services provided in the system with regards to credit cards.

### 3.1 Features Supported In Application

The retail credit card module supports the following features:

- Credit Card Widget
- View Credit Card Details
- Credit Card Bill Payment
- Manage Auto Pay Instruction
- View and Change Card Bill Cycle
- Update Cash and Credit Limits
- Request PIN
- Reset PIN
- Block Credit Card
- Cancel Credit Card
- Request for Add-On Card
- View Inactive/Hotlisted/Canceled Credit Cards
- View Statement
- View and Redeem Rewards Points
3.2 Prerequisites

- Transaction access is provided to retail user.
- Credit cards are maintained in the credit card host system under a party Id mapped to the user.
- User has valid user credentials to login into OBDX

3.3 Credit Card Widget

The credit card widget provides the user with a holistic view of all his credit cards held with the bank. Additional features available are to make credit card payments block the credit card, apply for a new credit card, and view of inactive cards.
Widget Overview

Credit Cards

This section lists number of active and inactive credit cards that the user holds with the bank.

- **Credit Cards (Active):** Lists all active credit cards of the user regardless of whether the user is a primary card holder or add on card holder are displayed in this section. Similarly all add on cards that are linked to the user’s primary card will also be displayed. Each card displays the name of the card holder as it is embossed on the card, as well as the outstanding amount. The user can click **More options** of each card to view further details.

- **Inactive Cards:** This widget displays the number of credit cards of the user that are inactive. By clicking on the **More options**, the user is able to view further details of all the inactive cards.

- **More options:** It provides the facility for users to access all the important features like:
  - Credit Card Details
  - View Statement
  - Pay Bills
  - Request PIN
  - Block / Cancel Card
  - Auto Pay
  - Reset PIN
  - Apply for Add-On Card

4. **Credit Card Details**

The user can navigate to the credit card details page by selecting any credit card displayed in the summary section of the credit cards dashboard.

This page displays important details of a credit card such as billing details, cash and credit limits, validity and reward details. Additionally, the user can initiate service requests from this page including PIN request, card block, auto pay, card cancellation, update of card limits, etc. If the user is the primary holder of the card, the facility to apply for an add on card is also provided on this page. The option to pay the credit card bill is provided against the billing details.

Following are the categories displayed in details:

- **Header** – This section displays the card holder name as it is embossed on the card, the card number in masked format and also the card nickname if already defined by the user and the option to update/add nickname.

- **Additional Information**: This section displays the validity of the card and its status. Further it also shows if it is enabled for international transactions or not.

- **Billing** – Information pertaining to billing such as current billing details including total and minimum amounts due, unbilled amount, due date as well as the billing cycle is displayed in this section. The option to pay the bill is also provided in this section, by clicking on which, the user is able to navigate to the bill payment page.

- **Limits**– This section displays limit information that includes the total and available credit limits as well as the total and available cash limits. The user is provided with the option to apply for a change in either of the two limit types i.e. cash and credit.

- **Rewards**: This section displays the amount of reward points accrued as on date.

**How to reach here:**

*Dashboard > My Account Widget > Credit Cards > More options > Credit Card Details*

*OR*

*Dashboard > Toggle menu > Credit Cards > Credit Card Details*

**To view the credit card details:**

1. The **Credit Card Details** screen along with the **Additional information, Billing, Limits, and Rewards** details appears.

2. Click on the **Back to Dashboard** link to go back to **Dashboard** screen. OR To view and download the statement, click **View Statement**. OR To pay the credit card bill, click **Card Payments** available against the total due amount. OR To block or cancel the credit card, click **Block/Cancel Card**. OR To change the bill cycle, click displayed against the bill date. OR To update Credit & Cash Limit, click **Update** available against the respective limit details. OR To reset the credit card pin, click **Reset PIN**. OR To request for credit card pin, click **Request PIN**. OR To redeem rewards points, click **Redeem Points**. OR To set auto pay for the credit card, click **Auto Pay**.

**Note:**

1) **Auto Pay** feature is available if user has opted for auto payment facility.

2) For Add on active credit card, **View Details**, **Request PIN**, **Block/Cancel card/ Replace card**, **View-Update Limits**, **View –Update international transactions**, **View Card Status transactions** will be available.
4.1 Update Limits

Users can update the cash and/or credit limit of a credit card by selecting the ‘Update’ option displayed against each limit on the credit card details screen. On selecting the ‘Update’ option at the bottom of the limits page, the ‘Update Card Limit’ page is displayed. The user can view the existing limit and has the option to specify the desired limit of cash and credit for the credit card selected.

The user can also update the limits of an add-on card. In this case, in addition to the existing limit, the screen also displays the maximum limit amount that can be set for the card. This maximum limit amount is the limit assigned to the primary card.

To modify the limits of the credit card:

1. Click Update to update the limits as required. An editable screen appears.

Credit Card - Update Limits

2. Update the available cash & credit limits, if required.

3. Click Save to save modified limits.
   
   OR
   
   Click Cancel to cancel the transaction.

4. The Update Limits popup appears.

5. Click Proceed to continue the transaction.
   
   OR
   
   Click Cancel to cancel the transaction.

6. The success message of limits saved successfully appears, along with the service request number.

7. Click Go To Dashboard to go to Dashboard screen.
   
   OR
   
   Click Go To Account Details to visit the accounts page.
4.2 Change Billing Cycle

Users might want to change the billing cycle of a credit card to better suit their needs. The application enables users to set a new billing cycle for any credit card of which they are primary card holders so as to enable the users to better manage their funds. The user can change ‘Billing Cycle’ by clicking the icon available against the billing details sub section in the credit card details page of a specific credit card.

To change billing cycle for credit card:
1. The current billing day appears.

Credit Card - Change Billing Cycle

2. Click The screen prompting you to change the current billing day.

3. From the Billing Cycle list, select the appropriate available new billing day to assign for the selected credit card.

4. Click to update changes.
   OR
   Click on the Back to Dashboard link to go back to Dashboard screen.

5. The Update Bill Cycle popup appears.

6. Click Proceed to continue the transaction.
   OR
   Click Cancel to cancel the transaction.

7. The application updates the new billing day.

8. Click Go To Dashboard to go to Dashboard screen.
   OR
   Click Go To Account Details to visit the accounts page.
5. **Card Payment**

This page provides the option to the user to make payments towards his credit card bills. User can select the amount he is willing to pay, whether that is minimum due, outstanding amount or a specified amount. This page is displayed when the user selects the ‘Card Payment’ option. The user can opt to pay the minimum amount due, the total outstanding amount due or specify an amount to pay towards credit card bill payment.

All the linked current and savings accounts of the user will be available for selection from which to make the payment. Once the user selects a source account, the available limit of that account will be displayed against the field so as to enable better management of funds.

**How to reach here:**

*Dashboard > Toggle menu > Credit Cards > Card Payment*

*OR*

*Dashboard > My Accounts Widget > Credit Cards > More options > Card Payment*

**Credit Card Payment**

![Credit Card Payment](image)

**Field Description**

<table>
<thead>
<tr>
<th>Field Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Select Amount to Pay</strong></td>
<td>Allows user to select payment amount. The options are:</td>
</tr>
<tr>
<td></td>
<td>- Minimum: minimum amount that can be paid for the card payment</td>
</tr>
<tr>
<td></td>
<td>- Outstanding: total outstanding amount that needs to be paid for the card payment</td>
</tr>
<tr>
<td></td>
<td>- Specify: specific amount to be paid by the user against the credit card payment</td>
</tr>
</tbody>
</table>
### Field Name | Description
--- | ---
**Amount** | Specific amount to be paid towards credit card bill payment. This field is enabled for input, if you select **Specify** option in **Select Amount to Pay** field.

**Source Account** | All the user’s current and savings accounts from which funds can be transferred for bill payment.

**Balance** | The account balance amount (with currency) of the current or savings account selected as source account.

**To make credit card payment:**

1. In the **Select amount to Pay** field, select the appropriate Payment type.
   a. If you select the Specify option in **Select amount to Pay** field:
      i. In the **Amount** field, enter the amount to be paid.
      ii. From the **Source Account** list, select the appropriate account number.
   b. If you select the Minimum or Outstanding options in **Select amount to Pay** field:
      The respective amount that has to be paid for bill payment appears.
      i. From the **Source Account** list, select appropriate account number.
2. To do the card payment, click **Pay**.
3. The **Review** screen appears. Verify the details, and click **Confirm**.
   OR
   Click **Cancel** to cancel the transaction.
4. The success message appears, along with the transaction reference number.
5. Click on the **Go to Dashboard** link to go back to **Dashboard** screen.
   OR
   Click **Go To Account Details** to visit the accounts page.

Home
6. **Request PIN**

The Request PIN feature enables a user to request for a new PIN for a credit card. The application supports new PIN request for both primary as well as for Add-On cards.

While applying for a new PIN request, the user can specify where the new PIN is to be delivered. The user can opt for the PIN to be delivered at his residence, his work place or can even select a branch at which the PIN is to be delivered.

**How to reach here:**

Dashboard > Toggle menu > Credit Cards > Request PIN  
OR  
Dashboard > My Accounts Widget > Credit Cards > More options > Request PIN

**Credit Card Request PIN**

![Image of Credit Card Request PIN interface]

**Field Description**

<table>
<thead>
<tr>
<th>Field Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delivery Location</td>
<td>The user can identify where the PIN is to be delivered.</td>
</tr>
<tr>
<td></td>
<td>The options are:</td>
</tr>
<tr>
<td></td>
<td>• My Address</td>
</tr>
<tr>
<td></td>
<td>• Branch Near Me</td>
</tr>
</tbody>
</table>

The following fields will be enabled if the **My Address** option in the **Delivery Location** field is selected.
To request PIN for the credit card:

1. In the Where would you like to receive the new PIN field, select the appropriate option.
   a. If you select the My Address option:
      i. From the Select Address list, select the appropriate option.
         Based on the option selected, the complete home/work address of the user as maintained by the bank is displayed.
   b. If you select the Branch Near Me option as delivery preference:
      i. From the City list, select the desired city.
      ii. From the Branch list, select the desired branch.
         The complete address of selected branch appears.

2. Click Submit.

3. The Review screen appears. Verify the details, and click Confirm.
   OR
   Click Back to go back to previous screen.
   OR
   Click Cancel to cancel the transaction.

4. The success message appears, along with the service request number.

5. Click Go To Dashboard to go to Dashboard screen.
   OR
   Click Go To Account Details to visit the accounts page.
7. **Reset PIN**

A credit card PIN is required to authenticate any credit card transaction. Without a PIN, the user will not be able to make any Point of Sale purchases. This feature enables users to generate Credit Card PIN anytime at their convenience.

**How to reach here:**

- Dashboard > Toggle menu > Credit Cards > Reset PIN
- OR
- Dashboard > My Account Widget > Credit Cards > More options > Debit Cards > Reset PIN

**To generate the credit card PIN:**

1. Click **Reset PIN** tab.
2. Click **Enter Card Details**.

**Reset PIN - Card Details**

12. Click **Go To Dashboard** to go to **Dashboard** screen.

   OR

   Click **Go To Account Details** to visit the accounts page.
8. **Block / Cancel Card**

8.1 **Block Card**

Loss of credit card or any fraudulent transaction suspected on a credit card is a nightmare for a user. In such a critical situation, visiting a branch or calling up user care to block the card is time consuming. The user should be able to block his credit card instantly in such situations. The Block Card feature of the application enables the user to raise a request to block a credit card immediately.

The user can raise a request to block a credit card at any time and can even specify the reason for which the request is being raised. The user can also request for a replacement card to be issued as part of the same request and can identify where the new card is to be delivered i.e. either to the user’s residence, work place or a branch.

This feature is available for both primary and Add-On cards.

**How to reach here:**

Dashboard > Toggle menu > Credit Cards > Block / Cancel Card

OR

Dashboard > My Accounts Widget > Credit Cards > More options > Block / Cancel Card

**Block Card**
<table>

</tr>
</tbody>
</table>

To block credit card and raise the request for replacement card:

1. Choose option **Block** to block the credit card.
2. From the **Specify Reason** list, select the appropriate reason to block the card.
3. This screen also displays the field through which the user can specify where the card has to be delivered.
   - If you opt **Yes**, for the replacement card in the **Delivery Location** field, select the appropriate delivery address.
     a. If you select the **My Address** option as delivery location:
        i. From the **Select Address** list, select the appropriate option.
           The complete address of user as maintained corresponding to the selected address appears.
     b. If you select the **Branch Near Me** option as delivery location:
        i. From the **City** list, select the desired city.
        ii. From the **Branch Near Me** list, select the desired branch.
           The complete address of selected branch appears.
4. Click **Submit**.
   OR Click **Cancel** to cancel the transaction.
   OR Click **Back to Dashboard** to go back to Dashboard screen.
5. The **Review** screen appears. Verify the details, and click **Confirm**.
   OR Click **Back** to go back to previous screen.
   OR Click **Cancel** to cancel the transaction.
6. The success message appears, along with the service request number. Click **Go To Dashboard** to go to Dashboard screen.
   OR Click Go **To Account Details**, to go to view the details of specific account.
8.2 Cancel Card

A user might want to cancel a credit card for any number of reasons. The application supports the credit card cancellation feature. By means of the Cancel Credit Card feature, the user can cancel a credit card and can specify the reason for cancellation and also provide additional feedback as to why the card is being cancelled.

The application supports cancellation of both primary as well as Add-On cards.

How to reach here:
Dashboard > Toggle menu > Credit Cards > Block / Cancel Card  
OR  
Dashboard > My Accounts Widget > Credit Cards > More options > Block / Cancel Card

Cancel Card

Field Description

Help us by providing a reason for cancellation
Field Name | Description
--- | ---
**Reason** | The user is required to specify the reason for which the card is being cancelled.

The options can be:
- Permanent Relocation
- Unhappy with services
- Too many charges
- Others

**Comments** | The user may provide additional feedback regarding the reason for which the card is being cancelled. This field is optional.

To cancel a credit card:
1. Choose option **Cancel** to cancel the credit card.
2. From the **Reason** list, select the appropriate reason to cancel the card.
3. Click **Submit**.
4. The **Review** screen appears. Verify the details, and click **Confirm**.
   OR
   Click **Back** to go back to previous screen.
   OR
   Click **Cancel** to cancel the transaction.

5. The success message appears, along with the service request number.
   Click **Go To Dashboard** to go to **Dashboard** screen.
   OR
   Click Go **To Account Details**, to go to view the details of specific account.
9. **Apply for Add-On Card**

Add-On cards, also known as supplementary cards, are cards issued to additional cardholders such as a spouse or a child, at the request of the primary card holder. The Add-On card holder might have the same limit as that of the primary card holder and cannot be held legally responsible for credit card payments. All expenses incurred on an Add-On card are billed to the primary card holder.

The application enables the primary card holder to apply for Add-On cards online. The user can apply for an Add-On card by selecting the option provide. The user can customize the Add-On card by specifying the name to be embossed on the card and also by defining the credit and cash limits of the card.

**How to reach here:**

Dashboard > Toggle menu > Credit Cards > Add-On Card

OR

Dashboard > My Accounts Widget > Credit Cards > More options > Add-On Card

**Add-On Card Request**

</tr>
</tbody>
</table>

To apply for an Add-On card:

1. From the Card For list, select the relation of the person for whom the Add-On card is required.
2. In the Name on Card field, enter the name of the Add-On card holder.
3. In the **Required credit limit** field, enter the desired credit limit for the Add-On card.

4. In the **Required cash limit** field, enter the desired cash limit for the Add-On card.

   **Note:** It is mandatory to define either the credit or cash limit of the Add-On card.

5. In the **Delivery Location** field, select the appropriate delivery address.
   a. If you select the **My Address** option;
      i. From the **Select Address** list, select the appropriate option. Based on the option selected, the complete home/work address of the user as maintained by the bank is displayed.
   b. If you select the **Branch Near Me** option;
      i. From the **City** list, select the desired city.
      ii. From the **Branch Near Me** list, select the desired branch. The complete address of selected branch appears.

6. Click **Apply**.
   OR
   Click **Cancel** to cancel the transaction.

7. The **Review** screen appears. Verify the details, and click **Confirm**.
   OR
   Click **Cancel** to cancel the transaction.

8. The success message appears, along with the service request number.

9. Click **Go to Dashboard** to go to **Dashboard**.
   OR
   Click Go **To Account Details**, to go to the accounts page.
10. **Auto Pay**

Missing a credit card payment or not having time to make the payment is a common occurrence. Penalties and extra charges are bound to be applied if a user fails to make a credit card payment on time.

In order to help users avoid such situations, the application supports the auto pay functionality. This feature enables a user to set automatic payment instructions for a specific credit card.

While setting up the auto pay instruction, the user identifies whether the minimum amount due is to be paid or whether the total amount due is to be paid. The user is also required to identify the linked current or savings account from which the funds has to be debited in order to make the payment.

The Auto pay instruction is executed as per the credit card bill cycle for the selected card. The user can de-register from auto pay at any time.

**How to reach here:**

Dashboard > Toggle menu > Credit Cards > AutoPay

OR

Dashboard > My Accounts Widget > Credit Cards > More options > AutoPay

**Auto Pay Register**

<table>
<thead>
<tr>
<th>Field Name</th>
<th>Description</th>

11. View Statement

The Card Statement feature enables users to view details of all purchases, payments and any other debits and credits made to their credit card accounts. Users can select any card of which to view the statement. All transactions initiated on the card are displayed in chronological order of spending, with the latest transactions displayed first. Only primary cards are available for selection. On selecting a primary card, if any Add-On cards are linked to it, the transactions initiated on the Add-On card are also listed.

In addition to being able to select a specific card of which to view the statement details, users can also filter transactions based on billed or unbilled transactions. On selecting the option ‘billed’ the user can select the billing month to view the statement of that month.

By subscribing to e-statements, the user receives statements on his registered email address.

The application allows the user to unsubscribe from the e-statement facility. Once an unsubscribe request is made, the user will stop receiving e-statements on his email address.

The Download Pre-generated option, allows the user to view, download and print the pre-generated e-statements by selecting the desired period.

How to reach here:

Dashboard > Toggle menu > Credit Cards > View Statement
OR
Dashboard > My Accounts Widget > Credit Cards > More options > View Statement

11.1 View Statement

To view the account statement:

1. From the Credit Card Number list, select the appropriate credit card account for which statement has to be generated.

2. Click the View Statement tab to view the card transactions.

3. From the View Option list, select the appropriate transaction type option.
   If Billed Transactions is selected:
   a. From the Month list, select the appropriate month to further filter the billed transactions.
      Based on the Month, the credit card statement appears.
Card Statement- View Statement

Field Description

Field Name     Description

Card Number     The user can select the card for which to view the statement. The cards are available for selection in a drop-down and are displayed in masked format along with the account nickname.
For more information on Account Nickname, refer Account Nickname.

Filter/ Options

View Option     Filters to view the transaction type.
The options are:
- Billed
- Unbilled

Month          The user is required to select a month so as to be able to view the billed transactions of that month.
This field appears if you select the Billed Transactions option from the Transaction Type list.

Result

Period

Year          | The year for which the pre-generated statement is to be viewed / downloaded / printed                                                        |
Month         | The month for which the pre-generated statement is to be viewed / downloaded / printed.                                                    |

3. From the Period list, select the desired year and month for which pre-generated statement is to be generated.

4. Click Search to find the statement for the selected period.

5. Click on the format column to download / print the statement.
FAQs

How do I view the transactions undertaken by the Add-On card holder?
The description of each transaction record displays details of the transaction as well as
the card name and number using which the transaction was performed. Based on the
name and number, you can identify which transaction was initiated by the primary card
and which was initiated by the Add-On card.

How does the bank keep the card holder informed of the transactions initiated
using the credit card issued?
Banks sends a monthly statement to all card holders giving details of the transactions
made using the card and the amount required to be paid to settle dues.

Will my e-Statement look the same as my paper statement?
Yes. Your e-Statement looks exactly like your paper statement.
12. Inactive Cards Details

All cards that have been cancelled, blocked or deactivated are displayed on the Inactive Cards page. Users should be able to track all cards that are inactive so as to identify if any action needs to be taken regarding the status of these cards. Through the Inactive Cards feature of the application, users can view details of all their credit cards that have been cancelled, blocked or deactivated.

The following actions can be taken on cards that are inactive:

- **Blocked Cards** – The user can pay the outstanding amount due.
- **Deactivated Cards** – The user can raise a request to activate the card and also pay any outstanding amount due on the card.
- **Cancelled Cards** – No action can be taken on these cards.

Once a card has been activated, it will no longer be displayed under inactive cards and will be available on the credit cards dashboard under the section listing down all the active credit cards.

The details of cancelled cards will not be displayed. Instead, the user can only view the summary of any cards that have been cancelled.

How to reach here:

Dashboard > My Account Widget > Credit Cards > Inactive/ Closed > More options > Credit Card Details

To view inactive credit card details:

1. All the inactive credit cards held by a user appear along with the Billing, Limits, and Rewards details.

13. **Activate Card**

A user might need to activate a credit card in the following cases:

- A new card is issued to the user, which needs to be activated
- The card which was in Deactivate state is now ready to use.

While initiating an Activate Card request, the user is required to specify the reason for which the card is being activated.

Once a card has been activated, it will no longer be displayed under inactive cards and will be available on the credit cards dashboard under the section listing down all the active credit cards.

**How to reach here:**

Dashboard > My Account Widget > Credit Cards > Inactive / Closed

**To activate a deactivated card:**

1. Select the inactive card which is to be activated.
2. Click on More option, and select the Card Details option.
3. The Inactive Card Details screen appears.
4. To activate the card, drag the Card Status toggle field. The Activate Card popup screen appears.

   OR
   Click , to delete nickname.

FAQs

What is the advantage of adding nickname to an account?
You can personalize your account by giving it a nickname. This way you will be able to easily identify it when viewing cards summary.

How can I check my credit card account balance?
The credit card details page displays a summary of your current account status, including outstanding balance, available credit limit and information as to when your next payment is due.

What are the actions that can be performed by a primary card holder and those that can be performed by an Add-On card holder?
The primary card holder can perform the actions on Primary as well as on the Add-On cards linked to the primary card like Pay outstanding bill amount, Change bill cycle, Update limits, Request PIN, Block card, Request for Auto Pay, Cancel card, and Apply for Add-On card (This option will be available only if the maximum limit of Add-On cards linked to the card has not been crossed.)

Add-On card holders can perform actions only on the assigned Add-On cards like Update limits, Request PIN, Block card, and Cancel card.
The bill / Statement indicate 'Minimum Amount Due' and 'Total Amount Due'. What is the amount required to be paid by me?

The amount indicated as ‘Total Amount Due’ is required to be paid by the ‘payment due’ date. In case this is not done, interest will be charged on the outstanding balance and on any new transaction undertaken from the date of the transaction till such time that the past dues are paid in full.

In case the ‘Minimum Amount Due’ is paid, no late payment fee will be charged. However, interest will be charged on the balance outstanding amount due after the due date for payment. Interest will also be levied on all cash advances from the date of the transaction until the date of payment.

What is a Credit Limit?

The ‘Credit limit’ is the maximum amount that a user can spend/borrow on a single credit card. This limit is defined by the bank/financial institution based on the user’s credit rating and history.

What is a Cash Limit?

The cash limit of a credit card is the maximum amount of money that can be withdrawn on the credit card.

Can I update the limits applicable on an Add-On credit card?

Yes, you can update both the cash and credit limits of an Add-On card. However, the limits of an Add-On card cannot exceed the respective limits of the primary card to which it is linked.

What is the impact on the billing cycle of an Add-On card when the billing cycle of the primary card, to which it is linked, is changed?

When the billing cycle of a primary card is changed, the same billing cycle will be applicable on all linked Add-On cards as well.

Is the bank required to manually accept a request for change in billing cycle or does it get automatically approved?

Depending on the bank’s configuration, manual acceptance by the bank might be required or it could be a straight through process where in the billing cycle gets changed automatically when a request to change is initiated by the user.

If I suspect someone has stolen my credit card or used it to make a fraudulent purchase, what should I do?

You should block the card immediately from your online banking portal. If you do not have access to the online application you should call up at the bank’s call centre and inform the bank to block the card immediately.

What happens to Add-On cards linked to a primary card if the primary card is blocked?

The status of the Add-On cards, linked to a primary card that is blocked, remains active. The card holders can continue to transaction using the Add-On cards.
Will the bank cancel a credit card if the card holder requests bank to do so?
Yes. The bank cancels the credit card provided that the outstanding amount, if any, is settled/paid.

Where can I view details of all cancelled, blocked and deactivated credit cards?
You can view the details of all cards that have been cancelled, blocked or deactivate in the Inactive Cards page by selecting the View All option available in the Inactive Cards widget on the Credit Cards dashboard.

What is Auto Pay and what is the difference between auto pay and scheduled payments?
Auto Pay or automatic payment is a request initiated by a user instructing the bank to make regular credit card bill payments via automatic direct debit from a specified savings or checking account. The difference between auto pay and scheduled payments is that once a user sets up an auto pay instruction with the bank, he need not manually make payments towards credit card bill payment. The bank will automatically debit the selected account for the credit card bill amount (depending on instruction which could be to pay the minimum due or the total amount due) subject to availability of funds in the account. If an auto pay instruction is not made, the user will be required to make scheduled manual payments towards credit card bill payment.

I made a mistake while setting the auto pay instruction for my credit card. Can I update the same?
You can update the auto pay instruction of a credit card if it has been accepted by the bank. If the request is still in process, you cannot update the instruction.

How do I view the transactions undertaken by the Add-On card holder?
The description of each transaction record displays details of the transaction as well as the card name and number using which the transaction was performed. Based on the name and number, you can identify which transaction was initiated by the primary card and which was initiated by the Add-On card.

How does the bank keep the card holder informed of the transactions initiated using the credit card issued?
Banks sends a monthly statement to all card holders giving details of the transactions made using the card and the amount required to be paid to settle any dues.
